Bureau of the Census

[Docket No. 950901225–5225–01]

Annual Trade Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of Determination.

SUMMARY: In accordance with Title 13, United States Code, Sections 182, 224, and 225, I have determined the Census Bureau needs to collect data covering year-end inventories, annual sales, and purchases to provide a sound statistical basis for the formation of policy by various governmental agencies. These data also apply to a variety of public and business needs. This annual survey is a continuation of similar wholesale trade surveys conducted each year since 1978. It provides on a comparable classification basis annual sales and purchases for 1995 and inventories for 1994 and 1995. These data are not available publicly on a timely basis from nongovernmental or other governmental sources.

FOR FURTHER INFORMATION CONTACT: Nancy A. Piesto or Edward Murphy on (301) 457–2779.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to take surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United States Code. This survey will provide continuing and timely national statistical data on wholesale trade for the period between economic censuses. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic censuses.

The Census Bureau will require selected firms operating merchant wholesale establishments in the United States (with sales size determining the probability of selection) to report in the 1995 Annual Trade Survey. We will furnish report forms to the firms covered by this survey and will require their submission within thirty days after receipt. The sample will provide, with measurable reliability, statistics on the subjects specified above. This survey has been submitted to the Office of Management and Budget, in accordance with the Paperwork Reduction Act, Public Law 96–511, as amended, and was cleared under OMB Control No. 0607–0195. We will provide copies of the form upon written request to the Director, Bureau of the Census, Washington, DC 20233.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

Dated: September 6, 1995.

Martha Farnsworth Riche,

Director, Bureau of the Census.

BILLING CODE 3510–07–P

Foreign-Trade Zones Board

[Docket 50–95]

Proposed Foreign-Trade Zone—Kodiak, Alaska, Application and Public Hearing

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Kodiak Island Borough (an Alaskan municipal corporation), requesting authority to establish a general-purpose foreign-trade zone at sites on Kodiak Island. Designation of the Kodiak Airport as a Customs user fee airport is being requested under separate application to the U.S. Customs Service. The FTZ application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on August 31, 1995. The applicant is authorized to make the proposal under Alaska Statutes, Chapter 77, Section 10.

The proposed zone would consist of eleven sites (4,265 acres) within the City of Kodiak and the Kodiak Island Borough: *Site 1* (Kodiak Space Launch Complex—3,077 acres)—at Narrow Cape, 45 miles SW of the City of Kodiak; *Site 2* (Port of Kodiak/Pier II—4 acres)—City and Port of Kodiak, 403 Marine Way; *Site 3* (Port of Kodiak/Pier III/Sea-Land—4.5 acres)—727 Shelikof, Kodiak; *Site 4* (Port of Kodiak—St. Herman Harbor, Near Island—380 acres); *Site 5* (Fuller's Boatyard Industrial Center—4.3 acres) Marine Way, Kodiak; *Site 6* (International Seafoods of Alaska—5.5 acres)—Marine Way, Kodiak; *Site 7A (13 acres) & 7B (32 acres)*—(Natives of Kodiak, Inc.—45 acres)—2 miles SW of the City of Kodiak on West Rezanof Drive; *Site 8*—(Kodiak State Airport—611.55 acres)—1500 Anton Larsen Bay Road; *Site 9*—(Lash Terminal—Seaport Terminal Services—78.5 acres)—7205 West Rezanof Drive, Kodiak; *Site 10A (44.94 acres) & 10B (9.16 acres)*—(Koniag Regional Native Corp.—53 acres) 2 sites located at the following distances SW of the City of Kodiak on East Rezanof Drive at the head of Womens Bay (10A—Bruhn Point—7.5 miles; 10B—Frye Point—9 miles); and, *Site 11* (Old Harbor—1.5 acres) south portion of the former Old Harbor Airport on Three Saints Avenue.

The application contains evidence of the need for zone services in the Kodiak, Alaska, area. Site 1, the Kodiak Space Launch Complex, will serve as the primary site. It includes launch pads, rocket storage and assembly facilities, and a satellite payload assembly facility. In regard to usage of the proposed sites, in general, several firms have indicated an interest in using zone procedures for warehousing/distribution of such items as oil spill response mobile vans, seafood, boats and logs. No manufacturing approvals are being sought at this time. Such approvals would be requested from the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

As part of the investigation, the Commerce examiner will hold a public hearing on October 5, 1995, 9:00 a.m., Kodiak Island Borough Assembly Chambers, Borough Building, 710 Mill Bay Road, Kodiak, Alaska 99615–6340.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 13, 1995. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 14-day period (to November 22, 1995).

A copy of the application and accompanying exhibits will be available during this time for public inspection at the following locations:

Kodiak Island Borough Mayor's Office, Borough Building, 710 Mill Bay Road, Kodiak, Alaska 99615–6340

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th and Pennsylvania Avenue, NW., Washington, DC 20230

Dated: September 6, 1995.

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510–DS–P

National Oceanic and Atmospheric Administration

[I.D. 090695A]

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting.

DATES: The meeting will be held on October 2, 1995, from 1:00 p.m. until 5:00 p.m.; on October 3 and October 4, from 8:00 a.m. until 5:00 p.m. each day, and on October 5, from 8:00 a.m. until 12:00 noon.

ADDRESSES: This meeting will be held at the NMFS Southeast Fisheries Science Center, 75 Virginia Beach Drive, Miami, FL; telephone: (305) 361–4284.

Council address: Gulf of Mexico Fishery Management Council, 5401 West Kennedy Boulevard, Suite 331, Tampa, FL 33609.

FOR FURTHER INFORMATION CONTACT: Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council; telephone: (813) 228–2815.

SUPPLEMENTARY INFORMATION:

The Reef Fish Stock Assessment Panel (Panel) will review a recent assessment of the status of the red snapper stock and develop the range of allowable biological catch (ABC) for the 1996 season. This panel of scientists will develop the ABC range from the assessment prepared by NMFS. The Panel also will consider information on the use of marine sanctuaries and restoration periods for red snapper and will draft the Panel report to the Council.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Patricia Bear at the Council (see **ADDRESSES**) by September 22, 1995.

Dated: September 7, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Products Produced or Manufactured in Bangladesh

September 7, 1995.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–

4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being adjusted, variously, for swing, carryforward and special shift.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 59 FR 65531, published on December 20, 1994). Also see 60 FR 5371, published on January 27, 1995.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing, but are designed to assist only in the implementation of certain of their provisions.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 7, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on January 24, 1995, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Bangladesh and exported during the twelve-month period which began on January 1, 1995 and extends through December 31, 1995.

Effective on September 14, 1995, you are directed to amend the January 24, 1995 directive to adjust the limits for the following categories, as provided for under the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit[1]
347/348	1,807,507 dozen.
351/651	556,644 dozen.
638/639	1,053,730 dozen.
645/646	220,292 dozen.
847	456,880 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1994.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C.553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc.95–22694 Filed 9–12–95; 8:45 am]

BILLING CODE 3510–DR–F

Adjustment of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Indonesia

September 7, 1995.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Janet Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–6704. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being increased for carryover.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 59 FR 65531, published on December 20, 1994). Also see 60 FR 17325, published on April 5, 1995.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing, but are designed to assist only in the implementation of certain of their provisions.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 7, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on March 30, 1995, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Indonesia and exported during the twelve-month period which began on January 1, 1995 and extends through December 31, 1995.

Effective on September 14, 1995, you are directed to amend the directive dated March 30, 1995 to increase the limits for the following categories, as provided for under the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit[1]
Levels in Group I	
200	724,490 kilograms.
219	6,484,406 square meters.
225	5,323,210 square meters.
313	13,749,037 square meters.
314	50,178,236 square meters.
331/631	1,609,343 dozen pairs.
334/335	203,688 dozen.
342/642	311,196 dozen.
347/348	1,708,475 dozen.
359–S/659–S[2]	1,296,246 kilograms.
360	1,153,654 numbers.
361	1,153,654 numbers.
443	91,182 numbers.
445/446	46,050 dozen.
447	17,246 dozen.
448	17,458 dozen.
604–A[3]	487,623 kilograms.
611	5,496,469 square meters.
618	2,883,343 square meters.
619/620	8,036,726 square meters.
625/626/627/628/629	21,094,443 square meters.
634/635	257,995 dozen.
641	1,840,587 dozen.
643	270,472 numbers.
644	353,779 numbers.
645/646	663,381 dozen.
847	351,774 dozen.
Subgroup in Group II	
400, 410, 414, 431, 432, 434, 435, 436, 438, 439, 440, 442, 444, 459, 464, 465, 469, as a group.	3,179,889 square meters equivalent.
In Group II subgroup	
435	48,903 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1994.

[2] Category 359–S: only HTS numbers 6112.39.0010, 6112.49.0010, 6211.11.8010, 6211.11.8020, 6211.12.8010 and 6211.12.8020; Category 659–S: only HTS numbers 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020.

[3] Category 604–A: only HTS number 5509.32.0000.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 7, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on December 16, 1994, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textile products, produced or manufactured in the People's Republic of China and exported during the twelve-month period which began on January 1, 1995 and extends through December 31, 1995.

Effective on September 14, 1995, you are directed to amend further the directive dated December 16, 1994 to adjust the limits for the following categories, as provided under the terms of the bilateral agreement between the Governments of the United States and the People's Republic of China:

Category	Adjusted twelve-month limit[1]
Group I	
200, 218, 219, 226, 237, 239, 300/301, 313–315, 317/326, 331, 333–336, 338/339, 340–342, 345, 347/348, 350–352, 359–C[2], 359–V[3], 360–363, 369–D[4], 369–H[5], 369–L[6], 410, 433-436, 438, 440, 442–444, 445/446, 447, 448, 607, 611, 613–615, 617, 631, 633–636, 638/639, 640–643, 644/844, 645/646, 647–652, 659–C[7], 659–H[8], 659–S[9], 666, 669–P[10], 670–L[11], 831, 833, 835, 836, 840, 842 and 845–847, as a group.	1,398,242,981 square meters equivalent.
Sublevels in Group I	
218	11,253,459 square meters.
338/339	2,476,533 dozen of which not more than 1,879,960 dozen shall be in Categories 338–S/339–S[12].
359–C	570,540 kilograms.
369–L	3,130,465 kilograms.
Group II	
330, 332, 349, 353, 354, 359–O[13], 431, 432, 439, 459, 630, 632, 653, 654 and 659–O[14], as a group.	123,554,464 square meters equivalent.
Group III	
201, 220, 222, 223, 224–V[15], 224–O[16], 225, 227, 229, 369–O[17], 400, 414, 464, 465, 469, 600, 603, 604–O[18], 606, 618–622, 624–629, 665, 669–O[19] and 670–O[20], as a group.	260,913,574 square meters equivalent.
Group IV	
832, 834, 838, 839, 843, 850–852, 858 and 859, as a group.	11,036,942 square meters equivalent.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1994.

[2] Category 359–C: only HTS numbers 6103.42.2025, 6103.49.8034, 6104.62.1020, 6104.69.8010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025 and 6211.42.0010.

[3] Category 359–V: only HTS numbers 6103.19.2030, 6103.19.9030, 6104.12.0040, 6104.19.8040, 6110.20.1022, 6110.20.1024, 6110.20.2030, 6110.20.2035, 6110.90.9044, 6110.90.9046, 6201.92.2010, 6202.92.2020, 6203.19.1030, 6203.19.9030, 6204.12.0040, 6204.19.8040, 6211.32.0070 and 6211.42.0070.

[4] Category 369–D: only HTS numbers 6302.60.0010, 6302.91.0005 and 6302.91.0045.

[5] Category 369–H: only HTS numbers 4202.22.4020, 4202.22.4500 and 4202.22.8030.

[6] Category 369–L: only HTS numbers 4202.12.4000, 4202.12.8020, 4202.12.8060, 4202.92.1500, 4202.92.3015 and 4202.92.6090.

[7] Category 659–C: only HTS numbers 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.8038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.8014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6203.49.1010, 6203.49.1090, 6204.63.1510, 6204.69.1010, 6210.10.9010, 6211.33.0010, 6211.33.0017 and 6211.43.0010.

[8] Category 659–H: only HTS numbers 6502.00.9030, 6504.00.9015, 6504.00.9060, 6505.90.5090, 6505.90.6090, 6505.90.7090 and 6505.90.8090.

[9] Category 659–S: only HTS numbers 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020.

[10] Category 669–P: only HTS numbers 6305.31.0010, 6305.31.0020 and 6305.39.0000.

[11] Category 670–L: only HTS numbers 4202.12.8030, 4202.12.8070, 4202.92.3020, 4202.92.3030 and 4202.92.9025.

[12] Category 338–S: all HTS numbers except 6109.10.0012, 6109.10.0014, 6109.10.0018 and 6109.10.0023; Category 339–S: all HTS numbers except 6109.10.0040, 6109.10.0045, 6109.10.0060 and 6109.10.0065.

[13] Category 359–O: all HTS numbers except 6103.42.2025, 6103.49.8034, 6104.62.1020, 6104.69.8010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025, 6211.42.0010 (Category 359–C); 6103.19.2030, 6103.19.9030, 6104.12.0040, 6104.19.8040, 6110.20.1022, 6110.20.1024, 6110.20.2030, 6110.20.2035, 6110.90.9044, 6110.90.9046, 6201.92.2010, 6202.92.2020, 6203.19.1030, 6203.19.9030, 6204.12.0040, 6204.19.8040, 6211.32.0070 and 6211.42.0070 (Category 359–V).

[14] Category 659–O: all HTS numbers except 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.8038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.8014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6203.49.1010, 6203.49.1090, 6204.63.1510, 6204.69.1010, 6210.10.9010, 6211.33.0010, 6211.33.0017, 6211.43.0010 (Category 659–C); 6502.00.9030, 6504.00.9015, 6504.00.9060, 6505.90.5090, 6505.90.6090, 6505.90.7090, 6505.90.8090 (Category 659–H); 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020 (Category 659–S).

[15] Category 224–V: only HTS numbers 5801.21.0000, 5801.23.0000, 5801.24.0000, 5801.25.0010, 5801.25.0020, 5801.26.0010, 5801.26.0020, 5801.31.0000, 5801.33.0000, 5801.34.0000, 5801.35.0010, 5801.35.0020, 5801.36.0010 and 5801.36.0020.

[16] Category 224–O: all HTS numbers except 5801.21.0000, 5801.23.0000, 5801.24.0000, 5801.25.0010, 5801.25.0020, 5801.26.0010, 5801.26.0020, 5801.31.0000, 5801.33.0000, 5801.34.0000, 5801.35.0010, 5801.35.0020, 5801.36.0010 and 5801.36.0020 (Category 224–V).

[17] Category 369–O: all HTS numbers except 6302.60.0010, 6302.91.0005 and 6302.91.0045 (Category 369–D); 4202.22.4020, 4202.22.4500, 4202.22.8030 (Category 369–H); 4202.12.4000, 4202.12.8020, 4202.12.8060, 4202.92.1500, 4202.92.3015, 4202.92.6090 (Category 369–L); and 6307.10.2005 (Category 369–S)

[18] Category 604–O: all HTS numbers except 5509.32.0000 (Category 604–A).

[19] Category 669–O: all HTS numbers except 6305.31.0010, 6305.31.0020 and 6305.39.0000 (Category 669–P).

[20] Category 670–O: only HTS numbers 4202.22.4030, 4202.22.8050 and 4202.32.9550.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–F

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF Scientific Advisory Board Meeting

The Fall General Board of the USAF Scientific Advisory Board will meet on 19–20 October 1995 at Andrews AFB, MD from 8:00 a.m. to 5:00 p.m.

The purpose of the meeting is for the board to receive feedback on the studies of the past year, hear special topics, and provide a forum for organizing and focusing the Board for the upcoming year.

The meeting will be closed to the public in accordance with Section 552b of Title 5, United States Code, specifically subparagraphs (1) and (4) thereof.

For further information, contact the Scientific Advisory Board Secretariat at (703) 697–8404.

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910–01–P

DEPARTMENT OF ENERGY

Chicago Operations Office, Award Based on Acceptance of an Unsolicited Application, University of Illinois—Energy Resources Center

AGENCY: Department of Energy.

ACTION: Notice of Noncompetitive Financial Assistance Award.

SUMMARY: The Department of Energy (DOE), Chicago Operations Office, announces its intent to award a grant to the University of Illinois—Energy Resources Center. The University's unsolicited application was found to be meritorious by DOE based on the evaluation criteria set forth in 10 C.F.R. 600.14(d)(1), (2), (3), (4), and (e)(i) and (ii) and is being accepted as it represents a unique, innovative idea, method and approach which would not otherwise be eligible for financial assistance under any recent, current, or planned solicitation. The objective of the work to be supported by this grant is for the Energy Resources Center at the University of Illinois to develop and successfully execute the twenty-third consecutive energy-environmental conference entitled, "Energy and Environmental Policy in a Period of Political Transition," to be held November 20–21, 1995 in Chicago, Illinois.

The project period for the grant is for a 6 month period, expected to begin September 30, 1995. DOE plans to provide funding in the amount of $15,000.00 for this project period.

FOR FURTHER INFORMATION CONTACT: Marlene E. Martinez, U.S. Department of Energy, Chicago Operations Office, 9800 South Cass Avenue, Argonne, Illinois 60439, (708) 252–2080.

Issued in Chicago, Illinois on September 5, 1995.

Timothy S. Crawford,

Argonne Group Manager.

[FR Doc. 95–22755 Filed 9–12–95; 8:45 am]

BILLING CODE 6450–01–P

Chicago Operations Office; Award Based on Acceptance of an Unsolicited Application

AGENCY: Department of Energy.

ACTION: Notice of Financial Assistance Award in Response to an Unsolicited Financial Assistance Application.

SUMMARY: The U.S. Department of Energy announces that pursuant to 10 CFR 600.14(e), it plans to negotiate and award Grant Number DE-FG02–95CH10846 to the Equity Research Corp.

SUPPLEMENTARY INFORMATION: The anticipated objective of the award is to provide for the application of "Best Available Science" (BAS) to the reevaluation of assessment methods based on scientific knowledge rather than opinions or value judgements. This proposal provides for a unique approach to choose the best available scientific information in that it suggests a clear separation of science from societal goals to enhance the accuracy of estimating environmental risks in an attempt to limit costly adverse effects. These goals will provide scientifically based data for others to utilize in pursuing environmental issues in the education arena and provide the general public as well as the professional societies, knowledge of how risk factors were determined by making consensus reports more accessible. This proposal provides a public service by providing the public with the best and most accurate scientific information with respect to utilizing the Best Available Science. DOE's Office of Environmental Management believes that there is a high probability of achieving the objectives.

The public is greatly served if environmental decisions would be based on BAS. It is the belief of the grantee that objectively computed risks will be somewhat lower than those based upon societal objectives. The lower the risk, the smaller the costs for adverse effects caused within the human health and environmental areas. It is likely that if this approach is successful the cost of environmental protection would be significantly reduced. Consequently, a higher level of environmental protection could be achieved by the current level of funding. Additional benefits of this project are enhancement of public and university education and increases in the availability of relevant published scientific formation. Through the introduction of the publication, "Technology" and the first volume of "Encyclopedia of Environment" the public will have easier access to data presented in relevant papers and consensus reports regarding BAS. Education will be enhanced by the utilization of high school or community college minority students in researching environmental issues while applying BAS, participating with professional organizations in providing environmental courses, participation in technical conferences to discuss BAS for environmental issues, as well as participating in technical panels and making presentations to various groups regarding BAS in human health and environmental concerns.

The grantee plans to obtain this objective by educating students and professional organizations about the benefits and needs of BAS in relation to existing practices; and the dissemination of scientific information through the Technology publication and the new Encyclopedia of Environment. To assure reliance upon BAS the grantee proposes the utilization of not-for-profit professional organizations which include the following: (1) the American Society of Mechanical Engineers (ASME); (2) the American Association for the Advancement of Technology (AAAT); (3) the American Association of Engineering Societies (AAES); and (4) the National Council and Radiation Protection and Measurements (NCRPM). These organizations can provide peer-review of scientific aspects of the societal decisions, can reach a consensus on scientific subjects related to protection of human health and the environment, and can support the publication of relevant BAS. In addition, and in accordance with the North American Free Trade Agreement (NAFTA), an organization was formed and is known by its Spanish acronym "CEPA" which is composed of Universities in Mexico and the U.S. which pursue environmental protection in Mexico. The proposed approach permits the development of relevant information based on scientific consensus, education of the professionals and high school students, and publication of relevant materials for the benefit of the scientific community, regulators, legislators, and above all, the general public.

The technical team is led by an outstanding and uniquely qualified individual, Dr. A. Alan Moghissi, Ph.D., Vice President for Science and Education at Equity Research Corporation. He has broad regulatory experience and has served as a Senior Environmental Protection Agency (EPA) policy official. His interaction with industry over the years has fulfilled a critical need in obtaining an industry perspective. He has gained credibility with the intervener community and Congress as a credible spokesman in the area of technical assessment of societal decisions. For the past 11 years under grants for this effort, Dr. Moghissi has gained unique experience and specialized knowledge in the reevaluation of risk assessments for human health and the environment. An example of the kind of accomplishments he has made is evident in the regulatory change that was made for tritium standards in drinking water. Moghissi, because of his unique past experience as stated above, is uniquely qualified to perform the proposed research.

This award meets the criteria for selection of an unsolicited application as specified under 10 CFR 600.14(e) (i) and (ii). Under subparagraph (i) the application is meritorious based on the foregoing general evaluation which is required by 10 CFR 600.14(d). Under subparagraph (ii) the proposed project represents a unique, innovative idea, method and approach which would not otherwise be eligible for funding under any other known recent, current, or planned solicitation and a competitive solicitation would be inappropriate. This award would be for approximately 5 years at an estimated total cost of 2.9 million dollars.

FOR FURTHER INFORMATION CONTACT: David Ramirez, Contract Specialist, (708) 252–2133; U.S. Department of Energy, 9800 South Cass Avenue, Argonne, Illinois 60439.

Issued in Chicago, Illinois on August 31, 1995.

Cherri J. Langenfeld,

Manager, Chicago Operations Office.

[FR Doc. 95–22756 Filed 9–12–95; 8:45 am]

BILLING CODE 6450–01–P

Financial Assistance for Clark Atlanta University

AGENCY: Department of Energy, Albuquerque Operations Office.

ACTION: Notice of Financial Assistance Award.

SUMMARY: The Albuquerque Operations Office (AL), pursuant to 10 CFR 600.14(f), will award a grant based on an unsolicited proposal to Clark Atlanta University, 223 James P. Brawley Drive, SW, Atlanta, GA 30314.

DATES: Award will be effective September 20, 1995.

FOR FURTHER INFORMATION CONTACT: Address written comments to the attention of Erwin E. Fragua, Department of Energy, Albuquerque Operations Office, P.O. Box 5400, Albuquerque, NM 87185–5400, (505) 845–6442 or fax to (505) 845–4004.

SUPPLEMENTARY INFORMATION: Title of project is "Analysis of Economic Success of Applied Energy R&D and Applied Energy R&D Case History". The purpose of this study is to produce two special analyses of emerging science and technology issues regarding the overall effectiveness of the agency's research and development programs. The DOE has invested extensively in R&D covering a wide range of energy sources and end-use technologies. The U.S. public is entitled to a concise assessment of net benefits that have accrued from these investments. While individual success stories abound, there has not been a systematic effort to analyze the overall net impact of DOE's R&D activities on the economy. A cost/benefit approach will be used to analyze the DOE's basic and applied R&D programs, to identify and quantify commercial successes arising from DOE sponsored R&D programs. The study also prepares a case assessment of a successful DOE R&D program over the history of the program; identifying costs, economic and technical successes and estimating return on investment.

The probability of achieving this objective is significant considering the experienced background of the project director, Dr. Charlie Carter, and the facilities of the grantee are adequate for the purpose of achieving the stated objectives.

Issued in Albuquerque, New Mexico, on August 31, 1995.

Richard A. Marquez,

Assistant Manager for Management and Administration.

[FR Doc. 95–22757 Filed 9–12–95; 8:45 am]

BILLING CODE 6450–01–P–M

Financial Assistance for The Woods Hole Research Center

AGENCY: Department of Energy, Albuquerque Operations Office.

ACTION: Notice of Financial Assistance Award.

SUMMARY: The Albuquerque Operations Office (AL), pursuant to 10 CFR 600.14(f), will award a grant based on an unsolicited proposal to The Woods Hole Research Center, P.O. Box 296, Woods Hole, MA 02543.

DATES: Award will be effective September 20, 1995.

FOR FURTHER INFORMATION CONTACT:

Address written comments to the attention of Erwin E. Fragua, Department of Energy, Albuquerque Operations Office, P.O. Box 5400, Albuquerque, NM 87185–5400, (505) 845–6442 or fax to (505) 845–4004.

SUPPLEMENTARY INFORMATION: Title of project is "International Conference on the Adequacy of Commitments Under the Framework Convention on Climate Change". The purpose of this conference is to continue dialogue on the process to strengthen these commitments, similar to the ones previously held on joint implementation and on policy guidance from the Conference of the Parties (COP). The first meeting of the COP to the United Nations Framework Convention on Climate Change (FCCC) was held on March/April 1995 in Berlin. The Berlin Mandate concluded that current commitments under the FCCC are inadequate to meet the Convention's ultimate objective. It established a two year negotiating process to strengthen the specific commitments of industrialized countries and further implement the existing general commitments of developing countries. This process is authorized to elaborate policies and measures which could limit or reduce greenhouse gas emissions as well as set quantified limitation and reducing objectives within specified time-frames for the period beyond the year limitation and reducing objectives within specified time-frames for the period beyond the year 2000. The objective of this conference will be to have informal discussions among the key constituents of the Parties to the Climate Change Convention on the subject of the adequacy of commitments.

The probability of achieving this objective is significant considering the experienced background of the project director, Dr. Kilaparti Ramakrishna, and the facilities of the grantee are adequate for the purpose of achieving the stated objectives.

Issued in Albuquerque, New Mexico, on August 31, 1995.

Richard A. Marquez,

Assistant Manager for Management and Administration.

BILLING CODE 6450–01–P–M

Environmental Management Site Specific Advisory Board, Fernald

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given of the following Advisory Committee meeting: Environmental Management Site Specific Advisory Board (EM SSAB), Fernald.

DATE AND TIME: Saturday, September 30, 1995: 8:30 a.m.–12:00 p.m.

ADDRESSES: The Joint Information Center, 6025 Dixie Highway, Route 4, Fairfield, Ohio.

FOR FURTHER INFORMATION CONTACT: John S. Applegate, Chair of the Fernald Citizens Task Force, P.O. Box 544, Ross, Ohio 45061, or call the Fernald Citizens Task Force message line (513) 648–6478.

SUPPLEMENTARY INFORMATION:

Purpose of the Board

The purpose of the Board is to make recommendations to DOE and its regulators in the areas of future use, cleanup levels, waste disposition and cleanup priorities at the Fernald site.

Tentative Agenda

Saturday, September 30, 1995

8:30 a.m.—Task Force Administration, Call to Order, Approval of Minutes, Chair's Remarks
8:45 a.m.—Membership Issues: Expiring Terms, Role of Alternates, Process for Identifying New Members
9:45 a.m.—Review of Charter and Ground Rules
10:30 a.m.—Break
10:45 a.m.—FY 96 Work Plan and Meeting Dates
11:45 a.m.—Wrap Up
12:00 p.m.—Adjourn

A final agenda will be available at the meeting, Saturday, September 30, 1995.

Public Participation

The meeting is open to the public. Written statements may be filed with the Task Force chair either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact the Task Force chair at the address or telephone number listed above. Requests must be received 5 days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Designated Federal Official, Kenneth Morgan, Public Affairs Officer, Ohio Field Office, U.S. Department of Energy, is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of 5 minutes to present their comments.

Minutes

The minutes of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 a.m. and 4:00 p.m., Monday-Friday, except Federal holidays. Minutes will also be available by writing to John S. Applegate, Chair, the Fernald Citizens Task Force, P.O. Box 544, Ross, Ohio 45061 or by calling the Task Force message line at (513) 648–6478.

Issued at Washington, DC on September 8, 1995.

Rachel Murphy Samuel,

Acting Deputy Advisory Committee Management Officer.

BILLING CODE 6450–01–P

Environmental Management Site Specific Advisory Board, Pantex Plant

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given of the following Advisory Committee meeting: Environmental Management Site Specific Advisory Board (EM SSAB), Pantex Plant.

DATES AND TIMES: Tuesday, September 26, 1995: 1:30 pm–5:30 pm.

ADDRESSES: Amarillo Association of Realtors, 5601 Enterprise Circle, Amarillo, TX.

FOR FURTHER INFORMATION CONTACT: Tom Williams, Program Manager, Department of Energy, Amarillo Area Office, P.O. Box 30030, Amarillo, TX 79120 (806) 477–3121.

SUPPLEMENTARY INFORMATION:

Purpose of the Committee

The Pantex Plant Citizens' Advisory Board provides input to the Department of Energy on Environmental Management strategic decisions that impact future use, risk management, economic development, and budget prioritization activities.

Tentative Agenda

1:30 pm—Welcome—Agenda Review—Introductions
1:40 pm—Co-Chairs' Comments
2:00 pm—Task Force Reports—Discussion
  Public Participation/Public Information
  Environmental Restoration
  Sitewide Environmental Impact Statements
  Future of the Nuclear Complex
  Waste Management
3:15 pm—Break
3:30 pm—Presentation
4:15 pm—Updates
  Occurrence Reports—DOE
  Special Pantex Site Treatment Plant (PSTP) Meeting Report
4:30 pm—Subcommittee Reports
  - Budget and Finance
  - Policy and Personnel
  - Program and Training
  - Community Outreach
  - Nominations
5:30 pm—Adjourn

Public comment will be taken periodically throughout the meeting.

Public Participation

The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. This notice is being published less than 15 days before the date of the meeting due to programmatic issues that had to be resolved prior to publication. Written comments will be accepted at the address above for 15 days after the date of the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Tom Williams' office at the address or telephone number listed above. Requests must be received 5 days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Designated Federal Official is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of 5 minutes to present their comments.

Minutes: The minutes of this meeting will be available for public review and copying at the Pantex Public Reading Rooms located at the Amarillo College Lynn Library and Learning Center, 2201 South Washington, Amarillo, TX phone (806) 371–5400. Hours of operation are from 7:45 am to 10:00 pm, Monday through Thursday; 7:45 am to 5:00 pm on Friday; 8:30 am to 12:00 noon on Saturday; and 2:00 pm to 6:00 pm on Sunday, except for Federal holidays.

Additionally, there is a Public Reading Room located at the Carson County Public Library, 401 Main Street, Panhandle, TX phone (806) 537–3742. Hours of operation are from 9:00 am to 7:00 pm on Monday; 9:00 am to 5:00 pm, Tuesday through Friday; and closed Saturday and Sunday as well as Federal Holidays. Minutes will also be available by writing or calling Tom Williams at the address or telephone number listed above.

Issued at Washington, DC on September 8, 1995.

Rachel M. Samuel,

Acting Deputy Advisory Committee Management Officer.

Federal Energy Regulatory Commission

[Docket No. TM96–1–68–000]

Trailblazer Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Trailblazer Pipeline Company (Trailblazer) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Second Revised Sheet Nos. 5 and 6, to be effective October 1, 1995.

Trailblazer states that the purpose of the filing is to implement the Annual Charges Adjustment (ACA) charge necessary for Trailblazer to recover from its customers annual charges assessed it by the Commission pursuant to Part 382 of the Commission's Regulations. The rate authorized by the Commission to be effective October 1, 1995 is $.0023 per Mcf.

Trailblazer requested a waiver of the Commission's Regulations to the extent necessary to permit the tariff sheets to become effective on October 1, 1995.

Trailblazer states that a copy of the filing is being mailed to Trailblazer's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[Docket No. TM96–1–67–000]

Canyon Creek Compression Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Canyon Creek Compression Company (Canyon) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Second Revised Sheet No. 6, to be effective October 1, 1995.

Canyon states that the purpose of the filing is to implement the Annual Charges Adjustment (ACA) charge necessary for Canyon to recover from its customers annual charges assessed it by the Commission pursuant to Part 382 of the Commission's Regulations. The rate authorized by the Commission to be effective October 1, 1995 is $.0023 per Mcf.

Canyon requested waiver of the Commission's Regulations to the extent necessary to permit the tariff sheet to become effective on October 1, 1995.

Canyon states that a copy of the filing is being mailed to Canyon's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E.; Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

BILLING CODE 6717–01–M

[Docket No. TM96–1–55–000]

Questar Pipeline Company; Notice of Tariff Filing

September 7, 1995.

Take notice that on August 31, 1995, Questar Pipeline Company, pursuant to 154.38(d)(6) and Part 382 of the Commission's Regulations, tendered for filing and acceptance to be effective October 1, 1995, the following tariff sheets of its FERC Gas Tariff:

First Revised Volume No. 1

First Revised Substitute Fourth Revised Sheet No. 5
First Revised Fourth Revised Sheet No. 5A
First Revised Fourth Revised Sheet No. 6
First Revised Second Revised Sheet No. 6A

Original Volume No. 3

First Revised Fourteenth Revised Sheet No. 8

Questar states that this filing incorporates into its storage and transportation rates the annual charge unit rate of $0.0023 per Mcf as adjusted by Questar's Btu factor of 1.062.

Questar states that copies of this filing were served upon Questar's jurisdictional customers and the Utah and Wyoming public service commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM96–1–49–000]

Williston Basin Interstate Pipeline Company; Notice of Filing of Annual Charge Adjustment Filing

September 7, 1995.

Take notice that on September 1, 1995, Williston Basin Interstate Pipeline Company (Williston Basin) tendered for filing to become part of its FERC Gas

Tariff, Second Revised Volume No. 1 and Original Volume No. 2, the following revised tariff sheets, with a proposed effective date of October 1, 1995:

Second Revised Volume No. 1

2nd Rev Thirteenth Revised Sheet No. 15
2nd Rev Sixteenth Revised Sheet No. 16
2nd Rev Thirteenth Revised Sheet No. 18
2nd Rev Eleventh Revised Sheet No. 21

Original Volume No. 2

2nd Rev 58th Revised Sheet No. 11B

Williston Basin states that the instant filing reflects a revision to the Federal Energy Regulatory Commission's Annual Charge Adjustment (ACA) unit charge amount pursuant to the Commission's Statement of Annual Charges under 18 CFR Part 382 and Section 41 of the General Terms and Conditions of Williston Basin's FERCG as Tariff, Second Revised Volume No. 1. The filing incorporates the Commission approved ACA surcharge of .233 cents per Mcf (.217 cents per dkt on the Williston Basin system), a decrease of .0036 cents per Mcf from the current amount.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM96–1–26–000]

Natural Gas Pipeline Company of America; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Natural Gas Pipeline Company of America (Natural) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, Second Revised Sheet No. 22, to be effective October 1, 1995.

Natural states that the purpose of the filing is to implement the Annual Charges Adjustment (ACA) charge necessary for Natural to recover from its customers annual charges assessed to Natural by the Commission pursuant to Part 382 of the Commission's Regulations. The rate authorized by the Commission to be effective October 1, 1995 is $.0023 per Mcf. Under Natural's billing basis, this rate converts to $.0023 per MMBtu. Since the converted rate is the same as Natural's currently effective ACA surcharge, a revised tariff sheet was not submitted. Natural also filed to remove the ACA surcharge applicable on its Moraine Lateral.

Natural requested waiver of the Commission's Regulations to the extent necessary to permit the continuation of its currently effective ACA surcharge and the elimination of the ACA surcharge on its Moraine Lateral to become effective on October 1, 1995.

Natural states that a copy of the filing is being mailed to Natural's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

BILLING CODE 6717–01–M

Texas Gas Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

[Docket No. TM96–2–18–000]

September 7, 1995.

Take notice that on September 1, 1995 Texas Gas Transmission Corporation (Texas Gas) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, Third Revised Sheet No. 14, with a proposed effective date of November 1, 1995.

Texas Gas states that the tariff sheet is being filed to establish a revised Effective Fuel Retention Percentage (EFRP) under the provisions of Section 16 "Fuel Retention" as found in the General Terms and Conditions of Texas Gas' FERC Gas Tariff, First Revised Volume No. 1. The revised EFRP may be in effect for the annual period November 1, 1995, through October 31, 1996.

Texas Gas states that copies of the tariff sheet are being mailed to Texas Gas' affected customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM96–1–15–000]

Mid Louisiana Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Mid Louisiana Gas Company (Mid Louisiana) filed to become part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets:

Fifth Revised Sheet No. 4
Fifth Revised Sheet No. 4A
Fourth Revised Sheet No. 4B.

Mid Louisiana states that the purpose of the filing of the Revised Tariff Sheets is to reflect a revision to the unit rates for the collection of the Annual Charges imposed by Section 382 of the Commission's Regulations.

Mid Louisiana states that this filing is being made in accordance with Section 22 of the General Terms and Conditions of Mid Louisiana's FERC Gas Tariff, Third Revised Volume No. 1.

Pursuant to Section 154.51 of the Commission's Regulations, Mid Louisiana respectfully requests waiver of any requirement of the Regulations to permit the tendered tariff sheets to become effective October 1, 1995 as submitted.

Mid Louisiana states that copies of its filing were served upon its jurisdictional customers and appropriate state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this compliance filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM96–1–8–000]

South Georgia Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, South Georgia Natural Gas Company (South Georgia) tendered for filing to become part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets, to be effective October 1, 1995:

First Revised Sheet No. 5
First Revised Sheet No. 6

In the Alternative:

First Alternate First Revised Sheet No. 5
First Alternate First Revised Sheet No. 6

South Georgia states that the instant filing is submitted pursuant to Section 19.2 of the General Terms and Conditions of its Tariff, and the letter order issued on July 14, 1995, in Docket No. RP95–355 granting it an extension of time to file, to adjust its fuel retention percentage ("FRP") for all transportation services on its system effective October 1, 1995. The derivation of the revised FRP is based on South Georgia's gas required for operations ("GRO") for the twelve-month period ending April 30, 1995, adjusted for the balance accumulated in the Deferred GRO Account at the end of said period, divided by the transportation volumes received during the same twelve-month period. Based on this calculation, the revised FRP should be 2.99%, but South Georgia has requested a waiver of its Tariff to allow for the collection of the Deferred GRO Account over a three-year period which results in a revised FRP of 2.25%. If the Commission does not grant its waiver, South Georgia has submitted alternate tariff sheets for approval by the Commission.

South Georgia states that copies of the filing will be served upon its shippers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 925 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before September 14, 1995. Protests will not be considered by the Commission in determining the parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22675 Filed 9–12–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket Nos. TA96–1–23–000 and TM96–3–23–000]

Eastern Shore Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Eastern Shore Natural Gas Company (Eastern Shore) tendered for filing certain revised tariff sheets included in Appendix A attached to the filing. Such revised tariff sheets bear a proposed effective date of November 1, 1995.

Eastern Shore states the above referenced revised tariff sheets were filed in Eastern Shore's annual Purchased Gas Adjustment (PGA) filing as required by Section 154.305 of the Commission's Regulations and Sections 21 and 23, respectively, of the General Terms and conditions of Eastern Shore's FERC Gas Tariff. Such filing consists of the calculation of (1) current adjustments for the Demand and Commodity purchased gas component and (2) current adjustments for the Demand and Commodity transportation cost component, of Eastern Shore's jurisdictional sales rates.

Eastern Shore states its sales rates set forth on such revised tariff sheets reflect an overall increase of $2.4323 per dt in the Demand Charge and an overall increase of $0.2255 per dt in the Commodity Charge, as measured against Eastern Shore's revised regularly scheduled quarterly PGA filing as submitted in Docket No. TQ95–4–23–001 in Eastern Shore's Compliance Filing submitted on August 29, 1995.

Eastern Shore states that the calculation of revised annual Demand and Commodity surcharge calculations to amortize its Account No. 191 Unrecovered Purchased Gas Cost and Unrecovered Transportation Cost balances as of June 30, 1995 are not included in its annual PGA filing and requests the Commission to waive its regulations in this regard.

Eastern Shore states it submitted on August 29, 1995 a Compliance Filing to comply with the Commission's order issued August 17, 1995 in Docket Nos. TA94–1–23–003, et al. The Commission's order approved Eastern Shore's Offer of Settlement ("Settlement") as filed on June 19, 1995 pursuant to Rule 602 of the Commission's Rules of Practice and Procedure. More specifically, the filing was submitted in accordance with Articles I, II, and III of the Settlement.

Article I provided that, within fifteen days after the Commission approved the Settlement, Eastern Shore shall file revised Purchased Gas Adjustment (PGA) and Transportation Cost Adjustment (TCA) tariff sheets. Pursuant to the Settlement, these revised tariff sheets will be made effective June 1, 1994.

Article II of the Settlement provided that Eastern Shore shall make cash refunds to its jurisdictional sales customers arising from the revised PGA methodology. Refunds shall be computed from June 1, 1994 through June 30, 1995. Such period coincides with the end of the twelve-month deferral period which ends four months prior to the November 1, 1995 effective date of Eastern Shore's forthcoming annual PGA filing. Accordingly, Eastern Shore states that its Account No. 191 demand and commodity deferral balances shall be zeroed out as of June 30, 1995, thus eliminating the need for Eastern Shore to calculate surcharge rates to amortize such balances in the instant annual PGA filing.

Article III provided that Eastern Shore shall file revised rate tariff sheets to be effective July 1, 1995. Such revised tariff sheets reflect a reduction of $0.9317 per dt in Eastern Shore's jurisdictional

contract demand sales rates. This reduction is accomplished by restating Eastern Shore's Base Tariff Rates to reflect an equivalent decrease. In addition, the restated Base Tariff Rates reflect Eastern Shore's cumulative PGA and TCA adjustments as filed in Docket No. TQ95–3–23–000. Such filing, accepted by the Commission on May 22, 1995, to be effective May 31, 1995, was Eastern Shore's most recently approved filing prior to July 1, 1995.

Eastern Shore further states it filed revised rate tariff sheets necessary to reflect the effect of the implementation of the Settlement on its various filings made subsequent to July 1, 1995. Such filings include (1) Docket No. TF95–5–23–000, an interim PGA approved to be effective July 1, 1995; (2) Docket No. TQ95–4–23–000, a quarterly PGA filing approved to be effective August 1, 1995; (3) Docket No. TF95–6–23–000, an interim PGA filing approved to be effective August 1, 1995; and (4) Docket No. TM95–11–23–000, a tracking filing approved to be effective September 1, 1995.

Eastern Shore states it is currently in the process of finalizing its refund calculations and intends to make such refunds at its earliest opportunity, but in no event later than September 15, 1995. As directed by the Commission, Eastern Shore will file a refund report within thirty days of the refund distribution. Such refund report shall contain all the relevant FERC Form 542–PGA schedules normally submitted with its annual PGA filing to fully document the Account No. 191 Unrecovered Purchased Gas Cost and Unrecovered Transportation Cost balances as of June 30, 1995, calculated pursuant to Eastern Shore's revised PGA and TCA provisions included in Eastern Shore's August 29, 1995 Compliance Filing.

Eastern Shore states that copies of the filing have been served upon its jurisdictional sales customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 and Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP95–435–000]

Northern Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Northern Natural Gas Company (Northern), tendered for filing changes in its FERC Gas Tariff, Fifth Revised Volume No. 1.

Northern states that the filing revises the current Stranded Account No. 858 and Stranded Account No. 858-Reverse Auction surcharges, which are designed to recover costs incurred by Northern related to its contracts with third-party pipelines. Therefore, Northern has filed 4th Rev Seventeenth Revised Sheet Nos. 50 and 51 and Twenty-Third Rev Sheet No. 53 to revise these surcharges effective October 1, 1995.

Northern states that copies of this filing were served upon the Company's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. All protests will be considered by the Commission in determining the appropriate action to be taken in this proceeding, but will not serve to make protestant a party to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22673 Filed 9–12–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. RP95–434–000]

Colorado Interstate Gas Company; Notice of Tariff Filing

September 7, 1995.

Take notice that on September 1, 1995, Colorado Interstate Gas Company (CIG), tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, the following revised tariff sheets, to be effective October 1, 1995.

Fourth Revised Sheet No. 35
Third Revised Sheet No. 81
First Revised Sheet No. 84A
Second Revised Sheet No. 98
Third Revised Sheet No. 106
Second Revised Sheet No. 124
Third Revised Sheet No. 131
Second Revised Sheet No. 158
Second Revised Sheet No. 232

CIG proposes this revision so that the ratio of Maximum Daily Withdrawal Quantity to Maximum Available Capacity reflects the actual certificated deliverability of 780,000 Mcf/d for CIG's storage fields. CIG states that it is filing this tariff revision in response to the Commission's order issued July 7, 1995 in Docket No. CP95–498–000 which increased the total certificated daily deliverability of CIG's storage fields from 775,000 Mcf/d to a new level of 780,000 Mcf/d. CIG states this increase is the result of the actual performance gain from facilities constructed with Commission authorization to enhance storage deliverability in Docket No. CP92–154 et al.

The Commission authorized CIG, inter alia, to construct and operate certain facilities to increase the estimated peak day deliverability of CIG's storage fields from 710,000 Mcf/d to a higher level of 775,000 Mcf/d. CIG further states when it filed for authorization of the storage enhancement project, it was impossible to determine the precise level of the increased storage deliverability that would result from the project. Hence, CIG states it allocated capacity based on an estimated storage deliverability of 769,000 Mcf/d.

CIG states it is filing to revise its Tariff so the firm storage entitlement of firm storage customers (Rate Schedule FS–1) and no-notice transportation customers (Rate Schedules NNT–1 and NNT–2), reflect the new certificated deliverability. All of the 11 Mmcf/d storage deliverability upgrade has been allocated to storage customers. CIG's storage customers total deliverability will increase from 669 Mmcf/d to 680 Mmcf/d and CIG's retained deliverability will remain at 100 Mmcf/d. Based on this allocation, the ratio of Maximum Daily Withdrawal Quantity to Maximum Available Capacity will be revised to 1:37.3853. CIG also states it is filing housekeeping revisions to Sheet Nos. 35 and 84A to correct errors on these sheets.

Any person desiring to be heard or to make any protest with reference to said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Section 385.211 or 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Notice of Technical Conference

September 7, 1995.

In the matter of Columbia Gas Transmission Corporation, *UGI Utilities, Inc.* v. *Columbia Gulf Transmission Company* and *Columbia Gas Transmission Corporation.*

In the Commission's order issued on August 2, 1995, in the above-captioned proceeding, the Commission held that the filing raises issues for which a technical conference is to be convened.

The conference to address the issues has been scheduled for Wednesday, September 27, 1995, at 10:00 a.m., and if necessary the conference will continue on Thursday, September 28, 1995, at 10:00 a.m., in a room to be designated at the offices of the Federal Energy Regulatory Commission, 810 First Street, N.E., Washington, D.C. 20426.

All interested persons and Staff are permitted to attend.

[Docket No. TM96–1–73–000]

Ozark Gas Transmission System; Notice of Proposed Change in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Ozark Gas Transmission System (Ozark), tendered for filing and acceptance the following revised tariff sheet to its FERC Gas Tariff, First Revised Volume No. 1:

Eleventh Revised Sheet No. 4

Ozark proposed that the tariff sheet become effective on October 1, 1995.

Ozark states that the above tariff sheet has been revised to reflect a modification to the Annual Charge Adjustment fee, in accordance with the Commission's most recent Annual Charge billing to Ozark. The Annual Charge unit charge authorized by the Commission for fiscal year 1996 and proposed in the filing is $0.0023 per MMBtu.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

BILLING CODE 6717–01–M

[Docket No. TM96–1–62–000]

Mojave Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Mojave Pipeline Company (Mojave) tendered for filing proposed changes to Sheet No. 11 of its FERC Gas Tariff, First Revised Volume No. 1.

Mojave makes this filing to implement its annual adjustment clause (ACA) for fiscal year 1996, pursuant to Section 154.38(d)(6) of the Commission's Regulations, which allows a natural gas pipeline company to adjust its rates annually to recover from its customers annual charges assessed it by the Commission under Part 382 of the Commission's Regulations. The ACA charge shall be applied to the transportation component of Mojave's rates under its Rate Schedules FT–1 and IT–1. Additional information regarding Mojave's ACA charge is contained on Sheet Nos. 127 and 128 of the First Revised Volume No. 1 of Mojave's existing gas tariff.

Mojave states that copies of the filing were served upon Mojave's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ER95–1439–000]

IGM, Inc.; Notice of Issuance of Order

September 7, 1995.

On July 27, 1995, IGM, Inc. (IGM) submitted for filing a rate schedule under which IGM will engage in wholesale electric power and energy transactions as a marketer. IGM also requested waiver of various Commission regulations. In particular, IGM requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by IGM.

On August 28, 1995, pursuant to delegated authority, the Director, Division of Applications, Office of Electric Power Regulation, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by IGM should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, IGM is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided

that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of IGM's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is September 27, 1995.

Copies of the full text of the order are available from the Commission's Public Reference Branch, Room 3308, 941 North Capitol Street, N.E., Washington, D.C. 20426.

BILLING CODE 6717–01–M

[Docket No. ER95–1441–000]

Conoco Power Marketing Inc.; Notice of Issuance of Order

September 7, 1995.

On July 27, 1995, Conoco Power Marketing Inc. (Conoco Power) submitted for filing a rate schedule under which Conoco Power will engage in wholesale electric power and energy transactions as a marketer. Conoco Power also requested waiver of various Commission regulations. In particular, Conoco Power requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by Conoco Power.

On August 30, 1995, pursuant to delegated authority, the Director, Division of Applications, Office of Electric Power Regulation, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by Conoco Power should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, Conoco Power is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Conoco Power's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is September 29, 1995.

Copies of the full text of the order are available from the Commission's Public Reference Branch, Room 3308, 941 North Capitol Street, N.E., Washington, D.C. 20426.

BILLING CODE 6717–01–M

[Docket No. TM96–1–69–000]

Stingray Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Stingray Pipeline Company (Stingray) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Fourth Revised Sheet No. 5, to be effective October 1, 1995.

Stingray states that the purpose of the filing is to implement the Annual Charges Adjustment (ACA) charge necessary for Stingray to recover from its customers annual charges assessed it by the Commission pursuant to Part 382 of the Commission's Regulations. The rate authorized by the Commission to be effective October 1, 1995 is $.0023 per Mcf. Under Stingray's billing basis, this rate converts to $.0022 per Dekatherm.

Stingray requested waiver of the Commission's Regulations to the extent necessary to permit the tariff sheet to become effective on October 1, 1995.

Stingray states that a copy of the filing is being mailed to Stingray's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CP95–715–000]

Texas Eastern Transmission Corporation, Tennessee Gas Pipeline Company; Notice of Application

September 7, 1995.

Take notice that on August 29, 1995, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 1642, Houston, Texas 77251–1642, and Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252–2511, filed in Docket No. CP95-715–000 a joint application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon certain exchange and transportation services, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Texas Eastern and Tennessee state that they were authorized: (1) An interruptible exchange service by Commission order dated March 18, 1963, in Docket No. CP63–177–000, as amended, which is provided under Texas Eastern's Rate Schedule X–65 and Tennessee's Rate Schedule X–40; (2) a firm transportation and exchange of up to 230,000 Mcf of natural gas per day, by Commission order dated July 18, 1975, in Docket No. CP75–127–000, as amended, which is provided under Texas Eastern's Rate Schedule X–73 and Tennessee's Rate Schedule X–47; (3) an interruptible exchange and transportation of up to 10,000 Mcf of natural gas per day, by Commission order dated May 5, 1980, in Docket No. CP80–62–000, as amended, which is provided under Texas Eastern's Rate Schedule X–111 and Tennessee's Rate Schedule X–63; and, (4) an interruptible transportation and exchange service, by Commission order dated June 20, 1986, in Docket No. CP86–123–000, as amended, which is provided under Texas Eastern's Rate Schedule X–126 and Tennessee's Rate Schedule X–68.

Texas Eastern and Tennessee have mutually agreed to terminate the one exchange and three exchange and transportation services pursuant to termination agreements between Tennessee and Texas Eastern dated August 23, 1995, July 7, 1995, May 16, 1995 and May 16, 1995 for Texas Eastern's Rate Schedules X–65, X–73, X–111 and X–126 and Tennessee's Rate Schedules X–40, X–47, X–63 and X–68, respectively, it is stated. Texas Eastern and Tennessee request that the abandonment be effective on the day of issuance of the Commission's order approving abandonment.

Texas Eastern and Tennessee further state that no facilities will be abandoned in conjunction with the abandonment of these services.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 28, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Texas Eastern and Tennessee to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.

[FR Doc. 95–22667 Filed 9–12–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP95–728–000]

Northwest Pipeline Corporation; Notice of Request Under Blanket Authorization

September 7, 1995.

Take notice that on September 1, 1995, Northwest Pipeline Corporation (Northwest), P.O. Box 58900, Salt Lake City, Utah 84108–0900, filed in Docket No. CP95–728–000 a request pursuant to Sections 157.205, 157.211, and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211, and 157.216) for authorization to modify facilities at the Burley No. 2 Meter Station, Cassia County, Idaho, used to perform transportation service for Intermountain Gas Company (Intermountain), under the blanket certificate issued in Docket No. CP82–433–000, pursuant to Sections 7(b) and 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northwest states that the Burley No. 2 Meter Station currently consists of two 4-inch taps, four 2-inch regulators, monitor configuration, two 6-inch orifice meters and appurtenances, with a maximum design capacity of approximately 8,883 dt equivalent of natural gas per day at 200 psia. Northwest indicates that at present it has firm obligations to deliver up to 9,000 dt equivalent of natural gas per day at 200 psig for Intermountain's affiliate, IGI Resources, Inc. (IGI) at the Burley No. 2 Meter Station under a Rate Schedule TF–1 transportation agreement.

Northwest proposes to modify the meter station by removing two of the four existing 2-inch regulators and appurtenances and installing appurtenant station piping valves. Northwest indicates that the facility replacement will increase the maximum design capacity of this meter from 8,883 dt equivalent of natural gas per day at 200 psia to approximately 12,400 dt equivalent of natural gas per day at 200 psia or 10,900 dt equivalent of natural gas per day at the 300 psig typical operating pressure. Northwest estimates a construction and removal cost of $3,840. It is indicated that, since this expenditure is necessary in order for Northwest to more efficiently accommodate existing delivery requirements at the Burley No. 2 Meter Station, Northwest will not require any cost reimbursement from IGI.

Northwest advises that any volumes delivered to intermountain through the Burley No. 2 Meter Station will be delivered either for IGI or any other shipper for whom Northwest is authorized to transport gas and will be within the authorized entitlements of such shippers. Also, Northwest indicates that the proposed facility modification is not prohibited by its existing tariff. In addition, Northwest states that it projects no impact on Northwest's system peak day or annual deliveries as a result of the facility modifications.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,
Secretary.

[FR Doc. 95–22668 Filed 9–12–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. GT95–57–000]

Texas Eastern Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

September 7, 1995.

Take notice that on September 1, 1995, Texas Eastern Transmission Corporation (Texas Eastern) submitted for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, the tariff sheets listed on Appendix A of the filing.

Texas Eastern states that pursuant to Section 9.1 of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1, the tariff sheets listed on Appendix A set forth the 1995 Operational Segment Capacity Entitlements. Texas Eastern states further that the 1995 Entitlements were calculated using the same methodology as utilized to calculate the

initial Entitlements which were approved by the Commission in Texas Eastern's Order No. 636 restructuring proceedings in Docket No. RS92–11, *et al.*

In order to reflect the changes discussed above, Texas Eastern is submitting Tenth Revised Sheet Nos. 550, 551, 555, 557, 558, 564, 565, 571, 572, 577 and 580 and Eleventh Revised Sheet Nos. 549, 556, 563 and 570 to reflect necessary modifications to Sections 9.2, 9.3, 9.4, 9.5 of the General Terms and Conditions of its FERC Gas Tariff, Sixth Revised Volume No. 1.

The proposed effective date of the tariff sheets is November 1, 1995, as stated in Section 9.1 of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1.

Texas Eastern states that copies of the filing were served on firm customers of Texas Eastern and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before September 14, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717–01–M

[Docket No. EL95–76–000]

Southwestern Public Service Company; Notice of Filing

September 7, 1995.

Take notice that on August 25, 1995, Southwestern Public Service Company tendered for filing a petition for waiver of the Commission's fuel clause regulations to allow the flow-through of buyout and other related costs associated with the purchase of TUCO Inc.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before September 25, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717–01–M

[Docket No. ER95–430–002, et al.]

Phibro Inc., et al.; Electric Rate and Corporate Regulation Filings

September 5, 1995.

Take notice that the following filings have been made with the Commission:

1. Phibro Inc.

[Docket No. ER95–430–002]

Take notice that on August 16, 1995, Phibro Inc. tendered for filing a Notice of Change in Status in the above-referenced docket.

2. Pacific Gas and Electric Company

[Docket No. ER95–1341–000]

Take notice that on August 28, 1995, Pacific Gas and Electric Company (PG&E), tendered for filing an amendment to its July 6, 1995 filing in this docket of a rate change to Rate Schedule FERC No. 79, between PG&E and the Western Area Power Administration (Western).

PG&E's initial filing in this docket submitted cost based rates for trued up previous billings made for capacity and energy sales from Energy Account No. 2 during 1993, which were made using rates based on estimated costs. At the request of FERC Staff, PG&E is amending its filing to include a calculation of certain refunds, including interest, resulting from this rate change.

Copies of this filing have been served upon Western and the California Public Utilities Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

3. South Carolina Electric & Gas Company

[Docket No. ER95–1428–000]

Take notice that on August 7, 1995, South Carolina Electric & Gas Company tendered for supplemental information in the above-referenced docket.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

4. New England Power Company

[Docket No. ER95–1472–000]

Take notice that on August 29, 1995, New England Power Company (NEP), tendered for filing a Stipulation and Agreement and amended supplements to five Municipal Power Contracts: (1) Unit Power Contract dated January 13, 1994, with the Town of Holden Municipal Light Department; (2) Unit Power Contract dated January 20, 1994, with the North Attleborough Electric Department; (3) Unit Power Contract dated January 11, 1994, with the Hingham Municipal Light Plant; (4) Unit Power Contract dated January 13, 1994, with the Groton Electric Light Department; and (5) Unit Power Contract dated January 14, 1994, with the Middleton Municipal Light Department.

NEP states that the purpose of this filing is to modify its initial proposal concerning rate of return on common equity that may be charged under the contracts. This modification is a result of an agreement between NEP and the five municipal purchasers. NEP requests that its revised proposed rate of return become effective on the later of October 1, 1995 or the first day of the calendar month following the date of commencement of operations at the repowered Manchester Street facility.

NEP states that copies of its filing have been provided to the five municipal purchasers and to state regulatory authorities in Massachusetts and Rhode Island.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

5. Florida Power Corporation

[Docket No. ER95–1536–000]

Take notice that on August 14, 1995, Florida Power Corporation tendered for filing a tariff providing for comprehensive transmission service. Florida Power states that its filing modifies its Tariff No. 2 that was filed in Docket No. ER95–634–000 and that its tariff is consistent with the draft pro forma tariffs the Commission included with the proposed rule in "Promoting Wholesale Competition Through Open-Access Non-Discriminatory Transmission Services by Public Utilities," Docket No. RM95–8–000, IV FERC Stats. and Regs. ¶ 35,514 (1995). Florida Power asks the Commission to consolidate this docket with Docket No.

ER95-634-000 and set an effective date for this filing of November 1, 1995.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

6. Missouri Public Service Company

[Docket No. ER95-1606-000]

Take notice that on August 22, 1995, UtiliCorp United Inc. tendered for filing on behalf of its operating division, Missouri Public Service, a Service Agreement under its Power Sales Tariff, FERC Electric Tariff Original Volume No. 10, with *National Electric Associates Limited Partnership.* The Service Agreement provides for the sale of capacity and energy by Missouri Public Service to *National Electric Associates Limited Partnership* pursuant to the tariff, and for the sale of capacity and energy by *National Electric Associates Limited Partnership* to Missouri Public Service pursuant to *National Electric Associates Limited Partnership's* Rate Schedule No. 1.

UtiliCorp also has tendered for filing a Certificate of Concurrence by *National Electric Associates Limited Partnership.*

UtiliCorp requests waiver of the Commission's Regulations to permit the Service Agreement to become effective in accordance with its terms.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

7. Arkansas Power & Light Company, et al.

[Docket No. ER95-1609-000]

Take notice that on August 22, 1995, Entergy Services, Inc. (Entergy Services), on behalf of Arkansas Power & Light Company, Gulf States Utilities Company, Louisiana Power & Light Company, Mississippi Power & Light Company, and New Orleans Public Service Inc., tendered for filing a Transmission Service Agreement (TSA) between Energy Services and Catex Vitol Electric, LLC (Catex Vitol). Entergy Services states that the TSA sets out the transmission arrangements under which the Entergy Operating Companies will provide Catex Vitol non-firm transmission service under their Transmission Service Tariff.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

8. Northern States Power Company (Wisonsin)

[Docket No. ER95-1638-000]

Take notice that on August 28, 1995, Northern States Power Company, Eau Claire, Wisconsin (NSPW), tendered for filing the following documents:

A. An Amended and Restated Power and Energy Supply Agreement by and between the Village of Cadott, Wisconsin, and NSPW dated August 7, 1995. The Village currently purchases power and energy from NSPW under a power sales agreement dated November 25, 1986, as amended on June 17, 1987, and May 16, 1994. The 1986 agreement as amended is superseded by the amended and restated agreement. NSPW submitted a Certificate of Concurrence on behalf of the Village of Cadott.

B. A Power and Energy Supply Agreement by and between the City of Spooner, Wisconsin, and NSPW dated July 28, 1995. The City of Spooner currently purchases power and energy from NSPW under a firm power service resale agreement dated May 2, 1978, which is superseded by the new agreement. NSPW submitted a Certificate of Concurrence on behalf of the City of Spooner.

C. An Amended and Restated Power and Energy Supply Agreement by and between the City of Bloomer, Wisconsin, and NSPW dated August 9, 1995. The City of Bloomer currently purchases power and energy from NSPW under a power and energy supply agreement dated March 1, 1993, as amended on May 25, 1994. The 1992 agreement as amended is superseded by the amended restated agreement. NSPW submitted a Certificate of Concurrence on behalf of the City of Bloomer.

NSPW requests an effective date of September 1, 1995 for all three agreements. NSPW states that under these new agreements, the Village of Cadott, City of Spooner and City of Bloomer will be entitled to discounts from NSPW's currently effective W-1 rate and that such discounts are being offered to all of its wholesale electric customers. Each of the agreements contains a provision allowing the customer to obtain a negotiated rate upon two years prior notice.

A copy of the filing was served upon the Village of Cadott, City of Spooner, City of Bloomer and the State of Wisconsin Public Service Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

9. Cinergy Services, Inc.

[Docket No. ER95-1641-000]

Take notice that on August 29, 1995, Cinergy Services, Inc. (CIN), tendered for filing on behalf of its operating companies, The Cincinnati Gas & Electric Company (CG&E) and PSI Energy, Inc. (PSI), an Interchange Agreement, dated July 1, 1995, between CIN, CG&E, PSI and Kimball Power Company (KPC).

The Interchange Agreement provides for the following service between CIN and KPC:

1. Exhibit A—Power Sales by KCP
2. Exhibit B—Power Sales by CIN

CIN and KPC have requested an effective date of September 1, 1995.

Copies of the filing were served on Kimball Power Company, the Texas Public Utility Commission, the Kentucky Public Service Commission, Public Utilities Commission of Ohio and the Indiana Utility Regulatory Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

10. Niagara Mohawk Power Corporation

[Docket No. ER95-1642-000]

Take notice that on August 29, 1995, Niagara Mohawk Power Corporation (Niagara Mohawk), tendered for filing an agreement between Niagara Mohawk and Engelhard Power Marketing (Engelhard) dated August 23, 1995 providing for certain transmission services to Engelhard.

Copies of this filing were served upon Engelhard and the New York State Public Service Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

11. Boston Edison Company

[Docket No. ER95-1643-000]

Take notice that on August 29, 1995, Boston Edison Company (Edison), tendered for filing a Service Agreement and Appendix A under Original Volume No. 6, Power Sales and Exchange Tariff (Tariff) for PECo Energy Company (PECo). Boston Edison requests that the Service Agreement become effective as of June 1, 1995.

Edison states that it has served a copy of this filing on PECo and the Massachusetts Department of Public Utilities.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

12. Boston Edison Company

[Docket No. ER95-1644-000]

Take notice that on August 29, 1995, Boston Edison Company (Edison), tendered for filing a Service Agreement and Appendix A under Original Volume No. 6, Power Sales and Exchange Tariff (Tariff) for North American Energy Conservation, Inc. (NAEC). Boston Edison requests that the Service Agreement become effective as of October 29, 1995.

Edison states that it has served a copy of this filing on NAEC and the Massachusetts Department of Public Utilities.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

13. Northern States Power Company (Minnesota), Northern States Power Company (Wisconsin)

[Docket No. ER95-1645-000]

Take notice that on August 29, 1995, Northern States Power Company-Minnesota (NSP-M) and Northern States Power Company-Wisconsin (NSP-W) jointly tendered and request the Commission to accept two Transmission Service Agreements which provide for Limited and Interruptible Transmission Service to Utility-2000 Energy Corporation.

NSP requests that the Commission accept for filing the Transmission Service Agreements effective as of September 27, 1995. NSP requests a waiver of the Commission's notice requirements pursuant to Part 35 so the Agreements may be accepted for filing effective on the date requested.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

14. Appalachian Power Company

[Docket No. ER95-1646-000]

Take notice that on August 29, 1995, Appalachian Power Company (APCO), tendered for filing a proposed amendment to its Electric Service Agreement with the City of Radford, Virginia (Radford), Rate Schedule FERC No. 122. The proposed amendment will establish an Economic Development Electric Power Billing Credit for Radford that would provide Radford with an opportunity to offer an economic incentive for development of new industries and/or expansion of existing industries in its service area.

APCO proposes an effective date of November 1, 1995, and states that copies of the filing were served upon the affected customer and the Virginia State Corporation Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

15. PECO Energy Company

[Docket No. ER95-1647-000]

Take notice that on August 29, 1995, PECO Energy Company (PECO), filed a Service Agreement dated August 17, 1995, with Public Service Electric and Gas Company (PSE&G) under PECO's FERC Electric Tariff Original Volume No. 1 (Tariff). The Service Agreement adds PSE&G as a customer under the Tariff.

PECO requests an effective date of August 17, 1995, for the Service Agreement.

PECO states that copies of this filing have been supplied to PSE&G and to the Pennsylvania Public Utility Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

16. Southern California Edison Company

[Docket No. ER95-1648-000]

Take notice that on August 28, 1995, Southern California Edison Company (Edison), tendered for filing an amendment to its Interruptible Transmission Service Agreements not amended under the Settlement Agreement in FERC Docket No. ER94-1421-000.

The Amendment sets forth the terms and conditions by which Edison will provide customers with Non-Priority and Priority interruptible transmission service.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

17. Cinergy Services, Inc.

[Docket No. ER95-1649-000]

Take notice that on August 29, 1995, Cinergy Services, Inc. (CIN), tendered for filing on behalf of its operating companies, The Cincinnati Gas & Electric Company (CG&E) and PSI Energy, Inc. (PSI), an Interchange Agreement, dated July 17, 1995, between CIN, CG&E, PSI and Heartland Energy Services, Inc. (HES).

The Interchange Agreement provides for the following service between CIN and HES.

1. Exhibit A—Power Sales by HES
2. Exhibit B—Power Sales by CIN

CIN and HES have requested an effective date of September 1, 1995.

Copies of the filing were served on Heartland Energy Services, Inc., the Public Service Commission of Wisconsin, the Kentucky Public Service Commission, Public Utilities Commission of Ohio and the Indiana Utility Regulatory Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

18. Wisconsin Electric Power Company

[Docket No. ER95-1650-000]

Take notice that on August 28, 1995, Wisconsin Electric Power Company (Wisconsin Electric), tendered for filing an amendment of its filing of pro forma network and point to point transmission tariffs. The amendment corrects several pages that were inadvertently submitted for another proceeding as well as corrects a photocopying error.

Wisconsin Electric renews its requested effective date of August 1, 1995.

Copies of the filing have been served on the service list maintained in Docket Nos. ER94-1625, *et al.*

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

19. Wisconsin Electric Power Company

[Docket No. ER95-1652-000]

Take notice that on August 30, 1995, Wisconsin Electric Power Company (Wisconsin Electric), tendered for filing an Electric Service Agreement and a Transmission Service Agreement between itself and Tennessee Power Company (TPCO). The Electric Service Agreement provides for service under Wisconsin Electric's Coordination Sales Tariff. The Transmission Service Agreement allows TPCO to receive transmission service under Wisconsin Electric's FERC Electric Tariff, Original Volume 1, Rate Schedule T-1.

Wisconsin Electric requests an effective date of sixty days from date of filing. Copies of the filing have been served on TPCO, the Public Service Commission of Wisconsin and the Michigan Public Service Commission.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

20. The Montana Power Company

[Docket No. ER95-1653-000]

Take notice that on August 30, 1995, The Montana Power Company (Montana), tendered for filing with the Federal Energy Regulatory Commission pursuant to 18 CFR 35.12, as an initial rate schedule, a Unit Contingent Capacity and Associated Energy Sales Agreement between Montana and Heartland Energy Services (Heartland).

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

21. Louis E. Buck, Jr.

[Docket No. ID-2913-000]

Take notice that on August 28, 1995, Louis E. Buck, Jr. (Applicant) tendered for filing a supplemental application under Section 305(b) of the Federal

Power Act to hold the following positions:

Vice President, Chief Accounting Officer and Assistant Secretary, Arkansas Power & Light Company

Vice President, Chief Accounting Officer and Assistant Secretary, Gulf States Utilities Company

Vice President, Chief Accounting Officer and Assistant Secretary, Louisiana Power & Light Company

Vice President, Chief Accounting Officer and Assistant Secretary, Mississippi Power & Light Company

Vice President, Chief Accounting Officer and Assistant Secretary, New Orleans Public Service Inc.

Vice President and Chief Accounting Officer, System Energy Resources, Inc.

Comment date: September 18, 1995, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22688 Filed 9–12–95; 8:45 am]

BILLING CODE 6717-01-P

Notice of Issuance of Decisions and Orders During the Office of Hearings and Appeals Week of June 5 through June 9, 1995

During the week of June 5 through June 9, 1995 the decisions and orders summarized below were issued with respect to appeals and applications for other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeal

Richard M. Ross, 6/8/95, VFA–0041

Richard M. Ross filed an Appeal from a determination issued by the Oakland Operations Office (Oakland) of the Department of Energy in response to a request from him under the Freedom of Information Act (FOIA). Ross sought copies of records concerning past and present employment of nine identified DOE employees. In considering this Appeal, the DOE found that certain aspects of the search conducted by Oakland were inadequate and that Oakland had improperly withheld certain records concerning the private employment history of DOE employees pursuant to Exemption 6 of the FOIA. Accordingly, the Appeal was granted in part.

Rocky Flats Field Office, 6/5/95, VSO–0015

An Office of Hearings and Appeals Hearing Officer issued an opinion under 10 C.F.R. part 710 concerning the continued eligibility of an individual for access authorization. After considering the testimony at the hearing convened at the request of the individual and all other information in the record, the Hearing Officer found that the individual has been a user of alcohol habitually to excess and that the diagnosis by a board-certified psychiatrist that the individual was suffering from alcohol abuse was based upon essentially undisputed facts. The Hearing Officer also found that the individual had failed to present sufficient evidence of rehabilitation, reformation or other factors to mitigate the derogatory information under 10 C.F.R. 710.8(j). In particular, the Hearing Officer found that the individual had consumed excessive amounts of alcohol at least twice during the period of time that he claimed that his drinking was under control. Accordingly, the Hearing Officer recommended that the individual's access authorization, which had been suspended, should not be restored.

Refund Application

Texaco Inc./Joe Long's Texaco, 6/7/95 RF321–21065

The Department of Energy (DOE) issued a Decision and Order (D&O) rescinding a refund that had been granted to Joe Long's Texaco. The refund was rescinded and the funds ordered redeposited into the Texaco escrow account because the DOE was unable to locate Mr. Long.

Refund Applications

The Office of Hearings and Appeals issued the following Decisions and Orders concerning refund applications, which are not summarized. Copies of the full texts of the Decisions and Orders are available in the Public Reference Room of the Office of Hearings and Appeals.

Atlantic Richfield Company/Motor Freight Express et al	RF304–12216	06/07/95
Borough of Highland Park et al	RF272–97500	06/07/95
Gulf Oil Corporation/Howe Oil Company, Inc.	RF300–20421	06/07/95
Gulf Oil Corporation/South Bay Gulf	RF300–13963	06/07/95
Texaco Inc./Field's Texaco Service et al	RF321–220	06/07/95
Texaco Inc./Fruitwood Texaco et al	RF321–4975	06/07/95
Texaco Inc./W.C. Hancock	RF321–20458	06/09/95

Dismissals

The following submissions were dismissed:

Name	Case No.
Albuquerque Operations Office	VSO–0025
Atchison, Topeka & Santa Fe Railway	RF304–13208
Bill's Texaco	RF321–20534
Enchanted Oaks Texaco	RF321–6691
Herb's Texaco & Repair Shop	RF321–20108
Hyde Park Super Service Station	RF321–20848
Monte Sweet's Self Service	RF321–11320
Oak Ridge Operations	VSO–0030
Patterson & Brasher Texaco	RF321–20589
Petroleum Service Co.	RF321–20590
Ross Texaco	RF321–7195
Sir John's ARCO	RF304–14820

Copies of the full text of these decisions and orders are available in the Public Reference Room of the Office of Hearings and Appeals, Room 1E–234, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

Dated: September 5, 1995.

George B. Breznay,

Director, Office of Hearings and Appeals.

[FR Doc. 95–22762 Filed 9–12–95; 8:45 am]

BILLING CODE 6450-01-P

Office of Hearings and Appeals

Notice of Issuance of Decisions and Orders During the Week of May 29 Through June 2, 1995

During the week of May 29 through June 2, 1995 the decisions and orders summarized below were issued with respect to applications for relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Elizabeth H. Donnelly, 6/2/95, VFA–0039

Elizabeth H. Donnelly filed an Appeal from a determination issued to her on April 3, 1995 by the Department of Energy's Nevada Operations Office. In that determination, the Nevada Operations Office denied Ms. Donnelly's request for information filed pursuant to the Freedom of Information Act (FOIA). Specifically, the Nevada Operations Office denied Ms. Donnelly's request for information related to a "hostile work environment study" pursuant to FOIA Exemption 5. In considering the Appeal, the DOE found that the determination to withhold the requested information pursuant to Exception 5 was consistent with the FOIA. Accordingly, the DOE denied Ms. Donnelly's Appeal.

Gayle M. Adams, 6/1/95, VFA–0040

Gayle M. Adams filed an Appeal from a determination issued to her by the Richland Operations Office of a Request for Information which she had submitted under the Freedom of Information Act. The Richland Operations Office had released responsive documents, but Adams challenged the adequacy of the DOE's search. In considering the Appeal, the OHA found that the search for responsive documents was adequate.

J. Eileen Price, 6/2/95, VFA–0038

J. Eileen Price (Price) filed an Appeal from a determination issued to her by the Department of Energy's Western Area Power Administration (WAPA), that partially denied a Request for Information which Mrs. Price submitted under the Freedom of Information Act. Price requested copies of all appaisal information in her personnel file and all unofficial information pertaining to her employment in WAPA's Loveland Area Office beginning in October 1992. In its determination letter, the WAPA stated that it had found two documents responsive to Price's request, a grievance investigation document (Grievance Document) and a chronology of events related to her grievance (Chronology). Additionally, WAPA stated that it had found various pages from the day planners (Day Planner Notes) of two of her supervisors which were potentially responsive to her request. WAPA provided Price with a copy of the Chronology but withheld the Grievance Documents claiming that the Grievance Document was predecisional and deliberative and thus exempt from disclosure under Exemption 5 of the FOIA. Additionally, WAPA determined that Day Planner Notes were not agency records for the purposes of the FOIA and thus not subject to disclosure. Price argued that WAPA improperly withheld the Day Planner Notes and the Grievance Document. The DOE determined that, while the Grievance Document was predecisional and deliberative, a significant portion of the document contained segregable factual material which was improperly withheld from Price. The DOE further found that WAPA correctly determined that the Day Planner Notes were not agency records subject to disclosure under the FOIA. Consequently, Price's Appeal was granted in part.

U.S. Solar Roof, 5/30/95, VFA–0037

U.S. Solar Roof (Solar Roof) filed an Appeal from a determination issued to it on April 4, 1995 by the Director of the Photovoltaic Technology Division of the Office of Energy Efficiency and Renewable Energy (EE) of the Department of Energy. In that determination, EE denied in part a request for information submitted by Solar Roof on February 27, 1995 under the Freedom of Information Act (FOIA). The EE released two specific items but withheld seven items in their entirety pursuant to 5 U.S.C. § 552(b)(5) (Exemption 5). In its Appeal, Solar Roof challenged EE's April 4, 1995 determination and asserted that EE improperly applied Exemption 5 to the withheld information, and requested that the OHA direct EE to release it. In considering the Appeal, the Office of Hearings and Appeal (OHA) found EE properly applied the threshold requirements of Exemption 5 to the withheld information. However, the OHA remanded this Appeal to EE to issue a new determination, either releasing the withheld information or providing a more adequate consideration of the public interest in its disclosure. Therefore, the DOE granted in part and denied in part Solar Roof's Appeal.

Home Oil Co., Inc., 6/1/95, LEE–0135

Home Oil Co., Inc., (Home Oil) filed an Application for Exception from the requirement to file Form EIA–782B, "Resellers'/Retailers' Monthly Petroleum Product Sales Report." If granted, Home Oil would no longer be required to file Form EIA–782B. On consideration, the DOE denied Home Oil's Application for Exception. In denying the exception request, the DOE considered that Home Oil had not shown that filing Form EIA–782B constituted an undue hardship, gross inequity, or unfair distribution of burdens.

Refund Applications

Atlantic Richfield Co./Seago Enterprises, Inc., 6/1/95, RF304–13736

The DOE issued a Decision and Order partially granting an Application for

Refund filed by Seago Enterprises, Inc., in the ARCO special refund proceeding. The firm had applied for a refund based upon product purchased during 1973 and 1974, part of which was resold to ARCO. Seago's 1973 ARCO purchases were subject to a fixed-price contract based upon January 1973 prices. Seago's purchases were therefore at prices significantly below prevailing market prices, and the DOE found that Seago was not injured with respect to these purchases. With respect to the product that was resold to ARCO, because the contracts guaranteed Seago a fixed profit margin, the firm was also not injured with respect to those purchases. Therefore, the DOE determined that Seago was entitled to a refund only for its 1974 purchases that were not resold to ARCO.

Gulf Oil Corporation/Hinds Gulf, 5/30/95, RR300–253

The DOE issued a Decision and Order concerning a Motion for Reconsideration filed in the Gulf Oil Corporation special refund proceeding by Roger C. Hinds, on behalf of Hinds Gulf. In its Motion, Hinds requested that the DOE reconsider a May 5, 1993 Decision and Order dismissing the refund application of Hinds Gulf on the ground that it was filed after the March 1, 1993 deadline for the Gulf proceeding. *See Gulf Oil Corp./Hind's Gulf,* Case No. RF300–21736 (May 5, 1993) (unpublished decision).

In considering the Motion, the DOE determined that Hinds had not presented any compelling reason that would warrant acceptance of the late application. Specifically, the DOE determined that lack of knowledge concerning the deadline did not provide a compelling reason for acceptance of a late application. Accordingly, the Motion for Reconsideration was denied.

Gulf Oil Corporation/Moore's Fuel Service, 5/30/95, RF300–13106, RF300–19809, RF300–21827

The DOE issued a Decision and Order resolving competing Applications for Refund filed in the Gulf Oil Corporation special refund proceeding for Moore's Fuel Service. The DOE granted the claim of the owner during the refund period, and denied the claim of the current owner, on the ground that the asset sales agreement at issue did not include the right to the refund. In addition, the DOE issued a Supplemental Order, rescinding an excessive refund that the former owner of Moore's Fuel Service had received in an earlier Gulf proceeding. As a result, the former owner, as well as his counsel in the earlier Gulf proceeding, was required to refund $7,675, an amount equal to the excessive refund received in the earlier Gulf proceeding minus the refund granted in this Decision and Order.

Gulf Oil Corporation/Red Carpet Car Wash, 6/1/95, RF300–20452

Petroleum Management, Inc. (PMI) filed an Application for Refund in the Gulf Oil Corporation (Gulf) refund proceeding, based on the purchases of three Red Carpet Car Wash locations. In considering the application, the DOE noted that it had already held, in connection with another refund application filed by PMI, that PMI did not have the right to a refund for the car washes. *See Shell Oil Co./Red Carpet Car Wash,* Case No. RF315–10003 (January 11, 1994) (unpublished decision). Specifically, the DOE noted that the agreement transferring the stock of Red Carpet Car Wash, Inc., the owner of the car washes did not reserve for PMI the right to any refund due Red Carpet. In addition, the DOE determined that PMI was not entitled to a refund for certain PMI outlets because PMI had advised the DOE that those outlets did not purchase Gulf product. Accordingly, the Application was denied.

R. Cali and Brothers, 6/1/95, RF272–97287

The DOE issued a Decision and Order concerning an Application for Refund submitted in the Subpart V crude oil refund proceeding by R. Cali and Brothers. The decision declared June 30, 1995 as the final deadline for the crude oil refund proceeding. The DOE also stated that it would decide if there are sufficient funds available for additional refunds after the resolution of a few outstanding enforcement proceedings.

Texaco Inc./Dow Chemical Co., 6/1/95, RR321–096

The DOE issued a Decision and Order granting a Motion for Reconsideration filed on behalf of Dow Chemical Company in the Texaco Inc. special refund proceeding. The DOE had previously granted Dow a refund based upon its purchases of 1,293,189 gallons of Texaco refined products during the period covered by the Texaco consent order. DOE agreed to consider a supplemental Dow refund claim based upon Dow's additional purchase of 12,978,088 gallons of Texaco propane during the same period. Dow became aware of these purchases upon its review of DOE enforcement documents which stem from a DOE audit of Texaco's business records. In addition, Dow requested an above-volumetric refund for these volumes and presettlement interest on the amount by which it was overcharged by Texaco. DOE found that Dow satisfied the criteria for an above-volumetric refund by demonstrating that it was in all likelihood overcharged by a specific amount. Since Dow was an end-user of the Texaco propane, the firm did not have to demonstrate that it was injured by Texaco's alleged overcharges. DOE also found that Dow's claim to prejudgment interest was meritorious on equitable grounds noting that the DOE/Texaco consent order settlement amount included interest on Texaco's alleged overcharges as a major component. Dow was, therefore, granted a refund of $261,782 ($178,120 principal plus $83,662 interest).

The Waggoners Trucking Co., 5/30/95, RC272–295

The DOE issued a Decision and Order concerning an Application for Refund submitted in the Subpart V crude oil refund proceeding by The Waggoners Trucking Co. (Waggoners). The OHA previously granted a crude oil refund to Waggoners. Waggoners, however, was subsequently found to have filed a refund claim in the Surface Transporters Stripper Well proceeding. In doing so, Waggoners properly executed a waiver and release waiving its right and the rights of its affiliates on August 7, 1986, to receive Subpart V crude oil overcharge refunds. Although Waggoners' Stripper Well refund claim was denied, its waiver is nevertheless binding on its Subpart V crude oil refund Application. Accordingly, this Decision rescinded the original refund granted to Waggoners.

Refund Applications

The Office of Hearings and Appeals issued the following Decisions and Orders concerning refund applications, which are not summarized. Copies of the full texts of the Decisions and Orders are available in the Public Reference Room of the Office of Hearings and Appeals.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–5295–7]

Agency Information Collection Activities Up for Renewal

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) listed below is coming up for renewal. Before submitting the renewal package to the Office of Management and Budget (OMB), EPA is soliciting comments on specific aspects of the collection as described below.

DATES: Comments must be submitted on or before November 13, 1995.

ADDRESSES: Indoor Air Division (6607J), U.S. EPA, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Susan Womble, 202–233–9057/FAX 202–233–9555/womble.susan@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Affected entities: Entities affected by this action are those office buildings which voluntarily participate in the Building Assessment Survey and Evaluation (BASE) program.

Title: U.S. Environmental Protection Agency Indoor Environmental Quality Survey, EPA number 1619.02, OMB #2060–0244, January 31, 1996.

Abstract: The Indoor Environmental Quality Questionnaire is a component of the EPA Building Assessment Survey and Evaluation (BASE) program. In this program, EPA is conducting a five-year indoor air quality (IAQ) study of 150–250 large commercial and public office buildings. The purpose of this study is to develop a national baseline assessment of the indoor air in such buildings. The activities EPA will conduct under this study include the Indoor Environmental Quality Questionnaire, building inspections, interviews with building maintenance workers, environmental measurements (e.g. ventilation rates, concentrations of indoor air pollutants) and other quantitative and qualitative assessments. By conducting this research, EPA will begin to be able to assess the key building parameters that affect IAQ and the incidence of certain IAQ-related health and comfort problems. The Indoor Environmental Questionnaire is a voluntary questionnaire asking for information pertaining to work station characteristics, working condition, exposure to pollutants, health and well-being, and stress. Data from the Indoor Environmental Questionnaire will be used to compare the measured building parameters and health effects.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The public reporting burden for this collection of information is e[illegible]imat[illegible]verage 14 minutes per res[illegible]ons[illegible]uding time for reviewing ins[illegible] and completing and re[illegible]g the collection of information. The respondents to the questionnaire are occupants of commercial facilities in a wide variety of fields and SIC codes. Over the last three years approximately 1500 questionnaires have been administered. This is a smaller number than previously projected due to the decreased budget. The total burden of an estimated 14000 persons has not changed but the length of time to achieve that number is greater. The estimated total annual burden of respondents is a maximum of $14,720, and the frequency of collection is once. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: September 7, 1995.

Susan E. Womble,

Environmental Scientist.

BILLING CODE 6560-50-M

[FRL–5295–2]

Modification of the March 21, 1988, Russo Development Corporation Section 404(c) Final Determination

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of Modification of Clean Water Act (CWA) Section 404(c) Final Determination for Russo Development Corporation.

SUMMARY: Notice is hereby given that the U.S. Environmental Protection Agency (EPA) has modified the March 21, 1988, CWA Section 404(c) Final Determination concerning the Russo Development Corporation (Russo) site located in the Hackensack Meadowlands (Meadowlands), Bergen County, New Jersey. This modification allows Russo to seek authorization for the discharge of dredged or fill material into a 13.5-acre tract containing wetlands, provided Russo deeds over for preservation and enhancement a 16.3 acre property located in Ridgefield, New Jersey, and provides $700,000 for wetland enhancement activities at sites in the Meadowlands. Any discharges of dredged or fill material to wetlands on the Russo site must be authorized by the U.S. Army Corps of Engineers under Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act.

EFFECTIVE DATE: The amendment was effective on September 7, 1995.

FOR FURTHER INFORMATION CONTACT: John Ettinger (EPA) at (202) 260–1190.

SUPPLEMENTARY INFORMATION: CWA Section 404(c) authorizes EPA to prohibit, deny, restrict, or withdraw the specification of a site for the disposal of dredged or fill material. On March 21, 1988, EPA's Assistant Administrator (AA) for Water rendered a final determination which prohibited the designation of 57.5 acres of wetlands as a disposal site for fill material. These wetlands were and are currently owned by the Russo Development Corporation (Russo), and are located in the Hackensack Meadowlands in Carlstadt, Bergen County, New Jersey. The Final Determination pertained to a proposal by Russo to maintain 52.5 acres of unauthorized fill (of which 44 acres have been built upon) and to fill a remaining five acres of wetlands of a 13.5-acre tract to complete a warehouse complex. The reason cited by the AA for Water for the 1988 404(c) determination was that the discharge of fill would have unacceptable adverse effects, both individually and cumulatively, on wildlife in the Meadowlands. The 1988 Final Determination stated that the Russo site was/is very valuable to wildlife from a site specific and cumulative standpoint and, that the compensatory mitigation proposed by Russo at that time would not adequately replace those wildlife values that had been and were anticipated to be lost. In the Final Determination, however, EPA indicated that its Section 404(c) prohibition could be reconsidered upon demonstration that the adverse effects to wildlife have been satisfactorily addressed.

Litigation was undertaken by Russo with regard to EPA's and the Army Corps of Engineers' (Corps) actions regarding the site. The litigation history is summarized in the notice of proposed amendment of the 404(c) determination (See 60 FR 15913).

The Corps, EPA, and Russo have engaged in discussions to resolve issues arising under Section 404 with regard to the Russo site. As a result of these discussions, Russo agreed to provide additional mitigation. Based on this additional mitigation, EPA proposed to amend the 404(c) final determination on March 28, 1995. In particular, Russo has agreed to deed over, for preservation and enhancement, an approximately 16-acre parcel of wetlands in Ridgefield, NJ, located approximately 1.5 miles from the subject Russo sites. Russo also agreed to provide $700,000 for the purpose of enhancing wetlands both at this site and at sites contained in a Hackensack Meadowlands Development Commission (HMDC) mitigation bank, as appropriate. This mitigation proposal is designed to compensate for wetlands functions lost as a result of the past and future fill activities on both Russo sites. Based on the increased mitigation, EPA proposed to amend the prohibition of the discharge of fill material on the 13.5-acre Russo site to allow for designation of the subject property as a disposal site, provided the compensatory mitigation conditions are met. After final amendment of the Final Determination, Russo would seek an after-the-fact authorization from the Corps for the past discharge of fill material into the subject wetlands for the purpose of constructing a warehouse complex, as well as authorization for the future discharge of fill material into remaining wetlands for additional development activities.

In the **Federal Register** notice proposing to amend the 404(c) prohibition, EPA requested comments on allowing for restricted use of the Russo site based on the compensatory mitigation proposal discussed above. (A more complete background on this case, as well as a detailed description of a possible compensation scenario that could be implemented under the proposed amendment can be found in the March 28, 1995, notice.) In particular, EPA was interested in comments relating to the proposed compensatory mitigation and its ability to replace the wildlife values lost as a result of past fill activities, as well as anticipated losses due to proposed discharges in the subject wetlands. EPA also mailed copies of the **Federal Register** notice to parties listed on the U.S. Army Corps of Engineers mailing list for the Hackensack Meadowlands District and to recipients of an October 14, 1987, public notice scheduling a public hearing for the Russo Section 404(c) action.

EPA received three written comments in response to the March 28, 1995, **Federal Register** notice. These comments are summarized below, along with EPA's responses to these comments.

The Pleasantville Field Office of the U.S. Fish and Wildlife Service (Service) opposed the proposed action on several grounds. The Service contended that it would adversely affect fish and wildlife resources by contributing to the continuing loss of regionally significant habitat, and would be contrary to the objective of maintaining and restoring regional biodiversity. The Service emphasized that the Meadowlands is a corridor for migratory birds, as well as a large island of habitat in an intensely urbanized area that plays a critical role in maintaining the region's biodiversity.

The Service also commented that the draft Environmental Impact Statement (DEIS) on the proposed Special Area Management Plan (SAMP) for the Hackensack Meadowlands fails to articulate specific fish and wildlife management objectives for target species or species groups. This lack of clearly articulated management objectives, according to the Service, makes it impossible to evaluate the success of individual wetland enhancement projects or the cumulative effects of all such projects on the Hackensack Meadowlands ecosystem.

The Service also contended that the proposed compensatory mitigation is not likely to replace the wetland functions and values lost as a result of Russo's fill activity because the wetlands filled by Russo provided high value fish and wildlife habitat, while the wetlands to be enhanced are already of moderate to high value for fish and wildlife. The Service recommended that the original prohibition under Section 404(c) on the 13.5 acre parcel should remain intact.

Response: EPA agrees that the Meadowlands is a significant habitat for fish and wildlife. The desire to protect the remaining wetlands in the Meadowlands motivated EPA, the Corps, the Hackensack Meadowlands Development Commission (HMDC), the New Jersey Department of Environmental Protection (NJDEP) and the National Oceanic and Atmospheric Administration (NOAA) to join as partners to develop the SAMP, which is a 20-year plan that provides for natural resource protection, and reasonable economic growth within the Meadowlands. The proposed SAMP includes measures for the permanent protection and enhancement of about 90% of the remaining wetland acreage in the Meadowlands, along with the measures proposed for upland and wetland habitat improvement.

The DEIS is intended to be programmatic in nature, and the mitigation plan and strategies contained therein are designed to meet the program goal agreed to by the partner agencies, i.e., no net loss of wetland functions within the Meadowlands District. The targeting of a wetlands mitigation effort toward habitat enhancement for particular species or species groups is more appropriately performed at the site-specific level, on a case-by-case basis, as mitigation sites are developed and not as part of the DEIS. When a specific site is chosen to implement mitigation consistent with the proposed action, specific species or species groups could be targeted as part of the mitigation strategy. EPA will consider all comments regarding the SAMP and DEIS, including those submitted by the Service.

EPA believes, however, that the compensatory mitigation plan proposed by Russo will replace the fish and wildlife values lost as a result of the past and future fill activities. The Advanced Identification of the Hackensack Meadowlands, in which the Service was a participant, as well as additional, detailed studies performed in conjunction with the SAMP, clearly indicate that not all habitat in the Meadowlands is of moderate to high value for wildlife. If a mitigation bank site is established on a site with low habitat value, appropriate enhancement of the site would provide the requisite increase in fish and wildlife value needed to offset the loss in value due to Russo's activity. Appropriate targeting of mitigation bank sites by HMDC, in coordination with EPA, will help to ensure that this goal is achieved. Moreover, the example provided in the March 28, 1995 notice is a mitigation strategy that could offset the loss of wildlife value from Russo's activity.

The State of New Jersey Department of Environmental Protection provided comments on the proposal in the form of two letters. The first letter dated April 21, 1995, objected to the modification. However, a second letter dated June 15, 1995, expressly superseded the Department's earlier letter. In this letter, the State indicated that the proposed settlement and modification of the 404(c) prohibition would serve to satisfy all State regulatory concerns for both the Carlstadt site and the Ridgefield site, and expressed their full support for both actions.

Mr. Henry Gluckstern, a private citizen, wrote in objection to the proposed modification of the 404(c) prohibition, contending that the alternative remedial approaches outlined in the March 28 notice should be rejected as entirely inadequate and that "nothing in the data supplied in the notice supports an actual impossibility of restoring the land to its original wetland values." Mr. Gluckstern opined that the proposed compensatory mitigation will not achieve true biological equivalency, and that as such, it should be rejected.

Response: The information contained in the March 28, 1995, public notice on the proposed amendment provided a detailed chronology of the history of activity on the 13.5 acre tract. For the reason explained below, EPA believes that restoration of the Russo site to its original condition with attendant wildlife values is not likely to be possible. Most of the tract was excavated, with several feet of the original organic soil and "meadow mat" being removed. Subsequently, approximately 8.5 acres of the tract were filled with shot rock varying in size from cobbles to boulders. Two to three acres of the remaining five acres of wetlands on this site subsequently ponded.

The loss of the original substrate, along with its seed bank, would result in a complete change in any plant community that could establish and be naturally sustained if the fill were removed. The establishment of a pond on the excavated portion of the five acre site, which was not present in the original wetlands complex, is direct evidence it would be unlikely that the original wetlands conditions could be established there naturally. In addition, the placement of several feet of rock on 8.5 acres of the site has resulted in compaction of the remnants of the original soil on that site. Evidence of this, based on excavation of the fill performed in 1990, are part of the records of this case.

Moreover, fill removal would permanently change the drainage characteristics of the soil. In addition, the elevation of the remnant original soil would be lower than its original level as a result of the compaction of the fill. As a result of these changes, along with the loss of the organic surface substrate, the conditions at the site would be very different from those that originally existed and supported the historic complex of wetland types on the site. In particular, the wet-meadow complex which existed on site is typically a ground-water fed system, and therefore very dependent on both the drainage characteristics of the substrate and the elevation of the wetland. Even if appropriate seeding/planting could take place, and organic substrate could be added to raise the elevation of the site to its original conditions, the change in the lower soils would still be likely to influence site hydrology, on which such a wetland system is dependent. Consequently, EPA has determined that the data do not support a likelihood of restoring the site to its original wetlands values.

The contention that no true biological equivalence for the wildlife values lost from the site can be established is difficult to address, because the commenter does not define how he is applying the term equivalence. Actual habitat can never be exactly replicated from one site to another, because natural sites rarely have identical (although they frequently have similar) physical, geological, and biological conditions. Likewise, the determinants of community structure are the products of a complex interaction of both existing ecological conditions and stochastic events, and thus will vary from one site to another. However, appropriate conditions to support given wildlife species or groups can be established,

995
MI

particularly if the habitat requirements of the desired species or communities are broad. The term equivalence, when applied to individual species, generally refers to two different species which perform the same general ecological role in two different geographic areas. Ecologically equivalent communities, likewise, may have different species; those species, however, would be performing similar roles and the communities would have the same general community structure and dynamics, although those communities would be in two different locations. Given these assumptions, a community which is ecologically equivalent to the Russo site would be considered to be successfully established if it contains similar features and supports a similar number of species which perform the same general roles as those species which were likely to have been present on the site.

The March 28, 1995 notice described a possible combination of mitigation strategies which, if implemented, would support similar wildlife species to those which used the Russo tracts prior to Russo's activities. For example, the excavation of ponds and/or channels would provide open water habitat adjacent to a natural windbreak (i.e., *Phragmites*). This activity would provide resting and feeding habitat for waterfowl and wading birds, especially overwintering black duck, *Anas rubripes*, (a U.S. Fish & Wildlife Service species of special concern) and a species of concern in the final determination of the AA for Water. The resulting habitat would therefore be similar habitat, and would provide support for the same species that may have used the Russo tracts. Likewise, the establishment of either a wet meadow or a high salt marsh would provide hunting habitat for northern harrier, *Circus cyaneus*, and other raptors, as well as game birds such as woodcock and pheasant. Thus, these activities could establish equivalent wildlife values to those lost from the Russo tracts. Those losses have been sustained for nearly ten years, and we believe that implementation of an appropriate mitigation strategy could only benefit the Meadowlands. We therefore continue to believe that the proposal could provide good compensation for wildlife values which were lost from the Russo tracts.

It should be clarified that, under the terms of this 404(c) restriction, $700,000 would be provided by Russo to fund any appropriate mitigation at the Ridgefield parcel and any other locations selected out of the mitigation bank to be operated by HMDC. As discussed by EPA in the notice of the proposed 404(c) determination, effective mitigation could include enhancement activities at the Ridgefield site as well as other appropriate locations. The terms of the 404(c) restriction do not, however, specifically mandate how the money is to be allocated. If a mitigation plan is submitted demonstrating that greater environmental benefit would be obtained from enhancing sites other than the Ridgefield parcel, such a mitigation plan would be consistent with the 404(c) restriction. EPA will be involved in reviewing such a mitigation plan to ensure that it is appropriate taking into account the functions and values needed to compensate for the losses at the 13.5 and 44 acre sites. In addition, it is EPA's intent that, aside from incidental expenses associated with the development of an appropriate mitigation plan, the money provided by Russo to HMDC will be used for actual enhancement activities. Allocation of a portion of the funds for land acquisition, for example, would not be appropriate because it would make it difficult to achieve the degree of mitigation necessary to compensate for losses incurred at the Russo site.

Findings and Conclusions

EPA has carefully reviewed Russo's proposed compensatory mitigation offer and the comments submitted in response to the proposed amendment of the 1988 Final Determination for the CWA Section 404(c) action. Based on this review, EPA concludes that the proposed compensatory mitigation adequately addresses the adverse effects to wildlife described in the Final Determination.

As discussed above, given the extent and impact of Russo's activities on the 13.5-acre site, it is highly unlikely that suitable wetland conditions could be established on-site. Consequently, offsite mitigation is needed to compensate for the adverse effects to wildlife identified in the Final Determination.

The providing of funds to HMDC's proposed mitigation bank for enhancement activities in the Meadowlands will ensure that such mitigation is provided. As a result, a prohibition on the placement of fill material is no longer necessary to prevent unacceptable adverse effects to wildlife. EPA is instead issuing a restriction under Section 404(c) that allows specification of the Russo site as a disposal site for fill material conditional on performance of the mitigation steps specified in the modification below. EPA stated in the **Federal Register** notice proposing this amendment to its 404(c) action that this amendment be conditional on a binding agreement by Russo to perform the specified mitigation. This condition would be met through the imposition of binding conditions in a permit issued under Section 404 by the Corps specifying that Russo must perform this specified mitigation in order for discharges of fill on this site to be authorized under Section 404.

For these reasons, EPA concludes that it is appropriate to modify the original March 21, 1988, Final Determination to allow Russo to seek authorization to discharge dredged or fill material into the 13.5-acre site, provided that Russo implements the mitigation specified below (such mitigation could include the steps outlined in the proposed 404(c) amendment or an equivalent mitigation plan). Any discharge activities to waters of the U.S. must be authorized pursuant to applicable permits issued by the Corps under Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act.

Modification

The March 21, 1988, Clean Water Act Section 404(c) Final Determination for the Russo Development Corporation Site is hereby modified as follows:

The prohibition imposed in the March 21, 1988, Final Determination is removed and a restriction is imposed upon specification of the site for the disposal of dredged or fill material. Under this restriction, the Russo Development Corporation may seek authorization from the U.S. Army Corps of Engineers for discharges of dredged or fill material into waters of the United States within the area previously prohibited by EPA, provided the terms of the authorization require Russo to (1) deed over for preservation and any appropriate enhancements, an approximately 16.3 acre parcel of wetlands located in Ridgefield, New Jersey; and, (2) provide funding in the amount of $700,000 for the purpose of enhancing wetlands in the Hackensack Meadowlands.

Dated: September 7, 1995.

Robert Perciasepe,

Assistant Administrator for Water.

Deadline Extension for Submitting Environmental Education Grant Proposals to EPA

The proposal submission deadline for the "Environmental Protection Agency,

Fiscal Year 1996 Environmental Education Grants Program, Solicitation Notice," is extended from October 13, 1995 to December 15, 1995. The original deadline was published in the **Federal Register**, August 4, 1995 at 60 FR 39994/Notices Section.

Due to possible funding delays at the Federal level for fiscal year 1996, EPA is extending the deadline. This will enable grant applicants to spend more time preparing proposals and will give EPA time to fully determine what the changes, if any, are to its fiscal year budget. This postponement may also delay the EPA awards process until the summer of 1996. Therefore, proposed projects should have an expected start date on or after October 1, 1996, and summer projects may be planned for the summer of 1997. EPA regrets any inconvenience these delays may create for grant applicants.

EPA has been very pleased with the quality of proposals received over the past four years and looks forward to receiving new proposals for 1996. If organizations have submitted a proposal in the past and wish to re-apply, they should observe the changes in the Solicitation Notice regarding EPA priorities for funding. For a copy of the Solicitation Notice, please mail requests to: U.S. Environmental Protection Agency, Environmental Education Grants Program (1707), 401 M Street SW., Washington, DC 20460.

Dated: August 30, 1995.

Michael Baker,

Acting Director, Environmental Education Division.

Notice of Receipt of Requests for Amendments to Delete Uses in Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request for amendment by registrants to delete uses in certain pesticide registrations.

DATES: Unless a request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on December 12, 1995.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305–5761; e-mail: hollins.James.epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in the 16 pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names and the specific uses deleted. Users of these products who desire continued use on crops or sites being deleted should contact the applicable registrant before December 12, 1995 to discuss withdrawal of the applications for amendment. This 90-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion.

TABLE 1.—REGISTRATIONS WITH REQUESTS FOR AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

EPA Reg No.	Product Name	Delete From Label
000004–00099	Malathion 50% EC (Malathion)	Indoor use in homes, buildings, dairy barns, hog barns, poultry houses, calf pens, dogs, cats, kennels, pens, stored grain, field & garden seeds, transport containers for bagged flour & packaged cereals
000352–00317	Sinbar Herbicide (Terbacil)	Pecans
000352–00341	Manzate 200 Fungicide (Mancozeb)	Non-agricultural turf & lawn grass uses
000352–00354	Benlate Fungicide (Benomyl)	Turf & lawn grass uses
000352–00377	Benomyl Technical (Benomyl)	Turf & lawn grass uses
000352–00385	Benlate OD Fungicide (Benomyl)	Turf & lawn grass uses
000352–00395	Krenite Brush Control (Fosamine Ammonium)	Ditchbank uses
000352–00396	Benlate DF Fungicide (Benomyl)	Turf & lawn grass uses
000352–00398	Manzate 200 Flowable Fungicide (Mancozeb)	Non-agricultural turf & lawn grass uses
000352–00447	Benlate 50 DF Fungicide (Benomyl)	Turf & lawn grass uses
000352–00449	Manzate 200 DF Fungicide (Mancozeb)	Non-agricultural turf & lawn grass uses
000352–00564	Benlate SP Fungicide (Benomyl)	Turf & lawn grass uses

TABLE 1.—REGISTRATIONS WITH REQUESTS FOR AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS—Continued

EPA Reg No.	Product Name	Delete From Label
000655–00777	Prentox 5 LB. Malathion (Malathion)	Apples, pears, quince, almonds, asparagus, carrots, filbert, peanuts, pineapples, plums, prunes, safflower, soybeans, sugar beets; tobacco, radish, watercress, forest trees (including deciduous forest & shade trees, eastern pine, pines, red pine, stored commodity treatment for almonds, field or grass garden seeds, peanuts, rice, sorghum, bagged citrus pulp, cattle feed concentrate blocks (non- medicated), pet & domestic animal uses for beef cattle, cats, chickens, dairy cattle (lactating and non-lactating), dogs, ducks, geese, goats, hogs, horses (including ponies), sheep, turkeys, animal premise uses for poultry houses, cat & dog sleeping quarters, poultry houses, household uses for indoor domestic dwellings, matteresses, commercial and industrial uses for bagged flour, cereal processing plants, edible & inedible commercial establishments, edible & inedible food processing plants, packaged cereals, pet food & feed stuff, warehouses to control khapra beetles
002217–00628	Methoxychlor 75 Dust Base (Methoxychlor)	Ornamental lawns, recreational areas, urben & rural areas, agricultural premise use for barns (including dairy barns), milk rooms, pens, sheds, stalls, poultry houses, stables, feed rooms & manure piles, kennels, dog & cat sleeping quarters, commercial & industrial use for food processing plants (edible & inedible), food processing storage areas (including cereal processing mills, cereal storage areas & flour mills), mausoleums, mushroom house and equipment treatment, transportation vehicles, empty peanut warehouses
008329–00018	Mosquitomist Two ULV (Chlorpyrifos)	Mosquito larvicide uses
051036–00105	Ametryne 4FL (Ametryne)	Potatoes, citrus use

The following Table 2 includes the names and addresses of record for all registrants of the products in Table 1, in sequence by EPA company number.

TABLE 2.—REGISTRANTS REQUESTING AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

Company No.	Company Name and Address
000004	Bonide Products, Inc., 2 Wurz Ave., Yorkville, NY 13495.
000352	E.I. duPont de Nemours & Co., Registration & Regulatory Affairs, Walker's Mill, Barley Mill Plaza, P.O. Box 80038, Wilmington, DE 19880.
000655	Prentiss Incorporated, C.B. 2000, Floral Park, NY 11002.
002217	PBI/Gordon Corp., 1217 W. 12th St., P.O. Box 4090, Kansas City, MO 64101.
008329	Clarke Mosquito Control Products, Inc., 159 N. Garden Ave., Roselle, IL 60172.
051036	Micro Flo Company, P.O. 5948, Lakeland, FL 33807.

III. Existing Stocks Provisions

The Agency has authorized registrants to sell or distribute product under the previously approved labeling for a period of 18 months after approval of the revision, unless other restrictions have been imposed, as in special review actions.

List of Subjects

Environmental protection, Pesticides and pests, Product registrations.

Dated: August 28, 1995.

Frank Sanders,

Director, Program Management and Support Division, Office of Pesticide Programs.

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn by December 12, 1995, orders will be issued cancelling all of these registrations.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305–5761; e-mail: hollins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be cancelled. The Act further provides that EPA must publish a notice of receipt of any such request in the **Federal Register** before acting on the request.

II. Intent To Cancel

This Notice announces receipt by the Agency of requests to cancel some 35 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

Table 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
000100–00646	Subdue 5G Fungicide	N-(2,6-Dimethylphenyl*N*-(methoxyacetyl)alanine, methyl ester
000100–00672	Apron T-69 Fungicide	2-(4'-Thiazolyl)benzimidazole *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 CA–87–0007	Apron T-69 SD	2-(4'-Thiazolyl)benzimidazole *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 ID–86–0019	Apron T-69 SD	2-(4'-Thiazolyl)benzimidazole *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 ME–92–0002	Ridomil MZ 58 Fungicide	Zinc ion and manganese ethylenebiedithiocarbamate, coordination product *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 NC–90–0004	Subdue Granular Fungicide	*N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 ND–92–0002	Ridomil MZ 58 Fungicide	Zinc ion and manganese ethylenebiedithiocarbamate, coordination product *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000100 WA–86–0028	Apron T-69 SD	2-(4'-Thiazolyl)benzimidazole *N*-(2,6-Dimethylphenyl)-*N*-(methoxyacetyl)alanine, methyl ester
000224–00029	Phillips Fuel Additive 55 MB-E	2-Methoxyethanol
000352–00270	Dupont Lorox Weed Killer WP	3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea
000352–00391	Dupont Lorox L Herbicide	3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea
000352–00451	Dupont Lorox Plus Herbicide	3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea 2-(((((4-Chloro-6-methoxy-2-pyrimidinyl)amino)carbonyl)amino)sulfonyl)benzoic acid,
000352–00543	New Lorox Plus Herbicide	3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea 2-(((((4-Chloro-6-methoxy-2-pyrimidinyl)amino)carbonyl)amino)sulfonyl)benzoic acid,
000352–00544	Dupont Gemini Herbicide	3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea 2-(((((4-Chloro-6-methoxy-2-pyrimidinyl)amino)carbonyl)amino)sulfonyl)benzoic acid,

III. Loss of Active Ingredients

Unless the requests for cancellation are withdrawn, one pesticide active ingredients will no longer appear in any registered products. Those who are concerned about the potential loss of this active ingredient for pesticidal use are encouraged to work directly with the registrant to explore the possibility of their withdrawing the request for cancellation. The active ingredient is listed in the following Table 3, with the EPA Company and CAS Number.

TABLE 3.—ACTIVE INGREDIENTS WHICH WOULD DISAPPEAR AS A RESULT OF REGISTRANTS' REQUESTS TO CANCEL

CAS No.	Chemical Name	EPA Company No.
109–86–4	Methoxyethanol	000224 000748

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before December 12, 1995. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** No. 123, Vol. 56, dated June 26, 1991. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

BILLING CODE 6560-50-F

[OPP–30370A; FRL–4974–9]

Safe and Sure Products; Approval of a Pesticide Product Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application to register the pesticide product De-Flea Shampoo Concentrate, containing active ingredients not included in any currently registered product pursuant to the provisions of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Richard Keigwin, Product Manager (PM) 10, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 210, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703) 305–6788; e-mail: keigwin.richard@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of August 24, 1994 (59 FR 43577), which announced that Safe and Sure Products Company, P.O. Box 5547, Sarasota, FL 34277, had submitted an application to register the pesticide product De-Flea Shampoo Concentrate an insecticide (EPA File Symbol 45729–E), containing the active ingredients docusate sodium sulfosuccinate (hereafter referred to as dioctyl sodium sulfosuccinate) and undecylenic acid at 12 and 2 percent respectively, active ingredients not included in any currently registered product.

The application was approved on August 8, 1995, as De-Flea Shampoo Concentrate for use to control fleas, ticks, and lice on dogs, cats and other nursing animals (EPA Registration Number 45729–2).

The Agency has considered all required data on risks associated with the proposed use of dioctyl sodium sulfosuccinate and undecylenic acid, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of dioctyl sodium sulfosuccinate and undecylenic acid when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703–305–5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A–101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

Zeneca Ag Products; Application to Register a Pesticide Product

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of an application to register a pesticide product containing a new active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by October 13, 1995.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP–30393] and the file symbol (10182–UNI) to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an

ASCII file avoiding the use of special characters and any form of encryption. Comments and data will be accepted on disks in Wordperfect 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP–30393]. No "Confidential Business Information" (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submission can be found below in this document.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Theresa A. Stowe, Acting Team Leader, Product Manager (PM) Team 22, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 229, CM #2, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703) 305–5540; e-mail: stowe.theresa@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA received an application from Zeneca Ag Products, 1800 Concord Pike, Wilmington, DE 19897, to register the pesticide product ICIA5504 50WG Fungicide (EPA File Symbol 10182–UNI), containing the active ingredient (methyl (*E*)-2-[2-[6-(2-cyanophenoxy)pyrimidin-4-yloxy]phenyl]-3-methoxyacrylate at 50 percent, an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of FIFRA. This product is for use to control certain diseases of grapes and turf. Notice of receipt of this application does not imply a decision by the Agency on the application.

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP–30393] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703–305–5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

BILLING CODE 6560–50–F

[OPP–180980; FRL 4975–1]

Pirate; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued specific exemptions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, to Alabama Department of Agriculture and Industries, Arkansas State Plant Board, Louisiana Department of Agriculture and Forestry, and the Mississippi Department of Agriculture and Commerce (hereafter referred to as the "Applicants") for use of the pesticide, Pirate to control tobacco budworms in up to 2,000,000 acres in the south eastern cotton belt region. Due to the unique nature of these emergency situations, in which the time to review the conditions of these situations was short, it was not possible to issue a solicitation for public comment, in accordance with 40 CFR 166.24, prior to the Agency's decision to grant these exemption. However, comments may still be submitted and will be evaluated regarding the continuation of these exemptions.

DATES: Comments must be received on or before September 28, 1995.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP–180980," should be submitted by mail to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1128, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form

must be identified by the docket number [OPP–180980]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain (CBI) must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 1128, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Margarita Collantes, Registration Division (7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 6th Floor, Crystal Station I, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308–8347; e-mail: collantes.margarita@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a State agency from any registration provision of FIFRA, if she determines that emergency conditions exist which require such exemption. The Applicants have requested the Administrator to issue specific exemptions for use of the insecticide Pirate, available as Pirate 3SC from American Cyanamid Company, to control tobacco budworms on up to 2,000,000 acres within the south eastern cotton belt region. Information in accordance with 40 CFR part 166 was submitted as part of this request.

According to the Applicants, excessive economic losses will occur if Pirate is not granted for use on cotton to control the tobacco budworm (TBW) in these regions. The Applicants claim that there are no other alternative pesticides to control this pest due to pyrethroid resistance.

Under the uses requested and/or authorized in these specific exemptions, Pirate was requested, a maximum of 4 applications of Pirate may be applied at the rate of [0.2 to 0.35 lb active ingredient (ai/A)] (8.53 to 14.93 fl. oz. of product) per acre using ground or aerial equipment, in a minimum of 10 gallons per acre total volume by ground or 5 gallons of spray solution per acre by air. A 5 to 7 day application interval, and a 21-day preharvest interval must be observed. The granted specific exemptions expire September 30, 1995.

The regulations governing section 18 require that the Agency publish notice of receipt in the **Federal Register** and solicit public comment on an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient not contained in any currently registered pesticide) [40 CFR 166.24 (a)(1)]. Pirate is an unregistered (new) chemical. In the case of these states', and the situation found in their cotton producing areas, there was not adequate time to publish a notice of receipt and solicit public comments on these applications prior to the Agency reviewing the submitted data, and making and issuing its decisions. Therefore, as allowed for by 40 CFR 166.24(c), the comment period following a notice of receipt was eliminated, since the time available to make a decision required this.

A record has been established for this notice under docket number "OPP–180980" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in **ADDRESSES** at the beginning of this document.

Interested persons are still invited to submit written views on this subject to the Field Operations Division at the address above. The Agency will review and consider all comments received regarding continuance of these emergency exemptions for the use of Pirate on cotton.

DuPont Co. and Monsanto Co.; Notice of Filings of Pesticide Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA announces that it has received various pesticide petitions and food/feed additive petitions from the DuPont Co. and the Monsanto Co. proposing the establishment and/or amendment of pesticide tolerances in or on various agricultural commodities.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA. Information submitted and any comment(s) concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment(s) that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Information on the proposed test and any written comments will be available for public inspection in Rm. 1132 at the Virginia address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [PF-633]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this proposed rule may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Taylor, Product Manager (PM) 25, Registration Division, Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 241, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA, (703)-305-6800; e-mail: taylor.robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: This notice announces that EPA has received various notices of filing under section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) for pesticide petitions (PP) and food/feed additive petitions (FAP) to amend 40 CFR parts 180, 185, and 186 to establish tolerances for various pesticides in or various commodities as described below. The Monsanto Co. (Monsanto), 700 14th St., NW., Suite 1100, Wasington, DC 20005, and the E.I. DuPont de Nemours & Co. (DuPont), Agricultural Products, Walkers Mill, Barley Mill Plaza, P.O. Box 80038, Wilmington, DE 19880-0038, submitted the petitions described herein.

Initial Filings

1. *PP 5F4555*. Monsanto proposes that 40 CFR 180.364 be amended by establishing a regulation to permit residues of glyphoste [*N*-(phosphonomethyl)glycine] resulting from the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate in or on the raw agricultural commodity corn forage at 1.0 part per million (ppm). The analytical methods are HPLC with a fluorometric detector and GC/MS.

2. *PP 5F4565*. DuPont proposes that 40 CFR part 180 be amended by establishing a regulation to permit the combined residues of the herbicide terbacil (3-tert-butyl-5-chloro-6-methyluracil) and its hydroxylated metabolites, 3-tert-butyl-5-chloro-6-hydroxymethyluracil, 6-chloro-2,3-dihydro-7-hydroxymethyl-3,3-dimethyl-5H-oxazolo (3,2a) pyrimindim-5-one, and 6-chloro-2,3-dihydro-3,3,7-trimethyl-5H-oxazolo (3,2a)pyrimidin-5-one (calculated as terbacil) in or on alfalfa, forage at 1 ppm and alfalfa, hay at 1 ppm.

3. *PP 6F3408*. Monsanto proposes that 40 CFR 180.364 be amended by proposing a regualtion to permit the combined residues of the herbicide glyphosate and its metabolite aminomethylphosphonic acid in or on the raw agricultural commodity sunflowers at 0.1 ppm. The analytical method is HPLC.

Amended Filings

4. *PP 3F4268*. In the **Federal Register** of August 17, 1995 (60 FR 42884), EPA issued a notice that DuPont proposed that 40 CFR part 180 be amended by establishing a regulation to permit residues fo the herbicide quizalofop-p-ethyl ester (ethyl, R-2-(4-(6-chloro-quinoxalin-2-yl)oxy)phenoxy)propanoic acid) and the S-enantiomers of the ester and the acid, all expressed as quizalofop-p-ethyl ester, in or on the legume vegetable (succulent and dried) group at 0.3 ppm; foilage of legume vegetables (except soybeans and bean hay) at 0.7 ppm; sugar beet root at 0.1 ppm; sugar beet top at 0.5 ppm; and cottonseed at 0.1 ppm. Dupont is amending the petition by proposing a regulation to permit the combined residues of the herbicide quizalofop-p-ethyl ester and its acid metabolite, quizalofop-p-[R-(4-((6-chloro-quinoxalin-2-yl)oxy)phenoxy)propanoic acid), and the S enantiomers of the ester and the acid all expresed as quizalofop-p-ethyl ester in or on the following raw agricultural commodities (RACs): cotton seed at 0.1 ppm; legume vegetable (succulent or dried) group at 0.3 ppm; foliage of legume vegetable (except soybeans and bean hay) at 0.7 ppm; sugar beet root at 0.1 ppm; and sugar beet top at 0.5 ppm. (PM-25).

5. *PP 4F4312*. In the **Federal Register** of July 13, 1994 (59 FR 35718), EPA issued a notice that Monsanto proposed that 40 CFR 180.463 be amended by establishing a regulation to permit the combined residues of the herbicide glyphosate and its metabolite aminomethylphosphonic acid (AMPA) resulting from the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate in or on alfalfa, hay at 200 ppm and alfalfa, forage at 75 ppm. Monsanto is amending the petition by proposing to remove the metabolite AMPA from the expression and to amend 40 CFR 180.364 by establishing a regulation to permit residues of glyphosate resulting from the application of the isopropylamine and/or monoammonium salt of glyphosate for herbicidal and plant growth regulator purposes and/or the sodium sesqui salt of glyphosate for growth regulator purposes in or on the kidney of cattle, goats, hogs, sheep, and horses at 4.0 ppm.

6. *PP 4F4338*. In the **Federal Register** of November 2, 1994 (59 FR 54907), EPA issued a notice that Monsanto proposed that 40 CFR 180.364 be amended by establishing a regulation to permit the combined residues of glyphosate and its metabolite aminomethylphosphonic acid (AMPA), resulting from the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate in or on citrus fruits at 0.5 ppm. Monsanto is amending the petition by proposing to remove the metabolite AMPA from the expression.

7. *PP 4F4369*. In the **Federal Register** of February 8, 1995 (60 FR 7540), EPA issued a notice that Monsanto proposed that 40 CFR 180.364 be amended by establishing a regulation to permit the combined residues of glyphosate [N-(phosphonomethyl)glycine in or on soybean forage at 100 ppm, resulting from the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate. Monsanto is amending the petition by proposing that 40 CFR 180.364 be amended by establishing a regulation to permit residues of glyphosate resulting from the application of the isopropylamine salt of glyphosate in or on the raw agricultural commodities (RACs) soybean grain at 20 ppm, soybean forage at 100 ppm, soybean hay at 200 ppm, and soybean, aspirated grain fractions at 50 ppm. These tolerances are to replace the existing tolerances for soybeans, soybean forage, soybean hay, and soybean straw.

8. *PP 4F4405*. In the **Federal Register** of February 8, 1995 (60 FR 7540), EPA issued a notice that DuPont proposed that 40 CFR part 180 be amended to establish a regulation to permit residues of the herbicide nicosulfuron (3-pyridinecarboxamide, 2-(((4,6-dimethoxypyrimidin-2-yl)aminocarbonyl)aminosulfonyl)-N,N-dimethyl) in or on sweet corn (kernals plus cobs with husks removed) and corn, sweet, forage at 0.1 ppm. DuPont is amending the petition to propose the establishment of a regulation to permit residues of nicosulfuron in or on corn, sweet (kernals plus cobs with husks removed); corn, sweet, forage; and corn, sweet, fodder (stover at 0.1 ppm).

9. *PP 8F2128*. In the **Federal Register** of November 7, 1978 (43 FR 53816), EPA issued a notice that Monsanto proposed to amend 40 CFR 180.314 by establishing a tolerance for residues of the herbicide triallate (S-(2,3,3-trichloroallyl) diisopropylthiocarbamate) in or on the raw agricultural commodities sugarbeets, sugarbeet tops, soybeans, soybean forage and hay all at 0.05 ppm. Monsanto is amending the petition to propose that tolerances with regional registration be established for residues of triallate and its metabolite 2,3,3-trichloro-2-propene sulfonic acid and expressed as parent equivalent in/on the raw agricultural commodities sugarbeet roots at 0.05 ppm and sugarbeet foliage at 0.5 ppm.

10. *PP 8F3673*. In the **Federal Register** of October 12, 1988 (53 FR 39785), EPA issued a notice that Monsanto Co. proposed that 40 CFR 180.364 be amended by establishing a regulation to permit residues of the herbicide glyphosate in or on corn grain at 1.0 ppm, corn fodder at 20 ppm, and corn forage at 20 ppm. Monsanto is amending the petition by proposing to establish a regulation permitting residues of glyphosate resulting from the the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate in or on corn grain at 1.0 ppm, corn fodder (stover) at 100 ppm, and corn, aspirated grain fractions at 200 ppm. Also proposed is the establishement of tolerances for residues of glyphosate resulting from the application of the isopropylamine salt and/or glyphosate monoammonium salt for herbicidal and plant growth regulator purposes and/or the sodium sesqui salt for growth regulator purposes in or on liver and kidney of cattle, goats, hogs, horses, and sheep and the liver and kidney of poultry at 1.0 ppm.

11. *FAP 4H5701*. In the **Federal Register** of March 15, 1995 (60 FR 13979), EPA issued a notice that Monsanto had submitted an FAP to EPA that proposed amending 40 CFR 186.3500 to establish a regulation permitting residues of the herbicide glyphosate resulting from the application of the isopropylamine salt and/or the monoammonium salt of glyphosate in or on the feed commodity aspirated grain fractions at 30 ppm. Monsanto is amending the petition by deleting the feed commodity soybeans, aspirated grain fractions at 30 ppm from this expression and reproposing it as a raw agricultural commodity under PP No. 4F4369 (Refer to amended filing notice for 4F4369 elsewhere in this document). Monsanto is also proposing that a feed additive regulation be established permitting residues of glyphosate resulting from the application of the isopropylamine salt of glyphosate and/or the monoammonium salt of glyphosate in or on the feed commodity soybean hulls at 100 ppm. This entry would replace the current entry for soybean hulls.

12. *FAP 4H5705*. In the **Federal Register** of November 2, 1994 (59 FR 54907), EPA issued a notice that Monsanto Co. proposed that 40 CFR 185.3500 be amended by establishing a feed additive regulation to permit residues of glyphosate and its metabolite aminomethylphosphonic acid in or on citus pulp, dried at 1.0 ppm. Monsanto is amending the petition by proposing that 40 CFR part 186 be amended by establishing a regulation to permit residues of glyphoaste in or on the feed commodity citrus pulp, dried at 1.5 ppm.

13. *FAP 5H5720*. In the **Federal Register** of August 17, 1995 (60 FR 42885), EPA issued a notice that DuPont proposed that 40 CFR part 186 be amended by establishing a regulation to permit residues of the herbicide quizalofop-p-ethyl ester and the S-enantiomers of the ester and the acid, all expressed as quizalofop-p-ethyl ester, in or on the animal feed sugar beet molasses at 0.2 ppm. DuPont is amending the petition by proposing that 40 CFR part 186 be amended by establishing a regulation to permit the combined residues of the herbicide quizalofop-p-ethyl ester and its acid metabolite quizalofop-p-(R-(2-(4-(6-chloroquinoxalin-2-yl)oxy)phenoxy)propanoic acid and the S-enantiomers of the ester and the acid, all expressed as quizalofop-p-ethyl ester, in or on the feed commodity sugar beet molasses at 0.5 ppm.

A record has been established for this rulemaking under docket number [PF-633] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-Docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in **ADDRESSES** at the beginning of this document.

Jack's Creek/Sitkin Smelting Superfund Site De Micromis Settlement; Proposed Administrative Settlement Under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, As Amended

AGENCY: Environmental Protection Agency.

ACTION: Request for Public Comment.

SUMMARY: The United States Environmental Protection Agency is proposing to enter into a *de micromis* settlement pursuant to Section 122(g)(4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, (CERCLA), 42 U.S.C. § 9622(g)(4). This proposed settlement is intended to resolve the liabilities under CERCLA of Gould Electronics, Inc. ("Gould") and Texas Instruments Incorporated ("TI"), for response costs incurred by the United States Environmental Protection Agency at the Jack's Creek/Sitkin Smelting Superfund Site, Maitland County, Pennsylvania.

DATES: Comments must be provided on or before October 13, 1995.

ADDRESSES: Comments should be addressed to the Docket Clerk, United States Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania, 19107, and should refer to: In Re: Jack's Creek/Sitkin Smelting Superfund Site, Maitland County, Pennsylvania, U.S. EPA Docket Nos. III–95–35–DC and III–95–36–DC.

FOR ADDITIONAL INFORMATION CONTACT: Daniel Isales (215) 597–4774, or Pamela Lazos (215) 597–8504, United States Environmental Protection Agency, Office of Regional Counsel, (3RC22), 841 Chestnut Building, Philadelphia, Pennsylvania, 19107.

Notice of De Micromis Settlement: In accordance with Section 122(i)(1) of CERCLA, 42 U.S.C. § 9622(i)(1), and Section 7003(d) of the Solid Waste Disposal Act, 42 U.S.C. § 6973(d), notice is hereby given of a proposed administrative settlement concerning the Jack's Creek/Sitkin Smelting Superfund Site in Maitland County, Pennsylvania. The administrative settlement was signed by the United States Environmental Protection Agency, Region III's Regional Administrator on June 30, 1995 and is subject to review by the public pursuant to this Notice. The agreement is also subject to the approval of the Attorney General, United States Department of Justice or her designee and for the grant of a covenant not to sue for damages to natural resources, is also subject to agreement in writing by the Department of the Interior ("DOI").

The settling parties collectively agreed to pay $1,695.12 to the United States Environmental Protection Agency toward EPA response costs and $61 to DOI for damages to natural resources, subject to the contingency that the Environmental Protection Agency may elect not to complete the settlement based on matters brought to its attention during the public comment period established by this Notice.

EPA is entering into this agreement under the authority of Sections 122(g) and 107 of CERCLA, 42 U.S.C. §§ 9622(g) and 9607. Section 122(g) of CERCLA, 42 U.S.C. § 9622(g), authorizes early settlements with *de micromis* parties to allow them to resolve their liabilities under, inter alia, Section 107 of CERCLA, 42 U.S.C. § 9607, to reimburse the United States for response costs incurred in cleaning up Superfund sites without incurring substantial transaction costs. The grant of a covenant not to sue for damages to natural resources by DOI to those parties paying their share of such allocated costs is subject to agreement in writing by DOI pursuant to Section 122(j) of CERCLA, 42 U.S.C. § 9622(j).

The Environmental Protection Agency will receive written comments upon this proposed administrative settlement for thirty (30) days from the date of publication of this Notice. Moreover, pursuant to Section 7003(d) of the Solid Waste Disposal Act, 42 U.S.C. § 6973(d), the public may request a meeting in the affected area. A copy of the proposed Administrative Order on Consent can be obtained from the Environmental Protection Agency, Region III, Office of Regional Counsel, (3RC20), 841 Chestnut Building, Philadelphia, Pennsylvania, 19107 by contacting Daniel Isales at (215) 597–4774 or Pamela Lazos at (215) 597–8504. The Administrative Record in support of the proposed Order is also available for review.

W. Michael McCabe,

Regional Administrator, EPA Region III.

FEDERAL COMMUNICATIONS COMMISSION

Technology Subcommittee of the Public Safety Wireless Advisory Committee; Meeting

AGENCIES: The National Telecommunications and Information Administration (NTIA), Larry Irving, Assistant Secretary for Communications and Information, and the Federal Communications Commission (FCC), Reed E. Hundt, Chairman.

ACTION: Notice of the First Meeting of the Technology Subcommittee of the Public Safety Wireless Advisory Committee.

SUMMARY: The NTIA and the FCC established a Public Safety Wireless Advisory Committee and Subcommittees to prepare a final report to advise the NTIA and the FCC on operational, technical and spectrum requirements of Federal, state and local Public Safety entities through the year 2010. The establishment of the committee is in the public interest. In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, this notice advises interested persons of the meeting of the Technology Subcommittee of the Public Safety Wireless Advisory Committee.

DATES: Thursday, September 28, 1995; 9 a.m. to 12 p.m.

ADDRESSES: Postal Square Museum Building; 2 Massachusetts Avenue, N.E.; Washington, D.C. 20002.

SUPPLEMENTARY INFORMATION: The agenda for the first meeting is as follows:

1. Introduction and Welcoming Remarks
2. Approval of Agenda
3. Administrative Matters
4. Work Program/Organization of Work
5. Meeting Schedule
6. Agenda for Next Meeting
7. Other Business
8. Closing Remarks

The Technology Subcommittee will have an open membership. All interested parties are invited to attend and to participate in the First Meeting of this Subcommittee. This policy will ensure balanced participation. To attend the Subcommittee meeting, please RSVP to Deborah Richardson-Behlin of the Wireless Telecommunications Bureau of the FCC on or before September 18, 1995, by calling (202) 418–0650, faxing (202) 418–2643, or replying by E-mail at dbehlin@fcc.gov. Please provide your name, the organization you represent, your phone number and fax number when you RSVP. This RSVP is for the purpose of determining the number of people who will attend the Subcommittee meeting.

FOR FURTHER INFORMATION CONTACT: William Donald Speights, NTIA (202–482–1652), or John J. Borkowski, FCC (202–418–0680), Co-Designated Federal Officers of the Public Safety Wireless Advisory Committee. You may also obtain more information from the Internet at the Public Safety Wireless Advisory Committee homepage (http://pswac.ntia.doc.gov.).

Spectrum Requirements Subcommittee of the Public Safety Wireless Advisory Committee; Meeting

AGENCIES: The National Telecommunications and Information Administration (NTIA), Larry Irving, Assistant Secretary for Communications and Information, and the Federal Communications Commission (FCC), Reed E. Hundt, Chairman.

ACTION: Notice of the First Meeting of the Spectrum Requirements Subcommittee of the Public Safety Wireless Advisory Committee.

SUMMARY: The NTIA and the FCC established a Public Safety Wireless Advisory Committee and Subcommittees to prepare a final report to advise the NTIA and the FCC on operational, technical and spectrum requirements of Federal, state and local Public Safety entities through the year 2010. The establishment of the committee is in the public interest. In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, this notice advises interested persons of the meeting of the Spectrum Requirements Subcommittee of the Public Safety Wireless Advisory Committee.

DATES: Friday, September 29, 1995; 1:00 p.m. to 4:00 p.m.

ADDRESSES: Postal Square Museum Building; 2 Massachusetts Avenue, N.E.; Washington, D.C 20002.

SUPPLEMENTARY INFORMATION: The agenda for the first meeting is as follows:

1. Introduction and Welcoming Remarks
2. Approval of Agenda
3. Administrative Matters
4. Work Program/Organization of Work
5. Meeting Schedule
6. Agenda for Next Meeting
7. Other Business
8. Closing Remarks

The Spectrum Requirements Subcommittee will have an open membership. All interested parties are invited to attend and to participate in the First Meeting of this Subcommittee. This policy will ensure balanced participation. To attend the Subcommittee meeting, please RSVP to Deborah Richardson-Behlin of the Wireless Telecommunications Bureau of the FCC on or before September 19, 1995, by calling (202) 418–0650, faxing (202) 418–2643, or replying by E-mail at dbehlin@fcc.gov. Please provide your name, the organization you represent, your phone number and fax number when you RSVP. [CC Docket No. 80–286; DA–95–1927]

Letter to Telephone Exchange Service Providers Giving Notice of Proposed Release of Data Submitted by Providers

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In response to several requests, the Common Carrier Bureau (Bureau) of the Federal Communications Commission (Commission) intends to release a compiled database comprising non-confidential subscriber and financial information submitted by local exchange carriers (LECs) is response to an Order, released December 1, 1994. The individual non-confidential responses of the LECs have already been released to the public. To guard against the possibility that LEC information previously claimed to be confidential is included in the database to be released, the Bureau is taking two steps. As described more fully below in a letter from Kenneth P. Moran, Chief of the Bureau's Accounting and Audits Division, the Bureau, first, is excluding from the database to be released a limited number of data fields that a large number of LECs claimed to contain confidential information. Second, the Bureau is requesting LECs that have previously claimed fields confidential in addition to those generally being excluded from the database to reassert those claims not later than September 25, 1995. Failure to reassert such claims will be deemed to constitute waiver of objection to release of such information designated confidential solely to the extent that such information claimed confidential is included in the non-confidential database to be released.

ADDRESSES: Responses should be directed to the Federal Communications Commission, Common Carrier Bureau, Accounting and Audits Division, Box 10, 1919 M St., N.W., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Deborah Dupont, Senior Attorney, and George Johnson, Senior Attorney, Accounting and Audits Division, Common Carrier Bureau (202) 418–0850.

SUPPLEMENTARY INFORMATION:

September 11, 1995.

Release Date: September 11, 1995.

Dear Telephone Exchange Service Provider:

On July 13, 1995, the Federal Communications Commission (Commission) released a Notice of Proposed Rulemaking and Notice of Inquiry, proposing changes to the Commission rules relating to the Universal Service Fund (USF) and Dial Equipment Minute (DEM) Weighting. Also, on December 1, 1994, the Commission released an Order directing local exchange carriers (LECs) to submit certain information to assist in evaluation of current USF and DEM Weighting assistance mechanisms and to estimate the effects of possible rules changes on both telecommunications providers and subscribers.

Although individual LEC submissions in response to the December 1, 1994 Order have been available from the Commission for several months, the National Association of Regulatory Utilities Commissioners as well as LEC representatives have requested that the

Commission release a database that compiles the individual LEC submissions. The Common Carrier Bureau (Bureau), working with the Federal-State Joint Board staff, has compiled the individual LEC responses containing information not claimed to be confidential into a database. In response to the foregoing requests, the Bureau intends to release this database of non-confidential information. While we hope this database will help commenters analyze those proposals in the July 13, 1995, Notice of Proposed Rulemaking and Notice of Inquiry that lend themselves to quantitative analysis, we remind you that comments need not be, and our consideration will not be, limited to the data contained in that database.

Great care has been taken to assure that the information in the database to be released does not contain data fields subject to confidentiality claims. Notwithstanding these efforts, and to protect against the possibility that some information claimed to be confidential has inadvertently been included in the database, the Bureau is taking the following measures.

First, analysis of the claims of confidentiality indicates that most of the confidentiality claims were made in a limited number of specific data fields. To accommodate these claims, we shall exclude the following fields (in File 1/filename "DATAREQ", and File 3/filename "ZIPCODES", respectively) from the forthcoming database:

1. Distribution of billings by dollar amounts (File 1, Fields 69–94 and 137–156).
2. Number of subscriber lines billed for specific interexchange carriers (File 1, Fields 123–130).
3. Information relating to cable TV, cellular and other services (File 1, Fields 335–373).
4. Identity of wire center common language location identifier, the number of subscriber lines served by each wire center, the post office zip code at the location of the wire center, and the zip codes served by specific wire centers (File 3, cols. A–D.).

You need not respond to this letter to have data you submitted in the fields listed above withheld from the database. Withholding this information from the database is intended to accommodate most carriers' concerns about proprietary information and does not constitute a ruling on the requests for proprietary treatment.

Second, if you have requested that the Commission accord other specific information confidential treatment, you may at this time file a statement identifying those other fields in your response to the data request for which you claimed confidential treatment, and a statement that you continue to assert such claims. If such statements are timely received, the fields of information will be excluded from the database to be released. Failure to provide such statements on or before September 25, 1995, will be deemed to constitute waiver of objection to release of the LEC's information designated confidential solely to the extent that such confidential information has been included in the database to be released. Requests that information not previously designated confidential or proprietary now be so designated, will not be considered.

Statements seeking continued confidential treatment of data must be received by the Commission not later than September 25, 1995. To ensure that we receive your response without delay, we have assigned a special mail box for replies to this letter. Therefore, to be considered, your response must be addressed to:

Federal Communications Commission,
Common Carrier Bureau, Accounting and Audits Division, Box 10, 1919 M Street, N.W., Washington, DC 20554

Inquires should be directed to either Deborah Dupont, Senior Attorney, or George Johnson, Senior Attorney, Accounting and Audits Division, at 202–418–0850.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA–1065–DR]

Ohio; Amendment to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Ohio (FEMA–1065–DR), dated August 25, 1995, and related determinations.

EFFECTIVE DATE: September 1, 1995.

FOR FURTHER INFORMATION CONTACT: Pauline C. Campbell, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3606.

SUPPLEMENTARY INFORMATION: The notice of a major disaster for the State of Ohio dated August 25, 1995, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of August 25, 1995:

The counties of Erie and Lorain for Individual Assistance and Hazard Mitigation Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

Richard W. Krimm,

Associate Director, Response and Recovery Directorate.

[FR Doc. 95–22727 Filed 9–12–95; 8:45 am]

BILLING CODE 6718-02-M

[FEMA–1065–DR]

Ohio; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Ohio (FEMA–1065–DR), dated August 25, 1995, and related determinations.

EFFECTIVE DATE: August 25, 1995.

FOR FURTHER INFORMATION CONTACT: Pauline C. Campbell, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3606.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated August 25, 1995, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

> I have determined that the damage in certain areas of the State of Ohio, resulting from severe storms and flooding on August 7 through August 18, 1995, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act"). I, therefore, declare that such a major disaster exists in the State of Ohio.
>
> In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.
>
> You are authorized to provide Individual Assistance and Hazard Mitigation in the designated areas. Public Assistance may be added at a later date, if requested and warranted. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and/or Hazard Mitigation will be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, I hereby appoint Ron Sherman of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of Ohio to have been affected adversely by this declared major disaster:

Champaign, Licking, Logan, Marion, Mercer, Miami, Scioto, and Shelby Counties for Individual Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

James L. Witt,

Director.

Oklahoma; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Oklahoma (FEMA–1066–DR), dated September 1, 1995, and related determinations.

EFFECTIVE DATE: September 1, 1995.

FOR FURTHER INFORMATION CONTACT: Pauline C. Campbell, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3606.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated September 1, 1995, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

> I have determined that the damage in certain areas of the State of Oklahoma, resulting from tornadoes, severe storms and flooding beginning on July 21 through and including August 6, 1995 is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act"). I, therefore, declare that such a major disaster exists in the State of Oklahoma.
>
> In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.
>
> You are authorized to provide Public Assistance and Hazard Mitigation Assistance in the designated areas. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance or Hazard Mitigation will be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, I hereby appoint Peter L. Smith of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of Oklahoma to have been affected adversely by this declared major disaster:

The counties of Alfalfa, Blaine, Caddo, Cotton, Custer, Grant, Jackson, Kay, Major, Oklahoma, Tillman, Washita and Woods for Public Assistance and Hazard Mitigation Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

BILLING CODE 6718-02-P

FEDERAL MARITIME COMMISSION

Notice of Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC. Office of the Federal Maritime Commission, 800 North Capitol Street, NW., 9th Floor. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC. 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in section 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 203–011223–011

Title: Transpacific Stabilization Agreement

Parties:

A.P. Moller-Maersk Line
American President Lines, Ltd.
Evergreen Marine Corp. (Taiwan) Ltd.
Hapag-Lloyd Aktiengesellschaft
Hanjin Shipping Co., Ltd.
Hyundai Merchant Marine Co., Ltd.
Kawasaki Kisen Kaisha, Ltd.
Mitsui O.S.K. Lines, Ltd.
Nedlloy Lines B.V.
Neptune Orient Lines, Ltd.
Nippon Yusen Kaisha
Orient Overseas Container Line, Inc.
Sea-Land Service, Inc.
Yangming Marine Transport Corp.

Synopsis: The amendment suspends for an indefinite period the Agreement's Capacity Management Program ("CMP"). The suspension of the CMP will apply to the Agreement's current quarterly accounting period, as well as subsequent accounting periods.

Agreement No.: 232–011491–001

Title: Lykes/Evergreen Reciprocal Space Charter, Sailing and Cooperative Working Agreement

Parties:

Lykes Bros. Steamship Co., Inc.
Evergreen Marine Corp. (Taiwan) Ltd.

Synopsis: The proposed amendment adds a new Article 9.2(a)(7) to clarify the amount of notice required for termination in the event one of the parties withdraws a vessel or reduces its tonnage in the trade without the consent of the other party. It also makes other non-substantive changes to the Agreement.

Dated: September 7, 1995.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

FSB Corp., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than October 6, 1995.

A. Federal Reserve Bank of Chicago (James A. Bluemle, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *FSB Corp.*, Sublette, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of Farmers State Bank of Sublette, Sublette, Illinois.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Area Bancshares Corporation*, Owensboro, Kentucky; to acquire 100 percent of the voting shares of Citizens Deposit Bancshares, Incorporated, Calhoun, Kentucky, and thereby indirectly acquire Citizens Deposit Bank, Calhoun, Kentucky.

Board of Governors of the Federal Reserve System, September 7, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-F

Keystone Financial Corporation; Acquisition of Company Engaged in Permissible Nonbanking Activities

The organization listed in this notice has applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than September 27, 1995.

A. Federal Reserve Bank of Philadelphia (Michael E. Collins, Senior Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *Keystone Financial Corporation*, Harrisburg, Pennsylvania; to acquire Martindale Andres & Company, Inc., West Conshohocken, Pennsylvania, and thereby engage in investment advisory activities, pursuant to § 225.25(b)(4) of the Board's Regulation Y; and in brokerage activities, pursuant to § 225.25(b)(15) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, September 7, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

National Vaccine Advisory Committee (NVAC), Subcommittee on Vaccine Safety and the Advisory Commission on Childhood Vaccines (ACCV) Subcommittee on Vaccine Safety, Subcommittee on Immunization Coverage, and Subcommittee on Future Vaccines: Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following Federal advisory committee meetings.

Name: National Vaccine Advisory Committee (NVAC).

Times and Dates: 9 a.m.–12 noon, September 28, 1995. 8:30 a.m.–1 p.m., September 29, 1995.

Place: Hubert H. Humphrey Building, Room 703A, 200 Independence Avenue, SW, Washington, DC 20201.

Status: Open to the public, limited only by the space available.

Purpose: The Committee shall advise and make recommendations to the Director of the National Vaccine Program on matters related to the Program responsibilities.

Matters To Be Discussed: The Committee will discuss the National Vaccine Program Office operations and staffing; report of the Task Force on Safer Vaccines; status of the Advisory Committee on Immunization Practices reevaluation of polio immunization recommendations; impact of Federal budget cuts on Federal vaccine research; update on the Children's Immunization Initiative, including the Vaccines for Children Program; Mercer Report: next step; update on pertussis trial; status of the Salk facility; impact on welfare reform; subcommittee reports: vaccine safety, immunization coverage, and future vaccines; and a working group report on adult immunization.

Name: Subcommittee on Vaccine Safety and the Advisory Commission on Childhood Vaccines Subcommittee on Vaccine Safety.

Time and Date: 1:30 p.m.–5 p.m., September 28, 1995.

Place: Hubert H. Humphrey Building, Room 337A, 200 Independence Avenue, SW, Washington, DC 20201.

Status: Open to the public, limited only by the space available.

Purpose: This joint ACCV/NVAC subcommittee will review issues relevant to vaccine safety and adverse reactions to vaccines.

Matters To Be Discussed: The Subcommittee will discuss the Institute of Medicine vaccine safety forum and summary of planned workshops; summary of the final report of the task force on safer childhood vaccines; and the charge of the Subcommittees.

Name: Subcommittee on Immunization Coverage.

Time and Date: 1:30 p.m.–5 p.m., September 28, 1995.

Place: Hubert H. Humphrey Building, Room 423A, 200 Independence Avenue, SW, Washington, DC 20201.

Status: Open to the public, limited only by the space available.

Purpose: The Subcommittee on Immunization Coverage will identify strategies and policy options by which to further improve the levels of immunization coverage.

Matters To Be Discussed: The Subcommittee will discuss determinants of under vaccination in preschool children; national, State, and local immunization coverage levels; current interventions for immunization and the future health environment.

Name: Subcommittee on Future Vaccines.

Time and Date: 1:30 p.m.–5 p.m., September 28, 1995.

Place: Hubert H. Humphrey Building, Room 425A, 200 Independence Avenue, SW, Washington, DC 20201.

Status: Open to the public, limited only by the space available.

Purpose: The Subcommittee on Future Vaccines will develop policy options and guide national activities which will lead to accelerated development, licensure, and best use of new vaccines in the simplest possible immunization schedules.

Matters to be Discussed: The Subcommittee will review and discuss the terms of reference for the Subcommittee; identify the matrix of interactions and partnerships, via specific case studies; describe the process of priority-setting by each of the members of the vaccine research and development community, and define barriers to new vaccine development.

Agenda items for each meeting are subject to change as priorities dictate.

Contact Person for More Information: Gloria A. Kovach, Committee Management Specialist, National Vaccine Program Office, CDC, 1600 Clifton Road, NE, M/S A20, Atlanta, Georgia 30333, telephone 404/639–3851.

Dated: September 7, 1995.

Carolyn J. Russell,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163–18–M

Public Health Service

Statement of Organization, Functions, and Delegations of Authority

Part H, Public Health Service (PHS), Chapter HA (Office of the Assistant Secretary for Health), of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (DHHS) is amended to revise Chapter HA (Office of the Assistant Secretary for Health), and Chapter HC (Centers for Disease Control and Prevention). These revisions will reflect the transfer of responsibility for the National Vaccine Program Office (NVPO) from the Office of the Assistant Secretary for Health (OASH) to the Centers for Disease Control and Prevention (CDC). The Director of the National Vaccine Program (NVP) will continue to be the Assistant Secretary for Health. Specifically:

(1) The statement for the Office of the Assistant Secretary for Health (42 FR 61318, December 2, 1977, as amended most recently at 60 FR 18418, April 11, 1995) is amended to delete the title and statement for the NVPO (HA2). Responsibilities of this office are transferred to CDC. The Director of the NVP will continue to be the Assistant Secretary for Health;

(2) The statement for the Centers for Disease Control and Prevention (HC) (45 FR 69696, October 20, 1980, as amended most recently at 60 FR 17792–95, April 7, 1995) is amended to reflect the transfer of the NVPO from the Office of the Assistant Secretary for Health to the Office of the Director, CDC.

Office of the Assistant Secretary for Health

Under Chapter HA, Office of the Assistant Secretary for Health, HA–10, Organization, delete item 14. and renumber items 15. through 17. as items 14. through 16.

Under *Section HA–20, Functions,* after the title and statement for the *Office on Women's Health (HAW),* delete the title and statement in its entirety for the *National Vaccine Program Office (HA2).*

Under Chapter HA, Section HA–30, Delegations of Authority, add the following:

All delegations and redelegations of authority made to PHS officials which were in effect prior to the effective date of this reorganization will continue in effect in them or their successors, pending further redelegations, provided they are consistent with this reorganization.

Centers for Disease Control and Prevention

Under Part H, Chapter HC, Centers for Disease Control and Prevention, Section HC–B, Organization and Functions, following the title and statement for the CDC Washington Office (HCA6), insert the following title and statement:

National Vaccine Program Office (HCA8). The Office: (1) Advises the Director, CDC, regarding issues and concerns identified with the implementation of the responsibilities of the National Vaccine Program (NVP); (2) develops and provides the Director, CDC, an annual Plan for implementation of the responsibilities of the NVP for submission to the Director, NVP; (3) develops data and conducts analyses of Federal spending on vaccines and vaccine-related activities; (4) provides executive secretary and staff and administrative support to the National Vaccine Advisory Committee; (5) coordinates preparation and submission of the annual National Vaccine Report for transmittal by the Director, CDC, to the Director, NVP; and (6) coordinates CDC's development and preparation of data and information in support of the Director, NVP.

Dated: August 1, 1995.

Donna E. Shalala,

Secretary.

BILLING CODE 4160–17–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ES–930–05–1310–020241A]

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collection of information may be obtained by contacting the Bureau's Clearance Officer at the phone number listed below. Comments and suggestions on the proposal should be made directly to the Bureau Clearance Officer and to the Officer of Management and Budget, Paperwork Reduction Project (1004–), Washington, DC 20503, telephone 202–395–7340.

Title: Coalbed Methane (43 CFR Part 3170).

OMB Approval Number: (Not Yet Assigned).

Abstract: The Bureau of Land Management is proposing a new rule at 43 CFR Part 3170 to encourage the development of coalbed methane (CBM) in Affected States where conflict over ownership of the resource exits. The new regulations will establish procedures to: space wells; pool conflicting interests; escrow costs and proceeds attributable to conflicting interests; allow the drilling, stimulation, and abandonment of CBM wells; and provide affected parties with notice and the opportunity to comment or object or both. In order to obtain specific approvals under the regulations, applications would submit information to BLM to demonstrate the orderly and efficient development of CBM while preserving the mineability of coal seams.

Bureau Form Number: None.

Frequency: Occasionally.

Description of Respondents: Respondents may range from individuals to multi-national corporations.

Estimated Completion Time: 100 hours. This estimate is based on an "application" defined as submitting all the required information to receive approval to: establish one spacing unit, pool all of the conflicting CBM ownership within the unit, and drill and stimulate one CBM well on the unit.

Annual Responses: Nine.

Annual Burden Hours: 900.

Bureau Clearance Officer (Alternate): Wendy W. Spencer, (303) 236–6642.

Walt Rewinski,

Deputy State Director, Resources and Planning, Use and Protection.

BILLING CODE 4310–GJ–M

[AK–964–1410–00–P; F–14956–B]

Alaska; Notice for Publication; Alaska Native Claims Selection

In accordance with Departmental regulation 43 CFR 2650.7(d), notice is hereby given that a decision to issue conveyance under the provisions of Sec. 14(a) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1601, 1613(a), will be issued to White Mountain Native Corporation for approximately 15.00 acres. The lands involved are in the vicinity of White Mountain, Alaska.

Kateel River Meridian, Alaska

T. 10 S., R. 23 W.
  Secs. 28 and 32.

A notice of the decision will be published once a week, for four (4) consecutive weeks, in The Nome Nugget. Copies of the decision may be obtained by contacting the Alaska State Office of the Bureau of Land Management, 222 West Seventh Avenue, #13, Anchorage, Alaska 99513–7599 [(907) 271–5960].

Any party claiming a property interest which is adversely affected by the decision, an agency of the Federal government or regional corporation, shall have until October 13, 1995 to file an appeal. However, parties receiving service by certified mail shall have 30 days from the date of receipt to file an appeal. Appeals must be filed in the Bureau of Land Management at the address identified above, where the requirements for filing an appeal may be obtained. Parties who do not file an appeal in accordance with the requirements of 43 CFR Part 4, Subpart E, shall be deemed to have waived their rights.

Robin Rodriguez,

Land Law Examiner, Branch of Northern Adjudication.

BILLING CODE 4310–JA–P

[WO–300–1310–00]

Notice of Draft Report and Comment Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability for review and comment of draft report on the Reinventing Government II (REGO II) proposal to transfer oil and gas Inspection and Enforcement (I&E) and Environmental Compliance responsibilities that are currently administered by the Bureau of Land Management (BLM) to individual States and Indian tribes.

SUMMARY: The onshore and gas program, administered by BLM, is one of the major mineral leasing programs in the Department of the Interior (DOI). At the end of 1994, more than 51,000 onshore oil and gas leases existed on Federal lands covering 39 million acres. About 19,500 leases were in producing status. The BLM is also responsible for operational management oversight of about 4,100 producing leases on Indian lands and supervision of drilling on nonproducing leases. Royalty income from onshore oil and gas production on Federal and Indian lands is over $600 million per year.

Under Vice President Gore's REGO II proposal, it has been proposed that the BLM transfer oil and gas inspection and enforcement responsibilities concerning production verification and environmental compliance to the individual States and Indian tribes. This proposal was initially intended as an unfunded transfer of the I&E and Environmental Compliance programs to States and Indian tribes. Subsequently, the DOI indicated that funding of these programs, commensurate with current BLM spending levels, may be made available to the States and Tribes if they elect to assume program responsibilities.

The information contained in the draft REGO II Report is based on preliminary issues and recommendations identified by the REGO II Task Force comprised of Federal, State and Tribal representatives. The purpose of the report is to: (1) Provide information on the Bureau's I&E and Environmental Compliance programs, (2) identify opportunities and limitations associated with program transfers, and (3) address important considerations that must be taken into account in evaluating the feasibility of transfers.

DATES: Copies of the draft report may be obtained by contacting Mike Pool at the address or telephone number listed below. Written comments on the draft report must be received by October 16, 1995.

ADDRESSES: Written comments should be sent to Mike Pool, Bureau of Land Management, Farmington District Office, 1235 La Plata Highway, Farmington, NM 87401.

FOR FURTHER INFORMATION CONTACT: Mike Pool, (505) 599–8910.

Dated: September 6, 1995.

Mike Pool,

District Manager.

BILLING CODE 4310–FB–M

[UT–020–05–1430–01; U–54825]

Notice of Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action. Noncompetitive Sale of Public Land in Tooele County, Utah.

SUMMARY: The following land has been found suitable for direct sale under Sections 203 and 209 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1713 and 1719), at not less than the estimated fair market value of $3,100.00. The land will not be offered for sale until at least 60 days after the date of this notice.

Salt Lake Meridian,

T. 8 S., R. 19 W.,
  Sec. 9, E½E½E½SW¼,
    E½E½W½E½E½SW¼.

Containing approximately 25.0 acres.

The land described is hereby segregated from appropriation under the public land laws, including the mining laws, pending disposition of this action or 270 days from the date of publication of this notice, whichever occurs first.

This land is being offered by dirct sale to Jay I. Hicks of Ibapah, Utah. It has been determined that the subject parcel contains no known mineral values, except for a prospective value for oil and gas; therefore, mineral interests except for oil and gas will be conveyed simultaneously. Acceptance of the direct sale offer will qualify the purchaser to make application for conveyance of those mineral interests.

The patent, when issued, will contain a reservation of oil and gas to the United States and the right to construct ditches and canals under the authority of the Act of August 30, 1890 (43 U.S.C. 945).

Detailed information concerning the sale are available for review at the Salt Lake District Office, Bureau of Land Management, 2370 South 2300 West, Salt Lake City, Utah 84119.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, Salt Lake District, at the above address. In the absence of timely objections, this proposal shall become the final determination of the Department of the Interior.

Dated: August 30, 1995.

Gary Wisser,

Acting Salt Lake District Manager.

Fish and Wildlife Service

Notice of Availability of the Draft Environmental Assessment (Draft EA) for Additions to Shiawassee National Wildlife Refuge in Saginaw County, Michigan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This Notice advises the public that the U.S. Fish and Wildlife Service (Service) has made available for public comment a Draft EA to protect additional habitat on the existing 9,042-acre Shiawassee National Wildlife Refuge (Refuge). The Refuge is located at the confluence of the Shiawassee, Cass and Tittabawassee Rivers, adjacent to the Saginaw metropolitan area in Saginaw County, in Michigan's Lower Peninsula.

DATES: Written comments should be received by October 23, 1995. Public Open Houses are scheduled in the Saginaw metropolitan area from September 20–23, 1995. The exact dates, times and locations are listed under **SUPPLEMENTARY INFORMATION.**

ADDRESSES: Written comments should be addressed to: Regional Director, U.S. Fish and Wildlife Service, Bishop Henry Whipple Federal Building, 1 Federal Drive, Fort Snelling, Minnesota 55111–4056; Attention: Stanley Jackowicz, RE–AP. Copies of the Draft EA are available during normal business hours at the Shiawassee National Wildlife Refuge headquarters, 6975 Mower Road, Saginaw, Michigan 48601.

FOR FURTHER INFORMATION CONTACT: Doug Spencer, Refuge Manager at (517) 777–5930.

SUPPLEMENTARY INFORMATION: The Service proposes to protect approximately 7,500 acres of additional habitat in association with the existing Shiawassee National Wildlife Refuge (Refuge) located along the Saginaw River in the east-central portion of Michigan's Lower Peninsula. This additional protection is proposed to restore, protect and manage bottomland and upland habitat that would support the existing Refuge and Tributary watersheds of the Saginaw River. Historically the area was predominantly lowland hardwood forest, upland forest, emergent marsh, and scattered areas of lakeplain prairie. The proposal is also meant to provide areas of lakeplain prairie and emergent marshes that are either lacking or under-represented on the existing Refuge. This would help to restore the habitat and wildlife diversity the area once supported. The proposal is also meant to protect the lower reaches of the Cass, Tittabawassee and Shiawassee River watersheds that feed and support the existing refuge and Saginaw Bay of Lake Huron.

The purposes of the addition to the Shiawassee National Wildlife Refuge are:

1. Provide wildlife corridors by protecting, restoring, and managing wetlands and bottomland forest and upland habitats along the rivers for the many values associated with these plant communities.

2. Protect, restore and maintain the biological diversity of the area by preserving the native habitats and associated fish, migratory and resident wildlife.

3. Facilitate with other agencies, groups and private landowners the conservation of resources in the watersheds that support the refuge.

4. Provide for increased recreation, environmental education, and interpretative opportunities to the general public. Acquire, manage, and operate Green Point Environmental Learning Center in the City of Saginaw.

5. Work cooperatively with local communities on the establishment of a visitors center located near a major thoroughfare to promote eco-tourism in the metropolitan area.

The alternatives considered in the Draft EA are:

1. *No Action*—Rely on existing Federal, State, and local government laws, regulations, and ordinances to protect resources.

2. *Private Lands Agreements*—Rely on a program of technical outreach sponsored by the Service and Michigan Department of Natural Resources to assist landowners in the restoration and enhancement of wildlife and fish habitats in the area. The area would encompass 7,500 acres along the Cass, Shiawassee and Tittabawassee Rivers.

3. *Acquisition of 7,500 acres by Service as an Addition to the Shiawassee National Wildlife Refuge*—Under this alternative, the Service would use acquisition of fee title, easements, and leases from willing sellers, subject to appropriated funds to add to the existing Shiawassee National Wildlife Refuge.

4. *Acquisition of 5,688 acres by Service as an Addition to the Shiawassee National Wildlife Refuge*—Under this alternative, the Service would use acquisition of fee title, easements, and leases from willing sellers along the lower reaches of the Cass, Shiawassee, and Tittbawassee Rivers, subject to appropriated funds to add to the existing Shiawassee National Wildlife Refuge.

The Service's preferred alternative is #3—Acquisition of 7,500 acres as an addition to the Shiawassee NWR. The major issues discussed in the Draft EA include Service acquisition policy, effects on the tax base, loss of cropland, maintenance of existing ditches and dikes, mosquito control, effects on adjacent cropland, loss of residential development, fire protection responsibilities, and maintenance of township roads.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4371 et seq.), NEPA Regulations (40 CFR 1500–1508), other appropriate Federal regulations, and Service procedures for compliance with those regulations.

The Service has scheduled six public open houses in the Saginaw area, the times and locations are as follows: Thomas Township Hall (249 N. Miller Road, Thomas Township) on Sept. 20, 1995, from 3:00 p.m. to 5:30 p.m.; James Township Hall (6060 Swan Creek Road, James Township) on Sept. 20, 1995, from 7:00 p.m. to 10:00 p.m.; Saginaw Township Hall (4980 Shattuck Road, Saginaw Township) on Sept. 21, 1995, from 3:00 p.m. to 5:30 p.m.; Bridgeport Township Hall (6206 Dixie Highway, Bridgeport) on Sept. 21, 1995, from 7:00 p.m. to 10:00 p.m.; Spaulding Township Hall (5025 E. Road (M–13), Spaulding Township) on Sept. 22, 1995, from 7:00 p.m. to 10:00 p.m.; and in the City of Saginaw at the Green Point Nature Center (3010 Maple Street, Saginaw) on Sept. 23, 1995, from 1:00 p.m. to 4:00 p.m.

The Draft EA will be available to the public on September 5, 1995. The deadline for public comments on the Draft EA is October 23, 1995.

Dated: September 5, 1995.

Marvin E. Moriarty,

Acting Regional Director.

BILLING CODE 4310-55-M

National Park Service

Order Adjusting the Boundary of Theodore Roosevelt National Park, North Dakota, to Include Certain Lands

AGENCY: National Park Service, Interior.

ACTION: Boundary adjustment order.

SUMMARY: Pursuant to the authority contained in the Act of March 24, 1956, 70 Stat. 56, 16 U.S.C. 241e, and as a portion of U.S. Highway No. 10 has been realigned, the boundaries of Theodore Roosevelt National Park are being adjusted accordingly.

DATES: The effective date of this order shall be September 13, 1995.

FOR FURTHER INFORMATION CONTACT: Realty Officer, Intermountain Field Area, P.O. Box 25287, Denver, Colorado, 80225–0287, (303) 969–2611.

SUPPLEMENTAL INFORMATION: The above-cited Act authorizes the Secretary of the Interior to make adjustments in the boundaries of Theodore Roosevelt National Park along U.S. Highway No. 10 as he deems advisable and in the public interest if and when the alinement of the highway is changed, subject to the limitation that no more than 500 acres may be so added to the park.

U.S. Highway No. 10 has been realigned in the vicinity of the City of Medora, North Dakota, and it has been determined that a boundary adjustment is advisable in the area of the park entrance. The total acreage of Theodore Roosevelt National Park will be increased by 0.30 acre by this boundary adjustment. This increase does not exceed the acreage limitation set forth above. No lands are being excluded from the park as a result of this action.

Subject to valid existing rights, the following described lands are hereby added to Theodore Roosevelt National Park to be administered in accordance with the laws and regulations applicable thereto:

The City of Medora, Billings County, North Dakota.

All that portion of Third Avenue in the City of Medora which lies East of the Northeasterly right-of-way line of U.S. Highway No.10, and west of a line 140 feet West of and parallel to the Westerly line of Main Street in said City of Medora.

Containing 0.30 acre, more or less.

Dated: September 1, 1995.

Ronald E. Everhart,

Intermountain Field Director.

BILLING CODE 4310-70-P

Meeting: Committee for the Preservation of the White House

In compliance with the Federal Advisory Committee Act, notice is hereby given of a meeting of the Committee for the Preservation of the White House. The meeting will be held at the Old Executive Office Building, Washington, D.C. at 1 p.m., Friday, September 29, 1995. It is expected that the agenda will include policies, goals and long range plans. The meeting will be open, but subject to appointment and security clearance requirements, including clearance information by September 20, 1995.

Inquiries may be made by calling the Committee for the Preservation of the White House between 9 a.m. and 4 p.m., weekdays at (202) 619–6344. Written comments may be sent to the Executive Secretary, Committee for the Preservation of the White House, 1100 Ohio Drive, S.W., Washington, D.C. 20242.

Dated: September 6, 1995.

James I. McDaniel,

Executive Secretary, Committee for the Preservation of the White House.

BILLING CODE 4310–70–P

Land Exchange Between the National Park Service and the City of Albuquerque

AGENCIES: National Park Service and City of Albuquerque.

ACTION: Proposed Land Exchange and Opportunity for Public Comment, Albuquerque, New Mexico.

SUMMARY: Pursuant to 16 U.S.C. Sec. 460*l*–22(b) and the Petroglyph National Monument Establishment Act of 1990, 104 Stat. 272, the National Park Service, hereinafter called the Service, requires that the public be notified of a proposed land exchange between this agency and the City of Albuquerque, hereinafter called the city. Both entities propose to exchange 0.11 of an acre owned by the Service outside the boundary of Petroglyph National Monument for two tracts, totaling 0.11 of an acre, that the city owns within the Atrisco Unit of the monument. The Service tract is located along Unser Boulevard 0.2 of a mile south of the Las Imagines Visitor Center within a 100-year flood hazard zone. A water drainage structure, operated and maintained by the city, currently exists on this tract. The city-owned tracts, consisting of 0.06 of an acre and 0.05 of an acre, are unimproved and were acquired as uneconomic remnants when the right-of-way for Unser Boulevard was acquired. Located along Unser Boulevard, these tracts are also situated south of the Visitor Center, 0.4 of a mile and 0.6 of a mile, respectively.

With the city responsible for handling the collection of drainage water adjacent to Unser Boulevard and the Service responsible for managing the lands within the Atrisco Unit of the monument, it is in the best interests of both agencies to consummate this exchange.

Both parties have determined that the lands and interests therein to be exchanged are of equal value.

COMMENTS AND FURTHER INFORMATION: The comment period on this proposed exchange ends 45 days from the date of this publication. Any comments pertaining to this exchange should be sent to the Superintendent, Petroglyph National Monument, 6001 Unser Boulevard, NW, Albuquerque, New Mexico 87120. Further information on this exchange can be obtained at the same address.

Dated: August 11, 1995.

John E. Cook,

Field Director, Intermountain Area, National Park Service.

BILLING CODE 4310–70–P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701–TA–362 (Final) and 731–TA–707 through 710 (Final)]

Certain Seamless Carbon and Alloy Standard, Line, and Pressure Steel Pipe From Argentina, Brazil, Germany, and Italy

Determinations

On the basis of the record [1] developed in the subject investigations, the Commission unanimously determines, pursuant to sections 705(b) and 735(b) of the Tariff Act of 1930 (the Act) (19 U.S.C. §§ 1671d(b) and 1673d(b), respectively), that an industry in the United States is materially injured by reason of imports from Italy of certain seamless carbon and alloy standard, line, and pressure steel pipe and redraw hollows [2] that are subsidized by the Government of Italy, and by reason of imports from Argentina, Brazil, Germany, and Italy that are sold in the United States at less than fair value (LTFV).

Background

The Commission instituted these investigations effective December 23, 1994, and January 27, 1995, following preliminary determinations by the Department of Commerce that imports of certain seamless carbon and alloy standard, line, and pressure steel pipe and redraw hollows from Italy were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. § 1671b(b)), and that imports of such pipe from Argentina, Brazil, Germany and Italy [3] were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. § 1673b(b)). The petition underlying these investigations was filed on June 23, 1994, prior to the effective date of the Uruguay Round Agreements Act.[4] Thus, these investigations were subject to the substantive and procedural rules of the Act, the pre-existing law.

Notices of the institution of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notices in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notices in the **Federal Register** of January 12, 1995, March 1, 1995, and June 23, 1995 (60 FR 2984, 60 FR 11110, and 60 FR 32709). The hearing was held in Washington, DC, on June 20, 1995, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on July 26, 1995. The views of the Commission are contained in USITC Publication 2910 (July 1995), entitled "Certain Seamless Carbon and Alloy Standard, Line, and Pressure Steel Pipe from Argentina, Brazil, Germany, and Italy: Investigations Nos. 701–TA–362 and 731–TA–707 through 710 (Final)."

By order of the Commission.

---

[1] The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

[2] Imports are currently reported under Harmonized Tariff Schedule statistical numbers 7304.10.1020, 7304.10.5020, 7304.31.6050, 7304.39.0016, 7304.39.0020, 7304.39.0024, 7304.39.0028, 7304.39.0032, 7304.51.5005, 7304.51.5060, 7304.59.6000, 7304.59.8010, 7304.59.8015, 7304.59.8020, and 7304.59.8025.

[3] Commerce's preliminary determination of sales at LTFV regarding Italy was negative. Following Commerce's final affirmative determination of sales at LTFV, the Commission instituted its final antidumping investigation concerning Italy, effective June 14, 1995.

[4] See Pub. L. 103–465, approved Dec. 8, 1994, 108 Stat. 4809, at § 291.

Issued: September 7, 1995.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020–02–P

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32758]

Portland & Western Railroad, Inc.—Lease and Operation Exemption—Southern Pacific Transportation Company

Portland & Western Railroad, Inc. (PNWR), a noncarrier, has filed a notice of exemption to lease from Southern Pacific Transportation Company (SPT) and to operate three rail segments, all in the State of Oregon, totaling approximately 52.68 miles: (1) The 28.91-mile Tillamook Branch, between milepost 741.59 near Willsburg Jct. and milepost 770.50 near Schefflin; (2) the 9.45-mile Westside-Seghers Branch, between milepost 764.80 near Hillsboro and milepost 754.57 near Seghers; [1] and (3) the 14.32-mile Newberg Branch, between milepost 763.99 near Cook and milepost 749.67 near Newberg. SPT also granted PNWR incidental overhead trackage rights to operate over 3.69 miles of rail line between milepost 768.00 at Brooklyn Yard and the point of connection with the Tillamook Branch at milepost 741.59 near Willsburg Jct. The notice became effective on August 15, 1995.

PNWR is 100% owned and controlled by Genesee & Wyoming Industries, Inc. (GWI), and GWI controls nine class III rail carriers through stock ownership. Because, the three SPT lines connect with lines operated by Willamette & Pacific Railroad, Inc., a GWI controlled rail carrier, GWI has petitioned for an exemption in *Genesee & Wyoming Industries, Inc.—Continuance in Control Exemption—Portland & Western Railway, Inc.*, Finance Docket No. 32759, to continue in control of PNWR and the other railroads in its corporate family after PNWR becomes a class III rail carrier. To consummate the instant transaction before Finance Docket No. 32759 is decided, GWI has placed PNWR in an independent voting trust. 49 CFR 1013.

Any comments must be filed with the Commission and served on Eric M. Hocky, Gollatz, Griffin & Ewing, P.C., P.O. Box 796, 213 West Miner Street, West Chester, PA 19381–0796.

This notice is filed under 49 CFR 1150.31. If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

Decided: September 6, 1995.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

[FR Doc. 95–22734 Filed 9–12–95; 8:45 am]

BILLING CODE 7035–01–P

---

[1] Although the mileposts for this line segment suggest that the line is 10.23 miles long, the actual mileage is 9.45 miles. The discrepancy is attributable to the mileposts not having been redesignated to reflect a previous abandonment.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Application

Pursuant to § 1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on July 20, 1995, Mallinckrodt Chemical, Inc., Mallinckrodt & Second Streets, St. Louis, Missouri 63147, made written request to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the Schedule II controlled substance Methylphenidate (1724).

The firm plans to produce bulk finished product for distribution to its customers.

Any other such applicant and any person who is presently registered with DEA to manufacture such substances may file comments or objections to the issuance of the above application.

Any such comments or objections may be addressed to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, United States Department of Justice, Washington, DC 20537, Attention: DEA Federal Register Representative (CCR), and must be filed no later than November 13, 1995.

Dated: September 5, 1995.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

BILLING CODE 4410–09–M

Office of Community Oriented Policing Services

Community Policing to Combat Domestic Violence

AGENCY: Office of Community Oriented Policing Services, Department of Justice.

ACTION: Notice of Availability.

SUMMARY: The Department of Justice, Office of Community Oriented Policing Services ("COPS") announces the availability of grants to provide funding for implementing innovative community policing strategies to combat domestic violence to law enforcement agencies which partner with eligible domestic violence victim advocacy organizations.

The Community Policing to Combat Domestic Violence Initiative ("COPS/DV Initiative") permits agencies which have demonstrated a solid community policing effort and are interested in specifically turning their focus, or strengthening their already progressive focus, towards domestic violence to apply for funding in partnership with an agency which provides domestic violence victim advocacy. Eligible applicants include State, local, and Indian law enforcement agencies with demonstrated commitments to community policing. Victim service agencies and organizations, domestic violence shelters, and non-profit, nongovernmental victim service providers are encouraged to partner with police agencies to apply under this program. Projects will be funded for a one-year period. The Catalog of Federal Domestic Assistance reference is 16.710.

DATES: COPS/DV Initiative Application Kits will be available on or about September 9, 1995. Completed applications should be returned to the COPS Office by November 17, 1995. Applications submitted after this deadline will not be accepted.

ADDRESSES: COPS/DV Initiative Applications Kits may be obtained by writing to COPS/DV Initiative, 1100 Vermont Avenue, N.W., 5th Floor, Washington, D.C. 20530, or by calling the Department of Justice Crime Bill Response Center, (202) 307–1480 or 1–800–421–6770. Completed COPS/DV Initiative Application Kits should be sent to COPS/DV Initiative, COPS Office, 1100 Vermont Avenue, N.W., 5th Floor, Washington, D.C. 20530.

FOR FURTHER INFORMATION CONTACT: The Department of Justice Crime Bill Response Center, (202) 307–1480 or 1–800–421–6770.

SUPPLEMENTARY INFORMATION: Title I of the Violent Crime Control and Law

Enforcement Act of 1994 (Pub. L. 103–322) authorizes the Department of Justice to make grants to increase the number of community oriented policing officers on the streets and to support innovative community policing projects. The COPS Office is offering the COPS/DV Initiative to provide one-year grants to agencies which have a demonstrated commitment to community policing to turn their focus, or strengthen their already progressive focus, towards domestic violence.

All state, local, Indian Tribal, and other public law enforcement agencies which are committed to using community policing to combat domestic violence are eligible to apply for funding in partnership with victim service agencies and organizations, domestic violence shelters, and non-profit, nongovernmental victim service providers. Law enforcement agency applicants must demonstrate that they are implementing an exemplary community policing program and that they currently train officers in community policing. Law enforcement agency applicants must submit with their application a memorandum of understanding between the agency and an eligible victim or community service organization, specifying the roles of all parties involved in the proposal and describing clearly the parameters of partnership between the participants.

Applicants must apply under one of three funding categories: (1) Domestic Violence Training with a Community Oriented Policing Philosophy (up to $2,000,000 in funding, not to exceed $250,000 per grant); (2) Problem Solving and Community Based Programs: Community Policing Partnerships and Problem Solving Initiatives Focusing on Domestic Violence (up to $5,000,000 in funding, not to exceed $200,000 per grant); or (3) Changing Police Organizations to be More Responsive to Domestic Violence (up to $3,000,000 in funding, not to exceed $150,000 per grant).

All applicants under the COPS/DV Initiative will be asked to provide an Application Summary Sheet, a Project Narrative, and a Budget Narrative. The Application Summary Sheet requests identifying information on the applicant agency; a brief description of the proposed project; and a brief description of the partnership between the law enforcement agency applicant and an eligible victim services organization. The Project Narrative requires a description of the innovative community policing project proposed and a narrative description of the law enforcement applicant agency's current community policing plan and practices. The Budget Narrative requires a description of the proposed project budget, including the identification of local contributions of funds, if any, to the proposed project.

Projects will be funded for a one-year period. The application deadline for the COPS/DV Initiative is November 17, 1995. Applications postmarked after this deadline will not be considered. An award under the COPS/DV Initiative will not affect the eligibility of any agency to apply to other COPS programs.

Dated: September 1, 1995.

L. Anthony Sutin,

Acting Director.

[FR Doc. 95–22660 Filed 9–12–95; 8:45 am]

BILLING CODE 4410–01–M

Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation and Liability Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States* v. *Joseph A. Cekola, et al.*, Case No. 1:93–CV–1006, was lodged with the United States District Court for the Western District of Michigan on August 31, 1995. The proposed consent decree resolves civil claims brought by the United States for the recovery of costs incurred in responding to polychlorinated biphenyl (PCB) and asbestos releases and threats of releases at the panelyte Site in Kalamazoo, Michigan. The decree requires the two Cekola defendants to reimburse $128,340, plus interest, to the United States through a court registry account.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States* v. *Joseph A. Cekola, et al.*, Case No. 1:93–CV–1006 and the Department of Justice Reference No. 90–11–3–1234.

The proposed consent decree may be examined at the Office of the United States Attorney, Western District of Michigan, 110 Michigan Street, N.W., Room 399, Grand Rapids, Michigan 49503; the Region 5 Office of the Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604–3590; and at the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005, 202–624–0892. A copy of the proposed consent decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005. In requesting a copy, please refer to the referenced case and enclose a check in the amount of $3.50 (25 cents per page reproduction costs) payable to the Consent Decree Library.

Joel M. Gross,

Acting Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410–01–M

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with Departmental policy at 28 CFR 50.7, notice is hereby given that on September 5, 1995, a proposed consent decree in *United States* v. *Why Wastewater?, Inc.*, Civil Action No. EP95CA381, was lodged with the United States District Court for the Western District of Texas. The complaint filed by the United States sought injunctive relief and civil penalties for violations by defendant Why Wastewater?, Inc., ("WWI") of Section 3005 of RCRA, 42 U.S.C. § 6925 and Sections 335.2 and 335.94 of the Texas Administrative Code, for storage of hazardous waste without a permit. The proposed consent decree imposes a $103,000.00 civil penalty for these violations and injunctive relief against WWI to cease storage of waste without a permit.

For a period of thirty (30) days from the date of this publication, the Department of Justice will receive written comments relating to the proposed consent consent decree from persons who are not parties to the action. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Why Wastewater?, Inc.*, DOJ #90–11–2–1029.

The proposed consent decree may be examined at the offices of the United States Attorney for the Western District of Texas, Federal Building, Suite 200, 700 E. San Antonio St., El Paso, Texas 79901 and at the office of the United States Environmental Protection Agency, Region VI, 1445 Ross Avenue, Dallas, Texas 75202 (Attention: Effren Ordonez, Assistant Regional Counsel). A copy of the consent decree may also be examined at the Consent Decree Library, 1120 G Street, NW., 4th Floor, Washington, DC 20005, (202) 624–0892. Copies of the decree may be obtained in person or by mail from the Consent Decree Library. Such requests should be accompanied by a check in the amount of $5.50 (25 cents per page reproduction charge) payable to "Consent Decree Library". When requesting copies, please refer to *United States* v. *Why Wastewater?, Inc.*, DOJ #90–11–2–1029.

Joel Gross,

Acting Chief Environmental Enforcement Section Environment and Natural Resources Division.

BILLING CODE 4410–01–M

DEPARTMENT OF LABOR

Office of the Secretary

President's Committee on the International Labor Organization; Notice of Postponement of Closed Meeting

This document postpones the September 14, 1995 closed meeting of the President's Committee on the ILO. Notice of this closed meeting was previously published in the **Federal Register** on September 6, 1995, 60 FR 46308. The meeting is being postponed because of the scheduling difficulties of certain participants.

We anticipate that the meeting will be rescheduled in the future, and the Committee will publish such notice in the **Federal Register**.

For Further Information Contact: Mr. Joaquin F. Otero, President's Committee on the International Labor Organization, U.S. Department of Labor, 200 Constitution Avenue NW., Room S–2235, Washington, DC 20210, Telephone (202) 219–6043.

Signed at Washington, DC this 8th day of September, 1995.

Joaquin F. Otero,

Deputy Under Secretary, International Affairs.

[FR Doc. 95–22726 Filed 9–8–95; 8:45 am]

BILLING CODE 4510–28–M

Pension and Welfare Benefits Administration

[Application No. D–09845 and D–09846, et al.]

Proposed Exemptions; Prudential Property Investment Separate Account (PRISA) and Prudential Property Investment Separate Account II (PRISA II)

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restriction of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Written Comments and Hearing Requests

Unless otherwise stated in the Notice of Proposed Exemption, all interested persons are invited to submit written comments, and with respect to exemptions involving the fiduciary prohibitions of section 406(b) of the Act, requests for hearing within 45 days from the date of publication of this **Federal Register** Notice. Comments and request for a hearing should state: (1) The name, address, and telephone number of the person making the comment or request, and (2) the nature of the person's interest in the exemption and the manner in which the person would be adversely affected by the exemption. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing.

ADDRESSES: All written comments and request for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Exemption Determinations, Room N–5649, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210. Attention: Application No. stated in each Notice of Proposed Exemption. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefits Administration, U.S. Department of Labor, Room N–5507, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of proposed exemption are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

Prudential Property Investment Separate Account (PRISA) and Prudential Property Investment Separate Account II (PRISA II) Located in Newark, NJ

[Application Nos. D–09845 and D–09846]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 C.F.R. Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990). If the exemption is granted, the restrictions of section 406(a), 406(b)(1), and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code,[1] shall not apply, effective December 31, 1995, to the advanced commitment to provide an enhanced return and the payment of such return by the Prudential Insurance Company of America (Prudential) to various employee benefit plans (the Plan or Plans) on the assets of such Plans which are invested either in PRISA and/or PRISA II (the Account or Accounts), as of April 1, 1994, and which remain invested for all or any portion of a twenty-one (21) month period, beginning April 1, 1994, and ending December 31, 1995, (the Investment Period), provided that the following conditions are met:

(1) The decision to invest funds in either or both of the Accounts for all or a portion of the Investment Period has

---

[1] For purposes of this exemption, references to specific provisions of Title I of the Act, unless otherwise specified, refer also to the corresponding provisions of the Code.

been and will be made by fiduciaries of the Plans independent of Prudential;

(2) The amount of the enhanced return payment with respect to the assets of the Plans that are invested in either or both of the Accounts for only a portion of the Investment Period will be calculated in the same manner as the amount of the enhanced return payment with respect to the assets of the Plans that remain invested in either or both of the Accounts for the entire Investment Period;

(3) The enhanced return will be derived by comparing the cumulative total return for the Investment Period reported by the expanded Russell-NCREIF Property Index (the Index) with the cumulative total return of PRISA or PRISA II for the same period;

(4) The Plans will obtain an enhanced rate of return (but not more than 200 basis points) for amounts invested in one or both of the Accounts during all or any portion of the Investment Period, if the cumulative total investment return of such Account for such Investment Period is less than that reported for the Index;

(5) The payments, if any, of enhanced return will be made by Prudential to investors in the Accounts not later than thirty (30) days following the final determination of the amounts owed;

(6) Every property held by the Accounts is individually valued at least once during the Investment Period and thereafter will be valued at least once in each calendar year by an independent qualified appraiser;

(7) A valuation policy committee (the Valuation Policy Committee), consisting of representatives from an valuation management firm (the Valuation Management Firm), Prudential Real Estate Investors (PREI), the interim and permanent advisory councils (the Advisory Council or Advisory Councils) composed of investors in PRISA and PRISA II and their consultants, and other clients of PREI, will meet at least quarterly and set valuation policy for the Accounts;

(8) The Valuation Management Firm, an independent third party, will be responsible for retaining (and terminating) all appraisal firms which value the properties in the Accounts; reviewing all appraisals generated by such appraisal firms; and collecting, reviewing, and distributing any information needed by such appraisal firms to appraise the properties in the Accounts;

(9) The Plans invested in the Accounts who receive the enhanced return will incur no additional cost or risk in connection with the transaction;

(10) In connection with the determination of enhanced return payments, no upward adjustment will be made by Prudential to the value reported by an external independent appraiser of any Property in PRISA and PRISA II without the concurrence of the Valuation Management Firm;

(11) Any required state insurance regulatory approvals are obtained for the transaction; and

(12) The Plans will receive the same treatment and proportional payment under the enhanced return as any other investor in PRISA and PRISA II.

Summary of Facts and Representations

1. Prudential is a mutual life insurance company organized under the laws of the State of New Jersey and subject to the supervision and examination by the Insurance Commissioner of the State of New Jersey. It is represented that Prudential is the largest life insurance company in the United States, with total consolidated assets, as of December 31, 1993, of approximately $218 billion.

Among the variety of insurance products and services it offers, Prudential provides funding, asset management and other services for thousands of employee benefit plans subject to the provisions of Title I of the Act. In this regard, Prudential maintains separate accounts in which pension, profit-sharing, and thrift plans participate. Prudential also manages the assets of such plans held in single customer separate accounts and advisory accounts.

2. PRISA and PRISA II are both open-end pooled separate accounts created by Prudential in 1970 and 1980, respectively. The Accounts were designed as funding vehicles for tax-qualified employee pension benefit plans to invest in real estate on a commingled basis. It is represented that the establishment and operation of PRISA and PRISA II have been approved by the New Jersey Insurance Commissioner.

As of June 30, 1994, PRISA had total net assets of approximately $2,25 billion, including interests in 124 properties located in 22 states and the District of Columbia. The investors in PRISA, as of June 30, 1994, consisted of 190 employee pension benefit plans, including 171 plans covered under the Act and 19 governmental plans that are exempt from coverage under the Act.

As of June 30, 1994, PRISA II had total net assets of approximately $575.6 million, including interests in 18 properties located in 12 states and the District of Columbia. The 38 investors in PRISA II, as of June 30, 1994, consisted of 28 plans covered under the Act and 10 governmental plans that are exempt from coverage under the Act.

The assets of the Accounts consist primarily of real property, and may also include mortgage loans, interests in companies, including partnerships, which acquire, develop or manage real property, and cash or cash equivalents. Interests in the Accounts are expressed in terms of units of participation, the value of which is determined periodically, based upon the net value of each of the Accounts (i.e. the market value of the real property and other assets held in an Account, less the amount of liability for indebtedness and expenses). It is represented that every property held by the Accounts is valued at least once in each calendar year by an independent qualified appraiser.

As separate accounts, PRISA and PRISA II hold assets which are segregated from all other assets held or managed by Prudential. In this regard, it is represented that the assets of each of the Accounts may be charged only with liabilities arising from the operation of that Account and may not be charged with liabilities arising from other business conducted by Prudential.

3. The assets of PRISA and PRISA II are managed by PREI. PREI is a division of the Prudential Investment Corporation which is a direct subsidiary of Prudential. It is represented that PREI is a full-service real estate investment advisor whose sole function is to provide real estate investment advisory and portfolio and asset management services to institutional investors. In addition to PRISA and PRISA II, PREI manages several other pooled separate accounts maintained by Prudential and also manages various single customer separate accounts and advisory accounts. It is represented that PREI currently manages real estate assets of approximately $4.6 billion.

4. The Plans which invest in PRISA and PRISA II consist of defined benefit plans and defined contribution plans. Investment in PRISA by defined contribution plans, where a unit value account is maintained for each individual plan participant, is limited to no more than 33 percent (33%) of the investment fund for which such unit value is determined. It is represented that PRISA II does not have this restriction on the extent of participation by defined contribution plans. The Retirement System for U.S. Employees and Special Agents, a defined benefit plan sponsored by Prudential has invested in PRISA and PRISA II since 1970 and 1980, respectively. It is represented that, as of June 30, 1994, approximately 4 percent (4%) of the

assets of this plan were in the aggregate invested in the Accounts.

The Plans participate in the Accounts, in accordance with the provisions of group pension annuity contracts offered by Prudential. Pursuant to the terms of such group pension annuity contracts, Prudential is appointed as an investment manager to each of the Plans, with discretion to delegate to one or more of its direct or indirect wholly-owned subsidiaries all or part of its authority under such contract. It is represented that for the performance of its duties as investment manager of each of the Accounts, Prudential charges a quarterly fee of a percentage of the value of the assets in each Account.[2] In this regard, Prudential acknowledges that it is a fiduciary and party in interest, pursuant to section 3(14) of the Act, with respect to each Plan, to the extent of the assets of such Plans which are invested in either or both Accounts, pursuant to the terms of such group pension annuity contracts.

5. It is represented that allegations of improprieties by Prudential in connection with the overvaluation of properties in the PRISA and PRISA II portfolios arose in November 1993, as part of a suit brought against Prudential by a former employee. In addition, such allegations were the subject of an investigation by the Department of Labor.[3] It is represented that Prudential hired an outside counsel, Sonnenschein Nath & Rosenthal (Sonnenschein), and an independent accounting firm, Kenneth Leventhal & Company (Leventhal), to conduct independent reviews of various aspects of these allegations. In this regard, Prudential made available to investors in PRISA and PRISA II on April 27, 1994, and to the Department on April 25 and June 26, 1994, the results of such independent reviews conducted by Sonnenschein and Leventhal.

As a result of these investigations and conclusions made by Sonnenschein and Leventhal, Prudential determined to taken certain steps to improve the operation and management of the Accounts. These efforts include: (a) Changing certain of the personnel responsible for the management of the Accounts; (b) establishing the Advisory Councils for each of the Accounts; (c) transferring responsibility for the valuation of properties from PREI to Prudential's Department of the Comptroller (the Comptroller); (d) retaining the services of the independent Valuation Management Firm; (e) creating the Valuation Policy Committee; (e) implementing a fiduciary education program for associates of Prudential; and (f) making financial remediation to investors in PRISA and PRISA II in order to restore each investor to his financial position, absent any overvaluation of PRISA and PRISA II properties.

6. In order to make the Accounts more attractive investments for the Plans and in addition to the other efforts taken by Prudential, as described above, Prudential proposes to provide an enhanced return and to pay such return to the Plans on the assets of such Plans which are invested in either or both Accounts, as of April 1, 1994, and which remain invested for all or any portion of the twenty-one (21) month Investment Period; provided any required state insurance regulatory approvals are obtained and the proposed exemption is granted.[4] In this regard, Prudential has requested exemptive relief from the prohibited transaction provision, set forth in section 406(a) of the Act, because it believes that its obligation to make the enhanced return payments could be viewed as an implicit or indirect extension of credit by the Plans to Prudential which will remain outstanding until such time as Prudential satisfies its obligation by payment of the enhanced return.

Further, in Prudential's view, the proposed enhanced return could give rise to a conflict of interest between Prudential and the Plans that invest in the Accounts in violation of section 406(b)(1) and (b)(2) of the Act. In this regard, the amount of each Account's cumulative total return for the Investment Period will be affected in part by Prudential's exercise of its fiduciary authority, control, and responsibility with respect to the operation and management of the Accounts, including the valuation of assets of the Accounts. Accordingly, it could appear that Prudential has an interest in maximizing the cumulative total return of the Accounts, as determined for the Investment Period, April 1, 1994 through December 31, 1995, thereby reducing the amount of, or entirely eliminating, Prudential's obligation to make the enhanced return payment.

7. With certain limitations, as more fully described below, the amount of enhanced return Prudential proposes to pay to the Plans invested in one or both of the Accounts will be derived by comparing the cumulative total return for the Investment Period reported by a preselected Index with the cumulative total return of PRISA or PRISA II for the same period.

The Index is an index of returns (before deduction of management fees). on real property investments in the United States. The Index is produced in partnership between Russell Real Estate Consulting (a division of the Frank Russell Company, an investment consulting firm) and the National Council of Real Estate Investment Fiduciaries (NCREIF). NCREIF is a non-profit association of institutional real estate investment professionals, including investment managers, plan sponsors, academicians, consultants, appraisers, CPAs, and other service providers who have significant involvement in pension fund real estate investments.

It is represented that all events giving rise to Prudential's payment obligation on the enhanced return will have occurred by December 31, 1995. However, Prudential expects that the information necessary to compare the cumulative total returns of PRISA and PRISA II to that of the Index for the Investment Period, April 1, 1994, through December 31, 1995, will not be available before the end of the second quarter of 1996. It is contemplated that the payments, if any, of enhanced return will be made by Prudential to investors in the Accounts not later than thirty (30) days following the final determination of the amounts owed.

Specifically, the maximum enhanced return shall be equal to the product of (i) one-seventh (1/7th), multiplied by (ii) the difference (but not more than 200 basis points) between the cumulative total return for the entire Investment Period reported by the Index and the cumulative total return of PRISA or PRISA II, prior to reduction for Prudential's management fees, for such entire period, multiplied by (iii) the number of complete calendar quarters that the amounts remain invested in PRISA or PRISA II during the Investment Period.

For example, in the case of an amount that is invested in an Account as of April 1, 1994, and is withdrawn on June 30, 1995, the enhanced return will be equal to the difference between the cumulative total return for such period reported by the Index and the cumulative total return of the Account, prior to reduction for Prudential's management fees, for the same period, but not more than the enhanced return (not in excess of 200 basis points) determined with respect to the entire period April 1, 1994 through December 31, 1995, multiplied by five-sevenths (5/7ths).

---

[2] It is represented that Prudential and its affiliates rely upon the statutory exemption, as set forth in section 408(b)(2) of the Act, for the receipt of fees for investment management services provided with respect to PRISA and PRISA II. The Department, herein, expresses no opinion as to whether the provision of services by Prudential and its affiliates to PRISA and PRISA II and the compensation received therefore satisfy the terms and conditions, as set forth in section 408(b)(2) of the Act.

[3] Prudential represents that, by letter dated March 21, 1995, it was advised that the Department had concluded its investigation, and that no further action was contemplated at that time.

[4] By letter dated April 11, 1995, Prudential was advised that the New Jersey Insurance Department has approved the proposed enhanced return payment, as described herein.

9. Prudential represents that the exemption is administratively feasible in that the proposed transaction is narrowly circumscribed and of limited duration. In this regard, the proposed transaction involves a one-time determination of comparative investment returns based upon a recognized real estate industry index that can be readily reviewed and monitored for compliance in all applicable requirements. In addition, it is represented that the comparative return calculation involves a relatively simple and objective comparison of readily available return information, which can be easily confirmed by the fiduciaries of the Plans invested in the Accounts and by the Department. Further, it is represented that the Plans invested in the Accounts who receive the enhanced return will incur no additional cost or risk in connection with the proposed payment, and that Prudential will bear the cost of the exemption application and of notifying interested persons.

10. It is represented that the exemption is in the interest of the Plans and their participants and beneficiaries in that the Plan will obtain an enhanced rate of return (but not more than 200 basis points) for amounts invested in one or both of the Accounts during all or any portion of the Investment Period, if the cumulative total investment return of such Account for such Investment Period is less than that reported for the Index. In addition, Prudential expects that its commitment to provide the enhanced return will reduce requests from investors in one or both Accounts for withdrawal, and will thereby avoid the negative impact on the performance of such Accounts that would likely result from forced liquidation of the properties in the Accounts in order to obtain the cash necessary to satisfy withdrawal requests.

11. It is represented that the proposed exemption contains safeguards which protect the interests of the Plans and the rights of participants and beneficiaries. In this regard, the decision to invest funds in either or both of the Accounts for all or a portion of the Investment Period has been and will be made by fiduciaries of Plans independent of Prudential. In this regard, disclosure of Prudential's proposal to make enhanced return payments was first made to investors in the Accounts by correspondence, dated April 27, 1994. In addition, it is represented that the investors in the Accounts have been kept apprised of related developments in the Accounts, such as state insurance regulatory approvals and the filing of the exemption application. Further, it is represented that an additional level of independent oversight of the proposed transaction will occur through the review of the operations and returns of the Accounts conducted by interim and permanent Advisory Councils for PRISA and PRISA II.

It is represented that the interim Advisory Councils were created by Prudential to be in place through year-end 1994 or until the transition to the permanent Advisory Councils. The responsibilities of the interim Advisory Councils were: (a) To review and comment upon the composition, structure, responsibilities, frequency of meetings, selection of members, and other procedures to be followed by the permanent Advisory Councils; (b) to review and comment on suggested structural changes to the Accounts, including valuation and appraisal policy, dividend policy, and fees; and (c) prior to appointment of the permanent Advisory Councils, to satisfy all the responsibilities pertaining to the duties of such permanent Advisory Councils, as listed in the paragraph below.

The permanent Advisory Council for each Account will be composed of from seven to eleven (preferably nine) investors in the Accounts or their consultants or other representatives who have in-depth knowledge of real estate investment and management. Members of the Advisory Councils will be elected by investors on an investment weighted basis and will serve for a minimum of two (2) years. It is represented that formal meetings of the Advisory Councils will be held quarterly approximately thirty (30) days following the end of each quarter, with additional meetings to be held at the discretion of the Advisory Councils. It is represented that the Advisory Councils do not have veto authority. The role of the Advisory Councils is to monitor, review, comment, and advise. For each of the Accounts, the responsibilities of the permanent Advisory Council are: (a) To review Account investment strategy and philosophy, including diversification strategy; (b) to review the annual business plan for each Account, including the criteria for acquisitions, dispositions, capital expenditures and budgets, and to review quarterly variations to the business plan; (c) to review property and portfolio leverage strategy; (d) to review PREI's plans for paying out redemption requests; (e) to review data and reports sent to all clients; (f) to review and comment on acquisitions and dispositions; and (g) to make suggestions and to comment on all information presented at quarterly meetings.

It is represented that Prudential will calculate the enhanced return payments and will disclose such calculations in the open forum of the Advisory Councils with full disclosure (through distribution of the minutes of Advisory Council meetings) to all investors in the Accounts. Further, PREI will review the returns for each Account with the Advisory Councils for each Account. It is represented that the comparative return calculation for determining the amount of the enhanced return payments involves a relatively simple and objective comparison of readily available information, which can easily be confirmed by the Advisory Council and the account investors.

With respect to the valuation process, it is represented that all the properties in the Accounts will be individually valued at least once during the Investment Period and thereafter will be appraised by external, independent, qualified MAI appraisers at least annually. In this regard, it is represented that external appraisals are performed as of the last day of a calendar quarter. The current Prudential policy is for properties with market values in excess of $50 million to be externally appraised twice each year and properties with values below such amount to be externally appraised once each calendar year. In addition, it is represented that certain events (e.g., significant property or market changes, or internal adjustment of value over a certain threshold) can trigger additional external valuations.

Prudential proposes to strengthen the independence of the valuation process through the appointment of the Valuation Management Firm and the creation of the Valuation Policy Committee. In addition, Prudential has limited the role of PREI in the valuation process to the provision of property, tenant, and market information and participation on the Valuation Policy Committee.

The Valuation Policy Committee will consist of representatives from the Valuation Management Firm, PREI, the PRISA Advisory Council, and other clients of PREI. The Valuation Policy Committee will be chaired by an MAI appraiser employed by Prudential (the Prudential Valuation Reviewer). It is represented that Phyllis A. Cummins (Ms. Cummins), Vice President and Chief Appraiser of Prudential and a member of the Comptroller's Department, is currently serving as the Prudential Valuation Reviewer.

It is represented that Ms. Cummins is qualified to serve as the Prudential Valuation Reviewer in that she has been employed by Prudential for over twenty (20) years and in that time has had significant experience in valuations, development, assets management, acquisitions, sales, and mortgages of all property types. In addition to being an MAI appraiser since 1983, Ms. Cummins holds the Counselor of Real Estate (CRE), the Certified Property Manager (CPM), and the Certified Shopping Center Manager (CSM) designations. Further, Ms. Cummins is certified in New Jersey as a General Appraiser and licensed as a Broker-Salesperson. Ms. Cummins is a graduate of The Ohio State University and received her MBA from the University of North Florida.

It is represented that the Valuation Policy Committee will meet at least quarterly and set valuation policy, including such items as the minimum qualifications for appraisal firms, fee schedules for such firms, rotation of appraisal firms, and valuation methodology. Prudential represents that it will bear the costs of the Valuation Policy Committee.

Prudential represents that, pursuant to guidelines established by the Valuation Policy Committee, it will retain for a non-renewable fixed term an experienced and qualified, independent third party to serve as the Valuation Management Firm. It is represented that the Valuation Management Firm will report to the Valuation Policy Committee. The Valuation Management Firm will be responsible for: (a) Retaining (and terminating) all appraisal firms which value the properties in the Accounts; (b) reviewing all appraisals generated by such appraisal firms for conformance to certain standards, including those established by the Valuation Policy Committee; and (c) collecting, reviewing, and distributing any information from PREI portfolio managers, asset managers, market intelligence coordinators, and third party property managers needed by such appraisal firms to appraise the properties in the Accounts. It is represented that Price Waterhouse is currently serving as the Valuation Management Firm.

It is represented that the costs of the appraisal firms and the Valuation Management Firm are currently paid by Prudential. However, after significant discussions with the PRISA and PRISA II Advisory Councils and investors in the Accounts, Prudential has proposed a revised fee schedule which includes passing on the costs of third party appraisers and the Valuation Management Firm to the Accounts. Prudential believes that this practice is customary in the industry. A proposal to revise the fee schedule is currently being reviewed by the appropriate state insurance departments. Subject to the necessary regulatory approval, Prudential has notified the investors in the Accounts (as required by contract) that it intends to implement this new fee schedule on March 31, 1997.[5] In the interim, it is represented that investors in the Accounts will be charged the lower of the two schedules until the new schedule goes into effect.

The Prudential Valuation Reviewer will serve as the Valuation Management Firm's contact at Prudential. In this regard, it is anticipated that the Valuation Management Firm will report the values of the properties in the Accounts to the Prudential Valuation Reviewer who will have final approval authority. In addition, the Prudential Valuation Reviewer may order additional external appraisals; or, as necessary, may adjust property values, based on tenant, property, or market information provided by PREI or otherwise made available, in calendar quarters when no independent appraisals have been performed. Prudential anticipates that the Prudential Valuation Reviewer will adjust a value estimate provided by an external appraisal only in rare circumstances and extremely infrequently. In this regard, since April 1, 1994, the Prudential Valuation Reviewer has modified the estimate of value of a property in an Account provided by an external appraiser in only one circumstance and where both the Prudential Valuation Reviewer and the Valuation Management Firm believed the external appraiser's estimate of value was overstated. It is represented that this adjustment in the value of a property was disclosed to the investors in the Account in the PRISA Quarter 1995 Report and in minutes of the May 3, 1995 Advisory Council meeting. It is represented that any such similar occurrences in the future will be disclosed in a like manner. Further, it is represented that no upward adjustment will be made to the value reported by an external appraiser of any property in the Accounts without the Valuation Management Firm's concurrence to such increase in value. It is represented that the Prudential Valuation Reviewer will document any such changes and will report all property values to Prudential's Comptroller, rather than to the PREI business unit.

It is represented that Prudential's Comptroller will be responsible for presenting values on financial statements (after adjusting any property not held in fee for the Account's applicable ownership interest). In addition, Prudential's Comptroller will calculate and present the unit values and returns for the Accounts.

12. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) of the Act because:

(1) The decision to leave funds invested in either or both of the Accounts for all or a portion of the Investment Period has been and will be made by fiduciaries of the Plans independent of Prudential;

(2) The amount of the enhanced return payment with respect to the assets of the Plans that are invested in either or both of the Accounts for only a portion of the Investment Period will be calculated in the same manner as the amount of the enhanced return payment with respect to the assets of the Plans that remain invested in either or both of the Accounts for the entire Investment Period;

(3) The enhanced return will be derived by comparing the cumulative total return for the Investment Period reported by the Index with the cumulative total return of PRISA or PRISA II for the same period;

(4) The Plans will obtain an enhanced rate of return (but not more than 200 basis points) for amounts invested in one or both of the Accounts during all or any portion of the Investment Period, if the cumulative total investment return of such Account for such Investment Period is less than that reported for the Index;

(5) The payments, if any, of enhanced return will be made by Prudential to investors in the Accounts not later than thirty (30) days following the final determination of the amounts owed;

(6) Every property held by the Accounts is individually valued at least once during the Investment Period and thereafter will be valued at least once in each calendar year by an independent qualified appraiser;

(7) Independent oversight of the proposed transaction will occur through

---

[5] Prudential has not requested relief for the institution of the revised fee schedule which proposes to pass on the costs of third party appraisers and the Valuation Management Firm to the Accounts.

the review of the operations and returns of the Accounts conducted by interim and permanent Advisory Councils for PRISA and PRISA II;

(8) The Valuation Policy Committee will meet at least quarterly and set valuation policy for the Accounts;

(9) The Valuation Management Firm will be responsible for retaining (and terminating) all appraisal firms which value the properties in the Accounts; reviewing all appraisals generated by such appraisal firms; and collecting, reviewing, and distributing any information needed by such appraisal firms to appraise the properties in the Accounts;

(10) In connection with the determination of enhanced return payments, no upward adjustment will be made by Prudential to the value reported by an external independent appraiser of any Property in PRISA and PRISA II without the concurrence of the Valuation Management Firm;

(11) The Plans invested in the Accounts who receive the enhanced return will incur no additional cost or risk in connection with the transaction;

(12) The transaction is subject to state insurance regulatory approvals;

(13) The calculation of the enhanced return involves a one-time determination of comparative investment returns based upon a recognized real estate industry index that can be readily reviewed and monitored for compliance in all applicable requirements;

(14) The comparative return calculation involves a relatively simple and objective comparison of readily available return information, which can be easily confirmed by the fiduciaries of the Plans invested in the Accounts and by the Department; and

(15) The Plans will receive the same treatment and proportional payment under the enhanced return as any other investor in PRISA and PRISA II.

Notice to Interested Persons

Those persons who may be interested in the pendency of the proposed exemption include fiduciaries, participants and beneficiaries of the Plans that are invested in one or both of the Accounts. However, it is represented that there are hundreds of thousands of participants in the Plans that invest in one or both of the Accounts. Because of the impracticality of providing notice to all such persons, Prudential proposes to give notice to interested persons by distributing the Notice of Proposed Exemption, as published in the **Federal Register**, together with a supplemental statement in the form set forth in the Department's regulations under 29 C.F.R. 2570.43(b)(2), to the contractholder on behalf of each of the Plans that was invested in PRISA or PRISA II, as of April 1, 1994. It is represented that these contractholders are generally the sponsors of the Plans or the trustees or administrators of the Plans. Distribution of notice will be effected by first-class mail, postage prepaid, within fifteen (15) days of the date of publication of the Notice of Proposed Exemption in the **Federal Register**.

First Hawaiian Bank Located Honolulu, HI

[Application No. D–09877]

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990).[6]

Section I. Exemption for In-Kind Transfer of Assets

If the exemption is granted, the restrictions of section 406(a) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code, shall not apply to the in-kind transfer to any open-end investment company (the Fund or Funds) registered under the Investment Company Act of 1940 (the '40 Act) to which First Hawaiian Bank or any of its affiliates (collectively, the Bank) serves as investment adviser and may provide other services, of the assets of various employee benefit plans (the Plan or Plans) that are held in certain collective investment funds (the CIF or CIFs) maintained by the Bank or otherwise held by the Bank as trustee, investment manager, or in any other capacity as fiduciary on behalf of the Plans, in exchange for shares of such Funds, provided the following conditions are met:

(a) A fiduciary (the Second Fiduciary) who is acting on behalf of each affected Plan and who is independent of and unrelated to the Bank, as defined in paragraph (g) of Section III below, receives advance written notice of the in-kind transfer of assets of the Plans or the CIFs in exchange for shares of the Fund and the disclosures described in paragraph (g) of Section II below.

(b) On the basis of the information described in paragraph (g) of Section II below, the Second Fiduciary authorizes in writing the in-kind transfer of assets of the Plans in exchange for shares of the Funds, the investment of such assets in corresponding portfolios of the Funds, and the fees received by the Bank in connection with its services to the Fund. Such authorization by the Second Fiduciary to be consistent with the responsibilities, obligations, and duties imposed on fiduciaries by Part 4 of Title I of the Act.

(c) No sales commissions are paid by the Plans in connection with the in-kind transfers of asset of the Plans or the CIFs in exchange for shares of the Funds.

(d) All or a pro rata portion of the assets of the Plans held in the CIFs or all or a pro rata portion of the assets of the Plans held by the Bank in any capacities as fiduciary on behalf of such Plans are transferred in-kind to the Funds in exchange for shares of such Funds.

(e) The Plans or the CIFs receive shares of the Funds that have a total net asset value equal in value to the assets of the Plans or the CIFs exchanged for such shares on the date of transfer.

(f) The current market value of the assets of the Plans or the CIFs to be transferred in-kind in exchange for shares is determined in a single valuation performed in the same manner and at the close of business on the same day, using independent sources in accordance with the procedures set forth in Rule 17a–7b (Rule 17a–7) under the '40 Act, as amended from time to time or any successor rule, regulation, or similar pronouncement and the procedures established by the Funds pursuant to Rule 17a–7 for the valuation of such assets. Such procedures must require that all securities for which a current market price cannot be obtained by reference to the last sale price for transactions reported on a recognized securities exchange or NASDAQ be valued based on an average of the highest current independent bid and lowest current independent offer, as of the close of business on the last business day preceding the date of the Plan or CIF transfers determined on the basis of reasonable inquiry from at least three sources that are broker-dealers or pricing services independent of the Bank.

(g) Not later than 30 business days after completion of each in-kind transfer of assets of the Plans or the CIFs in

exchange for shares of the Funds, the Bank sends by regular mail to the Second Fiduciary, who is acting on behalf of each affected Plan and who is independent of and unrelated to the Bank, as defined in paragraph (g) of Section III below, a written confirmation that contains the following information:

(1) The identity of each of the assets that was valued for purposes of the transaction in accordance with Rule 17a–7(b)(4) under the '40 Act;

(2) The price of each of the assets involved in the transaction; and

(3) The identity of each pricing service or market maker consulted in determining the value of such assets; and

(h) No later than 90 days after completion of each in-kind transfer of assets of the Plans or the CIFs in exchange for shares of the Funds, the Bank sends by regular mail to the Second Fiduciary, who is acting on behalf of each affected Plan and who is independent of and unrelated to the Bank, as defined in paragraph (g) of Section III below, a written confirmation that contains the following information:

(1) The number of CIF units held by each affected Plan immediately before the conversion (and the related per unit value and the aggregate dollar value of the units transferred); and

(2) The number of shares in the Funds that are held by each affected Plan following the conversion (and the related per share net asset value and the aggregate dollar value of the shares received).

(i) The conditions set forth in paragraphs (d), (e), (f), (o), (p), (q) and (r) of Section II below are satisfied.

Section II. Exemption for Receipt of Fees From Funds

If the exemption is granted, the restrictions of section 406(a) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(D) through (F) of the Code shall not apply to the proposed receipt of fees by the Bank from the Funds for acting as the investment adviser, custodian, sub-administrator, and other service provider for the Funds in connection with the investment in the Funds by the Plans for which the Bank acts as a fiduciary provided that:

(a) No sales commissions are paid by the Plans in connection with purchases or sales of shares of the Funds and no redemption fees are paid in connection with the sale of such shares by the Plans to the Funds.

(b) The price paid or received by the Plans for shares in the Funds is the net asset value per share, as defined in paragraph (e) of Section III, at the time of the transaction and is the same price which would have been paid or received for the shares by any other investor at that time.

(c) Neither the Bank nor an affiliate, including any officer or director purchases from or sells to any of the Plans shares of any of the Funds.

(d) As to each individual Plan, the combined total of all fees received by the Bank for the provision of services to the Plan, and in connection with the provision of services to any of the Funds in which the Plan may invest, is not in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

(e) The Bank does not receive any fees payable, pursuant to Rule 12b–1 under the '40 Act (the 12b–1 Fees) in connection with the transactions.

(f) The Plans are not sponsored by the Bank.

(g) A Second Fiduciary who is acting on behalf of each Plan and who is independent of and unrelated to the Bank, as defined in paragraph (g) of Section III below, receives in advance of the investment by the Plan in any of the Funds a full and detailed written disclosure of information concerning such Fund (including, but not limited to, a current prospectus for each portfolio of each of the Funds in which such Plan is considering investing and a statement describing the fee structure).

(h) On the basis of the information described in paragraph (g) of this Section II, the Second Fiduciary authorizes in writing the investment of assets of the Plans in shares of the Funds and the fees received by the Bank in connection with its services to the Funds. Such authorization by the Second Fiduciary is consistent with the responsibilities obligations, and duties imposed on fiduciaries by Part 4 of Title I of the Act.

(i) The authorization, described in paragraph (h) of this Section II, is terminable at will by the Second Fiduciary of a Plan, without penalty to such Plan. Such termination will be effected by the Bank selling the shares of the Fund held by the affected Plan within one business day following receipt by the Bank, either by mail, hand delivery, facsimile, or other available means at the option of the Second Fiduciary, of the termination form (the Termination Form), as defined in paragraph (i) of Section III below, or any other written notice of termination; provided that if, due to circumstances beyond the control of the Bank, the sale cannot be executed within one business day, the Bank shall have one additional business day to complete such redemption.

(j) Plans do not pay any Plan-level investment management fees, investment advisory fees, or similar fees to the Bank with respect to any of the assets of such Plans which are invested in shares of any of the Funds. This condition does not preclude the payment of investment advisory fees or similar fees by the Funds to the Bank under the terms of an investment advisory agreement adopted in accordance with section 15 of the '40 Act or other agreement between the Bank and the Funds.

(k) In the event of an increase in the rate of any fees paid by the Funds to the Bank regarding any investment management services, investment advisory services, or fees for similar services that the Bank provides to the Funds over an existing rate for such services that had been authorized by a Second Fiduciary, in accordance with paragraph (h) of this Section II, the Bank will, at least 30 days in advance of the implementation of such increase, provide a written notice (which may take the form of a proxy statement, letter, or similar communication that is separate from the prospectus of the Fund and which explains the nature and amount of the increase in fees) to the Second Fiduciary of each of the Plans invested in a Fund which is increasing such fees. Such notice shall be accompanied by the Termination Form, as defined in paragraph (i) of Section III below.

(l) In the event of an addition of a Secondary Service, as defined in paragraph (h) of Section III below, provided by the Bank to the Fund for which a fee is charged or an increase in the rate of any fee paid by the Funds to the Bank for any Secondary Service, as defined in paragraph (h) of Section III below, that results either from an increase in the rate of such fee or from the decrease in the number or kind of services performed by the Bank for such fee over an existing rate for such Secondary Service which had been authorized by the Second Fiduciary of a Plan, in accordance with paragraph (h) of this Section II, the Bank will at least 30 days in advance of the implementation of such additional service for which a fee is charged or fee increase, provide a written notice (which may take the form of a proxy statement, letter, or similar communication that is separate from the prospectus of the Fund and which explains the nature and amount of the additional service for which a fee is charged or the nature and amount of the increase in fees) to the Second Fiduciary of each of the Plans invested in a Fund which is adding a service or increasing fees. Such notice shall be accompanied by the Termination Form, as defined in paragraph (i) of Section III below.

---

[6] For purposes of this exemption, reference to provisions of Title I of the Act, unless otherwise specified, refer also to corresponding provisions of the Code.

(m) The Second Fiduciary is supplied with a Termination Form at the times specified in paragraphs (k), (l), and (n) of this Section II, which expressly provides an election to terminate the authorization, described above in paragraph (h) of this Section II, with instructions regarding the use of such Termination Form including statements that:

(1) The authorization is terminable at will by any of the Plans, without penalty to such Plans. Such termination will be effected by the Bank redeeming shares of the Fund held by the Plans requesting termination within one business day following receipt by the Bank, either by mail, hand delivery, facsimile, or other available means at the option of the Second Fiduciary, of the Termination Form or any other written notice of termination; provided that if, due to circumstances beyond the control of the Bank, the redemption of shares of such Plans cannot be executed within one business day, the Bank shall have one additional business day to complete such redemption; and

(2) Failure by the Second Fiduciary to return the Termination Form on behalf of a Plan will be deemed to be an approval of the additional Secondary Service for which a fee is charged or increase in the rate of any fees, if such Termination Form is supplied pursuant to paragraphs (k) and (l) of this Section II, and will result in the continuation of the authorization, as described in paragraph (h) of this Section II, of the Bank to engage in the transactions on behalf of such Plan.

(n) The Second Fiduciary is supplied with a Termination Form, annually during the first quarter of each calendar year, beginning with the first quarter of the calendar year that begins after the date the grant of this proposed exemption is published in the **Federal Register** and continuing for each calendar year thereafter; provided that the Termination Form need not be supplied to the Second Fiduciary, pursuant to paragraph (n) of this Section II, sooner than six months after such Termination Form is supplied pursuant to paragraphs (k) and (l) of this Section II, except to the extent required by said paragraphs (k) and (l) of this Section II to disclose an additional Secondary Service for which a fee is charged or an increase in fees.

(o)(1) With respect to each of the Funds in which a Plan invests, the Bank will provide the Second Fiduciary of such Plan:

(A) At least annually with a copy of an updated prospectus of such Fund;

(B) Upon the request of such Second Fiduciary, with a report or statement (which may take the form of the most recent financial report, the current statement of additional information, or some other written statement) which contains a description of all fees paid by the Fund to the Bank; and

(2) With respect to each of the Funds in which a Plan invests, in the event such Fund places brokerage transactions with the Bank, the Bank will provide the Second Fiduciary of such Plan at least annually with a statement specifying:

(A) The total, expressed in dollars, brokerage commissions of each Fund's investment portfolio that are paid to the Bank by such Fund;

(B) The total, expressed in dollars, of brokerage commissions of each Fund's investment portfolio that are paid by such Fund to brokerage firms unrelated to the Bank;

(C) The average brokerage commissions per share, expressed as cents per share, paid to the Bank by each portfolio of a Fund; and

(D) The average brokerage commissions per share, expressed as cents per share, paid by each portfolio of a Fund to brokerage firms unrelated to the Bank.

(p) All dealings between the Plans and any of the Funds are on a basis no less favorable to such Plans than dealings between the Funds and other shareholders holding the same class of shares as the Plans.

(q) The Bank maintains for a period of 6 years the records necessary to enable the persons, as described in paragraph (r) of Section II below, to determine whether the conditions of this proposed exemption have been met, except that:

(1) A prohibited transaction will not be considered to have occurred if, due to circumstances beyond the control of the Bank, the records are lost or destroyed prior to the end of the 6 year period; and

(2) No party in interest, other than the Bank, shall be subject to the civil penalty that may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if the records are not maintained, or are not available for examination as required by paragraph (r) of Section II below;

(r)(1) Except as provided in paragraph (r)(2) of this Section II and notwithstanding any provisions of subsection (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (q) of Section II above are unconditionally available at their customary location for examination during normal business hours by—

(i) Any duly authorized employee or representative of the Department, the Internal Revenue Service (the Service) or the Securities and Exchange Commission (the SEC);

(ii) Any fiduciary of each of the Plans who has authority to acquire or dispose of shares of any of the Funds owned by such a Plan, or any duly authorized employee or representative of such fiduciary; and

(iii) Any participant or beneficiary of the Plans or duly authorized employee or representative of such participant or beneficiary;

(2) None of the persons described in paragraph (r)(1)(ii) and (r)(1)(iii) of Section II shall be authorized to examine trade secrets of the Bank, or commercial or financial information which is privileged or confidential.

Section III. Definitions

For purposes of this proposed exemption,

(a) The term "Bank" means First Hawaiian Bank and any affiliate of the Bank, as defined in paragraph (b) of this Section III.

(b) An "affiliate" of a person includes:

(1) Any person directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control with the person.

(2) Any officer, director, employee, relative, or partner in any such person; and

(3) Any corporation or partnership of which such person is an officer, director, partner, or employee.

(c) The term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

(d) The term "Fund or Funds" means any diversified open-end investment company or companies registered under the '40 Act for which the Bank serves as investment adviser, and may also provide custodial or other services as approved by such Funds.

(e) The term "net asset value" means the amount for purposes of pricing all purchases and sales calculated by dividing the value of all securities, determined by a method as set forth in a Fund's prospectus and statement of additional information, and other assets belonging to each of the portfolios in such Fund, less the liabilities charged to each portfolio, by the number of outstanding shares.

(f) The term "relative" means a "relative" as that term is defined in

section 3(15) of the Act (or a "member of the family" as that term is defined in section 4975(e)(6) of the Code), or a brother, a sister, or a spouse of a brother or a sister.

(g) The term "Second Fiduciary" means a fiduciary of a plan who is independent of and unrelated to the Bank. For purposes of this exemption, the Second Fiduciary will not be deemed to be independent of and unrelated to the Bank if:

(1) Such Second Fiduciary directly or indirectly controls, is controlled by, or is under common control with the Bank;

(2) Such Second Fiduciary, or any officer, director, partner, employee, or relative of such Second Fiduciary is an officer, director, partner, or employee of the Bank (or is a relative of such persons);

(3) Such Second Fiduciary directly or indirectly receives any compensation or other consideration for his or her own personal account in connection with any transaction described in this proposed exemption.

If an officer, director, partner, or employee of the Bank (or a relative of such persons), is a director of such Second Fiduciary, and if he or she abstains from participation in (i) the choice of the Plan's investment manager/adviser, (ii) the approval of any purchase or redemption by the Plan of shares of the Funds, and (iii) the approval of any change of fees charged to or paid by the Plan, in connection with any of the transactions described in Sections I and II above, then paragraph (g)(2) of Section III above, shall not apply.

(h) The term "Secondary Service" means a service, other than an investment management, investment advisory, or similar service, which is provided by the Bank to the Funds, including but not limited to custodial, accounting, brokerage, administrative, or any other service.

(i) The term "Termination Form" means the form supplied to the Second Fiduciary, at the times specified in paragraphs (k), (l), and (n) of Section II above, which expressly provides an election to the Second Fiduciary to terminate on behalf of the Plans the authorization, described in paragraph (h) of Section II. Such Termination Form may be used at will by the Second Fiduciary to terminate such authorization without penalty to the Plans and to notify the Bank in writing to effect such termination by redeeming the shares of the Fund held by the Plans requesting termination within one business day following receipt by the Bank, either by mail, hand delivery, facsimile, or other available means at the option of the Second Fiduciary, of written notice of such request for termination; provided that if, due to circumstances beyond the control of the Bank, the redemption cannot be executed within one business day, the Bank shall have one additional business day to complete such redemption.

Summary of Facts and Representations

Description of the Parties

1. The parties or entities that are involved in the subject transactions are described as follows:

a. *The Bank* is state-chartered bank that is incorporated under the laws of Hawaii and maintains its principal office at 1132 Bishop Street, Honolulu, Hawaii. The Bank is a wholly-owned subsidiary of First Hawaiian, Inc., a Delaware holding company.

Over the past seventy years, the Bank and its corporate predecessors have provided asset management services to several types of accounts including personal trusts, guardianship and probate accounts, corporate assets portfolio accounts and employee benefit plans including HR–10 Plans. As of May 1, 1994, the Bank had total assets under management of approximately $1.5 billion. The Bank serves as trustee with respect to the CIFs and as an investment adviser to the Fund portfolios described herein.

b. *The Plans* consist of retirement plans qualified under section 401(a) of the Code with respect to which the Bank serves or will serve as a trustee or investment fiduciary and that constitute "pension plans" as defined in section 3(2) of the Act and section 4975(e)(1) of the Code. The Plans do not include any plans that are sponsored by the Bank.[7]

c. *The CIFs* consist of separate investment portfolios of the First Hawaiian Bank Collective Investment Trust for Employee Benefit Trusts (the Collective Investment Trust) or similar investment trusts that may be established and maintained by the Bank. The Bank serves as trustee of the Collective Investment Trust.

As of June 30, 1993, the aggregate fair market value of the current CIFs maintained by the Bank was approximately $165.3 million. Participation in the CIFs is limited to Plans and public retirement funds for which the Bank acts as trustee or co-trustee or agent for the trustee or trustees of such Plan or CIF.

The CIFs that will be involved initially in the subject transactions are the Equity Fund, the HR–10 Equity Fund and the Pooled Fixed Income Fund.[8] These CIFs will be terminated immediately following the in-kind transfers.[9]

d. *The Funds* are separate portfolios of open-end investment companies registered under the '40 Act. The Funds currently consist of the Bishop Street Funds, a Massachusetts business trust that was established [illegible] 25, 1994. The Bishop Street [illegible] constitute a no-load, open-end management investment company with four portfolios in existence. The existing Funds include the Equity Fund (corresponding to the Pooled Equity Fund and the HR–10 Equity Fund of the Collective Investment Trust) and the High-Grade Income Fund (corresponding to the Fixed Income Fund of the Collective Investment Trust).

The Bishop Street Funds will issue two classes of shares. Institutional Class A shares will be offered primarily to agency, fiduciary, custodial and advisory clients of the Bank. Retail Class B shares will be offered primarily to individuals. The Bishop Street Funds will be offered and sold exclusively through the use of prospectuses and other materials and will be offered and sold in full compliance with regulations of the SEC.

The Bank will serve as the investment adviser to each of the Bishop Street Funds. As the investment adviser, the Bank will make investment decisions with respect to the assets of each Fund and continuously review, supervise and administer each Fund's investment program. For investment advisory services rendered to the Funds, the Bank will receive an investment advisory fee. The Bishop Street Funds will pay separate fees for services provided to the Funds by the transfer agent, administrator and custodian, all of whom will not be affiliated with the Bank. Neither the Bank nor its affiliates will receive any 12b–1 fees from the Funds.

Description of the Transactions

2. Because the Bank recognizes that (a) in-kind transfers to Funds that the Bank services or advises of all or a *pro rata* portion of Plan assets in the CIFs or all or a *pro rata portion of Plan assets*

---

[7] The Department herein is not proposing relief for transactions afforded relief by Section 404(c) of the Act.

[8] The Pooled Equity Fund and the HR–10 Equity Fund principally invest in equity securities. The Pooled Fixed Income Fund invests primarily in fixed income securities or other tangible or intangible property or interests in either real or personal property.

[9] A fourth CIF, the Pooled Short-Term Fixed Income Fund, will be terminated at or prior to the time that the other CIFs are converted. At present, the only investor in this CIF is the Pooled Fixed Income Fund.

that the Bank otherwise manages, and (b) the approval process for additional services for which a fee is charged and fee increases by the Bank for these services may be outside the scope of Prohibited Transaction Exemption 77–4 (42 FR 18732, April 8, 1977), the Bank has requested relief for the transactions described in Sections I and II. Each of these transactions is discussed more fully herein. The proposed exemption is conditioned on the satisfaction of certain requirements and compliance with various general conditions which are also discussed below. It is the Bank's express intention that the description of these transactions and the conditions of the requested exemption with respect to such transactions will be applicable uniformly to the current Funds and to any of the other Funds for which the Bank serves as the investment advisor and in which the Plans invest.

In-Kind Transfers to Funds

3. The Bank has maintained CIFs in which the Plans have invested in accordance with requirements under Hawaiian banking law that apply to CIFs. The Bank has decided to terminate all current CIFs and to offer to the Plans participating in such CIFs appropriate interests in certain Funds as alternative investments. Because interests in CIFs generally must be liquidated or withdrawn to effect distributions, the Bank believes that the interests of the Plans invested in CIFs would be better served by investment in shares of the Funds which can be distributed in-kind. Also, the Bank believes that the Funds offer the Plans numerous advantages as pooled investment vehicles. In this regard, the Plans, as shareholders of a Fund, have the opportunity to exercise voting and other shareholder rights.

The Plans, as shareholders of the Funds, as mandated by the SEC, periodically receive certain disclosures concerning the Funds: (a) A copy of the prospectus which is updated annually; (b) an annual report containing audited financial statements of the Funds and information regarding such Funds' performance (unless such performance information is included in the prospectus of such Funds); and (c) a semi-annual report containing unaudited financial statements. In addition, at the option of the Funds, the Plans may receive other pertinent information.

With respect to the Plans, the Bank reports all transactions in shares of the Funds in periodic account statements provided the Second Fiduciary of each of the Plans. Further, the Bank maintains that the net asset value of the portfolios of the Funds can be monitored daily from information available in newspapers of general circulation.

In order to avoid the potentially large brokerage expenses that would otherwise be incurred, the Bank proposes that from time to time it may be appropriate for an individual Plan for which the Bank serves as a fiduciary to transfer all or a *pro rata* share of its in-kind assets to any of the Funds in exchange for shares of such Funds. In this regard, for example, in the case of an in-kind exchange between an individual Plan whose portfolio consists of common stock, money market securities and real estate, and a Fund that, under its investment policy, invests only in common stock and money market securities, the exchange would involve all or a *pro rata* share of the common stock and money market securities held by the Plan, if such stock and securities are eligible for purchase by the Fund, and would not involve the transfer or exchange of the real estate holdings of such Plan. A Fund's eligible investments are set forth in its prospectus. No brokerage commission or other fees or expenses (other than customary transfer charges paid to parties other than the Bank or its affiliates) will be charged to the Plans or the CIFs in connection with the in-kind transfers of assets into the Funds and the acquisition of shares of the Funds by the Plans or the CIFs. Thus, the Bank has requested prospective relief for transactions which would involve: (a) The in-kind transfer by the CIFs of all or a *pro rata* portion of the assets of any of the Plans held in such CIFs to the Funds in exchange for shares of the Fund which subsequently are distributed to the Plans; or (b) the in-kind transfer of all or a *pro rata* portion of the assets of any of the Plans held by the Bank in any capacity as fiduciary on behalf of such Plans to the Funds in exchange for shares of such Funds; provided that conditions described in Section I above are satisfied.

The Bank maintains that the in-kind transfers of assets in exchange for shares of the Funds are ministerial transactions performed in accordance with pre-established objective procedures which are approved by the board of trustees of each Fund. Such procedures require that assets transferred to a Fund: (a) Are consistent with the investment objectives, policies, and restrictions of the corresponding portfolios of such Fund, (b) satisfy the applicable requirements of the '40 Act and the Code, and (c) have a readily ascertainable market value. In addition, any assets that are transferred will be liquid and will not be subject to restrictions on resale. Assets which do not meet these requirements will be sold in the open market through an unaffiliated brokerage firm prior to any transfer in-kind. Further, prior to entering into an in-kind transfer, each affected Plan receives certain disclosures from the Bank and approves such transaction in writing.

Valuation of assets transferred in-kind to the Funds will be established by reference to independent sources. In this regard, for purposes of the transaction, it is represented that all assets transferred in-kind are valued in accordance with the valuation procedures described in Rule 17a–7 under the '40 Act, as amended from time to time or any successor rule, regulation, or similar pronouncement and the procedures established by the Funds pursuant to Rule 17a–7 for the valuation of such assets. Such procedures must require that all securities for which a current market price cannot be obtained by reference to the last sale price for transactions reported on a recognized securities exchange or NASDAQ be valued based on an average of the highest current independent bid and lowest current independent offer, as of the close of business on the last business day preceding the date of the Plan or CIF transfers determined on the basis of reasonable inquiry from at least three sources that are broker-dealers or pricing services independent of the Bank.

Further, the Bank represents that within 30 days of the completion of a transfer in-kind, it will provide to Plans written confirmation of the identity of each security valued under Rule 17a–7(b)(4), the price of each security, and the identity of each pricing service or market maker consulted in determining the value of the assets transferred. The securities subject to valuation under Rule 17(a)–7(b)(4) include all securities other than "reported securities," as the term is defined in Rule 11Aa3–1 under the Securities Exchange Act of 1934 (the '34 Act), or those quoted on the NASDAQ system or for which the principal market is an exchange.

The value of the assets transferred in-kind will be equal to the aggregate value of the corresponding portfolios shares of the Fund at the close of business on the date of the transaction. In this regard, it is represented that for all conversion transactions that occur after the date of this proposed exemption, the Bank, no later than 90 days after completion of each in-kind transfer of assets of the Plans or the CIFs in exchange for shares of the Funds, will mail to the Second Fiduciary a written confirmation of the number of CIF units held by each affected Plan immediately before the conversion (and the related per unit value and the aggregate dollar value of the units transferred), and the number of shares in the Funds that are held by each affected Plan following the conversion (and the related per share net asset value and the aggregate dollar value of the shares received).

The Initial Exemption Transactions

4. The Bank has requested prospective exemptive relief, for the in-kind transfer to the Bishop Street Funds. At the time of such in-kind transfer, all of the assets of the three CIFs described above, which are maintained by the Bank and in which the Plans hold interests, will be transferred to the Bishop Street Funds which have investment objectives and policies substantially identical to those of the CIFs. At the same time, the three CIFs will be terminated and the assets of each, then consisting of shares in portfolios of the Bishop Street Funds, will be distributed in-kind to the Plans participating in such CIFs based on each Plan's *pro rata* share of the assets of the CIFs on the date of the transaction.

The Bank will provide to each affected Plan disclosures that announce the termination of the CIFs, summarize the transaction and otherwise comply with provisions of Section I of the exemption. Based on these disclosures, the Second Fiduciary from each affected Plan will approve in writing the transfer of the CIFs' assets to the corresponding portfolios of the Bishop Street Funds in exchange for shares of the Bishop Street Funds, and the receipt by the Bank of fees for services to the Bishop Street Funds. The assets of Plans that do not approve investment in the Bishop Street Funds will be withdrawn from the CIFs and held or invested in appropriate alternative investments in accordance with the terms of such Plans.

Prior to the transaction, the assets of the three CIFs will be reviewed to confirm that such are appropriate investments for the corresponding portfolios of the Bishop Street Funds into which such assets will be transferred. If any of the assets of the three CIFs are not appropriate for the Bishop Street Funds, the Bank intends to sell such assets in the open market through an unaffiliated brokerage firm prior to the transfer.

The assets transferred by the three CIFs to the Bishop Street Funds will consist entirely of cash and marketable securities. For purposes of the transfer in-kind, the value of the securities in each of the three CIFs will be determined based on market values as of the close of business on the last business date prior to the transfer (the CIF Valuation Date). The values will be determined in a single valuation using the valuation procedures described in Rule 17a–7 under the '40 Act. In this regard, the "current market price" for specific types of CIF securities involved in the transaction will be determined as follows:

a. If the security is a "reported security" as the term is defined in Rule 11Aa3–1 under the 1934 Act, the last sale price with respect to such security reported in the consolidated transaction reporting system (the Consolidated System) for the CIF Valuation Date; or if there are no reported transactions in the Consolidated System that day, the average of the highest independent bid and the lowest independent offer for such security (reported pursuant to Rule 11Ac1–1 under the '34 Act), as of the close of business on the CIF Valuation Date; or

b. If the security is not a reported security, and the principal market for such security is an exchange, then the last sale on such exchange on the CIF Valuation Date; or if there is no reported transaction on such exchange that day, the average of the highest independent bid and lowest independent offer on such exchange as of the close of business on the CIF Valuation Date; or

c. If the security is not a reported security and is quoted in the NASDAQ system, then the average of the highest independent bid and lowest independent offer reported on Level 1 of NASDAQ as of the close of business on the CIF Valuation Date; or

d. For all other securities, the average of the highest independent bid and lowest independent offer as of the close of business on the CIF Valuation Date, determined on the basis of reasonable inquiry. For securities in this category, the Bank intends to obtain quotations from at least three sources that are either broker-dealers or pricing services independent of and unrelated to the Bank and, where more than one valid quotation is available, use the average of the quotations to value the securities, in conformance with interpretations by the SEC and practice under Rule 17a–7.

The securities received by the corresponding portfolios of the Bishop Street Funds will be valued by such portfolio for purposes of the transfer in the same manner and on the same day as such securities will be valued by the CIFs. The per share value of the shares of each portfolio of the Bishop Street Funds issued to the CIFs will be based on the corresponding portfolio's then current net asset value. As a result of the proposed procedure, the Bank expects that the aggregate value of the shares of the corresponding portfolio of the Bishop Street Funds issued to the CIFs to be equal to the value of the assets (cash and marketable securities) transferred to such portfolio as of the opening of business on next business day following the CIF Valuation Date. The Bank also expects the value of a Plan's investment in shares of a corresponding portfolio of the Bishop Street Funds as of the opening of business on the date of the transaction will be equal to the value of such Plan's investment in the CIF as of the close of business on the last business day prior to the transaction.

Not later than 30 business days after completion of the transaction, the Bank will send by regular mail a written confirmation of the transaction to each affected Plan. Such confirmation will contain: (a) The identity of each security that is valued in accordance with Rule 17a7(b)(4), as described above; (b) the price of each such security for purposes of the transaction; and (c) the identity of each pricing service or market maker consulted in determining the value of such securities. In accordance with the conditions under Section I of the proposed exemption, similar procedures will occur upon any future in-kind exchanges between CIFs maintained by the Bank or Plans, and the Funds.

Receipt of Fees From Funds

5. Under certain conditions, PTE 77–4 permits the Bank to receive fees from the Funds under either of two circumstances: (a) Where a Plan does not pay any investment management, investment advisory, or similar fees with respect to the assets of such Plan invested in shares of a Fund for the entire period of such investment; or (b) where a Plan pays investment management, investment advisory, or similar fees to the Bank based on the total assets of such Plan from which a credit has been subtracted representing such Plan's *pro rata* share of such investment advisory fees paid to the Bank by the Fund. As such, it is represented that there are two levels of fees—those fees which the Bank charges to the Plans for serving as trustee with investment discretion or as investment manager (the Plan-level fees); and those fees the Bank charges to the Funds (the Fund-level fees) for serving as investment advisor, custodian, or service provider.

Plan-level investment management, investment advisory, or fees for similar services provided by the Bank are currently charged in the form of a single asset-based investment management fee. There is also a Plan-level trustee fee for basic administrative services provided by the Bank as well as other specific service fees, such as a cash "sweep" fee. Currently, the annual investment management fee for assets invested in the Pooled Equity Fund and the HR–10 Equity Fund is 0.60 percent of assets under management, based on the daily net asset value of the fund. The fee for assets invested in the Pooled Fixed Income Fund is 0.40 percent of assets under management, based on the daily net asset value of the fund. Plan-level fees are subject to annual minimums for administration and management expressed as flat dollar amounts and administrative fees are subject to the application of certain "break points." In addition to the Plan-level fees for investment management, investment advisory, or similar services, a one-time fee (also a flat dollar amount) may be charged in connection with the establishment of an account for a Plan, and separate transaction fees may be charged for various administrative transactions, such as for example, a participant loan. Depending on the terms governing documents of the Plan, Plan-level fees are paid to the Bank either by the sponsor of the Plan or from the assets of the Plan. Plan-level fees for investment management, investment advisory or similar investment services will terminate immediately after the execution of the subject transactions described herein.

As mentioned above, the Bank may receive Fund-level fees. Such Fund-level fees can be divided into: (a) Fees paid to the Bank by a Fund for investment management, investment advisory, or similar services provided to such Fund, and (b) fees paid to the Bank for administrative, custodial, transfer, accounting, and other Secondary Services provided either to such Fund or to the distributor of shares of such Funds and its affiliates. The Bank is currently not paid any fees in this category from the Bishop Street Funds. The current fee arrangements between the Bank and the Bishop Street Funds provide for the Bank to receive fees from the Bishop Street Funds only for acting as investment adviser. This compensation paid to the Bank for investment advisory services is in accordance with agreements between the Bishop Street Funds and the Bank. In this regard, it is represented that the Bishop Street Funds' Trustees and the shareholders of the Bishop Street Funds approve the compensation that the Bank receives from the Bishop Street Funds. Also, the Bishop Street Funds' Trustees approve any changes in the compensation paid to the Bank for services rendered to the Bishop Street Funds.

With respect to Plans managed by the Bank that are invested in the Funds, although such Plans will no longer pay a Plan-level investment management fee to the Bank, a Plan-level fee will continue to be charged to the Plans for basic administrative services not including investment management.[10] Such administrative services would include, among others, the Bank's acting as custodian of the assets of a Plan, maintaining the records of a Plan, preparing periodic reports concerning the status of the Plan and its assets, and accounting for contributions, benefit distributions, and other receipts and disbursements. These functions performed by the Bank on the Plan-level are separate and distinct from those performed on the Fund-level by the Bank.

The Bank will continue to receive Plan-level compensation from the Plans for investment management services provided with respect to assets of the Plans *not* invested in shares of any of the Funds. Since the Plan-level investment management fee for Plans investing in the Funds will terminate, there will be no credit to the Plans their *pro rata* share of the investment advisory fees paid at the Fund-level. Instead, the only compensation received by the Bank for investment advisory services will be that which is paid by the Funds to the Bank for such services rendered to such Funds. In addition, the Bank will retain fees for providing Secondary Services to the Funds.

The Bank believes that this proposed fee arrangement complies with PTE 77–4. However, there is one difference from PTE 77–4 requested by the Bank for which an exemption is required. In this regard, one of the requirements of PTE 77–4 has been that any change in any of the rates of fees would require prior written approval by the Second Fiduciary of the Plans participating in the Funds. The applicant maintains that where many Plans participate in a Fund, the addition of a service or any good faith increase in fees could not be implemented until written approval of such change is obtained from every Second Fiduciary. The Bank proposes an alternative which the Bank believes provides the basic safeguards for the Plans and is more efficient, cost effective, and administratively feasible than those contained in PTE 77–4.

In the event of an increase in the rate of any investment management fees, investment advisory fees, or similar fees, the addition of a Secondary Service for which a fee is charged, or an increase in the fees for Secondary Services paid by the Funds to the Bank over an existing rate that had been authorized by the Second Fiduciary, the Bank will provide, at least 30 days in advance of the implementation of such additional service or fee increase, to the Second Fiduciary of the Plans invested in such Fund a written notice of such additional service or fee increase, (which may take the form of a proxy statement, letter, or similar communication that is separate from the prospectus of the Fund and which explains the nature and amount of the additional service or the nature and amount of the increase in fees). In this regard, such increase in fees for Secondary Services can result either from an increase in the rate of such fee or from the decrease in the number or kind of services performed by the Bank for such fee over that which had been authorized by the Second Fiduciary of a Plan. The Bank believes that notice provided in this way will give the Second Fiduciary of each of the Plans adequate opportunity to decide whether or not to continue the authorization of a Plan's investment in any of the portfolios of the Funds in light of the increase in investment management fees, investment advisory fees, or similar fees, the addition of a Secondary Service for which a fee is charged, or the increase in fees for any Secondary Services. In addition, the Bank represents that such fee increase will be disclosed to the Second Fiduciaries in an amendment of or supplement to the Funds' prospectus or in the Funds' statement of additional information, to the extent necessary to comply with SEC disclosure requirements.[11]

---

[10] The fact that certain transactions and fee arrangements are the subject of an administrative exemption does not relieve the fiduciaries of the Plans from the general fiduciary responsibility provisions of section 404 of the Act. Thus, the Department cautions the fiduciaries of the Plans investing in the Funds that they have an ongoing duty under section 404 of the Act to monitor the services provided to the Plans to assure that the fees paid by the Plans for such services are reasonable in relation to the value of the services provided. Such responsibilities would include determinations that the services provided are not duplicative and that the fees are reasonable in light of the level of services provided.

[11] An increase in the amount of a fee for an existing Secondary Service (other than through an increase in the value of the underlying assets in the Funds) or the imposition of a fee for a newly-established Secondary Service shall be considered an increase in the rate of such Secondary Fee. However, in the event a Secondary Fee has already been described in writing to the Second Fiduciary and the Second Fiduciary has provided authorization for the amount of such Secondary Fee, and such fee was waived, no further action by the Bank would be required in order for the Bank to receive such fee at a later time. Thus, for example, no further disclosure would be necessary if the Bank had received authorization for a fee for custodial services from Plan investors and subsequently determined to waive the fee for a period of time in order to attract new investors but later charged the fee. However, reinstituting the fee at an amount greater than previously disclosed would necessitate the Bank providing notice of the fee increase and a Termination Form.

Authorization Requirements for the Second Fiduciary

6. The written notice of an additional service for which a fee is charged or a fee increase, as described in Representation 5, will be accompanied by a Termination Form, as defined in paragraph (i) of Section III, and by instructions on the use of such form, as described in paragraph (l) of Section II, which expressly provide an election to the Second Fiduciaries to terminate at will any prior authorizations without penalty to the Plans. The Second Fiduciary will be supplied with a Termination Form annually during the first quarter of each calendar year, beginning with the first quarter of the calendar year that begins after the date the grant of this proposed exemption is published in the **Federal Register** and continuing for each calendar year thereafter, regardless of whether there have been any changes in the fees payable to the Bank or changes in other matters in connection with services rendered to the Funds. However, if the Termination Form has been provided to the Second Fiduciary in the event of an increase in the rate of any investment management fees, investment advisory fees, or similar fees, an addition of a Secondary Service for which a fee is charged, or an increase in any fees for Secondary Services paid by the Fund to the Bank, then such Termination Form need not be provided again to the Second Fiduciary until at least six months have elapsed, unless such Termination Form is required to be sent sooner as a result of another increase in any investment management fees, investment advisory fees, or similar fees, the addition of a Secondary Service for which a fee is charged, or an increase in any fees for Secondary Services.

The Termination Form will contain instructions regarding its use which will state expressly that the authorization is terminable at will by a Second Fiduciary, without penalty to any Plan, and that failure to return the form will be deemed to be an approval of the additional Secondary Service or the increase in the rate of any fees and will result in the continuation of all authorizations previously given by such Second Fiduciary. Termination by any Plan of authorization to invest in the Funds will be effected by the Bank redeeming the shares of the Fund held by the affected Plan by the close of business on the day following receipt by the Bank, either by mail, hand delivery, facsimile, or other available means at the option of the Second Fiduciary, of the Termination Form or any other written notice of termination. If, due to circumstances beyond the control of the Bank, the redemption cannot be executed within one business day, the Bank shall have one additional business day to complete such redemption.

The rates paid by each of the portfolios of the Funds to the Bank for services rendered may differ depending on the fee schedule for each portfolio and on the daily net assets in each portfolio. The investment advisory fees paid to the Bank by the Funds will be based on the different fee rates of each of the portfolios into which the assets of the Plans are allocated. For example, for services provided to the Equity Fund, the Bank receives from the Bishop Street Funds an annual fee of 0.40 percent based on the Fund's average daily net assets. For services provided to the High-Grade Income Fund, the Bank receives from the Bishop Street Funds an annual fee of 0.25 percent, based on the Fund's average daily net assets. The Bank proposes to allocate the assets of the Plans among the portfolios offered of the Bishop Street Funds and/or among any of the Funds under the terms of this proposed exemption.

The impact of the change in fee structures resulting from the exemptive transactions on the aggregate fees received by the Bank is difficult to determine, according to the applicant, because various factors and variables are unique to each Plan. These factors include the size of the Plan, the extent to which Plan assets are invested in the Funds, usage by the Plans of separate services provided by the Bank and the application of certain "break points" in the schedule of Plan-level fees. Further, the Bank notes that Fund size, the identity of the particular investment portfolio of the Fund into which the Plan assets are allocated and voluntary waivers by the Bank of Fund-level fees are likely to be different in each situation and may affect the aggregate amount of fees received by the Bank. In this regard, the Bank believes that, as to each individual Plan, the combined total of all Plan-level and Fund-level fees received by it for the provision of services to the Plans and to the Funds, respectively, is not in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

Conditions for Exemption

7. If granted, this proposed exemption will be subject to the satisfaction of certain general conditions that will further protect the interests of the Plans. For example, the proposed transactions are subject to the prior authorization of a Second Fiduciary, acting on behalf of each of the Plans, who has been provided with full written disclosure by the Bank. The Second Fiduciary will generally be the administrator, sponsor, or a committee appointed by the sponsor to act as a named fiduciary for a Plan.

With respect to disclosure, the Second Fiduciary of such Plan will receive advance written notice of the in-kind transfer of assets of the CIFs and full written disclosure of information concerning the Funds (including a current prospectus for each of the Funds and a statement describing the fee structure).

On the basis of the information disclosed, the Second Fiduciary will authorize in writing the investment of assets of a Plan in shares of the Funds in connection with the transactions set forth herein and the compensation received by the Bank in connection with its services to the Funds. Written authorization will extend to only those investment portfolios of the Funds with respect to which the Plan has received the written disclosures referred to above and which are specifically mentioned in such disclosure described above. Having obtained the authorization of the Second Fiduciary, the Bank will invest the assets of a Plan among the portfolios and in the manner covered by the authorization, subject to satisfaction of the other terms and conditions of this proposed exemption. However, the Bank will not invest assets of a Plan in any portfolio not specifically mentioned in the written disclosure and authorization described above. For example, if the written authorization of the Second Fiduciary covered only one of the portfolios then existing, the Bank could only invest the assets of such Plans in that one portfolio specifically authorized. Further, if a new portfolio were established under any of the Funds, the Bank could invest assets of a Plan in such new portfolio only after providing the required disclosures and obtaining from the Second Fiduciary a separate written authorization which specifically mentions the new portfolio.

In addition to the disclosures provided to the Plan prior to investment in any of the Funds, the Bank represents that it will routinely provide at least annually to the Second Fiduciary updated prospectuses of the Funds in accordance with the requirements of the '40 Act and the SEC rules promulgated thereunder. Further, the Second Fiduciary will be supplied, upon request, with a report or statement (which may take the form of the most recent financial report of such Funds, the current statement of additional information, or some other written statement) which contains a description of all fees paid by the Fund.

The Bank does not now execute nor in the future intend to execute securities brokerage transactions for the investment portfolios of any of the Funds, except as and to the extent permitted by the '40 Act and applicable rules of the SEC. However, in the event the Bank ever performs brokerage services for which a fee is paid to the Bank by the investment portfolio of any of the Funds, the Bank represents that it will at least 30 days in advance of the implementation of such additional service provide a written notice which explains the nature of such additional brokerage service and the amount of the fees. Further, the Bank represents that it will provide at least annually to the Second fiduciary of any Plan that invests in such Funds with a written disclosure indicating (a) the total, expressed in dollars, of brokerage commissions of each Fund's investment portfolio that are paid to the Bank by such Fund; (b) the total, expressed in dollars, of brokerage commissions of each Fund's investment portfolio that are paid by such Fund to brokerage firms unrelated to the Bank; (c) the average brokerage commissions per share, expressed as cents per share, paid to the Bank by each portfolio of a Fund; and (d) the average brokerage commissions per share, expressed as cents per share, paid by each portfolio of a Fund to brokerage firms unrelated to the Bank.

The receipt of fees, as described above, is generated in connection with the investment in the Funds by the Plans. These investments are the result of purchases of shares in the Funds and exchanges of assets of the Plans, including those in CIFs, for shares in the Funds.

With respect to such purchases, (a) the Plans and other investors will purchase or redeem shares in the Funds in accordance with standard procedures described in the prospectus for each portfolio of the Funds; (b) the Plans will pay no sales commissions or redemption fees in connection with purchase or redemption of shares in the Funds by the Plans; (c) the Bank will not purchase from or sell to any of the Plans shares of any of the Funds; and (d) the price paid or received by the Plans for shares of the Funds will be the net asset value per share at the time of such purchase or redemption and will be the same price as any other investor would have paid or received at that time. The value of the Bishop Street Funds' shares and the value of each Bishop Street Funds' portfolios are determined on a daily basis. In the case of the non-money market portfolios, assets are valued at fair or market value, as required by Rule 2a–4 under the '40 Act. In the case of any money market portfolio, the assets are valued based on the amortized cost method authorized by SEC Rule 2a–7, in order to maintain a net asset value of $1.00 per share. Both the money market portfolios and the non-money market portfolios determine the net asset value per share for purposes of pricing purchases and redemptions by dividing the value of all securities, determined by a method as set forth in the prospectus for each Bishop Street Fund portfolio, and other assets belonging to each of the portfolios, less the liabilities charged to each portfolio, by the number of each portfolio's outstanding shares.

Purchases and redemptions of shares in any of the Funds by the Plans may also occur in connection with daily automated cash "sweep" arrangements. However, agreement to such arrangement is not a condition for the Plan otherwise choosing to invest in shares of the Fund, nor will the reverse be required.

Under the automated cash "sweep" arrangement, a Plan may participate in the "sweep" program only with the initial written approval of the Second Fiduciary and only after certain disclosures have been provided by the Bank. If such approval is given, cash balances of the Plan held from time to time thereafter pending other investment or distribution are invested automatically in shares of the Bishop Street Funds Money Market Fund or other short-term investment vehicle selected by the Second Fiduciary on behalf of a Plan. The automated cash "sweep" arrangement would not involve shares of any non-money market portfolios.

After the Money Market Fund of the Bishop Street Funds has been selected by the Second Fiduciary on behalf of the Plan, otherwise uninvested cash down to the last $1.00 balance of the Plans may be invested automatically on a nightly basis. The Bank has no discretion with respect to the timing of the "sweep" either into or out of the Bishop Street Funds. Under the automated "sweep" arrangement, the Bank's computerized cash management system automatically scans the accounts of the Plans, as of the end of each business day to determine whether such accounts have positive or negative net cash balances. Based on this information, the system automatically invests the case of the Plans having positive balances in shares of the Money Market Fund. In the case of a Plan having a negative cash balance, the system automatically liquidates the Bishop Street Fund shares as necessary to eliminate such negative balance.

Plans may terminate their participation in the automated cash "sweep" arrangement and withdraw at any time by notifying the Bank. Such termination will be effected by the Bank redeeming the shares of the Bishop Street Funds held by the Plan requesting termination by the close of the business day following the date of receipt by the Bank, either by mail, hand delivery, facsimile, or other available means of written communication at the option of the Second Fiduciary, of the Termination Form or any other written notice of termination. However, if due to circumstances beyond the control of the Bank, the redemption of shares of such Plan cannot be executed within one business day, the Bank would complete the redemption within one additional business day.

No fee, charge or penalty of any kind is charged in connection with a termination by a Plan of participation in the automated cash "sweep arrangement" in the Bishop Street Funds or in any of the Funds. The Bank currently charges a Plan-level cash sweep fee for sweep services in connection with the investment of cash balances in short-term investment vehicles managed by unaffiliated entities. This fee will be terminated for Plans that elect to use the Money Market Fund as their cash management vehicle. The Bank does not charge separate or additional fees to Plans in order to participate in the daily automated cash "sweep" arrangement through the Bishop Street Funds, nor is such additional compensation contemplated by the proposed exemption.[12]

---

[12] The Department in a letter, dated August 1, 1986, to Robert S. Plotkin, Assistant Director, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, addressed the application of section 408(b)(2) of the Act to arrangements involving "sweep services." In that letter, the Department set forth several examples to illustrate various circumstances under which violations of section 406(b) of the Act would arise with respect to such arrangements. Conversely, the letter provided that, if a bank provides "sweep" services without the receipt of additional compensation or other consideration (other than reimbursement of direct expenses properly and actually incurred in the performance of such services), then the provision of "sweep" services by the bank would not, in itself, constitute a violation of section 406(b) of the Act. Moreover, including "sweep" services under a single fee arrangement for investment management services which is calculated as a percentage of the market value of the total assets under management would not, in itself, constitute an act described in section 406(b)(1), because the bank would not be exercising its fiduciary authority or control to cause a plan to pay an additional fee.

In addition, the letter also discusses the applicability of the statutory exemptions under

8. In summary, it is represented that the proposed transactions will satisfy the statutory criteria for an exemption under section 408(a) of the Act because:

(a) Neither the Plans nor the CIFs will pay sales commissions or redemption fees in connection with the in-kind transfer of assets to the Funds in exchange for shares of the Funds or in connection with purchases or redemptions by the Plans of shares of the Funds, including purchases and redemptions handled through daily automated cash "sweep" arrangements.

(b) The Plans or the CIFs will receive shares of the Funds that are equal in value to the assets of the Plans or the CIFs exchanged for such shares, as determined in a single valuation performed in the same manner and as of the close of business on the same day in accordance with the procedures set forth in Rule 17a–7 under the '40 Act, as amended from time to time or any successor rule, regulation or similar pronouncement.

(c) Not later than 30 business days after completion of each in-kind transfer of assets in exchange for shares of the Funds, the Plans will receive written confirmation of the assets involved in the exchange which were valued in accordance with Rule 17a–7(b)(4), the price of such assets and the identity of the pricing service or market maker consulted.

(d) No later than 90 days after completion of each in-kind transfer of assets of the plans or the CIFs in exchange for shares of the Funds, the Bank will mail to the Second Fiduciary of each Plan, a written confirmation of the number of CIF units held by each affected Plan immediately before the conversion (and the related per unit value and the aggregate dollar value of the units transferred), and the number of shares in the Funds that are held by each affected Plan following the conversion (and the related per share net asset value and the aggregate dollar value of the shares received).

(e) The price that will be paid or received by the Plans for shares in the Funds is the net asset value per share at the time of the transaction and is the same price for the shares which would have been paid or received by any other investor for shares of the same class at that time.

(f) Neither the Bank nor an affiliate, including any officer or director will purchase from or sell to any of the Plans shares of any of the Funds.

(g) As to each individual Plan, the combined total of all fees received by the Bank for the provision of services to the Plan, and in connection with the provision of services to any of the Funds in which the Plan may invest, will not be in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

(h) The Bank will not receive any 12b–1 Fees in connection with the proposed transactions.

(i) Prior to investment by a Plan in any of the Funds, in connection with transactions, the Second Fiduciary will receive a full and detailed written disclosure of information concerning such Fund.

(j) Subsequent to the investment by a Plan in any of the Funds, the Bank will provide the Plan, among other information, at least annually with an updated copy of the prospectus for each of the Funds in which the Plan invests.

(k) In the event such Fund places brokerage transactions with the Bank, the Bank will provide the Second Fiduciary of such Plan at least annually with a statement specifying the total, expressed in dollars, of brokerage commissions of each Fund's investment portfolio that are paid by such Fund to the Bank and to unrelated brokerage firms and the average brokerage commissions per share, expressed as cents per share, by each portfolio of a Fund paid to the Bank and to brokerage firms unrelated to the Bank.

(l) On the basis of the disclosures, the Second Fiduciary will authorize the transactions.

(m) The authorization by the Second Fiduciary will be terminable at will without penalty to such Plans, and any such termination will be effected by the close of the business day following the date of receipt by the Bank, either by mail, hand delivery, facsimile or other available means of written communication at the option of the Second Fiduciary, of the Termination Form or any other written notice of termination, unless due to circumstances beyond the control of the Bank delay execution for no more than one additional business day.

(n) The Plans do not pay investment management, investment advisory or similar fees to the Bank with respect to any of the assets of such Plans which are invested in shares of any of the Funds.

(o) The Second Fiduciary will receive a written notice accompanied by the Termination Form with instructions regarding the use of such form, at least 30 days in advance of the implementation of any increase in the rate of any fees for investment management, investment advisory or similar fees, any addition of a Secondary Service for which a fee is charged, or any increase in fees for Secondary Services that the Bank provides to the Funds.

(p) All dealings between the Plans and any of the Funds will be on a basis no less favorable to such Plans than dealings between the Funds and other shareholders holding the same shares of the same class as the Plans.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of

---

section 408(b)(6) of the Act (fees for "ancillary services") and under section 408(b)(8) of the Act (investments in collective trust funds maintained by such bank) to such "sweep" service arrangements.

the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, DC, this 8th day of September, 1995.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 95–22753 Filed 9–12–95; 8:45 am]

BILLING CODE 4510–29–P

[Prohibited Transaction Exemption 95–81; Exemption Application Nos. D–09511, D–09512 and D–09513, et al.]

Grant of Individual Exemptions; Bank of America Illinois, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, D.C. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of proposed exemption were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990) and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Bank of America Illinois, Located in Chicago, IL

[Prohibited Transaction Exemption 95–81 Exemption Application Nos. D–09511, D–09512 and D–09513]

Exemption

Section I—Exemption for Purchases and Sales

Effective September 1, 1993, the restrictions of section 406(a)(1)(A) through (D) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code, shall not apply to the purchase and sale by employee benefit plans (the Plans), to which the Bank serves as fiduciary, of shares in the Prime Fund, the Government Securities Fund, and the Treasury Fund, or each of their Pacific Horizon Fund successors, three open-end money market mutual fund portfolios (collectively referred to as the Funds), to which the Bank of America Illinois, and its affiliates (the Bank) provide investment advisory and other services, in connection with the Supplemental Sweep Service (as defined in paragraph (b) of section IV below), provided that the conditions of Section III are met.

Section II—Exemption for Receipt of Fees

Effective September 1, 1993, the restrictions of section 406(a)(1)(A) through (D) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code, shall not apply to the receipt of fees by the Bank from the Funds for providing investment advisory and other services to the Funds, in connection with the investment of the assets of the Plans in the Funds, for which the Bank provides investment advisory and other services, provided that the conditions of Section III are met.

Section III—Conditions

(a) The Bank does not have investment discretion or render investment advice (within the meaning of 29 CFR 2510.3–21(c)) with respect to the Plan assets invested in the Funds pursuant to this exemption.

(b) No sales commissions or redemption fees are paid by the Plans in connection with the purchase or sale of shares in the Funds.

(c) The Bank does not receive any fees payable pursuant to Rule 12b–1 under the Investment Company Act of 1940 (the 12b–1 Fees) in connection with the transactions.

(d) The price paid or received by a Plan for shares in a Fund is the net asset value per share on the date of the transaction, as defined in section IV(d), and is the same price which would have been paid or received for the shares by any other investor on that date.

(e) Prior to the Bank's receipt of fees paid by each Fund with respect to Plan assets invested therein, each Plan receives a credit of such Plan's proportionate share of all fees charged to the Fund by the Bank.

(f) The Plans are not employee benefit plans sponsored or maintained by the Bank.

(g) A second fiduciary who is independent of and unrelated to the Bank or any of its affiliates (the Second Fiduciary), receives full written disclosure of information concerning the Fund(s), including but not limited to:

(1) A current prospectus for each fund in which a Plan is considering investing;

(2) A statement describing the fees for investment advisory or similar services, and all other fees to be charged to or paid by the Plan or the Funds, including the nature and extent of any differential between the rates of such fees;

(3) The reason why the Bank may consider such investment to be appropriate for the Plan; and

(4) Upon request of the Second fiduciary, a copy of the proposed exemption and/or a copy of the final exemption;

(h) On the basis of the information described above in paragraph (g) of section III, the Second Fiduciary authorizes in writing the investment of assets of the Plan in each particular Fund, the fees to be paid by the Fund and the Plan to the Bank, and the credit to the Plan of fees received by the Bank

from the Funds for investment advisory and other services, consistent with the responsibilities, obligations, and duties imposed on fiduciaries by part 4 of Title I of the Act.

(i) The Second Fiduciary referred to in paragraph (g) of section III, or any successor thereto, is notified of any change in the rates of the fees referred to in paragraph (g) of section III and approves in writing the continued holding of any Fund shares acquired by the Plan prior to such change and still held by the Plan.

(j) The Bank provides annually, written disclosures to the Second Fiduciary which are provided to all shareholders of the Fund(s), which establish the rate of return of the Fund(s) absent the credit paid to the Plans for fees paid by the Funds to the Bank.

(k) The combined total of all fees received by the Bank for the provision of services to the Plans, and in connection with the provision of services to any of the Funds in which the Plans may invest, are not in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

(l) All dealings between the Plans and the Funds are on a basis no less favorable to the Plans than dealings between the Funds and other shareholders of the Funds.

(m) The Bank shall maintain, for a period of six years, the records necessary to enable the persons described in paragraph (n) below to determine whether the conditions of this exemption have been met, except that (1) a prohibited transaction will not be considered to have occurred, if due to circumstances beyond the control of the Bank, the records are lost or destroyed prior to the end of the six year period, and (2) no party in interest other than the Bank shall be subject to the civil penalty that may be assessed under section 502(i) of the Act, or the taxes imposed by section 4975(a) and (b) of the Code, if the records are not available for examination as required by section (n) below;

(n)(1) Except as provided in section (2) of this paragraph and notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (l) above shall be unconditionally available at their customary location during normal business hours by:

(A) Any duly authorized employee or representative of the Department or the Internal Revenue Service;

(B) Any fiduciary of a Plan who has the authority to acquire or dispose of the interests of the Plan or any duly authorized representative of such fiduciary;

(C) Any contributing employer to any Plan that has an interest in any of the Funds or any duly authorized employee or representative of such employer; and

(D) Any participant or beneficiary of any Plan that has an interest in the Funds or any duly authorized representative of such participant or beneficiary.

(2) None of the persons described in paragraphs (n)(1)(B) through (D) shall be authorized to examine the trade secrets of the Bank, or commercial or financial information which is privileged or confidential.

Section IV—Definitions

For purposes of this proposed exemption:

(a) Pacific Horizon Fund successor means each of the open-end money market mutual funds resulting from the merger of the Pacific Horizon Prime Fund and the Pacific Horizon Treasury Fund respectively with the Prime Fund and the Treasury Fund. In addition, Pacific Horizon Fund successor means the open-end money market mutual fund resulting from the merger of the Government Securities Fund with a similar money market mutual fund among the Pacific Horizon Funds.

(b) Supplemental Sweep Service means the transfer of shares in the Funds between the Bank and the Plans by means of the Banks's internal accounting procedures at the end of the Supplemental Sweep Period, in connection with Plan orders to purchase shares in the Funds that the Bank is otherwise unable to settle prior to the Supplemental Sweep Period, and Plan orders to purchase or redeem shares in the Funds that are received by the Bank during the Supplemental Sweep Period. A Plan order to purchase or redeem shares in the Fund(s) pursuant to the Supplemental Sweep Service occurs solely as a result of investment decisions, deposits or withdrawals, directed by an independent Second Fiduciary.

(c) Supplemental Sweep Period means the period of time on each business day after the Funds stop accepting orders for the purchase or redemption of shares in the Funds and before the Bank's close of business.

(d) The term "net asset value" means the amount for purposes of pricing all purchase and sale of shares in the Funds calculated by dividing the value of all securities, determined by a method as set forth in the Fund's prospectus and statement of additional information, and other assets belonging to the Fund or portfolio of the Fund, less the liabilities charged to each such portfolio or fund, by the number of outstanding shares.

(e) An "affiliate" of a person includes:

(1) Any persons directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control, with the person;

(2) Any officer, director, employee, relative of, or partner in any such person; and

(3) Any corporation or partnership of which such person is an officer, director, partner or employee.

(f) The term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

(g) The term "relative" means a "relative" as that term is defined in section 3(15) of the Act (or a "member of the family" as that term is defined in section 4975(e)(6) of the Code), or a brother, a sister, or a spouse of a brother or sister.

(h) A fiduciary will not be deemed to be an independent fiduciary with respect to the Bank and its affiliates if:

(1) The fiduciary directly or indirectly controls, is controlled by, or is under common control with the Bank or any affiliate:

(2) The fiduciary, or any officer, director, partner, employee or relative of such fiduciary, is an officer, director partner, or employee of the Bank or any affiliate (or is a relative of such persons); or

(3) The fiduciary directly or indirectly receives any compensation or other consideration for his or her own personal account in connection with any transaction described in this proposed exemption.

If an officer, director, partner, or employee of the Bank (or a relative of such person), is a director of such Second Fiduciary, and if he or she abstains from participation in (i) the choice of the Plan's investment manager/adviser, (ii) the approval of any purchase or sale by the Plan of shares of the Funds, and (iii) the approval of any change of fees charged to or paid by the Plan, in connection with any of the transactions described in sections I and II above, then paragraph (h)(2) of section III above, shall not apply.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material facts which are the subject of this exemption.

Written Comments

In the Notice of Proposed Exemption (the Notice), the Department invited all interested persons to submit written comments and requests for a hearing on the proposed exemption within 30 days of the date of publication of the Notice in the **Federal Register** on April 7, 1995.

During the comment period, the Department received no requests for a hearing. However, the Department received a comment letter and subsequent clarifications, dated May 18, August 2, and August 4, 1995 from the Bank.

First, the Bank states that item 8 of the Summary of Facts and Representations in the Notice indicates that the books of the Fund's transfer agent carry only one account for all purchases and redemptions of Fund shares by the Bank. The Bank represents that it is possible in the future that, solely for bookkeeping purposes, the transfer agent may record separate accounts in the Bank's name to reflect orders from different Bank departments or divisions, or for other purposes, such as reflecting the Bank's own provisional accounts. Nonetheless, all such shares would be held in the name of the Bank. The Department concurs.

Second, the Bank notes a typographical error in the **Federal Register** at page 17812: the reference to the Bank's cash management fee reads "12" percent rather than "0.12 percent." The Department concurs.

Third, the Bank states that the Prime Fund and the Treasury Fund may be respectively merged into the Pacific Horizon Prime Fund and the Pacific Horizon Treasury Fund, which are money market mutual funds with respect to which a BAI affiliate serves as investment adviser. In addition, although the Government Securities Fund has not been used as a cash management vehicle for any plan to date, it may be merged into a similar money market mutual fund among the Pacific Horizon Funds which is also advised by a BAI affiliate. Further, the Bank represents that the prior representations regarding the Prime Fund, the Treasury Fund and the Government Securities Fund will remain accurate with respect to the Pacific Horizon Fund successors. In this regard, the Bank has requested that relief be extended to the Pacific Horizon Funds which succeed the Prime Fund, the Treasury Fund and the Government Securities Fund. The Department concurs.

After giving full consideration to the record, including the comments by the Bank, the Department has determined to grant the exemption as described herein. In this regard, the comments submitted to the Department have been included as part of the public record of the exemption application. The complete application file, including all supplemental submissions received by the Department is made available for public inspection in the Public Documents Room of the Pension and Welfare Benefits Administration, Room N–5507, U.S. Department of Labor, 200 Constitution Avenue N.W., Washington, D.C. 20210.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption published refer to the notice of proposed exemption published Friday April 7, 1995, at 60 FR 17809.

FOR FURTHER INFORMATION CONTACT: Eric Berger of the Department, telephone (202) 219–8971 (This is not a toll-free number).

PMS Profit Sharing and Retirement Savings Plan and Trust (the Plan), Located in Cleveland, Ohio

[Prohibited Transaction Exemption 95–82; Exemption Application No. D–09824]

Exemption

The restrictions of sections 406(a), 406(b)(1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the sale (the Sale) of a certain parcel of improved real property (the Property) from the Plan to M. A. Hanna Company (Hanna), a party in interest with respect to the Plan provided that the following conditions are met:

(1) The fair market value of the Property is established by a qualified and independent real estate appraiser;

(2) Hanna pays the greater of $990,800 or the current fair market value of the Property;

(3) The Sale is a one time transaction for cash;

(4) The Plan pays no fees or commissions related to the Sale; and

(5) Hanna pays any excise taxes to the Internal Revenue Service owed pursuant to section 4975(a) of the Code resulting from Hanna's lease of the Property from the Plan through the effective date of the final grant of the exemption within 90 days of such date.

Effective Date: This exemption will be effective as of September 1, 1995.

For a more complete statement of the facts and representations supporting this exemption, refer to the notice of proposed exemption published on July 12, 1995 at 60 FR 35941.

Written Comments: With respect to the notice of proposed exemption, the Department received one comment in which the applicant requests that the exemption be effective September 1, 1995. The Department has modified the final exemption accordingly in response to the comment.

For Further Information Contact: Allison Padams, of the Department, telephone (202) 219–8971. (This is not a toll-free number.)

Mercury Asset Management International Ltd. (Mercury International) Located in London, England

[Prohibited Transaction Exemption 95–83; Exemption Application No. D–09998]

Exemption

The restrictions of sections 406(a)(1)(A) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) of the Code, shall not apply to the proposed cross-trading of securities between various accounts managed by Mercury International or its Affiliates (the Accounts) where at least one Account involved in any cross-trade is an employee benefit plan account (Plan Account) for which Mercury International acts as a fiduciary; provided that both the General Conditions of Section I and the Specific Conditions of Section II below are met.

Section I—General Conditions

(a) Each employee benefit plan comprising a Plan Account participating in Mercury International's cross-trading program has total assets equal to at least $25 million. In the case of multiple employee benefit plans maintained by a single employer or controlled group of employers, the $25 million requirement may be met by aggregating the assets of such plans if the assets are commingled for investment purposes in a single master trust.

(b) A Plan's participation in the cross-trade program is subject to a written authorization executed in advance by a qualified Plan Fiduciary which is independent of Mercury International and its Affiliates (the Independent Fiduciary).

(c) The authorization referred to in paragraph (b) above is terminable at will without penalty to the Plan Account, upon receipt by Mercury International of written notice of termination.

(d) Before an authorization is made for any Plan Account, the Independent Fiduciary is furnished with any reasonably available information necessary for the Independent Fiduciary to determine whether the authorization should be made, including (but not limited to) a copy of this exemption, an explanation of how the authorization may be terminated, a description of Mercury International's cross-trade practices, and any other reasonably available information regarding the matter that the Independent Fiduciary requests.

(e) Each cross-trade transaction involves only equity or debt securities for which there is a generally recognized market. With respect to any non-U.S. securities, only those securities traded on a recognized foreign securities exchange for which market quotations are readily available shall be covered by the exemption.[1]

(f) Each cross-trade transaction is effected at the current market value for the security on the date of the transactions. For equity securities, this shall be the closing price for the security on the date of the transaction. The "closing price" shall be the last trade price on exchanges where dealing is order-driven and the closing mid-market price (i.e. the average of the closing bid and offer prices) where dealing is quote-driven. For debt securities, the current market value shall be the fair market value determined in accordance with paragraph (b) of Rule 17a–7 issued by the Securities and Exchange Commission under the Investment Company Act of 1940.

(g) Neither Mercury International nor its Affiliates charges a Plan Account affected by a cross-trade transaction any fee or commission for such transaction.

(h) At least every three months, and not later than 45 days following the period to which it relates, Mercury International furnishes the Independent Fiduciary with a report disclosing: (1) a list of all cross-trade transactions engaged in on behalf of the Plan Account, and (2) with respect to each cross-trade transaction, the prices at which the securities involved in the transaction were traded on the date of such transaction.

(i) The Independent Fiduciary is furnished with a summary of certain additional information at least once per year. The summary must be furnished within 45 days after the end of the period to which it relates, and must contain the following: (1) a description of the total amount of the Plan Account's assets involved in cross-trade transactions during the period, (2) a description of Mercury International's cross-trade practices, if such practices have changed materially during the period covered by the summary, (3) a statement that the Independent Fiduciary's authorization of cross-trade transactions may be terminated upon receipt by Mercury International of written notice to that effect, and (4) a statement that the Independent Fiduciary's authorization of the Plan Account's participation in the cross-trade program will continue in effect unless it is terminated.

(j) For all Accounts participating in the cross-trading program, if the number of shares of a particular security which any Accounts need to sell on a given day is less than the number of shares of such security which any Accounts need to buy, or vice versa, the direct cross-trade opportunity is allocated among the buying or selling Accounts on a pro rata basis.

(k) The Accounts involved in cross-trade transactions do not include assets of any Plan established or maintained by Mercury International or its Affiliates.

Section II—Specific Conditions

(a) An Independent Fiduciary of each Plan specifically authorizes each cross-trade transaction in accordance with the following procedure:

(1) No more than three business days prior to the execution of any cross-trade transaction, Mercury International shall inform an Independent Fiduciary of each Plan Account involved in the cross-trade transaction that Mercury International proposes to buy or sell specified securities in a cross-trade transaction if an appropriate opportunity is available, the current trading price for such securities, and the total number of shares to be acquired or sold by each such Plan Account;

(2) Prior to each cross-trade transaction, the transaction shall be authorized either orally or in writing by the Independent Fiduciary of each Plan Account involved in the cross-trade transaction;

(3) If a cross-trade transaction is authorized orally by an Independent Fiduciary, Mercury International shall provide written confirmation of such authorization in a manner reasonably calculated to be received by such Independent Fiduciary within one business day from the date of such authorization;

(4) The authorization referred to in this Section II shall be effective for a period of three business days; and

(5) No more than ten days after the completion of a cross-trade transaction, the Independent Fiduciary shall be provided with a written confirmation of the transaction and the price at which the transaction was executed.

(b) A cross-trade transaction is effected only where the transaction involves less than five (5) percent of the aggregate average daily trading volume for the securities involved in the transaction for the week immediately preceding the authorization of the transaction. A cross-trade transaction may exceed this limit only by express authorization of Independent Fiduciaries on behalf of Plan Accounts affected by the transaction, prior to the execution of the cross-trade.

(c) The cross-trade transaction is effected at a price which is within ten (10) percent of the closing price of the security on the day before the date on which Mercury International received authorization by the Independent Fiduciary to engage in the cross-trade transaction.

Section III—Definitions

For purposes of this exemption:

(a) "Account" means a Plan Account or Non-Plan Account;

(b) "Affiliate" means any person directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control with Mercury International;

(c) "Buying Account" means the Account which seeks to purchase securities in a cross-trade transaction;

(d) "Cross-trade transaction" means a purchase and sale of securities between Accounts for which Mercury International or an Affiliate is acting as investment manager;

(e) "Plan Account" means an Account managed by Mercury International consisting of assets of one or more employee benefit plans which are subject to the Act;

(f) "Non-Plan Account" means an Account managed by Mercury International consisting of assets of clients which are not employee benefit plans subject to the Act; and

(g) "Selling Account" means the Account which seeks to sell its securities in a cross-trade transaction.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption (the Proposal) published on June 15, 1995, at 60 FR 31517.

---

[1] With respect to all non-U.S. securities that are "plan assets" managed by Mercury International or an Affiliate, the applicant represents that the requirements of section 404(b) of the Act and the regulations thereunder will be met (see 29 CFR 2550.404b–1). In this regard, section 404(b) of the Act states that no fiduciary may maintain the indicia of ownership of any assets of a plan outside the jurisdiction of the district courts of the United States, except as authorized by regulation by the Secretary of Labor. The Department is providing no opinion herein as to whether such requirements will be met.

Written Comments and Modifications: The applicant submitted a comment letter on the Proposal to inform the Department regarding changes in the corporate structure of S.G. Warburg Group plc (the Warburg Group). In this regard, the Proposal was published for Warburg Investment Management International Ltd. (Warburg International) and its Affiliates.

The applicant states that at the time of the Proposal, Warburg International was a wholly-owned subsidiary of Mercury Asset Management plc, which was a wholly-owned subsidiary of Mercury Asset Management Group plc (MAM Group). At such time, MAM Group was 75% owned by the Warburg Group and 25% owned by the public. MAM Group is a public company listed on the London Stock Exchange with its own independent board of directors.

The applicant represents that on July 2, 1995, the investment banking business of the Warburg Group was acquired by Swiss Bank Corporation Investment Banking Ltd. (SBCI), a wholly-owned subsidiary of Swiss Banking Corporation. However, the applicant states that the MAM Group was not one of the companies within the Warburg Group that was acquired by SBCI. Following completion of the sale of the Warburg Group's investment banking business to SBCI, a reconstruction of the Warburg Group took place whereby MAM Group became an independent company and all of its shares became owned entirely by the public. The applicant states that the 75% holding of MAM Group owned by the Warburg Group was distributed to the current shareholders of the Warburg Group.[2] As a result, the MAM Group became fully independent of the Warburg Group as of July 26, 1995.

The applicant represents further that part of the terms of the sale of the Warburg Group's investment banking business to SBCI required that companies within the MAM Group can no longer trade under the "Warburg" name. Therefore, on July 27, 1995, the name of "Warburg Investment Management International Ltd" was changed to "Mercury Asset Management International, Ltd". The applicant states that there have been no other changes in the MAM Group and its subsidiaries as a result of the reorganization.

In response to the applicant's additional information, the Department has modified the Proposal by deleting references made to "Warburg International" and has substituted therefor the name "Mercury International". The Department notes that the exemption would apply only to Mercury International and its Affiliates, as defined in Section III(b), and not to any of the other companies formerly within the Warburg Group that were sold to SBCI.

No other comments, and no requests for a hearing, were made on the Proposal.

Accordingly, the Department has determined to grant the proposed exemption as modified.

For Further Information Contact: Mr. E.F. Williams of the Department, telephone (202) 219–8194. (This is not a toll-free number.)

LEGENT Retirement Security Plan (the Plan) Located in Pittsburgh, PA

[Prohibited Transaction Exemption 95–84; Exemption Application No. D–10015]

Exemption

The restrictions of sections 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the cash sale by the Plan of a limited partnership interest in BPT Union City Associates, Inc. (the BPT Interest) to LEGENT Corporation, a party in interest with respect to the Plan.

This exemption is conditioned upon the following requirements: (1) all terms and conditions of the sale are at least as favorable to the Plan as those obtainable in an arm's length transaction with an unrelated party; (2) the sale is a one-time transaction for cash; (3) the Plan is not required to pay any commissions, costs or other expenses in connection with the sale; and (4) the Plan receives a sales price which is not less than the greater of: (a) The fair market value of the BPT Interest as determined by a qualified, independent appraiser, or (b) the total acquisition cost plus opportunity costs attributable to the BPT Interest.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on June 29, 1995 at 60 FR 33870.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 219–8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, D.C., this 8th day of September 1995.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[2] The details of transaction are described as follows: Under a Scheme of Arrangement (a form of reorganization under English law the terms of which are approved by an English court), the MAM Group allotted new ordinary shares, equivalent to the shares held by the Warburg Group, to the current ordinary and deferred shareholders of the Warburg Group on a pro rata basis. The 75% holding of ordinary MAM Group shares held by the Warburg Group was then converted to deferred MAM Group shares, which were purchased by the MAM Group and cancelled, as required under English law.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Federal Advisory Committee on International Exhibitions Advisory Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), as amended, notice is hereby given that a meeting of the Federal Advisory Committee on International Exhibitions will be held on September 28, 1995, from 9:00 a.m. to 5:30 p.m. This meeting will be held in Room M–07, at the Nancy Hanks Center, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506.

Portions of this meeting will be open to the public from 9:00 a.m. to 9:15 a.m. for welcome and introductions and from 4:45 p.m. to 5:30 p.m. for a policy discussion.

The remaining portion of this meeting from 9:15 a.m. to 4:45 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of June 22, 1995, this session will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, N.W., Washington, D.C. 20506, 202/682–5532, TDY-TDD 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne Sabine, Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202/682–5533.

Dated: September 7, 1995.

Yvonne M. Sabine,

Director, Office of Council and Panel Operations National Endowment for the Arts.

BILLING CODE 7537-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–302]

Florida Power Corporation; Notice of Denial of Amendment to Facility Operating License and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) has denied a request by Florida Power Corporation, (licensee) for an amendment to Facility Operating License No. DPR–72 issued to the licensee for operation of the Crystal River Nuclear Generating Plant, Unit No. 3, located in Citrus County, Florida. Notice of Consideration of Issuance of this amendment was published in the **Federal Register** on November 14, 1990 (55 FR 47570).

The purpose of the licensee's amendment request was to revise the Technical Specifications (TS) to add a limiting condition for operation for new low temperature overpressure protection (LTOP) and to revise the reactor coolant system (RCS) heatup and cooldown pressure-temperature (PT) operating limits for operation up to 15 effective-full-power-years. On February 7, 1991, by Amendment No. 133, the NRC staff approved RCS heatup and cooldown PT curves for operation up to 15 effective-full-power-years. Amendment No. 133 did not address the licensee's proposed TS changes for LTOP, which is the subject of this notice.

The NRC staff has concluded that the licensee's request for LTOP TS changes cannot be granted. The licensee was notified of the Commission's denial of the proposed change by a letter dated August 31, 1995.

By October 13, 1995, the licensee may demand a hearing with respect to the denial described above. Any person whose interest may be affected by this proceeding may file a written petition for leave to intervene. A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date.

A copy of any petitions should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to A.H. Stephens, General Counsel, Florida Power Corporation, MAC–A5D, P.O. Box 14042, St. Petersburg, Florida 33733, attorney for the licensee.

For further details with respect to this action, see (1) the application for amendment dated October 31, 1989, as supplemented August 10, 1990, and (2) the Commission's letter to the licensee dated August 31, 1995.

These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Coastal Region Library, 8619 W. Crystal Street, Crystal River, Florida 32629.

Dated at Rockville, Maryland, this 31st day of August 1995.

For the Nuclear Regulatory Commission.

David B. Matthews,

Project Director, Project Directorate II–1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 95–22703 Filed 9–12–95; 8:45 am]

BILLING CODE 7590-01-P

Biweekly Notice

Applications and Amendments to Facility Operating LicensesInvolving No Significant Hazards Considerations

I. Background

Pursuant to Public Law 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Public Law 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from August 18, 1995, through August 30, 1995. The last biweekly notice was published on Wednesday, August 30, 1995 (60 FR 45172).

Notice Of Consideration Of Issuance Of Amendments To Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, And Opportunity For A Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received before action is taken. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D22, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC. The filing of requests for a hearing and petitions for leave to intervene is discussed below.

By October 13, 1995, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC and at the local public document room for the particular facility involved. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public

Document Room, the Gelman Building, 2120 L Street, NW., Washington DC, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 248-5100 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to **(Project Director)**: petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to the attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room for the particular facility involved.

Carolina Power & Light Company, Docket No. 50-261, H. B. Robinson Steam Electric Plant, Unit No. 2, Darlington County, South Carolina

Date of amendment request: July 17, 1995

Description of amendment request: The requested change to Technical Specification (TS) section 3.8 would specify that the spent fuel building refueling filter fan and at least one containment purge fan shall be shown to operate within plus or minus 10 percent of the design flow.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:The proposed change to TS is to revise Section 3.8.2.c. This TS section currently states "All filter system fans shall be shown to operate within [plus or minus] 10% of the design flow." The proposed requirements are as follows:

c.1 The Spent Fuel Building refueling filter fan shall be shown to operate within [plus or minus] 10% of the design flow.

c.2 At least one Containment purge filter fan shall be shown to operate within [plus or minus] 10% of the design flow and must be operable during core alterations or movement of irradiated fuel assemblies, or at least one automatic containment isolation valve in each line penetrating the containment which provides a direct path from the containment atmosphere to the outside atmosphere shall be securely closed.

This proposed change does not involve a significant hazards consideration for the following reasons.

1. The proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated. The proposed change clarifies the operating requirements for the Containment purge and Spent Fuel Building refueling filter systems. This proposed change to the TS specifically delineates the fan filter systems required for refueling operations and does not change the physical operation of the filter systems. The affected systems are not involved in the initiation of any accident. The system response to previously analyzed accidents, including system flows and filter efficiencies will not be altered by the proposed change. These changes are enhancements to clarify existing TS requirements that will not increase the probability or consequences of a previously analyzed accident.

2. The proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated. The proposed change merely clarifies the specific filter systems that are necessary to mitigate a fuel handling accident during core alterations or the movement of irradiated fuel assemblies and is consistent with the accident analysis in Section 15.7.4 of the Updated Final Safety Analysis Report (UFSAR). This proposed change does not involve the addition or modification of plant equipment, nor does it alter the design or operation of plant systems. Therefore, operation of the facility in accordance with the proposed TS change will not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. The proposed change clarifies which filter systems that must be capable of mitigating a design basis fuel handling accident during core alterations or the movement of irradiated fuel assemblies and is consistent with the accident analysis in Section 15.7.4 of the UFSAR. The proposed change will not result in an increase in the Control Room or offsite radiation doses. The performance of the filtration systems, including adsorption efficiencies, will not change. Therefore, the proposed change does not involve a reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Hartsville Memorial Library, 147 West College Avenue, Hartsville, SC 29550

Attorney for licensee: R. E. Jones, General Counsel, Carolina Power & Light Company, Post Office Box 1551, Raleigh, NC 27602

NRC Project Director: David B. Matthews

Commonwealth Edison Company, Docket Nos. 50-295 and 50-304, Zion Nuclear Power Station, Units 1 and 2, Lake County, Illinois

Date of amendment request: June 30, 1995

Description of amendment request: The proposed amendments would modify the emergency diesel generator testing requirements in the Technical Specifications.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed changes do not involve a significant increase in the probability or consequences of occurrence of any accident previously evaluated.

The proposed changes to the Technical Specifications will change the scope of EDG [Emergency Diesel Generator] testing that is performed on a refueling cycle frequency. The proposed changes will eliminate the requirement to perform sequenced loading of the EDG as part of the hot restart test, and will allow the hot restart test to be initiated from any EDG start signal. The revised requirements will eliminate testing that is redundant, provides no additional meaningful information, significantly constrains scheduling of refueling outage maintenance and testing, and impacts the availability of systems and components important to safety. The proposed testing requirements satisfy the underlying purpose of the EDG hot restart test. The testing in accordance with the proposed requirements will verify the ability of each EDG to complete the start up sequence from an equilibrium temperature immediately following operation at full load for a period of time long enough to stabilize operating temperature.

A two hour period for operation at full load has been chosen to ensure that full load operating temperature has stabilized prior to shutdown preceding the hot restart test. Momentary transients outside the full load operating band of 3600 to 4000 kW will not invalidate the two hour run since momentary transient will not significantly affect operating temperature. Brief operation subsequent to a momentary transient will normalize operating temperature. Since the proposed changes impact only surveillance requirements used to periodically verify the operability of a required safety system, and since the proposed changes provide an equivalent level of testing and eliminate redundant testing, the proposed changes will not impact the operability or availability of a required system.

Operation in accordance with the revised requirements will not increase the likelihood that a transient initiating event will occur since transients are initiated by equipment malfunction and/or catastrophic system failure. The revised requirements affect testing that is performed on a Refueling Cycle frequency. Testing in accordance with the proposed requirements will not increase the probability of failure of the EDGs since the testing will provide an equivalent level of testing to verify the operability of the EDGs. In addition, failure of an EDG to start or failure of an EDG while operating is not assumed to be an initiating event of an accident considered in the Updated Final Safety Analysis Report (UFSAR). Based on the above, operation in accordance with the proposed requirements will not significantly increase the probability of occurrence of any accident previously evaluated.

The proposed requirements will meet the underlying purposed of the existing testing requirements. The proposed testing will ensure the ability of the EDG to start from a hot condition in the unlikely event of an accident. The proposed changes will eliminate testing requirements that are redundant and unnecessarily challenge the reliability of the EDGs by requiring unnecessary wear and cycling of the diesel engine and auxiliary systems. Since the proposed changes will not adversely affect the operability or availability of the EDGs, the ability of the EDGs to operate and power equipment important to safety will not be impacted and the ability to mitigate the consequences of accidents previously evaluated will not be affected. Based on the preceding discussion, the consequences of accidents previously evaluated will not significantly increase.

2. The proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

The proposed changes to the Technical Specifications do not involve the addition of any new or different types of safety related equipment, nor do they involve the operation of equipment required for safe operation of the facility in a manner different from those addressed in the UFSAR. No safety related equipment or function will be altered as a result of the proposed changes. Also, the procedures that govern normal operation and recovery from an accident are not affected by the proposed changes.

The proposed changes will eliminate testing requirements that are redundant and provide no additional meaningful information. Testing in accordance with the revised requirements will provide an equivalent level of confidence in the reliability of the EDG systems to complete the start up sequence from a hot condition. The proposed testing requirements satisfy the purpose Regulatory Guide 1.108 in that the testing requirements will ensure EDG operability and reliability. In addition, the proposed changes are consistent with the changes recommended by the NRC in Generic Letter 93-05. Since no new failure modes or mechanisms are introduced by the proposed changes, the possibility of a new or different kind of accident is not created.

3. The proposed changes do not involve a significant reduction in a margin of safety.

Plant safety margins are established through LCOs, limiting safety system settings, and safety limits specified in the Technical Specifications. There will be no changes to either the physical design of the plant or to any of these settings or limits as a result of the proposed changes. The proposed changes will eliminate testing requirements that are redundant and provide no additional information. Testing in accordance with the revised requirements will verify the ability of the EDGs to complete the start up sequence from a hot condition as is intended by the recommended testing in Regulatory Guide 1.108. In addition, the proposed changes are consistent with the changes recommended by the NRC in Generic Letter 93-05. Since the proposed changes will not impact the availability or operability of the EDGs to perform their intended function and since no LCOs, safety limits, or safety system settings are affected by the proposed changes, there is no significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the requested amendments involve no significant hazards consideration.

Local Public Document Room location: Waukegan Public Library, 128 N. County Street, Waukegan, IL 60085

Attorney for licensee: Michael I. Miller, Esquire; Sidley and Austin, One First National Plaza, Chicago, IL 60603

NRC Project Director: Robert A. Capra

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of amendment request: July 26, 1995.

Description of amendment request: The licensee proposes to change Turkey Point Units 3 and 4 Technical Specifications to allow rod misalignment of +/- 18 steps at or below 90% of rated thermal power. In addition, a change is proposed to the Limiting Condition for Operation range of rod travel from 228 to "All Rods Out." The introduction of "All Rods Out" is consistent with Amendment 167/161 which approved the removal of Technical Specification 3.1.3.6, "Rod Insertion Limit" from the Technical Specifications and placement into the Core Operating Limits Report (COLR).

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Operation of the facility in accordance with the proposed amendment would not involve a significant increase in the probability or consequences of any accident previously evaluated.

The proposed limits on rod misalignment do not increase the probability of an accident. The Technical Specifications' allowed increase in peaking factor limits as power is reduced accommodates an increase in rod misalignment of [plus or minus] 18 steps below 90% of RTP [rated thermal power]. The initial conditions remain unchanged from that assumed in the Updated Final Safety Analysis Report (UFSAR). Therefore, this proposed change poses no significant increase in the probability or consequences of any accident previously evaluated.

(2) Operation of the facility in accordance with the proposed amendment would not create the possibility of a new or different kind of accident from any accident previously evaluated.

No new accident scenarios, failure mechanisms or limiting single failure are introduced as a result of implementing the proposed rod misalignment criteria. The institution of the proposed rod misalignment criteria will have no adverse effect, nor does it challenge, the performance of any other safety related system. Therefore, the proposed amendment does not in any way create the possibility of a new or different kind of accident from any accident previously evaluated.

(3) Operation of the facility in accordance with the proposed amendment would not involve a significant reduction in the margin of safety.

Operation of the facility in accordance with the proposed amendment would not involve a significant reduction in the margin of safety. The margin of safety, as defined in the BASES for the Technical Specifications, is not significantly affected by the changes to the rod misalignment limit. The Technical Specifications' allowed increase in peaking factor limits as power is reduced accommodates an increase in rod misalignment of [plus or minus] 18 steps below 90% of RTP. The initial conditions remain unchanged from that assumed in the UFSAR. Since the peaking factor limits are not modified, the proposed change does not constitute a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Florida International University, University Park, Miami, FL 33199

Attorney for licensee: J. R. Newman, Esquire, Morgan, Lewis & Bockius, 1800 M Street, NW., Washington, DC 20036

NRC Project Director: David B. Matthews

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of amendment request: July 26, 1995.

Description of amendment request: The licensee proposes to change Turkey Point Units 3 and 4 Technical Specifications to delete the requirement to adjust the Nuclear Instrumentation System (NIS) downward when operating at less than 70% of rated thermal power (RTP).

At reduced power levels (i.e., less than 70% of RTP), calorimetric power measurement uncertainties are most influenced by the feedwater flow measurements, which have the potential for large flow uncertainties under low flow conditions. These calorimetric uncertainties create the potential for a non-conservative gain adjustment of the NIS when the NIS is adjusted downward to match calorimetric power at reduced power levels, and may result in a non-conservative NIS power level indication when operating at higher power levels. Inappropriate gain adjustments could cause the NIS Power Range High Neutron Flux trip to occur at power levels beyond that assumed in the plant safety analyses. The proposed changes would correct this situation.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Operation of the facility in accordance with the proposed amendment would not involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed change does not involve any physical changes to the NIS. Implementation of the proposed change does not affect the probability of failure of the NIS and does not alter the method in which protection is afforded by the NIS for the reactor and primary system. Therefore, the proposed change does not result in an increase in the severity or consequences of any accident previously evaluated.

The proposed change in Technical Specifications to remove the requirement which could result in non-conservative gain adjustments of the NIS at reduced power levels (below 70% of RTP), will have no significant effect on the probability or consequences of licensing basis events; and the probability or consequences of an accident previously evaluated for Turkey Point has not been significantly increased. Therefore, operation of the facility in accordance with the proposed amendments would not involve a significant increase in the probability or consequences of an accident previously evaluated.

(2) Operation of the facility in accordance with the proposed amendment would not create the possibility of a new or different kind of accident from any accident previously evaluated.

The proposed change does not result in a change in the method in which the NIS provides plant protection. No change is being made which alters the function of the NIS. Therefore, the proposed change does not create the possibility of a new or different kind of accident nor involve a reduction in a margin of safety as defined in the Safety Analysis Report.

The change in Technical Specifications associated with the removal of the requirement which could result in non-conservative gain adjustments of the NIS at reduced power levels (below 70% of RTP) will not create the possibility of a new or different kind of accident from any accident previously evaluated.

(3) Operation of the facility in accordance with the proposed amendment would not involve a significant reduction in the margin of safety.

This change in Technical Specifications only affects the removal of the requirement which has the potential for non-conservative gain adjustments of the NIS at reduced power levels (below 70% of RTP); these changes do not alter the manner in which protection is afforded for the reactor and primary system. In addition, the fundamental process for implementation of the calorimetric power/NIS comparison remains the same.

The changes in Technical Specifications associated with the removal of the requirement, which could lead to non-conservative gain adjustments of the NIS at reduced power levels (below 70% of RTP), will not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Florida International University, University Park, Miami, FL 33199

Attorney for licensee: J. R. Newman, Esquire, Morgan, Lewis & Bockius, 1800 M Street, NW., Washington, DC 20036

NRC Project Director: David B. Matthews

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of amendment request: July 26, 1995.

Description of amendment request: The licensee proposes to change Turkey Point Units 3 and 4 Technical Specifications (TS) to incorporate certain changes which are consistent with guidance provided by NUREG-1366 and NRC Generic Letter (GL) 93-05, "Line-Item Technical Specification Improvements to Reduce Surveillance Requirements for Testing During Power Operation." The following proposed changes are requested:

(1) TS SR 4.1.3.1.2: Change the frequency interval for control rod movement test from monthly to quarterly.

(2) TS SR 4.6.5.1: Change the hydrogen monitor calibration from quarterly to each refueling interval, and the analog channel operational test from monthly to quarterly.

(3) TS SR Table 4.3-3: Change the analog channel functional test from monthly to quarterly for radiation monitors. Correct spelling of 'Radioactivity' in Item 1.a.

(4) TS SR 4.4.6.2.2: Increase the time allowed in COLD SHUTDOWN before leak testing the Reactor Coolant System (RCS) isolation valves is required, from 72 hours to 7 days.

(5) TS SR 4.10.1.2: Changes the requirement for a rod drop test prior to reducing SHUTDOWN MARGIN from "within 24 hours" to "within 7 days".

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Operation of the facility in accordance with the proposed amendments would not involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed amendments do not involve a significant increase in the probability or consequences of an accident previously evaluated because the proposed amendments conform to the guidance given in Enclosure 1 of the NRC Generic Letter 93-05. The overall functional capabilities of the rod control system, RCS pressure isolation valves, the hydrogen monitoring system, and the radiation monitoring systems will not be modified by the proposed change. These amendments will not involve a significant increase in the probability or consequences of an accident previously evaluated for the following reasons:

(1) Increasing the interval of control rod movement testing will reduce the possibility of testing-related reactor trips and dropped rods, and result in fewer challenges to safety systems and plant transients.

(2) Increasing the interval of hydrogen monitor calibration and operational tests will result in a reduction in equipment degradation and reduce a burdensome task on personnel resources.

(3) Increasing the interval of radiation monitor functional tests will result in less equipment degradation as well as reducing the potential for testing-related isolations of the control room, fuel handling building, auxiliary buildings, and various process lines.

(4) Increasing the time allowed in COLD SHUTDOWN prior to leak testing RCS isolation valves will permit plant personnel to focus on short notice outage recovery and minimize personnel radiation exposure. Since the methods and the acceptance criteria used for the leak test are not altered, increasing the time from 72 hours to 7 days will not significantly alter the associated risk.

(5) Increasing the time required to perform rod tests prior to reducing the SHUTDOWN MARGIN will result in only one rod drop test vice two following a refueling outage, which will in turn reduce plant transients and personnel resource requirements.

(2) Operation of the facility in accordance with the proposed amendments would not create the possibility of a new or different kind of accident from any accident previously evaluated.

The use of the proposed changes to the TS can not create the possibility of a new or different kind of accident from any accident previously evaluated since the proposed amendments will not change the physical plant or the modes of plant operation defined in the facility operating license. No new failure mode is introduced due to the surveillance interval changes and clarifications, since the proposed changes do not involve the addition or modification of equipment nor do they alter the design or operation of affected plant systems.

(3) Operation of the facility in accordance with the proposed amendments would not involve a significant reduction in a margin of safety.

The operating limits and functional capabilities of the affected systems are unchanged by the proposed amendments. The proposed changes to the TS which establish new or clarify old surveillance intervals consistent with the NRC Generic Letter 93-05 line-item improvement guidance do not significantly reduce any of the margins of safety even though the number of surveillances is decreased. These requested amendments are justified by the following reasoning from NUREG-1366:

(1) The surveillances could lead to plant transients which would challenge safety systems unnecessarily as in the cases of control rod movement tests and post-refueling rod drop tests.

(2) The surveillances result in the unnecessary wear to equipment as in the cases of the hydrogen and radiation monitor surveillances.

(3) The surveillance result in radiation exposure to plant personnel which is not justified by the safety significance of the surveillances as in the case of the time requirement for leak-testing RCS isolation valves when in COLD SHUTDOWN.

(4) The surveillances place an unnecessary burden on plant personnel because the time required is not justified by the safety significance of the surveillance, i.e. hydrogen monitor and post-refueling rod drop tests.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Florida International University, University Park, Miami, FL 33199

Attorney for licensee: J. R. Newman, Esquire, Morgan, Lewis & Bockius, 1800 M Street, NW., Washington, DC 20036

NRC Project Director: David B. Matthews

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of amendment request: July 26, 1995.

Description of amendment request: The licensee proposes to change Turkey Point Units 3 and 4 Technical Specification Administrative Controls Section 6.9.1.7 to reflect the use of the Westinghouse NOTRUMP model in the Small Break Loss-of-Coolant Accident (SBLOCA) analysis used in determining the K(z) curve contained in the Core Operating Limits Report (COLR). The following references would be added to Section 6.9.1.7 (COLR) of the Administrative Controls section of Turkey Point Units 3 and 4 TS: ≥WCAP-10054-P-A, (proprietary) and WCAP-10081-NP-A, (non-proprietary), "Westinghouse Small Break ECCS Evaluation Model Using the NOTRUMP Code", October, 1985." WCAP-10054-P-A Addendum 2, (proprietary), "Addendum to the Westinghouse Small Break ECCS Evaluation Model Using the NOTRUMP Code: Safety Injection into the Broken Loop and COSI Condensation Model", August, 1994."

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Operation of the facility in accordance with the proposed amendment would not involve a significant increase in the probability or consequences of an accident previously evaluated.

The modification to the current Section 6.9.1.7 of the Administrative Controls section of the Turkey Point Technical Specifications to include the references to WCAP-10054-P-A, "Small Break ECCS Evaluation Model Using the NOTRUMP Code", and WCAP-10054-P-A Addendum 2 for the COSI model, does not involve an increase in the probability or consequences of an accident previously evaluated. This modification to the Technical Specification does not change the probability of occurrence previously evaluated.

This change does not affect the integrity of the fission product barriers utilized for mitigation of radiological dose consequences as a result of an accident. The addition of the new methodology used for Turkey Point uprating analysis does not change, degrade, or prevent the response of safety related mitigation systems to accident scenarios, as described in the Updated Final Safety Analysis Report (UFSAR) Chapter 14. Therefore, the licensee concluded that the probability or consequences of an accident previously evaluated are not increased.

(2) Operation of the facility in accordance with the proposed amendment would not create the possibility of a new or different kind of accident from any accident previously evaluated.

The modification to the current Section 6.9.1.7 of the Administrative Controls section of the Turkey Point Technical Specifications to include the references to WCAP-10054-P-A, "Small Break ECCS Evaluation Model Using the NOTRUMP Code", and WCAP-10054-P-A Addendum 2 for the COSI model, will not create the possibility of a new or different kind of accident from any accident previously evaluated. No new operating configuration is being imposed by the addition of the references to the Technical Specification. Therefore, no new failure modes or limiting single failures have been identified. The licensee concludes that no new or different kind of accidents from those previously evaluated have been created as a result of this revision.

(3) Operation of the facility in accordance with the proposed amendment would not involve a significant reduction in the margin of safety.

The modification to the current Section 6.9.1.7 of the Administrative Controls section of the Turkey Point Technical Specifications to include the references for the Small Break ECCS Evaluation Model Using the NOTRUMP Code will not involve a reduction in the margin of safety. The SBLOCA analysis results show that the limits of 10 CFR 50.46 are maintained as follows. The new calculated value of worst-case PCT will be 1686°F, which is less than the limit of 2200°F. There is significant margin in the current SBLOCA analysis such that the total cladding oxidation limit of 17 percent will not be challenged. Further, the calculated total amount of hydrogen generated has been determined to remain less than 1 percent. The SBLOCA hydraulic forces are not affected by the K(z) curve and the licensee concludes that the core will remain amenable to cooling. Additionally, post-LOCA long term core cooling and hot leg switchover evaluations are not impacted by the K(z) curve. Therefore, there is no significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Florida International University, University Park, Miami, FL 33199

NRC Project Director: David B. Matthews

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of amendment request: July 26, 1995.

Description of amendment request: The licensee proposes to change Turkey Point Units 3 and 4 Technical Specifications to achieve consistency throughout these documents by (a) removing outdated material, (b) incorporating administrative clarifications and corrections, and (c) correcting typographical errors.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

(1) Operation of the facility in accordance with the proposed amendment would not involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed amendments do not involve a significant increase in the probability or consequences of an accident previously evaluated because the proposed amendments are purely administrative in nature. These amendments will not involve a significant increase in the probability or consequences of an accident previously evaluated because they do not affect assumptions contained in plant safety analyses, the physical design and/or operation of the plant, nor do they affect Technical Specifications that preserve safety analysis assumptions. Therefore, the proposed changes do not affect the probability or consequences of accidents previously analyzed.

(2) Operation of the facility in accordance with the proposed amendment would not create the possibility of a new or different kind of accident from any accident previously evaluated.

The use of the modified specifications can not create the possibility of a new or different kind of accident from any previously evaluated since the proposed amendments will not change the physical plant or the modes of plant operation defined in the facility operating license. No new failure mode is introduced due to the administrative changes and clarifications, since the proposed changes do not involve the addition or modification of equipment nor do they alter the design or operation of affected plant systems, structures, or components.

(3) Operation of the facility in accordance with the proposed amendment would not involve a significant reduction in the margin of safety.

The operating limits and functional capabilities of the affected systems, structures, and components are unchanged by the proposed amendments. The modified specifications which correct administrative errors and clarify existing Technical Specification requirements do not significantly reduce any of the margins of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

NRC Project Director: David B. Matthews

Gulf States Utilities Company, Cajun Electric Power Cooperative, and Entergy Operations, Inc., Docket No. 50-458, River Bend Station, Unit 1, West Feliciana Parish, Louisiana

Date of amendment request: August 17, 1995

Description of amendment request: The proposed amendment would allow the containment to be opened after about 11 days following shutdown during refueling and would redefine the operability requirements for selected engineered safety feature systems such that these systems are only required to be operable during the calculated decay period. The proposed changes will not remove requirements for systems to mitigate potential vessel draindown events, will not remove requirements for systems required for decay heat removal, and will continue to require high water level over the vessel during fuel movement. Programs are in place to close the containment, if needed, to address shutdown risk concerns.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

The proposed limits on recently irradiated fuel is used to establish operational conditions where specific activities represent situations where significant radioactive releases can be postulated. These operational conditions are consistent with the design basis analysis. Because the equipment affected by the revised operational conditions is not considered an initiator to any previously analyzed accident, inoperability of the equipment cannot increase the probability of any previously evaluated accident.

The proposed applicability in conjunction with existing administrative controls on light loads, bounds the conditions of the current design basis fuel handling accident analysis. The analysis also concludes the limiting offsite radiological consequences are well within the acceptance criteria of NUREG 0800, Section 15.7.4 and GDC 19. The analysis is also conducted in a conservative manner containing margins in the calculation of mechanical analysis, iodine inventory and iodine decontamination factor. Each of these conservatisms will further decrease the consequences. Therefore, the proposed changes do not significantly increase the probability or consequences of any previously evaluated accident.

The proposed limits are used to establish operational conditions where specific activities represent situations where significant radioactive releases can be postulated. In addition, the changes to operation are consistent with previous limits – only allowing increased flexibility after the radiological consequences are assured to remain within accepted limits. Therefore, these operational conditions are consistent with the design basis analysis. The proposed changes do not introduce any new modes of plant operation and do not involve physical modifications to the plant. Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any previous analyzed.

The revised limits are used to establish operational conditions where specific activities represent situations where significant radioactive release can be postulated. These operational conditions are consistent with the design basis analysis and are established such that the radiological consequences are at or below the current RBS licensing limit. Safety margins and analytical conservatisms have been evaluated and are well understood. Conservative methods of analysis are maintained through the use of accepted methodology and benchmarking the proposed methods to previous analysis. Margins are retained to ensure that the analysis adequately bounds all postulated event scenarios. The proposed change only eliminates some excess conservatism from the analysis.

EOI has implemented NUMARC 91-06 guidelines for shutdown operations at RBS. Shutdown Operations Protection Plan and Primary-Secondary Containment Integrity procedures presently include guidance for closure of the containment hatch and other significant opening in containment, in addition to the requirements contained in the license and design basis. This additional protection will enhance the ability to limit offsite effects.

Acceptance limits for the fuel handling accident are provided in 10CFR100 with additional guidance provided in NUREG 0800, Section 15.7.4 Excess margin is the difference between the postulated doses and the corresponding licensing limit. In the initial review of River Bend Station for operation (NUREG-0989, Section 15.7.4), the NRC accepted the design and analysis based on meeting the guideline dose limits of 10CFR100 and SRP 15.7.4. The proposed applicability continues to ensure that the whole-body and thyroid doses at the exclusion area and low population zone boundaries, as well as control room doses, are below the corresponding licensing limit. These margins are unchanged; therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Government Documents Department, Louisiana State University, Baton Rouge, LA 70803

Attorney for licensee: Mark Wetterhahn, Esq., Winston & Strawn, 1400 L Street, N.W., Washington, DC 20005

NRC Project Director: William D. Beckner

Indiana Michigan Power Company, Docket Nos. 50-315 and 50-316, Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2, Berrien County, Michigan

Date of amendment requests: June 20, 1995 (AEP:NRC:0692CX)

Description of amendment requests: The proposed amendments would remove the requirements for fire protection systems from the licenses and the Technical Specifications (T/S) in accordance with the provisions and guidance of Generic Letters (GL) 86-10, "Implementation of Fire Protection Requirements," 88-12, "Removal of Fire Protection Requirements from Technical Specifications," and 93-07, Modification of the Technical Specification Administrative Control Requirements for Emergency and Security Plans."

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

We have evaluated the proposed T/S changes and have determined that the changes should involve no significant hazards consideration based on the criteria established in 10 CFR 50.92(c). Operation of CNP [Cook Nuclear Plant] in accordance with the proposed amendment will not satisfy any of the following criteria.

(a) Involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed changes are administrative in nature, in that it moves the T/Ss portion of the Fire Protection Program from the T/Ss to the UFSAR [Updated Final Safety Analysis Report] and the implementing procedures. This is accomplished by referencing in the UFSAR and the documents which address the Fire Protection Program in greater detail. Thus, the proposed changes will not revise the requirements for fire protection equipment operability, testing, or inspection, but only moves the T/Ss portion of the Fire Protection Program to implementing procedures.

As fire protection requirements are only being relocated following the guidance of GLs 86-10, 88-12, and 93-07, the proposed changes do not involve a significant increase in the probability or consequences of an accident previously evaluated.

(b) Create the possibility of a new or different kind of accident from any previously analyzed.

The proposed changes do not involve any physical alteration of plant configurations, changes to setpoints, or operating parameters. [These] are administrative changes that retain the existing fire protection requirements and relocate these requirements from the T/S to the UFSAR; therefore, these changes do not create the possibility of a new or different kind of accident.

(c) Involve a significant reduction in a margin of safety.

The proposed changes follow guidance contained in GLs 86-10, 88-12, and 93-07 for incorporating the Fire Protection Program into the UFSAR. A license condition will be implemented that will require that no changes can be made to the Fire Protection Program that will adversely affect the ability to achieve or maintain safe shutdown in the event of a fire without prior NRC approval. Therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment requests involve no significant hazards consideration.

NRC Project Director: John N. Hannon

Northeast Nuclear Energy Company, et al., Docket No. 50-336, Millstone Nuclear Power Station, Unit No. 2, New London, Connecticut

Date of amendment request: August 23, 1995

Description of amendment request: The proposed amendment would revise Technical Specifications Section 3.8.1.1 and the Bases for Section 3/4.8. The proposed amendment would extend the Allowed Outage Time (AOT) for an Emergency Diesel Generator (EDG) from 72 hours to 7 days.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration (SHC), which is presented below:

... NNECO concludes that these changes do not involve a significant hazards consideration since the proposed change satisfies the criteria of 10 CFR 50.92(c). That is, the proposed changes do not:

1. Involve a significant increase in the probability or consequences of an accident previously analyzed.

The EDGs supply backup power to the essential safety systems in the event of a Loss of Normal (offsite) Power. EDGs are not accident initiators. Therefore, this change does not involve an increase in the probability of any accident previously evaluated.

Although the EDGs provide backup power to components that help mitigate the consequences of accidents previously evaluated, the extension in the AOT does not affect any of the assumptions used in the deterministic evaluations of these accidents. Thus, this change will not increase the consequences of any accident previously analyzed.

The increase in the EDG AOT introduces the potential to increase the risk to the public since a longer time window provides an opportunity to perform additional preventive maintenance to the EDG while the plant is on-line. However, the extended AOT, by itself, does not necessarily increase risk. The increase in the risk depends on the total time during which an EDG was out of service and the other equipment that is concurrently out of service with the EDG. The total risk increase due to the EDG being out of service will not be significant since that risk increase is monitored and kept at acceptable levels in accordance with the risk monitor program.

Based on the above, the proposal to extend the AOT for the EDGs (Technical Specification 3.8.1) does not involve a significant increase in the probability or consequences of an accident previously analyzed.

2. Create the possibility of a new or different kind of accident from any previously analyzed.

The proposed change to extend the AOT for the EDGs (Technical Specification 3.8.1) does not alter the physical design, configuration, or method of operation of the plant. Therefore, the proposal does not create the possibility of a new or different kind of accident from any previously analyzed.

3. Involve a significant reduction in the margin of safety.

The proposed change to extend the AOT for the EDGs (Technical Specification 3.8.1) do not affect the Limiting Conditions for Operations or their bases. As a result, the deterministic analyses performed to establish the margin of safety are unaffected. Thus, the change does not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360.

Attorney for licensee: Lillian M. Cuoco, Esq., Senior Nuclear Counsel, Northeast Utilities Service Company, P.O. Box 270, Hartford, CT 06141-0270

NRC Project Director: Phillip F. McKee

Northeast Nuclear Energy Company, et al., Docket No. 50-336, Millstone Nuclear Power Station, Unit No. 2, New London, Connecticut

Date of amendment request: August 23, 1995

Description of amendment request: The proposed amendment would extend the Allowed Outage Time (AOT) for an inoperable Safety Injection Tank (SIT) from 1 hour to 24 hours, unless the SIT is inoperable due to either boron concentration not within its limits or an inoperable level or pressure instrument. For these two special cases, the proposed change extends the AOT for an inoperable SIT to 72 hours. In addition, the proposed amendment clarifies the completion times and conditions for action statements and the criteria for surveillance requirements.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration (SHC), which is presented below:

... NNECO concludes that these changes do not involve a significant hazards consideration since the proposed change satisfies the criteria in 10 CFR 50.92(c). That is, the proposed changes do not:

1. Involve a significant increase in the probability or consequences of an accident previously analyzed.

The Safety Injection Tanks (SITs) are passive components in the Emergency Core Cooling System that mitigate the consequences of a Loss of Coolant Accident (LOCA). As such, the SITs are not accident initiators. Therefore, this change does not involve an increase in the probability of any accident previously evaluated.

The increase in the AOT has the potential to increase the risk if it becomes necessary to stay on-line longer than one (1) hour with an inoperable SIT. However, the estimated risk impact is negligible.

The SITs inject borated water into the reactor vessel (via the cold legs) during the blowdown phase of a large break LOCA. The introduction of the inventory of borated water from all four (4) SITs is needed to ensure adequate reflooding of the core (i.e., minimize core damage) until the Engineered Safety Feature (ESF) pumps can provide adequate core cooling. The SITs also provide makeup water for the Reactor Coolant System (RCS) for smaller break LOCAs. The extension of the AOT does not affect any of the assumptions used in the deterministic evaluations of these accidents. Thus, this change will not increase the consequences of any accident previously evaluated.

The increased AOT extension to 72 hours, based solely on instrumentation (level and pressure) malfunction, also does not involve a significant increase in the consequences of an accident previously evaluated as endorsed by the NRC in NUREG-1366, "Improvements to Technical Specifications Surveillance Requirements."

The modification to the completion times and the modification of the Surveillance Requirements for volumetric changes in the SIT as a result of addition from the Refueling Water Storage Tank (RWST) also do not involve a significant increase in the consequences of any accident previously evaluated by the NRC in NUREG-1432, "Standard Technical Specifications for Combustion Engineering Plants."

Based on the above, the proposed changes to extend the AOT for an inoperable SIT, clarify action statements, and modify the criteria for surveillance requirements, do not involve a significant increase in the probability or consequences of an accident previously analyzed.

2. Create the possibility of a new or different kind of accident from any previously analyzed.

The proposed changes to extend the AOT for an inoperable SIT, clarify action statements, and modify the criteria for surveillance requirements, do not alter the physical design, configuration, or method of operation of the plant. Therefore, the proposal does not create the possibility of a new or different kind of accident from any previously analyzed.

3. Involve a significant reduction in the margin of safety.

The proposed changes to extend the AOT for an inoperable SIT, clarify action statements, and modify the criteria for surveillance requirements, do not affect the Limiting Conditions for Operations (LCOs) of the SITs or the bases of the LCOs. As a result, the deterministic analyses performed to establish the margin of safety are unaffected. Thus, the change does not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360.

Attorney for licensee: Lillian M. Cuoco, Esq., Senior Nuclear Counsel, Northeast Utilities Service Company, P.O. Box 270, Hartford, CT 06141-0270

NRC Project Director: Phillip F. McKee

Northern States Power Company, Docket Nos. 50-282 and 50-306, Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2, Goodhue County, Minnesota

Date of amendment requests: May 4, 1995.

Description of amendment requests: The proposed amendments would revise the pressurizer and main steam safety valve lift setting tolerances from plus or minus 1% to plus or minus 3%, revise the Safety Limit curves and revise the Technical Specification Section 2 to conform to Standard Technical Specifications.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed amendment will not involve a significant increase in the probability or consequences of an accident previously evaluated

The proposed changes increase the "as-found" setpoint tolerances for the Pressurizer Safety Valves and Main Steam Safety Valves from [plus or minus] 1% to [plus or minus] 3%. The proposed changes do not involve any hardware modifications to plant structures, systems, or components. Analyses have determined that the proposed changes do not significantly affect the structural integrity of either the Reactor Coolant System or the Main Steam system.

The proposed setpoint tolerance of [plus or minus] 3% was included in the assumptions for the performance of the reload safety evaluations for the current fuel cycles, PI1-17 and PI2-16, and subsequent Prairie Island fuel cycle analyses. These analyses concluded that the minimum acceptable DNBR [departure from nucleate boiling ratio] is maintained, over-pressure protection is maintained, LOCA [loss-of-coolant accident] acceptance criteria are met and offsite dose limits are not exceeded. These changes are consistent with the guidance provided by Section III and XI of the ASME [American Society of Mechanical Engineers] Code and Standard Technical Specifications.

The proposed change to Technical Specification Figure TS.2.1-1 does not affect any existing accident analyses. This revision ensures that the design bases and safety limits are accurately and appropriately reflected in the Technical Specifications and will ensure that plant operations are properly evaluated for DNBR encroachment.

Therefore, the probability or consequences of an accident previously evaluated are not affected by any of the proposed amendments.

2. The proposed amendment will not create the possibility of a new of different

kind of accident from any accident previously analyzed The lift setpoint the Pressurizer Safety Valves and Main Steam Safety Valves will be restored to [plus or minus] 1% following testing, thus the "as-left" setpoint tolerance for the Pressurizer Safety Valves and Main Steam Safety Valves are unchanged. Evaluations of plant normal operation, transient and accident conditions have been performed assuming these safety valve lift settings are [plus or minus] 3% of the nominal setpoint and demonstrated that new or different kinds of accidents are not created by the proposed changes.

The proposed changes to Technical Specification Figure TS.2.1-1 do not affect the design, function or operation of any Prairie Island structures, systems or components. The curves show the loci of points of reactor core differential temperature (an indication of thermal power), Reactor Coolant System pressure, and average temperature for which the minimum DNBR is not less than the safety analysis limit, that fuel centerline temperature remains below melting, that the average enthalpy in the hot leg is less than or equal to enthalpy of saturated liquid, or that the exit quality is within the limits defined by the applicable DNBR correlation. There are no new failure modes introduced by the proposed changes to the Figure. The changes conservatively adjust Figure TS.2.1-1 to current plant conditions and ensure that the design is accurately reflected and that the plant is operated in accordance with its design bases.

Therefore, the possibility of a new or different kind of accident from any accident previously evaluated would not be created [by] these amendments.

3. The proposed amendment will not involve a significant reduction in the margin of safety

The proposed changes to the safety valve lift setting tolerances are consistent with the guidance provided by Section III and XI of the ASME Code and Standard Technical Specifications. Analyses have demonstrated these valves will continue to perform their function of protecting their respective system from over-pressurization under all postulated transients and accidents. The changed setting tolerances do not cause a reduction in any other safety margin such as DNBR. SAFETY LIMIT curves are provided to define minimum allowable safety margin for plant steady state operation, normal operational transients and anticipated operational occurrences. The SAFETY LIMITs represent a design requirement for establishment of many of the RPS [reactor protection system] trip setpoints which prevent reactor conditions from approaching the SAFETY LIMITs. The proposed revision of the SAFETY LIMIT curves provide the minimum safety margins with somewhat more conservatism than previously included. No RPS trips setpoints are changed.

Therefore, a significant reduction in the margin of safety would not be involved with these amendments.

Based on the evaluation described above, and pursuant to 10 CFR Part 50, Section 50.91, Northern States Power Company has determined that operation [of] the Prairie Island Nuclear Generating Plant in accordance with the proposed license amendment request does not involve any significant hazards considerations as defined by Nuclear Regulatory Commission regulations in 10 CFR Part 50, Section 50.92.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment requests involve no significant hazards consideration.

Local Public Document Room location: Minneapolis Public Library, Technology and Science Department, 300 Nicollet Mall, Minneapolis, MN 55401

Attorney for licensee: Jay Silberg, Esq., Shaw, Pittman, Potts, and Trowbridge, 2300 N Street, NW, Washington, DC 20037

NRC Project Director: John N. Hannon

Pennsylvania Power and Light Company, Docket Nos. 50-387 and 50-388 Susquehanna Steam Electric Station, Units 1 and 2, Luzerne County, Pennsylvania

Date of amendment request: July 28, 1995

Description of amendment request: The proposed amendment would revise the 250 volt DC [direct current] profiles in Technical Specifications Surveillance 4.8.2.1 (d) (2c) to reflect the new load profile calculations.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Involve a significant increase in the probability or consequences of an accident previously evaluated.

[Final Safety Analysis Report] FSAR Section 8.3 states that the station batteries have sufficient capacity without the charger to independently supply the required loads for four hours. The Technical Specifications require that the batteries be surveilled to dummy loads which are greater than the design loads. The load profiles for the 250 VDC batteries were recalculated using discrete increments of time when the loads would be in use for each of five design basis events. The Technical Specification load profiles are a composite of the worst case loads for the events plus margin. The required ampere-hours for each battery using the new load profiles is less than the ampere-hours required using the existing load profiles. Therefore, since the load profiles envelop the actual loads on the batteries, the change to the 250 VDC battery load profiles does not involve a significant increase in the probability or consequence of an accident previously evaluated.

2. Create the possibility of a new or different kind of accident from any accident previously evaluated.

As stated above, the 250 VDC batteries have sufficient capacity to power the actual battery loads thus enabling them to perform their intended function. Any postulated accident resulting from this change is bounded by previous analysis. Therefore, the change to the 250 VDC battery load profiles does not create the possibility of a new or different kind of accident from any previously evaluated.

3. Involve a significant reduction in a margin of safety.

The Class 1E 250 VDC batteries are required to have sufficient capacity and capability to ensure sufficient power is available to supply the safety related equipment for (1) the safe shutdown of the facilities and (2) the mitigation and control of accident conditions within the facilities. The proposed load profiles envelope the worst case loads plus margin.

The ampere-hours removed from the Class 1E 250 VDC batteries are less for the proposed load profiles than the existing load profiles. The ampere-hours available in the batteries after the batteries have supplies[d] the emergency loads for 4 hours are: [See table in subject application].

* * * * * * *

Engineering calculation shows that the Class 1E 250 VDC batteries maintain at least 210 VDC at the Class 1E 250 VDC MCCs while supplying the proposed loads, corrected for temperature and aging. Since the Class 1E 250 VDC circuits are designed to operate properly with a minimum of 210 VDC at the Class 1E MCCs, all the Class 1E emergency equipment supplied from the Class 1E batteries have sufficient voltage to operate for 4 hours after the loss of ac power.

The Class 1E 250 VDC batteries and Class 1E 250 VDC battery chargers have been sized using the proposed load profiles. The Engineering calculation shows that the 120 cell, 12 positive plates per cell battery banks are sufficient to supply the proposed load profiles, corrected for temperature and aging. The same calculation also shows that the Class 1E 250 VDC battery chargers have sufficient capacity to re-charge the batteries from the proposed emergency discharged conditions to the fully charged condition in 12 hours while continuing to supply the plant normal continuous loads.

Base upon the above discussion, the proposed changes to the Technical Specification load profiles do not reduce the margin of safety as defined in the Technical Specifications.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701

Attorney for licensee: Jay Silberg, Esquire, Shaw, Pittman, Potts and Trowbridge, 2300 N Street NW., Washington, DC 20037

NRC Project Director: John F. Stolz

Pennsylvania Power and Light Company, Docket No. 50-388, Susquehanna Steam Electric Station, Unit 2, Luzerne County, Pennsylvania

Date of amendment request: August 11, 1995

Description of amendment request: The proposed amendment would revise Susquehanna Unit 2 Technical Specification Table 3.3.7.5-1 as follows:a.

Revise Item ι13, Required Number of Channels from 1 to 2;b.

Revise Item ι13, Minimum Channel Operable from 0 to 1;c.

Delete Footnote ιι.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

I. This proposal does not involve a significant increase in the probability or consequences of an accident previously evaluated.

Reestablishing the channel operability values in Item ι13 of Technical Specification Table 3.3.7.5-1, and deleting footnote ιι, has no impact on the probability or consequences of an accident previously evaluated. The proposed change in the channel operability values is a return to the values which were reviewed as part of the licensing basis.

II. This proposal does not create the possibility of a new or different kind of accident from any accident previously evaluated.

Reestablishing the channel operability values in Item ι13 of Technical Specification Table 3.3.7.5-1, and deleting footnote ιι, does not create the possibility of a new or different kind of accident from any accident previously evaluated. The change in the channel operability values increases the required number of channels available for accident monitoring. There is no correlation between increasing the number of neutron flux accident monitoring channels available and the creation of accident scenarios.

III. This change does not involve a significant reduction in a margin of safety.

Reestablishing the channel operability values in Item ι13 of Technical Specification Table 3.3.7.5-1, and deleting footnote ιι, does not involve a reduction in a margin of safety. The proposed change increases the number of required channels from current levels, and restores the values to those which have historically been required. At the present time, the number of required channels is being administratively controlled at the proposed levels to ensure conservatism in operability.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701

Attorney for licensee: Jay Silberg, Esquire, Shaw, Pittman, Potts and Trowbridge, 2300 N Street NW., Washington, DC 20037

NRC Project Director: John F. Stolz

Power Authority of the State of New York, Docket No. 50-333, James A. FitzPatrick Nuclear Power Plant, Oswego County, New York

Date of amendment request: May 12, 1995

Description of amendment request: The proposed change would extend the surveillance test intervals for the emergency service water (ESW) system to support 24 month operating cycles.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

Operation of the FitzPatrick plant in accordance with the proposed Amendment would not involve a significant hazards consideration as defined in 10 CFR 50.92 since it would not:

1. involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed changes increase the interval between ESW system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. These changes do not involve any physical changes to the plant, nor do they alter the typical way the ESW system functions. On-line testing will continue to assure equipment availability. The type of testing and the corrective actions required if the subject ESW surveillances fail remain the same. As such, the proposed changes create no new impacts on accidents previously evaluated.

Therefore, the proposed changes do not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. create the possibility of a new or different kind of accident from any accident previously evaluated.

The proposed changes increase the interval between ESW system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. The proposed changes do not change the ability of the ESW system to provide heat removal for the ECCS [emergency core cooling system] components and other equipment essential to reactor shutdown. Past equipment performance and on-line testing indicate the longer test intervals will not degrade ESW equipment. No changes are proposed to the type of testing performed, only to the length of the surveillance interval. The proposed changes do not modify the design or operation of plant equipment, therefore, no new or different failure modes are introduced.

Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. involve a significant reduction in a margin of safety.

The proposed changes increase the interval between ESW system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. The proposed changes do not alter the configuration of the ESW system nor change the manner in which the ESW equipment functions. Past equipment performance and on-line testing indicate the longer test intervals will not degrade ESW equipment. Operation of the plant remains unchanged by the proposed changes.

Therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Reference and Documents Department, Penfield Library, State University of New York, Oswego, NY 13126

Attorney for licensee: Mr. Charles M. Pratt, 1633 Broadway, New York, NY 10019

NRC Project Director: Ledyard B. Marsh

Power Authority of the State of New York, Docket No. 50-333, James A. FitzPatrick Nuclear Power Plant, Oswego County, New York

Date of amendment request: June 15, 1995

Description of amendment request: The proposed change would extend the surveillance test intervals for the control rod system to support 24 month operating cycles.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

Operation of the FitzPatrick plant in accordance with the proposed Amendment would not involve a significant hazards consideration as defined in 10 CFR 50.92, since it would not:

11. involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed changes increase the interval between control rod system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. These changes do not involve any physical changes to the plant, nor do they alter the way the control rod system functions. The type of testing and the corrective actions required if the subject control rod surveillances fail remain the same. As such, the proposed changes create no new impacts on accidents previously evaluated.

The reactivity margin - core loading test can be safely extended to accommodate the 24 month operating cycle. The calculation of reactivity margin takes into account the longer operating cycle.

The control rod scram time test can be safely extended to accommodate a 24 month operating cycle. Operating experience has indicated that control rod scram times do not significantly change over an operating cycle. Additional on-line testing provides adequate assurance of equipment operability.

The SDIV [Scram Discharge Instrument Volume] vent and drain valve operability test can be safely extended to accommodate a 24 month operating cycle. Evaluation of past surveillance performance and additional on-line testing assure valve operability. The operability of the mode switch and the reset switch is demonstrated during shutdowns.

Therefore, the proposed changes do not involve a significant increase in the probability and do not change the consequences of an accident previously evaluated.

2. create the possibility of a new or different kind of accident from any accident previously evaluated.

The proposed changes increase the interval between control rod system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. The proposed changes do not change the ability of the control rod system to provide rapid reactivity control in order that no fuel damage results from any abnormal operating transient. Past equipment performance and on-line testing indicate the longer test intervals will not degrade control equipment. No changes are proposed to the type of testing performed, only to the surveillance interval length. The proposed changes do not modify the design or operation of plant equipment, therefore, no new or different failure modes are introduced.

Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. involve a significant reduction in a margin of safety.

The proposed changes increase the interval between control rod system surveillance tests. These changes are consistent with the guidance provided in Generic Letter 91-04. The proposed changes do not alter the configuration of the control rod system nor change the manner in which the control rod system functions. Past equipment performance and on-line testing indicate the longer test intervals will not degrade control rod equipment. Operation of the plant remains unchanged by the proposed changes.

Therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Reference and Documents Department, Penfield Library, State University of New York, Oswego, NY 13126

Attorney for licensee: Mr. Charles M. Pratt, 1633 Broadway, New York, NY 10019

NRC Project Director: Ledyard B. Marsh

Power Authority of the State of New York, Docket No. 50-333, James A. FitzPatrick Nuclear Power Plant, Oswego County, New York

Date of amendment request: July 21, 1995

Description of amendment request: The proposed changes would replace the title-specific list of members on the Plant Operating Review Committee (PORC) with a more general statement of membership requirements, similar to that used to define Safety Review Committee membership; expand the scope of disciplines represented on the PORC to include Nuclear Licensing and Quality Assurance; change several management position titles; and, make several editorial corrections to the Technical Specifications.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

Replacing the title specific list of PORC members with a statement of membership requirements for the committee does not reduce the effectiveness of the committee to advise the Resident Manager (Site Executive Officer) on matters regarding nuclear safety.

The proposed title changes for the Chief Nuclear Officer, Site Executive Officer, Shift Manager, and Control Room Supervisor are changes in title only and do not affect the responsibilities, authority, qualification requirements, or reporting relationships of these positions.

The change proposed for Specification 6.12 is administrative in nature, reflecting a change previously approved elsewhere in Technical Specifications.

The Radiological and Environmental Services Manager title change proposed for Specification 6.11(A)2 is administrative in nature, reflecting a change previously approved elsewhere in Technical Specifications.

The remainder of proposed changes correct grammar or improve consistency in Technical Specification formatting and do not affect the meaning or intent of the specifications involved.

Operation of the James A. FitzPatrick Nuclear Power Plant in accordance with the proposed amendment would not involve a significant hazards consideration as defined in 10 CFR 50.92. The changes are administrative in nature and would not:

1. involve a significant increase in the probability or consequences of an accident previously evaluated,

2. create the possibility of a new or different kind of accident from those previously evaluated, or

3. involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Reference and Documents Department, Penfield Library, State University of New York, Oswego, New York 13126.

Attorney for licensee: Mr. Charles M. Pratt, 1633 Broadway, New York, NY 10019

NRC Project Director: Ledyard B. Marsh

Public Service Electric & Gas Company, Docket No. 50-354, Hope Creek Generating Station, Salem County, New Jersey

Date of amendment request: July 27, 1995

Description of amendment request: The proposed change to the Technical Specifications (TS) would incorporate updated pressure vs. temperature operating limit curves contained in TS Figure 3.4.6.1-1 and revise TS Surveillance Requirement 4.4.6.1.3 based on implementation of Regulatory Guide 1.99, Rev. 2 in accordance with Generic Letter 88-11. The changes are a result of data obtained from the first set of specimen capsules removed during Refueling Outage 5.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Will not involve a significant increase in the probability or consequences of an accident [...] previously evaluated.

The proposed changes assure that the existing safety limits are not exceeded due to changing Reactor Vessel conditions. These changes reflect the latest material testing

results in accordance with 10CFR50, Appendix G. The proposed changes to the pressure and temperature limits do not increase the probability of nonductile failures. The proposed changes to the surveillance requirement and the associated changes to the Bases to include a commitment to the methodology of Regulatory Guide 1.99, Rev. 2 ensures that the most limiting Reactor Vessel material is used in the determination of the pressure-temperature operating limits.

Therefore, it may be concluded that the proposed changes do not involve a significant increase in the probability or consequences of an accident or malfunction of equipment important to safety previously evaluated.

2. Will not create the possibility of a new or different kind of accident from any previously evaluated.

No physical plant modifications or new operating configurations result from these changes. These changes do not adversely affect the design or operation of any system or component important to safety, rather they establish limits to assure that operations remain within acceptable safety boundaries.

Therefore, the possibility of a new or different kind of accident from any previously evaluated will not be created.

3. Will not involve a significant reduction in a margin of safety. Analysis of the capsule specimens has concluded that the Reactor Vessel has sufficient fracture toughness for continued safe operation, provided that operation remains within acceptable pressure-temperature limits. The revised pressure-temperature curves define these acceptable pressure-temperature limits during plant operation. The proposed changes maintain the existing margins of safety by modifying the operating limits based on the most limiting of the actual reference temperature shifts. This new limit considered analytical results of the capsule specimens, or a predicted shift considering the most limiting pressure vessel material. Changes to the Surveillance Requirement criteria and the associated Bases to include a commitment to the methodology contained in Regulatory Guide 1.99, Rev. 2 will ensure that the most limiting plate or beltline weld material will be utilized in the determination of the pressure-temperature limits.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Local Public Document Room location: Pennsville Public Library, 190 S. Broadway, Pennsville, NJ 08070

Attorney for licensee: M. J. Wetterhahn, Esquire, Winston and Strawn, 1400 L Street, NW., Washington, DC 20005-3502

NRC Project Director: John F. Stolz

Southern California Edison Company, et al., Docket Nos. 50-361 and 50-362, San Onofre Nuclear Generating Station, Unit Nos. 2 and 3, San Diego County, California

Date of amendment requests: August 1, 1995

Description of amendment requests: The amendment request proposes to change Technical Specification (TS) 3/4.3.2, Table 3.3-3, "Engineered Safety Features Actuation System Instrumentation." TS 3/4.3.2 includes the requirements for the minimum number of toxic gas isolation system (TGIS) trains operable. The TS change request is to extend the allowed TGIS outage times during replacement of TGIS instrumentation.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

The Toxic Gas Isolation System (TGIS) is designed to monitor and mitigate the effects of toxic gas releases on control room habitability. TGIS unavailability is not a precursor to any accident previously evaluated in Chapter 15 of the San Onofre Updated Final Safety Analysis Report (UFSAR). A risk assessment of the TGIS instrumentation replacement activity was performed and found that the likelihood of a loss of control room habitability beyond that permitted by the Technical Specifications (TS) will not exceed 1E-6 over the duration of this TS change. In addition, a loss of control room habitability does not necessarily lead to an accident or core damage event. However, if a loss of control room habitability was conservatively assumed to lead to a core damage event, this increase in risk would still not constitute a significant increase in the consequences or probability of any accident previously evaluated since the increase is less than 3% of the average annual core damage risk from internal events as reported in the San Onofre Individual Plant Examination. Therefore, operation of the facility in accordance with this proposed change does not involve a significant increase in the probability or consequences of any accident previously evaluated.

2. The proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

This change extends the allowed outage times of the TGIS system. The change does not affect the design or operation of any other plant systems. An increase in TGIS unavailability is not a precursor to any accident previously evaluated in Chapter 15 of the San Onofre UFSAR. Therefore, operation of the facility in accordance with this proposed change does not create the possibility of a new or different kind of accident from any previously evaluated.

3. The proposed change does not involve a significant reduction in a margin of safety.

During replacement of TGIS instrumentation a single channel of TGIS will be maintained operable except during periods when construction activity may result in spurious TGIS alarms. During these periods the control room will normally be isolated except for brief periods when the control room will be open to allow for air exchange or to allow for CREACUS equipment repair. These periods, when the control room is open without a TGIS channel available, will not exceed 54 hours during the entire period when this change is in effect. Operation with control room ventilation in the normal mode with a single channel of TGIS operable for 44 days and no TGIS channel available for up to 54 hours has been analyzed, and results in an increase in the probability of a loss of control room habitability which does not exceed 1E-6 over the duration of this TS change. Therefore, this proposed change does not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment requests involve no significant hazards consideration.

Notice Of Issuance Of Amendments To Facility Operating Licenses

During the period since publication of the last biweekly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for A Hearing in connection with these actions was published in the **Federal Register** as indicated.

Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.12(b) and has made a determination based on that assessment, it is so indicated.

For further details with respect to the action see (1) the applications for amendment, (2) the amendment, and (3) the Commission's related letter, Safety Evaluation and/or Environmental Assessment as indicated. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document rooms for the particular facilities involved.

Carolina Power & Light Company, et al., Docket No. 50-400, Shearon Harris Nuclear Power Plant, Unit 1, Wake and Chatham Counties, North Carolina

Date of application for amendment: October 24, 1994, as supplemented July 21, 1995. The July 21, 1995, letter provides clarification information and did not change the scope of the October 24, 1994, letter, or the initial no significant hazards consideration determination.

Brief description of amendment: The proposed amendment would revise the TS to allow the relocation of TS 3/4.3.7.12, Area Temperature Monitoring; and the associated Bases in the TS to licensee-controlled documents.

Date of issuance: August 28, 1995

Effective date: August 28, 1995

Amendment No.: 62

Facility Operating License No. NPF-63. Amendment revises the Technical Specifications.

Date of initial notice in **Federal Register:** November 23, 1994 (59 FR 60379) The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 28, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Cameron Village Regional Library, 1930 Clark Avenue, Raleigh, NC 27605

Duke Power Company, et al., Docket Nos. 50-413 and 50-414, Catawba Nuclear Station, Units 1 and 2, York County, South Carolina

Date of application for amendments: May 18, 1995, as supplemented May 31, 1995

Brief description of amendments: The amendments revise the frequency for conducting the Catawba Unit 2 Integrated Leak Rate Test (ILRT) from a nominal frequency of once per 40 months to less than or equal to 70 months. This also involves the granting of an exemption from the requirements of 10 CFR Part 50, Appendix J, which is addressed by separate correspondence.

Date of issuance: August 18, 1995

Effective date: As of the date of issuance to be implemented within 30 days from the date of issuance.

Amendment Nos.: 133 and 127

Facility Operating License Nos. NPF-35 and NPF-52: Amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 21, 1995 (60 FR 32362) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 18, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: York County Library, 138 East Black Street, Rock Hill, SC 29730

Duquesne Light Company, et al., Docket No. 50-412, Beaver Valley Power Station, Unit 2, Shippingport, Pennsylvania

Date of application for amendment: April 26, 1995

Brief description of amendment: This amendment adds a requirement to Technical Specification (TS) 4.5.2.a to periodically verify that the High Head Safety Injection (HHSI) pump minimum flow valve, 2CHS*MOV373, is maintained open during plant operation in Modes 1, 2, and 3. Valve 2CHS*MOV373, must be maintained open to provide a minimum flowpath for the HHSI pumps thereby minimizing the likelihood of HHSI pump damage due to pump operation with insufficient flow. The amendment allows flexibility for local verification of valve position or flow indication if the control room indication is not available. Several editorial changes to TS 3/4.5.2 are also being made to provide consistent format with other TSs.

Date of issuance: August 25, 1995

Effective date: August 25, 1995

Amendment No.: 73

Facility Operating License No. NPF-73: Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 6, 1995 (60 FR 29874). The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 25, 1995. No significant hazards consideration comments received: No.

Local Public Document Room location: B. F. Jones Memorial Library, 663 Franklin Avenue, Aliquippa, PA 15001

Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, City of Dalton, Georgia, Docket No. 50-366, Edwin I. Hatch Nuclear Plant, Unit 2, Appling County, Georgia

Date of application for amendment: April 14, 1995, as supplemented by letters dated June 22 and July 18, 1995

Brief description of amendment: The amendment eliminates response time testing (RTT) requirements for selected sensors and specific loop instrumentations for (1) the Reactor Protection System (RPS), (2) the Isolation System, and (3) the Emergency Core Cooling System (ECCS). In addition, the Note for Surveillance Requirement 3.3.6.1.7, which reads: "Radiation detectors may be excluded," is being removed since RTT is not required for any radiation detector that provides a primary containment isolation signal as indicated in Table 3.3.6.1-1 of the TS.

Date of issuance: August 23, 1995

Effective date: As of the date of issuance to be implemented within 60 days from the date of issuance

Amendment No.: 137

Facility Operating License No. NPF-5: Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** July 5, 1995 (60 FR 35076) The June 22 and July 18, 1995, letters provided clarifying information that did not change the scope of the April 14, 1995, application and initial proposed no significant hazards consideration determination.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 23, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Appling County Public Library, 301 City Hall Drive, Baxley, GA 31513

Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, City of Dalton, Georgia, Docket Nos. 50-424 and 50-425, Vogtle Electric Generating Plant, Units 1 and 2, Burke County, Georgia

Date of application for amendments: January 3, 1995, as supplemented by letters dated June 14 and July 6, 1995.

Brief description of amendments: The amendments revise the Technical Specifications (TS) with editorial changes to the Action Statements of TS 3.8.1.1 and 3.8.1.2 in order to reflect the availability of a third offsite ac electrical source. Technical Specification 4.8.1.1.1 is clarified to specify that the offsite ac circuits connected to the onsite Class 1E distribution system are required to be verified OPERABLE. A footnote is added to TS 3.8.3.1 to allow the connection of the third offsite ac source to the onsite busses.

Date of issuance: August 29, 1995

Effective date: As of the date of issuance to be implemented within 30 days from the date of issuance

Amendment Nos.: 90 and 68

Facility Operating License Nos. NPF-68 and NPF-81: Amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** February 1, 1995 (60 FR 6301) The June 14 and July 6, 1995, letters provided clarifying information that did not change the scope of the January 3, 1995, application and initial proposed no significant hazards consideration determination. The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 29, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Burke County Library, 412 Fourth Street, Waynesboro, GA 30830

Florida Power and Light Company, Docket Nos. 50-250 and 50-251, Turkey Point Plant Units 3 and 4, Dade County, Florida

Date of application for amendments: May 23, 1995

Brief description of amendments: The amendments revise the column format for the Reactor Protection System and Engineered Safety Feature Actuation System Setpoints

Date of issuance: August 24, 1995

Effective date: August 24, 1995

Amendment Nos.: 176 and 170Facility Operating Licenses Nos. DPR-31 and DPR-41: Amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 21, 1995 (60 FR 32364) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 24, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Florida International University, University Park, Miami, FL 33199

Indiana Michigan Power Company, Docket Nos. 50-315 and 50-316, Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2, Berrien County, Michigan

Date of application for amendments: December 20, 1993, as supplemented July 19, 1994, and February 28, 1995.

Brief description of amendments: The amendments revise the surveillance requirements and load profiles for A, B, and N Train batteries.

Date of issuance: August 22, 1995

Effective date: August 22, 1995

Amendment Nos.: 198 and 183

Facility Operating License Nos. DPR-58 and DPR-74. Amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** February 2, 1994 (59 FR 4939) and June 6, 1995 (60 FR 29879) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 22, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: Maud Preston Palenske Memorial Library, 500 Market Street, St. Joseph, MI 49085

Indiana Michigan Power Company, Docket Nos. 50-315 and 50-316, Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2, Berrien County, Michigan

Date of application for amendments: May 25, 1995, and supplemented June 30, 1995

Brief description of amendments: The amendments allow fuel reconstitution when analyzed in accordance with NRC-approved methodologies. The amendments are line item improvements based on NRC Generic Letter 90-02, "Alternative Requirements for Fuel Assemblies in Design Features Section of Technical Specifications," supplement 1.

Date of issuance: August 22, 1995

Effective date: August 22, 1995

Amendment Nos.: 199 and 184

Facility Operating License Nos. DPR-58 and DPR-74. Amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** July 5, 1995 (60 FR 35081) The June 30, 1995, supplement provided a minor revision to the proposed Technical Specification pages which was within the scope of the original application and did not change the staff's initial proposed no significant hazards considerations determination. The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 22, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: Maud Preston Palenske Memorial Library, 500 Market Street, St. Joseph, MI 49085

Maine Yankee Atomic Power Company, Docket No. 50-309, Maine Yankee Atomic Power Station, Lincoln County, Maine

Date of application for amendment: February 14, 1995

Brief description of amendment: This amendment makes the following administrative changes to the Maine Yankee (MY) Technical Specifications (TS):

a. Removes responsibility for audits of the emergency and security plans--including their implementing procedures--from the TS and assigns that responsibility to the emergency and security plans,

b. Assigns review responsibility for significant, accidental, unplanned, or uncontrolled radioactive releases to the Nuclear Safety Audit and Review (NSAR) Committee,

c. Assigns additional reporting requirements to the NSAR Committee, and

d. Provides the President of MY with the authority to initiate an audit of any area of facility operation.

Date of issuance: August 22, 1995

Effective date: As of the date of issuance, to be implemented within 30 days.

Amendment No.: 152

Facility Operating License No. DPR-36: Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** March 29, 1995 (60 FR 16191) The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 22, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Wiscasset Public Library, High Street, P.O. Box 367, Wiscasset, ME 04578

Northeast Nuclear Energy Company, Docket No. 50-245, Millstone Nuclear Power Station, Unit 1, New London County, Connecticut

Date of application for amendment: May 18, 1995

Brief description of amendment: The amendment revises the minimum temperature at which the reactor vessel head bolting studs are allowed to be placed under tension. In addition, the amendment revises the minimum reactor vessel metal temperature during core critical operation, revises the minimum reactor vessel metal temperature for pressure tests, makes editorial changes, and revises the Bases for the applicable section.

Date of issuance: August 23, 1995

Effective date: As of the date of issuance to be implemented immediately.

Amendment No.: 85

Facility Operating License No. DPR-21. Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 21, 1995 (60 FR 32369) The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 23, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360

Northeast Nuclear Energy Company, Docket No. 50-245, Millstone Nuclear Power Station, Unit 1, New London County, Connecticut

Date of application for amendment: June 15, 1995

Brief description of amendment: The amendment changes the definition for an alteration of the reactor core to one that is consistent with the intent of the improved standard technical specifications. The amendment also makes administrative changes to several technical specification pages.

Date of issuance: August 28, 1995

Effective date: As of the date of issuance to be implemented within 30 days.

Amendment No.: 86

Facility Operating License No. DPR-21. Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** July 19, 1995 (60 FR 37097) The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 28, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360

Northeast Nuclear Energy Company, et al., Docket No. 50-423, Millstone Nuclear Power Station, Unit No. 3, New London County, Connecticut

Date of application for amendment: April 28, 1995, as supplemented August 2, 1995.

Brief description of amendment: The amendment changes Technical Specification (TS) Sections 3.7.5, 4.7.5, and 3/4.7.5, to permit Millstone Unit 3 to remain in operation with the average ultimate heat sink water temperature greater than 75° F (but less than or equal to 77° F) for a period of 12 hours.

Date of issuance: August 28, 1995

Effective date: As of the date of issuance.

Amendment No.: 119

Facility Operating License No. NPF-49. Amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 6, 1995 (60 FR 29881). The information in the licensee's submittal of August 2, 1995, did not require a change to the initial proposed no significant hazards consideration determination. The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 28, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360

Pacific Gas and Electric Company, Docket Nos. 50-275 and 50-323, Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2, San Luis Obispo County, California

Date of application for amendments: June 29, 1995

Brief description of amendments: The amendments revise the combined Technical Specifications (TS) for Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2 (DCPP) to add Mode 1 applicability to TS 3/4.4.2.2, "Safety Valves - Operating," and changes the low-temperature overpressure protection (LTOP) system enable temperature for Mode 4 applicability from 323 degrees F to 270 degrees F in TS 3/4.3.2.1, "Safety Valves - Shutdown."

Date of issuance: August 23, 1995

Effective date: August 23, 1995

Amendment Nos.: Unit 1 - Amendment No. 107; Unit 2 - Amendment No. 106

Facility Operating License Nos. DPR-80 and DPR-82: The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** July 19, 1995 (60 FR 37098) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 23, 1995.No significant hazards consideration comments received: No.

Local Public Document Room location: California Polytechnic State University, Robert E. Kennedy Library, Government Documents and Maps Department, San Luis Obispo, CA 93407

Pennsylvania Power and Light Company, Docket Nos. 50-387 and 50-388 Susquehanna Steam Electric Station, Units 1 and 2, Luzerne County, Pennsylvania

Date of application for amendments: February 1, 1995, as supplemented by letter dated June 20, 1995

Brief description of amendments: The requested changes would modify the applicable operational conditions for the secondary containment isolation radiation monitors located on the refueling floor and for the monitor located in the railroad access shaft.

Date of issuance: August 24, 1995

Effective date: Both units, as of the date of issuance and is to be implemented within 30 days

Amendment Nos.: 152 and 122

Facility Operating License Nos. NPF-14 and NPF-22. The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** March 29, 1995 (60 FR 16192). The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 24, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, PA 18701

Philadelphia Electric Company, Docket Nos. 50-352 and 50-353, Limerick Generating Station, Units 1 and 2, Montgomery County, Pennsylvania

Date of application for amendments: August 31, 1994, as supplemented by letters dated May 11, and July 3, 1995

Brief description of amendments: This amendment revises the Technical Specifications to permit the relocation of the Turbine Overspeed Protection System to the Updated Final Safety Analysis Report and Controlled Plant Procedures.

Date of issuance: August 24, 1995

Effective date: August 24, 1995

Amendment Nos.: 100 and 64

Facility Operating License Nos. NPF-39 and NPF-85. The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** November 9, 1994 (59 FR 55884) The supplemental letters do not

change the initial no significant hazards consideration determination nor the initial Federal Register notice. The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 24, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Pottstown Public Library, 500 High Street, Pottstown, PA 19464

Date of application for amendments: February 22, 1995

Brief description of amendments: The amendments revise the Technical Specifications Surveillance Requirements to clarify the Emergency Diesel Generator acceptable steady state voltage range.

Date of issuance: August 24, 1995

Effective date: As of the date of issuance and shall be implemented within 30 days of issuance.

Amendment Nos.: 101 and 65

Facility Operating License Nos. NPF-39 and NPF-85. The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** April 26, 1995 (60 FR 20525) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 24, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Pottstown Public Library, 500 High Street, Pottstown, PA 19464

Public Service Electric & Gas Company, Docket No. 50-354, Hope Creek Generating Station, Salem County, New Jersey

Date of application for amendment: January 13, 1995

Brief description of amendment: The amendment revised the Administrative Controls Section (6.0) of the Technical Specifications for Hope Creek Generating Station to reflect organizational changes and resultant management title changes.

Date of issuance: August 22, 1995

Effective date: August 22, 1995

Amendment No.: 77

Facility Operating License No. NPF-57: This amendment revised the Technical Specifications.

Date of initial notice in **Federal Register:** June 21, 1995 (60 FR 32371) The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated August 22, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Pennsville Public Library, 190 S. Broadway, Pennsville, NJ 08070

Public Service Electric & Gas Company, Docket Nos. 50-272 and 50-311, Salem Nuclear Generating Station, Unit Nos. 1 and 2, Salem County, New Jersey

Date of application for amendments: December 23, 1994

Brief description of amendments: The amendments to the Technical Specifications revise the surveillance requirement to perform a visual inspection of containment areas affected by containment entry when containment integrity is established. They are consistent with Item 7.5 of Generic Letter 93-05, "Line-Item Technical Specifications Improvements to Reduce Surveillance Requirements for Testing During Power Operation."

Date of issuance: August 24, 1995

Effective date: As of the date of issuance, to be implementd within 60 days.

Amendment Nos.: 174 and 155

Facility Operating License Nos. DPR-70 and DPR-75. The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** February 1, 1995 (60 FR 6308) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 24, 1995.No significant hazards consideration comments received: No

Local Public Document Room location: Salem Free Public Library, 112 West Broadway, Salem, NJ 08079

Southern California Edison Company, et al., Docket Nos. 50-361 and 50-362, San Onofre Nuclear Generating Station, Unit Nos. 2 and 3, San Diego County, California

Date of application for amendments: September 16, 1994

Brief description of amendments: These amendments revise Technical Specification (TS) 3/4.2.1, "Linear Heat Rate." The linear heat rate (LHR) limit for steady state operation is revised from 13.9 kw/ft to 13.0 kw/ft. The Bases for TS 3/4.2.1, "Linear Heat Rate," is also being revised to reflect the new value.

Date of issuance: August 23, 1995

Effective date: August 23, 1995, to be implemented within 30 days of issuance.

Amendment Nos.: Unit 2 - Amendment No. 124; Unit 3 - Amendment No. 113

Facility Operating License Nos. NPF-10 and NPF-15: The amendments revised the Technical Specifications.

Date of initial notice in **Federal Register:** November 9, 1994 (59 FR 55892) The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated August 23, 1995. No significant hazards consideration comments received: No.

OFFICE OF MANAGEMENT AND BUDGET

Managerial Cost Accounting Concepts and Standards

AGENCY: Office of Management and Budget.

ACTION: Notice of document availability.

SUMMARY: This Notice indicates the availability of the fourth Statement of Federal Financial Accounting Standards, "Managerial Cost Accounting Concepts and Standards for the Federal Government," adopted by the Office of Management and Budget (OMB). The statement was recommended by the Federal Accounting Standards Advisory Board and adopted in its entirety by OMB.

ADDRESSES: Copies of the Statement of Federal Financial Accounting Standards No. 4, "Managerial Cost Accounting Concepts and Standards for the Federal Government," may be obtained for $7.50 each from the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (telephone 202–783–3238), Stock No. 041–001–00457–2.

FOR FURTHER INFORMATION CONTACT: Ronald Longo (telephone: 202–395–3993), Office of Federal Financial Management, Office of Management and Budget, 725–17th Street, N.W.—Room 6025, Washington, DC 20503.

SUPPLEMENTARY INFORMATION: This Notice indicates the availability of the fourth Statement of Federal Financial Accounting Standards, "Managerial Cost Accounting Concepts and Standards for the Federal Government." The standard was recommended by the Federal Accounting Standards Advisory Board (FASAB) in June 1995, and adopted in its entirety by the Office of Management and Budget (OMB).

Under a Memorandum of Understanding among the General Accounting Office, the Department of the Treasury, and OMB on Federal Government Accounting Standards, the Comptroller General, the Secretary of the Treasury, and the Director of OMB decide upon principles and standards after considering the recommendations of FASAB. After agreement to specific principles and standards, they are to be published in the **Federal Register** and distributed throughout the Federal Government.

G. Edward DeSeve,

Controller.

BILLING CODE 3110-01-P

PENSION BENEFIT GUARANTY CORPORATION

Request for Extension of Approval Under the Paperwork Reduction Act; Collection of Information Under 29 CFR Part 2646, Reduction or Waiver of Partial Withdrawal Liability

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of request for extension of OMB approval.

SUMMARY: The Pension Benefit Guaranty Corporation has requested that the Office of Management and Budget extend approval, under the Paperwork Reduction Act, of the collection of information requirements (1212–0039) contained in its regulation on Reduction or Waiver of Partial Withdrawal Liability (29 CFR Part 2646). The effect of this notice is to advise the public of the PBGC's request.

DATES: The PBGC is requesting that OMB complete action on the PBGC's request by September 29, 1995. Comments must be received by September 25, 1995.

ADDRESSES: All written comments should be addressed to: Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Pension Benefit Guaranty Corporation, Washington, DC 20503. The request for extension will be available for public inspection at the PBGC's Communications and Public Affairs Department, Suite 240, 1200 K Street, NW., Washington, DC 20005–4026, between 9:00 a.m. and 4:00 p.m. on business days.

FOR FURTHER INFORMATION CONTACT: Deborah C. Murphy, Attorney, Office of General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005–4026, 202–326–4024 (202–326–4179 for TTY and TDD).

SUPPLEMENTARY INFORMATION: This collection of information is contained in the Pension Benefit Guaranty Corporation's regulation on Reduction or Waiver of Partial Withdrawal

Liability (29 CFR Part 2646), which is promulgated pursuant to section 4208 of the Employee Retirement Income Security Act of 1974. Section 4208 contains rules for the reduction or elimination of an employer's partial withdrawal liability under certain circumstances and authorizes the Pension Benefit Guaranty Corporation to promulgate additional partial withdrawal abatement rules.

Under the regulation, a contributing employer can apply to a multiemployer plan for a determination that it has met the requirements for abatement of partial withdrawal liability, and a multiemployer plan sponsor can apply to the PBGC for approval of individually-tailored plan rules for abatement of partial withdrawal liability. The PBGC uses information submitted to it to determine whether plan rules satisfy statutory standards.

The PBGC estimates that the total annual burden of the regulation is 1,250½ hours. Of this total, 1,250 hours represents 1,000 employer abatement applications and plan responses and one-half hour represents a submission to the PBGC by one plan sponsor.

Issued at Washington, DC., this 8th day of September, 1995.

Martin Slate,

Executive Director, Pension Benefit Guaranty Corporation.

[FR Doc. 95–22767 Filed 9–12–95; 8:45 am]

BILLING CODE 7708-01-M

Request for Extension of Approval Under the Paperwork Reduction Act; Collection of Information Under 29 CFR Part 2675, Powers and Duties of Plan Sponsor of Plan Terminated by Mass Withdrawal

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of request for OMB approval.

SUMMARY: The Pension Benefit Guaranty Corporation has requested that the Office of Management and Budget extend approval, under the Paperwork Reduction Act, of the collection of information requirements (1212–0032) in its regulation on Powers and Duties of Plan Sponsor of Plan Terminated by Mass Withdrawal (29 CFR Part 2675). The effect of this notice is to advise the public of the PBGC's request.

DATES: The PBGC is requesting that OMB complete action on the PBGC's request by September 29, 1995. Comments must be received by September 25, 1995.

ADDRESSES: All written comments should be addressed to: Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Pension Benefit Guaranty Corporation, Washington, DC 20503. The request for extension will be available for public inspection at the PBGC's Communications and Public Affairs Department, Suite 240, 1200 K Street, NW., Washington, DC 20005–4026, between 9:00 a.m. and 4:00 p.m. on business days.

FOR FURTHER INFORMATION CONTACT: Deborah C. Murphy, Attorney, Office of General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005–4026, 202–326–4024 (202–326–4179 for TTY and TDD).

SUPPLEMENTARY INFORMATION: The Pension Benefit Guaranty Corporation administers the pension plan termination insurance programs under Title IV of the Employee Retirement Income Security Act of 1974. This collection of information (1212–0032) is contained in the PBGC's regulation on Powers and Duties of Plan Sponsor of Plan Terminated by Mass Withdrawal (29 CFR Part 2675), which implements requirements of ERISA sections 4041A and 4281 for the administration of multiemployer plans that have terminated by mass withdrawal. The PBGC is requesting that the Office of Management and Budget extend approval of the collection of information.

The regulation prescribes rules for notices given and applications made by plan sponsors of mass-withdrawal-terminated plans to assure the consistency and adequacy of the notices and applications. The PBGC uses the information submitted to it in making statutory determinations and identifying and estimating cash needs for financial assistance to the plans.

The PBGC estimates that a total of 25 plans are required to distribute or submit a total of 60 notices or applications under the regulation annually and that the total annual burden of the collection of information is 835 hours, an average of about 14 hours per response.

Issued at Washington, D.C., this 8th day of September, 1995.

Martin Slate,

Executive Director, Pension Benefit Guaranty Corporation.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 21336; 811–2496]

Lindner Dividend Fund, Inc.; Notice of Application for Deregistration

September 6, 1995.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Lindner Dividend Fund, Inc.

RELEVANT ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Applicant requests an order declaring that it has ceased to be an investment company.

FILING DATE: The application was filed on August 3, 1995, and amended on August 24, 1995.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 2, 1995, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESS: Secretary, SEC, 450 5th Street NW., Washington, D.C. 20549. Applicant, 7711 Carondelet, St. Louis, Missouri 63105.

FOR FURTHER INFORMATION CONTACT: Sarah A. Buescher, Staff Attorney, at (202) 942–0573, or Alison E. Baur, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant is an open-end management investment company organized as a Missouri corporation. On July 3, 1974, applicant filed a notice of registration pursuant to section 8(a) of the Act on Form N–8A. On July 31, 1974 applicant filed a registration statement

to register its shares. The registration statement became effective on June 22, 1976, and the initial public offering commenced on or about July 31, 1974.

2. On April 6, 1995, applicant's board of directors adopted an Agreement and Plan of Reorganization (the "Plan"). The Plan provided that applicant would transfer its assets to a separate series of Lindner Investments, Inc. (the "Successor Fund"), in exchange for the assumption by the Successor Fund of applicant's liabilities and the issuance of shares of the Successor Fund.

3. Applicant and the Successor Fund may be deemed to be affiliated persons of each other by reason of having a common investment adviser, common directors, and common officers. In order to comply with rule 17a–8, which governs mergers of certain affiliated investment companies, applicant's directors determined that the reorganization was in the best interests of applicant and applicant's shareholders.[1] This determination was based, among other things, on: (a) The expense savings which result from the elimination of regular annual meetings; (b) the economies of scale realized in a fund family; and (c) the ability to provide investors an opportunity to switch between funds within a fund group. Applicants also determined, in compliance with rule 17a–8, that the interests of existing shareholders would not be diluted as a result of the reorganization.

4. The proxy statement was filed with the SEC and distributed to applicant's shareholders on or about May 2, 1995. Applicant's shareholders approved the Plan on June 29, 1995.

5. On June 30, 1995, the reorganization was consummated. Applicant transferred its assets to Successor Fund in exchange for the assumption by Successor Fund of applicant's liabilities and the issuance of a number of shares of Successor Fund equal to the number of outstanding shares of applicant on that date. Following the exchange, applicant liquidated and distributed the Successor Fund shares to each of its shareholders on the basis of one Successor Fund share for one outstanding share of applicant. Upon completion of the reorganization, each shareholder of applicant became an owner of Successor Fund shares equal in number and aggregate net asset value to his or her shares of applicant held immediately prior to the reorganization.

6. The expenses applicable to the reorganization are estimated to be approximately $66,444. Applicant and Successor Fund each paid its own expenses related to the reorganization. Applicant's share of the expenses was approximately $35,000.

7. At the time of filing the application, applicant had no assets, and no outstanding debts or liabilities. Applicant has no shareholders and is not a party to any litigation or administrative proceeding. Applicant is not presently engaged in, nor does it propose to engage in, any business activities other than those necessary for the winding-up of its affairs.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[1] Although purchases and sales between affiliated persons generally are prohibited by section 17(a) of the Act, rule 17a–8 provides an exemption for certain purchases and sales among investment companies that are affiliated persons of each other solely by reason of having a common investment adviser, common directors, and/or common officers.

[Investment Company Act Release No. 21335; 811–2203]

Lindner Fund, Inc.

September 6, 1995.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Lindner Fund, Inc.

RELEVANT ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Applicant requests an order declaring that it has ceased to be an investment company.

FILING DATE: The application was filed on August 3, 1995, and amended on August 24, 1995.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 2, 1995 and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESS: Secretary, SEC, 450 5th Street NW., Washington, DC 20549. Applicant, 7711 Carondelet, St. Louis, Missouri 63105.

FOR FURTHER INFORMATION CONTACT: Sarah A. Buescher, Staff Attorney, at (202) 942–0573, or Alison E. Baur, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant is an open-end management investment company organized as a Missouri corporation. On June 28, 1971, applicant filed a notice of registration pursuant to section 8(a) of the Act on Form N–8A. On September 27, 1971 applicant filed a registration statement to register its shares. The registration statement became effective on May 24, 1973, and the initial public offering commenced on or about September 27, 1971.

2. On April 6, 1995, applicant's board of directors adopted an Agreement and Plan of Reorganization (the "Plan"). The Plan provided that applicant would transfer its assets to a separate series of Lindner Investments, Inc. (the "Successor Fund"), in exchange for the assumption by the Successor Fund of applicant's liabilities and the issuance of shares of the Successor Fund.

3. Applicant and the Successor Fund may be deemed to be affiliated persons of each other by reason of having a common investment adviser, common directors, and common officers. In order to comply with rule 17a–8, which governs mergers of certain affiliated investment companies, applicant's directors determined that the reorganization was in the best interests of applicant and applicant's shareholders.[1] This determination was based, among other things, on: (a) The expense savings which result from the elimination of regular annual meetings; (b) the economies of scale realized in a fund family; and (c) the ability to provide investors an opportunity to switch between funds within a fund group. Applicants also determined, in compliance with rule 17a–8, that the interests of existing shareholders would not be diluted as a result of the reorganization.

4. A proxy statement was filed with the SEC and distributed to applicant's shareholders on or about May 2, 1995. Applicant's shareholders approved the Plan on June 29, 1995.

5. On June 30, 1995, the reorganization was consummated. Applicant transferred its assets to Successor Fund in exchange for the assumption by Successor Fund of applicant's liabilities and the issuance of a number of shares of Successor Fund equal to the number of outstanding shares of applicant on that date. Following the exchange, applicant liquidated and distributed the Successor Fund shares to each of its shareholders on the basis of one Successor Fund share for one outstanding share of applicant. Upon completion of the reorganization, each shareholder of applicant became an owner of Successor Fund shares equal in number and aggregate net asset value to his or her shares of applicant held immediately prior to the reorganization.

6. The expenses applicable to the reorganization are estimated to be approximately $66,546. Applicant and Successor Fund each paid its own expenses related to the reorganization. Applicant's share of the expenses was approximately $35,000.

7. At the time of filing the application, applicant had no assets, and no outstanding debts or liabilities. Applicant has no shareholders and is not a party to any litigation or administrative proceeding. Applicant is not presently engaged in, nor does it proposed to engage in, any business activities other than those necessary for the winding-up of its affairs.

Advisory Committee on the Capital Formation and Regulatory Processes

AGENCY: Securities and Exchange Commission.

ACTION: Notice of meeting.

SUMMARY: This is to give notice that the Securities and Exchange Commission Advisory Committee on the Capital Formation and Regulatory Processes will meet on September 29, 1995 in room 1C30 at the Commission's main offices, 450 Fifth Street NW., Washington, DC, beginning at 10:00 a.m. The meeting will be open to the public, and the public is invited to submit written comments to the Committee.

ADDRESSES: Written comments should be submitted in triplicate and should refer to File No. 265–20. Comments should be submitted to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549.

FOR FURTHER INFORMATION CONTACT: David A. Sirignano, Committee Staff Director, at 202–942–2870; Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: In accordance with section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 10a, notice is hereby given that the Committee will meet on September 29, 1995 in room 1C30 at the Commission's main offices, 450 Fifth Street NW., Washington, DC, beginning at 10:00 a.m. The meeting will be open to the public.

The Committee was formed in February 1995, and its responsibilities include advising the Commission regarding the informational needs of investors and the regulatory costs imposed on the U.S. securities markets.

The purpose of this meeting will be to discuss the progress of the Committee's work, to discuss elements for a company registration system, as well as to discuss general organizational matters.

Dated: September 6, 1995.

Jonathan G. Katz,

Secretary.

[Release No. 34–36197; International Series Release No. 850; File No. SR–OCC–95–11]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of a Proposed Rule Change Modifying the Capital Computation Formula and Reporting Requirements Applicable to Canadian Clearing Members of the Options Clearing Corporation

September 7, 1995.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on July 13, 1995, the Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change (File No. SR–OCC–95–11) as described in Items I, II, and III below, which items have been prepared primarily by OCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The purpose of the proposed rule change is to modify OCC's rules pertaining to the financial requirements of Canadian Clearing Member[2] firms, including the capital computation formula and reporting requirements applicable to those members, to reflect revisions to the capital computation and reporting standards recently adopted by various Canadian regulatory authorities.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Set forth in sections (A), (B), and (C) below, are the most significant aspects of such statements.[3]

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed rule change seeks to modify OCC's rules concerning the financial requirements of Canadian Clearing Members, including the capital computation formula and reporting requirements applicable to Canadian Clearing Members, to reflect revisions to the capital computation and reporting standards recently adopted by various Canadian regulatory authorities. OCC's rules allow Canadian [illegible]ng Members to submit require[illegible]l reports in accordance with t[illegible]unting and reporting standards of their appropriate self-regulatory body.[4] In monitoring Canadian Clearing Member compliance with OCC financial requirements, OCC converts this financial information into a form consistent with Rule 15c3–1 under the Act.[5]

---

[1] 15 U.S.C. § 78s(b)(1) (1988).

[2] The term Canadian Clearing Member is defined in OCC By-Law Article I, Section I.N. (3).

[3] The Commission has modified parts of these statements.

[4] OCC By-law, Article I.N. (2) employs the term "appropriate self-regulatory body" as defined in the Supplementary Instructions re Completion of the Joint Regulatory Financial Questionnaire to refer to the governmental agency or self-regulatory authority primarily responsible for regulating the activities of a Canadian Clearing Member.

The capital formula applied under Canadian securities regulations to Canadian securities firms has been revised and incorporated into a new standard report format. The prior capital formula applied a minimum capital requirement, as assessed by a working capital computation (*i.e.*, total capital less non-allowable assets), based upon volume of business determined by a percentage of adjusted liabilities. The new capital formula continues to be based on a working capital computation minus certain charges, including charges that reflect the risk of proprietary securities held in inventory. However, the new capital formula replaces the concept of adjusted liabilities with revised definitions of allowable assets and margin charges that are intended to reflect the credit worthiness of counterparties and the economic substance of transactions. The report format used by Canadian securities firms to report their capital computation also has been revised. OCC proposes to change its financial requirements and reporting rules to conform them to the revised capital formula and reporting format.

Specifically, the current Interpretations and Policies ("Interpretation") .01 to OCC Rule 301, regarding initial financial requirements, provides that a Canadian Clearing Member that commenced doing business as a broker or dealer within twelve months prior to its admission to Clearing Membership must maintain "initial net free capital," as defined in the Supplementary Instructions re Completion of the Joint Regulatory Financial Questionnaire ("Supplementary Instructions"), of not less than ten percent of such Clearing Member's "adjusted liabilities," as defined in the Supplementary Instructions, until the later of (i) three months after its admission to Clearing Membership or (ii) twelve months after it commenced doing business as a broker or dealer. Currently, Interpretation .01 to OCC Rule 302, regarding minimum net capital requirements, provides that a Canadian Clearing Member shall maintain net free capital, as defined in the Supplementary Instructions, of not less than the amount of net free capital that would be required of such Clearing Member under Section 100.2 of the By-Laws of the Investment Dealers Association of Canada ("IDAC") if the Clearing Member was a member of the IDAC.

As proposed, Interpretation .01 to Rule 301 will require a Canadian Clearing Member to maintain an initial "early warning reserve" as determined in accordance with the Joint Regulatory Financial Questionnaire and Report ("JRFQ&R") of not less than $1,000,000 (U.S.) for the same period as previously required. The proposed Interpretation .01 to Rule 302 will provide that the minimum net capital requirement of a Canadian Clearing Member be the early warning reserve as determined under the JRFQ&R in an amount not less than the greater of $750,000 U.S.) or 2% of such Canadian Clearing Member's total margin requirement as determined in accordance with the JRFQ&R. Application of the early warning reserve as determined under the JRFQ&R also will replace the use of the net free capital formula as determined under the Supplementary Instructions in OCC Rules 303 and 304, respectively, regarding early warning notice and restrictions on distributions.

Finally, in connection with OCC's financial reporting requirements, each Canadian Clearing Member will be required to file its JRFQ&R with OCC on a monthly basis except as provided in the Interpretations to Rule 306. The JRFQ&R replaces the Joint Industry Monthly Financial Report previously required under the Interpretations to OCC's Financial Reporting Rule.

OCC believes the proposed rule change is consistent with the requirements of Section 17A of the Act and the rules and regulations thereunder because the rule proposal will facilitate the prompt and accurate clearance and settlement of securities transactions and will assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change will impact or impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments relating to the proposed rule change have been solicited or received. OCC will notify the Commission of any written comments received by OCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which OCC consents, the Commission will:

(a) By order approve such proposed rule change or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing will also be available for inspection and copying at the principal office of OCC. All submissions should refer to the file number SR–OCC–95–11 and should be submitted by October 4, 1995.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[6]

Margaret H. McFarland,

Deputy Secretary.

[Release No. 34–36193; File No. SR–PHLX–95–56]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Philadelphia Stock Exchange, Inc., Relating to the Listing of Options on the PHLX Forest and Paper Products Sector Index

September 6, 1995.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on August 15, 1995, the Philadelphia Stock Exchange, Inc. ("PHLX") or "Exchange") file with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PHLX proposes to list for trading cash-settled, European-style[1] options on the PHLX Forest and Paper Products Sector Index ("Index"), a new index developed by the Exchange. The Index is comprised of the stocks of 14 domestic forest and paper product companies which, the PHLX represents, effectively represent the available forest and paper products industry.

The text of the proposed rule change is available at the Office of the Secretary, PHLX, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to list for trading cash-settled, European-style options on the Index. The Index is comprised of the stocks of 14 domestic forest and paper product companies which, the PHLX represents, effectively represent the available forest and paper products industry.[2] The Exchange also represents that the Index meets the generic criteria for listing options on narrow-based indexes as set forth in PHLX Rule 1009A, "Designation of the Index," as approved by the Commission.[3] Accordingly, the PHLX is submitting this proposed rule change pursuant to and in accordance with the procedures set forth in the Commission's Generic Index Approval Order.[4] The PHLX proposes to list and trade options on the Index no sooner than 30 days after August 15, 1995, the filing date of this proposed rule change. The contract specifications for the options on the proposed Index are as follows:

Underlying Index: The Index is an equal-dollar weighted index comprised of stocks from 14 domestic forest and paper products companies. All 14 stocks in the Index are traded on the New York Stock Exchange ("NYSE") and are therefore "reported securities" as defined in Rule 11Aa3–1 under the Act. The PHLX represents that all of the Index's component stocks presently meet the listing criteria for equity options contained in PHLX Rule 1009, "Criteria for Underlying Stocks," and are currently the subject of standardized options trading in the U.S.

According to the PHLX, as of August 4, 1995, the market capitalization of all of the stocks in the Index exceeded $60 billion and the individual capitalizations of the Index's component stocks ranged from $1.6 billion to $10.8 billion. The PHLX states that all 14 of the Index's component stocks had monthly trading volumes in excess of one million shares over each of the past six months from February through July 1995. Accordingly, the Exchange represents that, with respect to the criteria for market capitalization and trading volume, the Index satisfies the generic listing standards as stated in PHLX Rule 1009A.

Index Calculation: The methodology used to calculate the Index is an equal dollar-weighting method, meaning that each of the Index's component stocks is represented in approximately equal dollar amounts. The Exchange believes that this method of calculation is important because it will provide each component issue with equivalent influence on the movement of the Index value instead of allowing one highly capitalized stock to dominate the movement of the Index. To determine the initial dollar weighting of the stocks, the Exchange calculated the number of shares of each stock that would represent an investment of approximately $10,000 in each of the stocks comprising the Index based on closing prices on August 4, 1995. The value of the Index equals the current market value of the sum of the assigned number of shares of all of the stocks in the Index divided by the current Index divisor. The Index value was set at 250 at the close on January 31, 1995.

Index Maintenance: The Exchange will rebalance the Index quarterly, following the close of trading on the third Friday of each March, June, September, and December by changing the number of shares of each component stock so that each company is again represented in approximately $10,000 "equal" dollar amounts. If it becomes necessary, a divisor adjustment will be made when rebalancing occurs to ensure the continuity of the Index's value. The newly adjusted portfolio will then become the basis for the Index's value on the first trading day following the quarterly adjustment.

The number of shares of each component stock in the Index will remain fixed between quarterly reviews, except in the event of certain types of corporate action, such as the payment of a dividend (other than an ordinary cash dividend), stock distribution, stock split, rights offering, recapitalization, reorganization or similar event with respect to the component stocks. In the case of a merger or consolidation of the issuer of a component stock, if the stock remains in the Index, the number of shares of that security in the portfolio may be adjusted to the nearest whole share to maintain the component's relative weight in the Index prior to the merger. Should a stock replacement occur, the average dollar value of the remaining portfolio components will be calculated and that amount invested in the stock of the new component, to the nearest whole share.

---

[1] A European-style option can be exercised only during a specified period immediately prior to the expiration of the option.

[2] The components of the Index are: Boise Cascade; Bowater Inc.; Champion International Corporation; Federal Paper Board Company; Georgia Pacific Corporation; International Paper Company; James River Corporation; Louisiana Pacific Corporation; Mead Corporation; Stone Container Corporation; Temple Inland, Inc.; Union Camp Corporation; Westvaco Corporation; and Weyerhauser Company.

[3] *See* Securities Exchange Act Release No. 34157 (June 3, 1994), 59 FR 30062 (June 10, 1994) ("Generic Index Approval Order").

[4] *See* note 3, *supra*.

In selecting replacement components for the Index, the PHLX will take into account the capitalization, liquidity, volatility and name recognition of any proposed replacement stock and assure that the Index continues to meet the maintenance criteria in PHLX Rule 1009A(c). In each of the above cases, the divisor will be adjusted, if necessary, to ensure the continuity of the Index. If the Index fails at any time to satisfy the maintenance criteria set forth in the Generic Index Approval Order,[5] the Exchange will notify the Commission immediately and will not open for trading any additional series of options on the Index unless the Exchange determines such failure is not significant and the Commission concurs in that determination or unless the continued listing of options of the Index has been approved by the Commission under Section 19(b)(2) of the Act.

Pursuant to the Generic Index Approval Order,[6] the PHLX will not increase to more than 19, or decrease to fewer than 9, the number of stocks in the Index, nor will the PHLX make any change in the composition of the Index that would cause fewer than 90% of the stocks, by weight, or fewer than 80% of the total number of stocks in the Index to qualify as stocks eligible for equity options trading under PHLX Rule 1009, "Criteria for Underlying Stocks."[7]

The Index will be updated dynamically and disseminated every 15 seconds during the trade day. The PHLX has retained Bridge Data, Inc. to compute and perform all necessary maintenance of the Index. Pursuant to PHLX Rule 1100A, "Dissemination of Information," updated Index values will be disseminated and displayed by means of primary market prints reported by the Consolidated Tape Association and over the facilities of the Options Price Reporting Authority ("OPRA").[8] The Index value also will be available on broker/dealer interrogation devices to subscribers of the option information.

Unit of Trading: Each options contract will represent $100, the Index multiplier, times the Index value. For example, an Index value of 200 will result in an option contract value of $20,000 ($100×200).

Exercise Price: The exercise price will be set at 5 point intervals in terms of the current value of the Index. The PHLX will list additional exercise prices in accordance with PHLX Rule 1101A(a), "Terms of Option Contracts."

Aggregate Exercise Price: The aggregate exercise price is found by multiplying the Index multiplier ($100) by the exercise price.

Settlement Price Determination: The Index option settlement value will be determined by using the opening prices of the component stocks on the third Friday of each month.

Settlement Value: Based upon the operating prices of the component stocks on the last day prior to expiration.

Last Trading Day: The Thursday prior to the third Friday of the month for options which expire on the Saturday following the third Friday of that month.

Trading Hours: 9:30 a.m. to 4:10 p.m. EST.

Position and Exercise Limits: The Index is an industry index and the PHLX will apply position and exercise limits pursuant to PHLX Rules 1001A(b)(i), "Position Limits," and 1002A, "Exercise Limits," respectively.

Expiration Cycles: Three months from the March, June, September, December cycle plus at least two additional near-term months. The PHLX also will trade long-term Index options having up to 36 months to expiration pursuant to PHLX Rule 1101A(b)(iii).

Issuer and Guarantor: The Options Clearing Corporation ("OCC").

Premium Quotations: Premiums will be expressed in terms of dollars and fractions of dollars pursuant to PHLX Rule 1033A, "Meaning of Premium Bids and Offers." For example, a bid or offer of 1½ will represent a premium per options contract of $150 (1½ x 100). The minimum change in a premium under $3 will be $\frac{1}{16}$ and $\frac{1}{8}$ for a quote of $3 or greater.

The Index options will be traded pursuant to current PHLX rules governing the trading of index options.[9] In addition, the Exchange represents that surveillance procedures currently used to monitor trading in each of the Exchange's other index options will also be used to monitor trading in Index options. These procedures include having complete access to trading activity in the underlying securities, which are all traded on the NYSE. In addition, the Intermarket Surveillance Group Agreement ("ISG Agreement"), dated July 14, 1983, as amended on January 29, 1990, will be applicable to the trading of Index options.

The PHLX believes that the proposal is consistent with Section 6(b) of the Act, in general, and, in particular, with Section 6(b)(5), in that it is designed to promote just and equitable principles of trade, prevent fraudulent and manipulative acts and practices, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, remove impediments to and perfect the mechanism of a free and open market and a national market system, as well as to protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any inappropriate burden on competition.

(C) Self-Regulatory Organization's Statement and Comments on the Proposed Rule Change Received from Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change complies with the standards set forth in the Generic Index Approval Order,[10] it has become effective pursuant to Section 19(b)(3)(A) of the Act and subparagraph (e) of Rule 19b–4 thereunder. Pursuant to the Generic Index Approval Order, the Exchange may not list Index options for trading prior to 30 days after August 15, 1995, the date the proposed rule change was filed with the Commission. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

[5] *See* note 3, *supra*.

[6] *See* note 3, *supra*.

[7] In addition, the Generic Index Approval order requires that at all time, at least 90% of the stock in the Index, by weight, and 80% of the total number of stocks comprising the Index, individually, must satisfy the Exchange's rules governing the listing and maintenance of listing of options thereon. *See* Generic Index Approval Order, *supra* note 3.

[8] The PHLX represents that the PHLX and OPRA have the necessary systems capacity to support the new series of options that will result from the introduction of options and long-term options on the Index. *See* Letter from Joseph Corrigan, Executive Director, OPRA, to Murray Ross, Secretary, PHLX, dated August 17, 1995; and Letter from William H. Morgan, Vice President, Trading Systems, PHLX, to Michael Walinskas, Branch Chief, Office of Market Supervision, Commission, dated August 22, 1995.

[9] *See* PHLX Rules 1001A through 1102A, "Limitation of Exchange Liability," and 1000, "Applicability, Definitions, and References," through 1072, "Reporting Requirements Applicable to Short Sales in NASD/NM Securities."

[10] *See* note 3, *supra*.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by October 4, 1995.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[11]

Margaret H. McFarland,

Deputy Secretary.

[Release No. 34–36194; File No. SR–PHLX–95–16]

Self-Regulatory Organization; Order Approving Proposed Rule Change by the Philadelphia Stock Exchange, Inc., Relating to Modifications of the Position and Exercise Limits for Narrow-Based Index Options

September 6, 1995.

I. Introduction

On March 6, 1995, the Philadelphia Stock Exchange, Inc. ("PHLX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] a proposed rule change to amend PHLX Rule 1001A, "Position Limits," to increase the position and exercise limits[3] for narrow-based (or industry) index options from the current levels of 5,500, 7,500, or 10,500 contracts to 6,000, 9,000, or 12,000 contracts.

Notice of the proposed rule change appeared in the **Federal Register** on May 16, 1995.[4] No comments were received on the proposal.

II. Background and Description

Since the inception of standardized options trading, the options exchanges have had rules imposing limits on the aggregate number of option contracts that a member or customer can hold or exercise. These rules are intended to prevent the establishment of large options positions that can be used or might create incentives to manipulate or disrupt the underlying market so as to benefit the options position. At the same time, the Commission has recognized that option position and exercise limits must not be established at levels that are so low as to discourage participation in the options market by institutions and other investors with substantial hedging needs or to prevent specialists and market makers from adequately meeting their obligations to maintain a fair and orderly market.[5]

In 1983, the PHLX set position and exercise limits for narrow-based index options at 4,000 contracts.[6] In 1993, the Commission approved a PHLX proposal to amend PHLX Rule 1001A to increase the position limits for narrow-based index options to the current levels of 5,500, 7,500, or 10,500 contracts.[7] The PHLX proposes to amend Exchange Rule 1001A(b)(1) to increase the position and exercise limits for industry index options from 5,500, 7,500, or 10,500 contracts to 6,000, 9,000 or 12,000 contracts.[8]

The Exchange believes that its proposal is consistent with the Act for several reasons. First, the Exchange notes that the current industry index option position limits have been in place since 1993 and that there have been no further increases in position limits for narrow-based index options since that time, despite substantial changes in the marketplace. Most notable among these changes, according to the PHLX, is an appreciable growth in index options trading. The PHLX states that this marked increase in index options volume has significantly increased liquidity in PHLX-traded index options.[9]

Second, the Exchange believes that the proposed increases are reasonable and consistent with the gradual, evolutionary approach adopted previously by the Commission and the options exchanges when increasing position and exercise limits.[10] Accordingly, the PHLX proposes a 9% increase in the lowest tier (from 5,000 to 6,000 contracts); a 20% increase for options currently at the 7,500 contract limit (increased to 9,000 contracts); and a 15% increase in the highest tier, currently at 10,500 contracts (increased to 12,000 contracts).

Third, the Exchange believes that the proposed increases are needed by traders and investors. According to the PHLX, Exchange members and customers have asked the Exchange to propose an increase in position limits, primarily because interested trading participants have not been able to meet their investment needs at current position limit levels. Specifically, the PHLX notes that certain institutional traders handling industry funds deal in securities valued many times higher than the maximum permissible position under PHLX rules. Based on such member and customer requests, the Exchange believes that the current position limit levels discourage market participation by large investors and the institutions that compete to facilitate the trading interests of large investors. Accordingly, the PHLX proposes to raise position and exercise limits for narrow-based index options to accommodate the liquidity and hedging needs of large investors and the facilitators of those investors.

---

[11] 17 CFR 200.30–3(a)(12) (1994).

[1] 15 U.S.C. § 78s(b)(1) (1988).

[2] 17 CFR 240.19b–4 (1994).

[3] Position limits impose a ceiling on the number of option contracts which an investor or group of investors acting in concert may hold or write in each class of options on the same side of the market (*i.e.*, aggregating long calls and short puts or long puts and short calls). Exercise limits prohibit an investor or group of investors acting in concert from exercising more than a specified number of puts or calls in a particular class within five consecutive business days. PHLX Rule 1002A, "Exercise Limits," states that for the purposes of determining compliance with PHLX Rule 1002, "Exercise Limits," exercise limits for index option contracts shall be equivalent to the position limits described in PHLX Rule 1001A.

[4] *See* Securities Exchange Act Release No. 35694 (May 9, 1995), 60 FR 26067.

[5] *See, e.g.*, Securities Exchange Act Release No. 33265 (December 3, 1993), 58 FR 65201 (December 13, 1993) (order approving File No. SR–Amex–93–27) (increasing position and exercise limits for equity options and narrow-based index options).

[6] *See* Securities Exchange Act Release No. 20437 (December 2, 1983), 48 FR 55229 (December 9, 1983) (order approving File No. SR–PHLX–83–17).

[7] *See* Securities Exchange Act Release No. 33288 (December 3, 1993), 58 FR 65221 (December 13, 1993) (order approving File No. SR–PHLX–93–07) ("1993 Approval Order"). Specifically, PHLX Rule 1001A(b)(1) currently provides the following position limits for industry index options: (i) 5,500 contracts for an index where a single component stock accounted, on average, for 30% or more of the index value during the 30-day period immediately preceding the Exchange's semi-annual review of industry index option position limits; (ii) 7,500 contracts for an index where a single component stock accounted, on average, for 20% or more of the index value or any five component stocks together accounted, on average, for more than 50% of the index value but no single component stock accounted, on average, for 30% or more of the index value during the 30-day period immediately preceding the Exchange's semi-annual review of industry index option position limits; or (iii) 10,500 contracts where the conditions requiring a limit of 5,500 contracts or 7,500 contracts have not occurred.

[8] The PHLX currently trades options on the following narrow-based indexes: (1) the Gold/Silver Index ("XAU") 5,500 contracts; (2) the Utility Index ("UTY") (10,500 contracts); (3) the PHLX/KBW Bank Index ("KBX") (10,500 contracts); (4) the Phone Index ("PNX") (5,500 contracts); (5) the Semiconductor Index ("SOX") (7,500 contracts); and (6) the Airline Sector Index ("PLN") (10,500 contracts).

[9] The PHLX states that index options volume increased 450% (from 354,614 contracts to 1,957,171 contracts in 1994 as compared to 1993.

[10] According to the PHLX, the most recent position limit changes in 1993 represented changes of 38% (from 4,000 to 5,500 contracts); 25% (from 6,000 to 7,500 contracts); and 31% (from 8,000 to 10,500 contracts).

Fourth, the Exchange believes that the proposal should increase the depth and liquidity of the markets for index options. The PHLX also believes that higher position limits would further accommodate the hedging needs of Exchange market makers and specialists, who are also restricted by current levels.

The PHLX notes that it continues to monitor the markets for evidence of manipulation or disruption caused by investors with positions at or near current position or exercise limits and that the new limits will not diminish the surveillance function in this regard. Additionally, the PHLX states that its surveillance procedures have become increasingly sophisticated and automated.

For these reasons, the Exchange believes that the proposal to increase narrow-based index option position limits is consistent with Section 6 of the Act, in general, and, in particular, with Section 6(b)(5), in that it is designed to promote just and equitable principles of trade and to prevent fraudulent and manipulative acts and practices, as well as to protect investors and the public interest. The Exchange believes that the proposal should remove impediments to and perfect the mechanism of a free and open market by providing market opportunity to investors constricted by current position limit levels. The PHLX also believes that by stimulating market participation and thereby increasing option market depth and liquidity, the proposed rule change should promote just and equitable principles of trade.

III. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of Section 6(b)(5).[11] Specifically, the Commission finds that the proposed position and exercise limits for narrow-based index options should accommodate the needs of investors and market participants and should increase the potential depth and liquidity of the options market as well as the underlying cash market without significantly increasing concerns regarding intermarket manipulations or disruptions of the market for the options or the underlying securities.

As noted above, the Commission believes that although the position and exercise limits for options must be sufficient to protect the options and related markets from disruptions by manipulation, the limits must not be established at levels that are so low as to discourage participation in the options market by institutions and other investors with substantial hedging needs or to prevent market makers from adequately meeting their obligations to maintain a fair and orderly market. In this regard, the PHLX has stated that the current position limits discourage market participation by certain large investors and the institutions that compete to facilitate their trading. In addition, the PHLX notes that index option trading volume has increased significantly since 1993, when the current industry index option position limits were established. In light of the increased volume of narrow-based index option trading and the needs of investors and market makers, the Commission believes that the PHLX's proposal is a reasonable effort to accommodate the needs of market participants.

In addition, the Commission notes that the proposal, while increasing the positions limits for narrow-based index options, continues to reflect the unique characteristics of each index option and to maintain the structure of the current three-tiered system. Specifically, the lowest proposed limit, 6,000 contracts, will apply to narrow-based index options in which a single underlying stock accounts for 30% or more of the index value during the 30-day period immediately preceding the Exchange's semi-annual review of industry index option positions limits. A position limit of 9,000 contracts will apply if any single underlying stock accounts, on average, for 20% or more of the index value or any five underlying stocks account, on average for more than 50% of the index value, but no single stock in the group accounts, on average, for 30% or more of the index value during the 30-day period immediately preceding the Exchange's semi-annual review of industry index option position limits. The 12,000-contract limit will apply only if the Exchange determines that the conditions requiring either the 6,000-contract limit or the 9,000-contract limit have not occurred. Accordingly, the proposal allows the Exchange to avoid placing unnecessary restraints on those narrow-based index options where the manipulative potential is the least and the need for increased positions, both by traders and institutional investors, may be the greatest.

The Commission believes that the proposed increases for the three tiers of 9%, 20%, and 15%, for lowest to highest, respectively, appear to be appropriate and consistent with the Commission's evolutionary approach to position and exercise limits. In this regard, the absence of discernible manipulative problems under the current three-tiered position and exercise limit system for narrow-based index options leads the Commission to conclude that the modest increases proposed by the Exchange are warranted. The Commission recognizes that there are no ideal limits in the sense that options positions of any given size can be stated conclusively to be free of any manipulative concerns. However, based upon the absence of discernible manipulation or disruption problems under current limits, the Commission believes that the proposed limits can be safely considered. Accordingly, the Commission believes that the liberalization of existing position and exercise limits for narrow-based index options is now appropriate.[12]

The Commission notes that the Exchange has had considerable experience monitoring the current three-tiered framework in narrow-based stock index options. The Commission has not found that differing position and exercise limit requirements based on the particular options product to have created programming or monitoring problems for securities firms, or to have led to significant customer confusion. Based on the current experience in handling position and exercise limits, the Commission believes that the proposed increase in position and exercise limits for narrow-based index options will not cause significant problems.

Finally, the PHLX has indicated that its surveillance procedures have become increasingly sophisticated and automated. The Commission believes that the Exchange's surveillance programs are adequate to detect and deter violations of position and exercise limits as well as to detect and deter attempted manipulative activity and other trading abuses through the use of such illegal positions by market participants.[13]

IV. Conclusion

For the foregoing reasons, the Commission finds that the proposal to increase the position and exercise limits for narrow-based index options to 6,000, 9,000, or 12,000 contracts, depending on the percentage stock concentrations within the index, is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[14] that the proposed rule change (SR–PHLX–95–16) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[15]

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

---

[11] 15 U.S.C. 78f(b) (1988 & Supp. V 1993).

[12] The Commission continues to believe that proposals to increase position limits and exercise limits must be justified and evaluated separately. After reviewing the proposed exercise limits, along with the eligibility criteria for each tier, the Commission has concluded that the proposed exercise limit increases for the three-tiered framework do not raise manipulation problems or increase concerns over market disruption in the underlying securities.

[13] The Commission emphasizes that the PHLX must closely monitor compliance with position and exercise limits and to impose appropriate sanctions for failures to comply with the Exchange's position and exercise limit rules.

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Philadelphia Stock Exchange, Inc., Relating to the Amendment of the Exchange's Schedule of Fees and Charges

September 7, 1995.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on August 23, 1995 the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange submits a proposed rule change to amend the Phlx's Schedule of Fees and Charges respecting charges for nonexchange sponsored securities execution equipment operated by Phlx members and member organizations on the Phlx equity options trading floor. The proposed amendment would modify the existing $250.00 monthly fee assessed upon each stock execution machine on the Phlx equity options floor. A new securities execution equipment registration fee of $300.00 per terminal would be imposed for the period September 1, 1995 through December 31, 1996, on each member operating equipment that has execution capability and/or order routing access to the common message switch of the primary registered national securities exchanges.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Since 1990, the Exchange has imposed a monthly proprietary stock execution machine charge of $250.00.[2] Effective at the opening of business, Friday, September 1, 1995, the Exchange will impose a $300.00 securities execution equipment registration fee for the period September 1, 1995 through December 31, 1996, on nonexchange sponsored terminals or computers configured for execution and/or routing capabilities to the common message switch of the primary registered national securities exchanges maintained on or accessible to the Phlx equity options trading floor. This registration fee will be assessed to each Phlx member or member organization maintaining and operating such nonexchange sponsored securities execution equipment on the Phlx options trading floors. The Phlx will continue to retain the monthly $250.00 fee charged to members and member organizations maintaining and operating such equipment on the Phlx equity trading floor.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act[3] in general and furthers the objectives of Section 6(b)(4)[4] in particular in that it provides for the equitable allocation of reasonable dues, fees, and other charges among the Exchange's members and other persons using its facilities.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes the proposed rule change does not impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others.

The Phlx Finance Committee and the Phlx Floor Procedure Committee provided specific recommendations to the Phlx's Board of Governors.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change constitutes or changes a due, fee, or other charge imposed by the Exchange and, therefore, has become effective pursuant to Section 19(b)(3)(A) of the Act[5] and subparagraph (e) of Rule 19b–4 thereunder.[6]

At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing also will be available for inspection and copying at the principal office of the Philadelphia Stock Exchange. All submissions should refer to File No. SR–Phlx–95–64 and should be submitted by October 13, 1995.

BILLING CODE 8010–01–M

DEPARTMENT OF STATE

[Public Notice No. 2253]

Advisory Panel to the United States Section of the North Pacific Anadromous Fish Commission; Notice of Partially Closed Meeting

The Advisory panel to the United States Section of the North Pacific Anadromous Fish Commission will meet on September 28, 1995, at the Radisson Hotel, SeaTac Airport, 17001 Pacific Highway South, Seattle, Washington. This session will involve discussion of the Third Annual Meeting of the North Pacific Anadromous Fish Commission, to be held November 6–10, 1995, in Seattle, Washington. The discussion will begin at 7:00 p.m. and is open to the public.

The Advisory Panel will also meet at 8:00 p.m. This session will not be open to the public inasmuch as the discussion will involve classified matters pertaining to the United States negotiating position to be taken at the Third Annual Meeting of the North Pacific Anadromous Fish Commission. The members of the Advisory Panel will examine various options for the U.S. position at the Third Annual Meeting, and these considerations must necessarily involve review of classified matters. Accordingly, the determination has been made to close the 8:00 p.m. session pursuant to Section 10(d) of the Federal Advisory Committee Act, 5 U.S.C. App., and 5 U.S.C. 552b(c)(1) and (c)(9).

Requests for further information on the meeting should be directed to Mr. William E. Dilday, Senior Pacific Affairs Officer, Office of Marine Conservation (OES/OMC), Room 7820, U.S. Department of State, Washington, D.C. 20520–7818. Mr. Dilday can be reached by telephone on (202) 647–3940 or by FAX (202) 736–7350.

Dated: August 29, 1995.

Ambassador David A. Colson,

Deputy Assistant Secretary for Oceans.

BILLING CODE 4710–09–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

RTCA, Inc.; Free Flight Implementation Task Force

Pursuant to section 10(a) (2) of the Federal Advisory Committee Act (P.L. 92–463, 5 U.S.C., Appensix 2), notice is hereby given for Free Flight Implementation Task Force meeting to be held September 20 and 21, 1995. The meeting will be held at the MITRE Reston facility, 11493 Sunset Hills Road, Reston, Virginia.

The meeting on Wednesday, September 20, will begin at 9:30 in Room S1102 with a Plenary session, where the Task Force Chairman and Working Group Co-Chairs will review Task Force objectives and status.

The agenda for the remainder of September 20 and all of September 21 will be separate and concurrent Working Group deliberations.

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1140 Connecticut Avenue, N.W., Suite 1020, Washington, D.C. 20036; (202) 833–9339 (phone) or (202) 833–9434 (fax). Members of the public may present a written statement to the committee at any time.

Exceptional circumstances, such as the need to complete the final report for this task in a relatively short time and the difficulty in locating adequate conference space, exist in this instance to permit public notice of this meeting in less than 15 days.

Issued in Washington, D.C., on September 7, 1995.

Janice L. Peters,

Designated Official.

BILLING CODE 4910–13–M

RTCA, Inc.; Technical Management Committee

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463, 5 U.S.C., Appendix 2), notice is hereby given for the RTCA Technical Management Committee meeting to be held September 29, 1995, starting at 9:00 a.m. The meeting will be held at RTCA, Inc., 1140 Connecticut Avenue, N.W., Suite 1020, Washington, DC, 20036.

The agenda will include: (1) Chairman's Remarks; (2) Review and Approval of Summary of August 21 Meeting; (3) Consider and Approve: a. Proposed Final Draft, Minimum Operational Performance Standards for Airborne Radio Communications Equipment Operating Within the Radio Frequency Range 117.975–137.000 MHz (RTCA Paper No. 463–95/TMC–187); b. Proposed Final Draft, Minimum Operational Performance Standards for Global Navigation Satellite System (GNSS) Airborne Antenna Equipment (RTCA Paper No. 468–95/TMC–191); c. Proposed Final Draft, Minimum Operational Performance Standards for Global Positioning System/Wide Area Augmentation System Airborne Equipment (RTCA Paper No. 469–95/TMC–192); (4) Take Action on Open Items from Previous Meeting: a. Report on Integration of RTCA Response to 1994 Symposium Recommendations; b. White Paper on RNP Issues and Recommendations; c. Report from FAA Concerning Cockpit Moving Map Displays; (5) Other Business; (6) Date and Place of Next Meeting.

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1140 Connecticut Avenue, N.W., Suite 1020, Washington, D.C. 20036; (202) 833–9339 (Phone) or (202) 833–9434 (fax). Members of the public may present a written statement to the committee at any time.

Aviation Rulemaking Advisory Committee Meeting on Air Carrier Operations

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Federal Aviation Administration Aviation Rulemaking Advisory Committee to discuss air carrier operations issues.

DATES: The meeting will be held on September 27, 1995, at 12:30 p.m.

ADDRESSES: The meeting will be held at the Air Line Pilots' Association, 1625 Massachusetts Avenue NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ms. Dwonna Johnson, Flight Standards Service, Air Transportation Division (AFS–200), 800 Independence Avenue SW., Washington, DC 20591, telephone (202) 267–8166.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C. App II), notice is hereby given of a meeting of the Aviation Rulemaking Advisory Committee to be held on September 27, 1995. The agenda for this meeting will include status reports on the All Weather Operations Working Group, the Single Engine Operations Working Group, and the Fatigue Countermeasures and Alertness Management Working Group. Attendance is open to the interested public but may be limited by the space available. The public must make arrangements in advance to present oral statements at the meeting or may present written statements to the committee at any time. Arrangements may be made by contacting the person listed under the heading **FOR FURTHER INFORMATION CONTACT.**

Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested 10 calendar days before the meeting.

Issued in Washington, DC, on September 6, 1995.

Quentin J. Smith,

Assistant Executive Director for Air Carrier Operations, Aviation Rulemaking Advisory Committee.

[FR Doc. 95–22742 Filed 9–12–95; 8:45am]

BILLING CODE 4910–13–M

Notice of Passenger Facility Charge (PFC) Approvals and Disapprovals

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Monthly Notice of PFC Approvals and Disapprovals. In August 1995, there were six applications approved. Additionally, seven approved amendments to previously approved applications are listed.

SUMMARY: The FAA publishes a monthly notice, as appropriate, of PFC approvals and disapprovals under the provisions of 49 U.S.C. 40117 (Pub. L. 103–272) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158). This notice is published pursuant to paragraph d of § 158.29.

PFC Applications Approved

Public Agency: Department of Port Control, Cleveland, Ohio.

Application Number: 95–03–C–00–CLE.

Application Type: Impose and use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $19,475,642.

Estimated Charge Effective Date: November 1, 1995.

Estimated Charge Expiration Date: February 1, 1997.

Class of Air Carriers not Required To Collect PFC's: Air taxi/commercial operators.

Determination: Approved. Based on information contained in the public agency's application, the FAA has determined that the proposed class accounts for less than 1 percent of the total annual enplanements at Cleveland Hopkins International Airport (CLE).

Brief Description of Project Approved for Collection at CLE and Use at CLE: Asbestos removal in terminal at CLE.

Brief Description of Project Approved for Collection at CLE: Waste water—glycol collection system construction.

Brief Description of Project Approved for Collection at CLE and Use at Burke Lakefront Airport: Passenger jetways (non-exclusive use), baggage claim/security improvements (non-exclusive use).

Brief Description of Project Partially Approved for Collection at CLE and Use at CLE: Acquisition of Analex Office Building and vacant land in the Aerospace Technology Park.

Determination: This approval is limited to the acquisition of the land and building in accordance with FAA Order 5100.37A, Land Acquisition and Relocation Assistance for Airport Projects. Relocation assistance is not eligible for commercial businesses. Also, the demolition of the building is not approved at this time. The office building was the subject of an airspace evaluation and a determination of no hazard was issued, the building is a compatible land use, and the Department of Port Control, City of Cleveland, has not determined the appropriate National Environmental Protection Act action with respect to demolition of the Analex building. In the interim, the building may be used to generate new airport revenue. If, after the final acquisition, costs are determined and less than the approved amount is required for the acquisition, the Department of Port Control, City of Cleveland, will be required to issue an amendment to this application to reduce the PFC amount for the project and inform the air carriers.

Brief Description of Project Partially Approved for Collection at CLE: NASA feasibility and pre-engineering study: relocation of engine test facility.

Determination: The estimated task costs requested by the City of Cleveland were reduced based on the FAA's analysis of recent prior similar studies and the FAA's experience in this area.

Decision Date: August 4, 1995.

For Further Information Contact: Dean C. Nitz, Detroit Airports District Office, (313) 487–7300.

Public Agency: City of Pensacola, Florida.

Application Number: 95–02–U–00–PNS.

Application Type: Use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $3,918,000.

Charge Effective Date: February 1, 1993.

Estimated Charge Expiration Date: December 1, 1995.

Class of Air Carriers Not Required to Collect PFC's: The City of Pensacola was previously approved, in a decision dated November 23, 1992, to exclude a class of air carriers from the requirement to collect the PFC. This decision does not affect that ruling.

Brief Description of Projects Approved for Use of PFC Revenue: Provide a vegetation barrier, purchase avigation easements.

Decision Date: August 10, 1995.

For Further Information Contact: Sandra A. Nazar, Orlando Airports District Office, (407) 648–6586.

Public Agency: Charlottesville-Albemarle Airport Authority, Charlottesville, Virginia.

Application Number: 95–06–U–00–CHO.

Application Type: Use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $1,524,300.

Charge Effective Date: April 1, 1995.

Estimated Charge Expiration Date: April 1, 1999.

Class of Air Carriers Not Required To Collect PFC's: The Charlottesville-Albemarle Airport Authority was previously approved, in a decision dated January 26, 1995, to exclude a class of air carriers from the requirement to collect the PFC. This decision does not affect the ruling.

Brief Description of Projects Approved for Use of PFC Revenue: Acquire snow blower and broom, Snow loader/plow, Runway deicing vehicle, Aircraft rescue and firefighting (ARFF) vehicle.

Brief Description of Project Disapproved for Use of PFC Revenue: Overlay runway 3–21.

Determination: Disapproved for use of PFC revenue. The FAA's determination approving PFC collection for this project, dated January 26, 1995, notes that, at the time that collection authority was requested, the financial plan for this project included proposed Airport Improvement Program (AIP) entitlement and discretionary grants as the major sources of funding. The FAA's January 26 determination also states that the FAA expected that the public agency would finalize its financial plan prior to the submission of a "use" application for this project. However, the FAA has determined that, at this time, the financial plan for this project is still tentative and that the public agency has not satisfactorily demonstrated the ability to complete the project without the proposed AIP funds, for which the FAA has not made a commitment to provide. Therefore, the FAA is disapproving this project at this time. The public agency is encouraged to reapply for PFC use authority for this project after it has finalized its financial plan. This decision does not affect the collection authority previously approved for this project.

Decision Date: August 10, 1995.

For Further Information Contact: Robert Mendez, Washington Airports District Office, (703) 285–2570.

Public Agency: City of Waco, Texas.

Application Number: 95–01–C–00–ACT.

Application Type: Impose and use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $615,742.

Estimated Charge Effective Date: November 1, 1995.

Estimated Charge Expiration Date: July 1, 2000.

Class of Air Carriers Not Required To Collect PFC's: None.

Brief Description of Projects Approved for Collection and Use of PFC Revenue: Planning studies, Airfield safety improvements, Terminal safety improvements, ARFF vehicle.

Decision Date: August 14, 1995.

For Further Information Contact: Ben Guttery, Southwest Region Airports Division, (817) 222–5614.

Public Agency: Greater Orlando Aviation Authority, Orlando, Florida

Application Number: 95–03–C–00–MCO.

Application Type: Impose and use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $19,138,741.

Estimated Charge Effective Date: September 1, 1995.

Estimated Charge Expiration Date: June 1, 1996.

Class of Air Carriers Not Required To Collect PFC's: None.

Brief Description of Projects Approved for Collection Use:

Design for north crossfield taxiway,
Preliminary design for Airside 2 and related improvements,
Construction of taxiways R–60, F–15, and ARFF taxiway access,
West ramp rehabilitation design,
Matching funds for master plan,
Replacement for pumper engine no. 84,
Replacement for airfield sweeper no. 70353,
Twenty-four inch sanitary force main,
800 Megahertz communication system,
Master mitigation—conceptual permitting,
Mitigation program—engineering services,
Mitigation program—jurisdictional boundaries,
Completion of main terminal northeast corridor,
Part 150 study.

Brief Description of Projects Partially Approved for Collection and Use: Security improvement program.

Determination: The public agency did not adequately support costs for this project other than the matching share of the AIP–36 grant. Accordingly, the approved amount is less than that requested by the public agency.

Brief Description of Disapproved Projects: Exhibit A property map, FAA grant close-out.

Determination: Disapproved. Costs associated with these items are administrative costs specifically related to AIP projects. Allowable costs for the PFC program, defined in section 158.3 and further defined in the preamble to Part 158, identify "a public agency's cost of administering its PFC program" as allowable. These items are not required for PFC project approval or administration of the PFC program at Orlando International Airport; therefore, the projects are disapproved.

Closed circuit television (CCTV) retrofit.

Determination: Disapproved. This project has been determined to be ineligible under AIP criteria in accordance with appendix 2 of FAA Order 5100.38A, since the relocation of a control tower is not eligible. The use of the CCTV system mitigates the need to relocate the air traffic control tower for line-of-sight blockage. Accordingly, this project is disapproved.

Convert chillers to non-CFC refrigerant.

Determination: Disapproved. This project has been determined to be ineligible under AIP criteria in accordance with appendix 2 of FAA Order 5100.39A, as routine airport maintenance. Accordingly, this project is disapproved.

Decision Date: August 28, 1995.

For Further Information Contact: Pablo G. Auffant, Orlando Airports District Office, (407) 648–6583.

Public Agency: Gulfport-Biloxi Regional Airport Authority, Gulfport, Mississippi.

Application Number: 95–03–C–00–GPT.

Application Type: Impose and use PFC revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $1,518,400.

Estimated Charge Effective Date: September 1, 1995.

Estimated Charge Expiration Date: September 1, 1997.

Class of Air Carriers Not Required To Collect PFC's: None.

Brief Description of Projects Approved for Collection and Use:

Construct concourse A,
Construct terminal improvement (phase I),
Master plan (wetlands),
Master plan (access),
Construct charter ramp (phase V–a),
Install loading bridge.

Decision Date: August 31, 1995.

For Further Information Contact: Elton Jay, Jackson Airports District Office, (601) 965–4628.

BILLING CODE 4910–13–M

Notice of Intent to Rule on Application to Impose and Use the Revenue From a Passenger Facility Charge (PFC) at Chippewa Valley Regional Airport; Eau Claire, WI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Chippewa Valley Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101–508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

DATES: Comments must be received on or before October 13, 1995.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Minneapolis Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, MN 55450.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Burt C. Wright, Airport Manager of the County of Eau Claire, WI at the following address: 3800 Starr Avenue, Eau Claire, WI 54703.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the County of Eau Claire under section 158.23 of Part 158.

FOR FURTHER INFORMATION CONTACT: Franklin D. Benson, Manager, Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, MN 55450, 612–725–4221. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Chippewa Valley Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101–508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

On August 30, 1995 the FAA determined that the application to impose and use the revenue from a PFC submitted by County of Eau Claire was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than November 29, 1995.

The following is a brief overview of the application.

Level of the proposed PFC: $3.00

Proposed charge effective date: January 1, 1996

Proposed charge expiration date: July 31, 2005

Total estimated PFC revenue: $755,028

Brief description of proposed project(s): Terminal Building Renovation, Taxiway Apron Improvements (design only), Airport Snow Removal Vehicle, Taxiway B & C Reconstruction, SRE Building Expansion, Taxiway Apron Improvements (construction), Airport Snow Removal Vehicle, PFC Administration

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: No request to exclude carriers.

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the County of Eau Claire.

Issued in Des Plaines, IL on September 6, 1995.

Ben De Leon,

Manager, Planning and Programming Branch, Airports Division, Great Lakes Region.

DEPARTMENT OF THE TREASURY

United States Customs Service

Domestic Interested Party Petition Concerning Country of Origin Marking for Safety Glasses

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Notice of receipt of domestic interested party petition; extension of comment period.

SUMMARY: This document extends the period of time within which interested members of the public may submit comments regarding the application of the marking requirements to imported prescription safety frames. Customs has been requested to extend the comment period to allow additional time to prepare responsive comments. The comment period is extended to October 11, 1995.

DATES: Comments must be received on or before October 11, 1995.

FOR FURTHER INFORMATION CONTACT: David Cohen, Special Classification and Marking Branch, Office of Regulations and Rulings, U.S. Customs Service, (202) 482–6980.

SUPPLEMENTARY INFORMATION:

Background

On July 11, 1995, a document was published in the **Federal Register** (60 FR 35792) containing a notice of the receipt of a domestic interested party petition regarding the country of origin marking requirements of prescription safety glasses as set forth in Headquarters Letter Ruling (HLR) 734258, dated January 2, 1992. The document solicited comments that were to be received on or before September 11, 1995. Customs has been requested to extend the period of time for comments in order to afford interested parties additional time to study the proposed regulations and prepare responsive comment. In view of the complexity and importance of the petition and its effect on the country of origin marking of safety glasses, Customs believes that the request for an extension of time should be granted. Accordingly, the period of time for the submission of comments is being extended to October 11, 1995.

Approved: September 6, 1995.

Stuart P. Seidel,

Assistant Commissioner of Customs, Office of Regulations & Rulings.

[Treasury Order Number 100–06]

Delegation of Authority to the Under Secretary (Domestic Finance) for the Government Securities Act of 1986 and Government Securities Act Amendments of 1993

Dated: September 5, 1995.

By virtue of the authority vested in the Secretary of the Treasury by 31 U.S.C. 321(b), I hereby delegate to the Under Secretary (Domestic Finance), the authority of the Secretary under the Government Securities Act of 1986, (Pub. L. 99–571) and the Government Securities Act Amendments of 1993 (Pub. L. 103–202), to exercise and to perform all duties, powers, rights, and obligations under those Acts, with the authority to redelegate such authority.

This Order supersedes Treasury Order 100–06, "Delegation of Authority to the Under Secretary for Finance to Implement the Government Securities Act of 1986," dated February 19, 1987.

Robert E. Rubin,

Secretary of the Treasury.

Sunshine Act Meetings

Federal Register
Vol. 60, No. 177
Wednesday, September 13, 1995

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL COMMUNICATIONS COMMISSION

FCC To Hold Open Commission Meeting Thursday, September 14, 1995

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, September 14, 1995, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, DC.

Item No., Bureau, and Subject

1—Common Carrier—Title: Price Cap Performance Review for Local Exchange Carriers (CC Docket No. 94–1, Phase III); Treatment of Operator Services Under Price Cap Regulation (CC Docket No. 93–124); and Revisions to Price Cap Rules for AT&T (CC Docket No. 93–197). Summary: The Commission will consider proposals on how to modify its price cap regulations for local exchange carriers to reflect the emergence of competition, including proposals related to pricing flexibility and criteria for streamlining regulation.

2—Common Carrier—Title: Price Cap Performance Review for Local Exchange Carriers (CC Docket No. 94–1, Phase II). Summary: The Commission will consider revising proposals related to establishing a permanent method for determining the "X" factor for price cap local exchange carriers.

3—Common Carrier—Title: Price Cap Performance Review for Local Exchange Carriers; Treatment of Video Dialtone Services Under Price Cap Regulation (CC Docket No. 94–1). Summary: The Commission will consider issues concerning price cap regulation of video dialtone, and the possible creation and operation of a video dialtone price cap basket.

4—Wireless Telecommunications—Title: Amendment of Parts 2 and 90 of the Commission's Rules to Provide for the Use of 200 Channels Outside the Designated Filing Areas in the 896–901 MHz and the 935–940 MHz Bands Allotted to the Specialized Mobile Radio Pool (PR Docket No. 89–553); Implementation of Section 309(j) of the Communications Act -- Competitive Bidding (PP Docket No. 93–253); and Implementation of Sections 3(n) and 322 of the Communications Act (GN Docket No. 93–252). Summary: The Commission will consider petitions for reconsideration of the service rules for 900 MHz Specialized Mobile Radio (SMR) and adoption of auction rules for the licensing of the service.

5—Wireless Telecommunications—Title: Interconnection and Resale Obligations Pertaining to Commercial Mobile Radio Services (CC Docket No. 94–54). Summary: The Commission will consider whether commercial mobile radio services should be prohibited from restricting resale of their services.

Additional information concerning this meeting may be obtained from Audrey Spivack or Maureen Peratino, Office of Public Affairs, telephone number (202) 418–0500.

Dated September 7, 1995.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

U.S. RAILROAD RETIREMENT BOARD

Notice of Public Meeting

Notice is hereby given that the Railroad Retirement Board will hold a meeting on September 20, 1995, 8:30 a.m., at the Board's meeting room on the 8th floor of its headquarters building, 844 North Rush Street, Chicago, Illinois, 60611. The agenda for this meeting follows:

(1) Field Office Closures—Recommendation 7 of Task Force Report
(2) Coverage Determinations:
  A. San Diego Northern Railway
  B. CAGY Industries, Inc.
  C. Joliet Junction Railroad, Inc.
(3) Proposed Occupational Disability Standards
(4) Regulations—Part 219, Evidence Required for Payment

The entire meeting will be open to the public. The person to contact for more information is Beatrice Ezerski, Secretary to the Board, Phone No. 312–751–4920.

Dated: September 8, 1995.

Beatrice Ezerski,

Secretary to the Board.

Part II

Department of Justice

Bureau of Prisons

28 CFR Part 547
Special Food; Proposed Rule

DEPARTMENT OF JUSTICE

Bureau of Prisons

28 CFR Part 547

[BOP–1044–P]

RIN 1120–AA37

Special Food

AGENCY: Bureau of Prisons, Justice.

ACTION: Proposed rule.

SUMMARY: In this document, the Bureau of Prisons is proposing to revise its regulations on the introduction into institutions of special food or meals from outside sources. The revised provisions state more clearly that the Bureau is responsible for procuring and preparing any food or food ingredients served to the institution's inmate population. Special food or meals which may be served to specific groups of inmates rather than to the entire inmate population are identified as commissary food items, religious diet or ceremonial meals, and medical diet foods. This amendment is intended to provide for the secure and orderly operation of the institution.

DATES: Comments due by November 13, 1995.

ADDRESSES: Office of General Counsel, Bureau of Prisons, HOLC Room 754, 320 First Street, NW., Washington, DC 20534.

FOR FURTHER INFORMATION CONTACT: Roy Nanovic, Office of General Counsel, Bureau of Prisons, phone (202) 514–6655.

SUPPLEMENTARY INFORMATION: The Bureau of Prisons is proposing to amend its regulations on special foods (28 CFR 547.20). A final rule on this subject was published in the **Federal Register** May 1, 1981 (46 FR 24901).

Current provisions in 28 CFR 547.20 specify that, with stated exceptions, the Bureau requires special food or meals prepared for and/or served to any group(s) of inmates also to be served to the institution's entire inmate population. In revising this section, the Bureau is emphasizing that it is responsible for procuring and preparing food or food ingredients to be served to the institution's inmate population. Any special food or meals to be distributed are therefore to be supplied by the Bureau. Food brought into the institution under an approved visiting program has consequently been removed from the list of exceptions, and the remainder of the stated exceptions have been revised for reasons of organization and clarity.

The Bureau of Prisons has determined that this rule is not a significant regulatory action for the purpose of E.O. 12866, and accordingly was not reviewed by the Office of Management and Budget. After review of the law and regulations, the Director, Bureau of Prisons has certified that this rule, for the purpose of the Regulatory Flexibility Act (Pub. L. 96–354), does not have a significant impact on a substantial number of small entities.

Interested persons may participate in this proposed rulemaking by submitting data, views, or arguments in writing to the Bureau of Prisons, 320 First Street, NW., HOLC Room 754, Washington, DC 20534. Comments received during the comment period will be considered before final action is taken. All comments received remain on file for public inspection at the above address. The proposed rule may be changed in light of the comments received. No oral hearings are contemplated.

List of Subjects in 28 CFR Part 547

Prisoners.

Kathleen M. Hawk,
Director, Bureau of Prisons.

Accordingly, pursuant to the rulemaking authority vested in the Attorney General in 5 U.S.C. 552(a) and delegated to the Director, Bureau of Prisons in 28 CFR 0.96(p), it is proposed to amend part 547 in subchapter C of 28 CFR, chapter V as set forth below.

SUBCHAPTER C—INSTITUTIONAL MANAGEMENT

PART 547—FOOD SERVICE

1. The authority citation for 28 CFR part 547 is revised to read as follows:

Authority: 5 U.S.C. 301; 18 U.S.C. 3621, 3622, 3624, 4001, 4042, 4081, 4082 (Repealed in part as to offenses committed on or after November 1, 1987), 5006–5024 (Repealed October 12, 1984 as to offenses committed after that date), 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99.

2. Section 547.20 is revised to read as follows:

§ 547.20 Policy.

The Bureau of Prisons is responsible for procuring and preparing any food or food ingredients to be served to the institution's inmate population. Except as allowed for in paragraphs (a) through (c) of this section, the Bureau requires that special food or meals prepared for and/or served to any group(s) of inmates also be served to the institution's entire inmate population. Special food or meals, as identified in paragraphs (a) through (c) of this section, may be prepared and/or served to a specific group of inmates rather than to the entire inmate population of the institution.

(a) Food items sold in the institution's commissary.

(b) Religious diet or ceremonial meals (see 28 CFR 548.13).

(c) Medical diet foods.

Part III

Department of Housing and Urban Development

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 3500

Real Estate Settlement Procedures Act (RESPA): Disclosure of Fees Paid to Mortgage Brokers (Retail Lenders), and Notice of Consideration of Negotiated Rulemaking; Proposed Rule

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 3500

[Docket No. FR 3780–P–01]

RIN 2502–AG40

Real Estate Settlement Procedures Act (RESPA): Disclosure of Fees Paid to Mortgage Brokers (Retail Lenders), and Notice of Consideration of Negotiated Rulemaking

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Proposed rule and notice of consideration of negotiated rulemaking process.

SUMMARY: The Department has developed a proposed rule presenting alternative approaches to the disclosure of fees to retail lenders and other matters relating to such fees that are addressed in HUD's current regulations implementing the Real Estate Settlement Procedures Act (RESPA). Under this proposed rule, the Department specifically seeks comments on whether the disclosure of indirect fees paid to mortgage brokers is useful to the consumer and should continue to be required. Disclosure of direct charges imposed upon the borrower or seller is clearly required under Section 4 of RESPA and is not the subject of this proposed rule.

The Department also has commenced the convening process to determine whether to establish a committee for negotiated rulemaking on this proposed rule. If negotiated rulemaking appears desirable and feasible, then the Department expects to undertake the establishment of such a committee by publication of a separate notice in the **Federal Register**. If a negotiated rulemaking committee is formed, the public comments concerning the substance of this proposed rule will be given to the committee for consideration in its deliberations. If it is determined that a committee is not appropriate, the comments submitted on this proposed rule will be used by the Department in promulgating a final rule.

DATES: Comment due date: November 13, 1995.

ADDRESSES: Interested persons are invited to submit comments regarding this proposed rule, the feasibility of forming a negotiated rulemaking committee, and suggestions for committee participation to the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410–0500. Communications should refer to the above docket number and title. Facsimile (FAX) comments are *not* acceptable. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address.

FOR FURTHER INFORMATION CONTACT: David R. Williamson, Director, RESPA Enforcement, Room 5241, Department of Housing and Urban Development, Washington, DC 20410; telephone 202–708–4560; or (for legal questions) Grant E. Mitchell, Senior Attorney for RESPA, Room 10252, Department of Housing and Urban Development, Washington, DC 20410; telephone 202–708–1552 (these are not toll free numbers). Hearing or speech-impaired individuals may call 1–800–877–8339 (Federal Information Relay Service TDD, which is a toll-free number).

SUPPLEMENTARY INFORMATION: The current RESPA regulations make clear that "secondary market transactions" are not covered by most provisions of RESPA: "a bona fide transfer of a loan obligation in the secondary market is not covered by RESPA and this part, except as set forth in section 6 of RESPA and § 3500.21 [mortgage servicing transfers]." The current rule details certain tests for what does or does not constitute a secondary market transaction. The Department seeks comments on its classifications of mortgage loan transactions under the current rule as "primary funding" or "secondary market" transactions and, in particular, on whether the Department has drawn the line in the appropriate place between a primary funding and a secondary market transaction.

The Department also seeks comments on aspects of its current regulations that provide, *inter alia*, that all fees paid to mortgage brokers, either directly or indirectly, must be disclosed on the Good Faith Estimate and the HUD–1 or HUD–1A, which are furnished to borrowers/consumers. Specifically, the Department seeks comments on its determination that the disclosure requirement for "all charges imposed on the borrower" includes fees paid to the mortgage broker by the lender, because all charges are ultimately borne by the borrower. Finally, the Department, in this proposed rule, also requests comments regarding a related issue: whether certain compensation by lenders to mortgage brokers normally paid after settlement, based on the volume of loans produced, should be permitted and disclosed under RESPA.

I. Certain Definitions in Proposed Rule

In this proposed rule, mortgage brokers[1] and certain other mortgage originators are frequently referred to as "retail lenders." Entities that purchase mortgage loans are frequently referred to as "wholesale lenders." In any event, the description of the lender is not dispositive of whether the transaction is covered by the rule. The proposed rule would apply to a transaction based on the characteristics of that transaction, rather than on whether the lender generally functions in a retail or a wholesale capacity.

II. RESPA Coverage

A. Background

The Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2601 *et seq.*) (RESPA) was enacted for several purposes, "including insuring that a consumer engaged in a real estate settlement is afforded effective information about the transaction in a timely manner." In addition, the Congress sought to address specific abusive settlement practices that had developed in certain areas of the country. In this proposed rule, HUD is seeking public input on specific disclosure-related issues, including where the lines should be drawn to determine whether RESPA applies.

Since 1974 the mortgage lending industry has experienced a rapid evolution. This industry has experienced major technological advances—new and different kinds of business entities have entered the field, and new business relationships have emerged among the various entities that serve the consumer in a single lending transaction. Much of the change that has occurred is attributable to the growth of the secondary market during the 1980s.

Prior to the 1980's, a mortgage loan transaction was relatively easy to understand. A lender (*e.g.*, a savings and loan, mortgage bank, or commercial bank) typically processed a loan from start to finish. The loan application was processed, evaluated, and underwritten by the lender's own employees. The loan was funded by and closed in the lender's name. The loan was usually held in the lender's portfolio of loans, and any activities regarding the loan (receiving and crediting the payments, paying out monies from an escrow account, etc.—sometimes called "servicing") were handled by that lender. Sometimes the loan was sold to another entity, in a "secondary market" transaction that was a precursor of today's more sophisticated secondary market transactions.

By the end of the 1970s and into the early 1980s, two Government-sponsored enterprises (Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac)) had developed into major purchasers of mortgages from original lenders. By the early 1980s, these secondary market entities not only bought mortgage loans, but repackaged many of these loans and sold them as mortgage-backed securities and, with the liquidity created, were able to be even greater purchasers of lenders' mortgage loans. By 1994, Fannie Mae and Freddie Mac were purchasing or otherwise dealing in more than 70 percent of all the conventional 1- to 4-family residential mortgage loans originated in the United States.

Today, the retail lender that works with the consumer to process and close a mortgage loan often is not the entity that will hold or service the loan. Rather, the retail lender serves as an intermediary between the consumer and the entity purchasing or servicing the loan (or "wholesale lender"). Many loans are purchased by, or servicing is transferred to, a wholesale lender at, or shortly after, closing. When a retail lender serves as an intermediary, it may perform services for which it is compensated in processing the loan. Compensation paid to a retail lender therefore may be "direct" and "indirect." Direct payments are fees paid directly by the consumer and must be disclosed under Section 4 of RESPA; indirect payments are fees paid by the wholesale lender to the retail lender. The issue arises over whether the amount and nature of indirect compensation should be disclosed to the consumer. HUD has been presented with arguments that the current RESPA rule, which requires disclosure of all indirect payments to mortgage brokers, focuses too narrowly on this particular class of retail lenders or intermediaries. These arguments suggest that the underlying issues for discussion should be how RESPA's fee disclosure requirements should apply to compensation of mortgage brokers, mortgage bankers, and other financial institutions that originate mortgages (retail lenders) by entities that purchase their mortgages (wholesale lenders).

B. Legal Analysis Under the Current Regulation

Section 4(a) of RESPA (12 U.S.C. 2603(a)) requires the Secretary to create a uniform settlement statement that "shall conspicuously and clearly itemize all charges imposed on the borrower * * * and the seller in connection with the settlement." The stated purposes of the statute include the provision of "greater and more timely information as to the nature and costs of the settlement process" by "more effective advance disclosure to homebuyers and sellers of settlement costs * * *" (12 U.S.C. 2601). Section 5(c) (12 U.S.C. 2604(c)) of RESPA requires the provision of a "good faith estimate of the amount or range of charges for specific settlement services the borrower is likely to incur in connection with the settlement. * * *"

Under HUD's current rules, the disclosure of all fees paid to retail lenders, including all compensation from wholesale lenders, is required when the retail lender is being compensated as part of the settlement transaction. This position is set out, *inter alia*, at 24 CFR 3500.5(b)(7); in the Instructions for filling out the HUD–1 and HUD–1A in Appendix A; and in Illustrations of Requirements of RESPA, Fact Situations 5 and 12 in Appendix B. This same disclosure requirement has not been applied to subsequent purchases of loans by wholesale lenders, on the theory that Congress only intended to cover costs related to the initial settlement transactions. The Department's current regulations, therefore, treat compensation to the retail lender under three settlement situations somewhat differently, depending upon how the loans are funded at settlement.

(1) Loan Closing and Subsequent Assignment of the Loan. This is a transaction in which a retail lender processes the loan from start to finish, funds the loan, and closes the loan in its own name. The current RESPA regulation requires that such retail lenders disclose the fees paid by the consumer. At a later point in time, the retail lender may sell the loan to a wholesale lender. The Department has not required that the terms of this subsequent secondary market transaction, including compensation paid to the retail lender by a wholesale lender, be disclosed to the consumer.

(2) Loan Closing in the Wholesale Lender's Name Using the Wholesale Lender's Funds. For this arrangement, the retail lender originates the loan, but is functioning solely in the capacity of an intermediary. The loan funds are provided by the wholesale lender and the loan is closed in the wholesale lender's name. The wholesale lender typically sets the underwriting criteria and makes the underwriting decision. In this instance, the current RESPA regulation applies to the entire fee arrangement between the retail lender and the wholesale lender. The Department regards the retail lender as being compensated as part of the settlement transaction. Indirect, as well as direct, payments to the retail lender must be disclosed under the current RESPA regulations.

(3) Table-funding. For this arrangement, the loan is processed by the retail lender and is closed in the name of the retail lender. There is, however, at or about the time of settlement, a simultaneous advance of loan funds to the retail lender by the wholesale lender and an assignment of the loan and servicing rights to the wholesale lender. Table-funding is therefore somewhat a hybrid of the two arrangements described above. As in situation (1), where the Department requires disclosure of the compensation at settlement, the loan is closed in the name of the retail lender. There is a subsequent assignment of the loan to the wholesaler. Thus, an argument could be made that the assignment constitutes a secondary market transaction, for which the terms (*i.e.*, concerning the retail lender's indirect compensation) are not required to be disclosed under the RESPA regulations. On the other hand, because the mortgage broker assigns the loan simultaneously with closing, it may be asserted that the mortgage broker acts only as an intermediary, as in situation (2).

HUD has consistently determined, in opinions of the General Counsel going back to 1986 and in the final RESPA rule published on November 2, 1992 (57 FR 49600, and restated on February 10, 1994 (59 FR 6506)), that compensation received by a mortgage broker in a table-funded transaction is subject to disclosure. This interpretation treats mortgage brokers in table-funded transactions as *settlement service providers* ancillary to the loan, akin to title agents, attorneys, appraisers, etc., whose fees are subject to disclosure. This interpretation does not view a mortgage broker as the functional equivalent of a mortgage lender. Unlike a mortgage lender, the mortgage broker in a table-funded transaction does not close the loan with its own funds. Conversely, a mortgage broker using its own funds, or with a "warehouse" line of credit for which it is liable, is not viewed as a mortgage broker, but rather as a mortgage lender under the extant HUD interpretation. The salient criterion for this conclusion is the source of funds. HUD's interpretation, embodied in the current RESPA regulations, has given rise to some controversy, as set forth in Section C of this preamble. In light of this controversy, the Department has elected to revisit and invite public comment on these issues. However, the Department wishes to stress to all concerned parties, and particularly to Federal and State regulators, that the Department's willingness to reexamine the issue does not affect the provisions of the current rule as now effective, unless and until modified. All affected parties should continue to make full disclosure of all direct and indirect compensation, as required by the current RESPA rule.

---

[1] The historical discussion in this proposed rule uses the term "mortgage broker" because this is the terminology that the Department used in addressing the issue in both the informal opinion and regulatory context. Section 3500.4(d) of the current RESPA rule withdrew all previous informal legal opinions, in particular a letter of August 14, 1992, issued by a former General Counsel of HUD, which dealt extensively with the disclosure of mortgage broker fees and the manner in which such fees should be disclosed on the HUD–1. This preamble uses the term "retail lender" whenver feasible in discussing the proposed rule and when the discussion does not clearly require the use of the term "mortgage broker."

C. Criticism of Existing Policy

(1) HUD's Interpretation of the RESPA Statute is Incorrect. Opponents argue that the Department's interpretation of RESPA's disclosure requirements ("all charges imposed upon the borrower * * *") to include indirect charges and payments from the borrower funds is too expansive and beyond the scope of the statute. They argue that all charges imposed on the borrower are fully included in direct charges. Indirect compensation need not be separately enumerated because it is already reflected in those direct charges. For example, the wholesale lender pays a retail lender fees from income received from the interest rate, points and other direct fees. Separate enumeration constitutes a redundancy, and combining direct and indirect costs overstates the total cost of the loan. Moreover, since the borrower is aware of the borrower's cost for the mortgage loan, no useful purpose is served by disclosing indirect charges reflected in points, interest rate, etc.

Second, opponents argue that a table-funded loan should be treated as a secondary market transaction. They maintain that such a transaction is the functional equivalent of a loan made by another type of lender, *e.g.*, a mortgage banker, who has an advance commitment to sell the loan shortly after settlement.

(2) HUD's Interpretation of the Statute Treats One Class of Participants Unfairly. First, mortgage brokers argue that an unlevel playing field is created, because mortgage bankers need not disclose the terms of a subsequent sale of the loan (although they do disclose origination fees and points, as well as other direct costs); mortgage brokers must effectively do so for table-funded transactions.

Second, by concluding that mortgage brokers engaged in table-funded transactions are not subject to the secondary market exemption, the Department has put an additional burden of scrutiny on these mortgage broker fees by making them subject to requirements of Section 8 of RESPA, which requires that all compensation be reasonably related to goods or services provided. The same scrutiny does not apply to the sales transactions of other originators that sell their loans to wholesale lenders following settlement.

(3) HUD's Interpretation of the RESPA Statute is Poor Public Policy. Opponents argue that retail lenders (particularly mortgage brokers) play an important role in making financing more available to "nontraditional" borrowers. They argue that HUD's interpretation, insofar as it places retail lenders at a competitive disadvantage, is not consistent with public policy designed to expand access to mortgage credit for such nontraditional borrowers.

Opponents also suggest that HUD's policy often requires retail lenders to spend added time and resources explaining the nature of indirect fees to a consumer. Occasionally, a consumer, or even an employee of a retail lender, will attempt to negotiate for a share of the fees paid to the retail lender.

D. Other Considerations and Concerns

(1) The fundamental premise underlying RESPA is that disclosure of information empowers the consumer to shop for better services and lower costs. All fees and charges, other than seller contributions, are ultimately borne by the borrower, whether by direct payments, such as points, or by indirect payments through a higher interest rate that the borrower pays over time. However, the seller also has a fundamental interest in this process, because the seller, particularly in difficult markets, is asked to absorb an increasingly greater part of the settlement costs. Knowledge of all fees, including those paid to a retail lender, may allow consumers to negotiate reductions in overall costs of the transaction.

(2) The Housing and Community Development Act of 1992 (Pub. L. 102–550; 106 Stat. 3672, at 3874) extended RESPA to junior lien transactions and confirmed the Department's position that refinancing transactions were covered by RESPA. As of August 9, 1994, the same principles of disclosure of indirect fees paid to mortgage brokers were extended to junior lien transactions. Refinancing and junior lien transactions are frequently advertised on a "no point" or "no cost" basis, which effectively means that all or much of the ancillary costs and charges of making the loan are contained in the interest rate or in a combination of the interest rate and the points. The consumer typically has a somewhat lesser interest in points and mortgage broker fees, in part because, unlike a purchase money transaction, points may only be amortized and deducted for Federal and State tax purposes over the life of the loan.

The high level of competitiveness through advertising and other publicity in the first mortgage industry, aided by the borrowers' interest in being able to make full IRS deductions, have helped assure that many of the costs of making a mortgage loan have been highly visible. However, while the Department has had extensive experience with purchase money and other first mortgage 1- to 4-family residential loans, because RESPA has only covered junior lien transactions since August 9, 1994, the Department has no comparable range of experience respecting junior lien transactions, which frequently are regulated and limited under different Federal or State laws and are funded by different institutions or branches of institutions. Therefore, the Department welcomes policy or legal commentary regarding the possibility of having one provision for first mortgage transactions and a second provision for junior lien transactions, or whether the Department should treat junior lien transactions made by retail lenders in the same manner as first lien purchase money and refinancing transactions.

(3) Under the statutory or judicial interpretations of the laws of several States, mortgage brokers are treated as agents of the consumer and are considered to have a fiduciary duty to disclose all fees that the mortgage broker obtains from the transaction. In Virginia, a case brought by the Virginia Poverty Law Center was settled when the major mortgage company agreed to restitution of certain fees collected by mortgage brokers, but without answering the fiduciary question. In California, where the courts have adopted the agency theory, the Department of Real Estate has implemented this requirement by creating a combined good faith estimate and mortgage broker disclosure form, thereby requiring all mortgage brokers (who close as many as 50 to 60 percent of all loans in the State) to disclose all direct, indirect, or anticipated mortgage broker compensation. Because RESPA defers to State laws that provide more benefits to the consumer, any new interpretation by the Department will arguably not affect State provisions that provide for such direct and indirect mortgage broker fee disclosures. Also, while the Department has been informed that several class action law suits have been filed regarding the issue of payment of "overages" to mortgage brokers, the Department is not a party to these suits and is unaware of any effect an interpretation by the Department might have on the actions.

E. Possible Results of This Rulemaking

As a result of this rulemaking, HUD could establish uniform disclosure requirements for all retail lenders, either: (1) to require the disclosure of all direct fees paid to retail lenders by borrowers *and* to require disclosure of all indirect fees paid to retail lenders by wholesale lenders; or (2) to require the disclosure of all direct fees paid to retail lenders by borrowers only. In addition to, or instead of, modifying the rules on disclosure of fees in loan transactions, as a result of this rulemaking HUD may redefine what constitutes a "secondary market transaction". As set forth above, such transactions are exempt from RESPA, including, *inter alia*, its disclosure requirements, its prohibitions against kickbacks and referral fees, and its requirement that all compensation be reasonably related to the goods or services provided. HUD could define a "secondary market transaction" as a loan transaction involving: (1) the sale of a loan by a retail lender to a wholesale lender occurring after settlement (the position in the current regulations); (2) the sale of a loan by a retail lender at any time—before, contemporaneous with, or after settlement; or (3) the sale of a loan on some other date, such as after the first accrual date for the loan following settlement; *i.e.*, the date the first payment is due from the borrower under the loan.

Combining the two options of requiring either disclosure of direct and indirect fees, or disclosure of direct fees only, with the three possibilities for defining the secondary market transaction results in six alternative approaches to regulating settlement transactions under RESPA. Each of these six alternatives would have a different effect on each of the major types of loan transactions described above, including: (1) Loan closing and subsequent assignment of the loan; (2) loan closing in the wholesale lender's name using the wholesale lender's funds; and (3) table-funding. None of these alternatives will affect a fourth type of transaction—a portfolio transaction in which a retail lender processes, funds, and closes a loan in its own name for its own portfolio and the lender then holds the loan (if the loan is sold at all, the sale occurs long after settlement). Each of these alternatives or combinations of requirements is discussed below, along with its effect on each type of loan transaction. The public is specifically invited to comment on these six alternatives, as well as other approaches.

Alternative 1: The regulations would require the disclosure of direct and indirect fees at settlement, and a loan sale is classified as a "secondary market transaction" only if it occurs after settlement. This is the approach in the current RESPA rule. Under this alternative, the direct fees for a portfolio lender at settlement must be disclosed and the settlement transaction is subject to RESPA, there are no indirect fees, and any subsequent loan sale by the lender when indirect fees are paid is a secondary market transaction not subject to RESPA. Likewise, the direct fees for a retail lender at settlement, in other transactions involving a loan closing and subsequent assignment of the loan, must be disclosed, but any loan sale after settlement is a secondary market transaction not subject to RESPA (any indirect fees need not be disclosed and RESPA's other restrictions do not apply). In a table-funded transaction, the advance of loan funds to the borrower and the sale of the loan by the retail lender to a wholesale lender are contemporaneous with settlement. Accordingly, all direct and indirect fees to the retail lender must be disclosed under RESPA and the entire transaction—the making of the loan to the borrower and the loan sale—are subject to RESPA. Similarly, in a settlement transaction in the name of a wholesale lender—where there is no sale following settlement—all direct and indirect fees to and from the retail lender and the wholesale lender must be disclosed, and the entire transaction is otherwise subject to RESPA.

Alternative 2: The regulations would require the disclosure of direct and indirect fees at settlement, and any loan sale—before, contemporaneous with, or after settlement—is classified as a "secondary market transaction". Under this alternative, although disclosure of direct and indirect fees would be required for RESPA-covered transactions, more loan sales would be treated as "secondary market transactions" exempt from RESPA's coverage. As in Alternative 1, the direct fees to a portfolio lender at settlement must be disclosed, but any subsequent loan sale would be a secondary market transaction exempt from RESPA's disclosure and other requirements. Also, as in Alternative 1, the direct fees for other transactions involving a loan closing and subsequent assignment of the loan would have to be disclosed, but a subsequent loan sale would be a secondary market transaction exempt from RESPA. Unlike Alternative 1, the sale at settlement of a table-funded loan would also become a secondary market transaction exempt from RESPA's requirements and prohibitions. Indirect fees would not have to be reported and would not be covered by RESPA. Under a settlement transaction in the name of a wholesale lender, however, all direct and indirect fees to and from the retail lender and the wholesale lender would require disclosure, because there is no loan sale or secondary market transaction involved.

Alternative 3: Regulations require the disclosure of direct and indirect fees at settlement, and only loan sales following the first accrual—the date the first payment is due from the borrower under the loan—are "secondary market transactions". Under this alternative, RESPA's disclosure and other requirements would cover more transactions; only loan sales transactions that occur relatively long after settlement would be regarded as secondary market transactions exempt from RESPA's requirements. Under this alternative, loan sales by a portfolio lender—coming, if at all, well after the first loan payment—would be regarded as secondary market transactions. RESPA's disclosure requirements and restrictions would apply to a loan closing and subsequent assignment of the loan, unless the loan is sold after the first accrual date (currently, in most transactions the loans are sold much earlier). RESPA's prohibitions would apply to table-funded transactions when the loan is sold at settlement and transactions when a loan is closed in the name of a wholesale lender and there is no subsequent loan sale.

Alternative 4: Regulations require the disclosure of only direct (not indirect) fees at settlement, and a loan sale is classified as a "secondary market transaction" only if it occurs after settlement. This alternative differs from the current rule in requiring the disclosure only of direct fees from borrowers to retail lenders. Under this alternative, because there is no requirement for the disclosure of any indirect fees to retail lenders for loan sales, the classification of such sales as secondary market transactions is only determinative of whether RESPA's requirements and prohibitions (other than disclosure) apply to the transaction. Under this alternative, direct fees to retail lenders must be disclosed in portfolio transactions, other transactions involving a loan closing and subsequent assignment of the loan, table-funding transactions, and transactions in which a retail lender closes in the name of a wholesale lender (including any direct fees to the wholesale lender). Because retail lenders in portfolio transactions and other transactions involving a loan closing and subsequent assignment of the loan sell their loans after settlement, such sales would be subject to the secondary market exemption and outside of RESPA. Because loan sales in table-funded transactions occur at and not after settlement, under this alternative, such sales transactions would not be secondary market transactions and would be subject to RESPA (although indirect fees need not be disclosed). Also, because a loan in the name of a wholesale lender occurs at settlement and there is no subsequent sale, the retail and wholesale lender's transaction would be subject to RESPA's prohibitions.

Alternative 5: Regulations require the disclosure of only direct (not indirect) fees at settlement, and a loan sale, at any time, is classified as a "secondary market transaction". Under this alternative, direct fees to retail lenders must be disclosed in portfolio transactions, other transactions involving a loan closing and subsequent assignment of the loan, and table-funding transactions, as well as transactions in which retail lenders close in the name of a wholesale lender. Any loan sales (following settlement) by portfolio lenders, or under another transaction involving a loan closing and subsequent assignment of the loan, would be secondary market transactions outside of RESPA's coverage. Under this alternative, a loan sale (at settlement) in a table-funded transaction would also be a secondary market transaction. However, settlement in the name of the wholesale lender not involving a sale, would not be subject to the exemption—RESPA would apply to the entire transaction although indirect fees need not be disclosed.

Alternative 6: Regulations require the disclosure of only direct (not indirect) fees at settlement, and a loan sale is classified as a "secondary market transaction" only if it occurs after the first accrual date. Under this alternative, direct fees to a retail lender must be disclosed in a portfolio transaction; a transaction involving a loan closing and subsequent assignment of the loan; a table-funding transaction; and a transaction in which a lender closes in the name of another lender. Although indirect fees need not be disclosed, RESPA's other requirements would cover more transactions, because fewer transactions would be regarded as secondary market transactions. The exception is a loan sale by a portfolio lender, which, when it occurs, would follow the first accrual date and would, therefore, still be regarded as a secondary market transaction. Loan sales transactions by retail lenders in other transactions involving a loan closing and subsequent assignment of the loan and in table-funded transactions would not be regarded as secondary market transactions and would be subject to RESPA. Settlement in the name of the wholesale lender, because it does not involve a sale, would not be subject to the exemption and RESPA's provisions would also apply to the entire transaction.

HUD seeks comments from the public on which, if any, of these alternative approaches should result from this rulemaking, or whether other approaches that would be permissible under RESPA would better serve the interests of the public and the intent of the statute.

II. Volume-Based Compensation

Volume-based compensation is a payment of money or any other thing of value, as defined by 24 CFR 3500.14(d), that a wholesale lender provides to a retail lender and is based on a number or dollar value of loans that the retail lender sells to the wholesale lender in a fixed period of time.

Volume compensation also encompasses volume discounts, in which a retail lender that is to provide a stated volume of loans is given a lower "start-rate" than the wholesale lender's advertised rate and the retail lender keeps a differential between the start rate and the advertised rate as part of its compensation at settlement.

The Department believes that volume-based compensation is a fairly widespread practice, particularly in California. As noted above, California regulatory requirements provide for disclosure to borrowers of this compensation (the amount, if known, or its potential for receipt by the mortgage broker). HUD has never enunciated a formal policy on whether volume-based compensation is permissible under RESPA. If the Department concludes that it is allowable, the issue also arises as to whether and how the payment should be disclosed on the Good Faith Estimate and the HUD–1 and HUD–1A.

A. Should Volume-Based Compensation be Permitted?

Critics argue that volume-based compensation may lead to loan-steering. Arguably the consumer's interest (in seeing a range of loan options) may be subordinated to the interest of the retail lender in receiving greater compensation from a particular wholesale lender.[2] Also, as discussed earlier in this preamble, Section 8 of RESPA prohibits payments in the absence of "goods or facilities furnished or for services actually performed." Therefore, awarding additional compensation for loans closed above a threshold number, where no added services are provided, could, standing alone, violate RESPA.

On the other hand, others argue that volume-based compensation may be an appropriate payment for goods or services actually performed. Wholesale lenders must exercise careful oversight over retail lenders, because decisions by the retail lender can expose the wholesale lender to default risk. For this reason, wholesale lenders typically perform some underwriting review for each mortgage. There also must be a good working relationship between the staffs of the retail and wholesale lender to ensure that important matters, such as document transfer and the handling of escrow funds, are accomplished smoothly and punctually. Establishing this working relationship and oversight involves some fixed costs to the wholesaler, which decrease on a per loan basis as the volume of business increases. The wholesale lender's variable costs may also decrease with increased volume, because the retail lender becomes more familiar with the requirements of the wholesale lender and the wholesale lender's staff is more familiar with the product and practices of the retail lender. Declining per-unit costs may justify volume compensation.

The consumer may benefit from volume-based compensation. In competitive markets, price concessions from wholesale lenders to high-volume retail lenders generally get passed along to the consumers. To obtain the volume of business needed to obtain price concessions and to benefit from volume-based compensation, the retail lender may pass along part of the high-volume benefits to the consumer, through lower points or other cost savings.

Critics argue that if the retail lender originates in its own name, the consumer is generally unaware that the retail lender has wholesale options available and may not even be consciously aware of the retail lender's intention to sell the mortgage. In this context, steering does not exist in the typical sense, that is, advising the consumer to choose lender A over lender B when lender B's prices are as good as, or better than, lender A's prices. It is also conceivable that wholesale lender X may not offer a loan product that wholesale lender Y offers, such as a 15-year adjustable rate mortgage (ARM). The retail lender may influence the consumer not to select the 15-year ARM so that the retail lender can increase its business with lender X, which offers volume compensation. However, most wholesale lenders offer a comparable range of products.

In addressing the policy issues of whether and how volume-based compensation should be permitted and, if so, disclosed, a commenter may offer legal arguments as to whether RESPA prohibits the practice.

B. Is Volume-Based Compensation Subject to Disclosure?

A retail lender required to make disclosure could argue that HUD has created an "uneven playing field" between mortgage bankers and other retail lenders, inasmuch as the issue of volume-based compensation is not relevant for mortgage banker transactions. (See Section II.C.(2) of this preamble.)

If HUD decides to allow this kind of compensation, practical questions are raised about how to disclose this information—what numbers should be disclosed? At the time of a given closing, a retail lender may not know whether a volume-based payment will be received or how much it will be. As noted above, the California standard Good Faith Estimate and Mortgage Broker Fee Disclosure form requires the disclosure of the compensation, if known, or an indication that a mortgage broker will receive additional compensation.

III. Other Compensation

In addition to volume-based compensation, retail lenders also receive compensation from wholesale lenders under a variety of names, the most common of which are "servicing release premiums" and "yield spread premiums" (which are cited by name in the current RESPA regulation as compensation to be disclosed; 24 CFR part 3500, Appendix A, Fact Situation 12.) Such compensation is also included in "rate differentials," "indirect payments," or "back-funded payments" (occasionally called "back-end points") in Appendix A instructions for filling out the HUD–1A. A "yield spread premium" or "yield spread differential" or "overage" means any compensation paid to or retained by a retail lender based upon the difference in the interest rate provided in the sold loan and some other benchmark interest rate. It compensates the retail lender for a loan priced at a rate higher than the rate at which the wholesale lender would otherwise have been willing to accept the loan. A "servicing release premium" is any compensation paid to a retail lender for the release of rights to service the loan.

The names of the fees (those cited in the previous paragraph may vary) are not definitive or dispositive. The concerns of the Department regarding such forms of compensation are similar to those expressed regarding volume-based compensation; that is, do those fees constitute kickbacks or fee-splitting for delivery of the loans. Commenters are invited to address: (a) whether any such types of compensation should be permissible under RESPA; and (b) what would be the effect of requiring disclosure of such payments.

IV. Proposed Amendments to 24 CFR Part 3500

In this proposed rulemaking HUD is requesting comment on several questions that may lead to new regulatory language in 24 CFR part 3500. For example, several new definitions are proposed for inclusion in § 3500.2. In addition, § 3500.14(g) would be revised to address explicitly the applicability of RESPA to volume-based compensation, and Appendix B, Fact Situation 12, could be modified. HUD may also need to modify the HUD–1 and HUD–1A instructions regarding payments to mortgage brokers. If new definitions are adopted, other definitions may need to be modified for consistency. While the Department has set forth illustrative changes in the definitions, it has not attempted to provide alternative regulatory text for every possible amendment that might result from this rulemaking. Instead commenters are invited to comment on the questions raised in this preamble and provide input on the direction they believe the Department should take on these matters.

If a determination is made that regulatory changes should be developed through a negotiated rulemaking process, the Department expects to publish another proposed rule at the conclusion of the negotiation process and will provide the negotiating committee with the comments submitted in response to today's proposed rule. If negotiated rulemaking is not used, the Department will formulate its final rule after reviewing the comments received in response to this proposed rule.

V. Other Relevant Issues

(a) Recent Legislation. In 1994 Congress enacted the Riegle Community Development and Regulatory Improvement Act of 1994 (Pub. L. 103–325, 108 Stat. 2160, September 23, 1994) (the Act), which includes, as Subtitle B, the Homeownership and Equity Protection Act of 1994. Subtitle B requires the Federal Reserve Board to require additional levels of disclosure in certain circumstances, and requires for its computations inclusion of all compensation paid to mortgage brokers, including both direct and indirect payments, in order to determine if the loan will be a "high-rate mortgage." (See section 152(a)(4)(B) of the Act.) If HUD ultimately determines that indirect fees need not be disclosed in a final rule, the Federal Reserve Board (which relies on information contained in HUD's Good Faith Estimate and the HUD–1 or HUD–1A forms) might have to require its own cost disclosure form in order to determine coverage. Accordingly, HUD plans to invite staff of the Board to comment on the proposed rule. The public is also welcome to address this matter.

(b) Impact of Regulation on State Laws. Whatever HUD determines in final rulemaking, it is possible that a State may have more stringent disclosure requirements than HUD. Under RESPA, State laws that provide greater protection to the consumer would prevail and would not be preempted by HUD requirements. Of course, a salient issue embraced within this proposed rulemaking is whether more disclosure is, in fact, beneficial to consumers. In addressing the alternative proposals in this rulemaking, a basic question for commenters is whether disclosure of the terms of a mortgage loan (e.g., interest rates and points) alone is sufficient consumer information.

VI. Other Matters

Executive Order 12866

This proposed rule was reviewed by the Office of Management and Budget under Executive Order 12866, Regulatory Planning and Review. Any changes made to the proposed rule as a result of that review are clearly identified in the docket file, which is available for public inspection in the Office of the Rules Docket Clerk, Room

---

[2] Retail lenders who fail to present a full range of loan options to all consumers may risk charges of discriminatory treatment on a prohibited basis, which is unlawful under the Fair Housing Act.

10276, 451 Seventh Street, SW, Washington, DC.

Regulatory Flexibility Act

The Secretary, in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), has reviewed this proposed rule before publication and by approving it certifies that this proposed rule does not have significant economic impact on a substantial number of small entities. There are no anticompetitive discriminatory aspects of this proposed rule with regard to small entities, nor are there any unusual procedures that would need to be complied with by small entities. The requirements of the Real Estate Settlement Procedures Act must be uniformly adhered to by all lenders and servicers.

Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR part 50 that implement section 102(2)(C) of the National Environmental Policy Act of 1969 (U.S.C. 4332). The finding is available for public inspection during regular business hours in the Office of the General Counsel, Rules Docket Clerk, room 10276, 451 Seventh Street, SW., Washington, DC 20410.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that the policies contained in this proposed rule will not have substantial direct effects on States or their political subdivisions, or the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. As a result, the proposed rule is not subject to review under the Order. Promulgation of this rule clarifies the coverage of the applicable regulatory requirements.

Executive Order 12606, The Family

The General Counsel, as the Designated Official under Executive Order 12606, The Family, has determined that this proposed rule does not have potential for significant impact on family formation, maintenance, and general well-being, and, thus, is not subject to review under the order. No significant change in existing HUD policies or programs will result from promulgation of this rule, as those policies and programs relate to family concerns.

List of Subjects in 24 CFR Part 3500

Consumer protection, Condominiums, Housing, Mortgages, Mortgage servicing, Reporting and recordkeeping requirements.

For the reasons stated in the preamble, 24 CFR part 3500 is proposed to be amended to address the regulatory questions raised in the preamble and as follows:

PART 3500—REAL ESTATE SETTLEMENT PROCEDURES ACT

1. The authority citation for Part 3500 continues to read as follows:

Authority: 12 U.S.C. 2601 *et seq.*

2. Section 3500.2 is amended by adding in alphabetical order definitions for "Direct fee", "Indirect fee", "Retail lender", "Secondary market transaction", "Volume-based compensation", and "Wholesale lender", to read as follows:

§ 3500.2 Definitions.

* * * * *

Direct fee means any payment made by a borrower to a lender or any other settlement service provider or to a third party, to be transmitted to a lender or any other settlement service provider, in connection with a settlement of a federally related mortgage loan.

* * * * *

Indirect fee means any payment made by a wholesale lender to a retail lender for services rendered in connection with a federally related mortgage loan origination. [Indirect loan fees are not subject to disclosure on the Good Faith Estimate or the HUD–1 or HUD–1A.]

* * * * *

Retail lender means a person who originates and sells a federally related mortgage loan to a wholesale lender.

Secondary market transaction means a sale of a federally related mortgage loan. A secondary market transaction [as defined by one of the alternatives set out in the preamble of this proposed rule] [is/is not] covered by RESPA and this part, except as set forth in Section 6 of RESPA (12 U.S.C. 2605) and § 3500.21.

* * * * *

Volume-based loan compensation means any added payment or additional thing of value provided by a wholesale lender to a retail lender to a retail lender based on the number or dollar value of loans originated.

Wholesale lender means a person who purchases a mortgage loan from a retail lender.

Dated: August 11, 1995.

Jeanne K. Engel,

General Deputy Assistant Secretary for Housing—Federal Housing Commissioner

Title 3—

The President

Presidential Determination No. 95–41 of September 8, 1995

Extension of the Exercise of Certain Authorities Under the Trading With the Enemy Act

Memorandum for the Secretary of State [and] the Secretary of the Treasury

Under section 101(b) of Public Law 95–223 (91 Stat. 1625; 50 U.S.C. App. 5(b) note), and a previous determination made by me on September 8, 1994 (59 FR 47229), the exercise of certain authorities under the Trading With the Enemy Act is scheduled to terminate on September 14, 1995.

I hereby determine that the extension for one year of the exercise of those authorities with respect to the applicable countries is in the national interest of the United States.

Therefore, pursuant to the authority vested in me by section 101(b) of Public Law 95–223, I extend for one year, until September 14, 1996, the exercise of those authorities with respect to countries affected by:

(1) the Foreign Assets Control Regulations, 31 CFR Part 500;

(2) the Transaction Control Regulations, 31 CFR Part 505; and

(3) the Cuban Assets Control Regulations, 31 CFR Part 515.

The Secretary of the Treasury is directed to publish this determination in the **Federal Register**.

William J. Clinton

The President

Proclamation 6821—To Establish a Tariff-Rate Quota on Certain Tobacco, Eliminate Tariffs on Certain Other Tobacco, and for Other Purposes

Federal Register
Vol. 60, No. 177
Wednesday, September 13, 1995

Presidential Documents

Title 3—

The President

Proclamation 6821 of September 12, 1995

To Establish a Tariff-Rate Quota on Certain Tobacco, Eliminate Tariffs on Certain Other Tobacco, and for Other Purposes

By the President of the United States of America

A Proclamation

1. (a) On April 15, 1994, I entered into trade agreements resulting from the Uruguay Round of multilateral trade negotiations ("the Uruguay Round Agreements"), including the Agreement Establishing the World Trade Organization ("the WTO Agreement") and the General Agreement on Tariffs and Trade 1994 ("the GATT 1994"), annexed to the WTO Agreement. In section 101(a) of the Uruguay Round Agreements Act ("the URAA") (Public Law 103–465, 108 Stat. 4814)(19 U.S.C. 3511(a)), the United States approved the Uruguay Round Agreements. These agreements entered into force for the United States on January 1, 1995.

(b) Section 125(c) of the Trade Act of 1974 ("the 1974 Act")(19 U.S.C. 2135(c)) provides that whenever the United States, acting in pursuance of any of its rights or obligations under any trade agreement entered into pursuant to the 1974 Act, modifies any obligation with respect to the trade of any foreign country or instrumentality, the President is authorized to proclaim increased duties or other import restrictions, to the extent, at such times, and for such periods as he deems necessary or appropriate, in order to exercise the rights or fulfill the obligations of the United States. Section 421 of the Uruguay Round Agreements Act (19 U.S.C. 2135 note) authorizes the President, pursuant to the 1974 Act, to proclaim an increase in any existing duty on certain tobacco to a rate no more than 50 percent above the rate that was set forth in rate column numbered 2 of the Tariff Schedules of the United States, as in effect on January 1, 1975, or no more than 350 percent ad valorem above the rate existing on January 1, 1975, whichever is higher.

(c) Section 1105(a) of the Omnibus Trade and Competitiveness Act of 1988 ("the 1988 Act")(19 U.S.C. 2904(a)) provides that for purposes of applying section 125 of the 1974 Act, any trade agreement entered into under section 1102 of the 1988 Act (19 U.S.C. 2902) shall be treated as an agreement entered into under section 101 or 102, as appropriate, of the 1974 Act (19 U.S.C. 2111 and 2112), and any proclamation issued pursuant to such a trade agreement shall be treated as a proclamation issued pursuant to a trade agreement entered into under section 102 of the 1974 Act.

(d) The United States, acting pursuant to its rights and obligations under the Uruguay Round Agreements, in particular Article XXVIII of the GATT 1994, is modifying its obligations with respect to the tariff treatment of certain tobacco to establish a tariff-rate quota for imports of such tobacco.

(e) Accordingly, I have determined that it is appropriate to proclaim the tariff modifications set forth in Annex I to this proclamation in order to exercise the rights and fulfill the obligations of the United States under the Uruguay Round Agreements. These modifications would, among other things, establish a tariff-rate quota for imports of certain tobacco.

2. (a) Section 423 of the URAA (19 U.S.C. 3621) authorizes the President to proclaim the reduction or elimination of any duty with respect to cigar

binder and filler tobacco, wrapper tobacco, or oriental tobacco set forth in Schedule XX—United States of America, annexed to the Marrakesh Protocol to the GATT 1994 ("Schedule XX").

(b) I have decided to proclaim the elimination of the duties on cigar binder and filler tobacco, wrapper tobacco, and oriental tobacco, as set forth in Annex I to this proclamation.

3. (a) Section 422(c) of the URAA (7 U.S.C. 1445 note) authorizes the President to waive the application to imported tobacco of section 106(g) of the Agricultural Act of 1949 (7 U.S.C. 1445(g)) if the President determines that the waiver is necessary or appropriate pursuant to an international agreement entered into by the United States.

(b) I have determined that it is necessary or appropriate pursuant to the Uruguay Round Agreements to waive the application of section 106(g) of the Agricultural Act of 1949 to imports of cigar tobacco. This waiver shall take effect on the effective date of this proclamation.

4. Presidential Proclamation No. 6641 of December 15, 1993, which implemented the North American Free Trade Agreement ("the NAFTA") with respect to the United States, established a tariff heading in chapter 98 of the Harmonized Tariff Schedules of the United States ("the HTS") for certain textile and apparel goods assembled in Mexico from fabric wholly formed and cut in the United States. This tariff heading, 9802.00.90, inadvertently narrowed the scope of the agreed duty-free treatment, as set forth in Appendix 2.4 to Annex 300–B to the NAFTA. I have decided that it is necessary and appropriate to modify heading 9802.00.90 to the HTS to align it with the provisions of the NAFTA, pursuant to section 201(a)(1) of the North American Free Trade Agreement Implementation Act (Public Law 103–182, 107 Stat. 2057)(19 U.S.C. 3331(a)(1)).

5. (a) The March 9, 1994, Memorandum of Understanding on the Results of the Uruguay Round Negotiations on Agriculture Between the United States of America and Uruguay and the March 24, 1994, Memorandum of Understanding on the Results of the Uruguay Round Market Access Negotiations on Agriculture Between the United States of America and Argentina ("the MOUs") were submitted to the Congress along with the Uruguay Round Agreements. Each MOU provides that, once the appropriate Department of Agriculture authorities approve the country to ship fresh, chilled or frozen beef to the United States, the in-quota quantity of the United States tariff-rate quota for beef will be increased by 20,000 metric tons, and that increase will be allocated to that country.

(b) Section 404(d)(4) of the URAA (19 U.S.C. 3601(d)(4)) authorizes the President to proclaim an increase in the in-quota quantity of the tariff-rate quota for beef if the President determines that an increase is necessary to implement either MOU.

(c) Accordingly, pursuant to section 404(d)(4) of the URAA, I have determined that it is necessary to proclaim an increase in the in-quota quantity of the tariff-rate quota for beef as set forth in Annex II to this proclamation, to be effective for each country upon the dates specified therein.

6. Presidential Proclamation No. 6763 of December 23, 1994, implemented the Uruguay Round Agreements, including Schedule XX, with respect to the United States and incorporated in the HTS tariff modifications necessary and appropriate to carry out the Uruguay Round Agreements. Certain technical errors, including inadvertent omissions and typographical errors, were made in that proclamation. I have decided that, in order to reflect accurately the intended tariff treatment provided for in the Uruguay Round Agreements, it is necessary to modify certain provisions of the HTS, as set forth in Annex II to this proclamation.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including but not limited to section 301 of title 3, United States Code, section 125 of the 1974 Act (19 U.S.C. 2135), sections 421, 422(c) and 423 of the URAA (19 U.S.C. 2135 note, 7 U.S.C. 1445 note, and 19 U.S.C. 3621, respectively), and section 604 of the 1974 Act (19 U.S.C. 2483), do hereby proclaim:

(1) In order to exercise the rights and fulfill the obligations of the United States under the WTO Agreement, the HTS is modified as set forth in Annex I to this proclamation.

(2) The provisions of Annex I to this proclamation shall take effect with respect to articles entered, or withdrawn from warehouse, for consumption on or after the dates specified in such annex.

(3) Section 106(g) of the Agricultural Act of 1949 (7 U.S.C. 1445(g)) is waived with respect to imports of cigar tobacco entered, or withdrawn from warehouse, for consumption on or after the effective date of this proclamation.

(4) (a) In order to correct certain technical errors, to modify heading 9802.00.90, and to implement certain determinations concerning tariff-rate quotas for Argentina and Uruguay, the HTS is modified as set forth in Annex II to this proclamation.

(b) Annex I to Presidential Proclamation No. 6343 of September 28, 1991, is amended as set forth in Annex II to this proclamation.

(c) The modifications made by Annex II to this proclamation shall be effective with respect to goods entered or withdrawn from warehouse for consumption on or after the dates specified in such annex.

(5) The United States Trade Representative and the Secretary of the Treasury are authorized to exercise my authority under the statutes cited in this proclamation to perform certain functions to implement this proclamation, as assigned to them in Annex I to this proclamation.

(6) All provisions of previous proclamations and Executive orders that are inconsistent with the actions taken in this proclamation are superseded to the extent of such inconsistency.

(7) This proclamation is effective on September 13, 1995.

IN WITNESS WHEREOF, I have hereunto set my hand this twelfth day of September, in the year of our Lord nineteen hundred and ninety-five, and of the Independence of the United States of America the two hundred and twentieth.

William J. Clinton

Billing code 3195–01–P

Annex I

Section A. Modifications to the Harmonized Tariff Schedule of the United States ("HTS").

The HTS is modified as provided below, with bracketed matter included to assist in the understanding of proclaimed modifications. The following supersedes matter in the HTS. The subheadings and superior text are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated "Heading/Subheading", "Article Description", "Rates of Duty 1 General", "Rates of Duty 1 Special" and "Rates of Duty 2", respectively.

Effective with respect to goods entered, or withdrawn from warehouse, for consumption on or after the effective date of this proclamation.

(1)(a). The additional U.S. notes to chapter 24 are modified by inserting the following new additional U.S. notes in numerical sequence:

"5. (a) The aggregate quantity of tobacco entered, or withdrawn from warehouse, for consumption under subheadings 2401.10.63, 2401.20.33, 2401.20.85, 2401.30.33, 2401.30.35, 2401.30.37, 2403.10.60, 2403.91.45 and 2403.99.60 during the period from September 13 in any year to the following September 12, inclusive, shall not exceed the quantities specified below.

	Quantity (metric tons)
Argentina	12,000
Brazil	80,200
Chile	2,750
European Community (aggregate of Austria, Belgium, Denmark, Finland, France, the Federal Republic of Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, Sweden, and the United Kingdom)	10,000
Guatemala	8,500
Malawi	12,000
Philippines	3,000
Thailand	7,000
Zimbabwe	12,000
Other countries or areas	3,000

(b) Products of Canada, Israel or Mexico shall not be permitted or included under the aforementioned quantitative limitation and no such articles shall be classifiable in the subheadings of this note.

(c) The quantitative limitations under this note are subject to regulations as may be issued by the United States Trade Representative or its designated agency.

(d) Notwithstanding any other provision of this note, imports of tobacco, other than the product of Canada, Israel or Mexico, shall be eligible for the rates of duty provided in, and shall be classified in, the subheadings specified in paragraph (a) of this note, provided that the articles were (1) exported from the country of origin prior to September 13, 1995, and (2) imported directly from the country of origin into the customs territory of the United States, accompanied by such documentation as may be determined necessary by the Secretary of Treasury. For the purposes of this paragraph, entries of tobacco withdrawn from warehouse for consumption or entries of tobacco from foreign-trade zones shall not be determined to be imported directly from the country of origin into the customs territory of the United States.

6. For the purposes of this chapter, the term "prepared for marketing to the ultimate consumer in the identical form and package in which imported" means that the product is imported in packaging of such sizes and labeling as to be readily identifiable as being intended for retail sale to the ultimate consumer without any alteration in the form of the product or its packaging."

(b) Effective September 13, 1996, additional U.S. note 5 to chapter 24 of the HTS, as added by this paragraph, is modified by deleting paragraph (d) of such note.

Annex I (continued)
-2-

Section A. (con.)

(2). Subheadings 2401.10.40, 2401.10.60, 2401.10.70 and 2401.10.90, the superior text immediately preceding subheading 2401.10.40 and the superior immediately preceding subheading 2401.10.70 are superseded by and the following provisions are inserted in numerical sequence:

	[Unmanufactured tobacco...:]			
	[Tobacco, not stemmed/stripped:]			
	[Not containing wrapper tobacco,...]			
	"Oriental or Turkish type:			
2401.10.44	Cigarette leaf........................	Free		77.2¢/kg
2401.10.48	Other................................	Free		85¢/kg
2401.10.53	Cigar binder and filler.....................	Free		85¢/kg
	Other:			
	Flue-cured, burley and other light air-cured leaf:			
2401.10.61	To be used in products other than cigarettes.................	27.4¢/kg	Free (E,IL,J) 8.4¢/kg (CA) 22.4¢/kg (MX)	77.2¢/kg
	Other:			
2401.10.63	Described in additional U.S. note 5 to this chapter and entered pursuant to its provisions.................	27.4¢/kg	Free (E,J)	77.2¢/kg
2401.10.65	Other......................	350%	Free (IL) 8.4¢/kg (CA) 22.4¢/kg (MX)	350%
2401.10.95	Other................................	37.5¢/kg	Free (A,E,IL, J,MX) 11.5¢/kg (CA)	85¢/kg"

(3)(a). Subheadings 2401.20.30, 2401.20.45 and 2401.20.55 and the superior text immediately preceding subheading 2401.20.45 are superseded and the following provisions are inserted in numerical sequence:

	[Unmanufactured tobacco...:]			
	[Tobacco, partly or wholly stemmed/stripped:]			
	[Not threshed or similarly...]			
	[Other:]			
	[Not containing wrapper tobacco, or not containing...:]			
	"Oriental or Turkish type:			
2401.20.23	Cigarette leaf............	Free		$1.21/kg
2401.20.26	Other......................	Free		$1.15/kg
2401.20.29	Cigar binder and filler.........	Free		$1.15/kg
	Other:			
	Flue-cured, burley and other light air-cured leaf:			
2401.20.31	To be used in products other than cigarettes............	46.9¢/kg	Free (E,IL,J) 14.4¢/kg (CA) 38.4¢/kg (MX)	$1.21/kg
	Other:			
2401.20.33	Described in additional U.S. note 5 to this chapter and entered pursuant to its provisions...	46.9¢/kg	Free (E,J)	$1.21/kg

Section B. Implementation of modifications in the Rates of Duty 1 General subcolumn of the HTS effective with respect to goods entered, or withdrawn from warehouse, for consumption on or after September 13, 1995. For the following subheadings, the Rates of Duty 1 General subcolumn is modified by deleting the rate of duty appearing in such subcolumn and inserting the rate of duty "Free" in lieu thereof:

2401.10.21
2401.10.29
2401.20.20
2401.20.60

Section C. Effective September 13, 1995, general note 4(d) is modified by deleting "2401.10.21 Dominican Republic" and "2401.10.29 Honduras".

Section D. Modifications of the quantitative limitations provided for in additional U.S. note 5 to chapter 24.

On September 13 of each of the years in the following table, additional U.S. note 5 to chapter 24 shall be modified by deleting for such countries as listed below the country quantitative limitation in such note and inserting the appropriate quantitative limitation listed in this table for such year in lieu thereof:

	1996	1997	1998	1999
Additional U.S. note 5 to chapter 24:				
Argentina	12,000	12,000	11,000	10,750
Guatemala	8,875	9,250	9,625	10,000

Annex I (continued)

---

Annex II

Modifications to the Harmonized Tariff Schedule of the United States (HTS)

Section A. Effective at 12:01 a.m. on January 1, 1994, heading 9802.00.90 is modified by deleting the word "which" appearing after "United States," and by inserting after "United States," the expression "provided that such fabric components, in whole or in part,".

Section B. Effective with respect to goods entered or withdrawn from warehouse for consumption on or after January 1, 1995.

The HTS is modified as provided below, with bracketed matter included to assist in the understanding of proclaimed modifications. The following supersedes matter in the HTS. The subheadings and superior text are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated "Heading/Subheading", "Article Description", "Rates of Duty 1 General", "Rates of Duty 1 Special" and "Rates of Duty 2", respectively.

(1) The Rates of Duty 1 Special subcolumn for subheading 2106.90.46 is modified by deleting the rate of duty "35.517¢/kg" preceding the symbol "MX" in parentheses and inserting in lieu thereof "35.517¢/kg of total sugars".

(2) The article description for subheading 2914.30.10 is modified by deleting "1-(2-naphthalenyl)ethanone; and" and inserting "1-(2-Naphthalenyl)ethanone; and" in lieu thereof.

(3) The article description for subheading 2924.21.12 is modified by deleting "1-(2-methylcyclohexyl)-3-phenylurea" and inserting "1-(2-Methylcyclohexyl)-3-phenylurea" in lieu thereof.

(4) The Rates of Duty 1 Special subcolumn for subheading 2924.21.16 is modified by inserting, in alphabetical order, the symbol "K" in the parentheses following the "Free" rate of duty in such subcolumn.

(5) The article description for subheading 2924.29.28 is modified by deleting "N-[[(4-chlorophenyl)amino]carbonyl]-2,6-difluorobenzamide; and" and inserting "N-[[(4-Chlorophenyl)amino]carbonyl]-2,6-difluorobenzamide; and" in lieu thereof.

(6) The article description for subheading 2925.19.70 is modified by deleting "N,N'-Ethylenebis(5,6-dibromo-2,3-norbornanedicarboximide" and inserting "N,N'-Ethylenebis(5,6-dibromo-2,3-norbornanedicarboximide)" in lieu thereof.

(7) The article description for subheading 2934.90.70 is modified by deleting "2-Methyl-4-isothiazolin-3-one;" from such description and by inserting in alphabetical sequence "2-Methyl-4-isothiazolin-3-one;" in the article description for subheading 2934.10.70.

(8) Subheading 2936.29.90 is superseded and the following provisions are inserted in numerical sequence:

	[Provitamins and vitamins, natural...:]			
	[Vitamins and their derivatives, unmixed:]			
	[Other vitamins and their...:]			
"2936.29.15	Niacin and niacinamide............	Free		25%"
	[Other:]			
"2936.29.50	Other........................	Free		25%"

(9) The Rates of Duty 1 Special subcolumn for subheading 3926.90.65 is modified by deleting the rate of duty "3.3%" preceding the symbol "MX" in parentheses and inserting in lieu thereof "2.5%".

Annex II (continued)
-2-

Section B. (con.)

(10) Additional U.S. note 9 to chapter 52 is modified by deleting the sentence "Imports from countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note." and inserting in lieu thereof "Other than as provided for in the country allocations above, imports from countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.".

(11) The Rates of Duty 1 Special subcolumn for subheading 5402.41.90 is modified by deleting the rate of duty "8%" preceding the symbol "MX" in parentheses and inserting in lieu thereof "7.2%".

(12) The superior text preceding subheading 9817.00.92 which reads "Articles specially designed or adapted for the use or benefit of the blind or other physically or mentally handicapped persons:" is deleted and the text "Articles specially designed or adapted for the use or benefit of the blind or other physically or mentally handicapped persons; parts and accessories (except parts and accessories of braces and artificial limb prosthetics) that are specially designed or adapted for use in the foregoing articles:" is inserted in lieu thereof.

(13) Subchapter VI to chapter 99 is modified by deleting U.S. note 17.

Section C. Effective on the effective date of this proclamation:

Additional U.S. note 3 to chapter 2 is modified by:

(1) inserting in sequence "Argentina 20,000*" and "Uruguay 20,000*" after "Japan 200" in the list of countries and the quantities set opposite such countries in the note.

(2) inserting at the end of the note a new paragraph as follows:

> " * The quantity for Argentina or Uruguay shall be permitted entry pursuant to the provisions of this note on and after the date of publication by the Secretary of Agriculture of a notice in the *Federal Register* that Argentina or Uruguay has been granted approval by the Department of Agriculture to ship fresh, chilled or frozen beef to the United States. This paragraph and the "*" symbol following the quantity for Argentina and Uruguay shall be deleted from this note on the January 1 following the later date of the date of publication of the notice for Argentina or Uruguay.".

(3) deleting the paragraph inserted by subparagraph (2) above on the January 1 following the later date of the date of publication of the notice for Argentina or Uruguay.

Section D. Effective at 12:01 a.m. on January 1, 1996:

(1) Subchapter V to chapter 99 of the HTS is modified by deleting U.S. notes 2, 3, 4 and 5.

(2) Proclamation 6343 of September 28, 1991, is amended by deleting from Annex I thereof paragraph (d)(2) relating to subheading 9905.84.22.

Annex II (continued)
-3-

Section E. For the following subheadings, the Rates of Duty 1 Special subcolumn shall be modified on January 1 of each year by deleting the existing rate of duty followed by the symbol "MX" in parentheses and inserting in lieu thereof the rate of duty indicated in the table below for such year.

HTS Subheading	1996	1997	1998	1999	2000	2001	2002	2003
2106.90.46	34.982¢/kg on total sugars	33.647¢/kg on total sugars	32.713¢/kg on total sugars	31.778¢/kg on total sugars	28.247¢/kg on total sugars	24.716¢/kg on total sugars	21.185¢/kg on total sugars	17.655¢/kg on total sugars 1/
3823.90.28	2.5¢/kg + 9.5%	2.2¢/kg + 8.1%	1.8¢/kg + 6.8%	1.4¢/kg + 5.4%	1.1¢/kg + 4%	0.7¢/kg + 2.7%	0.3¢/kg + 1.3%	Free
3926.90.65	1.6%	0.8%	Free	Free	Free	Free	Free	Free
5402.41.90	5.4%	3.6%	1.8%	Free	Free	Free	Free	Free
6216.00.26	7.2%	4.8%	2.4%	Free	Free	Free	Free	Free
7019.10.15	4.1%	2.7%	1.3%	Free	Free	Free	Free	Free
9906.08.11	19%	18.5%	18%	17.5%	17%	17%	17%	Free

1/ For subheading 2106.90.46, the rates of duty after 2003 shall be as follows:

Effective with respect to articles entered on or after January 1, 2004-- 14.124¢/kg on total sugars;
Effective with respect to articles entered on or after January 1, 2005-- 10.593¢/kg on total sugars;
Effective with respect to articles entered on or after January 1, 2006-- 7.062¢/kg on total sugars;
Effective with respect to articles entered on or after January 1, 2007-- 3.531¢/kg on total sugars; and
Effective with respect to articles entered on or after January 1, 2008-- Free

Section F. Effective at 12:01 a.m. on January 1, 1998:

(1) Chapter 58 of the HTS is modified by deleting the "(CA)" symbol and the duty rate preceding such symbol from additional U.S. notes 1, 2, 3, 4 and 5.

(2) The Rates of Duty 1 Special subcolumn:

(a) for subheading 5810.91.00 is modified by deleting the "CA" symbol in the parentheses following the duty rate "See additional U.S. note 1" and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "CA" in alphabetical order.

(b) for subheading 5810.92.10 is modified by deleting the "CA" symbol in the parentheses following the duty rate "See additional U.S. note 2" and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "CA" in alphabetical order.

(c) for subheading 5810.92.90 is modified by deleting the "CA" symbol in the parentheses following the duty rate "See additional U.S. note 3" and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "CA" in alphabetical order.

(d) for subheading 5810.99.10 is modified by deleting the "CA" symbol in the parentheses following the duty rate "See additional U.S. note 4" and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "CA" in alphabetical order.

(e) for subheading 5810.99.90 is modified by deleting the "CA" symbol in the parentheses following the duty rate "See additional U.S. note 5" and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "CA" in alphabetical order.

Annex II (continued)
-4-

Section G. Effective at 12:01 a.m. on January 1, 1999:

(1) Chapter 58 of the HTS is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol from additional U.S. notes 1, 4 and 5.

(2) The Rates of Duty 1 Special subcolumn for subheadings 5810.91.00, 5810.99.10 and 5810.99.90 is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "MX" in alphabetical order.

Section H. Effective at 12:01 a.m. on January 1, 2003:

(1) Chapter 58 of the HTS is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol from additional U.S. notes 2 and 3.

(2) The Rates of Duty 1 Special subcolumn for subheadings 0402.91.90, 0406.90.32 and 1806.20.94 is modified by deleting the duty rate preceding the "(MX)" symbol and inserting the "Free" rate in lieu thereof.

(3) The Rates of Duty 1 Special subcolumn for subheadings 2106.90.52, 2106.90.54, 5810.92.10 and 5810.92.90 is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "MX" in alphabetical order.

Section I. Effective at 12:01 a.m. on August 1, 2003, the Rates of Duty 1 Special subcolumn for subheading 0709.60.20 is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "MX" in alphabetical order.

Section J. Effective at 12:01 a.m. on January 1, 2006, the Rates of Duty 1 Special subcolumn for subheadings 1701.11.50, 1701.12.50, 1701.91.30 and 1701.99.50 is modified by deleting the duty rate preceding the "(MX)" symbol and inserting in lieu thereof "7.062¢/kg less 0.1¢/kg for each degree under 100 degrees (and fractions of a degree in proportion) but not less than 4.564¢/kg".

Section K. Effective at 12:01 a.m. on January 1, 2008, the Rates of Duty 1 Special subcolumn for subheading 2106.90.48 is modified by deleting the "(MX)" symbol and the duty rate preceding such symbol and inserting in the parentheses following the "Free" rate in such subcolumn the symbol "MX" in alphabetical order.

INFORMATION ABOUT THE SUPERINTENDENT OF DOCUMENTS' SUBSCRIPTION SERVICE

Know when to expect your renewal notice and keep a good thing coming. To keep our subscription prices down, the Government Printing Office mails each subscriber *only one renewal notice*. You can learn when you will get your renewal notice by checking the number that follows month/year code on the top line of your label *as shown in this example*:

A renewal notice will be sent approximately 90 days before this date.

A renewal notice will be sent approximately 90 days before this date.

```
AFR    SMITH212J              DEC95 R 1
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20747
```

```
AFRDO  SMITH212J              DEC95 R 1
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20747
```

To be sure that your service continues without interruption, please return your renewal notice promptly. If your subscription service is discontinued, simply send your mailing label from any issue to the Superintendent of Documents, Washington, DC 20402–9372 with the proper remittance. Your service will be reinstated.

To change your address: Please SEND YOUR MAILING LABEL, along with your new address to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9373.

To inquire about your subscription service: Please SEND YOUR MAILING LABEL, along with your correspondence, to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9375.

To order a new subscription: Please use the order form provided below.

NEW EDITION

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

Revised January 1, 1994

The GUIDE is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Public Laws

104th Congress, 1st Session, 1995

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 104th Congress, 1st Session, 1995.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402–9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws.)

Briefings on How To Use the Federal Register
For information on briefings in Washington, DC and Atlanta, GA, see announcement on the inside cover of this issue.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche and as an online database through *GPO Access*, a service of the U.S. Government Printing Office. The online database is updated by 6 a.m. each day the **Federal Register** is published. The database includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward. It is available on a Wide Area Information Server (WAIS) through the Internet and via asynchronous dial-in. The annual subscription fee for a single workstation is $375. Six-month subscriptions are available for $200 and one month of access can be purchased for $35. Discounts are available for multiple-workstation subscriptions. To subscribe, Internet users should telnet to swais.access.gpo.gov and login as newuser (all lower case); no password is required. Dial-in users should use communications software and modem to call (202) 512–1661 and login as swais (all lower case); no password is required; at the second login prompt, login as newuser (all lower case); no password is required. Follow the instructions on the screen to register for a subscription for the **Federal Register** Online via *GPO Access*. For assistance, contact the *GPO Access* User Support Team by sending Internet e-mail to help@eids05.eids.gpo.gov, or a fax to (202) 512–1262, or by calling (202) 512–1530 between 7 a.m. and 5 p.m. Eastern time, Monday through Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $494, or $544 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $433. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $8.00 for each issue, or $8.00 for each group of pages as actually bound; or $1.50 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 60 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: Sponsored by the Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC
[Two Sessions]

WHEN: October 17 at 9:00 am and 1:30 pm

WHERE: Office of the Federal Register Conference Room, 800 North Capitol Street NW., Washington, DC (3 blocks north of Union Station Metro)

RESERVATIONS: 202–523–4538

ATLANTA, GA

WHEN: September 20 at 9:00 am

WHERE:
Centers for Disease Control
and Prevention
1600 Clifton Rd., NE.
Auditorium A
Atlanta, GA

Rules and Regulations

Federal Register
Vol. 60, No. 178
Thursday, September 14, 1995

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 95–NM–03–AD; Amendment 39–9355; AD 95–18–08]

Airworthiness Directives; Airbus Model A300–600 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to all Airbus Model A300–600 series airplanes, that requires repetitive inspections to detect cracks in the bottom skin of the wing in the area of the cut out for the pylon rear attachment fitting, and repair, if necessary. This amendment is prompted by a report indicating that, during full-scale fatigue testing, a crack was found in the bottom skin of the wing at the cut out for the aft pylon attachment fitting due to fatigue-related stress. The actions specified by this AD are intended to prevent such fatigue-related cracking, which could result in reduced structural integrity of the wing.

DATES: Effective October 16, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 16, 1995.

ADDRESSES: The service information referenced in this AD may be obtained from Airbus Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Charles Huber, Aerospace Engineer, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (206) 227–2589; fax (206) 227–1149.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an airworthiness directive (AD) that is applicable to all Airbus Model A300–600 series airplanes was published in the **Federal Register** on May 2, 1995 (60 FR 21470). That action proposed to require repetitive detailed visual inspections to detect cracks in the bottom skin of the wing in the area of the cut out for the pylon rear attachment fitting, and repair, if necessary.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the two comments received.

Both commenters support the proposed rule.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 35 airplanes of U.S. registry will be affected by this AD, that it will take approximately 6 work hours per airplane to accomplish the required actions, and that the average labor rate is $60 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $12,600, or $360 per airplane.

The total cost impact figure discussed above is based on assumptions that no operator has yet accomplished any of the requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

95–18–08 Airbus Industrie: Amendment 39–9355. Docket 95–NM–03–AD.

Applicability: All Model A300–600 series airplanes, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must use the authority provided in paragraph (b) of this AD to request approval from the FAA. This approval may address either no action, if the current configuration eliminates the unsafe condition; or different actions necessary to address the unsafe condition described in this AD. Such a request should include an assessment of the effect of the changed configuration on the unsafe condition addressed by this AD. In no case does the presence of any modification, alteration, or repair remove any airplane from the applicability of this AD.

Compliance: Required as indicated, unless accomplished previously.

To prevent reduced structural integrity of the wing, accomplish the following:

(a) Prior to the accumulation of 24,000 total flight cycles since date of manufacture of the airplane, or within 750 flight cycles after the effective date of the AD, whichever occurs later, perform a detailed visual inspection to detect cracks in the bottom skin of the wing in the area of the cut out for the pylon rear attachment fitting, in accordance with Airbus Service Bulletin A300–57–6028, Revision 3, dated September 13, 1994. Repeat the inspection thereafter at intervals not to exceed 9,000 flight cycles. If any crack is detected, prior to further flight, repair the wing bottom skin in accordance with a method approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The inspection shall be done in accordance with Airbus Service Bulletin A300–57–6028, Revision 3, dated September 13, 1994, which contains the specified effective pages:

Page No.	Revision level shown on page	Date shown on page
1–6	3	Sept. 13, 1994.
7–9	2	Feb. 22, 1994.

This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Airbus Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

(e) This amendment becomes effective on October 16, 1995.

Issued in Renton, Washington, on August 29, 1995.

Darrell M. Pedersen,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

14 CFR Part 39

[Docket No. 94–NM–232–AD; Amendment 39–9356; AD 95–18–09]

Airworthiness Directives; Fokker Model F28 Mark 0100 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Fokker Model F28 Mark 0100 series airplanes, that requires modification of the rear spar-to-fuselage attachment. This amendment is prompted by a report indicating that, during full-scale fatigue tests on a Model F28 Mark 0100 test article, cracking was found in the coupling plate and web plate of the rear spar end fitting at the attachment to the main frame at fuselage station 17011 due to fatigue-related stress. The actions specified by this AD are intended to prevent fatigue-related cracking in the rear spar-to-fuselage attachment which, if not detected and corrected in a timely manner, could result in reduced structural integrity of the wing.

DATES: Effective October 16, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 16, 1995.

ADDRESSES: The service information referenced in this AD may be obtained from Fokker Aircraft USA, Inc., 1199 North Fairfax Street, Alexandria, Virginia 22314. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Tim Dulin, Aerospace Engineer, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (206) 227–2141; fax (206) 227–1149.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an airworthiness directive (AD) that is applicable to certain Fokker Model F28 Mark 0100 series airplanes was published in the **Federal Register** on June 9, 1995 (60 FR 30476). That action proposed to require modification of the rear spar-to-fuselage attachment.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the two comments received.

Both commenters support the proposed rule.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 21 airplanes of U.S. registry will be affected by this AD, that it will take approximately 176 work hours per airplane to accomplish the required actions, and that the average labor rate is $60 per work hour. Required parts will cost approximately $9,000 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $410,760, or $19,560 per airplane.

The total cost impact figure discussed above is based on assumptions that no operator has yet accomplished any of the requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption ADDRESSES.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13—[Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

95–18–09 Fokker: Amendment 39–9356. Docket 94–NM–232–AD.

Applicability: Model F28 Mark 0100 series airplanes; having serial numbers 11244 through 11319 inclusive, 11321, and 11323 through 11332 inclusive; certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must use the authority provided in paragraph (b) of this AD to request approval from the FAA. This approval may address either no action, if the current configuration eliminates the unsafe condition; or different actions necessary to address the unsafe condition described in this AD. Such a request should include an assessment of the effect of the changed configuration on the unsafe condition addressed by this AD. In no case does the presence of any modification, alteration, or repair remove any airplane from the applicability of this AD.

Compliance: Required as indicated, unless accomplished previously.

To prevent fatigue-related cracking in the rear spar-to-fuselage attachment, which could result in reduced structural integrity of the wing, accomplish the following:

(a) Prior to the accumulation of 24,000 total flight cycles or within 6 months after the effective date of this AD, whichever occurs later, modify the rear spar-to-fuselage attachment, in accordance with Fokker Service Bulletin SBF100–53–039, dated February 10, 1993.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The modification shall be done in accordance with Fokker Service Bulletin SBF100–53–039, dated February 10, 1993. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Fokker Aircraft USA, Inc., 1199 North Fairfax Street, Alexandria, Virginia 22314. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on October 16, 1995.

Issued in Renton, Washington, on August 29, 1995.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[Docket No. 91–CE–21–AD; Amendment 39–9358; AD 95–18–11]

Airworthiness Directives; de Havilland DHC–6 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes Airworthiness Directive (AD) 73–05–03, which currently requires repetitively inspecting the rear spar cap for cracks on certain de Havilland DHC–6 series airplanes, and replacing any cracked rear spar cap. The Federal Aviation Administration's policy on aging commuter-class aircraft is to eliminate or, in certain instances, reduce the number of certain repetitive short-interval inspections when improved parts or modifications are available. This action requires modifying the wing rear spar support (Modification No. 6/1301) as terminating action for the currently required repetitive inspections. The actions specified by this AD are intended to prevent cracking of the top flange of the wing spar attachment caps, which, if not detected and corrected, could result in loss of control of the airplane.

DATES: Effective October 26, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 26, 1995:

ADDRESSES: Service information that applies to this AD may be obtained from de Havilland, Inc., 123 Garratt Boulevard, Downsview, Ontario, Canada, M3K 1Y5. This information may also be examined at the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 91–CE–21–AD, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jon Hjelm, Aerospace Engineer, FAA, New York Aircraft Certification Office, 10 Fifth Street, 3rd Floor, Valley Stream, New York 11581; telephone (516) 256–7523; facsimile (516) 568–2716.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to certain de Havilland DHC–6 series airplanes without Modification No. 6/1301 incorporated was published in the **Federal Register** on October 31, 1994 (59 FR 54415). The action proposed to supersede AD 73–05–03 with a new AD that would (1) initially retain the requirement of repetitively inspecting the wing rear spar cap for cracks and replacing any cracked part; and (2) eventually require installing wing rear spar attachment caps that are manufactured from a material having improved stress corrosion resistant properties (Modification 6/1301) as terminating action for the repetitive inspections. Accomplishment of the proposed actions would be in accordance with de Havilland Service Bulletin No. 6/295, Revision D, dated December 20, 1991.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

After careful review of all available information related to the subject presented above including the referenced service information, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed except for minor editorial corrections. The FAA has determined that these minor corrections will not change the meaning of the AD and will not add any additional burden upon the public than was already proposed.

The FAA estimates that 82 airplanes in the U.S. registry will be affected by this AD, that it will take approximately 22 workhours per airplane to accomplish the required modification, and that the average labor rate is approximately $60 an hour. Parts cost approximately $6,350 per airplane. Based on these figures, the total cost impact of this AD on U.S. operators is estimated to be $628,940. This figure is based upon the assumption that no affected airplane owner/operator has incorporated Modification 6/1301.

The intent of the FAA's aging commuter airplane program is to ensure safe operation of commuter-class airplanes that are in commercial service without adversely impacting private operators. Of the approximately 82 airplanes in the U.S. registry that will be affected by this AD, the FAA has determined that approximately 45 percent are operated in scheduled passenger service. A significant number of the remaining 55 percent are operated in other forms of air transportation such as air cargo and air taxi.

The following paragraphs present cost scenarios for airplanes where no cracks were found and where certain category cracks were found during the inspections, and where the remaining airplane life is 15 years with an average annual utilization rate of 1,600 hours time-in-service (TIS). A copy of the full Cost Analysis and Regulatory Flexibility Determination for the required action may be examined at the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 91–CE–21–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri.

- No Cracks Scenario: Under the provisions of AD 73–05–03, an owner/operator of an affected de Havilland DHC–6 series airplane in scheduled service who operates an average of 1,600 hours TIS annually will inspect every 26 weeks. This amounts to a remaining airplane life (estimated 15 years) cost of $14,058; this figure is based on the assumption that no cracks are found during the inspections. This AD will incur the inspection at one 1,200-hour TIS interval and then, at 2,400 hours TIS after the effective date of the AD, the operator has to replace the top flange of the wing spar attachment caps (eliminating the need for further repetitive inspections). This results in a present value cost of $8,331, which is a present value cost savings over that required in AD 73–05–03 of $5,727 or $4,154 annualized over the 1.5 years it will take to accumulate 2,400 hours TIS. An owner of a general aviation airplane who operates 800 hours TIS annually without finding any cracks during the 1,200-hour TIS inspection will incur a present value cost savings over that required in AD 73–05–03 of $6,430. This amounts to a per year savings of $2,450 over the 1.5 years it takes to accumulate 2,400 hours TIS.
- Category I cracks found scenario: These are spanwise cracks that are inboard of the third rivet, or spanwise cracks that exceed 50 inches, or any chordwise cracks. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection under this scenario has to immediately repair the cracked part and repetitively inspect every 26 weeks. This AD will require immediate replacement as terminating action for the repetitive inspections, which results in present value compliance costs of $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario is $6,300 for airplanes in scheduled service and $6,295 per general aviation airplane.
- Category II cracks found scenario: These are spanwise cracks that are outboard of the 10th rivet and within the limits of paragraph (b) of the service bulletin. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection under this scenario has to repetitively inspect every 13 weeks. This results in present value compliance costs of $27,625. This AD would require repetitive inspections every 600 hours TIS until replacement of the top flange of the wing rear spar attachment caps at 2,400 hours TIS after the effective date of the AD as terminating action for the repetitive inspections. This results in present value compliance costs of $9,700. Immediate replacement of the top flange is more economical than repetitively inspecting; present value costs are $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario is $19,272 per airplane in scheduled service and $19,269 per general aviation airplane.
- Category III cracks found scenario: These are spanwise cracks that are outboard of the 10th rivet and within the limits of paragraph (c) of the service bulletin. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection in this scenario has to repetitively inspect every 2 weeks. This results in present value compliance costs of $175,000. This AD requires repetitive inspections every 100 hours TIS until replacement of the top flange of the wing rear spar attachment caps at 2,400 hours TIS after the effective date of the AD as terminating action for the repetitive inspections. This results in present value compliance costs of $13,965. Immediate replacement of the top flange is more economical than repetitively inspecting; present value costs are $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario is $166,075 per airplane in scheduled service and $166,784 per general aviation airplane.
- Category IV cracks found scenario: These are spanwise cracks that are outboard of the 10th rivet and exceed the limits of paragraph (b) or (c) of the service bulletin. Also included are cracks in the splice plates of the vertical and horizontal legs of the rear spar or elongated rivet holes. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection under this scenario has to immediately repair any crack and then repetitively inspect every 26 weeks. This results in present value costs of $14,500. This AD requires immediate crack repair, then an inspection after accumulating 1,200 hours TIS, and replacement of the top flange of the wing rear spar attachment caps at 2,400 hours TIS after the effective date of the AD as terminating action for the repetitive inspections. This results in present value compliance costs of $8,929. Immediate replacement of the top flange is more economical than repetitively inspecting; present value costs are $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario is $6,040 per airplane in scheduled service and $6,430 per general aviation airplane.
- Category V cracks found scenario: These are spanwise cracks that are between the third and tenth rivet. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection under this scenario has to immediately repair any crack, repetitively inspect every 2 weeks, replace the top flange of the wing rear spar attachment caps, and repetitively inspect thereafter every 26 weeks. This results in present value compliance costs of about $30,000. This AD requires immediate crack repair, repetitive inspections every 50 hours TIS, and replacement of the top flange of the wing rear spar attachment caps at 2,400 hours TIS after the effective date of the AD as terminating action for the repetitive inspections. This results in present value compliance costs of $38,988. Immediate replacement of the top flange is more economical than repetitively inspecting; present value costs are $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario are $19,356 per airplane in scheduled service and $26,367 per general aviation airplane.

- Category VI cracks found scenario: These are spanwise cracks that have a total length exceeding 30 inches but not exceeding 50 inches. Under the provisions of AD 73–05–03, an owner/operator who finds cracks during an inspection under this scenario has to immediately repair any crack, replace the top flange of the wing rear spar attachment caps at 26 weeks, and repetitively inspect thereafter every 26 weeks. This results in present value compliance costs of about $21,200. This AD requires immediate crack repair, repetitive inspections every 600 hours TIS, and replacement of the top flange of the wing rear spar attachment caps at 2,400 hours TIS after the effective date of the AD as terminating action for the repetitive inspections. This results in present value compliance costs of $10,289. Immediate replacement of the top flange is more economical than repetitively inspecting; present value costs are $8,355. The present value cost savings over that required in AD 73–05–03 for this scenario is $12,707 per airplane in scheduled service and $13,028 per general aviation airplane.

The Regulatory Flexibility Act of 1980 (RFA) was enacted by Congress to ensure that small entities are not unnecessarily or disproportionally burdened by government regulations. The RFA requires government agencies to determine whether rules could have a "significant economic impact on a substantial number of small entities," and, in cases where they could, conduct a Regulatory Flexibility Analysis in which alternatives to the rule are considered. FAA Order 2100.14A, Regulatory Flexibility Criteria and Guidance, outlines FAA procedures and criteria for complying with the RFA. Small entities are defined as small businesses and small not-for-profit organizations that are independently owned and operated or airports operated by small governmental jurisdictions. A "substantial number" is defined as a number that is not less than 11 and that is more than one-third of the small entities subject to a rule, or any number of small entities judged to be substantial by the rulemaking official. A "significant economic impact" is defined by an annualized net compliance cost, adjusted for inflation, which is greater than a threshold cost level for defined entity types. FAA Order 2100.14A sets the size threshold for small entities operating aircraft for hire at 9 aircraft owned and the annualized cost thresholds, adjusted to 1994 dollars, at $69,000 for scheduled operators and $5,000 for unscheduled operators.

Of the 82 U.S.-registered airplanes affected by this AD, three airplanes are owned by the federal government. Of the other 79, one business owns 24 airplanes, one business owns 7 airplanes, one business owns 6 airplanes, one business owns 3 airplanes, 6 businesses own 2 airplanes each, and twenty-seven businesses own 1 airplane each.

As presented in the crack scenario discussion, replacing the top flange of the wing rear spar attachment caps immediately or within 2,400 hours TIS after the effective date of this AD is more economical in all scenarios than continuing to repetitively inspect the part for the life of the airplane. Therefore, this AD will not have a "significant economic impact on a substantial number of small entities."

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing Airworthiness Directive (AD) 73–05–03, Amendment 39–1658, and adding a new AD to read as follows:

95–18–11 De Havilland: Amendment 39–9358; Docket No. 91–CE–21–AD.

Supersedes AD 73–05–03, Amendment 39–1658.

Applicability: Models DHC–6–1, DHC–6–100, DHC–6–200, and DHC–6–300 airplanes (serial numbers 1 to 330), certificated in any category, that have not incorporated Modification 6/1301 in accordance with the instructions in Part C of de Havilland Service Bulletin (SB) 6/295, Revision D, dated December 20, 1991.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated in the body of this AD, unless already accomplished.

To prevent cracking of the top flange of the wing rear spar attachment caps, which, if not detected and corrected, could result in loss of control of the airplane, accomplish the following:

(a) Within the next 100 hours time-in-service (TIS) after the effective date of this AD, inspect both wing rear spar attachment caps, part number (P/N) C6WM1032, for cracks in accordance with paragraph A of the Accomplishment Instructions section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991. The exposure time of Inspection Method A.1 (Radiographic) in this service bulletin shall be 120 seconds instead of 60 seconds for the inboard X-ray tube location, and the X-ray beam angle shall be decreased from 10 degrees to 5 degrees for all X-ray tube locations.

(1) If cracking is not detected, reinspect each cap every 1,200 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(2) If spanwise cracking is detected outboard of the 10th rivet, accomplish the following:

(i) For cracks that have the following (the criteria of paragraph (c) in the Compliance section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991):

First to tenth rivet.	No cracks.
11th to 29th rivet.	One cracked pitch (the distance between adjacent rivet holes) in ten pitches with four uncracked pitches minimum between cracks.
30th to 69th rivet.	Two cracked pitches in ten pitches with four uncracked pitches minimum between cracks.
70th to 74th (end).	One cracked pitch.

Repeat the inspection specified in paragraph (a) of this AD at intervals not to exceed 100 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(ii) For cracks found outboard of the 10th rivet that run only between two adjacent rivets provided not more than four such cracks exist in an attachment cap and a minimum of two rivet pitch lengths of uncracked material separate cracks (the criteria of paragraph (b) in the Compliance section of de Havilland SB No. 6/295), repeat the inspection specified in paragraph (a) of this AD at intervals not to exceed 600 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(iii) For cracks that meet or exceed the criteria of paragraphs (b) or (c) in the Compliance section of de Havilland SB No. 6/295, prior to further flight, reinforce the spar cap in accordance with paragraph B of the Accomplishment Instructions section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991, and repeat the inspection specified in paragraph (a) of this AD at intervals not to exceed 1,200 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(3) If spanwise cracking is detected inboard of the third rivet, or if a chordwise crack is detected, or if the total length of cracks on a cap exceeds 50 inches, prior to further flight, replace the spar cap with a Modification 6/1301 cap in accordance with paragraph C of the Accomplishment Instructions section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991.

(4) If spanwise cracking is detected between the third and tenth rivet, prior to further flight, reinforce the spar cap in accordance with paragraph B of the Accomplishment Instructions section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991, and repeat the inspection specified in paragraph (a) of this AD inboard of the reinforced attachment caps at intervals not to exceed 50 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(5) If cracking exceeds a total length of 30 inches but does not exceed 50 inches, prior to further flight, reinforce the spar cap in accordance with paragraph B of the Accomplishment Instructions section of de Havilland SB No. 6/295, Revision D, dated December 20, 1991, and repeat the inspection specified in paragraph (a) of this AD at intervals not to exceed 600 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD.

(b) Within 100 hours after the effective date of this AD and thereafter at intervals not to exceed 1,200 hours TIS until a Modification 6/1301 spar cap is installed as required by paragraph (c) of this AD, inspect the splice plates of the vertical and horizontal legs of the rear spar fitting at Wing Stations 87 to 91 for cracks or elongated rivet holes. Prior to further flight, replace any part that is cracked or has elongated rivet holes with a serviceable part.

(c) Within 2,400 hours TIS after the effective date of this AD, replace both wing rear spar caps with a Modification 6/1301 spar cap in accordance with paragraph C of the Accomplishment instructions in de Havilland SB No. 6/295, Revision D, dated December 20, 1991, unless already accomplished.

(d) Incorporating Modification 6/1301 on both wing rear spar caps in accordance with paragraph C of the Accomplishment Instructions in de Havilland SB No. 6/295, Revision D, dated December 20, 1991, is considered terminating action for the inspection requirements of this AD.

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) An alternative method of compliance or adjustment of the initial or repetitive compliance times that provides an equivalent level of safety may be approved by the Manager, New York Aircraft Certification Office (ACO), FAA, 10 Fifth Street, 3rd Floor, Valley Stream, New York 11581. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, New York ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the New York ACO.

(g) The inspections and modification required by this AD shall be done in accordance with de Havilland Service Bulletin No. 6/295, Revision D, dated December 20, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from de Havilland, Inc., 123 Garratt Boulevard, Downsview, Ontario M3K 1Y5 Canada. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW., 7th Floor, suite 700, Washington, DC.

(h) This amendment (39–9358) supersedes AD 73–05–03, Amendment 39–1658.

(i) This amendment (39–9358) becomes effective on October 26, 1995.

Issued in Kansas City, Missouri, on August 28, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–21957 Filed 9–13–95; 8:45 am]

BILLING CODE 4910–13–U

---

14 CFR Part 39

[Docket No. 94–CE–36–AD; Amendment 39–9360; AD 95–18–13]

Airworthiness Directives; HOAC AUSTRIA GmbH HK 36R "Super Dimona" Gliders

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to certain HOAC AUSTRIA GmbH (HOAC) HK 36R "Super Dimona" gliders. This action requires inspecting the exhaust system for corrosion, replacing the exhaust system if corrosion is found, and installing a carbon monoxide detector. Reports received by the Federal Aviation Administration (FAA) of severe exhaust system corrosion on the affected gliders, including one of excessive corrosion (rusting through), prompted this action. The actions specified by this AD are intended to prevent carbon monoxide leakage caused by a corroded exhaust system, which, if not detected and corrected, could lead to passenger injuries.

DATES: Effective October 26, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 26, 1995.

ADDRESSES: Service information that applies to this AD may be obtained from HOAC AUSTRIA GmbH, N.A. Otto Strasse 5, A–2700 Wiener Neustadt, Austria. This information may also be examined at the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 94–CE–36–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Herman C. Belderok, Project Officer, Gliders, Small Airplane Directorate, Aircraft Certification Service, FAA, 1201 Walnut, suite 900, Kansas City, Missouri 64106; telephone (816) 426–6932; facsimile (816) 426–2169.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to HOAC HK 36R "Super Dimona" gliders was published in the Federal Register on March 30, 1995 (60 FR 16396). The action proposed to require inspecting the exhaust system for corrosion, replacing the exhaust system if corrosion is found, and installing a carbon monoxide detector. Accomplishment of the proposed action would be in accordance with the Measures section of HOAC Service Bulletin No. 33, dated July 15, 1993.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

After careful review of all available information related to the subject presented above including the referenced service information, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed except for minor editorial corrections. The FAA has determined that these minor corrections will not change the meaning of the AD and will not add any additional burden upon the public than was already proposed.

The FAA estimates that 4 gliders in the U.S. registry will be affected by this AD, that it will take approximately 1 workhour per glider to accomplish the required inspection and install a carbon monoxide detector, and that the average labor rate is approximately $60 an hour. Parts (a carbon monoxide detector) will be provided by the manufacturer at no cost to the owner/operator. Based on these figures, the total cost impact of this AD on U.S. operators is estimated to be $240 ($60 per glider). This figure is based on the assumption that no affected owner/operator of the affected gliders has incorporated the required installation or accomplished the required inspection.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

95–18–13 HOAC AUSTRIA GmbH: Amendment 39–9360; Docket No. 94–CE–36–AD.

Applicability: HK 36R "Super Dimona" gliders (serial numbers 36.302 through 36.323), certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (d) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required within the next 10 hours time-in-service after the effective date of this AD, unless already accomplished.

To prevent carbon monoxide leakage caused by a corroded exhaust system, which, if not detected and corrected, could lead to passenger injuries, accomplish the following:

(a) Inspect the exhaust system for corrosion in accordance with the Measures section of HOAC Service Bulletin (SB) No. 33, dated July 15, 1993. If corrosion is found, prior to further flight, replace the exhaust system in accordance with the Measures section of HOAC SB No. 33, dated July 15, 1993.

(b) Install a carbon monoxide detector in accordance with the Measures section of HOAC SB No. 33, dated July 15, 1993.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the glider to a location where the requirements of this AD can be accomplished.

(d) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Small Airplane Directorate, FAA, 1201 Walnut, suite 900, Kansas City, Missouri 64106. The request should be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Small Airplane Directorate.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Small Airplane Directorate.

(e) The inspection, replacement, and installation required by this AD shall be done in accordance with HOAC Service Bulletin No. 33, dated July 15, 1993. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from HOAC AUSTRIA GmbH, N.A. Otto Strasse 5, A–2700 Wiener Neustadt, Austria. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW., 7th Floor, suite 700, Washington, DC.

(f) This amendment (39–9360) becomes effective on October 26, 1995. Issued in Kansas City, Missouri, on August 28, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–21958 Filed 9–13–95; 8:45 am]

BILLING CODE 4910–13–U

14 CFR Part 39

[Docket No. 95–CE–11–AD; Amendment 39–9359; AD 95–18–12]

Airworthiness Directives; Mooney Aircraft Corporation Model M20K Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to Mooney Aircraft Corporation (Mooney) Model M20K airplanes. This action requires inspecting to see if the airplane is equipped with a Gerdes fuel selector valve, part number (P/N) A–2580, and replacing any Gerdes fuel selector valve with an Airight fuel

selector valve. Malfunction of a Gerdes fuel selector valve on an affected airplane, where the valve did not allow the operator to select the appropriate fuel tank, prompted this action. The actions specified by this AD are intended to prevent fuel selector valve malfunction, which, if not detected and corrected, will prevent the airplane operator from selecting the appropriate fuel tank, resulting in an unscheduled landing.

DATES: Effective October 20, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 20, 1995.

ADDRESSES: Service information that applies to this AD may be obtained from the Mooney Aircraft Corporation, Louis Schreiner Field, Kerrville, Texas 78028; telephone (210) 896–6000. This information may also be examined at the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–11–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Sills, Mechanical Systems Engineer, FAA, Airplane Certification Office, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150; telephone (817) 222–5154; facsimile (817) 222–5959.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to Mooney Model M20K airplanes was published in the **Federal Register** on April 11, 1995 (60 FR 18374). The action proposed to require inspecting to see if the airplane is equipped with a Gerdes fuel selector valve, (P/N) A–2580, and replacing any Gerdes fuel selector valve with an Airight fuel selector valve. Accomplishment of the proposed replacement would be in accordance with Mooney Service Bulletin M20–256, dated January 24, 1995.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

After careful review of all available information related to the subject presented above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed except for minor editorial corrections. The FAA has determined that these minor corrections will not change the meaning of the AD and will not add any additional burden upon the public than was already proposed.

The FAA estimates that 78 airplanes in the U.S. registry will be affected by this AD, that it will take approximately 3 workhours per airplane to accomplish the required action, and that the average labor rate is approximately $60 an hour. Parts cost approximately $535 per airplane. Based on these figures, the total cost impact of this AD on U.S. operators is estimated to be $55,770. This figure is based on the assumption that no airplane owner/operator has accomplished the required modification. Mooney has informed the FAA that parts have not been distributed to any owner/operator of the affected airplanes.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

95–18–12 Mooney Aircraft Corporation: Amendment 39–9359; Docket No. 95–CE–11–AD.

Applicability: Model M20K airplanes (all serial numbers), certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (d) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it. Compliance: Required within the next 50 hours time-in-service after the effective date of this AD, unless already accomplished.

To prevent fuel selector valve malfunction, which, if not detected and corrected, will prevent the airplane operator from selecting the appropriate fuel tank, resulting in an unscheduled landing, accomplish the following:

(a) Inspect to see if the airplane is equipped with a Gerdes fuel selector valve, part number (P/N) A–2580. This inspection may be accomplished by examining the cross-sectional shape of the selector valve. The Gerdes selector valve has a rectangular cross section with square corners.

Note 2: The following airplane serial numbers (S/N) had a Gerdes fuel selector valve, part number (P/N) A–2580, installed at manufacture:

S/N 25–0001 through 25–0091, except for the following:

S/N's 25–0017, 25–0027, 25–0052, 250063, 25–0067, 25–0068, 25–0078, 25–0081, 25–0082, 25–0083, 25–0084, 25–0085, 25–0086, and 25–0089.

The excluded S/N 25–0001 through 25–0091 Model M20K airplanes and any S/N Model M20K airplanes outside that range may have had a Gerdes fuel selector valve, part number (P/N) A–2580, installed by field modification.

(b) Replace any Gerdes fuel selector valve, P/N A–2580, with an Airight fuel selector valve in accordance with the INSTRUCTIONS section in Mooney Service Bulletin M20–256, dated January 24, 1995.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished provided that the fuel selector valve is functioning properly.

(d) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Airplane Certification Office (ACO), FAA, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Fort Worth ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Fort Worth ACO.

(e) The replacement required by this AD shall be done in accordance with Mooney Service Bulletin M20–256, dated January 24, 1995. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the Mooney Aircraft Corporation, Louis Schreiner Field, Kerrville, Texas 78028. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW., 7th Floor, suite 700, Washington, DC.

(f) This amendment (39–9359) becomes effective on October 20, 1995.

Issued in Kansas City, Missouri, on August 28, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–21959 Filed 9–13–95; 8:45 am]

BILLING CODE 4910–13–U

---

14 CFR Part 39

[Docket No. 91–CE–22–AD; Amendment 39–9367; AD 95–18–10]

Airworthiness Directives; de Havilland DHC–6 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes Airworthiness Directive (AD) 81–10–11, which currently requires repetitively inspecting the elevator root ribs for cracks on de Havilland DHC–6 series airplanes, and replacing any cracked part. The Federal Aviation Administration's policy on aging commuter-class aircraft is to eliminate, or, in certain instances, reduce the number of certain repetitive short-interval inspections when improved parts or modifications are available. This action requires modifying the elevator root rib as terminating action for the repetitive inspections currently required by AD 81–10–11. The actions specified by this AD are intended to prevent failure of the elevator root rib, which could result in loss of control of the airplane.

DATES: Effective October 26, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 26, 1995.

ADDRESSES: Service information that applies to this AD may be obtained from de Havilland, Inc., 123 Garratt Boulevard, Downsview, Ontario, Canada, M3K1Y5. This information may also be examined at the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 91–CE–22–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jon Hjelm, Aerospace Engineer, FAA, New York Aircraft Certification Office, 10 Fifth Street, 3rd Floor, Valley Stream, New York 11581; telephone (516) 256–7523; facsimile (516) 568–2716.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to de Havilland DHC–6 series airplanes that do not have Modification No. 6/1769 incorporated was published in the **Federal Register** on October 3, 1994 (59 FR 54412). The action proposed to supersede AD 81–10–11 with a new AD that would (1) retain the current requirement of inspecting the elevator root rib for cracks, and replacing any cracked part; and (2) require modifying the elevator root rib (Modification 6/1769) as terminating action for the repetitive inspections. Accomplishment of the proposed actions would be in accordance with de Havilland Service Bulletin No. 6/399, Revision E, dated May 25, 1984.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

After careful review of all available information related to the subject presented above including the referenced service information, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed except for minor editorial corrections. The FAA has determined that these minor corrections will not change the meaning of the AD and will not add any additional burden upon the public than was already proposed.

The FAA estimates that 169 airplanes in the U.S. registry will be affected by this AD, that it will take approximately 54 workhours per airplane to accomplish the required action, and that the average labor rate is approximately $60 an hour. Parts cost approximately $4,200 per airplane. Based on these figures, the total cost impact of this AD on U.S. operators is estimated to be $1,257,360. This figure is based on the assumption that none of the affected airplane owners/operators have incorporated Modification 6/1769.

The intent of the FAA's aging commuter airplane program is to ensure safe operation of commuter-class airplanes that are in commercial service without adversely impacting private operators. Of the approximately 169 airplanes in the U.S. registry that will be affected by this AD, the FAA has determined that approximately 50 percent are operated in scheduled passenger service. A significant number of the remaining 50 percent are operated in other forms of air transportation such as air cargo and air taxi.

The following paragraphs present cost scenarios for airplanes where no cracks were found and where cracks were found, utilizing an average remaining airplane life of 15 years and an average annual utilization rate of 1,600 hours time-in-service (TIS). De Havilland Models DHC–6–100 and DHC–6–200 airplanes have probably already accumulated 15,000 hours TIS; therefore, those airplanes would have 100 hours TIS after the effective date of the AD to incorporate Modification 6/1769. Some Model DHC–6–300 airplanes have not yet accumulated 15,000 hours TIS. This analysis is based upon the assumption that those airplanes yet to accumulate 15,000 hours TIS have 10,000 hours TIS if operated in scheduled service and 5,000 hours TIS if operated in general aviation. A copy of the full Cost Analysis and Regulatory Flexibility Determination for this action may be examined at the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 91–CE–22–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri.

- No Cracks Scenario for Models DHC–6–100 and DHC–6–200: These airplanes will be inspected at 50 hours TIS after the effective date and modified within 100 hours TIS after the effective date. The incremental present value cost of this AD over that required by AD 81–10–11 is $5,919 for an airplane utilized in scheduled service, and $6,642 for an airplane utilized in general aviation.

- No Cracks Scenario for Model DHC–6–300 Airplanes: These airplanes will be inspected at 50 hours TIS after the effective date and thereafter at 600-hour TIS intervals until the elevator root rib is replaced upon the accumulation of 15,000 hours TIS. The incremental present value cost of this AD over that required by AD 81–10–11 is $4,962 for an airplane utilized in scheduled service, and $3,099 for an airplane utilized in general aviation.

The Regulatory Flexibility Act of 1980 (RFA) was enacted by Congress to ensure that small entities are not unnecessarily or disproportionally burdened by government regulations. The RFA requires government agencies to determine whether rules will have a "significant economic impact on a substantial number of small entities," and, in cases where they could, conduct a Regulatory Flexibility Analysis in which alternatives to the rule are considered. FAA Order 2100.14A, Regulatory Flexibility Criteria and Guidance, outlines FAA procedures and criteria for complying with the RFA. Small entities are defined as small businesses and small not-for-profit organizations that are independently owned and operated or airports operated by small governmental jurisdictions. A "substantial number" is defined as a number that is not less than 11 and that is more than one-third of the small entities subject to a rule, or any number of small entities judged to be substantial by the rulemaking official. A "significant economic impact" is defined by an annualized net compliance cost, adjusted for inflation, which is greater than a threshold cost level for defined entity types. FAA Order 2100.14A sets the size threshold for small entities operating aircraft for hire at 9 aircraft owned and the annualized cost thresholds, adjusted to 1994 dollars, at $69,000 for scheduled operators and $5,000 for unscheduled operators.

Of the 169 U.S.-registered airplanes affected by this AD, six airplanes are owned by the federal government. Of the other 163 airplanes, one business owns 26 airplanes, two businesses own 9 airplanes each, one business owns 8 airplanes, one business owns 7 airplanes, one business owns 5 airplanes, four businesses own 3 airplanes each, sixteen businesses own 2 airplanes each, and fifty-five businesses own 1 airplane each.

Because the FAA has no readily available means of obtaining data on the sizes of these entities, the economic analysis for this AD utilizes the worst case scenario using the lower annualized cost threshold of $5,000 for operators in unscheduled service instead of $69,000 for operators in scheduled service. With this in mind and based on the above ownership distribution, this AD could have a significant impact on a substantial number of small entities. Because of this, the FAA conducted a regulatory flexibility analysis. A copy of this analysis may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, may have a significant economic impact on a substantial number of small entities. The FAA has conducted an Initial Regulatory Flexibility Determination and Analysis and has considered alternatives to this action that could minimize the impact on small entities. A copy of this analysis may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**. After careful consideration, the FAA has determined that the required action is the best course to achieve the safety objective of returning the airplane to its original certification level of safety.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing Airworthiness Directive (AD) 81–10–11, Amendment 39–4112, and adding a new AD to read as follows:

95–18–10 De Havilland: Amendment 39–9357; Docket No. 91–CE–22–AD. Supersedes AD 81–10–11, Amendment 39–4112.

Applicability: Models DHC–6–1, DHC–6–100, DHC–6–200, and DHC–6–300 airplanes (all serial numbers), certificated in any category, that do not have Modification No. 6/1769 incorporated.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated in the body of the AD, unless already accomplished.

To prevent failure of the elevator root rib, which could result in loss of control of the airplane, accomplish the following:

(a) Within the next 50 hours time-in-service (TIS) after the effective date of this AD, unless already accomplished (compliance with AD 81–10–11), inspect the elevator root rib, part number (P/N) C6TE1022, for cracks in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of de Havilland Service Bulletin (SB) No. 6/399, Revision E, dated May 25, 1984.

(1) If any crack is found, prior to further flight, accomplish one of the following:

(i) Replace the cracked part with an airworthy part and reinspect thereafter at intervals not to exceed 600 hours TIS until the modification required in paragraph (b) of this AD is incorporated; or

(ii) Incorporate Modification 6/1769 in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of de Havilland SB No. 6/399, Revision E, dated May 25, 1984.

Note 2: Modification 6/1769 consists of pulling back the elevator skins, removing the torque tube assembly, replacing the root rib assembly and doubler, replacing the second outboard nose rib, installing a new intercostal, and reinstalling the torque tube assembly and new skin.

(2) If no cracks are found, reinspect thereafter at intervals not to exceed 600 hours TIS until the modification required in paragraph (b) of this AD is incorporated.

(b) Upon the accumulation of 15,000 hours TIS or within the next 100 hours TIS after the effective date of this AD, whichever occurs later, unless already accomplished, incorporate Modification 6/1769 in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of de Havilland SB No. 6/399, Revision E, dated May 25, 1984.

(c) Incorporating Modification 6/1769 as specified in paragraphs (a)(1)(ii) and (b) of this AD is considered terminating action for the inspection requirements of this AD.

(d) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) An alternative method of compliance or adjustment of the initial or repetitive compliance times that provides an equivalent level of safety may be approved by the Manager, New York Aircraft Certification Office (ACO), FAA, 10 Fifth Street, 3rd Floor, Valley Stream, New York 11581. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, New York ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the New York ACO.

(f) The inspections and modification required by this AD shall be done in accordance with de Havilland Service Bulletin No. 6/399, Revision E, dated May 25, 1984. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from de Havilland, Inc., 123 Garratt Boulevard, Downsview, Ontario M3K 1Y5 Canada. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street NW., 7th Floor, suite 700, Washington, DC.

(g) This amendment (39–9357) supersedes AD 81–10–11, Amendment 39–4112.

(h) This amendment (39–9357) becomes effective on October 26, 1995.

Issued in Kansas City, Missouri, on August 28, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–21960 Filed 9–13–95; 8:45 am]

BILLING CODE 4910–13–U

---

14 CFR Part 39

[Docket No. 95–CE–58–AD; Amendment 39–9366; AD 95–19–07]

Airworthiness Directives; Fairchild Aircraft SA226 and SA227 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to Fairchild Aircraft SA226 and SA227 series airplanes equipped with certain main landing gear (MLG) and nose landing gear (NLG). This action requires repetitively inspecting, using ultrasonic methods, the left-hand and right-hand MLG yokes and the NLG yokes for stress corrosion cracking, and, if any cracked yokes are found that exceed certain limits, either replacing the cracked yoke, the yoke/cylinder combination, or the affected MLG or NLG assembly. Several reports of landing gear failures on the affected airplanes that have the affected MLG or NLG yokes installed prompted this action. The actions specified by this AD are intended to prevent MLG or NLG failure caused by stress corrosion cracks in the yokes, which, if not detected and corrected, could result in loss of control of the airplane during landing operations.

DATES: Effective September 28, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1995.

Comments for inclusion in the Rules Docket must be received on or before November 4, 1995.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 95–CE–58–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Service information that applies to this AD may be obtained from Fairchild Aircraft, P.O. Box 790490, San Antonio, Texas 78279–0490; telephone (210) 824–9421. This information may also be examined at the FAA, Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–58–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Werner Koch, Aerospace Engineer, FAA, Airplane Certification Office, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150; telephone (817) 222–5133; facsimile (817) 222–5960.

SUPPLEMENTARY INFORMATION: The FAA has received several reports of main landing gear (MLG) and nose landing gear (NLG) failure on Fairchild Aircraft SA226 and SA227 series airplanes. The airplanes in these incidents are equipped with part number (P/N) OAS5453 MLG and P/N OAS5451 NLG.

Metallurgical analysis of the yokes of the right-hand and left-hand MLG and NLG gear on several of these airplanes revealed that the failure was initiated by stress corrosion cracking of the yokes, which started as corrosion fatigue. This condition, if not detected and corrected, could result in loss of control of the airplane during landing operations.

Fairchild Aircraft has issued Service Bulletin (SB) 226–32–065, SB 227–32–039, and SB CC7–32–007, all Issued: August 16, 1995, which specify procedures for ultrasonically inspecting the left-hand and right-hand MLG yoke, P/N 5453005–1, 5453005–3, or 5453005–5, and the NLG yoke, P/N 5451005–1, on Fairchild Aircraft SA226 and SA227 series airplanes.

After examining the circumstances and reviewing all available information related to the incidents described above, the FAA has determined that AD action should be taken to prevent MLG or NLG failure caused by stress corrosion cracks of the yokes, which, if not detected and corrected, could result in loss of control of the airplane during landing operations.

Since an unsafe condition has been identified that is likely to exist or develop in other Fairchild Aircraft SA226 and SA227 series airplanes of the same type design, this AD requires repetitively inspecting, using ultrasonic methods, the left-hand and right-hand MLG yokes and the NLG yokes for stress corrosion cracking, and, if any cracked yokes are found that exceed certain limits, either replacing the cracked yoke, the yoke/cylinder combination, or the affected MLG or NLG assembly. Accomplishment of the ultrasonic inspections shall be in accordance with either Fairchild Aircraft SB 226–32–065, SB 227–32–039, and SB CC7–32–007, all Issued: August 16, 1995, as applicable. The replacement, if necessary, shall be accomplished in accordance with the applicable maintenance manual.

Since a situation exists (possible loss of control of the airplane during landing operations) that requires the immediate adoption of this regulation, it is found that notice and opportunity for public prior comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting immediate flight safety and, thus, was not preceded by notice and opportunity to comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the

Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this request must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 95–CE–58–AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that must be issued immediately to correct an unsafe condition in aircraft, and is not a significant regulatory action under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket (otherwise, an evaluation is not required). A copy of it, if filed, may be obtained from the Rules Docket.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

95–19–07 Fairchild Aircraft: Amendment 39–9369; Docket No. 95–CE–58–AD.

Applicability: Models SA226–T, SA226–AT, SA226–TC, SA226–T(B), SA227–AC, SA227–AT, SA227–BC, SA227–TT, SA227–CC, and SA227–DC airplanes (all serial numbers), certificated in any category, that are equipped with one or more of the following:

1. Main landing gear part number (P/N) OAS5453–*(dash numbers 1 through 19) with either a P/N 5453005–1, 5453005–3, or 5453005–5 yoke installed; or

2. Nose landing gear P/N OAS5451–*(dash numbers 1 through 17) with a P/N 5451005–1 yoke installed.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required initially as follows and thereafter as indicated in the body of this AD:

1. Within the next 75 hours time-in-service (TIS) after the effective date of this AD, unless already accomplished; and

2. Upon the installation of one of the affected main landing gear or nose landing gear assemblies or yokes.

To prevent main landing gear or nose landing gear failure caused by stress corrosion cracks of the yoke, which, if not detected and corrected, could result in loss of control of the airplane during landing operations, accomplish the following:

Note 2: The paragraph structure of this AD is as follows:

Level 1: (a), (b), (c), etc.
Level 2: (1), (2), (3), etc.
Level 3: (i), (ii), (iii), etc.

Level 2 and Level 3 structures are designations of the Level 1 paragraph they immediately follow.

(a) Inspect, using ultrasonic methods, the left-hand and right-hand main landing gear and the nose landing gear yoke for stress corrosion cracking in accordance with one of the following, as applicable:

(1) The ACCOMPLISHMENT INSTRUCTIONS section of Fairchild Service Bulletin (SB) 226–32–065, Issued: August 16, 1995.

(2) The ACCOMPLISHMENT INSTRUCTIONS section of Fairchild SB 227–32–039, Issued: August 16, 1995.

(3) The ACCOMPLISHMENT INSTRUCTIONS section of Fairchild SB CC7–32–007, Issued: August 16, 1995.

(b) Reinspect or replace the right-hand or left-hand main landing gear or nose landing gear yoke as follows based on the results of any required inspection:

(1) If no cracks are found or a crack is found that is less than .25 inch, accomplish the following:

(i) Prior to further flight after the inspection required by paragraph (a) of this AD, clean the main landing gears and nose landing gear yoke and piston in accordance with Figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD;

(ii) Prior to further flight after the inspection required by paragraph (a) of this AD, apply a small bead of Products Research and Chemical Corporation PR–1422 or PR–1435 sealant to the main landing gears and nose landing gear yoke as shown in Figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD, and as described in the SA226/227 Series Service Repair Manual, Chapter 51–30–03, Standard Practices—Sealing; and

(iii) Reinspect at intervals not to exceed 2,000 hours TIS provided no cracks are found that are .25 inch or more in length.

(2) If a crack is found with a length of .25 inch or more but not more than .50 inch, reinspect at intervals not to exceed 1,000 hours TIS provided the crack is no longer than .50 inch.

(3) If a crack is found with a length more than .50 inch but not more than .75 inch, reinspect at intervals not to exceed 500 hours TIS provided the crack is no longer than .75 inch.

(4) If a crack is found with a length more than .75 inch but not more than 1 inch, reinspect at intervals not to exceed 200 hours TIS provided the crack is no longer than 1 inch.

(5) If a crack is found with a length more than 1 inch but not more than 1.5 inches, accomplish the following:

(i) Within 100 hours TIS after the inspection required by paragraph (a) of this AD, replace the cracked part with a new part in accordance with the applicable maintenance manual. This may be accomplished by replacing the cracked yoke, the total gear assembly, or the yoke/cylinder combination;

(ii) Prior to further flight after replacing the cracked part, clean the main landing gears and nose landing gear yoke and piston in accordance with figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD;

(iii) Prior to further flight after replacing the cracked part, apply a small bead of Products Research and Chemical Corporation PR–1422 or PR–1435 sealant to the main landing gears and nose landing gear yoke as shown in Figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD, and as described in the SA226/227 Series Service Repair Manual, Chapter 51–30–03, Standard Practices—Sealing; and

(iv) Repeat the inspections specified in paragraphs (a) and (b) of this AD and replace the part as required.

(6) If a crack is found with a length more than 1.5 inches, accomplish the following:

(i) Prior to further flight after the inspection required by paragraph (a) of this AD, replace the cracked part with a new part in accordance with the applicable maintenance manual. This may be accomplished by replacing the cracked yoke, the total gear assembly, or the yoke/cylinder combination;

(ii) Prior to further flight after replacing the cracked part, clean the main landing gears and nose landing gear yoke and piston in accordance with figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD;

(iii) Prior to further flight after replacing the cracked part, apply a small bead of Products Research and Chemical Corporation PR–1422 or PR–1435 sealant to the main landing gears and nose landing gear yoke as shown in Figure 2 of the service bulletins referenced in paragraphs (a)(1), (a)(2), and (a)(3) of this AD, and as described in the SA226/227 Series Service Repair Manual, Chapter 51–30–03, Standard Practices—Sealing; and

(iv) Repeat the inspections specified in paragraphs (a) and (b) of this AD and replace the part as required.

(7) If multiple cracks are found, add the total length of the cracks and use the criteria presented in paragraphs (b)(1) through (b)(6) of this AD, including all subparagraph designations, to establish repetitive inspection intervals or replacement times.

(c) The MLG and NLG yokes affected by this AD are manufactured by Ozone Industries, Inc. Replacing these yokes with approved parts manufactured by Fairchild Aircraft eliminates the repetitive inspection requirements of this AD.

(d) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Airplane Certification Office (ACO), FAA, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Fort Worth ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Fort Worth ACO.

(f) The inspections required by this AD shall be done in accordance with Fairchild Aircraft Service Bulletin 226–32–065, Issued: August 16, 1995, Fairchild Aircraft Service Bulletin 227–32–039, Issued: August 16, 1995, or Fairchild Aircraft Service Bulletin CC7–32–007, Issued: August 16, 1995, as applicable. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Fairchild Aircraft, P.O. Box 790490, San Antonio, Texas 78279–0490. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street NW., 7th Floor, suite 700, Washington, DC.

(g) This amendment (39–9369) becomes effective on September 28, 1995.

Issued in Kansas City, Missouri, on September 6, 1995.

Gerald W. Pierce,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

14 CFR Part 39

[Docket No. 95–NM–149–AD; Amendment 39–9372; AD 95–19–10]

Airworthiness Directives; Boeing Model 767 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to all Boeing Model 767 series airplanes. This action requires operators to perform visual inspections of the outer cylinder aft trunnion on the main landing gear to determine if the fillet seal is cracked or missing. This action also requires operators to inspect for evidence of corrosion in this location. Finally, this action prescribes the procedures that operators must follow if corrosion is found. This amendment is prompted by several reports of fractures of the outer cylinder aft trunnion due to stress corrosion cracking. The actions specified in this AD are intended to ensure that corrosion is not present in this location, thereby preventing future failures due to stress corrosion cracking.

DATES: Effective September 29, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 29, 1995.

Comments for inclusion in the Rules Docket must be received on or before November 13, 1995.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 95–NM–149–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056.

The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: James G. Rehrl, Aerospace Engineer, Airframe Branch, ANM–120S, FAA, Seattle Aircraft Certification Office, 1601 Lind Avenue, SW., Renton, Washington; telephone (206) 227–2783; fax (206) 227–1181.

SUPPLEMENTARY INFORMATION: The FAA has received reports of fractures of the outer cylinder of the aft trunnion of the main landing gear (MLG) on three Boeing Model 767 series airplanes. One of the three airplanes was six years old and had accumulated 28,887 total flight hours; another was six years old and had accumulated 25,841 total flight hours; and the third was eight years old and had accumulated 27,177 total flight hours. All of these airplanes were equipped with the original MLG, none of which had been overhauled at the time of the failure. Investigation revealed that in each case, moisture had entered the area between the outer cylinder of the MLG and a mating bushing. The effects of such moisture subsequently caused stress corrosion cracking. This condition, if not detected and corrected in a timely manner, could cause more fractures of the outer cylinder of the aft trunnion, which could result in the loss of the MLG.

The FAA has reviewed and approved Boeing Service Letter 767–SL–32–067, dated August 4, 1995, which describes the following procedures:

1. Performing repetitive visual inspections to determine if the fillet seal of the outer cylinder aft trunnion is cracked or missing;

2. Removing the fillet seal, solvent-cleaning the adjacent area, applying corrosion inhibiting compound (CIC),

and visually inspecting to detect corrosion, if any fillet seal is found cracked or missing; and

3. Re-applying CIC and greasing, if no corrosion is detected, or repairing the aft trunnion, if any corrosion is detected. Accomplishment of this repair eliminates the need for the repetitive inspections.

Since an unsafe condition has been identified that is likely to exist or develop on other Boeing Model 767 series airplanes of the same type design, this AD is being issued to prevent stress corrosion cracking, which could result in fractures of the outer cylinder aft trunnion and the subsequent loss of the MLG. This AD requires visual inspections to determine if the fillet seal of the outer cylinder aft trunnion is cracked or missing, and the correction of any discrepancy or follow-on actions, if necessary. Repairing the aft trunnion constitutes terminating action for the repetitive inspection requirements. The actions are required to be accomplished in accordance with the service letter described previously.

Operators should note that this AD requires repetitive application of CIC and grease every 500 flight hours, rather than at the 2A check interval (1,000 flight hours), as recommended in the service letter. In developing an appropriate compliance time for this action, the FAA considered not only the degree of urgency associated with addressing the subject unsafe condition, but the susceptibility of the subject area to a high velocity of water spray (such as, landing on wet runways, high pressure washing, etc.), which could lead to the accumulation of water and subsequent stress corrosion cracking of the outer cylinder of the aft trunnion.

The FAA considers this AD to be interim action. The manufacturer has advised that it is developing a modification that will prevent future occurrences of this unsafe condition. Once this modification is developed, approved, and available, the FAA may consider additional rulemaking.

As a result of recent communications with the Air Transport Association (ATA) of America, the FAA has learned that, in general, some operators may misunderstand the legal effect of AD's on airplanes that are identified in the applicability provision of the AD, but that have been altered or repaired in the area addressed by the AD. The FAA points out that all airplanes identified in the applicability provision of an AD are legally subject to the AD. If an airplane has been altered or repaired in the affected area in such a way as to affect compliance with the AD, the owner or operator is required to obtain FAA approval for an alternative method of compliance with the AD, in accordance with the paragraph of each AD that provides for such approvals. A note has been included in this rule to clarify this long-standing requirement.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and opportunity for prior public comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified under the caption ADDRESSES. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 95–NM–149–AD." The postcard will be date-stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation that must be issued immediately to correct an unsafe condition in aircraft, and that it is not a "significant regulatory action" under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption ADDRESSES.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

95–19–10 Boeing: Amendment 39–9372. Docket 95–NM–149–AD.

Applicability: All Model 767 series airplanes, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must use the authority provided in paragraph (d) of this AD to request approval from the FAA. This approval may address either no action, if the current configuration eliminates the unsafe condition; or different actions necessary to address the unsafe condition described in this AD. Such a request should include an assessment of the effect of the changed configuration on the unsafe condition

addressed by this AD. In no case does the presence of any modification, alteration, or repair remove any airplane from the applicability of this AD.

Compliance: Required as indicated, unless accomplished previously.

To prevent stress corrosion cracking, which could result in fractures of the outer cylinder aft trunnion and the subsequent loss of the main landing gear (MLG), accomplish the following:

(a) Within 5–½ years since the last overhaul of the MLG or since the date of manufacture of the MLG (for MLG's that have not been overhauled), or within 60 days after the effective date of this AD, whichever occurs later: Perform a visual inspection to determine if the fillet seal of the outer cylinder aft trunnion is cracked or missing, in accordance with Boeing Service Letter 767–SL–32–067, dated August 4, 1995. For the purposes of this AD, fillet seals are not considered to be "cracked" if cracks are found in the fillet seal paint only (where the fillet seal itself is not cracked).

(b) If no cracked fillet seal is found during the inspection required by paragraph (a) of this AD, repeat the inspection thereafter at intervals not to exceed 18 months.

(c) If any fillet seal is found to be cracked or missing during the inspection required by paragraph (a) of this AD, prior to further flight, remove the fillet seal (if present), clean the adjecent area with a solvent, apply corrosion inhibiting compound (CIC), and perform a visual inspection to detect corrosion, in accordance with Boeing Service Letter 767–SL–32–067, dated August 4, 1995.

(1) If no corrosion is detected, prior to the accumulation of 500 flight hours, reapply CIC and grease in accordance with the service letter. Thereafter, repeat the application of CIC and grease at intervals not to exceed 500 flight hours.

(2) If any corrosion is detected, prior to further flight, repair the aft trunnion in accordance with the service letter. Accomplishment of this repair constitutes terminating action for the repetitive inspection requirements of this AD.

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) The actions shall be done in accordance with Boeing Service Letter 767–SL–32–067, dated August 4, 1995. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

(g) This amendment becomes effective on September 29, 1995.

Issued in Renton, Washington, on September 7, 1995.

D. L. Riggin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–U

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 230 and 240

[Release Nos. 33–7211; 34–36190]

Confidential Treatment Rules

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission is modifying a procedural requirement concerning the number of unredacted copies of material filed with the Secretary of the Commission by issuers applying for a grant of confidential treatment. This modification reduces the number of unredacted copies from three or more copies to one copy.

EFFECTIVE DATE: October 16, 1995.

FOR FURTHER INFORMATION CONTACT: John Bernas at (202) 942–2915 or L. Jacob Fien-Helfman at (202) 244–2997, Division of Corporation Finance, U.S. Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Commission today announces the adoption of amendments to Rule 406[1] under the Securities Act of 1933 ("the Securities Act")[2] and Rule 24b–2[3] under the Securities Exchange Act of 1934 ("the Exchange Act")[4]. Each rule is being revised for the limited purpose of reducing to one copy the unredacted material required to accompany a request for confidential treatment pursuant to either rule. In the case of Rule 406, the filing person is currently required to submit with the request for confidential treatment "as many copies of the confidential portion, each clearly marked 'Confidential Treatment,' as there are copies of the material filed with the Commission." In the case of Rule 24b–2, the filing person is currently required to submit with the request for confidential treatment "as many copies of the confidential portion, each clearly marked 'Confidential Treatment,' as there are copies of the material filed with the Commission and with any exchange where such material is required to be filed."[5] Today's change in Rule 406 and Rule 24b–2 reduces the number of unredacted copies that are required to be submitted to the Secretary of the Commission with the request for confidential treatment to one copy in all circumstances.[6]

It is anticipated that these revisions will reduce the volume of paper processed and discarded by the Staff without reducing the Division's ability to process filings. This reduction should also increase security for confidential materials since the staff would handle only one unredacted copy. These revisions do not change the number of redacted copies of the materials required to be filed with the Commission's file desk.

These amendments relate solely to "agency organization, procedure or practice." Consequently, their promulgation is not subject to the notice and comment requirements of the Administrative Procedures Act;[7] similarly, this rule making is not subject to the requirements of the Regulatory Flexibility Act.[8]

Statutory Basis

The amendments are being adopted pursuant to Section 19 of the Securities Act and Section 23 of the Exchange Act.

List of Subjects in 17 CFR Parts 230 and 240

Registration requirements; Reporting and recordkeeping requirements; Confidential treatment; Securities.

Text of the Amendment

In accordance with the foregoing, Title 17, Chapter II of the Code of Federal Regulations is amended as follows:

---

[1] 17 CFR 230.406.

[2] 15 U.S.C. 77a *et. seq.*

[3] 17 CFR 240.24b–2.

[4] 15 U.S.C. 78a *et. seq.*

[5] Non-EDGAR filers currently are required to file three or more copies of filed material (See 17 CFR 229.406 and 17 CFR 240.12b–11) while EDGAR filers are required to file one copy of such materials (See 17 CFR 232.309(b)).

[6] In those instances when an application is denied, a prior grant revoked, or the information otherwise made public, the staff practice is to request that the applicant amend the initial filing to disclose the previously redacted information by contemporaneously filing the required number of copies without redactions.

[7] 5 U.S.C. 553(b).

[8] 5 U.S.C. 603, 604.

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

1. The authority citation for Part 230 continues to read, in part, as follows:

Authority: 15 U.S.C. 77b, 77f, 77g, 77h, 77j, 77s, 77sss, 78c, 78*l*, 78m, 78n, 78o, 78w, 78*ll*(d), 79t, 80a–8, 80a–29, 80a–30, and 80a–37, unless otherwise noted.

* * * * *

2. By amending § 230.406 by revising paragraphs (b)(1) and (b)(3), to read as follows:

§ 230.406 Confidential treatment of information filed with the Commission.

* * * * *

(b) * * *

(1) One copy of the confidential portion, marked "Confidential Treatment," of the material filed with the Commission. The copy shall contain an appropriate identification of the item or other requirement involved and, notwithstanding that the confidential portion does not constitute the whole of the answer or required disclosure, the entire answer or required disclosure, except that in the case where the confidential portion is part of a financial statement or schedule, only the particular financial statement or schedule need be included. The copy of the confidential portion shall be in the same form as the remainder of the material filed;

* * * * *

(3) The copy of the confidential portion and the application filed in accordance with this paragraph (b) shall be enclosed in a separate envelope marked "Confidential Treatment" and addressed to The Secretary, Securities and Exchange Commission, Washington, DC 20549.

* * * * *

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

3. The authority citation for part 240 continues to read, in part, as follows:

Authority: 15 U.S.C. 77c, 77d, 77g, 77j, 77s, 77eee, 77ggg, 77nnn, 77sss, 77ttt, 78c, 78d, 78i, 78j, 78*l*, 78m, 78n, 78o, 78p, 78q, 78s, 78w, 78x, 78*ll*(d), 79q, 79t, 80a–20, 80a–23, 80a–29, 80a–37, 80b–3, 80b–4 and 80b–11, unless otherwise noted.

* * * * *

4. By amending § 240.24b–2 by revising paragraph (b)(1), designating the flush text following paragraph (b)(2) as paragraph (b)(3), and revising newly designated paragraph (b)(3) to read as follows:

§ 240.24b–2 Nondisclosure of information filed with the Commission and with any exchange.

* * * * *

(b) * * *

(1) One copy of the confidential portion, marked "Confidential Treatment," of the material filed with the Commission. The copy shall contain an appropriate identification of the item or other requirement involved and, notwithstanding that the confidential portion does not constitute the whole of the answer, the entire answer thereto; except that in the case where the confidential portion is part of a financial statement or schedule, only the particular financial statement or schedule need be included. The copy of the confidential portion shall be in the same form as the remainder of the material filed;

* * * * *

(3) The copy of the confidential portion and the application filed in accordance with this paragraph (b) shall be enclosed in a separate envelope marked "Confidential Treatment" and addressed to The Secretary, Securities and Exchange Commission, Washington, DC 20549.

* * * * *

Dated: September 7, 1995.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

[SPATS No. IN–123–FOR; State Amendment No. 95–2]

Indiana Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is approving a proposed amendment to the Indiana permanent regulatory program (hereinafter referred to as the "Indiana program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Indiana proposes to revise revegetation standards for success for nonprime farmland for surface and underground coal mining and reclamation operations under Indiana Code (IC) 13–4.1. The amendment is intended to improve operational efficiency.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. Roger W. Calhoun, Director, Indianapolis Field Office, Office of Surface Mining Reclamation and Enforcement, Minton-Capehart Federal Building, 575 North Pennsylvania Street, Room 301, Indianapolis, Indiana 46204, Telephone (317) 226–6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program.
II. Submission of the Amendment.
III. Director's Findings.
IV. Summary and Disposition of Comments.
V. Director's Decision.
VI. Procedural Determinations.

I. Background on the Indiana Program

On July 29, 1982, the Secretary of the Interior conditionally approved the Indiana program. Background information on the Indiana program, including the Secretary's findings, the disposition of comments, and the conditions of approval can be found in the July 26, 1982, **Federal Register** (47 FR 32107). Subsequent actions concerning the conditions of approval and program amendments can be found at 30 CFR 914.10, 914.15, and 914.16.

II. Submission of the Amendment

By letter dated May 3, 1995 (Administrative Record No. IND–1460), Indiana submitted a proposed amendment to its program pursuant to SMCRA. Indiana submitted the proposed amendment at its own initiative. This amendment revises 310 IAC 12–5–64.1 and 310 IAC 12–5–128.1 pertaining to success standards for revegetation on nonprime farmland for surface and underground coal mining operations under IC 13–4.1.

OSM announced receipt of the proposed amendment in the May 30, 1995, **Federal Register** (60 FR 28069), and in the same document opened the public comment period and provided an opportunity for a public hearing on the adequacy of the proposed amendment. The public comment period closed on June 29, 1995.

III. Director's Findings

Set forth below, pursuant to SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are the Director's findings concerning the proposed amendment.

310 IAC 12–5–64.1 (Surface) and 12–5–128.1 (Underground) Revegetation Standards for Success for Nonprime Farmland

Since the revisions being proposed for surface mining at § 12–5–64.1(c) are

identical to those being proposed for underground mining at § 12–5–128.1(c), they will be combined for ease of discussion. These subsections provide the standards for success which are to be applied under the approved postmining land uses.

1. *Organizational and Reference Changes.* Indiana proposes paragraph notation changes to reflect the organizational changes made throughout subsections (c). Additionally, Indiana proposes revisions throughout subsections (c) to correct the reference to the "Soil Conservation Service" to the "Natural Resources Conservation Service."

The Director finds the organizational changes and the correction of the reference do not render the Indiana regulations at 310 IAC 12–5–64.1/128.1 less effective than the Federal regulations at 30 CFR 816/817.116.

2. *Subsections (c)(3)(B); Pastureland Production Success Standards.* Subsection (c)(3)(B) concern the production success standards for revegetated pastureland areas. Indiana is proposing to relocate the provision in existing subsections (c)(4), which requires that if the current Natural Resources Conservation Service predicted yield by soil map units is used to determine production of living plants, then the standard for success shall be a weighted average of the predicted yields for each unmined soil type which existed on the permit areas at the time the permit was issued, to subsections (c)(3)(B).

The Director finds this organizational change does not render the Indiana regulations less effective than the Federal regulations and is approving this modification.

3. *Subsections (c)(3)(C); Pastureland Production Success Standards Methodology.* Indiana is proposing to delete the existing provision in subsections (c)(3)(C) for determining production of living plants on pastureland and is proposing to add the following provision.

> (C) A target yield determined by the following formula: Target Yield = NRCS Target Yield × (CCA/10 Year CA) where: NRCS Target Yield = the average yield per acre, as predicted by the Natural Resources Conservation Service, for the crop and the soil map units being evaluated. The most current yield information at the time of permit issuance shall be used, and shall be contained in the appropriate sections of the permit application. CCA = the county average for the crop for the year being evaluated as reported by the United States Department of Agriculture crop reporting service, the Indiana Agricultural Statistics Service. 10 Year CA = the ten (10) Year Indiana Agricultural Statistics Service county average, consisting of the year being evaluated and the nine (9) preceding years.

The Federal regulations at 30 CFR 816/817.116(a)(2) require that standards for success shall include criteria representative of unmined lands in the area being reclaimed to evaluate the appropriate vegetation parameters of ground cover, production, or stocking. As discussed in the May 29, 1992, **Federal Register** (57 FR 22655), Indiana's average county yield data contains data of yields form previously mined lands. In letters dated February 26, 1992 (Administrative Record No. IND–1036 and IND–1037), OSM asked Indiana to clarify the use of this data. In letters dated March 20, 1992 (Administrative Record No. IND–1051 and IND–1052), Indiana stated that the amount of previously mined acreage being farmed is so limited that the inclusion of these yields essentially has no impact upon the overall yields calculated for the county average. Indiana also stated that it used the average county yield data as a weather correction factor applied to predicted soil mapping unit yields.

In the May 29, 1992, **Federal Register** (57 FR 22655, finding No. 1.c.), the Director found that the use of the Indiana average county yield data as the sole standard for determining success of revegetation would be less effective then the Federal regulations at 30 CFR 816/817.116.(a)(2). However, the Director found that the use of Indiana's average county yield data as a correction factor would not be inconsistent with the Federal regulations.

The currently proposed methodology is an acceptable way to calculate production standards for non-prime farmland pastureland. This method adjusts the weighted production standard based on soil type by using a factor derived by the county average and an average of the historical county average. The weighted production standard is already approved in the Indiana program and the adjustment of this standard by county average data is reasonable. Thus the Director finds that the proposed method for calculating success standards on nonprime farmland pasture at 310 IAC 12–5–64.1/128.1(c)(3)(C) is no less effective than the Federal requirements for success standards at 30 CFR 816/817.116(a)(2).

4. *Subsection (c)(3)(D)/(c)(5)(D); Other Success Standards.* Indiana is proposing to revise the language in the provisions moved from subsections (c)(3)(C) and (c)(5)(C) to new subsections (c)(3)(D) and (c)(5)(D), respectively. These provisions allow other success standards approved by the director of the Indiana Department of Natural Resources (IDNR) to be used in determining success of production of living plants on revegetated nonprime farmland pasture land and cropland areas. The provisions in (c)(3)(C) and (c)(5)(C) were previously approved by OSM on May 29, 1992 (57 FR 22655). The proposals would change the words "Other success standards" to "Other methods." The "methods" referred to are methods to determine success standards. Therefore, the modifications to the relocated provisions at (c)(3)(D) and (c)(5)(D) are not substantial changes from what was previously approved at (c)(3)(C) and (c)(5)(C).

The Federal regulations at 30 CFR 816/817.116(a)(1) require that standards for success and statistically valid sampling techniques for measuring success shall be selected by the regulatory authority and included in an approved regulatory program. In letters dated March 20, 1992 (Administrative Record Nos. IND–1051 and IND–1052), Indiana stated that the IDNR will request approval by OSM for other standards prior to their use in the Indiana program if they vary significantly from the approved standards.

Based on the above discussion, the Director is approving the provisions at 310 IAC 12–5–64.1/128.1(c)(3)(D) and 12–5–64.1/128.1(c)(5)(D).

5. *Redesignations.* Existing subsections (c)(5) are redesignated subsections (c)(4) without any changes to the provisions. These subsections concern stocking levels and success standards for vegetation on areas to be developed as shelter belts or for fish and wildlife habitat, recreation or forestry land use.

Existing subsections (c)(6) are redesignated subsections (c)(5) with changes. The changes to redesignated (c)(5) are discussed in finding No. 4 and finding No. 6. These subsections concern the success standards for production on revegetated cropland areas.

Existing subsections (c)(7) are redesignated subsections (c)(6). Indiana is proposing to relocate the provision in existing subsections (c)(7), which requires that if the current Natural Resources Conservation Service predicted yield by soil map units is used to determine production of living plants then the standard for success shall be a weighted average of the predicted yields for each unmined soil type which existed on the permit areas at the time the permit was issued, to redesignated subsections (c)(5)(B). Indiana is also proposing to redesignate from existing subsections (c)(7) to subsections (c)(5)(E) the provision which requires that once the method for establishing the standards has been selected, it may not be modified without the approval of the director of IDNR.

Existing subsections (c)(8) are redesignated subsections (c)(7) without change. These subsections concern revegetation success where barren areas exist within an area under evaluation.

The Director finds the proposed redesignations do not render the Indiana regulations less effective than the Federal regulations.

6. *Subsections (c)(5); Cropland Production Success Standards Methodology.* Indiana is proposing to delete the provision in existing subsections (c)(6)(C) for determining production of living plants on cropland and is proposing to add the following provision to redesignated subsections (c)(5)(C).

> (C) A target yield determined by the following formula: Target Yield = CCA × (NRCSP/NRCSC) where: CCA = the county average for the crop for the year being evaluated as reported by the United States Department of Agriculture crop reporting service, the Indiana Agricultural Statistics Service. NRCSP = the weighted average of the current Natural Resources Conservation Service predicted yield for each croppable, unmined soil which existed on the permit at the time the permit was issued. NRCSC = the weighted average of the current Natural Resources Conservation Service predicted yield for each croppable, unmined soil which is shown to exist in the county on the most current county soil survey. A croppable soil is any soil which the Natural Resources Conservation Service has defined as being in capability class I, II, III, or IV.

The Federal regulations at 30 CFR 816/817.116(a)(2) require that standards for success shall include criteria representative of unmined lands in the area being reclaimed to evaluate the appropriate vegetation parameters of ground cover, production, or stocking. The above discussion in finding No. 3, pertaining to Indiana's average county yield data containing data of yields from previously mined lands is also relevant to this proposed revision. As discussed in finding No. 3, the Director had previously found that the use of Indiana's average county yield data as a correction factor was not inconsistent with the Federal regulations.

Indiana's currently proposed methodology would modify the county average by a factor that uses the NRCS predicted standard for permitted unmined soils and a NRCS predicted standard that excludes mined land. Therefore, the Director is approving the provisions proposed at 310 IAC 12–5–64.1/128.1(c)(5)(C).

IV. Summary and Disposition of Comments

Public Comments

The Director solicited public comments and provided an opportunity for a public hearing on the proposed amendment. No public comments were received, and because no one requested an opportunity to speak at a public hearing, no hearing was held.

Federal Agency Comments

Pursuant to 30 CFR 732.17(h)(11)(i), the Director solicited comments on the proposed amendment from various Federal agencies with an actual or potential interest in the Indiana program. No comments were received from these agencies.

Environmental Protection Agency (EPA)

Pursuant to 30 CFR 732.17(h)(11)(ii), OSM is required to obtain the written concurrence of the EPA with respect to those provisions of the proposed program amendment that relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*). The Director has determined that this amendment contains no provisions in these categories and that EPA's concurrence is not required.

Pursuant to 732.17(h)(11)(i), OSM solicited comments on the proposed amendment from EPA. On June 15, 1995 (Administrative Record No. IND–1489), EPA responded that it concurred on the proposed amendment without comment.

State Historical Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Pursuant to 30 CFR 732.17(h)(4), OSM solicited comments on the proposed amendment from the SHPO and ACHP. No comments were received.

V. Director's Decision

Based on the above findings, the Director approves the proposed amendment as submitted by Indiana on May 3, 1995.

The Director approves, as discussed in: finding No. 3, the provisions at 310 IAC 12–5–64.1/128.1(c)(3)(C), concerning a methodology for determining the success of production of living plants on nonprime pasture land areas; finding No. 4, the provisions at 310 IAC 12–5–64.1/128.1(c)(3)(D) and 12–5–64.1/128.1(c)(5)(D), concerning the director of IDNR's approval of other success standards to be used in determining success of production of living plants on revegetated nonprime farmland pasture land and cropland areas; finding No. 6, 310 IAC 12–5–64.1/128.1(c)(5)(C), concerning a methodology for determining the success of production of living plants on nonprime cropland areas.

The Federal regulations at 30 CFR Part 914, codifying decisions concerning the Indiana program, are being amended to implement this decision. This final rule is being made effective immediately to expedite the State program amendment process and to encourage States to bring their programs into conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

Effect of Director's Decision

Section 503 of SMCRA provides that a State may not exercise jurisdiction under SMCRA unless the State program is approved by the Secretary. Similarly, 30 CFR 732.17(a) requires that any alteration of an approved State program be submitted to OSM for review as a program amendment. The Federal regulations at 30 CFR 732.17(g) prohibit any unilateral changes to approved State programs. In the oversight of the Indiana program, the Director will recognize only the statutes, regulations and other materials approved by OSM, together with any consistent implementing policies, directives and other materials, and will require the enforcement by Indiana of only such provisions.

VI. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

List of Subjects in 30 CFR Part 914

Intergovernmental relations, Surface mining, Underground mining.

Dated: September 7, 1995.

Brent Wahlquist,

Regional Director, Mid-Continent Regional Coordinating Center.

For the reasons set out in the preamble, Title 30, Chapter VII, Subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 914—INDIANA

1. The authority citation for Part 914 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 914.15 is amended by adding paragraph (kkk) to read as follows:

§ 914.15 Approval of regulatory program amendments.

* * * * *

(kkk) The following rules, as submitted to OSM on May 3, 1995, are approved effective September 14, 1995:

310 IAC 12–5–64.1(c) and 310 IAC 12–5–128.1(c) concerning standards for success for nonprime farmland for surface and underground coal mining reclamation operations.

[FR Doc. 95–22866 Filed 9–13–95; 8:45 am]

BILLING CODE 4310-05-M

---

30 CFR Part 944

Utah Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is approving a proposed amendment to the Utah permanent regulatory program (hereinafter referred to as the "Utah program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Utah proposed revisions to its rules pertaining to normal husbandry practices and the Utah "Vegetation Information Guidelines." The amendment is intended to revise the Utah program to improve operational efficiency.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Richard J. Seibel, Telephone: (303) 672–5501.

SUPPLEMENTARY INFORMATION:

I. Background on the Utah Program

On January 21, 1981, the Secretary of the Interior conditionally approved the Utah program. General background information on the Utah program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Utah program can be found in the January 21, 1981, **Federal Register** (46 FR 5899). Subsequent actions concerning Utah's program and program amendments can be found at 30 CFR 944.15, 944.16 and 944.30.

II. Submission of Proposed Amendment

By letter dated February 6, 1994, Utah submitted a proposed amendment to its program (administrative record No. UT–1025) pursuant to SMCRA (30 U.S.C. 1201 *et seq.*). Utah submitted the proposed amendment at its own initiative. Utah proposed to revise its Coal Mining Rules at Utah Administrative Rule (Utah Admin. R.) 645–301–357.300 through 365 to specify normal husbandry practices that could be implemented without restarting the bond liability period. Utah also proposed to revise its "Vegetation Information Guidelines," by adding a bibliography of referenced publications for the proposed normal husbandry practices.

OSM announced receipt of the proposed amendment in the March 15, 1995, **Federal Register** (60 FR 13935), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. UT–1034). Because no one requested a public hearing or meeting, none was held. The public comment period ended on April 14, 1995.

Durings its review of the amendment, OSM identified concerns relating to the provisions of Utah Admin. R. 645–301–357.340, Utah Admin. R. 645–301–357.350, and Appendix C of Utah's "Vegetation Information Guidelines." OSM notified Utah of the concerns by letter dated May 23, 1995 (administrative record No. UT–1054). Utah responded in a letter dated June 5, 1995, by submitting a revised amendment that addressed OSM's concerns (administrative record No. UT–1059).

Based upon the revisions to the proposed program amendment submitted by Utah, OSM reopened the public comment period in the July 6, 1995, **Federal Register** (60 FR 35158; administrative record No. UT–1064). The public comment period closed on July 21, 1995.

III. Director's Findings

Utah submitted an amendment to its program revising Utah Admin. R. 645–301–357.300 through 645–301–357.356 to specify approved normal husbandry practices that could be implemented without restarting the period of extended responsibility for successful revegetation (bond liability period). Utah also proposed to revise its "Vegetation Information Guidelines," by adding Appendix C, a bibliography of referenced publications that support the proposed normal husbandry practices. OSM has previously approved Utah's "Vegetation Information Guidelines" (56 FR 41803, August 23, 1991).

The Federal regulations at 30 CFR 816.116(c)(1) and 817.116(c)(1) require that the period of extended responsibility for successful revegetation shall begin after the last year of augmented seeding, fertilizing, irrigation, or other work, excluding husbandry practices that are approved by the regulatory authority in accordance with the Federal regulations at 30 CFR 816.116(c)(4) and 817.116(c)(4). The Federal regulations at 30 CFR 816.116(c)(4) and 817.116(c)(4) allow the regulatory authority to select normal husbandry practices if such practices are expected to continue as part of the postmining land use or if discontinuance of the practices after the liability period expires will not reduce the probability of permanent revegetation success. Such practices must be normal husbandry practices within the region.

As discussed below, the Director, in accordance with SMCRA and 30 CFR 732.15 and 732.17, finds that the proposed program amendment submitted by Utah on February 6, 1995, and as revised by it on June 5, 1995, is no less effective than the Federal regulations at 30 CFR 816.116(c)(1) and (4) and 817.116(c)(1) and (4). Thus, the Director approves the proposed amendment. OSM's approval of the normal husbandry practices proposed at Utah Admin. R. 645–301–357.310 through 645–301–357.356 (findings Nos. 2 through 7 below) is predicated upon implementation of the general requirements proposed at Utah Admin. R. 645–301–357.301 through 645–301–357.304 (finding No. 1 below) for all normal husbandry practices.

1. Utah Admin. R. 645.301–357.300, General Requirements for Approval of Normal Husbandry Practices and Appendix C of Utah's "Vegetation Information Guidelines"

Utah proposed, at Utah Admin. R. 645–301–357.301 through 645–301–357.304, general requirements for mining and reclamation plan approval of normal husbandry practices. Utah identified in proposed Utah Admin. R. 645–301–357.310 through 645–301–357.365 (discussed in findings Nos. 2 through 7 below) normal husbandry practices that would not restart the bond liability period. Utah proposed to include as general requirements for all such practices (1) that the permittee demonstrate that husbandry practices proposed for a reclaimed area are not necessitated by inadequate grading practices, adverse soil conditions, or poor reclamation procedures, (2) that the permittee consider the total area within the bond increment when calculating the extent of area that may be treated by husbandry practices, and (3) if necessary to seed or plant in excess of the limits set forth in its proposed rules, a separate extended bond liability period for the reseeded or replanted areas. Utah's proposed Admin. R. 645–301–357.301 also includes the requirements that (1) approved practices must be normal practices for unmined lands within the region which have similar land uses, (2) discontinuance of the practices after the end of the bond liability period must not jeopardize permanent revegetation success, and (3) if a permittee proposes practices that are not identified in Utah's program, the additional practices would need to be approved as part of the Utah program in accordance with the Federal regulations at 30 CFR 732.17.

In addition, Utah proposed to revise its "Vegetation Information Guidelines," by adding Appendix C, a bibliography of referenced publications that support the normal husbandry practices proposed in Utah Admin. R. 645–301–357.

The Director finds that Utah's proposed Admin. R. 645–301–357.301 through 645–301–357.304 and Appendix C of Utah's "Vegetation Information Guidelines" are consistent with and no less effective than the Federal regulations concerning approval of normal husbandry practices at 30 CFR 816.116(c) (1) and (4) and 817.116(c) (1) and (4). The Director approves proposed Admin. R. 645–301–357.301 through 645–301–357.304 and Appendix C in Utah's "Vegetation Information Guidelines."

2. Utah Admin. R. 645–301–357.310 Through 645–301–357.312, Reestablishing Trees and Shrubs as a Normal Husbandry Practice

Utah proposed, at Utah Admin. R. 645–301–357.310 through 645–301–357.312, to allow as husbandry practices that would not restart the bond liability period: (1) Transplanting or reseeding 20 percent of the stocking rate for trees and shrubs during the first 40 percent, or through year 4, of the bond liability period; and (2) scalping of small areas in which to reseed shrubs, with the number of reseeded shrubs that can be counted towards success of revegetation limited to one per scalped area.

Utah Admin. R. 645–301–356.232 and the Federal regulations at 30 CFR 816.116(b)(3)(ii) and 817.116(b)(3)(ii) require that trees and shrubs used in determining the success of stocking shall (1) be adequate for the plant arrangement, (2) be healthy, and (3) have been in place for not less than two growing seasons. These regulations also require that, at the time of bond release, at least 80 percent of the trees and shrubs used to determine success shall have been in place for 60 percent of the applicable minimum period of responsibility ("the 80/60 requirement").

Because Utah's proposed rules state that only 20 percent of the stocking rate for trees and shrubs could be transplanted or reseeded through year 4 without restarting the liability period, Utah has ensured that trees and shrubs counted toward revegetation success have been in place for at least 6 years. This requirement exceeds the two growing season requirement and ensures that a determination of the 80/60 requirement can be made in accordance with Utah Admin. R. 645–301–356.232.

Therefore, the Director finds that Utah's proposed Admin. R.645–301–357.310 through 645–301–357.312 are consistent with the Federal regulations at 30 CFR 816.116(b)(3)(ii) and 817.116(b)(3)(ii) and are no less effective than the Federal regulations concerning approval of normal husbandry practices at 30 CFR 816.116(c) (1) and (4) and 817.116(c) (1) and (4). The Director approves proposed Utah Admin. R.645–301–357.310 through 645–301–357.312.

3. Utah Admin. R. 645–301–357.320 through 645–301–357.324, Chemical, Mechanical, and Biological Weed Control and its Associated Revegetation as a Normal Husbandry Practice

Utah proposed, at Utah Admin. R. 645–301–357.320 through 645–301–357.324, to allow as husbandry practices that would not restart the bond liability period: (1) Chemical weed control following the Weed Control Handbook, published by the Utah State University Cooperative Extension Service; (2) mechanical weed control such as hand roguing, grubbing, and mowing; and (3) biological weed control such as selective grazing. Utah proposed to require that biological control of weeds through disease, insects, or other agents must be approved on a case-by-case basis by Utah and other appropriate agencies which have the authority to regulate the introduction or use of biological control agents. In addition, (1) proposed Utah Admin. R. 645–301–357.320 allows weed control for noxious weeds through the entire liability period and through the first 2 years of the liability period for other weeds and (2) proposed Utah Admin. R. 645–301–357.324 allows up to a total of 15 percent of a reclaimed area during the first 2 years of the liability period to be reseeded or replanted of areas if necessary due to weed control. After the first 2 years of the liability period, no more than 3 percent of the reclaimed area may be reseeded in any single year and no reseeding or replanting due to weed control is allowed after the first 6 years of the liability period, or after Phase II bond release, whichever comes first, without restarting the bond liability period.

Because proposed Utah Admin. R. 645–301–357.320 allows control of only noxious weeds after the first 2 years of the bond liability period, Utah's proposed Admin. R. 645–301–357.324, allowing revegetation of areas damaged due to weed control after year 2 and through year 6 of the bond liability period, or through phase II bond release, applies only to the control of noxious weeds After year 6 of the bond liability period, or after phase II bond release, whichever comes first, any revegetation due to treatment of noxious or other weeds would restart the bond liability period. Prohibiting revegetation due to treatment of weeds after year 6 or after phase II bond release ensures that the permittee can demonstrate that the established vegetation is permanent and otherwise meets the general requirements for success of revegetation in the Federal regulations at 30 CFR 816.111 and 817.111.

The Director finds that Utah's proposed Admin. R. 645–301–357.320 through 645–301–357.324 are no less effective than the Federal regulations concerning approval of normal husbandry practices at 30 CFR 816.116(c) (1) and (4) and 817.116(c) (1) and (4). The Director approves proposed Admin. R. 645–301–357.320 through 645–301–357.324.

4. Utah Admin. R. 645–301–357.330 Through 645–301–357.332, Control of Pests Such as Big Game, Small Mammals, and Insects as a Normal Husbandry Practice

Utah proposed at Utah Admin. R. 645–301–357.330 through 645–301–357.332 to allow, as husbandry practices that would not restart the bond liability period, (1) control of big game and small mammals, approved on a case-by-case basis by Utah, the Utah Division of Wildlife Resources, and the appropriate land management agency or agencies, during the first 6 years of the liability period of until Phase II bond release, whichever comes first, and (2) control of insects throughout the liability period if it is determined, through consultation with an approval from the Utah Department of Agriculture or Cooperative Extension Service and the appropriate land management agency or agencies, that a specific practice is being performed on adjacent unmined lands.

Approvals by the Utah Division of Wildlife Resources, the appropriate land management agency or agencies, and/or the Utah Department of Agriculture or Cooperative Extension Service ensure that appropriate control methods will be used. Limiting such control to the first 6 years of the liability period or until phase II bond release allows the affected vegetation to become established. Prohibiting implementation of these control methods after year 6 or after phase II bond release ensures that the permittee can demonstrate that the established vegetation is permanent and otherwise meets the general requirements for success of revegetation in the Federal regulations at 30 CFR 816.111 and 817.111.

The Director finds that the Utah's proposed Admin. R. 645–301–357.330 through 645–301–357.332 are no less effective than the Federal regulations concerning approval of normal husbandry practices at 30 CFR 816.116(c) (1) and (4) and 817.116(c) (1) and (4). The Director approves proposed Admin. R. 645–301–357.320 through 645–301–357.324.

5. Utah Admin. R. 645–301–357.340 Through 645–301–357.343, Repair of Vegetation Due to Natural Disasters and Illegal Activities Occurring After Phase II Bond Release as a Normal Husbandry Practice

Utah proposed, at Utah Admin. R. 645–301–357.340 through 645–301–357.343, to allow as a husbandry practice that would not restart the liability period the seeding and planting of areas significantly affected by a natural disaster, such as wildfires, earthquakes, and mass movement originating outside the disturbed area but excluding climatic variation; or illegal activities, such as vandalism, which are not caused by any lack of planning, design, or implementation of the mining and reclamation plan on the part of the permittee. In addition, Utah will only allow such repair if the damage occurs after phase II bond release and requires that all applicable revegetation success standards must be achieved on the repaired areas.

Although Utah's proposed rules provide that repair of damaged revegetation caused by such natural disasters and illegal activities will not restart the liability period, the liability period may in fact be extended if the bond release area is not able to meet all applicable revegetation success standards. In addition, because Utah excluded climatic variation from consideration as a natural disaster, the permittee is not excused from demonstrating establishment of a diverse, effective, and permanent vegetative stand during normal periods of drought. Utah's allowance for such repair to occur without restarting the bond liability period after phase II bond release provides an incentive for permittees to seek and obtain phase II bond release.

Because the repair of vegetated areas would be necessitated on similar unmined land in the region if the same damage occurred, the Director finds that Utah's proposed Admin. R. 645–301–357.340 through 645–301–357.343 are not less effective than the Federal regulations concerning approval of normal husbandry practices at 30 CFR 816.116(c) (1) and (4) and 817.116(c) (1) and (4). The Director approves proposed Admin. R. 645–301–357.340 through 645–301–357.343.

6. Utah Admin. R. 645–301–357.350, Irrigation of Transplanted Trees and Shrubs as a Normal Husbandry Practice

Utah proposed, at Utah Admin. R. 645–301–357.350, to allow irrigation of transplanted trees and shrubs as a husbandry practice that would not restart the bond liability period. Utah also submitted a letter from the U.S. Forest Service, Department of Agriculture, dated April 8, 1994, documenting that irrigation of seedlings during the first growing season is a common practice in establishing trees and shrubs.

Utah demonstrated that irrigation of trees and shrubs is a common practice within the region for unmined lands having land similar to the approved postmining land use of the disturbed area. Because Utah limited irrigation of transplanted trees and shrubs to the first 2 years of the liability period, Utah has ensured that discontinuance of the practice will not effect the demonstration of permanent revegetation success.

The Director finds that Utah's proposed Admin. R. 645–301–357.350 is not less effective than the Federal regulations concerning approval of normal husbandry practices to 30 816.116(c) (1) and (4) and817.116(c) (1) and (4). The Director approves proposed Admin. R. 645–301–357.350.

7. Utah Admin. R. 645–301–357.360 Through 645–301–357.365, Highly Erodible Area and Rill and Gully Repair as a Normal Husbandry Practice

Utah proposed, at Utah Admin. R. 645–301–357.340 through 645–301–357.343, to allow as a husbandry practice that would not restart the liability period the repair of highly erodible areas and rills and gullies during the first 20 percent of the bond liability period, if the affected area comprises no more than 15 percent of the disturbed area and if no continuous area to be repaired is larger than one acre. Furthermore, Utah proposed that after the first 20 percent of the bond liability period but prior to the end of the first 60 percent of the liability period or until Phase II bond release (whichever comes first), the repair of any areas greater than 3 percent of the total disturbed area or any continuous area larger than 1 acre will be considered augmentative and will restart the liability period. After the end of the first 60 percent of the liability period or after Phase II bond release, and rill and gully repair would restart the liability period. Utah also submitted as copy or the U.S. Nation Resource Conservation Service (NRCS) Critical Area Planting Guide for the State of Utah.

Because Utah has clearly and reasonably defined when an operator must consider the repair of rills and gullies an augmentative practice that would restart the liability period and submitted NRCS documentation which demonstrates that the repair of rills and gullies are supported by NRCS as an acceptable land management technique for similar situations in the State of Utah, the Director finds that Utah's proposal for the repair or fills and gullies as a normal husbandry practice is not less effective than the Federal regulations at 30 CFR 816.116(c)(4) and 817.116(c)(4). The Director approves Utah Admin. R. 645–301–357.340 through 645–301–357.343.

IV. Summary and Disposition of Comments

Following are summaries of all substantive written comments on the proposed amendment that were received by OSM, and OSMs responses to them.

1. Public Comments

OSM invited public comments on the proposed amendment, but none were received.

2. Federal Agency Comments

Pursuant to 732.17(h)(11)(i), OSM solicited comments on the proposed amendment from various Federal agencies with an actual or potential interest in the Utah program.

The U.S. Bureau of Mines responded on March 10, 1985, that it has no comments on the proposed amendment (administrative record No. UT–1030).

The U.S. Army Corps of Engineers responded on March 15 and July 12, 1995, that it found the proposed amendment to be satisfactory (administrative record Nos. UT–1033 and UT–1069).

3. Environmental Protection Agency (EPA) Concurrence and Comments

Pursuant to 30 CFR 732.17(b)(11)(ii), OSM is required to solicit the written concurrence of EPA with respect to those provisions of the proposed program amendment that relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*).

None of the revisions that Utah proposed to make in its amendment pertain to air or water quality standards. Therefore, OSM did not request EPA's concurrence.

Pursuant to 732.17(h)(11)(i), OSM solicited comments on the proposed amendment from EPA (administrative record No. UT–1027). EPA did not responded to OSM's request.

4. State Historic Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Pursuant to 30 CFR 732.17(h)(4), OSM solicited comments on the proposed amendment from the SHPO and ACHP (administrative record No. UT–1027). Neither SHPO nor ACHP responded to OSM's request.

V. Director's Decision

Based on findings nos. 1 through 7, the Director approves the proposed amendment concerning normal husbandry practices as submitted by Utah on February 6, 1995, and as revised on June 5, 1995.

The Federal regulations at 30 CFR Part 944, codifying decisions concerning the Utah program, are being amended to implement this decision. This final rule is being made effective immediately to expedite the State program amendment process and to encourage States to bring their programs into conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

VI. Procedural Determinations

1. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 12550) and the Federal regulations at 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

3. National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. *et seq.*). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumption for the counterpart Federal regulations.

List of Subjects in 30 CFR Part 944

Intergovernmental relations, Surface mining, Underground mining.

Dated: September 6, 1995.

Richard J. Seibel,

Regional Director, Western Regional Coordinating Center.

For the reasons set out in the preamble, Title 30, Chapter VII, Subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 944—UTAH

1. The authority citation for Part 944 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 944.15 is amended by adding paragraph (gg) to read as follows:

§ 944.15 Approval of amendments to the Utah regulatory program.

* * * * *

(gg) The following revisions to or additions of the following sections of the Utah Administrative Rules (Utah Admin. R.) for Coal Mining, and the addition of Appendix C, to Utah's "Vegetation Information Guidelines," as submitted to OSM on February 6, 1995, and revised on June 5, 1995, are approved effective September 14, 1995.

30 CFR Part 950

Wyoming Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is approving a proposed amendment to the Wyoming regulatory program (hereinafter referred to as the "Wyoming program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Wyoming proposed revisions to its mining statute pertaining to procedures for notifying surface land owners, oil and gas well owners, and oil and gas lease holders, of proposed coal mining operations where the land, well, or lease is situated within or near the permit area in question. The amendment is intended to reduce the costs of the Wyoming program while retaining consistency with the corresponding Federal regulations and SMCRA.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Guy V. Padgett, Telephone: (307) 261–5824.

SUPPLEMENTARY INFORMATION:

I. Background on the Wyoming Program

On November 26, 1980, the Secretary of the Interior conditionally approved the Wyoming program. General background information on the Wyoming program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Wyoming program can be found in the November 26, 1980, **Federal Register** (45 FR 78637). Subsequent actions concerning Wyoming's program and program amendments can be found at 30 CFR 950.11, 950.12, 950.15, 950.16, and 950.20.

II. Proposed Amendment

By letter dated June 2, 1995, Wyoming submitted a proposed amendment to its program pursuant to SMCRA (administrative record No. WY–30–01). Wyoming submitted the proposed amendment at its own initiative. The provision of the Environmental, Quality Act that Wyoming proposed to revise is: Wyoming Statute (WS) 35–11–406(j), public notice procedures for permit applications.

OSM announced receipt of the proposed amendment in the June 14, 1995, **Federal Register** (60 FR 31265), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. WY–30–10). Because no one requested a public hearing or meeting, none was held. The public comment period ended on July 14, 1995.

III. Director's Findings

As discussed below, the Director, in accordance with SMCRA and 30 CFR 732.15 and 732.17, finds that the proposed program amendment submitted by Wyoming on June 2, 1995, is no less stringent than SMCRA. Accordingly, the Director approves the proposed amendment.

At WS 35–11–406(j), Wyoming provides (in part) requirements for mailing copies of the notice of a permit application to surface owners, operators of oil and gas wells, and lessees of record of oil and gas leases. The State proposes to revise these requirements by: (1) Clarifying that such mailings need to be done only for "* * * initial applications or additions of new lands * * *"; (2) deleting the requirement that the notice be mailed to oil and gas operators or holders of oil and gas leases; (3) adding a requirement that the applicant shall mail a copy of the mining plan map to the Wyoming Oil and Gas Commission; and (4) adding a requirement that a "sworn statement" of the mailing of the mining plan map become part of the application.

SMCRA, at Section 507(b)(6)—Application Requirements, requires that at the time of submission of an application, a copy of an advertisement that describes location and boundaries of the proposed cooperation, to be published in a local paper, be included in the application. Section 513—Public Notice and Public Hearings, additionally requires such an advertisement for a permit revision as well and further requires that the regulatory authority notify various local government bodies, planning agencies, etc. in the locality of the proposed surface mining.

SMCRA does not require an applicant to mail a copy of the newspaper notice to surface owners, gas or oil operators, or oil and gas lease holders. The proposed modifications to Wyoming's statute would provide for public notice requirements that go beyond the Federal program requirements. Further, these requirements are not in conflict with or inconsistent with SMCRA. The Director is therefore approving them.

IV. Summary and Disposition of Comments

Following are summaries of all substantive written comments on the proposed amendment that were received by OSM, and OSM's responses to them.

1. Public Comments

OSM invited public comments on the proposed amendment. None were received.

2. Federal Agency Comments

Pursuant to 30 CFR 732.17(h)(11)(i), OSM solicited comments on the proposed amendment from various Federal agencies with an actual or potential interest in the Wyoming program.

The Mine Safety and Health Administration (MSHA), (Denver, Colorado) responded that the amendment does not appear to conflict with any current MSHA regulations. (administrative record No. WY–30–09).

The Bureau of Land Management (BLM) expressed concern that the oil and gas operators or lessees would not be notified on new permits or where lands are added. The agency noted that occasionally conflicts between development of the two minerals (coal and oil/gas) have been encountered. BLM opposes the change to the present language unless there will be some mechanism in place for the Wyoming

Oil and Gas Commission to notify Operators of any potential conflict. (administrative record No. WY–30–11).

The State agency responsible for the issuance of oil and gas permits is the Wyoming Oil and Gas Commission. Notification by the State regulatory authority, to such agencies who have authority to issue licenses and permits, is required by the Federal program. Those agencies having knowledge of existing or potential conflicts within their areas of jurisdiction are responsible for submitting comments and/or taking other appropriate actions to avoid or resolve any conflicts. As discussed in the finding, the requirement to notify individual operators or lease holders of gas and oil interests goes beyond the requirements of the Federal program. OSM cannot require standards beyond those of the Federal program. However, if such standards are proposed by a State and are not in conflict or inconsistent with Federal Program requirements, they can be approved.

The U.S. Army Corps of Engineers responded that it found the changes to be satisfactory. (Administrative record No. WY–30–12).

The Mine Safety and Health Administration (Arlington, Virginia) responded that the amendment has no apparent impact upon miners' health and safety and that MSHA jurisdiction does not extend into State administrative requirements for reclamation permit applicants' public notices. (administrative record No. WY–30–13).

3. Environmental Protection Agency (EPA) Concurrence and Comments

Pursuant to 30 CFR 732.17(h)(11)(ii), OSM is required to solicit the written concurrence of EPA with respect to those provisions of the proposed program amendment that relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*).

On June 7, 1995, OSM solicited EPA's comments on the proposed amendment (administrative record No. WY–30–06). even though none of the revisions that Wyoming proposed to make in its amendment pertain to air or water quality standards. EPA did not respond to OSM's request.

4. State Historic Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP)

Pursuant to 30 CFR 732.17(h)(4), OSM solicited comments on the proposed amendment from the SHPO and ACHP (administrative record Nos. WY–30–04 and WY–30–03). The Wyoming Department of Commerce, Division of Cultural Resources (SHPO) responded on June 13, 1995, that it had no objections provided that OSM follows the procedures established in accordance with Section 106 of the National Historic Preservation Act and Advisory Council regulations at 36 CFR 800. As a Federal agency, OSM is obligated to follow the above requirements. (administrative record No. WY–30–08). The ACHP did not respond to OSM's request.

V. Director's Decision

Based on the above finding, the Director approves Wyoming's proposed amendment at WS 35–11–406(j), concerning public notice procedures for permit applications, as submitted on June 2, 1995.

The Federal regulations at 30 CFR part 950, codifying decisions concerning the Wyoming program, are being amended to implement this decision. This final rule is being made effective immediately to expedite the State program amendment process and to encourage States to bring their programs into conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

VI. Procedural Determinations

1. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and the Federal regulations at 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731, and 732 have been met.

3. National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et. seq.*).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

List of Subjects in 30 CFR Part 950

Intergovernmental relations, Surface mining, Underground mining.

Dated: September 5, 1995.

Richard J. Seibel,

Regional Director, Western Regional Coordinating Center.

For the reasons set out in the preamble, Title 30, Chapter VII, Subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 950—WYOMING

1. The authority citation for part 950 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 950.15 is amended by adding paragraph (w) to read as follows:

§ 950.15 Approval of amendments to the Wyoming regulatory program.

* * * * *

(w) revisions to WS 35–11–406(j) concerning public notice procedures for permit applications, as submitted to OSM on June 2, 1995, are approved effective September 14, 1995.

BILLING CODE 4310-05-M

National Park Service

36 CFR Part 7

RIN 1024–AC28

Pictured Rocks National Lakeshore; Hunting Closure

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: This rule closes certain developed and high visitor use areas of the lakeshore to hunting in the interest of public safety. Hunting in these developed and high visitor use areas constitutes a hazard to the safety of the visiting public.

EFFECTIVE DATE: This final rule becomes effective October 16, 1995.

FOR FURTHER INFORMATION CONTACT: Larry Hach, Chief of Visitor Services and Land Management, Pictured Rocks National Lakeshore, P.O. Box 40, Munising, MI 49862. Telephone (906) 387–2607.

SUPPLEMENTARY INFORMATION:

Background

Pictured Rocks National Lakeshore's legislative authority, Public Law 89–668 (80 Stat. 922), states "The Secretary, after consultation with the Michigan Department of Conservation, may designate zones and establish periods where and when no hunting shall be permitted for reasons of public safety, administration, or public use and enjoyment." Pictured Rocks National Lakeshore has already consulted with the Michigan Department of Natural Resources on this issue, as well as with other interested groups including the Michigan United Conservation Clubs, area hunters, and other interested local individuals.

The National Park Service's Management Guidelines (specifically Chapter 8, "Use of the Parks") state that the protection of park visitors and providing for visitor safety is a primary goal of park management, and that the Service may establish regulations or closures that are more restrictive than applicable State regulations based on a finding that such restrictions are necessary for public safety, resource protection, or visitor enjoyment. With the increased amount of visitors to the lakeshore in recent years (CY 94 visitation was 583,131) and the increase of hunting activities within lakeshore boundaries, an increased possibility exists of hazards to the safety of the public due to hunting activity in the developed and high visitor use areas.

Hunting in the lakeshore is managed according to the State of Michigan Department of Natural Resources hunting regulations, Federal migratory waterfowl regulations, and those specific hunting regulations contained in the Superintendent's Compendium (Orders). Continuing under the existing guidelines is dangerous from a safety point of view. At the same time, a total ban on hunting is neither practical nor necessary. This limited hunting closure is in accordance with stated overall management objectives for the administration of lands of the National Park System.

Much of the high public use area at the western end of the lakeshore is situated within the corporate limits of the City of Munising where the discharge of a firearm is already prohibited. The lakeshore's developed areas, such as campgrounds, parking lots, and overlooks, are heavily used by the visiting public. Hunting in such heavily used areas constitutes a hazard to the safety of the visiting public. While State of Michigan regulations currently permit hunting within road rights-of-way (ROW's), the heavy volume of traffic on National Park Service (NPS)-owned paved roads within the lakeshore makes hunting within these ROW's not conducive to the promotion of visitor safety and enjoyment. The heaviest public use period for the lakeshore occurs between April 1 and Labor Day when the lakeshore receives approximately 73 percent of its annual visitation. During this period, the regulation would prohibit hunting within the lakeshore.

On January 23, 1995, the NPS published proposed regulations that would close developed and high visitor use areas of the lakeshore to hunting in the interest of public safety (60 FR 4394). Public comment was invited. The comment period closed March 24, 1995.

Summary of Comments Received

During the public comment period, the NPS received eight written comments regarding the proposed rule. Four comments supported the closures, some asking for increased closures. Four were opposed to the closures, either in part or in whole. An analysis was made of the public comments. After considering all public comments, the NPS has decided to proceed with a final rule on the hunting closures.

A summary of specific comments by broad subject and the agency's response to these comments follows.

1. *Comment: Hunting closure areas are already restricted to hunting by local or state regulations.* A few respondents felt that the closure areas were already restricted to hunting activities by current local or state regulations. They felt that peak hunter density never exceeds a fraction of a hunter per square mile and there has never been an accident in the lakeshore involving hunters.

Response: A City of Munising ordinance prevents the discharge of a firearm within the city limits. However, the city does not enforce this ordinance in the forested areas of the lakeshore, within the city limits. Because the lakeshore does not have the authority to enforce the city's ordinance, it goes unenforced. Each year hunting activity takes place in the Becker Field, Munising ski trails and on Sand Point. All of these areas are within the city limits of Munising.

Michigan DNR hunting regulations define a Safety Zone within 450 feet of occupied dwellings (residences) or associated buildings. This regulation has no correlation to the developed public use areas of the lakeshore, such as drive-in campgrounds, overlooks, parking lots or other high use visitor buildings. Despite heavy public use, none of these lakeshore facilities serve as a "dwelling or associated building." The DNR regulation, therefore, does not apply.

While State of Michigan regulations currently permit hunting within road rights-of-way, the heavy volume of traffic on NPS-owned paved roads within the lakeshore makes hunting within these ROW's not conducive to the promotion of visitor safety and enjoyment. Several conflicts between hunters and non-hunters occur each hunting season within these ROW's that could directly affect the safety of the visiting public.

Although there has not been a documented accident in the lakeshore involving hunting, there have been several documented incidents in each of the past few years, in the developed areas, involving hunter and non-hunter contacts signed by one or both parties as constituting a safety hazard. With the increased number of visitors to the lakeshore, and the increase of hunting activities within the lakeshore boundaries, contacts between hunters and non-hunters directly affect the safety of the visiting public in the developed and high visitor use areas.

Although hunter density per square mile throughout the entire lakeshore is fairly low, having hunting activity in such close proximity to developed and high visitor use areas constitutes a public safety hazard.

2. *Comment: Impact on hunters by the closured areas.* A few commenters stated that these closures could have minimal impact on current hunting groups, but were worried about the lakeshore closing down other areas in the future. They were also concerned that hunters would not be able to access legal hunting areas through these closure areas.

Response: There is no guarantee that future developed and high visitor use lakeshore areas would not be closed to hunting, based on a finding that such restrictions are necessary for public safety, resource protection or visitor enjoyment. Future park developments and visitor areas that attain higher public use could also be closed to hunting for the same public safety reasons.

The closure areas were closely scrutinized to include only those areas where hunting restrictions were necessary for public safety. The closures are not an attempt to slowly close off the entire lakeshore to hunting because the park's enabling legislation mandates that hunting shall be permitted in administering the lakeshore. The legislation also states that, after consultation with the Michigan DNR, the lakeshore may designate zones and establish periods where and when no hunting shall be permitted for reasons of public safety.

Hunters would be allowed access to legal hunting areas through the closure areas, but they could not conduct any hunting while in the closure areas.

3. *Comment: The hunting closure process was handled very openly and fairly.* One respondent stated that the hunting closure process was very open. The person also appreciated that discussions were held with various public groups so that the proposal could be tailored to serve all constituencies fairly.

Response: The lakeshore consulted with the Michigan Department of Natural Resources on this issue, as well as with other interested groups, including the Michigan United Conservation Clubs, area hunters and other local individuals. These various groups were consulted and kept well informed throughout the entire rulemaking process. Information gained from these consultations greatly aided in defining the specific closure areas. Throughout the rulemaking process, treating all constituencies (general public and hunting groups) fairly was a high concern of lakeshore management.

4. *Comment: A need to postpone the opening hunting date to October 15 or later.* One reviewer wanted the opening date for lakeshore hunting postponed to October 15, rather than the day after Labor Day. He also felt there was a need to close more than 2 percent of the lakeshore to hunting during the fall visitor season.

Response: The heaviest public use period occurs between April 1 and Labor Day when the lakeshore receives approximately 73 percent of its annual visitation. Visitor use after Labor Day decreases dramatically and contacts rarely occur between hunters and non-hunters that could affect the safety of the visiting public. Opening the lakeshore to hunting the day after Labor Day allows hunters to pursue bear during Michigan's bear hunting season within the Upper Peninsula.

The developed and high visitor use areas of the lakeshore, which constitute approximately 2 percent of park land, are where an increased possibility exists of contacts between hunters and non-hunters, directly affecting the safety of the visiting public. Over the last several years the lakeshore has witnessed both an increase in total park visitation and hunting activities. Throughout the rest of the lakeshore, in the more undeveloped and less used areas, the possibility of these same safety hazards occurring decreases dramatically.

5. *Comment: Expand the hunting closure areas to include other areas of the lakeshore.* Two respondents felt that the proposed closure areas should also include all backcountry campgrounds, lakeshore hiking trails and the groomed cross-country ski trails.

Response: The lakeshore's developed areas, such as drive-in campgrounds, parking lots and overlooks, are the areas most heavily used by the public. The backcountry areas of the lakeshore, such as backcountry campgrounds, hiking trails, and cross-country ski trails, receive only a fraction of the annual visitor use. Hunter/non-hunter contacts occur very infrequently in the backcountry areas. These backcountry areas were considered for closure, but the potential hazard to the safety of the public was considered minimal and insufficient to warrant closure. The increases in park visitation over the last several years have occurred primarily in the more developed and high use areas of the lakeshore. Closing these backcountry areas to hunting would have little effect on public safety.

6. *Comment: Disagreement with the summer hunting closure and comparing the lakeshore with Michigan State Parks.* A few commenters disagreed with the closing of the lakeshore to hunting from April 1 to Labor Day. They also felt it was not fair to compare the lakeshore hunting closure period with that of Michigan State Parks.

Response: The heaviest public use period for the lakeshore occurs between April 1 and Labor Day, when the lakeshore receives approximately 73 percent of its annual visitation. There is very little hunting activity during this period, since the only legal hunting for game species that can be done is for coyote and for certain animals for which there is "no closed season." With the high visitor use during the summer period in the developed areas, even allowing this level of hunting activity constitutes a public safety hazard.

Michigan DNR hunting regulations close all state parks to hunting from April 1 through September 14. Michigan State Parks have developed and high visitor use areas, similar to the national lakeshore, that are closed to hunting during the summer visitor use season. The lakeshore closure period would be through Labor Day, to allow for the start of the Michigan bear hunting season in the Upper Peninsula. This closure would be similar to Michigan State Park hunting management, with the exception of opening the national lakeshore to hunting earlier in September than in the State parks.

State park acreage closed to hunting in developed areas amounts to less area closed than what would be closed in the lakeshore. This is primarily due to the fact that most state parks are appreciably smaller in total land size when compared with the national lakeshore. Pictured Rocks has more land and therefore more total acreage that would be closed to hunting for public safety reasons.

Effective Date

The final rule establishes regulations that will close developed and high visitor use areas of the lakeshore to hunting in the interest of public safety. The lakeshore will maintain a list of these closed areas, and specific descriptions of the same, for the information of the general public. This rule becomes effective 30 days from the date of publication in the **Federal Register**.

Drafting Information

The author of these regulations is Larry Hach, Chief of Visitor Services and Land Management, Pictured Rocks National Lakeshore.

Paperwork Reduction Act

This final rule does not contain information collection requirements that require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Compliance With Other Laws

This rule was not subject to Office of Management and Budget review under Executive Order 12866. The Department of the Interior determined that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et. seq.*). The economic effects of this rulemaking are local in nature and negligible in scope.

The National Park Service has determined that this rulemaking will not have a significant effect on the quality of the human environment, health and safety because it is not expected to:

(a) Increase public use to the extent of compromising the nature and character of the area or causing physical damage to it;

(b) Introduce non-compatible uses that may compromise the nature and characteristics of the area, or cause physical damage to it;

(c) Conflict with adjacent ownerships or land uses; or

(d) Cause a nuisance to adjacent land owners or occupants.

Based on this determination, the regulation is categorically excluded from the procedural requirements of the National Environmental Policy Act (NEPA; 42 USC 4321, et seq.) and by Departmental guidelines in 516 DM 6 (49 FR 21438). As such, neither an Environmental Assessment nor an Environmental Impact Statement has been prepared.

List of Subjects in 36 CFR Part 7

National parks; Reporting and record keeping requirements.

In consideration of the foregoing, 36 CFR chapter I is amended as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

1. The authority citation for part 7 continues to read as follows:

Authority: 16 U.S.C. 1, 3, 9a, 460(q), 462(k); sec. 7.96 also issued under D.C. Code 8–137 (1981) and D.C. Code 40–721 (1981).

2. Section 7.32 is amended by adding paragraph (c) to read as follows:

§ 7.32 Pictured Rocks National Lakeshore

* * * * *

(c) Hunting. The following lakeshore areas are closed to hunting:

(1) Sand Point area. All that portion of Sand Point described as the area below the top of the bluff in Sections 19 and 30, T47N, R18W, and that area situated within the corporate limits of the City of Munising, including the Sand Point Road.

(2) Developed public use areas.

(i) The area within 150 yards of any campsite located within the Little Beaver, Twelvemile Beach, and Hurricane River Campgrounds.

(ii) The area within 150 yards of the Miners Castle overlooks, paved walkways and vehicle parking lot. Also 100 feet from the centerline of the paved Miners Castle Road and the area within 100 feet of Miners Falls parking lot, trail and associated platforms.

(iii) The area within 100 feet of: the Chapel Falls parking lot; the Little Beaver backpacker parking lot; the Twelvemile Beach picnic area parking lot; the Log Slide parking lot, platforms and walkways; the Grand Sable Lake picnic area and parking lot; the Grand Sable Lake boat launch and parking lot; the Grand Sable Lake overlook parking lot.

(iv) The area within 150 yards of any structure at the Au Sable Light Station, and within 100 feet of the trail between the lower Hurricane River Campground and the light station.

(v) The area within 150 yards of the Sable Falls parking lot and building, including the viewing platforms and associated walkway system to the mouth of Sable Creek. Also included is the area 100 feet from the centerline of the paved Sable Falls Road.

(vi) The area within 150 yards of: the Grand Sable Visitor Center parking lot and barn; the structures comprising the Grand Marais quarters and maintenance facility.

(vii) The 8.6 acre tract comprising structures and lands administered by the National Park Service on Coast Guard Point in Grand Marais.

(3) Hunting season. Hunting is prohibited parkwide during the period of April 1 through Labor Day.

Dated: August 17, 1995.

Robert P. Davison,

Acting Assistant Secretary for Fish and Wildlife and Parks.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 93–13; RM–8156, RM–8234]

Radio Broadcasting Services; Blanchard, LA and Stephens, AR

AGENCY: Federal Communications Commission.

ACTION: Final rule; application for review.

SUMMARY: The Commission denies an application for review filed by Arkansas Wireless Company ("Wireless") of the action taken by the Assistant Chief of the Allocations Branch in MM Docket No. 93–13, allotting Channel 271C3 to Blanchard, Louisiana and denying Wireless' competing counterproposal to allot Channel 271A to Stephens, Arkansas (58 FR 51787, October 5, 1993). The Commission denies the application for review because the underlying decision followed applicable legal precedent in allotting the channel to the more populous community. The Commission also dismisses as moot a motion for stay filed by Wireless seeking a stay of the application filing window.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Mania K. Baghdadi, Mass Media Bureau, (202)776–1653.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Memorandum Opinion and Order*, MM Docket No. 93–13, adopted July 31, 1995, and released on September 11, 1995. The full text of this Commission decision is available for public inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, Inc., (202) 857–3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

BILLING CODE 6712–01–F

---

47 CFR Part 73

[MM Docket No. 86–388; RM–5385]

Television Broadcasting Services; Kenansville, FL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On application for review, the Commission affirmed the grant of the request of the Meredith Corporation (RM–5835) to allot UHF television Channel 31 to Kenansville, Florida for the provision of its first local television

service. The Chief, Policy and Rules Division, had granted Meredith's request by *Memorandum Opinion and Order*, 55 FR 17756, published April 27, 1990. With this action, the proceeding is terminated.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: J. Bertron Withers, Jr., Mass Media Bureau, (202) 418–2100.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Memorandum Opinion and Order*, MM Docket No. 86–388, adopted July 31, 1995 and released September 11, 1995. The full text of this Commission decision is available for inspection and copying during normal business hours in Commission's Reference Center (Room 239), 1919 M Street NW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Services, 2100 M Street, NW., Suite 140, Washington, DC 20037, (202) 857–3800.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

[FR Doc. 95–22833 Filed 9–13–95; 8:45 am]

BILLING CODE 6712–01–F

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Parts 1801, 1804, 1812, 1813, 1814, 1815, 1819, 1825, 1834, 1835, 1836, 1852, 1853, and 1870

[NASA FAR Supplement Directive 89–20]

RIN 2700–AB85

Acquisition Regulation; Miscellaneous Amendments to NASA FAR Supplement

AGENCY: Office of Procurement, Acquisition Liaison Division, National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This document amends the NASA Federal Acquisition Regulation Supplement (NFS) to reflect a number of miscellaneous changes dealing with NASA internal and administrative matters, such as the NASA FAR Supplement rewrite and reporting of contract data by NASA procurement offices.

EFFECTIVE DATE: October 1, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. David K. Beck, (202) 358–0482.

SUPPLEMENTARY INFORMATION:

Availability of NASA FAR Supplement

The NASA FAR Supplement, of which this rule is a part, is available in its entirety on a subscription basis from the Superintendent of Documents, Government Printing Office, Washington, DC 20402, telephone number (202) 512–1800. Cite GPO Subscription Stock Number 933–003–00000–1. It is not distributed to the public, either in whole or in part, directly by NASA.

Rewrite of NASA FAR Supplement

NASA is reviewing and rewriting 48 CFR chapter 18, the NASA FAR Supplement, in its entirety in order to implement recommendations of the National Performance Review. During this review, NASA is eliminating reporting requirements and making other changes in order to reduce and simplify the regulation. This rule is part of the effort to simplify NASA's regulations.

Summary of Changes

Unnecessary words in subparts 1801.6 and 1801.7 are eliminated. Sections 1801.603 and 1801.670 are substantially reduced in order to rely primarily on FAR guidance on delegation of contracting officer authority. Section 1801.703 is substantially reduced in order to rely primarily on FAR guidance on class determinations and findings (D&F's). Section 1801.770 is added on legal review of D&F's prior to signature. In subpart 1804.6, instructions are revised concerning data elements required to be reported by NASA procurement offices. Sections 1804.672 and 1852.204–70, Report on NASA Subcontracts, are removed. Section 1804.674 on subcontract reporting is removed because it is already covered by subpart 1819.7.

Paragraph 1834.005–1(k) is removed because it unnecessarily duplicates instructions in subpart 1804.6. Other sections are amended as a result of Federal Acquisition Circulars 90–29 and 90–31.

Impact

NASA certifies that this regulation will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

List of Subjects in 48 CFR Parts 1801, 1804, 1812, 1813, 1814, 1815, 1819, 1825, 1834, 1835, 1836, 1852, 1853, and 1870

Government procurement.

Tom Luedtke,

Deputy Associate Administrator for Procurement.

Accordingly, 48 CFR parts 1801, 1804, 1812, 1813, 1814, 1815, 1819, 1825, 1834, 1835, 1836, 1852, 1853, and 1870 are amended as follows.

1. The authority citation for 48 CFR parts 1801, 1804, 1812, 1813, 1814, 1815, 1819, 1825, 1834, 1835, 1836, 1852, 1853, and 1870 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

PART 1801—FEDERAL ACQUISITION REGULATIONS SYSTEM

Subpart 1801.1—Purpose, Authority, Issuance

1801.102, 1801.103, 1801.104, 1801.104–1, 1801.104–2, 1801.104–3, 1801.104–370, 1801.105 [Redesignated]

2. Sections 1801.102, 1801.103, 1801.104, 1801.104–1, 1801.104–2, 1801.104–3, 1801.104–370, and 1801.105 are redesignated as 1801.103, 1801.104, 1801.105, 1801.105–1, 1801.105–2, 1801.105–3, 1801.105–370, and 1801.106.

3. In paragraph (b) of the newly designated section 1801.105–1, the citation "1801.104–1(b)" is revised to read "1801.105–1(b)".

Subpart 1801.6—Career Development, Contracting Authority, and Responsibilities

4. In section 1801.602–3, paragraph (a) is revised to read as follows:

1801.602–3 Ratification of unauthorized commitments.

(a) *Policy.* Individuals making unauthorized commitments may be subject to disciplinary action, and the issue may be referred to the Office of Inspector General.

* * * * *

5. Section 1801.603–2 is revised to read as follows:

1801.603–2 Selection.

(a) *Policy.* Normally, only GS–1105 and GS/GM–1102 personnel with the proper training and experience may be appointed contracting officers.

(b) *Organizational need determination.* NASA contracting officers shall be appointed only when a valid organizational need can be demonstrated. Factors to be considered in assessing the need for a contracting

officer include volume of actions, complexity of work, and organizational structure.

1801.603–3, 1801.603–4 [Removed]

6. Sections 1801.603–3 and 1801.603–4 are removed.

7. Section 1801.670 is revised to read as follows:

1801.670 Delegations to contracting officer's technical representatives (COTRs).

A COTR delegation may be made only by the contracting officer cognizant of that contract at the time the delegation is made. If the cognizant contracting officer is absent, the delegation letter may be signed by a warranted contracting officer at any level above the cognizant contracting officer. An individual COTR may have only the duties specifically identified in a written delegation to him or her by name (i.e., COTR duties may not be delegated to a position) and has no authority to exceed them. COTRs should be informed that they may be personally liable for unauthorized commitments. Contracting officer authority to sign or authorize contractual instruments should not be delegated through a COTR designation or by any means other than a contracting officer warrant.

Subpart 1801.7—Determinations and Findings

1801.703 [Removed]

8. Section 1801.703 is removed.

1801.704 [Amended]

9. In section 1801.704, the first sentence is removed.

1801.770 [Added]

10. Section 1801.770 is added to read as follows:

1801.770 Legal review.

Each determination and finding (D&F), including class D&Fs, shall be reviewed by counsel for form and legality before the signature, in accordance with FAR 1.701, is obtained.

PART 1804—ADMINISTRATIVE MATTERS

Subpart 1804.6—Contract Reporting

11. Section 1804.601 is revised to read as follows:

1804.601 Record requirements.

The Headquarters Analysis Division (Code HC) is responsible for meeting the requirements of FAR 4.601, based on installation submission of Individual Procurement Action Reports (NASA Form 507 series) data.

12. Section 1804.671 is revised to read as follows:

1804.671 Individual Procurement Action Report (NASA Form 507 series).

The Individual Procurement Action Report and Supplements (NASA Form 507 series) provide essential procurement records and statistics through a single uniform reporting program as a basis for required recurring and special reports to Congress, Federal Procurement Data Center, and other Federal agencies. The preparation and utilization of the NASA Form 507 series are an integral part of the agencywide Financial and Contractual Status (FACS) system.

13. Section 1804.671–1 is revised to read as follows:

1804.671–1 Applicability and coverage.

The following procurement actions are individually reportable and require the completion of one or more of the forms in the 507 series.

(a) *Initial basic procurements.*

(1) All contracts, regardless of dollar obligation amount.

(2) All grants, cooperative agreements, and Space Act agreements.

(3) Intragovernmental procurements and purchase orders when the initial value is more than $25,000.

(4) All contracts and purchase orders for consulting services.

(5) Purchase orders of $25,000 or less for services within the four designated industry groups identified at FAR 19.1005(a) under the Small Business Competitiveness Demonstration Program. (These actions are not FACS reportable, but are required for FPDS reports.)

(b) *Modifications.* Modifications that—

(1) Obligate or deobligate funds, regardless of dollar amount,

(2) Change the estimated cost and/or fee,

(3) Extend the completion date, or

(4) Add or change procurement statistics previously reported are reportable.

1804.671–2 [Removed and Reserved]

14. Section 1804.671–2 is removed and reserved.

15. Section 1804.671–4 is revised to read as follows:

1804.671–4 Preparing Individual Procurement Action Reports (NASA Forms 507, 507A, 507B, 507G, and 507M).

(a) Individual Procurement Action Reports shall be prepared and submitted to Headquarters for each procurement action required to be reported (see 1804.671–1). Specifically, for new contract awards, NASA Forms 507, 507A, and 507B are prepared. For new grants, agreements, intragovernmental agreements, and orders against federal supply schedules, NASA Forms 507G and 507B are prepared. For modifications to any of the above procurements, NASA Forms 507M and, if necessary, 507B are prepared.

(b) Detailed item instructions for preparing the NASA Forms 507 series are as follows:

(1) *Item 1—Contract/grant number* (11 positions, including blanks).

(i) Enter the specific contract, grant, cooperative agreement, Space Act agreement, or purchase order number for which the data are reported. The first five digits represent the prefix field, while the last six digits are used to number each contractual instrument serially. If a serial number does not fill out the entire field, leave those digit positions blank instead of using zeros.

(ii) The method of numbering—

(A) Contracts, purchase orders, and Space Act agreements is set forth in subpart 1804.71; and

(B) Grants and Cooperative agreements is set forth in the NASA Grant and Cooperative Agreement Handbook, NHB 5800.1, paragraph 306.

(2) *Item 2—Document suffix* (1 position). If an alpha suffix is used in the contract or purchase order number, enter the assigned suffix (e.g., "F" for facilities contracts). Otherwise, leave this item blank.

(3) *Item 3—Modification prefix* (1 position). If an alpha prefix is used in the modification number of the reported action, enter the assigned prefix. Otherwise, leave this item blank.

(4) *Item 4—Modification number* (4 positions). Enter the serial number assigned to the modification action.

(5) *Item 5—PR number* (12 positions). Enter the number assigned to the Procurement Request document which initiated the reported action.

(6) *Item 6—Closeout PR* (1 position). Enter "Y" if the reported action closes the PR reported in item 5. Otherwise, leave this item blank.

(7) *Item 7—Contractor VID* (7 positions). Enter the contractor's unique Vendor Identification Number (VID) which indicates the contractor's name and business address.

(8) *Item 7a—Contractor name* (29 positions, including spaces). Enter the name of the contractor. (For editing purposes, the first five characters of the contractor's name must be identical to those shown in "NASA Contractor Identification Codes.") For intragovernmental actions, enter the agency name (e.g., US Army, US Navy, US Commerce) and also see the Item 8

instructions in paragraph (b)(11) of this section.

(9) *Item 7b—Contractor division* (20 positions). Enter the name of the contractor's division if one is named in the contractual instrument. (For editing purposes, the first five characters of the division name must be identical to those shown in "NASA Contractor Identification Codes.") For intragovernmental actions, enter the name of the cognizant procuring activity (e.g., Electronic Systems Division).

(10) *Item 7c—Contractor address—city and state.* Enter city and state of contractor's address as stated in the contractual instrument.

(11) *Item 8—Contractor identification code (CIC) number* (7 positions). This coding system is managed by the Headquarters Analysis Division (Code HC). It identifies the procurement in terms of the contractor's name, division (if any), address, and the place of performance. A unique code is assigned for each different combination of these items. For combinations not found, call the Office of Procurement, NASA Headquarters (Code HC), where a code will immediately be assigned.

(12) *Item 9—Contractor Place of Performance (CPOP) VID* (7 positions). Enter the unique Contractor Place of Performance (CPOP) VID which indicates the contractor's place of performance address. This is a seven character alpha-numeric code generated by the Acquisition Management Subsystem (AMS).

(13) *Items 9a—Place of performance* (city—24 positions; state—2 positions). Enter the location (city and state) of the principal plant or place of business where the items will be produced or supplied from stock or where the service will be performed. For construction contracts, enter the site of construction. If more than one location is involved, enter the principal place of performance. For intragovernmental actions where the place of performance is unknown, enter the address of the cognizant Government agency.

(14) *Item 10—Procuring installation number* (2 positions). Enter a numeric code identifying the installation responsible for the procurement. The following is a list of installations and their assigned codes:

Code	Installation
04	NASA Headquarters.
21	Ames Research Center.
22	Lewis Research Center.
23	Langley Research Center.
24	Dryden Flight Research Center.
51	Goddard Space Flight Center.
53	Wallops Flight Facility.
54	NASA Management Office-JPL.
62	George C. Marshall Space Flight Center.
64	John C. Stennis Space Center.
72	Lyndon B. Johnson Space Center.
73	Space Station Program Office.
76	John F. Kennedy Space Center.

(15) *Item 11—POP zip code* (5 positions). Enter the five digit zip code corresponding to the contractor's place of performance address.

(16) *Item 12—Contract award/modifieation date* (6 positions).

(i) *Contract award.* Enter the year, month, and day (two numerics each) that the contract is signed by the contracting officer.

(ii) *Modification date.* Enter the year, month, and day (two numerics each) that the modification is signed by the contracting officer.

(17) *Item 13—Completion date* (6 positions). Enter the year, month, and day (two numerics each), either specified or estimated, when all work on the contract and any modifications is scheduled for completion. This date may or may not change as modifications to the contract are issued.

(18) *Item 14—Procurement placement code* (2 positions). Enter the alpha procurement placement code (PPC) identifying the type of solicitation process used and the extent of competition obtained on the procurement. (See 1804.671–7 for PPC matrix.)

(19) *Item 15—Kind of action* (2 positions). Enter the numeric code from the following lists that identifies in general terms the kind of procurement and the action taken to initiate it:

Code	Kind of action
	New Contracts/Grants/Orders
01	New letter contract.
03	New basic contract. New procurements, when the first binding document contains all the agreement's terms and conditions.
05	Intragovernmental. Orders issued to other Federal agencies.
06	Grant.
21	Cooperative agreement or Space Act agreement.
23	Order under Mandatory GSA–FSS. See FAR 8.404.
24	Order under optional (non-mandatory) GSA–FSS. See FAR 8.404–2.
25	Order under indefinite-delivery contract (IDC).
26	Order under BOA.
	Modifications to Existing Contracts
07	New-work modification. Modifications that add a new procurement to existing contracts. New procurement, for the purpose of this report, means a modification action that usually requires the preparation of a Justification for Other than Full and Open Competition (see FAR 6.303).
08	Supplemental agreement. Bilateral, definitized modifications except those covered by code 10 below.
09	Change order. Change orders issued pursuant to the changes clause of the contract.
10	Supplemental agreement definitizing change order.
11	Administrative/incremental funding. This code should be used for administrative changes (such as novation agreements) as well as for incremental funding modifications.
12	Termination for default.
13	Termination for convenience.
14	Definitizing letter contract.
15	Exercising priced option.
16	Order under reporting center's indefinite delivery contract (IDC).
17	Order under reporting center's BOA.

(20) *Item 15a—Center kind of action* (2 positions). Enter the numeric code, if applicable, from the following list that further identifies the kind of action reported in item 15:

Code	Center kind of action
14	Small purchase.
50	Basic ordering agreement (BOA).
52	Indefinite delivery type contract.
53	Basic ordering agreement modification.
54	Task order modification.
60	Blanket purchasing agreement (BPA).
61	Call against BPA.
99	Closing modification.

Leave this item blank if none of the above choices are descriptive of the action being reported. The information provided in this item is used in the generation of Procurement Management Data Reports (PMDR).

(21) *Item 16—Contractor type* (2 positions). Enter the appropriate code from the following:

Code	Contractor
	Business
01	Section 8(a)—disadvantaged. Awards placed through the Small Business Administration with a minority business firm owned and controlled by socially and economically disadvantaged individuals, in accordance with Section 8(a) of the Small Business Act.
03	Disadvantaged direct. Awards placed directly with a minority business firm owned and controlled by socially and economically disadvantaged individuals.
04	Not disadvantaged. Other large or small businesses that are not considered disadvantaged.
	Nonprofit Organization
05	Educational (Non-Minority). A non-minority educational institution that is *not* State, Federal, or local-government-owned.
06	Hospital. A hospital that is *not* State, Federal, or local-government-owned.
08	Other nonprofit (Non-Minority). A non-minority nonprofit institution or organization that is a corporation, foundation, trust, or institution not organized for profit, and no part of its net earnings is applied to the profit of any private shareholder or individual.
15	Educational (HBCU). A Historically Black College or University (HBCU) that is *not* State, Federal, or local-government-owned.
18	Other nonprofit (Minority). A minority nonprofit institution or organization that is a corporation, foundation, trust, or institution not organized for profit, and no part of its net earnings is applied to the profit of any private shareholder or individual.
25	Educational (Other Minority). A minority educational institution, other than an HBCU, that is *not* State, Federal, or local-government-owned.
	State/Local Government
09	Educational (Non-Minority). A State, Federal, or local-government-owned non-minority educational institution. (Privately owned non-minoirty educational institutions shall be coded 05.)
10	Hospital. A State, Federal, or local-government-owned hospital. (Privately owned hospitals shall be coded 06.)
12	Other State/local government. Includes State, Federal, or local-government-owned research organizations.
19	Educational (HBCU). A State, Federal, or local-government-owned Historically Black College or University (HBCU). Privately owned HBCU's shall be coded 15.)
29	Educational (Other Minority). A State, Federal, or local-government-owned non-minority educational institution, other than an HBCU. (Privately owned minority educational institutions, other then HBCU's, shall be coded 25.)

(22) *Item 16a—Woman-Owned business* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the business concern is a woman-owned business. A woman-owned business is one that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.

(23) *Item 17—Award Outside U.S.* Enter "L" for an award to a source outside the U.S. Enter "M" for an award to a source inside the U.S., if the principal place of performance will be outside the U.S. When this item is coded "L" or "M," the PPC code entered in item 14 of the NASA Form 507 must be from the "work outside U.S." category of the PPC matrix.

(24) *Item 18—Extent of competition* (1 position). Enter the appropriate code from the following list (except for non-new-work (within-scope) modifications):

Code	Extent of competition.
2	Sealed Bid. Award results from acceptance of a bid in response to a formal invitation for bids or from sealed bidding following an evaluation of technical proposals (two-step sealed bidding). (See FAR part 14.)
3	Competed action—SEB. Competitive offers are solicited from more than one responsible offeror capable of satisfying the Government's requirements wholly or partially; award is based on price, design, or technical competition; and Source Evaluation Board (SEB) procedures are used to evaluate the proposals (see FAR 15.608). This code shall also be used if Architect-Engineer Selection Board procedures are used (see FAR 36.603–2).
4	Other competed action. Competitive offers are solicited from more than one responsible offeror capable of satisfying the Government's requirements wholly or partially; award is based on price, design, or technical competition; and Source Evaluation Board procedures are not used to evaluate the proposals.
5	Noncompetitive follow-on to competed action. The procurement is for the continued development or production of a major system or highly specialized equipment, including major components thereof, that is considered available only from the original source, and it is likely that award to any other source would result in (1) substantial duplication of cost to the Government that is not expected to be recovered through competition, or (2) unacceptable delays in fulfilling NASA's requirements (see FAR 6.302–1(b)(2)).
6	Other not competed. Only one offer is solicited and only one offer is received capable of satisfying the Government's requirements wholly or partially; the work involved is not a follow-on procurement reportable under code 5 above. Include awards resulting from unsolicited proposals in this category.

(25) *Item 19—Type of service or product* (4 positions). Enter the code indicating the principal type of effort or end item obtained under the contract. If more than one classification applies to the procurement, enter the one accounting for the largest dollar volume of procurement. Codes have been established to identify research and development (R&D) procurements, service contracts, and supply and equipment contracts. These codes may be found in the FPDS Product and Service Codes manual located in the procurement administrative office at each NASA installation.

(26) *Item 20—Physically complete* (1 position). Enter "Y" (yes) if the contract is physically complete, i.e., after all articles and services called for under the contract, including such related items as reports, spare parts, and exhibits, have been delivered to and accepted by the Government (see FAR 4.804–4). Also enter the date that the contract is physically completed. Otherwise, this field should be left [illegible]

(27) *20a—C[illegible]ant Proposal Number* (18 p[illegible] Enter the contract/grant proposal number in this field. This field is optional and not reported to Headquarters.

(28) *Item 21—Labor surplus area award* (1 position). "Y" or "N" to indicate whether the award is to a concern in a labor surplus area (see FAR Subpart 20.1).

(29) *Item 22—FSS/Indefinite-delivery/BOA contract no.* (15 positions). Enter the Federal Supply Schedule (FSS), indefinite-delivery, or basic ordering agreement (BOA) contract number under which a delivery order has been

placed if Item 15 (Kind of Action) is coded 23, 24, 25, or 26.

(30) *Item 23—Description of contract/modification (narrative).* Enter a brief description of the end item or services being procured. For modifications, enter a brief description of the purpose.

(31) *Item 24—CICA applicability* (1 position).

(i) Pre-CICA: Code 1 Enter if the contract action is a new contract (or within-scope modification thereto) resulting from a solicitation issued before April 1, 1985, irrespective of the award date.

(ii) Post-CICA: Code 2 Enter if the contract action is a new contract resulting from a solicitation issued on or after April 1, 1985. All modifications to such contracts are to be reported by this code.

(32) *Item 24a—Special handling* (1 position). Center unique data element.

(33) *Item 25—Proposed procurement synopsized* (1 position). Entry "Y" if the procurement was synopsized prior to award in the Department of Commerce's Commerce Business Daily. Enter "N" if the procurement was not synopsized, except enter "U" if the procurement was not synopsized because of urgency.

(34) *Item 26—Contract type* (2 positions).

(i) Enter the code that identifies the type of contract from the following list:

Code	Contract type
01	Fixed-Price, Firm (FAR 16.202 and 16.207). (Include Firm Fixed-Price, level-of-effort term contracts in this category.)
02	Fixed-Price, Redetermination (FAR 16.205).
03	Fixed-Price with Economic Price Adjustment (FAR 16.203).
04	Fixed-Price Incentive (FAR 16.204).
05	Cost (No Fee) (FAR 16.302).
06	Cost-Sharing (FAR 16.303). (The estimated cost reported shall include only the Government's share.)
07	Cost-Plus-Fixed-Fee (FAR 16.306).
08	Cost-Plus-Incentive-Fee (FAR 16.404–1).
09	Time-and-Materials (FAR 16.601).
10	Labor-Hour (FAR 16.602).
12	Cost-Plus-Award-Fee (FAR 16.404–2).

(ii) Combination contract types shall be reported as follows:

(A) Where the contract has one type of incentive arrangement applying to cost performance and another to technical and/or schedule performance, report the contract type assigned to the cost-incentive feature; e.g., a contract providing a cost-plus-incentive-fee arrangement on cost and an award fee arrangement on technical and/or schedule performance will be reported as "Code 08—Cost-Plus-Incentive-Fee."

(B) Where one or more items of work are priced exclusively under one of the arrangements coded above, with one or more additional items priced exclusively under another such arrangement, report the contract type in accordance with the code assigned to the arrangement under which the predominate dollar amount will be spent.

(35) *Item 27—No. of offerors solicited* (3 positions). Enter the number of firms to which solicitations were provided.

(36) *Item 28—Number of offers received* (3 positions). Enter the actual number of offers received in response to the solicitation.

(37) *Item 29—Solicitation procedures* (1 position). This item pertains to the requirements of FAR subparts 6.1 (Full and Open Competition), 6.2 (Full and Open Competition After Exclusion of Sources), and 6.3 (Other Than Full and Open Competition), with the exception of the statutory authorities for other than full and open competition (subpart 6.3), which are reported in Item 30. Codes "A" through "L" designate the competition alternatives described in FAR part 6. Delivery-order contract actions under indefinite-delivery contracts shall be reported the same as the initial contract when the following criterion, in FAR 6.001(e), is met: They are orders placed under indefinite-delivery contracts that were entered into pursuant to FAR part 6, and either the contract was awarded under subpart 6.1 or 6.2 and all responsible sources were realistically permitted to compete for the requirements contained in the order, or the contract was awarded under subpart 6.3 and the required justification and approval adequately covers the requirements contained in the order.

(i) Code A—Full and open competition sealed bid is entered when the sealed bidding (see FAR 6.401(a)) method of contracting was used.

(ii) Code B—Full and open competition—competitive proposal is entered when the FAR part 15, Contracting by Negotiation, procedures were used for a competitive solicitation.

(iii) Code C—Full and open competition—combination is entered when any combination of competitive procedures (e.g., two-step sealed bidding) was used (see FAR 6.102(c)).

(iv) Code D—Architect-engineer is entered if the action resulted from selection of sources for architect-engineer (A&E) contracts in accordance with Public Law 92–582 and procedures in FAR subpart 36.6 (see FAR 6.102(d)(1)). The selection of a potential A&E contractor is made by an A&E Evaluation Board conducted in accordance with 41 U.S.C. 541 et seq. This selection process is considered a competitive procedure and shall be reported as a competitive award. When award is an A&E contract and was a result of a small business set-aside or labor surplus area set-aside, use code K in lieu of this code.

(v) Code E—NASA Research Announcement/Announcement of Opportunity is entered if the action resulted from competitive selection of basic research proposals as a result of

(A) A broad agency announcement (NASA Research Announcement or Announcement of Opportunity) that is general in nature identifying areas of research interest, including criteria for selecting proposals, and soliciting the participation of all offerors capable of satisfying the Government's needs and

(B) A peer or scientific review (see FAR 6.102(d)(2)).

(vi) Code F—Multiple-award schedule is entered if the action is an order issued against a multiple-award schedule using the procedures in FAR 8.405–1 (see FAR 6.102(d)(3)). This code shall be used for multiple-award schedule contracts (mandatory or optional). This code may be used for ADP procurements, unless the solicitation utilized make-or-model specifications. Use of the multiple-award schedule program is considered to be a competitive procedure because competitive procedures were used by GSA to make the basic multiple-award schedule contract awards under 41 U.S.C. 259(b)(3)(A). For reporting purposes, an order issued against a multiple-award schedule shall be reported as a competitive award.

(vii) Code G—Alternate source—reduced cost is entered if the action was taken pursuant to FAR 6.202(a)(1), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition of such supplies or services.

(viii) Code H—Alternate source—mobilization is entered if the action was taken pursuant to FAR 6.202(a)(2), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization.

(ix) Code J—Alternate source—engineering/R&D capability is entered if

the action was taken pursuant to FAR 6.202(a)(3), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

(x) Code K—Set-asides is entered if the action resulted from use of procedures for set-asides pursuant to FAR 6.203. This includes small business set-asides, labor surplus area set-asides, or combinations thereof, but not architect-engineer contracts (use Code D). Code K also includes contract actions under the Small Business Innovation Research (SBIR) Program established under Public Law 97–219.

(xi) Code L—Other than full and open competition is entered if the action resulted from use of other than full and open competition pursuant to 10 U.S.C. 2304(c). The conditions or exceptions permitting contracting without providing for full and open competition are prescribed in FAR 6.302. Enter this code for noncompetitive awards made under the authority of Section 8(a) of the Small Business Act (see FAR subpart 19.8). This code shall also be used for all ADP procurements where the solicitation utilized make-and-model specifications.

(38) *Item 30—Authority for other than full and open competition.* When Item 29 is coded "L," this item must be completed. Enter the applicable code from the categories listed in this paragraph (b)(38). This item identifies the solicitation process and not the extent of competition obtained.

(i) Code A—Unique source is entered when the contract action is under 10 U.S.C. 2304(c)(1) and the agency's minimum needs can be satisfied only by unique supplies or services available from only one source or only one supplier with unique capabilities (see FAR 6.302–1(b)(1)).

(ii) Code B—Fellow-on contract is entered when the contract action is under 10 U.S.C. 2304(c)(1) and it is likely that the award of follow-on contracts must be to the original source because award to any other source would result in—

(A) Substantial duplication of cost to the Government that is not expected to be recovered through competition or

(B) Unacceptable delays in fulfilling the agency's requirements (see FAR 6.302–1(a)(2)(ii)).

(iii) Code C—Unsolicited research proposal is entered when the contract action is under 10 U.S.C. 2304(c)(1) as the result of acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept, the substance of which—

(A) Is not otherwise available to the Government and

(B) Does not resemble the substance of a pending competitive acquisition (see FAR 6.302–1(a)(2)(i)).

(iv) Code D—Patent/data rights is entered when the contract action is under 10 U.S.C. 2304(c)(1) because the existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances make the supplies and services available from only one source (see FAR 6.302–1(b)(2)).

(v) Code E—Utilities is entered when—

(A) The contract action is under 10 U.S.C. 2304(c)(1) when acquiring electric power or energy, gas (natural or manufactured), water, or other utility services and circumstances dictate that only one supplier can furnish the service or

(B) The contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system (see FAR 6.302–1(b)(3)).

(vi) Code F—Standardization is entered when the contract action is under 10 U.S.C. 2304(c)(1) because the agency head has determined under the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items and only one source is available (see FAR 6.302–1(b)(4)).

(vii) Code G—Only one source—other is entered when the contract action is under 10 U.S.C. 2304(c)(1) to a single source and codes "A" through "F" of this paragraph (b)(38) do not apply (see FAR 6.302–1(b)).

(viii) Code H—Urgency is entered when the contract action is under 10 U.S.C. 2304(c)(2) because—

(A) An unusual and compelling urgency precludes full and open competition and

(B) Delay in award of a contract would result in serious injury, financial or other, to the Government (see FAR 6.302–2(b)).

(ix) Code J—Mobilization is entered when the contract action is under 10 U.S.C. 2304(c)(3) to a particular source or sources in order to maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization (see FAR 6.302–3(b)(1)).

(x) Code K—Essential R&D capabilities is entered when the contract action is under 10 U.S.C. 2304(c)(3) to a particular source or sources in order to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center (see FAR 6.302–3(b)(2)).

(xi) Code L—International agreement is entered when the contract action is under 10 U.S.C. 2304(c)(4) because full and open competition is precluded by—

(A) The terms of an international agreement or treaty between the United States and a foreign government or international organization or

(B) The written directions of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services (see FAR 6.302–4).

(xii) Code M—Authorized by statute is entered when the contract action is under 10 U.S.C. 2304(c)(5) because a statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source (see FAR 6.302–5(a)(2)(i)). This code should be used for noncompetitive 8(a) awards.

(xiii) Code N—Authorized resale is entered when the contract action is under 10 U.S.C. 2304(c)(5) for a brand-name commercial item for resale through commissaries or other similar facilities (see FAR 6.302–5(a)(2)(ii)).

(xiv) Code P—National security is entered when the contract action is under 10 U.S.C. 2304(c)(6) because disclosure of the Government's needs would compromise the national security (see FAR 6.302–6).

(xv) Code Q—Public interest is entered when the contract action is under 10 U.S.C. 2304(c)(7) because the agency head has determined that full and open competition is not in the public interest in the particular acquisition concerned (see FAR 6.302–7).

(39) *Item 31—Labor statutes* (1 position). Enter the appropriate code, in accordance with the provisions of the contract, from the following list:

Code	Statutory requirements
N	Not subject to statutory requirements listed below.
1	Subject to Walsh-Healey Act, manufacturer (FAR 22.606–1).
2	Subject to Walsh-Healey Act, regular dealer (FAR 22.606–2).

Code	Statutory requirements
3	Subject to Service Contract Act (FAR subpart 22.10).
4	Subject to Davis-Bacon Act (FAR 22.403–1).

(40) *Item 32—Standard Industrial Classification (SIC) Code* (4 positions). Enter the code identifying the industry category within which the principal (determined by the predominance of dollars awarded) product produced or distributed or services rendered would best fit. Industry categories are published in the Standard Industrial Classification Manual maintained and issued by the Office of Management and Budget (OMB). A listing of the SIC codes, without the detailed lists of products and services falling within each category, can be found at FAR 19.102(g).

(41) *Item 33—Contract administration delegated*. Enter "Y" (yes) or "N" (no) in the first blank to indicate whether any contract administration functions have been delegated to another Government agency (see FAR subpart 42.2). If an "N" was entered, leave the rest of this field blank. If a "Y" was entered, continue to the second blank and enter a "Y" or "N" to indicate whether there was a blanket delegation. A blanket delegation is defined as a delegation of all contract administration functions listed in FAR 42.302(a), with the exception of those non-assignable functions specified in 1842.202(c), plus post award audit. If not a blanket delegation, enter a "Y" for each individual function delegated among the ten items listed. It is not necessary to enter an "N" for non-delegated functions.

(42) *Item 34—Preference program*. Report the code that represents the preference program used in making the award. Report Code H if no preference program applies or the preference program is not otherwise listed.

(i) Code A—Directed to sheltered workshops. Report this code for an award to a workshop for the blind or a workshop for the other severely handicapped pursuant to FAR subpart 8.7.

(ii) Code B—8(a) Program. Report this code for actions with the Small Business Administration pursuant to FAR subpart 19.8.

(iii) Code C—Combined labor surplus/small business set-aside. Report this code for a combined labor surplus area and small business set-aside award made to a small business concern pursuant to FAR subpart 19.5.

(iv) Code D—Small business set-aside. Report this code for a small business set-aside (including Small Business Innovation Research (SBIR)) award made pursuant to FAR subpart 19.5.

(v) Code E—Labor surplus area set-aside. Report this code for a labor surplus area set-aside award made pursuant to FAR subpart 20.2.

(vi) Code F—Tie-bid preference. Report this code for all tie-bid preference awards (see FAR 19.202–3) made pursuant to FAR subpart 19.5.

(vii) Code G—Designated entities set-aside. Report this code for awards set-aside for disadvantaged business, women-owned business, HBCU's, and other minority institutions. (This covers the 26 procurements authorized by the D&F signed by the Administrator on December 1, 1992.)

(viii) Code H—No preference program. Report this code if the award is not made pursuant to a preference program, or if the preference program is not listed in this paragraph (b)(42).

(43) *Item 35—Advisory/Assistance services contract* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract is for advisory and assistance services.

(44) *Item 36—Support services type contract* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract is for support services. This includes on- or near-site performance where the services are a major element of the contract. It excludes:

(i) Construction, alteration, and repair;

(ii) Small purchases and incidental services;

(iii) Prime product development contracts;

(iv) Operations support contracts, i.e., effort at major facilities associated with carrying out mission operations; tracking station operations; and support funded by STS operations; and

(v) Tenants.

(45) *Item 37—Cost Accounting Standards clause* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract contains the Cost Accounting Standards clause (see FAR 30.201–4).

(46) *Item 38—New technology or patent rights clause* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether a new technology or patent rights clause is included in the contract. (See 1827.373). A "Y" entry for contracts with small businesses, nonprofit organizations, and educational institutions will indicate a patent rights clause. A "Y" entry for contracts with large businesses will indicate a new technology clause.

(47) *Item 39—Subcontracting program plan* (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract contains a subcontract plan requiring the contractor to furnish the information prescribed on Standard Forms 294 and 295 (see 1804.674 and FAR 19.702). Enter "W" (waiver) when there are no subcontracting opportunities, for contracts performed entirely outside the United States, and for GSA Federal Supply Schedule contracts containing plans. Use Code "Y" for corporate plans with individual contract goals.

(48) *Item 40—SBIR award* (1 position). Enter "N" (no) if the contract action is not in support of the Small Business Innovation Research (SBIR) Program (Pub. L. 97–219). Enter Code "1" if the contract action is related to a Phase I contract in support of the program. Enter Code "2" if the contract action is related to a Phase II contract in support of the program. Enter Code "3" for Phase III SBIR contracts. Phase II SBIRs and SBIRs funded by agencies other than NASA should use PPC Code GF.

(49) *Item 41–STTR award* (1 position). Enter Code "N" (no) if the contract action is not in support of the Small Business Technology Transfer (STTR) Program (Pub. L. 102–564).

Enter Code "1" if the contract action is related to a Phase I contract in support of the program. Enter Code "2" if the contract action is related to a Phase II contract in support of the program.

(50) *Item 42—Contract for foreign government or international organization*. Enter "Y" (yes) if a foreign government or international organization is bearing any part of the cost of the action. Otherwise, enter "N" (no).

(51) *Item 43—Management reporting requirements (MRR): correlated cost and performance data reporting* (1 position). Enter one of the following codes (see NHB 9501.2):

Code	Reporting required
N	None required.
2	NASA Form 533M only.
3	NASA Forms 533M and 533Q.
4	NASA Forms 533M and 533P.
5	NASA Forms 533P and 533Q.
6	NASA Forms 533M, 533P, and 533Q.

(52) *Item 44—Management reporting requirements (MRR): property and space hardware reporting* (1 position). Enter one of the following codes (see FAR 45.505–11):

Code	Reporting required
N	None required.
2	NASA Form 1018, without space hardware.
3	NASA Form 1018, with space hardware.

(53) *Item 45—Trade data* (3 blocks).

(i) First block—number of bidders offering foreign item (1 position). Enter one numeric code (0–9) to indicate the number of firms that offered foreign end products. An entry is required regardless of whether the Buy American Act is invoked or not. If none, enter "0". If 9 or more, enter "9".

(ii) Second block—Percent difference (2 positions). If the evaluation factor under the Buy American Act is used and results in award to a firm offering a domestic product, enter the percentage difference between the award price and that of the low firm offering a foreign end product, computer before application of the Buy American Act differential, i.e., the difference divided by the price of the low firm offering a foreign end product. Enter the percentage as a whole number. If the evaluation factor under the Buy American Act is not used, enter "00".

(iii) Third block—Country of manufacturer (2 positions). If the product is manufactured, mined, or grown in the United States (the 50 states and the District of Columbia) or the service is performed by a U.S. contractor, enter "US". If the product is manufactured, mined, or grown in a foreign country, enter the code from FIPS PUB 10–3 of that country/area. In the case of a service, if the service is performed by a foreign contractor, enter the code from FIPS PUB 10–3 of that country/area. This publication may be obtained from the Headquarters Office of Procurement, Analysis Division (Code HC).

(54) *Item 46—Demonstration test program* (1 position). Enter "Y" or "N" to indicate whether the award is a new contract awarded to a U.S. business concern as a result of a solicitation issued on or after January 1, 1989, under the Small Business Competitiveness Demonstration Program (see FAR subpart 19.10 and 1819.10). This item must be completed for awards to large businesses as well as for awards to small businesses.

(55) *Item 47—Emerging small business* (1 position). Complete this item only if Item 46 is coded "Y." Enter "Y" or "N" to indicate whether the contractor represents that it is an emerging small business concern (see FAR 19.1002 for definition of emerging small business).

(56) *Item 48—Emerging small business reserve award* (1 position). Complete this item only if Item 46 is coded "Y." Enter "Y" or "N" to indicate whether the contract award was reserved for emerging small business concerns.

(57) *Item 49—Size of small business* (1 position). Complete this item only if Item 46 is coded "Y" and the award is to a small business. Enter the code that corresponds to the range of the number of employees or the range of the average annual gross revenue for the small business contractor receiving the award as represented by the contractor in response to the solicitation.

(58) *Item 50—Value Engineering Clause*. Enter "Y" (yes) or "N" (no) to indicate whether the contract contains any one of the value engineering clauses at FAR 52.248–1, 52.248–2, or 52.248–3.

(59) *Item 51—Effective date*. Enter the year, month, and day (two numerics each) of the contract's effective date.

(60) *Item 52—Security code* (1 position). Enter "Y" or "N" to indicate whether Defense Industrial Security clearances are required during contract performance.

(61) *Item 53—Equipment code* (1 position). Enter "Y" or "N" to indicate whether the contract will involve government furnished or contractor acquired property.

(62) *Item 54—Administrator code* (3 positions). Enter the code which identifies the individual at the contracting installation responsible for administration of the contract.

(63) *Item 55—Contracting officer code* (3 positions). Enter the code which identifies the contracting officer assigned to the contract.

(64) *Item 56—Negotiator code* (3 positions). Enter the code which identifies the individual responsible for negotiating the contract.

(65) *Item 57—COTR name* (15 positions). Enter the name of the Contracting Officer's Technical Representative (COTR) for the contract.

(66) *Item 58—Organization code* (5 positions). Enter the organization code for the responsible technical organization for which the contract has been awarded.

(67) *Item 59—Contract fund code* (1 position). Enter the appropriate code to indicate whether the contract is fully funded, incrementally funded, or unfunded.

(68) *Item 60—Reason not small business* (2 positions). Enter the appropriate two digit code to identify the reason the contract was not awarded to a small business concern.

(69) *Item 61—FIP Resources Decision Document* (1 position). Enter FRDD number, if applicable.

(70) *Item 62—KMA number* (7 positions). Enter the Delegation of Procurement Authority case number assigned by GSA for FIP Resources (KMA–xx–yyyy(–y)), if applicable.

(71) *Item 63—Center unique*. This field may be used at the discretion of individual centers to collect data not elsewhere reported on the form (e.g., taxpayer identification numbers). Otherwise leave this time blank.

(72) *Item 64—Cancellation date* (6 positions). If it is necessary to cancel a previously executed modification, enter the year, month, and day (two numerics each) of such cancellation.

(73) *Item 65—Total contract value including options*. Enter the definitized contract value (including maximum potential fee or profit) plus the value of any options (including maximum potential fee or profit) available in the contract. Round entries to the nearest whole dollar.

(74) *Item 66—Estimated cost or fixed price* (11 positions). Enter the estimated cost or fixed price for all new awards. For modifications, enter only the increase or decrease effected by the respective modification. For cost-reimbursement contracts, enter the estimated cost, exclusive of fee. For fixed-price contracts, enter the total fixed price, including the negotiated profit. For time-and-materials and labor-hour contracts, enter the total estimated contract price, including profit. Round all entries to the nearest whole dollar. Do not report amounts for priced options that have not been exercised in this field.

(75) *Item 67—Fee* (11 positions). This item pertains to cost-reimbursement contracts only. For new awards, enter the definitized negotiated fee, broken down into the types of fee indicated on the form. For modifications, enter only the increase or decrease effected by the respective modification. For incentive contracts, enter the target fee. For award-fee contracts, enter the base fee plus the maximum, available award fee. Also enter the total of the different types of fees reported. Round entries to the nearest whole dollar.

(76) *Item 68—Action obligation*. Enter the dollar amount obligated (increase or decrease) of the reported action. Report obligations for cost and fee separately and enter the total obligations reported. Round entries to the nearest whole dollar.

(77) *Item 69—Funded through date* (6 positions). For incrementally funded contracts, enter the date through which the contract is funded.

(78) *Item 70—Delegation of Procurement Authority ceiling amount* (11 positions). Enter DPA ceiling amount, if applicable.

(79) *Item 71—FIRMR Applicability* (1 position). Indicate whether the FIRMR applies to the procurement.

(60) *Item 72—Delegation of Procurement Authority expiration date* (6 positions—YYMMDD). Enter the date that the DPA expires, if applicable.

16. Section 1804.671–6 is revised to read as follows:

1804.671–6 Special procurement placement codes (PPC's) for certain procurements.

(a) The accounting copies for all procurements of $25,000 or less from "Disadvantaged Business Firms-Direct" shall be coded with the second letter "M" in the PPC; e.g., BM or KM.

(b) The accounting copies for all procurement of $25,000 or less from "Women-Owned Business Firms" shall be coded with the second letter "W" in the PPC; e.g., BW or KW.

(c) All procurement awards over $25,000 and the accounting copies for procurement actions of $25,000 or less (no NASA Form 507 is required) placed through the Small Business Administration with a disadvantaged business firm under section 8(a) of the Small Business Act shall be coded with PPC "PS" for noncompetitive and "PF" for competitive. The accounting copies for all procurements (except FSS orders) of $2,500 or less shall be coded with PPC's CC, EC, HC, IC, LC, MC, OC, PC, VC, or ZC.

17. Sections 1804.672 through 1804.675 are removed.

18. In section 1804.676, "(Code FEH)" is revised to read "(Code FET)".

PART 1812—CONTRACT DELIVERY OR PERFORMANCE

1812.103 [Amended]

19. In section 1812.103, the citations "1814.407 and 1815.1002" are revised to read "1814.408 and 1815.1003".

1812.302 [Amended]

20. In section 1812.302, paragraph (b) is revised to read as follows:

1812.302 General.

(a) * * *

(b) Additional regulatory guidance is available in "DPAS, Defense Priorities and Allocations System," Department of Commerce, International Trade Administration, Office of Industrial Resource Administration, Washington, DC 20250, October 1984, 66 pages (copies available from Department of Commerce), and the DOD Priorities and Allocations Manual, DOD 4400.1–M, May 1995. The DOC booklet contains the pertinent parts of 15 CFR part 700 and is the recommended guidance on the DPAS to contractors and suppliers receiving rated orders.

PART 1813—SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

Subpart 1813.4—Imprest Fund

1813.403, 1813.403–70, 1813.404, 1814.405 [Redesignated]

21. Sections 1813.403, 1813.403–70, 1813.404, and 1813.405 are redesignated as sections 1813.402, 1813.402–70, 1813.403, and 1813.404.

22. In paragraph (b) of the newly designated section 1813.402–70, the citation "FAR 13.403" is revised to read "FAR 13.402".

23. In paragraph ((b)(5) of the newly designated section 1813.403, the citation "1813.405(b)" is revised to read "1813.404(b)".

24. In paragraph (e)(3) of the newly designated section 1814.404, the citation "1813.404" is revised to read "1813.403".

1813.505–2 [Redesignated]

25. Section 1813.505–2 is redesignated as section 1813.505–1, and the section heading to the newly designated section 1813.505–1, "Agency order forms in lieu of Optional Forms 347 and 348" is revised to read "Optional Form (OF) 347, Order for Supplies or Services, and Optional Form (OF) 348, Order for Supplies or Services-Continuation".

1813.7003 [Amended]

26. In paragraph (a) of section 1813.7003, the citation "FAR 13.404" is revised to read "FAR 13.403".

PART 1814—SEALED BIDDING

Subpart 1814.4—Opening of Bids and Award of Contract

1814.406, 1814.406–3, 1814.406–4, 1814.407, 1814.407–1 [Redesignated]

27. Sections 1814.406, 1814.406–3 1814.406–4, 1814.407, and 1814.407–1 are redesignated as sections 1814.407, 1814.407–3, 1814.407–4, 1814.408, and 1814.408–1.

28. In paragraph (a) of the newly designated section 1814.407–3, the citation "FAR 14.406–3(a) and (b)" is revised to read "FAR 14.407–3(a) and (b)", the citation "FAR 14.406–3(d)" is revised to read "FAR 14.407–3(d)", and the citation "FAR 14.406–3(c)" is revised to read "FAR 14.407–3(c)".

29. In paragraph (b) of the newly designated section 1814.407–3, the citation "FAR 14.406–3(a)" is revised to read "FAR 14.407–3(a)".

30. In paragraph (c) of the newly designated section 1814.407–3, the citation "FAR 14.406–3" is revised to read "FAR 14.407–3".

31. In the newly designated section 1814.407–4, the citation "FAR 14.406–4(b) and (c)" is revised to read "FAR 14.407–4(b) and (c)" and the citation "FAR 14.406–4 (d)" is revised to read "FAR 14.407–4(d)".

PART 1815—CONTRACTING BY NEGOTIATION

1815.412 [Amended]

32. In section 1815.412, the section heading "Late proposals and modifications" is revised to read "Late proposals, modifications, and withdrawals of proposals".

1815.413 [Amended]

33. In paragraph (b) to section 1815.413, the citations "FAR 15.1003 and 1815.1003" are revised to read "FAR 15.1004 and 1815.1004".

Subpart 1815.10—Preaward, Award, and Postaward Notifications, Protests, and Mistakes

1815.1002, 1815.1003, 1815.1003–1, 1815.1003–2, 1815.1003–3, 1815.1003–4 [Redesignated]

34. Sections 1815.1002, 1815.1003, 1815.1003–1, 1815.1003–2, 1815.1003–3 and 1815.1003–4 are redesignated as sections 1815.1003, 1815.1004, 1815.1004–1, 1815.1004–2, 1815.1004–3 and 1815.1004–4.

35. In newly designated section 1815.1003, the citation "FAR 15.1002" is revised to read "FAR 15.1003".

36. In paragraph (a) to the newly designated section 1815.1004–2, the citation "FAR 15.1003" is revised to read "FAR 15.1004".

1819.502–3 [Amended]

37. In section 1819.502–3, paragraph (a)(1) is revised to read as follows:

1819.502–3 Partial set-asides.

(a)(1) Contracting officers shall require offers obtained from firms eligible for the set-aside portion of the requirement under the clause at FAR 52.219–7, Notice of Partial Small Business Set-Aside, to be in writing and to include agreement—

(i) On the price for the available set-aside quantity,

(ii) On the delivery schedule,

(iii) That all other terms and conditions of the solicitation apply to the set-aside award, and

(iv) To include the clause at FAR 52.215–2, Audit and Records—Negotiation.

* * * * *

PART 1825—FOREIGN ACQUISITION

Subpart 1825.9—Additional Foreign Acquisition Clauses

1825.901 [Amended]

38. Section 1825.901 is revised to read as follows:

1825.901 Omission of Audit Clause.

(a) The contracting officer's request to use the clause at FAR 52.215–2, with its Alternate III, shall consist of the proposed determination and findings (together with any relevant support information) prepared for the Administrator's signature. The procurement officer shall forward the package to the Associate Administrator for Procurement (Code HC).

(b) When the clause at FAR 52.215–2 is used with its Alternate III, the contracting officer shall prepare a written report in triplicate to be furnished to the Congress. The head of the installation concerned shall sign the report and forward it to the Associate Administrator for Procurement (Code HC), who shall submit it to the Administrator for the Administrator's signature and forwarding to Congress.

PART 1834—MAJOR SYSTEM ACQUISITION

1834.005–1 [Amended]

39. In section 1834.005–1, paragraph (k) is removed, and the existing paragraph (l) is redesignated as paragraph (k).

PART 1835—RESEARCH AND DEVELOPMENT CONTRACTING

1835.016–70 [Amended]

40. In paragraph (e)(9) of section 1835.016–70, the citation "1815.1003" is revised to read "1815.1004".

PART 1836—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

1836.304 [Amended]

41. In section 1836.304, the citation "1814.407–1(f)" is revised to read "1814.408–1(f)".

1836.602–5 [Amended]

42. In section 1836.602–5, the section heading "Short selection processes for contracts not to exceed the small purchase limitation" is revised to read "Short selection process for contracts not to exceed the simplified acquisition threshold".

PART 1852—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

1852.204–70 [Removed]

43. Section 1852.204–70 is removed.

PART 1870—NASA SUPPLEMENTARY REGULATIONS

Subpart 1870.1—NASA Acquisition of Investigations System

44. In the introductory text to section 1870.102, App. I, Chapter 5, paragraph 504, the citation "1815.1003" is revised to read "1815.1004".

Subpart 1870.3—NASA Source Evaluation

45. In section 1870.303, App. I, Chapter 4, paragraph 407, paragraph 8. is revised to read as follows:

1870.303 Source Evaluation Board Procedures.

* * * * *

Chapter 4 * * *

407 Initial Evaluation * * *

8. Notification of Unsuccessful Offerors. The contracting office shall notify each unsuccessful offeror in accordance with FAR 15.1002.

* * * * *

46. In section 1870.303, App. I, Chapter 6, paragraph 602, paragraph 1.a., the citation "FAR 15.1001" is revised to read "FAR 15.1002", and in paragraph 1.b. the citations "FAR 15.1001(c) and 15.1002" are revised to read "FAR 15.1002(c) and 15.1003".

RIN 0648–AH97

Sea Turtle Conservation; Restrictions Applicable to Shrimp Trawl Activities; Leatherback Conservation Zone

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This final rule establishes all inshore and offshore waters from Cape Canaveral, FL (28°24.6′ N. lat.) to the North Carolina-Virginia border (36°30.5′ N. lat.) as the leatherback conservation zone and provides for short-term closures of areas in that zone when high abundance levels of leatherback turtles are documented. Upon such documentation, NMFS will prohibit, in the closed areas, fishing by any shrimp trawler required to have a turtle excluder device (TED) installed in each net that is rigged for fishing, unless the TED installed is specified in the regulations as having an escape opening large enough to exclude leatherback turtles. This rule is necessary to reduce mortality of endangered leatherback sea turtles incidentally captured in shrimp trawls.

EFFECTIVE DATE: October 16, 1995.

ADDRESSES: Requests for a copy of the environmental assessment (EA) or the contingency plan, prepared for this rule should be addressed to the Chief, Endangered Species Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Charles A. Oravetz, (813) 570–5312, or Phil Williams, (301) 713–1401.

SUPPLEMENTARY INFORMATION:

Background

All sea turtles that occur in U.S. waters are listed as either endangered or threatened under the Endangered Species Act (ESA) of 1973. The Kemp's ridley (*Lepidochelys kempii*), leatherback (*Dermochelys coriacea*), and hawksbill (*Eretmochelys imbricata*) are listed as endangered. Loggerhead (*Caretta caretta*) and green (*Chelonia mydas*) turtles are listed as threatened, except for breeding populations of green turtles in Florida and on the Pacific coast of Mexico, which are listed as endangered. The incidental take and mortality of these species, as a result of fishing activities, have been documented in the Gulf of Mexico and along the Atlantic seaboard.

Under the ESA and its implementing regulations, it is prohibited to take sea turtles. The incidental taking of turtles during shrimp fishing in the Atlantic Ocean off the coast of the southeastern United States and in the Gulf of Mexico is excepted from the taking prohibition pursuant to sea turtle conservation regulations at 50 CFR 227.72, which include a requirement that shrimp trawlers have a NMFS-approved TED installed in each net rigged for fishing throughout the year. The use of TEDs significantly reduces mortalities of loggerhead, green, Kemp's ridley, and hawksbill sea turtles. Because leatherback turtles are larger than the escape openings of most NMFS-approved TEDs, use of these TEDs is not an effective means of protecting leatherback turtles.

As a result of their primarily pelagic existence, leatherbacks normally occur outside of areas where they would be subject to taking by shrimp trawlers. During most months of the year, leatherbacks are not abundant in shrimping areas, and only isolated incidents of taking by trawlers occur. However, the coastal waters of northern Florida, Georgia, South Carolina, and North Carolina experience relatively high abundance levels of leatherbacks as a periodic winter and spring phenomenon. When leatherback abundance is high and shrimp trawlers are fishing, leatherback stranding pulses have been documented on adjacent beaches. A NMFS Biological Opinion prepared for a revision to the sea turtle conservation regulations, published in the **Federal Register** on December 4, 1992, (57 FR 57348), specifically addressed episodic stranding events from Florida through North Carolina, and required NMFS to develop and implement a contingency plan to solve this problem.

A contingency plan for protection of leatherback turtles on the Atlantic seaboard that can be implemented, if necessary, was prepared in cooperation with State officials from Florida, Georgia, and South Carolina. The necessity for implementation of protective measures for leatherback turtles is expected to be on an annual basis but only for short periods of time in relatively small, specific areas at any one time. The plan considers several options to provide protection, and any or all of them may be implemented, if necessary. These options include: Closure of areas to all fishing, use of restricted tow times in lieu of TEDs, mandatory observers, and use of NMFS-approved TEDs with escape openings large enough to exclude leatherback turtles.

Aerial surveys have been conducted for sea turtles off the Florida and Georgia coasts since 1988 and off the coast of South Carolina since 1993. Beginning in December or January each year, concentrations of leatherback turtles occur in northeastern Florida waters. During the month of March, leatherbacks begin moving north and usually enter Georgia waters in late March or early April. Peak concentrations occur in Georgia waters during April and May and by mid-June the concentrations have left Georgia. Leatherback concentrations occur in waters off South Carolina from late April generally through the first part of June.

Shrimping occurs year round in northeastern Florida waters, but the activity levels during any given month may vary from year to year. Shrimp fishing is closed in the State waters of Georgia until June 1 of each year, but shrimping begins in Federal waters off Georgia generally in April or early May. The State of South Carolina opens its waters to shrimping between May 15 and June 30, depending upon the presence of shrimp. Shrimping in Federal waters off South Carolina generally begins in early May. Based upon leatherback turtle concentration information and normal shrimp fishing activities, the most likely period for shrimp vessel interactions with leatherbacks in the leatherback conservation zone is January through June each year.

Each spring for the last 2 years, NMFS has issued temporary 30-day restrictions establishing a leatherback conservation zone (58 FR 28790, May 17, 1993; 59 FR 23169, May 5, 1994; 59 FR 29545, June 8, 1994). An interim rule (60 FR 25620, May 12, 1995) was issued this past year to provide a mechanism for short-term protection, and NMFS published a proposed rule (60 FR 25663, May 12, 1995) to provide for a permanent framework to protect leatherback sea turtles.

Comments and Responses on the Proposed Rule

No comments were received on the proposed rule.

Requirements

This rule establishes a framework whereby short-term closures may be instituted on an expedited basis in order to protect leatherbacks. Specifically, the rule establishes all inshore and offshore waters of the Atlantic area from Cape Canaveral, FL (28°24.6′ N. lat.), to the North Carolina-Virginia border (36°30.5′ N. lat.) as the "leatherback conservation zone."

During the months of January through June, NMFS will conduct weekly aerial surveys of the leatherback conservation zone. If sightings of leatherback turtles during such surveys exceed 10 animals per 50 nautical miles (nm) (92.6 km) of trackline, the survey will be replicated within 24 hours, or as soon as practicable thereafter, to ensure that leatherback turtle presence is persistent in the area. If surveys demonstrate the continued presence of large concentrations of leatherbacks, NMFS will prohibit shrimp fishing in these specific areas by any shrimp trawler required to have a NMFS-approved TED installed in each net rigged for fishing, unless the TED installed is one of the NMFS-approved TEDs described below. Those TEDs have been determined to have escape openings large enough to exclude leatherbacks. In addition, owners and operators of vessels operating in closed areas with an allowed TED, as described below, will be required to register with the Director, Southeast Region, NMFS (Regional Director) in accordance with 50 CFR 227.72(e)(6)(iv)(A) through (F). Upon written request by the Regional Director, they will be required to carry a NMFS-approved observer aboard such vessel(s). A shrimp trawler in the leatherback conservation zone will be required to comply with the terms and conditions specified in such written request, as well as provide information on trawling hours, gear modifications and turtle captures.

Notice of specific area closures will be published in the **Federal Register** and will be effective upon filing of such notice for public inspection at the Office of the Federal Register. Closures will be announced immediately on the NOAA weather channel, in newspapers, and other media. Areas with high leatherback abundance, as documented by the aerial surveys, will be closed for a period of 2 weeks. A closed area will include all, or a portion of, inshore and offshore waters 10 nm (18.5 km) seaward of the COLREGS demarcation line, bounded by 1° lat. coinciding with the trackline. Shrimp trawlers in the leatherback conservation zone will be responsible for monitoring the NOAA weather channel for closure announcements. Shrimp trawlers may also call (813) 570–5312 for updated area closure information.

NMFS-Approved TEDs With Escape Openings Large Enough for Leatherback Sea Turtles

NMFS has approved modifications to the Taylor and the Morrison TEDs, as well as a modification to the single-grid hard TED, that will allow leatherback turtles to escape the trawl. Descriptions of the Taylor and Morrison TED modifications are found at 50 CFR 227.72(e)(4)(iii)(E), and the modified single-grid hard TED is described at 50 CFR 227.72(e)(4)(i)(G)(*2*)(*ii*).

Classification

This rule has been determined to be not significant for purposes of E.O. 12866.

This rule establishes a registration program that contains a collection-of-information requirement subject to the Paperwork Reduction Act, namely, registration by vessels fishing in the

leatherback conservation zone from Cape Canaveral, FL, to the Virginia-North Carolina border. This collection has been approved by Office of Management and Budget under control number 0648–0267. The public reporting burden for this collection of information is estimated to average 7 minutes per response, including the time needed for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The Assistant Administrator for Fisheries, NOAA,(AA) prepared an EA for the interim rule (60 FR 25620, May 12, 1995) and concluded that, with specified mitigation measures, it will have no significant impact on the human environment. The AA has determined that the EA prepared for the interim rule is applicable to this final rule. Copies of the EA are available (see **ADDRESSES**).

Authority: 16 U.S.C. 1531–1544; and 16 U.S.C. 742a *et seq.*, unless otherwise noted; 16 U.S.C. 1531–1543; and 16 U.S.C. 1531 *et seq.*

Dated: September 7, 1995.

Rolland A. Schmitten,

Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set out in the preamble, the interim rule amending 50 CFR parts 217, 222, and 227, which was published at 60 FR 25620 on May 12, 1995, is adopted as a final rule without change.

BILLING CODE 3510-22-F

Proposed Rules

Federal Register
Vol. 60, No. 178
Thursday, September 14, 1995

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

[Docket No. PRM–50–62]

Nuclear Energy Institute; Receipt of a Petition for Rulemaking

AGENCY: Nuclear Regulatory Commission.

ACTION: Petition for rulemaking; Notice of receipt.

SUMMARY: The Nuclear Regulatory Commission (NRC) has received and requests public comment on a petition for rulemaking filed by the Nuclear Energy Institute (NEI) on behalf of the nuclear power industry. The petition has been docketed by the Commission and assigned Docket No. PRM–50–62. The petitioner requests that the NRC amend its regulations regarding quality assurance programs to permit nuclear power plant licensees to change their quality program described or referenced in a licensee's Safety Analysis Report (SAR) without prior NRC approval under specified conditions. The petitioner believes that this amendment would improve the regulatory process and increase the safety of commercial nuclear power plants through a more efficient use of agency and industry resources.

DATES: Submit comments by November 28, 1995. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except to those comments received on or before this date.

ADDRESSES: For a copy of the petition, write: Rules Review Section, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

Submit comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001. Attention: Docketing and Services Branch.

Deliver comments to 11555 Rockville Pike, Rockville, Maryland, between 7:45 am and 4:15 pm on Federal workdays.

Electronic Access, see **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Michael T. Lesar, Office of Administration, U.S. Nuclear Regulatory Commission, Washingtion, DC 20555–0001. Telephone: 301–415–7163 or Toll Free: 800–368–5642.

SUPPLEMENTARY INFORMATION:

Electronic Access

Comments may be submitted through the Internet by addressing electronic mail to INTERNET:SECY@NRC.GOV. Comments may also be submitted electronically, in either ASCII text or WordPerfect format (version 5.1 or later), by calling the NRC Electronic Rulemaking Bulletin Board (BBS) on FEDWORLD.

The BBS is an electronic information system operated by the National Technical Information Service of the Department of Commerce. The purpose of this bulletin board BBS is to facilitate public participation in the NRC regulatory process, particularly rulemakings. With publication of this notice, proposed rulemakings and appropriate supporting documents will be available for review and comment on the BBS. These same documents are also available for review and comment at the NRC's Public Document Room, 2120 L Street, N.W. (Lower Level), Washington, DC. The BBS may be accessed using a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet.

The NRC rulemaking bulletin board (rulemaking subsystem) on FEDWORLD can be accessed directly by using a personal computer and modem, dialing the toll free number at 1–800–303–9672. Communication software parameters should be set as follows: parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT–100 terminal emulation, the NRC rulemaking subsystem can then be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." For further information about options available for NRC at FEDWORLD consult the "Help/Information Center" from the "NRC Main Menu." Users will find the "FEDWORLD Online User's Guides" particularly helpful. Many NRC subsystems and databases also have a "Help/Information Center" option that is tailored to the particular subsystem.

The NRC subsystem on FEDWORLD also can be accessed by a direct dial phone number for the main FEDWORLD BBS at 703–321–3339; or by using Telnet via Internet: fedworld.gov. Using the 703 number to contact FEDWORLD, the NRC subsystem will be accessed from the main FEDWORLD menu by selecting the "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mall." At that point, a menu will be displayed that has the option "U.S. Nuclear Regulatory Commission" that will take you to the NRC Online main menu. The NRC Online area also can be accessed directly by typing "/go nrc" at a FEDWORLD command line. If you access NRC from FEDWORLD's main menu, then you may return to FEDWORLD by selecting the "Return to FEDWORLD" option from the NRC Online Main Menu. However, if you access NRC at FEDWORLD by using NRC's toll-free number, then you will have full access to all NRC systems, but you will not have access to the main FEDWORLD system.

If you contact FEDWORLD using Telnet, you will see the NRC area and menus, including the "Rules Menu." Although you will be able to download documents and leave messages, you will not be able to write comments or upload files. If you contact FEDWORLD using File Transfer Program (FTP), all files can be accessed and downloaded, but uploads are not allowed, and all you will see is a list of files without descriptions (normal Gopher look). An index file listing all files within a subdirectory, with descriptions, is available. There is a 15-minute time limit for FTP access.

Although FEDWORLD also can be accessed through the World Wide Web as well, like FTP, that mode only provides access for downloading files, and does not display the NRC "Rules Menu."

For more information on NRC bulletin boards call Mr. Arthur Davis, Office of Information Resources Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415–5780; e-mail AXD3@nrc.gov.

The Petitioner

The petitioner is the Nuclear Energy Institute (NEI). NEI represents that it is responsible for establishing unified nuclear industry positions on matters affecting the nuclear energy industry, including the regulatory aspects of generic operational and technical issues. NEI's members include all utilities licensed to operate commercial nuclear power plants in the United States, nuclear power plant designers, major architect/engineering firms, fuel fabrication facilities, nuclear materials licensees, and other organizations and individuals involved in the nuclear energy industry.

Background

The NRC received an NEI petition for rulemaking on June 12, 1995. The petition is dated June 8, 1995, and was docketed as PRM–50–62 on June 19, 1995. The petitioner requests that the NRC amend its regulations in 10 CFR 50.54(a) to permit licensees to make certain changes to their quality assurance programs without prior approval from the NRC. The petitioner believes that this will change the quality assurance process consistent with the change process for other matters described in the SAR.

Discussion of the Petition

The petition states that the current § 50.54(a) allows NRC licensees to change their quality assurance programs as long as any prior commitment in that program is not reduced. The petitioner believes that if a commitment is to be reduced, a licensee needs NRC approval prior to implementation. The petitioner believes that this requirement is sometimes interpreted by the NRC as requiring NRC prior approval for any changes in the quality program, no matter the degree of safety significance. The petitioner believes that prolonged and sometimes unnecessary regulatory interactions often occur centered on the correct interpretation of the term "reduction in commitment." The petitioner cites the following examples of topics that have been the subject of concern in the past:

- Changes in the level of approval of administrative, implementation or policy procedures, regardless of the safety significance.
- Changes in the company organization as it is described in the licensee's original quality plan.
- Changes to audit, review or surveillance frequencies that have minimal, if any, safety significance.
- Adoption of a more recent national standard that may, or may not, have been endorsed by the NRC staff that results in a different implementation methodology, yet fulfills the same function and achieves the same objective as the original standard described in the quality program description through the use of enhanced technology or other developments.
- Adoption of different, more effective and efficient quality processes than those described in a licensee's original quality plant based on the safety significance and past operating performance.

The petitioner believes that the current provisions of § 50.54(a) related to the quality assurance program change process are inconsistent with the requirements associated with other changes to the SAR (see § 50.59).

The petitioner believes that a licensee's inability to adjust its quality assurance program descriptions and commitments without prior NRC approval is a significant administrative burden on a licensee and can distract a licensee and the NRC from more significant safety matters. The petitioner also believes that the proposed amendment would improve regulatory consistency by instituting the same type of change process for the quality assurance program described or referenced in the SAR (i.e., a change process similar to the process delineated in § 50.59). The petitioner believes that the proposed amendment ensures that the attention and resources of NRC and industry would be more appropriately and effectively focused on issues that could have an adverse effect on public health and safety.

The petitioner further believes that the proposed amendment is consistent with the overall objectives of the 1993 Report of the National Performance Review, conducted by the Vice President of the United States, and the 1995 congressional initiatives on improving Federal regulations. In conjunction with phase two of the NRC's national performance review study, a review of current NRC regulations has been performed to identify regulations that are obsolete, unnecessarily burdensome, too prescriptive, or that overlap or duplicate other regulations.

The petitioner states that the NRC's Regulatory Review Group (RRG), in its review of power reactor regulations and related processes, programs, and practices, identified specific examples of inconsistency and incoherence in the current regulations and their associated administrative requirements. The RRG also provided recommendations for improvement. The petitioner states that, in some of the areas reviewed by the RRG, licensees are responsible for controlling specific activities that are very similar in nature to the quality assurance process; however, these other activities are subject to different regulatory constraints, reporting, and record retention requirements.

The petitioner cites the following examples that the regulatory review group provided in its report of August 1993:

- Changes that can be made by a licensee to a facility or procedures without prior NRC approval if the change does not require a change to the Technical Specifications or involve an unreviewed safety question * * *.
- Changes that can only be made to a licensee's quality assurance program described or referenced in the SAR without prior NRC approval if they do not reduce commitments in the program description previously accepted by the NRC, even if the changes do not affect the Technical Specifications, involve unreviewed safety questions, or have any adverse safety significance * * *.
- Varying record retention and reporting frequencies for activities of a similar nature, such as those associated with quality assurance and changes to the SAR.

The petitioner agrees with the NRC's RRG finding that there is no reason for these inconsistencies in the NRC's regulations. The petitioner believes that regulatory effectiveness would be improved, the burden on licensees and the NRC reduced, and regulatory coherence enhanced if there were a consistent change process for changes to the facility, its procedures, tests and experiments, or other matters as described in the SAR.

The petitioner states that in the development of a more efficient and effective quality regime, it is important that licensees not be discouraged by an unnecessary administrative burden of seeking prior NRC approval when a change is of no regulatory significance (i.e., does not result in non-compliance with the NRC's regulations, a change to the technical specifications, or an unreviewed safety question). The petitioner also states that in an evolving technological environment, each licensee should be allowed the opportunity to respond to improvements in technology, industry operating experiences, and new operational or technical information by making changes to its quality assurance program that do not degrade protection of the public health and safety without the need for administrative and managerial regulatory interactions.

The petitioner states that the proposed amendment does not introduce a new type of change process. The petitioner believes that the proposed amendment is based on a well-tried and proven process for making changes to a facility, its procedures, tests, or activities that are described or referenced in the SAR. Compliance with the regulations to ensure proper control of a facility and the quality program associated with the protection of public health and safety is still provided by the adoption of a change process that is similar to the established § 50.59 process.

Section 50.59, Changes, tests and experiments, allows the holder of a license authorizing operation of a production or utilization facility to (i) make changes in the facility as described in the SAR, (ii) make changes in the procedures as described in the SAR, and (iii) conduct tests or experiments not described in the SAR, without prior Commission approval, unless the proposed changes, tests, or experiments, involve a change in the technical specifications incorporated into the license or an unreviewed safety question.

The petitioner believes that its proposed amendment would allow the licensee to have the authority to change its quality program if analysis, as described in § 50.59, demonstrates that a proposed change does not involve an unreviewed safety question or change the technical specifications. The petitioner states that the analysis to support this determination would be consistent with that required to support other types of changes to an SAR; therefore, it would be based on the well-proven and established industry guidance.

The petitioner believes that if the analysis of a proposed change to the quality assurance program indicates that any unreviewed safety questions may be involved, a licensee would either decide not to institute the change or submit the change for NRC approval before implementation. For changes involving an unreviewed safety question, the complete change, including the safety evaluation, would be submitted in accordance with the requirements of § 50.90.

The petitioner states that the proposed amendment would maintain the requirements of § 50.4, requiring licensees to submit a report containing a summary description of the changes to the quality assurance program described or referenced in the SAR. The petitioner states that the report would be submitted annually, or along with the FSAR updates as required by § 50.71(e), or at shorter intervals as determined by each licensee. The petitioner states that licensees would maintain records of the changes as facility records for 5 years, a period that is consistent with other similar NRC regulations (e.g. § 50.59).

The NEI did not address the impact of removing § 50.4(b)(7)(i) from the Commission's regulations or why NEI believes the deletion is necessary.

The petitioner's suggested amendment would require that only a summary, not a detailed safety evaluation, be submitted to the NRC for changes that do not involve a Technical Specification change or an unreviewed safety question. The petitioner believes that this is consistent with the requirements of similar regulations (§ 50.59). The petitioner also believes that the proposed amendment would require that licensees maintain records of these evaluations until the termination of the license.

The petitioner has provided supplemental analyses to facilitate the NRC's consideration of the effect of the proposed action on the environment and small business entities, as well as the paperwork burden on all entities that would be affected by the change. NEI also included analyses to assist NRC in its consideration of the need for a regulatory analysis or application of the backfit rule to this rulemaking.

The NRC is soliciting public comment on NEI's petition requesting the changes to regulations in 10 CFR Part 50 as discussed below.

The Petitioner's Proposed Amendment

The petitioner recommends the following amendments to 10 CFR Part 50.

§ 50.4 [Amended]

1. In § 50.4, paragraph (b)(7)(i) and the designation for paragraph (b)(7)(ii) are removed.

* * * * *

2. In § 50.54, paragraph (a) is revised to read as follows:

§ 50.54 Conditions of licenses.

(a)(1) Each nuclear power plant or fuel reprocessing plant licensee shall implement a quality assurance program pursuant to § 50.34(b)(6)(ii) of this part, as described or referenced in its Safety Analysis Report.

(2) Each licensee described in paragraph (a)(1) of this section may make a change to a previously accepted quality assurance program description included or referenced in its Safety Analysis Report without prior Commission approval unless the proposed change involves a change to the technical specifications incorporated in the license or involves an unreviewed safety question.

(i) A change shall be deemed to involve an unreviewed safety question (A) if the probability of occurrence or the consequences of an accident or malfunction of equipment important to safety previously evaluated in a licensee's Safety Analysis Report may be increased; or (B) if a possibility for an accident or malfunction of a different type than any previously evaluated in a licensee's Safety Analysis Report may be created; or (C) if the margin of safety as defined in the basis for any technical specification is reduced.

(ii) When changes are made to a previously accepted quality assurance program description, a licensee shall submit, as specified in § 50.4, a report containing a brief description of the change, including a summary of the safety evaluation of each change. The report may be submitted annually, or along with FSAR updates as required by § 50.71(e), or at shorter intervals as determined by each licensee.

(iii) Records of changes to the quality assurance program shall be maintained as facility records for five years.

(3) For changes to the quality assurance program description that involve an unreviewed safety question, licensees shall submit the proposed change to the NRC for approval before implementation. The licensee shall submit the application to amend the quality assurance program pursuant to the requirements of § 50.90.

(4) For changes that involve a change to the technical specifications, a licensee shall submit an application for a license amendment pursuant to § 50.90.

* * * * *

Specific Areas for Public Comment

In addition to commenting on the petition for rulemaking (petition) presented above, the NRC staff is soliciting specific comments on the issues presented below. Because the NRC staff has not yet developed its positions on the petition, it is soliciting these comments to obtain information that it may consider in developing future rulemakings that provide procedures for licensees to make changes to its quality assurance program.

1. 10 CFR 50.54(a) was issued on January 10, 1983, to correct instances where licensees had changed their programs that resulted in some unacceptable programs without informing the NRC. What assurances exist to prevent a similar situation from recurring if the petition and the revised threshold for reporting QA program changes is adopted? Is it necessary that such situations be prevented from occurring by adoption of a regulatory approval system?

2. Traditionally, the NRC staff has used a variety of documents such as the NRC Standard Review Plan, NRC Regulatory Guides, and associated industry consensus standards to delineate what QA program elements are necessary to meet Appendix B. Should these standards continue to be used to define acceptable QA programs? Should a licensee QA program change that constitutes a departure from a commitment to comply with a specific regulatory position be considered of sufficient importance that the NRC should be notified in advance of implementation? How would such changes be evaluated under the petitioner's proposed criterion?

3. The NRC has allowed licensees to relocate administrative controls for review and audit functions from the technical specifications. Examples include details on safety review committees, audits, and technical review functions. These have been relocated to the QA program based on the existing change control provisions in § 50.54(a). Would it be appropriate for activities such as safety review committees, independent technical review groups, and audits to be controlled so that only licensee changes exceeding the threshold of an unreviewed safety question (USQ) be reported to the NRC for pre-review before implementation? What kind of changes to a licensee's QA program would constitute a USQ? Assuming that the USQ should/could be applied, does not the use of § 50.59 effectively negate the administrative and regulatory advantage of removing this information from technical specifications (because both technical specification changes and USQs are subject to an opportunity for hearing)? If the revised QA change control mechanism is adopted should aspects of the review and audit functions remain in the QA program or be relocated elsewhere to ensure appropriate NRC review of changes prior to implementation?

4. Are there alternative thresholds for determining whether a licensee must submit their QA program changes for advance review in lieu of the USQ threshold? Provide a technical and/or policy explanation as to why this or any other threshold would be more appropriate.

5. The NRC Regulatory Review Group (RRG) examined change control mechanisms in § 50.54 for control of licensee plans and programs (quality assurance, security, and emergency preparedness). The RRG recommended that licensees should have greater flexibility to make changes in their programs without having to receive prior NRC approval. Currently, QA program changes that "reduce the commitments in the program" are submitted for NRC staff review before implementation. Similarly, security plan changes that "decrease the effectiveness" are submitted for staff review before implementation. Should the staff consider a revision to § 50.54(a) to set the threshold for reporting QA program changes for NRC pre-review that constitute a decrease in effectiveness? Would a "decrease in effectiveness" standard in § 50.54(a) provide a sufficiently flexible and technically reasonable criteria for licensees to report QA program changes to the staff before implementation?

6. Should the NRC staff consider retaining the current language of § 50.54(a) and to define explicit guidance or identify examples on what types of QA program changes would be considered to "reduce the commitments in the program"? By developing this guidance could sufficient flexibility be afforded to licensees to make changes in their QA program without having to undergo a pre-review by the staff?

7. The petition proposes to apply a § 50.59 process to evaluate QA program changes to determine the necessity for pre-review by the staff. Industry guidance for § 50.59 exists within NSAC–125 "Guidelines for § 50.59 Safety Evaluations." NSAC–125 appears to contain little relevant guidance that would be helpful for determining whether QA programmatic changes would constitute a USQ that requires NRC pre-review of the change. In particular, Section 4.2 of NSAC–125 deals principally with evaluating changes associated with nuclear plant equipment and not programmatic controls. Is existing guidance for processing 10 CFR 50.59 evaluations sufficient for evaluating QA program changes? What factors or aspects of the existing industry guidance would need to be supplemented? What types of QA program changes would be necessary to report to the NRC if the current § 50.59 criteria were applied to QA program changes? What are examples of QA program changes that should be considered as meeting the USQ threshold?

8. Would protection of the public health and safety be enhanced if the petition were granted, and if so, in what way? What licensee and NRC costs would be reduced, or increased, if the petition were granted?

Dated at Rockville, Maryland, this 7th day of September, 1995.

For the Nuclear Regulatory Commission.

John C. Hoyle,

Secretary of the Commission.

BILLING CODE 7590-01-P

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 353

RIN 3064–AB63

Suspicious Activity Reporting

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Deposit Insurance Corporation (FDIC) is proposing to revise and restructure its regulation on the reporting of suspicious activities by insured state nonmember banks, including the reporting of suspicious financial transactions, such as suspected violations of the Bank Secrecy Act (BSA). This proposal implements a new interagency suspicious activity referral process and updates and clarifies various portions of the underlying reporting regulation. The proposal also reduces substantially the burden on banks in reporting suspicious activities while enhancing access to such information by both the federal law enforcement and the federal financial institutions supervisory agencies, thus meeting the goals of section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994.

DATES: Comments must be received by November 13, 1995.

ADDRESSES: Written comments shall be addressed to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429. Comments may be hand delivered to Room F–402, 1776 F Street NW., Washington, DC 20429, on business days between 8:30 a.m. and 5:00 p.m. [Fax number: 202/898–3838; (Internet address: comments@fdic.gov)] Comments will be available for inspection at the Corporation's Reading Room, Room 7118, 550 17th Street NW., Washington, DC between 9:00 a.m. and 4:30 p.m. on business days.

FOR FURTHER INFORMATION CONTACT: Carol A. Mesheske, Chief, Special Activities Section, (202/898–6750), or Gregory Gore, Counsel, (202) 898–7109.

SUPPLEMENTARY INFORMATION:

Background

The federal financial institutions supervisory agencies (the Agencies)[1] and the Department of the Treasury (Treasury), through its Financial Crimes Enforcement Network (FinCEN), are responsible for ensuring that financial institutions apprise federal law enforcement authorities of any known or suspected violation of a federal criminal statute and of any suspicious financial transaction. Suspicious financial transactions, which will be the subject of regulations and other guidance to be issued by Treasury, can include transactions that the bank suspects involved funds derived from illicit activities, were conducted for the purpose of hiding or disguising funds from illicit activity, otherwise violated the money laundering statutes (18 U.S.C. 1956 and 1957), were potentially designed to evade the reporting or recordkeeping requirements of the Bank Secrecy Act (BSA) (31 U.S.C. 5311 through 5330), or transactions the bank believes were suspicious for any other reason.

Fraud, abusive insider transactions, check kiting schemes, money laundering, and other crimes can pose serious threats to a financial institution's continued viability and, if unchecked, can undermine the public confidence in the nation's financial industry. The Agencies and federal law enforcement agencies need to receive timely and detailed information regarding suspected criminal activity to determine whether investigations, administrative actions, or criminal prosecutions are warranted.

An interagency Bank Fraud Working Group (BFWG), consisting of representatives from many federal agencies, including the Agencies and law enforcement agencies, was formed in 1984. The BFWG addresses substantive issues, promotes cooperation among the Agencies and federal and state law enforcement agencies, and improves the federal government's response to white collar crime in financial institutions. It is under the auspices of the BFWG that the revisions to this regulation and the reporting requirements are being made.

Suspicious Activity Report

The Agencies have been working on a project to improve the criminal referral process, to reduce unnecessary reporting burdens on banks, and to eliminate confusion associated with the current duplicative reporting of suspicious financial transactions in criminal referral forms and currency transaction reports (CTRs). Contemporaneously, Treasury analyzed the need to revise the procedures used by financial institutions for reporting suspicious financial transactions. As a result of these reviews, the Agencies and Treasury approved the development of a new referral process that includes suspicious financial transaction reporting.

To implement the reporting process, and to reduce unnecessary burdens associated with these various reporting requirements, the Agencies and FinCEN developed a new interagency form for reporting known or suspected federal criminal law violations and suspicious financial transactions. The new report is designated the Suspicious Activity Report (SAR). The SAR is a simplified and shortened version of its predecessors. The new referral process and the SAR reduce the burden on banks for reporting known or suspected violations and suspicious financial transactions. The agencies anticipate the new process will be instituted by October, 1995.

Proposal

The FDIC proposes to revise 12 CFR part 353 by updating and clarifying the current rule governing the filing of criminal referral reports; expanding the rule to cover suspicious financial transactions; implementing the new SAR; and simplifying reporting requirements. This action should improve reporting of known or suspected violations and suspicious financial transactions relating to federally insured financial institutions while providing uniform data for entry into a new interagency computer database. The FDIC expects that each of the other Agencies will be making substantially similar changes contemporaneously.

The principal proposed changes to the current criminal referral reporting rules include several notable changes. They include: (i) Raising the mandatory reporting thresholds for criminal offenses, thereby reducing banks' reporting burdens; (ii) filing only one form with a single repository, rather than submitting multiple copies to several federal law enforcement and banking agencies, thereby further reducing reporting burdens; and (iii) clarifying the criminal referral and reporting requirements of the Agencies and Treasury associated with suspicious financial transactions, thereby eliminating confusion concerning the filing of referrals related to suspicious financial transactions of less than $10,000 and eliminating duplicative referrals.

The proposal also involves the manner in which financial institutions file a SAR. In following the instructions on a SAR, banks may file the referral form in several ways, including submitting an original form or a photocopy or filing by magnetic means, such as by a computer disk.

The Agencies, working with FinCEN, are developing computer software to assist banks in preparing and filing SARs. The software will allow a bank to complete a SAR, to save the SAR on its computers, and to print a hard copy of the SAR for its own records. The computer software will also enable a bank to file a SAR using various forms of magnetic media, such as computer disk or magnetic tape. The FDIC will make the software available to all its supervised institutions free of charge.

Part 353—Suspicious Activity Reports

The title of the regulation has been changed to conform to the name on the SAR. The current part is titled "Reports of Apparent Crimes Affecting Insured Nonmember Banks". The proposed heading, "Suspicious Activity Reports", conforms to the name of the report.

Section 353.1 Purpose and Scope

The proposal restructures the current § 353.0, redesignates it as § 353.1, and clarifies the scope of the current rule. Under the proposal, the SAR replaces the various criminal referral forms that the Agencies currently require banks to file. Also, a bank files a SAR to report a suspicious financial transaction. Presently, many banks are confused over whether to file a CTR or a criminal referral form when a suspicious financial transaction occurs, and often needlessly file both forms or the wrong form.[2]

Combining suspicious financial transaction reporting and criminal referral reporting should reduce confusion, increase the accuracy and efficiency of reporting, and reduce the burden on banks in reporting known or

---

[1] The federal financial institutions supervisory agencies are the Office of the Comptroller of the Currency, the Office of Thrift Supervision, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the National Credit Union Administration.

[2] The BSA requires all financial institutions to file CTRs in accordance with the Department of the Treasury's implementing regulations (31 CFR part 103). Part 103 requires a financial institution to file a CTR whenever a currency transaction exceeds $10,000. If a currency transaction exceeds $10,000 and is suspicious, the bank, under these new requirements, will file both a CTR (reporting the currency transaction) and a SAR (reporting the suspicious criminal aspect of the transaction). If a currency transaction equals or is below $10,000 but is suspicious, the bank will file only a SAR.

suspected violations, including suspicious financial transactions.

Section 353.2 Definitions

Proposed new § 353.2 defines the following terms: "FinCEN", "institution-affiliated party", and "known or suspected violation". The definitions should make the rule easier to interpret and apply.

Section 353.3 Reports and Records

Proposed § 353.3, which replaces and restructures current § 353.1, clarifies and expands the provision that requires a bank to file a completed SAR. This provision raises the dollar thresholds that trigger a filing requirement. It also modifies the scope of events that a bank must report by using the term "known or suspected violation," which is defined at § 353.2(c), and by requiring that a bank file a SAR to report a suspicious financial transaction.

Under the current rule, the FDIC requires a bank to file a criminal referral form with many different federal agencies. The proposal requires a bank to file only a single SAR at one location, rather than the multiple copies of the criminal referral form that must now be filed with various federal agencies.

Under proposed § 353.3, a bank effectively files a SAR with all appropriate federal law enforcement agencies by sending a single copy of the SAR to FinCEN, whose address will be printed on the SAR.

FinCEN will input the information contained on the SARs into a newly created database that FinCEN will maintain. This process meets the regulatory requirement that a bank refer any known or suspected criminal violation to the various federal law enforcement agencies. The information is made available on computer to the appropriate law enforcement and supervisory agencies as quickly as possible. The database will enhance federal law enforcement and supervisory agencies' ability to track, investigate, and prosecute, criminally, civilly, and administratively, individuals suspected of violating federal criminal law. This change will reduce the filing burdens of banks.

The proposal modifies current § 353.1(a)(2), which requires reporting of known or suspected criminal activity when a bank has a substantial basis for identifying a non-insider suspect where bank funds or other assets involve or aggregate $1,000 or more. Proposed § 353.3(a)(2), which replaces current § 353.1(a)(2), raises the reporting threshold to $5,000, thereby reducing the reporting burden on banks.

The proposal also modifies current § 353.1(a)(3), which requires banks to report any known or suspected criminal violation involving $5,000 or more where the bank has no substantial basis for identifying a suspect. Specifically, proposed § 353.3(a)(3), which replaces current § 353.1(a)(3), raises the dollar reporting threshold from $5,000 to $25,000, thereby reducing the reporting burden on banks.

Proposed § 353.3(a)(4) clarifies the reporting requirement for any financial transaction, regardless of the dollar amount, that: (1) the bank suspects involved funds derived from illicit activity, was conducted for the purpose of hiding or disguising funds from illicit activity, or in any way violated the money laundering statutes (18 U.S.C. 1956 and 1957); (2) the bank suspects was potentially designed to evade the reporting or recordkeeping requirements of the BSA (31 U.S.C. 5311 through 5330); or (3) the bank believes to be suspicious for any reason.

Section 353.3(b) Time for Reporting

Proposed § 353.3(b), which replaces current § 353.1(b), sets forth the time requirements a bank must meet when filing a SAR. The proposal clarifies the reporting requirement in the event a suspect or group of suspects is not immediately identified. The proposal does not substantively change the current requirements.

Section 353.3(c) Reports to State and Local Authorities

No changes are being made to the current § 353.1(c), except to redesignate it as 353.3(c).

Section 353.3(d) Exemptions

No changes are being made to the current 353.1(d), other than to redesignate it as 353.3(d) and to delete the reference to § 326.3(a)(2)(i) of this chapter.

Section 353.3(e) Retention of Records

Proposed § 353.3(e) requires a bank to retain a copy of the SAR and the original of any related documentation relating to a SAR for a period of ten years. This time frame corresponds with the statute of limitations for most federal criminal statutes involving financial institutions. The current rule is silent on this issue.

The proposed 353.3(e) clarifies the requirement that banks make all supporting documentation available to appropriate law enforcement agencies upon request. The proposal requires the supporting documentation be identified and treated as filed with the SAR. This approach ensures federal law enforcement agencies and the Agencies, upon request, have access to any documentation necessary to prosecute a violation or pursue an administrative action by requiring banks to preserve underlying documentation for ten years.

Section 353.3(f) Notification to the Board of Directors

Current § 353.1(f) requires notification regarding the filing of a SAR to an insured state nonmember bank's board of directors by the bank's management. To reduce burdens on the boards of directors of banks, especially those large banks that file many SARs, the proposal recognizes that the required notification may be made to a committee of the board.

Section 353.3(g) Confidentiality of SARs

FDIC proposes to add a new paragraph relating to the confidentiality of a SAR. Proposed § 353.3(g) states that a SAR and the information contained in a SAR are confidential, and an insured state nonmember bank should decline to produce a SAR citing this regulation and applicable law (31 U.S.C. 5318(g)), or both.

Comments

The FDIC invites public comment on all aspects of this proposal.

Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act, the FDIC hereby certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities. This proposal primarily reorganizes the process for making criminal referrals and has no material impact on banks, regardless of size. Accordingly, a regulatory flexibility analysis is not required.

Paperwork Reduction Act

This proposed rule would revise a collection of information that is currently approved by the Office of Management and Budget (OMB) under control number 3064–0077. The revisions raise the reporting thresholds and will permit reporting institutions to use a simplified, shorter form; to file one form only; and to eliminate the submission of supporting documentation with a report. These revisions have been submitted to OMB for review and approval in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

The estimated average burden associated with the collection of information contained in a SAR is approximately .6 hours per respondent.

The burden per respondent will vary depending on the nature of the suspicious activity being reported.

Estimated Number of Respondents: 6,500.

Estimated Total Annual Burden Hours: 3,900.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Assistant Executive Secretary (Administration), Room F–400, Federal Deposit Insurance Corporation, Washington, DC 20429, and to the Office of Management and Budget, Paperwork Reduction Project (3064–0077), Washington, DC 20503.

List of Subjects in 12 CFR Part 353

Banks, banking, Crime, Currency, Insider abuse, Money laundering, Reporting and recordkeeping requirements.

For the reasons set out in the preamble, 12 CFR part 353 is proposed to be revised to read as follows:

PART 353—SUSPICIOUS ACTIVITY REPORTS

Sec.
353.1 Purpose and scope.
353.2 Definitions.
353.3 Reports and records.

Authority: 12 U.S.C. 1818, 1819.

§ 353.1 Purpose and scope.

The purpose of this part is to ensure that insured state nonmember banks file a Suspicious Activity Report when they detect a known or suspected violation of federal law or suspicious financial transaction. This part applies to all insured state nonmember banks as well as any insured, state-licensed branches of foreign banks.

§ 353.2 Definitions.

For the purposes of this part:

(a) *FinCEN* means the Financial Crimes Enforcement Network of the Department of the Treasury.

(b) *Institution-affiliated party* means any institution-affiliated party as that term is defined in sections 3(u) and 8(b)(5) of the Federal Deposit Insurance Act (12 U.S.C. 1813(u) and 1818(b)(5)).

(c) *Known or suspected violation* means any matter for which there is a basis to believe that a violation of a federal criminal statute (including a pattern of criminal violations) has occurred or has been attempted, is occurring, or may occur, and there is a basis to believe that a financial institution was an actual or potential victim of the criminal violation or was used to facilitate the criminal violation.

§ 353.3 Reports and records.

(a) *Suspicious activity reports required.* A bank shall file a suspicious activity report with the appropriate federal law enforcement agencies in accordance with the form's instructions, by transmitting a completed suspicious activity report to FinCEN in the following circumstances:

(1) Whenever the bank detects a known or suspected violation of federal criminal law and has a substantial basis to believe that one of its directors, officers, employees, agents, or other institution-affiliated parties committed or aided in the commission of the violation;

(2) Whenever the bank detects a known or suspected violation of federal criminal law, involving or aggregating $5,000 or more (before reimbursement or recovery), and the bank has a substantial basis for identifying a possible suspect or group of suspects;

(3) Whenever the bank detects a known or suspected violation of federal criminal law, involving or aggregating $25,000 or more (before reimbursement or recovery), and the bank has no substantial basis for identifying a possible suspect or group of suspects; or

(4) Whenever the bank detects any financial transaction conducted, or attempted, at the bank involving funds derived from illicit activity or for the purpose of hiding or disguising funds from illicit activities, or for the possible violation or evasion of the Bank Secrecy Act reporting and/or recordkeeping requirements. A suspicious activity report must be filed for all instances where money laundering is suspected or where the bank believes that the transaction was suspicious for any reason, regardless of the identification of a potential suspect or the amount involved in the violation.

(b) *Time for reporting.* (1) A bank shall file the suspicious activity report no later than 30 calendar days after the date of initial detection of an act described in paragraph (a) of this section. If no suspect was identified on the date of detection of an act triggering the filing, a bank may delay filing a suspicious activity report for an additional 30 calendar days after the identification of a suspect. In no case shall reporting be delayed more than 60 calendar days after the date of detecting a known or suspected violation.

(2) In situations involving violations requiring immediate attention, such as when a reportable violation is ongoing, the bank shall immediately notify by telephone, or other expeditious means, the appropriate law enforcement agency and the appropriate FDIC regional office (Division of Supervision) in addition to filing a timely report.

(c) *Reports to state and local authorities.* A bank is encouraged to file a copy of the suspicious activity report with state and local law enforcement agencies where appropriate.

(d) *Exemptions.* (1) A bank need not file a suspicious activity report for a robbery, burglary or larceny, committed or attempted, that is reported to appropriate law enforcement authorities.

(2) A bank need not file a suspicious activity report for lost, missing, counterfeit, or stolen securities if it files a report pursuant to the reporting requirements of 17 CFR 240.17f-1.

(e) *Retention of records.* A bank shall maintain a copy of any suspicious activity report filed and the originals of any related documentation for a period of ten years from the date of filing the suspicious activity report. A bank shall make all supporting documentation available to appropriate law enforcement agencies upon request. Supporting documentation shall be identified and treated as filed with the suspicious activity report.

(f) *Notification to board of directors.* The management of the bank shall promptly notify its board of directors, or a designated committee thereof, of any report filed pursuant to this section. The term "board of directors" includes the managing official of an insured state-licensed branch of a foreign bank for purposes of this part.

(g) *Confidentiality of suspicious activity reports.* Suspicious activity reports are confidential. Any person subpoenaed or otherwise requested to disclose a suspicious activity report or the information contained in a suspicious activity report shall decline to produce the information citing this part, applicable law (*e.g.*, 31 U.S.C. 5318(g)), or both.

By Order of the Board of Directors.

Dated at Washington, DC, this 6th day of September, 1995.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

Arbitrage Restrictions on Tax-Exempt Bonds; Hearing

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Change of date and location for public hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to the arbitrage and related restrictions applicable to tax-exempt bonds issued by State and local governments.

DATES: The public hearing will be held Thursday, October 12, 1995, beginning at 10:00 a.m. Requests to speak and outlines of oral comments must be received by Thursday, September 21, 1995.

ADDRESSES: The public hearing will be held in room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, DC. Requests to speak and outlines of oral comments should be mailed to the Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Attn: CC:DOM:CORP:R [FI–7–94], room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Christina Vasquez of the Regulations Unit, Assistant Chief Counsel (Corporate), (202) 622–6803 (not a toll-free number).

SUPPLEMENTARY INFORMATION: The notice of proposed rulemaking appeared in the **Federal Register** on Tuesday, May 10, 1994 (59 FR 24094). A notice of public hearing appearing in the **Federal Register** on Thursday, August 17, 1995 (60 FR 42819) announced that the Service would hold a public hearing on proposed regulations relating to the arbitrage and related restrictions applicable to tax-exempt bonds issued by State and local governments on Monday, September 25, 1995, beginning at 10:00 a.m. in the IRS Auditorium.

The date and location of the public hearing has changed. The hearing is scheduled for Thursday, October 12, 1995, beginning at 10:00 a.m. in room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, DC. Because of controlled access restrictions, attenders are not admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

The Service will prepare an agenda showing the scheduling of the speakers after the outlines are received from the persons testifying and make copies available free of charge at the hearing.

Cynthia E. Grigsby,

Chief, Regulations Unit, Assistant Chief Counsel (Corporate).

Exemption, Approval, Registration and Reporting Procedures; Miscellaneous Provisions

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: To expedite processing of applications and to promote clarity and program consistency, RSPA is proposing to revise the procedures for applying for exemptions and to establish procedures for applying for approvals, registering (other than the hazmat registration program), and reporting. In addition, the proposed rule would amend in minor ways a number of provisions, mostly procedural. The intended effect of this NPRM is to provide guidance for persons required to obtain an approval, register, or report with RSPA. By clarifying the requirements, RSPA would reduce the need to seek additional information necessary to complete the processing of applications. The proposed changes also would reduce the processing time.

DATES: *Comments.* Comments must be received by November 28, 1995.

ADDRESSES: *Comments.* Address comments to Dockets Unit (DHM–30), Hazardous Materials Safety, RSPA, U.S. Department of Transportation, Washington, DC 20590–0001. Comments should identify the docket and notice number and be submitted, when possible, in five copies. Persons wishing to receive confirmation of receipt of their comments should include a self-addressed, stamped postcard. The Dockets Unit is located in Room 8421 of the Nassif Building, 400 Seventh Street SW, Washington DC 20590–0001. Office hours are 8:30 am to 5:00 pm Monday through Friday, except on public holidays when the office is closed.

FOR FURTHER INFORMATION CONTACT: Jennifer Antonielli, Office of Hazardous Materials Standards, (800) 467–4922, or Kathleen Molinar, Office of the Chief Counsel, (202) 366–4400, RSPA, Department of Transportation, 400 Seventh Street SW, Washington DC 20590–0001.

SUPPLEMENTARY INFORMATION:

I. Background

The Federal hazardous material transportation law (Federal hazmat law), 49 U.S.C. 5101–5127, directs the Secretary of Transportation to prescribe regulations for the safe transportation of hazardous material in commerce. 49 U.S.C. 5103. The Research and Special Programs Administration (RSPA) is the administration within the Department of Transportation primarily responsible for implementing the Federal hazmat law. 49 CFR 1.53. RSPA does so through the Hazardous Materials Regulations (HMR), 49 CFR parts 171–180. Under 49 U.S.C. 5117(a), RSPA is authorized to issue an exemption from the Federal hazmat law or the HMR if an applicant demonstrates that public safety will not be compromised. The procedures governing application for an exemption and the manner in which the application is processed are found at 49 CFR subpart B of part 107.

In addition, in numerous instances the HMR require authorization by or registration with RSPA before a person may engage in particular hazmat transportation-related activities in areas such as manufacturing and certifying hazardous material packagings, offering hazardous material for transportation, and transporting hazardous material. Elsewhere, the HMR impose reporting requirements on those engaging in certain hazmat transportation activity. A significant portion of the regulated community is subject to one or more of these types of requirements. Procedures to be followed in seeking an approval from RSPA, registering with RSPA or reporting to RSPA may be found in the HMR provision establishing the particular requirement, but in many cases these procedures are absent or incomplete. There are no general procedural rules in the HMR governing these matters.

This proposed rule would revise existing exemption procedures at 49 CFR subpart B of part 107 and create a new subpart H of part 107 to establish a similar procedural framework for approvals, registrations and reports.

RSPA processes numerous approval, registration and reporting matters, and practices have developed over time. Nevertheless, establishment of formal procedures through regulation provides desirable guidance to all those who now or in the future may be subject to HMR approval, registration or reporting requirements, and fosters the greatest possible consistency in RSPA's handling of these matters. The proposed procedures, in many respects, parallel those for exemptions, and this rule would modify them, and largely codify the approval, registration and reporting procedures that RSPA currently follows. Establishing procedures in 49 CFR part 107 for approvals, registration, and reports would minimize the need for RSPA to seek information from applicants in order to complete the processing of applications.

The procedures for approvals, registration and reporting are limited in their application in two respects. First, under the HMR, other Federal agencies, including the United States Coast Guard, the Federal Highway Administration, the Nuclear Regulatory Commission, the Departments of Defense and Energy, the Bureau of Mines, the Bureau of Alcohol, Tobacco and Firearms, and non-Federal entities such as the Association of American Railroads, issue approvals or receive registrations or reports under the HMR. For example, under § 176.415, Coast Guard approval must be obtained before loading or unloading certain explosives onto or from vessels. The procedures established in this rulemaking would apply only with respect to those matters that, under the HMR, are handled by RSPA. Those matters for which the HMR assigns responsibility to other entities will continue to be handled according to the procedures of those entities.

Second, this rule does not supersede existing procedures for approvals, registration, or reporting, such as the minimum content of the application or the RSPA office where it is to be filed. Where 49 CFR subpart H of part 107 supplements a specific HMR requirement, both will apply. In the unlikely event that subpart H conflicts with an element of the specific approval, registration, or reporting requirement, the specific requirement will govern. Comments are invited on any apparent conflicts.

Proposed amendment of selected provisions in 49 CFR part 107 would clarify and, in some cases, slightly modify RSPA procedures with respect to rulemaking, preemption determinations and enforcement. Certain provisions of 49 CFR part 171 would be amended for clarity. Sections 172.302 and 173.22a would be amended to incorporate requirements currently in Appendix B to subpart B of part 107. A new § 178.3(d) would permit only those persons authorized under an exemption or their agents to certify a packaging to the exemption.

II. Regulatory Reinvention Initiative

In a March 4, 1995 memorandum, the President directed Federal agencies to review all agency regulations and eliminate or revise those that are outdated or in need of reform. RSPA issued a notice on April 4, 1995, (Docket HM–222; 60 FR 17049) requesting comments on regulatory reform and announced seven public meetings nationwide to identify obsolete and burdensome regulations which can be eliminated from the HMR and techniques to improve its customer services. Some of the commenters responding to the notice under Docket HM–222 identified the exemption and approval procedures contained in the HMR as areas in need of clarification and reform. Today's notice is consistent with the goals of the President to clarify and revise Federal agency regulations to relieve unnecessary regulatory burdens.

III. Request for Comments

Comments are invited with respect to all of the proposed changes. In particular, RSPA is interested in whether commenters believe the changes would make the process of applying for an exemption or approval simpler or more efficient, and whether paperwork burdens would be eased; whether the proposed provisions are clear; and how the rule would affect small businesses and other entities.

IV. Summary of Proposed Amendments

A. Exemptions

The exemption procedures at 49 CFR subpart B of part 107 would be reorganized to provide a framework that is more logically arranged than at present. The proposed rule sets forth application requirements for exemptions, exemption modifications, procedures for seeking party status to an exemption and renewing an exemption or a grant of party status. The proposed rule would establish three processing categories—routine, priority, and emergency; the standards to qualify for priority or emergency processing; and the procedures and review criteria to be applied in each category. Next, the notice would set forth the powers of the Associate Administrator for Hazardous Materials Safety (Associate Administrator) to modify, suspend, or terminate an exemption or grant of party status; the standards to do so, and the procedures to be followed. Finally, this NPRM proposes procedures for reconsideration of an exemption decision by the Associate Administrator and appeal of that decision to the RSPA Administrator.

Substantively, the current regulations would be revised in several respects. Summaries of the more significant proposed revisions follow.

In this notice, timely filing requirements under the subpart would be clarified by standardizing the "filing" date as the date a submission is received at the specified RSPA office. Also, the required contents of an application would be expanded in several respects. The applicant would need to list HMR exemptions, approvals, and other authorizations previously or currently held that are related to the subject of the application and known to the applicant; this information would facilitate prompt processing of the application by expediting review of other relevant information. In addition, the applicant would be required to identify each manufacturing facility that would be operating under the requested exemption; this information would facilitate later RSPA inspections. A foreign applicant, after designating a domestic agent for service, would be required to consent in writing to personal jurisdiction with respect to all matters under the Federal hazmat law related to the exemption. The proposed rule also provides that an applicant's failure to respond to a request by RSPA for additional information within 30 days would result automatically in application denial. Paperwork burdens would be reduced by requiring only duplicate, rather than triplicate, application submissions.

In the proposal, the Associate Administrator explicitly would be authorized to consider evidence of an applicant's capability and integrity in deciding on an application. A pending or completed enforcement action for HMR violations could be considered, to the extent the Associate Administrator found it to be relevant. If an enforcement action were only pending, and a final finding of violation had not been made, that would be considered in assessing the weight the enforcement action should be given in deciding on an application.

The standards for routine and emergency application processing would be clarified, and a third category, that of priority processing, would be created. The rule would formalize, but not modify, the way in which exemption applications now are

routinely processed. When an application is determined to be complete, it is published in the **Federal Register** and public comment is solicited. The application then is considered under prescribed standards, including demonstration of an equivalent level of safety and whether the applicant has the capability and integrity necessary to operate under the exemption.

Similarly, the proposed rule would not change how an emergency exemption application is processed, but would clarify and slightly modify the standards for qualifying for emergency processing. The standard would be expanded to include likelihood of significant injury to persons, rather than only loss of life. Also, the proposed rule would clarify that a likelihood of significant economic harm, standing alone, does not entitle an applicant to emergency processing; whether the prospect of significant economic loss constitutes an emergency would be a matter for the Associate Administrator's judgment. For example, the Associate Administrator may find that a carrier's loss of transportation revenue or failure to gain new revenue, or a shipper's failure immediately to gain a new market, would not justify emergency processing.

Specifically, the rule would add a provision that the Associate Administrator may determine a risk of economic loss to the applicant, or to another person engaged in the hazmat activity in cooperation with the applicant, not to be the basis for a finding of emergency if the applicant or another person could have filed for routine application processing in a timely manner. If an application qualifies for emergency processing, it is not published in the **Federal Register**, subject to public comment, or held strictly to the submission requirements for routine processing. Further, recognizing that urgency may not permit the fullest deliberation, the standard for granting the exemption is simply whether doing so is in the public interest, in light of the standards that apply to an application processed routinely. Through the proposed provision, RSPA seeks to ensure that emergency processing, which affords less public review and a risk of reduced agency deliberation, is used only in the case of a risk of significant economic loss where urgency is required to avert the loss and the need for urgency could not have been avoided.

The NPRM would create a third processing category, priority processing, for applications that do not qualify for emergency processing, but merit more expeditious consideration than that routinely accorded. An application that qualifies for priority processing, unlike one processed on an emergency basis, would be subject to public comment and the full degree of deliberation given to applications processed routinely. The priority designation merely would authorize RSPA to deviate from its "first in, first out" policy and consider the application ahead of those received earlier. Applications qualifying for priority processing would be those of governmental bodies when deemed by the Associate Administrator to be in the public interest, and those in which expeditious processing would be necessary to avoid significant economic loss. As in the case of emergency processing, if the significant economic loss were that of the applicant or another person engaged with the applicant in the hazmat activity, the need for the exemption may not have been foreseeable at a time when an application could have been processed routinely. Otherwise, the Associate Administrator would have the discretion to find that the application does not qualify for priority processing.

The proposed rule would clarify the standards for exemption modification, suspension, and termination and give the Associate Administrator more flexibility as to which of the three remedies is appropriate in a given situation. Presently, the Associate Administrator may modify or suspend an exemption if its provisions are violated, or if new information suggests that the activity under the exemption creates a risk to life or property. The Associate Administrator may terminate an exemption if it is no longer consistent with the public interest, is no longer necessary due to a change in the regulations, or was granted on the basis of false or misleading information. The "public interest" criterion encompasses all grounds on which the Associate Administrator may find it justified to terminate an exemption, but is vague. Further, the sharp distinction the existing regulation draws between those conditions that justify modifying or suspending an exemption, and those that justify terminating it, handicap the Associate Administrator in taking the action that a particular circumstance recommends—for example, requiring the termination of an exemption when modification might suffice.

The proposed rule would authorize modification whenever necessary to conform an exemption to changed statute or regulation, or other circumstances. It would authorize modification, suspension, or termination: (1) Whenever, because of a change in circumstances, the exemption no longer would be granted if applied for; (2) if it was granted on the basis of inaccurate or incomplete information; or (3) if the holder violates the exemption in a way that demonstrates insufficient competence or integrity to act under the exemption. In addition, any exemption granted on the basis of an application that the Associate Administrator finds was deliberately inaccurate or incomplete would be subject to modification, suspension, or termination, even where the exemption would have been granted absent the inaccuracy or incompleteness.

Finally, the proposed rule would formalize procedures for requesting reconsideration of an exemption decision by the Associate Administrator and appealing the Associate Administrator's decision to the RSPA Administrator. During the pendency of a request for reconsideration or an appeal, the Associate Administrator or the Administrator, respectively, on a finding of risk to persons or property, could deem the modification, suspension, or termination effective for a period of up to 90 days. Otherwise the exemption, if current, would remain in effect until the decision.

B. Approvals, Registrations, Reports

The proposed rule establishes a framework for processing approval requests similar to that for exemption applications. It also describes procedures for filing registrations and reports with RSPA.

The proposed rule specifies minimum contents of an application for approval to be filed with RSPA, identifies the RSPA office to which the filing would be directed, and sets forth procedures by which an application for approval would be processed.

Next, the proposed rule sets forth standards and procedures for modifying, suspending and terminating approvals. The proposed standards are similar to the procedures for modifying, suspending and terminating exemptions. Modification would be authorized broadly to conform an approval to changed law or circumstances. Modification, suspension and termination all would be available if new information indicates that the approval would not be granted if now applied for; if the holder has demonstrated insufficient capability or integrity to perform the authorized activity; or if the application contained deliberately inaccurate or incomplete information. The holder would be allowed an opportunity to respond to the proposed action before it becomes final; however, where necessary to avert a risk of harm to persons or property, the Associate Administrator could declare the modification, suspension or termination effective pending the holder's response and any subsequent reconsideration, for up to 90 days.

Finally, the proposed rule would provide for reconsideration of the Associate Administrator's decision on granting, modifying, suspending or terminating an approval, and for appeal of that decision to the Administrator.

C. Miscellaneous Amendments

The proposed rule would amend a number of procedural provisions of 49 CFR parts 107, 171, 172, 173, and 178. Amendments would be made for clarity in §§ 107.202, 107.203, 107.205, 107.211, 107.213 (new section), 107.217, 107.223, 107.227, 107.331, 171.1, 171.2, 171.8, 172.302, 173.22a, and 178.3. Requirements for exemption holders now found at Appendix B to subpart B of part 107, would be moved to §§ 172.302(c) and 173.22a(c).

Several provisions governing preemption determinations would be revised. The NPRM would modify § 107.205(a) to delete the requirement that the applicant notify the affected State, local, or tribal government that it has 45 days in which to comment on the application for preemption. Because the date on which the government body receives the applicant's notice is not fixed to the date on which the application is published in the **Federal Register**, this specification is somewhat arbitrary. The State, local, or tribal government would continue to have, ordinarily, 45 days in which to comment, but this time frame would simply be specified in the **Federal Register** notice setting forth the application.

Section 107.209(b) would be deleted. The Associate Administrator's authority to issue a preemption determination on his or her own initiative was eliminated by the Hazardous Materials Transportation Uniform Safety Act, Public Law 101–615, § 13 (Nov. 16, 1990).

Sections 107.209(d) and 107.221(d) would be amended to specify more concretely who would be given personal notice of a preemption or waiver of preemption determination. Presently, the Associate Administrator notifies each person "readily identifiable * * * as one who is affected by the determination." Appeal rights of parties depend on timely receipt of the Associate Administrator's preemption decision. The present standard is vague and could prompt a challenge by a person who did not receive notice of a decision. The proposed rule limits personal notice of the decision to a specified group of persons: those who commented substantially on the matter (this would exclude, for instance, those who merely submitted form letters favoring or opposing preemption) and those who requested notice.

Section 107.305(b) would be clarified in two regards. Additional language would clarify the right of a regulated party to examine an inspector's credentials, but prohibit that party from reproducing them. In addition, it would make explicit the inspector's authority to employ reasonable means of information gathering and documentation in performing an inspection. These means include, but are not limited to, interviewing and taking statements from representatives of the inspected person, photocopying, photographing, and taking audio and video recordings.

An added provision of § 107.305(b) would authorize the Director, Office of Hazardous Materials Enforcement (OHME), or his delegated representative, to issue a subpoena for the production of documentary or other tangible evidence. This authority is vested in the Administrator by § 107.13(a) and would be delegated by the proposed rule from the Administrator to the OHME Director. A person on whom a subpoena is served would have the opportunity to apply to the RSPA Chief Counsel within 10 days of service to modify or quash the subpoena.

A new § 171.2(h) explicitly would prohibit creating or altering an exemption, approval, registration, or other official document to fraudulently indicate authority to offer or transport hazardous materials or manufacture packagings for hazardous materials. Similarly, offering a hazardous material for transportation or transporting a hazardous material in commerce, or representing, marking, certifying, or selling a packaging, under a false or altered exemption, approval, registration, or similar document would be prohibited. Currently, 18 U.S.C. 1001 prescribes a criminal sanction for knowingly or willfully making or using a false document in a matter within the jurisdiction of a Federal agency. The proposed rule would create a separate civil sanction. Liability for a civil penalty would arise only when a violation is committed knowingly within the meaning of 49 U.S.C. 5123(a)(1); that is, when the person either knew or, in the exercise of reasonable care, should have known that the document was false or altered. Accordingly, for example, a carrier would not be subject to a civil penalty for transporting a hazardous material under authority of an exemption altered by a shipper, absent facts establishing the carrier's knowledge that the exemption was altered.

In addition, the proposed rule would amend § 178.3 by adding a new paragraph (d) to specifically prohibit anyone, other than the exemption holder, a person with party status to an exemption, or a third party tester, from certifying that a packaging meets the terms of an exemption. This provision is necessary to assure that packagings manufactured under the terms of an exemption are marked and certified only by those persons authorized to do so.

V. Rulemaking Analyses and Notices

A. Executive Order 12866 and DOT Regulatory Policies and Procedures

This notice of proposed rulemaking is not considered a significant regulatory action under section 3(f) of Executive Order 12866 and, therefore, was not subject to review by the Office of Management and Budget. The notice is not significant according to the Regulatory Policies and Procedures of the Department of Transportation (44 FR 11034).

The proposed rule would not result in any additional costs to persons subject to the HMR, but would result in modest cost savings to a small number of them and to the agency. Because of the minimal economic impact of this rule, preparation of a regulatory impact analysis or regulatory evaluation is not warranted. This certification may be revised as a result of public comment.

B. Executive Order 12612

This action has been analyzed in accordance with the principles and criteria in Executive Order 12612 ("Federalism"). This proposed rulemaking has no substantial effects on States, local governments, or Indian tribes and does not impair their ability to impose their own procedures for obtaining an exemption or approval, or for registering and reporting. Therefore, preparation of a federalism assessment is not warranted.

C. Regulatory Flexibility Act

I certify that this notice of proposed rulemaking will not have a significant economic impact on a substantial number of small entities. This notice proposes to amend existing and add new procedural provisions to clarify existing practice. The amendments contained in this notice do not impose any new requirements on persons subject to the HMR; thus, there are no direct or indirect adverse economic

impacts for small units of government, businesses, or other organizations.

D. Paperwork Reduction Act

Under 49 U.S.C. 5108, the information management requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) do not apply to this proposed rule.

VI. List of Subjects

49 CFR Part 107

Administrative practice and procedure, Hazardous material transportation, Packaging and containers, Penalties, Reporting and recordkeeping requirements.

49 CFR Part 171

Exports, Hazardous materials transportation, Hazardous waste, Imports, Incorporation by reference, Reporting and recordkeeping requirements.

49 CFR Part 172

Hazardous materials transportation, Hazardous waste, Labels, Markings, Packaging and containers, Reporting and recordkeeping requirements.

49 CFR Part 173

Hazardous materials transportation, Packaging and containers, Radioactive materials, Reporting and recordkeeping requirements, Uranium.

49 CFR Part 178

Hazardous materials transportation, Motor vehicle safety, Packaging and containers, Reporting and recordkeeping requirements.

In consideration of the foregoing, 49 CFR Chapter I would be amended as follows:

PART 107—HAZARDOUS MATERIALS PROGRAM PROCEDURES

1. The authority citation for Part 107 would continue to read as follows:

Authority: 49 U.S.C. 5101–5127, 44701; 49 CFR 1.45, 1.53.

2. In § 107.3, definitions would be added in alphabetical order to read as follows:

§ 107.3 Definitions.

Accident means an event resulting in the unintended and unanticipated release of hazardous material.

Acting knowingly means acting or failing to act while:

(1) Having actual knowledge of the facts giving rise to the violation, or

(2) Having the knowledge that a reasonable person acting in the same circumstances and exercising due care would have had.

Administrator means the Administrator, Research and Special Programs Administration.

Applicant means the person in whose name an exemption, renewed or modified exemption, grant of party status to an exemption, approval, or registration is requested to be issued.

Application means a request under this subpart for an exemption, a renewal or modification of an exemption, a grant of party status to an exemption, an approval, or a registration.

* * * * *

Associate Administrator means the Associate Administrator for Hazardous Materials Safety.

* * * * *

Filed means received at the Research and Special Programs Administration office designated in the applicable provision or, if no office is specified, at the Office of Hazardous Materials Exemptions and Approvals (DHM–30), U.S. Department of Transportation, Research and Special Programs Administration, 400 Seventh Street SW, Washington DC, 20590–0001.

Holder means the person in whose name an exemption or approval has been issued.

* * * * *

Investigation includes investigations authorized under 49 U.S.C. 5121 and inspections authorized under 49 U.S.C. 5118 and 5121.

Manufacturing exemption means an exemption from compliance with requirements that otherwise must be met before representing, marking, certifying, selling or offering a packaging or container as meeting the requirements of this subchapter or subchapter B governing its use in the transportation in commerce of a hazardous material.

Party means a person, other than a holder, authorized to act under the terms of an exemption.

* * * * *

Registration means a written acknowledgement from the Associate Administrator that the registrant is performing a function for which registration is required under subchapter C. For purposes of this subpart, "registration" does not include registration under subpart F or G of this part.

Report means information, other than an application, registration or part thereof, required to be submitted to the Associate Administrator pursuant to subchapter C.

* * * * *

Shipper exemption means an exemption from compliance with requirements of this subchapter or subchapter C that otherwise must be met before offering a hazardous material for transportation or transporting a hazardous material in commerce.

* * * * *

3. In § 107.5, paragraph (a) would be revised to read as follows:

§ 107.5 Request for confidential treatment.

(a) If any person filing a document with the Associate Administrator claims that some or all the information contained in the document is exempt from the mandatory public disclosure requirements of the Freedom of Information Act (5 U.S.C. 552), is information referred to in 18 U.S.C. 1905, or is otherwise exempt by law from public disclosure, and if that person requests the Associate Administrator not to disclose the information, that person shall file, together with the document, a second copy of the document with the confidential information deleted. The person shall indicate each page of the original document that is confidential or contains confidential information by marking or stamping "confidential" on each page for which a claim of confidentiality is made, and may file a statement specifying the justification for the claim of confidentiality. If the person states that the information comes within the exception in 5 U.S.C. 552(b)(4) for trade secrets and commercial or financial information, that person must include a statement as to why the information is privileged or confidential. If the person filing a document does not mark or stamp a document as confidential or submit a second copy of the document with the confidential information deleted, the Associate Administrator may assume that there is no objection to public disclosure of the document in its entirety.

* * * * *

4. Subpart B of part 107 would be revised to read as follows:

Subpart B—Exemptions

§ 107.101 Purpose and scope.

This subpart prescribes procedures for the issuance, modification and termination of exemptions from requirements of this subchapter, or subchapter C of this chapter.

§ 107.105 Application for exemption.

(a) Each application for an exemption or modification of an exemption must—

(1) Be submitted in duplicate to: Associate Administrator for Hazardous Materials Safety, U.S. Department of Transportation, Washington, DC 20590–0001. Attention: Exemptions, DHM–31;

(2) State the name, street and mailing addresses, and telephone number of the applicant; if the applicant is not an individual, state the name of an individual designated as an agent of the applicant for all purposes related to the application;

(3) For a manufacturing exemption, state the name and street address of each of the applicant's or contractor's facilities where manufacturing under the exemption will occur;

(4) If the applicant is not a resident of the United States, contain a designation of agent for service in accordance with § 107.7, and a statement that the applicant consents to personal jurisdiction in the United States for purposes of the Federal hazardous material transportation law related to the exemption;

(5) Cite the regulation from which the applicant seeks relief, including the publication year of the Code of Federal Regulations volume from which the citation is taken;

(6) If known by the applicant, list identifying numbers of all exemptions, approvals and registrations previously or currently held by the applicant under this chapter that are related to the subject matter of the application;

(7) Specify the proposed mode(s) of transportation;

(8) Describe in detail the proposed exemption (e.g., alternative packaging, test, procedure or activity). Including, as appropriate, written descriptions, drawings, flow charts, plans and other supporting documents;

(9) Specify the proposed duration or schedule of events for which the exemption is sought;

(10) State why the applicant wishes to be relieved from compliance with the specified regulations and, if the exemption is requested for a fixed period, how compliance will be achieved at the end of that period;

(11) If the applicant seeks expedited processing under § 107.115 or § 107.117, set forth the supporting facts and grounds;

(12) Identify and describe the hazardous materials planned for transportation under the exemption. Provide the chemical name, common name, hazard class, identification number, packing group, form, quantity, properties, and characteristics of hazardous material to be offered or transported in conjunction with the exemption, including composition and percentage (specified by volume or weight) of each chemical, if a solution or mixture;

(13) List each packaging, including specification or exemption number, as applicable, to be used in conjunction with the requested exemption;

(14) For alternative packagings, document quality assurance controls necessary to provide safe performance, including package design, manufacture, performance test criteria, in-service performance and service life limitations;

(15) Include information describing all relevant shipping and accident experience of which the applicant is aware that relates to the application;

(16) Identify any increased risk to safety or property that may result if the exemption is granted, and specify the measures that the applicant considers necessary or appropriate to address that risk;

(17) Substantiate, with applicable analyses, data or test results, that the proposed alternative will achieve a level of safety that:

(i) Is at least equal to that required by the regulation from which the exemption is sought, or

(ii) If the regulations do not establish a level of safety, is consistent with the public interest and adequately will protect against the risks to life and property inherent in the transportation of hazardous material in commerce; and

(18) For an exemption involving a hazardous material, packaging material, packaging design or technology where direct comparison cannot be made to an existing standard in subchapter C, provide an analysis that:

(i) identifies each hazard associated with the proposed activity,

(ii) identifies each potential failure mode and the probability of its occurrence, and

(iii) describe how the risk associated with each hazard and failure mode is controlled for life of a packaging or duration of an activity to a level comparable to that provided by the regulation and is consistent with the public interest.

(b) Unless expedited processing under § 107.115 or § 107.117 is requested and granted, applications are processed in the order in which they are filed. For timely consideration, an application should be submitted at least 180 days before the requested effective date.

(c) To request confidential treatment for information contained in the application, the applicant must comply with § 107.5(a).

§ 107.107 Application for party status.

(a) Any person eligible to apply for an exemption may apply to be made party to an application or an existing exemption, other than a manufacture, mark, and sell exemption.

(b) Each application filed under this section must—

(1) Be submitted in duplicate to: Associate Administrator for Hazardous Materials Safety, U.S. Department of Transportation, Washington, DC 20590–0001. Attention: Exemptions, DHM–31;

(2) Identify by number the exemption application or exemption to which the applicant seeks to become a party;

(3) State the name, address and telephone number of the applicant; if the applicant is not an individual, state the name of an individual designated as the applicant's agent for all purposes related to the application; and

(4) If the applicant is not a resident of the United States, provide a designation of agent for service in accordance with § 107.7, and a statement that the applicant consents to personal jurisdiction in the United States for purposes of the Federal hazardous material transportation law related to the exemption.

(c) The Associate Administrator grants party status to an applicant on finding that—

(1) The applicant is eligible to apply for the exemption;

(2) The application or exemption to which the applicant seeks to become a party concerns a continuing matter; and

(3) Granting party status does not compromise information qualified for confidential treatment under § 107.5.

(d) A party to an exemption is subject to all terms of that exemption, including the expiration date. If a party to an exemption wishes to renew party status, the exemption renewal procedures set forth in § 107.109 apply.

§ 107.109 Application for renewal.

(a) Each application for renewal of an exemption must—

(1) Be submitted in duplicate to: Associate Administrator for Hazardous Materials Safety, U.S. Department of Transportation, Washington, DC 20590–0001. Attention: Exemptions, DHM–31;

(2) Identify by number the exemption for which renewal is requested;

(3) State the name, address, and telephone number of the applicant; if the applicant is not an individual, state the name of an individual designated as an agent of the applicant for all purposes related to the application;

(4) Include either a certification by the applicant that the original application, as it may have been updated by any application for renewal, remains accurate and complete; or an amendment to the previously submitted application as is necessary to update and assure the accuracy and completeness of the application, with certification by the applicant that the application as amended is accurate and complete; and

(5) Include a statement describing all relevant shipping and accident experience of which the applicant is aware in connection with the exemption since its issuance or most recent renewal. If aware of no accidents, the applicant shall so certify. The statement must indicate the approximate number of shipments made or packages shipped, as the case may be, and the number of shipments or packages involved in any loss of contents, including loss by venting other than as authorized in subchapter C.

(b) If at least 60 days before an existing exemption expires the holder files an application for renewal that is complete and conforms to the requirements of this section, the exemption will not expire until final administrative action on the application for renewal has been taken.

§ 107.111 Withdrawal.

An application may be withdrawn at any time before a decision to grant or deny it is made. Withdrawal of an application does not authorize the removal of any related records from the RSPA dockets or files.

§ 107.113 Application processing.

(a) The Associate Administrator reviews an application to determine if it is complete and conforms with the requirements of this subpart. This determination usually is made within 30 days of receipt of an application for exemption or modification of exemption and within 15 days of receipt of an application for renewal of an exemption. If an application is determined to be incomplete, the applicant is informed of the reasons.

(b) An application, other than a renewal or emergency exemption application, that is determined to be complete is docketed. Notice of the application is published in the **Federal Register** and an opportunity for public comment is provided. All comments received during the comment period are considered before final action is taken on the application.

(c) No public hearing or other formal proceeding is required under this subpart before the disposition of an application. Unless expedited processing under § 107.115 or § 107.117 is requested and granted, applications are processed in the order in which they are filed.

(d) At any time during the processing of an application, the Associate Administrator may request additional information from the applicant. If the applicant does not respond to a written request for additional information within 30 days of the date the request was received, the application is deemed incomplete and is denied.

(e) The Associate Administrator may grant or deny an application, in whole or in part. In the Associate Administrator's discretion, an application may be granted subject to conditions that are appropriate to protect health, safety or property.

(f) The Associate Administrator may grant the application on finding that—

(1) The application complies with this subpart;

(2) The application demonstrates that the proposed alternative will achieve a level of safety that:

(i) Is at least equal to that required by the regulation(s) from which the exemption is sought, or

(ii) If the regulations do not establish a level of safety, is consistent with the public interest and adequately will protect against the risks to life and property inherent in the transportation of hazardous materials in commerce;

(3) The application states all material facts, and contains no materially false or materially misleading statement;

(4) The applicant meets the qualifications required by applicable regulations; and

(5) The applicant demonstrates the level of capability and integrity required to conduct the activity authorized by the exemption. A pending or completed enforcement action may be considered evidence of insufficient competence or integrity.

(g) The applicant is notified in writing whether the application is granted or denied. A denial contains a brief statement of reasons.

(h) An exemption and any renewal thereof terminates according to its terms or, if not otherwise specified, two years after the date of issuance. A grant of party status to an exemption, unless otherwise stated, terminates on the date that the exemption terminates.

(i) The Associate Administrator, on determining that an application concerns a matter of general applicability and future effect and should be the subject of rulemaking, may initiate rulemaking under part 106 of this chapter in addition to or instead of acting on the application.

(j) The Associate Administrator publishes in the **Federal Register** a list of all exemption and party status grants, denials and modifications and all applications withdrawn under this section.

§ 107.115 Priority processing.

(a) An application is granted priority processing if the Associate Administrator, on the basis of the application and any inquiry undertaken, finds that—

(1) If the applicant is a governmental body, priority processing is in the public interest;

(2) If the applicant is not a governmental body:

(i) Priority processing is necessary to prevent significant economic loss; and

(ii) The significant economic loss could not be prevented were the application processed routinely.

(b) Where the risk of significant economic loss is to the applicant, or to a party in a contractual relationship to the applicant with respect to the activity to be undertaken, the Associate Administrator may deny priority processing if timely application could have been made.

(c) A request for priority processing on the basis of potential economic loss must reasonably describe and estimate the potential loss.

(d) An application given priority processing receives the same level of substantive review as one processed routinely.

(e) A decision to deny priority processing may not be the subject of a request for reconsideration under § 107.123.

§ 107.117 Emergency processing.

(a) An application is granted emergency processing if the Associate Administrator, on the basis of the application and any inquiry undertaken, finds that—

(1) Emergency processing is necessary to prevent significant injury to persons or property (other than the hazardous material to be transported) that could not be prevented if the application were processed on a routine or priority basis; or

(2) Emergency processing is necessary to prevent significant economic loss that could not be prevented if the application were processed on a routine or priority basis.

(b) Where the significant economic loss is to the applicant, or to a party in a contractual relationship to the applicant with respect to the activity to be undertaken, the Associate Administrator may deny emergency processing if timely application could have been made.

(c) A request for emergency processing on the basis of potential economic loss must reasonably describe and estimate the potential loss.

(d) An application submitted under this section must comply with § 107.105(a)(17) and include such supporting information specified in § 107.105(a)(2) through (a)(16) as the receiving Department of Transportation official deems necessary to process the application. An application on an emergency basis must be submitted through the appropriate Department of Transportation official, as follows:

(1) *Certificate Holding Aircraft Operators:* The Federal Aviation Administration Civil Aviation Security Office that serves the place where the flight(s) will originate or that is responsible for the operators' overall aviation security program.

(2) *Noncertificate Holding Aircraft Operators (Operators Operating Under 14 CFR Part 91):* The Federal Aviation Administration Civil Aviation Security Office that serves the place where the flight(s) will originate. The nearest Civil Aviation Security Office may be located by calling the FAA Duty Officer, 202–863–5100 (any hour).

(3) *Motor Carriers:* Chief, Hazardous Materials Division, Office of Motor Carrier Field Operations, Federal Highway Administration, Department of Transportation, Washington, DC 20590–0001, 202–366–4415 (day); 202–267–2100 (night).

(4) *Rail Carriers:* Associate Administrator for Safety, Federal Railroad Administration, Department of Transportation, Washington, DC 20590–0001, 202–366–9178 or 366–0488 (day); 202–267–2100 (night).

(5) *Water Carriers:* Chief, Hazardous Materials Standards Branch, Operating and Environmental Standards Division, United States Coast Guard, Washington, DC 20593–0001, 202–267–1577 (day); 202–267–2100 (night).

(e) On receipt of all information necessary to process the application, the receiving Department of Transportation official transmits to the Associate Administrator, by the most rapid available means of communication, an evaluation as to whether an emergency exists under § 107.117(a) and, if appropriate, recommendations as to the conditions to be included in the exemption. If the Associate Administrator determines that an emergency exists under § 107.117(a) and that, with reference to the criteria of § 107.113(f), granting of the application is in the public interest, the Associate Administrator grants the application subject to such terms as necessary and immediately notifies the applicant. If the Associate Administrator determines that an emergency does not exist or that granting of the application is not in the public interest, the applicant immediately is so notified.

(f) An emergency exemption is to be limited in scope and duration to that which is necessary to address the circumstances which constitute the emergency.

(g) A determination that an emergency does not exist may not be the subject of a request for reconsideration under § 107.123.

(h) Within 90 days following issuance of an emergency exemption, a notice of issuance, with a statement of the basis for the finding of emergency and the scope and duration of the exemption, is published in the **Federal Register**.

§ 107.121 Modification, suspension or termination of exemption or grant of party status.

(a) The Associate Administrator may modify an exemption or grant of party status on finding that—

(1) Modification is necessary so that an exemption reflects current statutes and regulations; or

(2) Modification is required by changed circumstances to meet the standards of § 107.113(f).

(b) The Associate Administrator may modify, suspend or terminate an exemption or grant of party status, as appropriate, on finding that-

(1) Because of changed circumstances, the exemption or party status would not be granted if application were made now;

(2) The application contained inaccurate or incomplete information, and the exemption or party status would not have been granted had the application been accurate and complete;

(3) The application contained deliberately inaccurate or incomplete information; or

(4) The holder or party knowingly has violated the terms of the exemption or an applicable requirement of this chapter, in a manner demonstrating insufficient capability or integrity to conduct the activity authorized by the exemption.

(c) Before an exemption or grant of party status is modified, suspended or terminated, the Associate Administrator notifies the holder or party in writing of the proposed action and the reasons therefor, and provides an opportunity to show cause why the proposed action should not be taken.

(1) The holder or party may file a written response with the Associate Administrator within 30 days of receipt of notice of the proposed action.

(2) After considering the holder's or party's written response to the notice, or after 30 days have passed without response since receipt of the notice, the Associate Administrator notifies the holder in writing of the final decision. Modification, suspension or termination shall be accompanied by a brief statement of grounds.

§ 107.123 Reconsideration.

(a) An applicant, a holder or a party may request that the Associate Administrator reconsider a decision under § 107.113(g), § 107.117(e) or § 107.121(c). The request must—

(1) Be in writing and filed within 20 days of receipt of the decision;

(2) State in detail all alleged errors of fact and law;

(3) Enclose all documentation in support of the request to reconsider, with a justification for failure to provide the documentation previously; and

(4) State in detail the modification of the final decision sought.

(b) The Associate Administrator, if necessary to avoid a risk of significant harm to persons or property, may in the notification declare the proposed action immediately effective, for a maximum of 90 days from the date of the holder's or party's receipt of the notice.

(c) The Associate Administrator considers newly submitted information on a showing that the information could not reasonably have been submitted during application processing.

(d) The Associate Administrator grants or denies, in whole or in part, the relief requested and informs the requesting person in writing of the decision.

§ 107.125 Appeal.

(a) A person who requested reconsideration under § 107.123 may appeal to the Administrator the Associate Administrator's decision on the request. The appeal must-

(1) Be in writing and filed within 30 days of receipt of the Associate Administrator's decision on reconsideration;

(2) State in detail all alleged errors of fact and law;

(3) Enclose all documentation in support of the appeal, with a justification for failure to provide the documentation previously; and

(4) State in detail the modification of the final decision sought.

(b) The Administrator, if necessary to avoid a risk of significant harm to persons or property, may declare the Associate Administrator's action immediately effective pending a decision on appeal, for a maximum of 90 days from the date of the holder's or party's receipt of the decision.

(c) The Administrator considers newly submitted information on a showing that the information could not reasonably have been submitted during application processing or reconsideration.

(d) The Administrator grants or denies, in whole or in part, the relief requested and informs the appellant in writing of the decision. The Administrator's decision is the final administrative action.

§ 107.127 Availability of documents for public inspection.

(a) Documents related to an application under this subpart, including the application itself, are available for public inspection, except as specified in paragraph (b) of this section, at the Office of the Associate Administrator for Hazardous Materials Safety, Dockets Unit (DHM–30), U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590 0001. Copies of available documents may be obtained as provided in part 7 of this title.

(b) Documents available for inspection do not include materials determined to be withheld from public disclosure under § 107.5 and in accordance with the applicable provisions of section 552(b) of title 5, United States Code, and part 7 of this title.

5. In § 107.202, paragraph (a), introductory text, would be revised to read as follows:

§ 107.202 Standards for determining preemption.

(a) Except as provided in § 107.221 and unless otherwise authorized by Federal law, any requirement of a State or political subdivision thereof or an Indian tribe, that concerns one of the following subjects and that is not substantively the same as any provision of the Federal hazardous material transportation law, this subchapter or subchapter C that concerns that subject, is preempted:

* * * * *

§ 107.202 [Amended]

6. In § 107.202(b)(3), the wording "49 U.S.C. 5125(b) or(c)" would be revised to read "49 U.S.C. 5125(c)."

§ 107.205 [Amended]

7. In § 107.205, in paragraph (a), at the end of the first sentence, the wording "within 45 days" would be removed.

8. In addition, in § 107.205, paragraph (b) would be revised to read as follows:

§ 107.205 Notice.

* * * * *

(b) The Associate Administrator may publish notice of an application in the **Federal Register** and may notify in writing any person readily identifiable as affected by the ruling.

* * * * *

9. In § 107.209, paragraph (b) would be removed, paragraphs (c), (d) and (e) would be redesignated as paragraphs (b), (c) and (d), respectively, and newly designated paragraph (c) would be revised to read as follows:

§ 107.209 Determination.

* * * * *

(c) The Associate Administrator provides a copy of the determination to the applicant and to any other person who substantially participated in the proceeding or requested in comments to the docket to be notified of the determination. A copy of each determination is placed on file in the public docket. The Associate Administrator may publish the determination or notice of the determination in the **Federal Register**.

* * * * *

10. In § 107.211, in paragraph (a), the second sentence would be revised to read as follows:

§ 107.211 Petition for reconsideration.

(a) * * * The petition must be filed within 20 days of publication of the determination in the **Federal Register**.

* * * * *

11. A new § 107.213 would be added to read as follows:

§ 107.213 Judicial review.

A party to a proceeding under § 107.203(a) may seek review by the appropriate district court of the United States of a decision of the Administrator by filing a petition with the court within 60 days after the Administrator's decision becomes final.

12. In § 107.217, paragraph (d) would be revised to read as follows:

§ 107.217 Notice.

* * * * *

(d) The Associate Administrator may notify any other persons who may be affected by the ruling.

* * * * *

13. In Section 107.221, paragraph (a), (b), introductory text, (c) through (e) would be revised to read as follows:

§ 107.221 Determination.

(a) After considering the application and other relevant information received or obtained during the proceeding, the Associate Administrator issues a determination.

(b) The Associate Administrator may issue a waiver of preemption only on finding that the State or political subdivision or Indian tribe requirement affords the public a level of safety at least equal to that afforded by the requirements of the Federal hazardous material transportation law or the regulations issued thereunder and does not unreasonably burden commerce. In determining if the State or political subdivision or Indian tribe requirement unreasonably burdens commerce, the Associate Administrator considers:

* * * * *

(c) The determination includes a written statement setting forth relevant facts and legal bases and providing that any person aggrieved by the determination may file a petition for reconsideration with the Associate Administrator.

(d) The Associate Administrator provides a copy of the determination to the applicant and to any other person who substantially participated in the proceeding or requested in comments to the docket to be notified of the determination. A copy of the determination is placed on file in the public docket. The Associate Administrator may publish the determination or notice of the determination in the **Federal Register**.

(e) A determination under this section constitutes an administrative finding of whether a particular requirement of a State or political subdivision or Indian tribe is preempted under the Federal hazardous material transportation law or any regulation issued thereunder, or whether preemption is waived.

14. In § 107.223, paragraph (a) would be revised to read as follows:

§ 107.223 Petition for reconsideration.

(a) Any person aggrieved by a determination under § 107.221 may file a petition for reconsideration with the Associate Administrator. The petition must be filed within 20 days of publication of the order in the **Federal Register**.

* * * * *

§ 107.227 [Amended]

15. In § 107.227, the wording "§ 107.203(a) or" would be removed.

§ 107.299 [Removed]

16. Section 107.299 would be removed.

17. In § 107.305, paragraph (b) would be revised to read as follows:

§ 107.305 Investigations.

* * * * *

(b) *Investigators.* Investigations under 49 U.S.C. 5121(a) are conducted by Hazardous Materials Safety personnel duly authorized for that purpose by the Associate Administrator. Inspections under 49 U.S.C. 5121(c) are conducted by Hazardous Materials Enforcement Specialists whom the Associate Administrator has designated for that purpose.

(1) An inspector will, on request, present his or her credentials for examination, but the credentials may not be reproduced.

(2) An inspector may administer oaths and receive affirmations in any matter under investigation by the Associate

Administrator for Hazardous Materials Safety. An inspector may gather information by reasonable means including, but not limited to, interviews, statements, photocopying, photography, and video- and audiorecording.

(3) On concurrence of the Director, Office of Hazardous Materials Enforcement, an inspector may issue a subpoena for the production of documentary or other tangible evidence if, on the basis of information available to the inspector, the documents and evidence materially will advance a determination of compliance with this subchapter or subchapter C. Service of a subpoena shall be in accordance with § 107.13(c) and (d). A person to whom a subpoena is directed may seek review of the subpoena by applying to the Chief Counsel in accordance with § 107.13(h). A subpoena issued under this paragraph may be enforced in accordance with § 107.13(i).

* * * * *

18. In § 107.331, the introductory paragraph and paragraph (d) would be revised to read as follows:

§ 107.331 Assessment considerations.

After finding a knowing violation under this subpart, the Chief Counsel assesses a civil penalty taking the following into account:

* * * * *

(d) The respondent's prior violations;

* * * * *

19. A new subpart H of part 107 would be added to read as follows:

Subpart H—Approvals, Registrations and Submissions

§ 107.701 Purpose and scope.

(a) This subpart prescribes procedures for the issuance, modification and termination of approvals, and the submission of registrations and reports, as required by this chapter.

(b) The requirements of this subpart are in addition to any requirements in this chapter applicable to a specific approval, registration or report. If compliance with both a specific requirement and a requirement of this subpart is not possible, the specific requirement applies.

(c) Registration under subpart F or G of this part is not subject to the provisions of this subpart.

§ 107.705 Registration and reporting.

(a) Each registration or report under this section must be filed with the Associate Administrator for Hazardous Materials Safety, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street SW, Washington, DC 20590–0001, Attention: Approvals, DHM–32, and contain, in order—

(1) A citation to the section and, if applicable, subsection of the chapter under which the registration or report is made;

(2) If the report is required by an approval, a registration or an exemption, a citation to the approval, registration or exemption number;

(3) The name, address, and telephone number of the person on whose behalf the registration or report is made and, if different, the person making the registration or report;

(4) If the person on whose behalf the registration or report is made is not a resident of the United States, a designation of agent for service in accordance with § 107.7; and

(5) A description of the activity for which the registration or report is required.

(b) If the Associate Administrator determines that the registration or report does not comply with applicable requirements, the registration or reporting party shall make further submissions as the Associate Administrator deems necessary for compliance.

(c) To request confidential treatment for information contained in the registration or report, the applicant must comply with § 107.5(a).

§ 107.707 Applications.

(a) Each application under this section must be filed with the Associate Administrator for Hazardous Materials Safety, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001, Attention: Approvals, DHM–32 and contain the following, in order—

(1) A citation to the section and, if applicable, subsection of the chapter under which the approval is sought;

(2) If an application for renewal or modification, a citation to the existing approval;

(3) The name, address, and telephone number of—

(i) The applicant;

(ii) If different, the person filing the application; and

(iii) For an applicant that is not an individual, an individual designated as an agent of the applicant for all purposes related to the application;

(4) If the applicant is not a resident of the United States, a designation of agent for service in accordance with § 107.7, and a statement that the applicant consents to personal jurisdiction in the United States for all purposes under the Federal hazardous material transportation law related to the activity for which the approval is required;

(5) A description of the activity for which the approval is required; and

(6) A copy of each document from an entity other than the Office of Hazardous Materials Safety required under the section cited at § 107.707(a)(1) as a prerequisite to the approval.

(b) Each application under this section must contain the following, in order:

(1) The proposed duration of the approval;

(2) The transport mode or modes affected, as applicable;

(3) A full explanation, including all relevant information and documentation, as to why the applicant qualifies for the approval under applicable criteria, and why the approval otherwise is in accordance with law;

(4) All relevant shipping and accident experience;

(5) Identify any increased risk to safety or property that may result if the approval is granted, and specify the measures that the applicant considers necessary or appropriate to address that risk; and

(6) Substantiate, with applicable analyses, data or test results, that the proposed alternative will achieve a level of safety that is at least equal to that required by the regulation.

(c) For those approvals with an expiration date, each application for renewal or modification shall be filed in the same manner as an original application. If a complete and conforming renewal application is filed at least 60 days before the expiration date of an approval, the applicant, on written request, shall be issued one or more written extensions to permit operation under the terms of the expired approval until a final decision on the application for renewal has been made. Operation under an expired approval is prohibited absent a written extension. This paragraph does not limit the authority of the Associate Administrator to modify, suspend or terminate an approval under § 107.713.

(d) To request confidential treatment for information contained in the application, the applicant must comply with § 107.5(a).

§ 107.709 Application processing.

(a) No public hearing or other formal proceeding is required under this subpart before the disposition of an application.

(b) At any time during the processing of an application, the Associate Administrator may request additional information from the applicant. If the applicant does not respond to a written request for additional information within 30 days of the date the request was received, the application will be deemed incomplete and denied.

(c) The Associate Administrator may grant or deny an application, in whole or in part. At the Associate Administrator's discretion, an application may be granted subject to conditions appropriate to protect health, safety and property.

(d) The Associate Administrator may deny the application if—

(1) The application does not comply with this subpart;

(2) The application contains inadequate justification, or otherwise does not meet the criteria set forth in the section or subsection under which the approval is sought;

(3) The application contains a materially false or materially misleading statement, or fails to state a material fact;

(4) The applicant does not demonstrate the qualifications set forth in the applicable regulations; or

(5) The applicant does not demonstrate the level of capability and integrity required to perform the activity for which the application is filed. A pending or completed enforcement action may be considered evidence of insufficient capability or integrity.

(e) Unless otherwise specified in this chapter or by the Associate Administrator, an approval does not expire.

(f) The Associate Administrator notifies the applicant in writing of the decision on the application. A denial contains a brief statement of reasons.

§ 107.711 Withdrawal.

An application may be withdrawn at any time before a decision to grant or deny it is made. Withdrawal of an application does not authorize the removal of any related records from the RSPA dockets or files.

§ 107.713 Approval modification, suspension or termination.

(a) The Associate Administrator may modify an approval on finding that—

(1) Modification is necessary to conform an existing approval to relevant statutes and regulations as they may be amended from time to time; or

(2) Modification is required by changed circumstances to enable the approval to continue to meet the standards of § 107.709(d).

(b) The Associate Administrator may modify, suspend or terminate an approval, as appropriate, on finding that—

(1) Because of changed circumstances, the approval would not be granted if application were made now;

(2) The application contained inaccurate or incomplete information, and the approval would not have been granted had the application been accurate and complete;

(3) The application contained deliberately inaccurate or incomplete information; or

(4) The holder knowingly has violated the terms of the approval or an applicable requirement of this chapter, in a manner demonstrating insufficient capability or integrity to conduct the activity for which the approval is required.

(c) Before an approval is modified, suspended or terminated, the Associate Administrator notifies the holder in writing of the proposed action and the reasons for it, and provides an opportunity to show cause why the proposed action should not be taken.

(1) The holder may file a written response with the Associate Administrator within 30 days of receipt of notice of the proposed action.

(2) The Associate Administrator, if necessary to avoid a measurable risk of significant harm to persons or property, may in the notification declare the proposed action immediately effective, for a maximum of 90 days from the date of the holder's receipt of the notice.

(3) After considering the holder's written response to the notice, or after 30 days have passed without response from receipt of the notice, the Associate Administrator notifies the holder in writing of the final decision. Modification, suspension or termination shall be accompanied by a brief statement of grounds.

§ 107.715 Reconsideration.

(a) An applicant or a holder may request that the Associate Administrator reconsider a decision under § 107.709(f) or § 107.713(c). The request must:

(1) Be in writing and filed within 20 days of receipt of the decision;

(2) State in detail all alleged errors of fact and law;

(3) Enclose all documentation in support of the request to reconsider, with a justification for failure to provide the documentation previously; and

(4) State in detail the modification of the final decision sought.

(b) The Associate Administrator considers newly submitted information on a showing that the information could not reasonably have been submitted during application processing.

(c) The Associate Administrator grants or denies, in whole or in part, the relief requested and informs the requesting person in writing of the decision.

§ 107.717 Appeal.

(a) A person who requested reconsideration under § 107.715 may appeal to the Administrator the Associate Administrator's decision on the request. The appeal must:

(1) Be in writing and filed within 30 days of receipt of the Associate Administrator's decision on reconsideration;

(2) State in detail all alleged errors of fact and law;

(3) Enclose all documentation in support of the appeal, with a justification for failure to provide the documentation previously; and

(4) State in detail the modification of the final decision sought.

(b) The Administrator, if necessary to avoid a risk of significant harm to persons or property, may declare the Associate Administrator's action effective pending a decision on appeal, for a maximum of 90 days from the date of the holder's receipt of the decision.

(c) The Administrator considers newly submitted information on a showing that the information could not reasonably have been submitted during application processing or reconsideration.

(d) The Administrator grants or denies, in whole or in part, the relief requested and informs the appellant in writing of the decision on appeal. The Administrator's decision on appeal is the final administrative action.

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS

20. The authority citation for part 171 would continue to read as follows:

Authority: 49 U.S.C. 5101–5127; 49 CFR 1.53.

§ 171.1 [Amended]

21. In § 171.1, in the introductory text of paragraph (a), the wording "in commerce" would be added immediately following the wording "materials" and preceding "by".

22. Also in § 171.1, a new paragraph (d) would be added to read as follows:

§ 171.1 Purpose and scope.

* * * * *

(d) The use of terms and symbols prescribed in this subchapter for the stamping, marking, labeling, placarding and description of hazardous materials and packagings used in their transport.

23. In § 171.2, paragraphs (a), (b), (c) and (d) would be revised and a new paragraph (h) would be added to read as follows:

§ 171.2 General requirements.

(a) No person may offer or accept a hazardous material for transportation in commerce unless that person complies with subpart G of part 107 of this chapter, as applicable, and the hazardous material is properly classed, described, packaged, marked, labeled, and in condition for shipment as required or authorized by applicable requirements of this subchapter and of any exemption, approval or registration issued under subchapter A.

(b) No person may transport a hazardous material in commerce unless that person complies with subpart G of part 107 of this chapter, and the hazardous material is handled and transported in accordance with applicable requirements of this subchapter and of any exemption, approval or registration issued under subchapter A.

(c) No person may represent, mark, certify, sell, or offer a packaging or container as meeting the requirements of this subchapter or an exemption, approval or registration issued under subchapter A, governing its use in the transportation in commerce of a hazardous material, whether or not it is used or intended to be used for the transportation of a hazardous material, unless the packaging or container is manufactured, fabricated, marked, maintained, reconditioned, repaired and retested, as appropriate, in accordance with applicable requirements of this subchapter and of any exemption, approval or registration issued under subchapter A.

(d) The representations, markings, and certifications subject to the prohibitions of paragraph (c) of this section include:

(1) Specification identifications that include the letters "DOT" or "UN";

(2) Exemption, approval, and registration numbers that include the letters "DOT"; and

(3) Test dates associated with specification, registration, approval, retest or exemption markings indicating compliance with a test or retest requirement of this subchapter, or an exemption, an approval or a registration issued under subchapter A.

* * * * *

(h) No person shall—

(1) Falsify or alter an exemption, approval, registration or other grant of authority issued under this subchapter or subchapter B of this chapter; or

(2) Offer a hazardous material for transportation or transport a hazardous material in commerce, or represent, mark, certify, or sell a packaging or container, under a false or altered exemption, approval, registration or other grant of authority issued under this subchapter or subchapter B of this chapter.

§ 171.3 [Amended]

24. In § 171.3, paragraph (c) and the Note would be removed, and paragraph (d) would be redesignated as paragraph (c).

25. In § 171.8, a definition of "Approval" would be added and the definition of "Person" would be revised to read as follows:

§ 171.8 Definitions and abbreviations.

* * * * *

Approval means a written authorization from the Associate Administrator for Hazardous Materials Safety to perform a function for which prior authorization by the Associate Administrator is required under Subchapter C.

* * * * *

Person means an individual, firm, copartnership, corporation, company, association, joint-stock association, including any trustee, receiver, assignee, or similar representative thereof; or government, Indian tribe, or agency or instrumentality of any government or Indian tribe when it offers hazardous material for transportation in commerce or transports hazardous material to further a commercial enterprise, but such term does not include:

(1) The United States Postal Service;

(2) For the purposes of 49 U.S.C. 5123 and 5124, any agency or instrumentality of the Federal Government.

* * * * *

PART 172—HAZARDOUS MATERIALS TABLE, SPECIAL PROVISIONS, HAZARDOUS MATERIALS COMMUNICATIONS, EMERGENCY RESPONSE INFORMATION, AND TRAINING REQUIREMENTS

26. The authority citation for Part 172 would continue to read as follows:

Authority: 49 U.S.C. 5101–5127; 49 CFR 1.53.

27. In § 172.302, paragraph (c) would be revised to read as follows:

§ 172.302 General marking requirements for bulk packagings.

* * * * *

(c) *Exemption packagings.* The outside of each bulk package used under the terms of an exemption shall be plainly and durably marked "DOT–E" followed by the exemption number assigned, in letters at least two inches high on a contrasting background.

* * * * *

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

28. The authority citation for part 173 would continue to read as follows:

Authority: 49 U.S.C. 5101–5127; 49 CFR 1.53.

29. In § 173.22a, a new paragraph (c) would be added to read as follows:

§ 173.22a Use of packagings authorized under exemptions.

* * * * *

(c) When an exemption issued to a shipper contains special carrier requirements, the shipper shall furnish a copy of the exemption to the carrier before or at the time a shipment is tendered.

PART 178—SPECIFICATIONS FOR PACKAGINGS

30. The authority citation for Part 178 would continue to read as follows:

Authority: 49 U.S.C. 5101–5127; 49 CFR 1.53.

31. In § 178.3, a new paragraph (d) would be added to read as follows:

§ 178.3 Marking of packagings.

* * * * *

(d) No person may mark or otherwise certify a packaging or container as meeting the requirements of a manufacturing exemption unless that person is the holder of or a party to that exemption, an agent of the holder or party for the purpose of marking or certification, or a third party tester.

Issued in Washington, DC, on September 8, 1995, under authority delegated in 49 CFR part 106.

Alan I. Roberts,

Associate Administrator for Hazardous Materials Safety.

Notices

Federal Register
Vol. 60, No. 178
Thursday, September 14, 1995

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

September 8, 1995.

The Department of Agriculture has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extension, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) Who will be required or asked to report; (5) An estimate of the number of responses; (6) An estimate of the total number of hours needed to provide the information; (7) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, Room 404–2, Jamie L. Whitten Bldg., Washington, DC 20250, (202) 690–2118.

COMMISSION ON CIVIL RIGHTS

Amendment to Notice of Public Meeting of the New Jersey Advisory Committee

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that the meeting site of the New Jersey Advisory Committee to the Commission as announced in the **Federal Register**, Vol 60, No. 157, Doc 95–20057, on August 15, 1995, has been amended to the Marriott Courtyard, 1000 Century Parkway, Mount Laurel, New Jersey 08054. (This amendment is change of location only.)

Persons desiring additional information, or planning a presentation to the Committee, should contact Committee Chairperson Dr. Irene Hill-Smith, 609–468–5546, or Edward Darden, Acting Director of the Eastern Regional Office, 202–376–7533 (TDD 202–376–8116). Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Regional Office at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, September 8, 1995.

Carol-Lee Hurley,

Chief, Regional Programs Coordination Unit.

Masonic Medical Research Lab., et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instruments described below, for such purposes as each is intended to be used, is being manufactured in the United States.

Docket Number: 95–020. *Applicant:* Masonic Medical Research Lab., Utica, NY 13501–1787. *Instrument:* Xenon Flashlamp System, Model XF–10. *Manufacturer:* Hi-Tech Scientific, United Kingdom. *Intended Use:* See notice at 60 FR 19572, April 19, 1995. *Reasons:* The foreign instrument provides: (1) a high intensity (300J) UV source with a bandwidth of 340–360 nm and (2) an intensity-stepped power supply. *Advice Received From:* The National Institutes of Health, July 10, 1995.

Docket Number: 95–021. *Applicant:* Tulane University, New Orleans, LA 70118. *Instrument:* Ultra Sensitive State Fluorimeter with Accessories, Model FS900CD. *Manufacturer:* Edinburgh Instruments Ltd., United Kingdom. *Intended Use:* See notice at 60 FR 20967, April 28, 1995. *Reasons:* The foreign instrument provides: (1) ultra sensitive UV/VIS/IR detection, (2) 450W xenon source and (3) a high resolution monochromator with wavelength accuracy of ±0.2 nm. *Advice Received From:* The National Institutes of Health, July 10, 1995.

Docket Number: 95–024. *Applicant:* U.S. Environmental Protection Agency, Narragansett, RI 02882. *Instrument:* Mass Spectrometer, Model VG Optima. *Manufacturer:* Fisons Instruments, Inc., United Kingdom. *Intended Use:* See notice at 60 FR 20968, April 28, 1995. *Reasons:* The foreign instrument provides sample sensitivity of 1 microgram for both carbon and nitrogen trace concentration gaseous analysis. *Advice Received From:* The National Institutes of Health, July 11, 1995.

Docket Number: 95–026. *Applicant:* Tulane University, New Orleans, LA 70118. *Instrument:* Lifetime CD Spectrometer, Model FL 900. *Manufacturer:* Edinburgh Instruments Ltd., United Kingdom. *Intended Use:* See notice at 60 FR 20968, April 28, 1995. *Reasons:* The foreign instrument provides: (1) a small lamp pulse width of less than 1 ns, (2) high intensity lamp excitation with short pulse width, and (3) superior stray light rejection by the instrument's monochromator. *Advice*

Received From: The National Institutes of Health, July 11, 1995.

Docket Number: 95–031. *Applicant:* University of Maryland, College Park, MD 20742–7515. *Instrument:* Monocular Oculometer for the Human Eye. *Manufacturer:* Dr. Bouis, Germany. *Intended Use:* See notice at 60 FR 24838, May 10, 1995. *Reasons:* The foreign instrument provides measurement of horizontal eye movement at a scan rate of 4000/sec. *Advice Received From:* The National Institutes of Health, July 12, 1995.

The National Institutes of Health advises in its memoranda that (1) the capabilities of each of the foreign instruments described above are pertinent to each applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to any of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510–DS–M

President's Export Council: Meeting of the Subcommittee on the Americas

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: The President's Export Council Subcommittee on the Americas will hold an open meeting to discuss topics related to hemispheric integration including: trade promotion in the Americas, a Brazilian trade review and the Mexican peso crisis. The President's Export Council was established on December 20, 1973, and reconstituted May 4, 1979, to advise the President on matters relating to U.S. trade. It was most recently renewed on September 30, 1993, by Executive Order 12689.

DATES: September 29, 1995.

TIME: 9:00 a.m.–1:30 a.m.

ADDRESSES: Main Commerce Building, Room 6029, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230. This program is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Chad Hoseth, President's Export Council, Room 2015B, Washington, D.C. 20230. Seating is limited and will be on a first come, first serve basis.

FOR FURTHER INFORMATION CONTACT: Chad Hoseth, President's Export Council, Room 2015B, Washington, D.C. 20230.

Dated: September 8, 1995.

Sylvia Lino Prosak,

Acting Staff Director and Executive Secretary, President's Export Council.

National Oceanic and Atmospheric Administration

[I.D. 090795B]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Salmon Subcommittee of the Pacific Fishery Management Council's (Council) Scientific and Statistical Committee (SSC) will hold a public meeting.

DATES: The meeting will be begin on Tuesday, October 10, 1995 at 10 a.m. and may go into the evening until business for the day is completed.

ADDRESSES: The meeting will be held at the Oregon Department of Fish and Wildlife, 2501 SW. First, Commission Room, Portland, OR 97207.

Council address: Pacific Fishery Management Council, 2130 SW Fifth Avenue, Suite 224, Portland, OR 97201.

FOR FURTHER INFORMATION CONTACT: Jim Seger, Economic Analysis Coordinator; telephone: (503) 326–6352.

SUPPLEMENTARY INFORMATION: The primary purpose of this meeting is to review selected methodologies used in the Council's management of the Pacific salmon fisheries.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Lawrence D. Six, Executive Director, at (503) 326–6352 at least 5 days prior to the meeting date.

Dated: September 8, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Apparel Produced or Manufactured in Sri Lanka

September 8, 1995.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 18, 1995.

FOR FURTHER INFORMATION CONTACT: Helen L. LeGrande, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being adjusted, variously, for swing, carryover and special carryforward.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 59 FR 65531, published on December 20, 1994). Also see 60 FR 13410, published on March 13, 1995.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing, but are designed to assist only in the implementation of certain of their provisions.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 8, 1995.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on March 7, 1995, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products and silk blend and other vegetable fiber apparel, produced or manufactured in Sri Lanka and exported during the period which began on January 1, 1995 and extends through December 31, 1995.

Effective on September 18, 1995, you are directed to amend the directive dated March 7, 1995 to adjust the limits for the following categories, as provided for under the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit[1]
237	304,360 dozen.
314	4,120,099 square meters.
331/631	2,663,924 dozen pairs.
333/633	2,605 dozen.
334/634	615,833 dozen.
335/835	283,781 dozen.
336/636/836	572,566 dozen.
338/339	1,388,284 dozen.
340/640	1,346,490 dozen.
341/641	1,930,467 dozen of which not more than 1,253,654 dozen shall be in Category 341 and not more than 1,207,271 dozen shall be in Category 641.
342/642/842	584,835 dozen.
345/845	140,563 dozen.
347/348/847	1,557,838 dozen.
350/650	116,046 dozen.
351/651	373,596 dozen.
352/652	1,246,213 dozen.
359–C/659–C[2]	1,343,928 kilograms.
360	1,512,587 numbers.
363	4,194,626 numbers.
369–D[3]	624,518 kilograms.
369–S[4]	487,779 kilograms.
434	7,860 dozen.
435	15,933 dozen.
440	11,735 dozen.
611	5,310,564 square meters.
635	383,861 dozen.
638/639/838	847,546 dozen.
644	256,876 numbers.
645/646	87,331 dozen.
647/648	991,211 dozen.
840	157,671 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1994.

[2] Category 359–C: only HTS numbers 6103.42.2025, 6103.49.8034, 6104.62.1020, 6104.69.8010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025 and 6211.42.0010; Category 659–C: only HTS numbers 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.8038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.8014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6203.49.1010, 6203.49.1090, 6204.63.1510, 6204.69.1010, 6210.10.9010, 6211.33.0010, 6211.33.0017 and 6211.43.0010.

[3] Category 369–D: only HTS numbers 6302.60.0010, 6302.91.0005 and 6302.91.0045.

[4] Category 369–S: only HTS number 6307.10.2005.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 95–22831 Filed 9–13–95; 8:45 am]

BILLING CODE 3510–DR–F

DEPARTMENT OF ENERGY

Use of the 10 CFR Part 960 Siting Guidelines in Evaluating the Suitability of the Yucca Mountain Site

AGENCY: Office of Civilian Radioactive Waste Management, Yucca Mountain. Site Characterization Project.

ACTION: Notice.

SUMMARY: The U.S. Department of Energy (DOE), Office of Civilian Radioactive Waste Management (OCRWM), today gives notice of the rationale for its recent announcement that it will use the General Guidelines for the Recommendation of Sites for the Nuclear Waste Repositories (Guidelines) in 10 CFR Part 960, as they are currently written, in its evaluation of the suitability of the Yucca Mountain site in Nevada for development as a repository. As announced, the use of the Guidelines in this evaluation will be consistent with the Nuclear Waste Policy Act of 1982, as amended (NWPA), including the programmatic changes and reconfiguration provided for in the 1987 amendments to the NWPA, the presentation of this information is in response to a commitment made by the DOE to stakeholders at the public meetings held to discuss the DOE's proposed process for evaluating the suitability of the Yucca Mountain site. DOE has concluded that the existing Guidelines should not be amended at this time.

FOR FURTHER INFORMATION CONTACT: Dr. Jane R. Summerson, U.S. Department of Energy, Office of Civilian Radioactive Waste Management, Yucca Mountain Site Characterization Office, P.O. Box 98608, Las Vegas, NV 89193–8608.

I. Background

IA. Development of the Guidelines

As originally enacted in 1982, section 112 of the NWPA provided that a screening process would be used to identify multiple sites in different geologic media as suitable for extensive site characterization to determine their suitability as repository sites. Upon completion of site characterization, the characterized sites would be compared and a single site would be chosen for recommendation to the President for development as a repository.

On February 13, 1983, to implement section 112, the DOE published the proposed "General Guidelines for the Recommendation of Sites for the Nuclear Waste Repositories," for review and comment (48 FR 5670). The Guidelines were subsequently finalized following consideration of comments from the public and the consultation process with the Nuclear Regulatory Commission (NRC) required by the NWPA. See 10 CFR Part 960. The final concurrence of the NRC was provided on July 10, 1984 (49 FR 28130). On December 6, 1984, the DOE promulgated the final version of the Guidelines (49 FR 47714).

In its preliminary decision on the Guidelines, the NRC conditioned its concurrence on DOE adopting a number of conditions closely linking the Guidelines to NRC regulatory requirements in 10 CFR Part 60 (49 FR 9650). In its final concurrence, the NRC noted that DOE had revised the Guidelines to meet its conditions. In response to comments requesting closer alignment of the guidelines to Environmental Protection Agency (EPA) and NRC requirements, DOE stated that,

> In the event of a conflict between the Guidelines and either 10 CFR Part 60 (NRC regulations) or 40 CFR Part 191 [the EPA regulations], these NRC and EPA regulations will supersede the siting guidelines and constitute the operative requirement in any application of the guidelines. (49 FR 47721).

IB. Previous Applications of the DOE Guidelines

Consistent with section 112(b) of the NWPA, the Guidelines were used by the DOE in the process of nominating five sites as suitable for characterization and the recommendation to the President of three of the nominated sites for characterization as candidate sites for the first repository. Each site nomination was accompanied by an Environmental Assessment (EA) that included an evaluation of the suitability of that particular site under the Guidelines, based on the information available at that time. Each EA also contained a separate comparative evaluation of the subject site with the other nominated sites. On May 27, 1986, the President approved each of the sites recommended for characterization, including the Yucca Mountain site.

The 1987 amendments to the NWPA eliminated the requirement to consider multiple geologic repository sites and instead provided that site characterization studies would proceed at only the Yucca Mountain, Nevada site to determine whether it is suitable for development as a geologic repository.

In accordance with section 113(b) of the NWPA, the DOE prepared a Site Characterization Plan (SCP) (DOE/RW–0199, 1988), which, among other things, described how the DOE proposed to apply the Guidelines that fall within the scope of the planned site characterization program. Those provisions in the Guidelines that concern environmental quality, socioeconomic impacts, and transportation, and that generally require non-geologic data gathering, were not addressed in the SCP. In December 1988, the DOE submitted the SCP for the Yucca Mountain site to the NRC and to the State of Nevada for their review and comment. The siting provisions of the Guidelines set forth in 10 CFR Part 960 were identified in the SCP as the primary criteria required by section 113(b) of the NWPA to be used to determine the suitability of the Yucca Mountain site for development as a repository.

The DOE's position regarding the applicability of certain provisions in the Guidelines under the 1987 amendments to the NWPA was also presented in the SCP. The DOE stated that the provision in the Guidelines for comparative evaluations of performance was no longer applicable. The DOE also stated that the provision for comparative evaluation of costs relative to other siting options in 10 CFR 960.5–1(a)(3) was no longer applicable. In the SCP, the DOE identified the conditions in the Guidelines for which specific findings would be made in evaluating whether or not the Yucca Mountain site is suitable for development as a repository.

As discussed in the SCP, the implementation provisions in Subpart B of the Guidelines provide that the qualifying conditions of the pre- and postclosure system guidelines, and the qualifying and disqualifying conditions of the pre- and postclosure technical guidelines, be evaluated and that specific findings be made for each condition at principal decision points specified in Appendix III to 10 CFR Part 960. Before a DOE decision is made that the site is suitable and can be recommended for development as a repository, the evidence has to support findings by the DOE that none of the disqualifying conditions are present, that all qualifying conditions are met, and that these conclusions are not likely to change.

II. Consultation on the Application of the Guidelines

Although the SCP for the Yucca Mountain site describes how the DOE would apply the Guidelines during site characterization in evaluating the suitability of the site in light of the 1987 amendments to the NWPA, a number of entities continued to indicate that they remained unclear as to the DOE's future application of the Guidelines. Because of this continuing indication of confusion with regard to the application of the Guidelines and because Section 112(a) of the NWPA and the Guidelines themselves contemplate that the DOE may revise the Guidelines from time to time, the DOE instituted an ongoing dialogue with external parties on the Guidelines.

In October 1993, the DOE briefed the Affected Units of Government, comprised of representatives of the affected counties and the State of Nevada, on its plans for activities related to site suitability evaluation. These plans included activities intended to implement the DOE's commitment to conduct interim evaluations of the suitability of the Yucca Mountain site during the course of site characterization. Prior to beginning such evaluations, the DOE elected to conduct another review of its Guidelines and solicited public input regarding options for the use of the Guidelines in these evaluations. Five options were identified for discussion:

- Continue to use the existing Guidelines without revision.
- Issue a **Federal Register** notice providing the DOE's proposed implementation of the Guidelines consistent with current legislative direction to characterize a single site.
- Amend the existing Guidelines.
- Develop new site-specific Guidelines.
- Adopt the NRC's siting criteria from 10 CFR Part 60, Subpart E.

These discussions regarding the Guidelines continued in a number of meetings with affected Units of Government held in December 1993, and in February and March 1994. A number of comments related to options for the use of the Guidelines were received by the DOE, either in these meetings or in written comments on the DOE's proposed plans for site suitability activities. The State of Nevada and other Affected Units of Government noted that because the development of the Guidelines received broad public exposure through publication in the **Federal Register**, the DOE's current review of the Guidelines also should receive broad public exposure. In response to these comments, on April 25, 1994, the DOE published a Notice of Inquiry (59 FR 19680) eliciting views of the public on, among other things, the appropriate role of the Guidelines in the evaluation of site suitability. The DOE then conducted a public workshop on May 21, 1994, in Las Vegas, Nevada, to discuss the Guidelines and other issues related to the process for the evaluation of site suitability. The DOE also provided the opportunity for the public to submit written comments. The comment period ended on June 24, 1994.

No clearly preferred option was identified through the public comment process. Indeed, each option had its detractors and supporters. This lack of consensus is generally consistent with the results of previous public interactions.

Following the public meeting and the close of the public comment period, and after consideration of the comments received, the DOE published a second Notice on August 4, 1994 (59 FR 39766) announcing, among other things, that it would continue to use the Guidelines in 10 CFR Part 960 as currently written, subject to the programmatic reconfiguration directed by the 1987 amendments to the NWPA.

At public meetings held with stakeholders on August 27, 1994, in Las Vegas, and on August 30, 1994, in Washington, D.C., questions were raised about the rationale for the announcement regarding the use of the Guidelines in 10 CFR Part 960. At these meetings, the DOE committed to providing background information related to this decision to the program stakeholders.

III. Issues Raised During Consultation and DOE's Response

The issues raised during recent consultation on the use and role of the siting provision in 10 CFR Part 960 in the evaluation of site suitability fall into the following general categories:

- The Role of Stakeholders, the Public and DOE in Evaluating the Use of the Guidelines.
- Consistency with the Current Legislative Framework.

- Consistency with NRC Criteria in 10 CFR Part 60.
- Development of Site-Specific Criteria.

The following provides a discussion of the issues raised and background information regarding the rationale for the DOE's announcement (59 FR 39766) regarding the continued application of the Guidelines, as currently written, to the evaluation of the suitability of the Yucca Mountain site in Nevada.

IIIA. Comments Regarding the Role of Stakeholders, the Public and DOE in Evaluating the Use of the Guidelines

Nye County, in their correspondence dated May 17, 1994, stated that "OCRWM must determine for itself whether or not it can most efficiently continue to conduct the program under the present Guidelines" and, further, the decision to issue a **Federal Register** Notice on the use of 10 CFR Part 960 "* * *must be DOE's decision in the first instance." The County stated:

> While we certainly agree that it is appropriate and useful to seek input from the stakeholders while DOE reevaluates its siting Guidelines, we believe that it is not incumbent upon oversight organizations to recommend, in the first instance, how to change or interpret the law or Guidelines in order to facilitate DOE's ability to carry out its own program. If, for example, it is determined that formalized interpretations of portions of the Guidelines are needed, then OCRWM should suggest and circulate such interpretations. Oversight organizations, such as Nye County can then comment or make positive suggestions for change.

Nye County added that it "strongly believes that justification has yet to be made for making wholesale substantive Guideline revisions."

Nevada's Agency for Nuclear Projects Nevada (Nevada Agency), in their correspondence dated June 22, 1994, stated that "since the Guidelines provide the standard for DOE's final determination of the suitability of the Yucca Mountain site for development of a repository, and are the basis for any preliminary suitability findings, DOE should commit itself, in the Guidelines, to a process for both public involvement and peer review to enhance confidence in its suitability evaluations." Specifically, the Nevada Agency maintained that the Guidelines should be revised to incorporate requirements for a "specific process of public involvement in the DOE's use of the Guidelines for making a Yucca Mountain site suitability determination, whether preliminary or final."

The Nevada Agency stressed that "if DOE proposes revision of the Guidelines, to remain consistent with Section 112(a), it should formally consult with the agencies named, including the Governor of Nevada, before issuance of revised Guidelines, and this consultation should be carried out separately from the Administrative Procedure Act (APA) process to which it has committed." The Nevada Agency continued that section 112(a) of the NWPA provides that the Secretary may revise the Guidelines "consistent with the provisions of this subsection." The Nevada Agency maintained that this subsection requires, in addition to concurrence of the NRC, that DOE consult with the Council on Environmental Quality, the Administrator of the Environmental Protection Agency, the Director of the Geological Survey, and interested Governors prior to issuance of Guidelines." The Nevada Agency added that "it would be useful for DOE to issue an advance notice of proposed rulemaking, prior to issuing a proposed rule, in which it develops and analyzes options for revisions to the Guidelines and then requests comment on these options, as well as suggestions of other options to be considered in revision of the Guidelines."

DOE shares the view of the Nevada Agency that should the Department, at some future date, opt to amend its Guidelines, it should issue an advance notice of proposed rulemaking before it begins the formalized rulemaking process as specified in the Administrative Procedure Act. Extensive consultation with Federal, state, and local entities, as well as with other interested parties should occur, and DOE would obtain NRC concurrence for any guideline revision.

IIIB. Consistency With the Current Legislative Framework

The Nuclear Energy Institute's (NEI) June 24, 1994 response to the DOE Notice of Inquiry, recommended that DOE establish appropriate Guidelines by rulemaking to provide "clear, unambiguous regulations pertinent only to site suitability and ensure that DOE's regulations are conformed to the NWPA, as amended, the Energy Policy Act, and are consistent with the agency's [DOE] intended actions." They argued that if DOE fails to conform 10 CFR Part 960 with the current statutory framework, "the program will likely be subject to unnecessary litigation, additional costs, and further delays that would be more costly to the program than any delay that may be associated with such a rulemaking." The NEI added that "however, in revising Part 960, DOE should not eliminate those Guidelines appropriate for evaluating, on a comparative basis, multiple sites. Such Guidelines may be useful in the future should, for example, the Yucca Mountain site prove unsatisfactory."

A number of comments received during the August, 1994 public meetings questioned the continued application of all or parts of the Guidelines given the provisions of the 1987 amendments to the NWPA and the Energy Policy Act of 1992. Some comments were based on the assumption that the Guidelines are intended to be used only in comparing sites and, therefore, are no longer a meaningful basis for the evaluation of a single site. Other comments, while acknowledging the applicability of certain provisions of the Guidelines to the evaluation of a single site, questioned the continued existence of those provisions that call for comparative evaluations and recommended that the Guidelines should be revised to make clear which provisions applied to the evaluation of Yucca Mountain.

The DOE believes that use of 10 CFR Part 960 in these were comparative and so not relevant to single site without comparison the SCP demonstrates that the Guidelines can be applied in evaluating the suitability of a single site. The DOE has decided that for now no amendments are needed to establish the role of the Guidelines in the determination of suitability for the Yucca Mountain site.

DOE notes that under section 801 of the Energy Policy Act of 1992, the EPA is required to promulgate new standards for a repository at the Yucca Mountain site. Because the Guidelines refer explicitly to 40 CFR Part 191, the DOE has proceeded to conduct its site characterization program in accordance with 40 CFR Part 191. The DOE will re-evaluate its plans and consider the need for any changes in the Guidelines once the new EPA standard has been promulgated.

IIIC. Consistency With NRC Criteria in 10 CFR Part 60

The NEI, in their letter dated October 3, 1994, maintained that rulemaking would afford the opportunity to conform DOE's 10 CFR Part 960 with the NRC's 10 CFR Part 60. They argued that such an action:

> would eliminate duplication of, and reduce the possibility for, confusion over appropriate requirements set forth in each regulation. For example, rather than the enumeration and evaluation of "Potentially Adverse Conditions" in Subpart C. of the Guidelines, it may be advisable to simply reference 10 CFR 60.122(c) and the Potentially Adverse Conditions listed and

> considered there. This will both avoid unnecessary duplication and reduce the possibility for confusion over appropriate requirements.

NEI added that, regardless of whether or not DOE conforms its regulations to NRC's regulations, they suggest that the NRC

> be involved as an extension of the concurrent process defined in Section 112(a) of the Nuclear Waste Policy Act (NWPA), and that the process for applying applicable Guidelines in evaluating site suitability for Yucca Mountain could then be memorialized in a Memorandum of Understanding between the two agencies. Involvement of the regulator will assure that there are no additional misunderstandings between DOE and the NRC as to the nature and application of the site suitability evaluation process.

Nye County (letter dated May 17, 1994) argued against adopting as DOE's siting Guidelines, in substance if not in language, the siting criteria of Subpart E of 10 CFR Part 60. The County stated that:

> this option masks the real fundamental distinction between site suitability and licensability. The DOE siting guidelines must constitute real true measure of site suitability, as contrasted with examples of licensing emphasis on design conditions, operation of the engineered barrier system, and operating procedures. The Guidelines must reflect the geologic capability of the site itself to isolate waste, without the imposition by the licensing agency of any external requirements. Finally, Nye County believes that adopting NRC's Subpart E of 10 CFR Part 60 would mask the fundamental distinctions between site suitability and licensability.

Opposing views were expressed in the August, 1994 public meetings regarding the need to incorporate the applicable provisions of the NRC technical criteria (10 CFR Part 60, Subpart E) into the Guidelines. In one view, the Guidelines should be revised to incorporate the applicable provisions of 10 CFR Part 60 to the maximum extent possible, to avoid duplication and to reduce the possibility for confusion over appropriate requirements. The other view is that the Guidelines should not be amended to adopt the NRC criteria from 10 CFR Part 60 because this would mask the distinction between site suitability and licensing, with the suitability decision focusing on the geologic capability of the site to isolate waste.

The DOE believes that it is not necessary to abandon its Guidelines and adopt the NRC siting criteria found in 10 CFR Part 60, Subpart E. The DOE Guidelines are expressly derived from and tied to the NRC siting criteria (49 FR 47714) and, as noted in 10 CFR 960.1, are intended to complement the NRC and EPA regulations. The NRC concurred in the Guidelines as required by section 112(a) of the NWPA, after an extensive review, with opportunity for public comment (49 FR 28130). One of the NRC's criteria for concurrence was that the siting provisions of the Guidelines must not be inconsistent with 10 CFR Part 60. Based on the direction provided in section 112(a) regarding the purpose and content of the Guidelines, and the NRC's concurrence on these Guidelines, the DOE does not believe that it is necessary to amend 10 CFR Part 960.

IIID. Development of Site-Specific Criteria

Nye County (letter dated May 17, 1994) expressed opposition to developing site-specific Guidelines "as such Guidelines will destroy even a facade of scientific integrity for the Yucca Mountain project." In addressing amendment of the Guidelines, the County stated that they:

> recognize that much knowledge has been gained about disposing of radioactive waste since the Guidelines were first written 10 years ago . . .; the Guidelines themselves contemplate periodic revisions, as is evidenced by the provisions of 10 CFR 960.1. Nye County does not believe that Guidelines should not under any circumstances be amended. At the same time, Nye County believes strongly that no justification has been made for any wholesale substantive revisions of the Guidelines.
>
> [adopting site-specific Guidelines] would clearly constitute what many in Nevada have always feared the most, that is, writing the rules to fit the site rather than characterizing the site to determine whether or not it meets the Guidelines. Furthermore, it is a virtual certainty that the nation will eventually need a second repository. Any DOE Guidelines, therefore, must be applicable to other sites, in other locations, in other geologic media.

Eureka County, in its correspondence dated March 14, 1994, expressed similar views. The County commented that "revision of the Guidelines in a manner that is perceived by the public to be changing the rules to fit the site would be detrimental to the image of the department, and could adversely affect the department's attempts to build trust and confidence." Eureka County continued that "to write site specific Guidelines for Yucca Mountain would further detract from, if not totally destroy, the public's confidence in the scientific objectivity of the Yucca Mountain characterization program. In addition, new Guidelines would have to be developed when a second repository search begins."

Site-specific Guidelines were opposed by many at the August, 1994 public meetings. Comments parallel those made by Nye and Eureka County that (1) such a change could be viewed as changing the rules to fit the site and, (2) general Guidelines may still be needed for siting other repositories should the Yucca Mountain site be found to be unsuitable or should a second repository be needed.

The DOE agrees with these observations. Under section 161(b) of the NWPA, the DOE has an obligation to report to the President and Congress on the need for a second repository. Under section 113(c) of the NWPA, if the Yucca Mountain site is determined to unsuitable, the DOE is obligated to report to Congress on recommended actions to assure safe, permanent disposal of spent nuclear fuel and high-level waste. If a second repository is required or the Yucca Mountain site is found to be unsuitable, it will be necessary to have general Guidelines in place to support the required DOE actions.

IV. DOE Position and Basis for DOE Position

DOE will use the Guidelines as they are currently written in its evaluation of the suitability of the Yucca Mountain site in Nevada for development as a repository. The DOE believes it is not necessary to abandon the Guidelines and adopt the NRC siting criteria in 10 CFR Part 60. DOE further believes it is not necessary to amend the Guidelines to remove those provisions that deal with the comparison of multiple sites.

The DOE believes that amending the Guidelines, either to remove those portions that are primarily used for comparative purposes or to develop Guidelines specifically tailored to the evaluation of the suitability of the Yucca Mountain site, is not required at this time. Because DOE need apply only the relevant provisions, the DOE further believes that it is useful to have in place general Guidelines for the comparison of multiple sites in the event the Yucca Mountain site is determined to be unsuitable for development as a repository, or in the event that a site must be selected for a second repository. Although the Guidelines may have to be amended at some future date to be consistent with any future changes to EPA or NRC requirements, for now, no amendments are needed in order to provide clarification as to the appropriate role of the existing Guidelines in the evaluation of a single site.

The DOE has concluded that it is not necessary to abandon its Guidelines and adopt NRC siting criteria found in 10 CFR Part 60, Subpart E. This is because, as noted in Section II.A above, the DOE Guidelines are expressly derived from and tied to the NRC siting criteria set forth in 10 CFR Part 60. In addition, should any differences between the 10 CFR Part 960 and 10 CFR Part 60 be identified, 10 CFR Part 60 would prevail in the licensing process.

The Implementation Guidelines of 10 CFR Part 960, Subpart B, establish procedures for applying the postclosure and preclosure provisions of the Guidelines in Subparts C and D for the evaluation of multiple sites in different geohydrologic settings in different kinds of host rock. Although prior to 1987, the DOE used these provisions of the Guidelines to assess individual sites as part of the site screening process, the 1987 amendments to the NWPA eliminated the need to consider alternative sites. Therefore, much of Subpart B is no longer applicable to the characterization of a single site. In addition, the various stages of site selection, except for site recommendation for repository development, were completed before passage of the 1987 amendments to the NWPA and the provisions of the Guidelines relating to these stages are no longer applicable to the evaluation of one site. Also, references to comparative site evaluations and associated performance levels are no longer applicable because, the 1987 amendments to the NWPA eliminated the need for any such comparative studies. These provisions will not be applied by DOE in evaluating the suitability of Yucca Mountain as a repository.

The portion of Subpart B of 10 CFR Part 960 that remains applicable to the evaluation of a single site and the relevant postclosure and preclosure guideline provisions in Subparts C and D, respectively, provide the basis for evaluating the suitability of the Yucca Mountain site. In addition, for the purpose of recommending Yucca Mountain for development as a repository, Subpart B provides that the DOE will supply evidence that the repository is likely to comply with applicable EPA and NRC requirements.

As discussed in Section II.B., the DOE provided clarification in the SCP regarding the Guideline conditions for which specific findings would be made in evaluating whether or not the Yucca Mountain site is suitable for development as a repository. Before a DOE decision is made that the site is suitable and can be recommended for development as a repository, the evidence must support findings by the DOE that none of the disqualifying conditions are likely to be present, that all qualifying conditions are likely to be met, and that conclusions regarding such findings are unlikely to change.

DOE recognizes that the licensing process provides additional motivations for conducting activities that go beyond site suitability concerns. Even if there is high confidence that additional information will not change conclusions about site suitability, the DOE may determine that it is prudent to continue activities to address residual uncertainties, to build confidence in models, to confirm performance estimates, or to provide additional assurance to review boards or other parties in the siting and licensing process.

While no provision is made in the Guidelines for specific findings on either the favorable conditions or potentially adverse conditions, if these conditions exist under an evaluated technical or system qualifying condition, DOE will explicitly consider them when making findings on that technical or system qualifying condition, along with other important factors. The DOE notes, however, that as part of its separate and parallel effort to address NRC regulatory issues under 10 CFR Part 60, the DOE will ensure that site characterization studies are conducted to provide the information needed to specifically address the NRC potentially adverse and favorable conditions found in 10 CFR Part 60, Subpart E.

In summary, because Congress directed that only the Yucca Mountain site should be characterized to determine whether it is suitable for development as a geologic repository, none of the comparative portions of the Guidelines are currently applicable. The DOE will make specific findings regarding the applicable qualifying and disqualifying conditions identified in the postclosure and preclosure provisions in 10 CFR Part 960 Subparts C and D respectively, in making its decision whether to recommend the Yucca Mountain site for development as a repository. If favorable or potentially adverse conditions are found to exist under an evaluated technical or system qualifying condition, DOE will explicitly consider them when making findings on that qualifying condition, along with other important factors.

Issued in Washington, DC, on September 5, 1995.

Daniel A. Dreyfus,

Director.

[FR Doc. 95–22840 Filed 9–13–95; 8:45 am]

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Docket No. ER95–1654–000, et al.]

Northern States Power Company (MN) et al.; Electric Rate and Corporate Regulation Filings

September 6, 1995.

Take notice that the following filings have been made with the Commission:

1. Northern States Power Company (Minnesota Company))

[Docket No. ER95–1654–000]

Take notice that on August 30, 1995, Northern States Power Company (Minnesota)(NSP), tendered for filing a Construction Agreement between NSP and Cooperative Power Association (CPA). This agreement provides for NSP to complete construction of the JohnnyCake Substation for CPA.

NSP requests that the Commission accept the agreement effective September 1, 1995, and requests waiver of the Commission's notice requirements in order for the revisions to be accepted for filing on the date requested.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

2. Entergy Power, Inc.

[Docket No. ER95–1655–000]

Take notice that on August 30, 1995, Entergy Power, Inc. (EPI), tendered for filing an Interchange Agreement with Ruston Utilities System.

EPI requests an effective date for the Interchange Agreement that is one (1) day after the date of filing, and respectfully requests waiver of the notice requirements specified in Section 35.11 of the Commission's Regulations.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

3. Southwestern Electric Power Company

[Docket No. ER95–1656–000]

Take notice that on August 30, 1995, Southwestern Electric Power Company (SWEPCO), submitted a service agreement establishing LG&E Power Marketing, Inc. as a customer under SWEPCO's umbrella Coordination Sales Tariff CST–1 (CST–1 Tariff).

SWEPCO requests an effective date of August 10, 1995 for the service agreement. Accordingly, SWEPCO seeks waiver of the Commission's notice requirements. Copies of this filing were served upon LG&E Power Marketing, Inc. and the Public Utility Commission of Texas.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

4. Public Service Company of Oklahoma

[Docket No. ER95–1657–000]

Take notice that on August 30, 1995, Public Service Company of Oklahoma (PSO), submitted a service agreement establishing LG&E Power Marketing Inc. as a customer under the terms of PSO's umbrella Coordination Sales Tariff CST–1 (CST–1 Tariff).

PSO requests an effective date of August 10, 1995, and accordingly, seeks waiver of the Commission's notice requirements. Copies of this filing were served upon LG&E Power Marketing Inc. and the Oklahoma Corporation Commission.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

5. Central Power and Light Company

[Docket No. ER95–1658–000]

Take notice that on August 30, 1995, Central Power and Light Company (CPL), submitted a service agreement establishing LG&E Power Marketing Inc. as a customer under CPL's umbrella Coordination Sales Tariff CST–1 (CST–1 Tariff).

CPL requests an effective date of August 10, 1995. Accordingly, CPL seeks waiver of the Commission's notice requirements. Copies of this filing were served upon LG&E Power Marketing Inc. and the Public Utility Commission of Texas.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

6. West Texas Utilities Company

[Docket No. ER95–1659–000]

Take notice that on August 30, 1995, West Texas Utilities Company (WTU), submitted a service agreement establishing LG&E Power Marketing Inc. as a customer under the terms of WTU's umbrella Coordination Sales Tariff CST–1 (CST–1 Tariff).

WTU requests an effective date of August 10, 1995 for the service agreement. Accordingly, WTU seeks waiver of the Commission's notice requirements. Copies of this filing were served upon LG&E Power Marketing Inc. and the Public Utility Commission of Texas.

Comment date: September 21, 1995, in accordance with Standard Paragraph E at the end of this notice.

7. Indiana Michigan Power Company

[Docket No. ER95–1660–000]

Take notice that on August 30, 1995, Indiana Michigan Power Company (I&M), tendered for filing with the Commission Facility Request No. 7 to the existing Agreement, dated December 11, 1989 (1989 Agreement), between I&M and Wabash Valley Power Association, Inc. (WVPA). Facility Request No. 7 was negotiated in response to WVPA's request that I&M provide facilities at a new 69 kV tap station to be owned by Jay County REMC (Co-op Name) and operated by I&M know as Jay County REMC-Trinity Tap Station. The Commission has previously designated the 1989 Agreement as I&M's Rate Schedule FERC No. 81.

As requested by, and for the sole benefit of WVPA, I&M proposes an effective date of November 1, 1995, for Facilities Request No. 7. A copy of this filing was served upon WVPA, the Indiana Utility Regulatory Commission, and the Michigan Public Service Commission.

Comment date: September 21 1995, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22804 Filed 9–13–95; 8:45 am]

BILLING CODE 6717–01–P

[Docket No. CP95–716–000, et al.]

Panhandle Eastern Pipe Line Company, et al.; Natural Gas Certificate Filings

September 6, 1995.

Take notice that the following filings have been made with the Commission:

1. Panhandle Eastern Pipe Line Company

[Docket No. CP95–716–000]

Take notice that on August 29, 1995 Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas, 77251–1642, filed in Docket No. CP95–716–000 a request pursuant to Section 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to abandon in place approximately 4,000 feet of 6-inch pipeline and 4,000 feet of 10-inch pipeline on Panhandle's Lincoln Laterals, and install approximately 4,400 feet of new 6-inch and 4,400 feet of new 10-inch pipeline all located in Logan County, Illinois, under Panhandle's blanket certificate issued in Docket No. CP83–83–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle states that the proposed abandonment would allow the current landowner, Material Service Corporation (MSC), to continue its rock mining operations in the area were the pipeline laterals currently exist. Panhandle states further that the estimated cost to abandon the pipeline in place would be approximately $22,500 and would be 100 percent reimbursed by MSC.

It is said that the new pipeline would be completely installed before the cutting and capping of the existing laterals takes place, in order to minimize the outage time.

Comment date: October 23, 1995, in accordance with Standard Paragraph G at the end of this notice.

2. Northwest Pipeline Corporation

[Docket No. CP95–718–000]

Take notice that on August 29, 1995, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, in Docket No. CP95–718–000, filed a request pursuant to §§ 157.205 and 157.211 of the Commission's Regulations under the

Natural Gas Act (18 CFR 157.205 and 157.211) and under its blanket authority granted September 1, 1982, in Docket No. CP82–433, for authorization to construct and operate a 1-inch tap and associated valves and piping as a crossover tie-in between the Clark Meter Station and Northwest's 20-inch Camas to Eugene lateral loop line in Clark County, Washington, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Specifically, Northwest proposes to construct and operate this tie-in for the Clark Meter Station in order to provide an alternate means of gas supply to the Clark Meter Station whenever the 20-inch Camas to Eugene lateral, which normally serves the meter station, is out of service. The design capacity and delivery pressure of the meter station will not change as a result of the proposed modification.

The cost of the proposed crossover tie-in at the Clark Meter Station is estimated to be approximately $9,984.

Comment date: October 23, 1995, in accordance with Standard Paragraph G at the end of this notice.

3. Southern Natural Gas Company

[Docket CP95–719–000]

Take notice that on August 29, 1995, Southern Natural Gas Company (Southern), Post Office 2563, Birmingham, Alabama 35202–2563, filed in Docket No. CP95–719–000 a request pursuant to Sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.216) for authorization to abandon measurement and pipeline facilities at 2 delivery points in Aikan County, South Carolina, under Southern's blanket certificate issued in Docket No. CP82–406–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the application on file with the Commission and open to public inspection.

Southern proposes to abandon the delivery point facilities at the Bath Mills and Clearwater Mills Taps in Aikan County, South Carolina. Southern states that the 2 taps were constructed to serve United Merchants and Manufacturers, Inc., under the terms of a sales agreement dated February 9, 1953. Southern also proposes to abandon delivery point facilities used to serve the Huber-Suprex Plant in Aiken County, under the terms of a sales agreement dated June 27, 1952. Southern further proposes to abandon pipeline facilities associated with these services. These facilities include Southern's 4-inch Bath Mills Tap Line, its 4-inch Clearwater Mills Line between milepost 2.337 and milepost 5.440, its 4-inch Huber Suprex Line and its 4-inch Graniteville Line between mileposts 2.660 and 2.810. It is stated that the industrial operations at these 3 locations have ceased and that no gas service has been provided at the meter stations for approximately 4 years. It is asserted that the proposed abandonments would not result in any termination or interruption of existing service.

Comment date: October 23, 1995, in accordance with Standard Paragraph G at the end of this notice.

4. Transcontinental Gas Pipe Line Corporation

[Docket No. CP95–724–000]

Take notice that on August 31, 1995, Transcontinental Gas Pipe Line (Applicant), P.O. Box 1396, Houston, Texas 77251, filed pursuant to Section 7(b) of the Natural Gas Act, for authority to abandon firm transportation service provided to Southern Natural Gas Company (Southern) under Applicant's Rate Schedule X–254, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that on May 10, 1982, Applicant and Southern entered into a transportation agreement under which Applicant transports, on a firm basis up to 6,500 dt/d of natural gas for Southern. This gas is produced at Eugene Island Block 107, offshore Louisiana, and received by Applicant at an interconnection between Applicant's Southwest Louisiana Gathering System and facilities owned by Southern at Eugene Island Block 118. Applicant redelivers equivalent quantities to Southern at a point of interconnection between Southern and Applicant in Section 33, Township 7 South, Range 4 East, Livingston Parish, Louisiana. Service is under Applicant's Rate Schedule X–254.

By letter dated December 8, 1992 Applicant informed Southern that it wanted to terminate Rate Schedule X–254. On July 12, 1993, Southern notified Applicant that it was agreeable to terminating Rate Schedule X–254 effective August 13, 1994. Applicant states that it will not abandon any facilities.

Comment date: September 27, 1995, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or to make any protest with reference to said application should on or before the comment date, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and/or permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–P

[Docket No. TM96–1–120–000]

Carnegie Interstate Pipeline Co.; Notice of Proposed Change in FERC Gas Tariff

September 8, 1995.

Take notice that on September 1, 1995, Carnegie Interstate Pipeline Company (CIPCO), tendered for filing and acceptance the following revised tariff sheet to its FERC Gas Tariff, Original Volume No. 1:

Second Revised Sheet No. 7

CIPCO proposed that the tariff sheet become effective on October 1, 1995.

CIPCO states that the above tariff sheet has been revised to reflect a modification to the Annual Charge Adjustment fee, in accordance with the Commission's most recent Annual Charge billing to CIPCO. The Annual Charge Unit Surcharge authorized by the Commission for fiscal year 1996 is $0.0023 per Mcf, or $0.0022 per Dth when converted to CIPCO's measurement basis.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 15, 1995. Protests will be considered by the Commission in 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CP95–727–000]

National Fuel Gas Supply Corp.; Notice of Petition for Declaratory Order

September 8, 1995.

Take notice that on September 1, 1995, National Fuel Gas Supply Corporation (national Fuel), 10 Lafayette Square, Buffalo, New York 14203, filed with the Commission in Docket No. CP95–202–000 a petition for a declaratory order, or other authorization as may be necessary, requesting authorization to refunctionalize the costs associated with certain facilities currently classified as production plant, all as more fully set forth in the application which is open to the public for inspection.

National Fuel states that it proposes to refunctionalize the following facilities, which are located either in New York or Pennsylvania:

A. 17 items of metering and regulating equipment that serve a storage function but are currently classified as production plant. The net book value of this equipment as of May 31, 1995, was $15,506. National Fuel now proposes to refunctionalize this equipment from production to storage.

B. 234 items of metering and regulating equipment that serve a transmission function but are currently classified as production plant. The net book value of this equipment as of May 31, 1995, was $534,630. National Fuel now proposes to refunctionalize this equipment from production to transmission.

C. 20 items of metering and regulating equipment located on gathering pipelines that serve a transmission function but are currently classified as production plant. National Fuel states that this equipment is used to make deliveries to customers under its FERC Rate Schedules EFT and FT and other shippers. The net book value of this equipment as of May 31, 1995, was $105,590. National Fuel now proposes to refunctionalize this equipment from production to transmission.

D. Inventoried metering and regulating equipment currently carried on National Fuel's accounting books as production plant, when only a portion of such equipment was actually used for production purposes. The net book value of this equipment as of May 31, 1995, was $180,398. Since transmission would be the predominant use of this equipment, National Fuel now proposes to refunctionalize this equipment from production to transmission.

E. Metering and regulating equipment installed at metering and regulating stations owned by National Fuel Gas Distribution Corporation (Distribution) but initially charged to National Fuel's production gas plant account when purchased. Subsequently this metering and regulating equipment was installed without an accounting entry transferring the equipment out of National Fuel's production gas plant and into Distribution's gas plant. The net book value of this equipment as of May 31, 1995, was $269,654. National Fuel proposes to reduce its production plant balances to correct these accounting errors.

F. Various buildings and other structures currently booked in Account 329 of the Commission's Uniform System of Accounts, but which actually serve functions other than production. National Fuel proposes to refunctionalize several structures from production to transmission, storage, or general, depending on the functions they serve. The net book value of this equipment as of May 31, 1995, was $1,183,565. The total original cost of these structures was $2,543,060, of which $2,176,988 would be transferred into general plant, $241,431 would be transferred into transmission, and $124,642 would be transferred into storage.

G. Various equipment items used to drill, maintain, and recondition storage wells and transmission lines that are booked as production plant. The net book value of this equipment as of May 31, 1995, was $243,012. National Fuel states that it would refunctionalize this equipment to either storage or transmission, depending upon how it is currently employed.

H. Various equipment items now booked to Account 337—Other Equipment—which National Fuel states that should be refunctionalized to storage and transmission. These items include office furniture, fire fighting equipment, testers, and miscellaneous tools. National Fuel states that this equipment is currently located in the structures proposed for refunctionalization in the above Paragraph F. The net book value of this equipment as of May 31, 1995, was $77,079.

National Fuel does not propose to construct or operate any new facilities in this petition.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 29, 1995, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Lois D. Cashell,

Secretary.

[Docket No. ER95–508–000]

Northern States Power Co.; Notice of Filing

September 8, 1995.

Take notice that on August 17, 1995, Northern States Power Company (NSP) tendered for filing a revision to its amendment providing the methodology of emission allowance cost recovery for its existing coordination agreements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions of protests should be filed on or before September 19, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. CP95–726–000]

Tennessee Gas Pipeline Co.; Notice of Request Under Blanket Authorization

September 8, 1995.

Take notice that on September 1, 1995, Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252, file in Docket No. CP95–726–000 a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to operate three (3) existing delivery point facilities, that were initially constructed under Section 311(a) of the Natural Gas Policy Act of 1978 (NGPA), under Tennessee's blanket certificate issued in Docket No. CP82–413–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Tennessee states that it has recently constructed three delivery points under Section 311(a) of the NGPA for use in the transportation of natural gas under Subpart B of Part 284 of the Commission's Regulations. Tennessee further states that granting of the requested authorization will enable Tennessee to fully utilize these facilities for all transportation services, pursuant to Section 311 of the NGPA and Section 7 of the Natural Gas Act and will increase the transportation options of customers on Tennessee's system.

It is stated that delivery volumes through the existing delivery points would not impact Tennessee's peak day and annual deliveries; that the proposed activity is not prohibited by its existing tariff; and that Tennessee has sufficient capacity to accommodate the changes proposed herein without detriment or disadvantage to Tennessee's other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM96–1–29–000]

Transcontinental Gas Pipe Line Corp., Notice of Tariff Filing

September 8, 1995.

Take notice that on September 5, 1995, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, Twelfth Revised Sheet No. 60. Such tariff sheet is proposed to be effective October 1, 1995.

Transco states that the purpose of the filing is to reflect a decrease in the Annual Charge Adjustment (ACA) Charge in the commodity portion of Transco's transportation rates. Pursuant to Order No. 472, the Commission has assessed Transco its ACA unit rate of $0.0023/Mcf ($0.0022/dt on Transco's system) for the annual period commencing October 1, 1995.

Transco states that copies of the filing are being mailed to affected customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 15, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CP95–606–001]

Western Gas Interstate Co.; Notice of Application

September 8, 1995.

Take notice that on September 1, 1995, Western Gas Interstate Company (WGI), 504 Lavaca Suite 800, Austin, Texas 78701 filed in Docket No. CP95–606–001, an application pursuant to Section 7 (b) and (c) of the Natural Gas Act (NGA) and §§ 157.7 and 157.17 of the Commission's Regulations for a temporary certificate of public convenience and necessity authorizing WGI: (i) to construct and operate approximately 15.5 miles of eight-inch pipeline and a sales tap in order to provide service to a hog processing plant currently under construction by Seaboard Farms, Inc. (Seaboard) near the City of Guymon, Oklahoma, and to abandon by relocation 7 miles of existing pipeline because of highway expansion;[1] and (ii) to construct and operate, on an interim basis pending the construction of the 15.5 mile segment of eight-inch pipeline, approximately 200 hundred feet of six-inch pipeline connecting the municipal distribution system of the City of Guymon with the Seaboard plant, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

---

[1] This 7 miles of pipeline runs parallel to 7 miles of the proposed 15.5 miles of pipeline.

WGI states that the Seaboard Plant is scheduled to open on October 2, 1995, and that the failure of the plant to open on that date would have severe adverse economic effects on the plant and the surrounding community. WGI requests that the Commission grant the request for an expedited permanent certificate, no later than September 11, 1995.

WGI states that the estimated cost of the proposed new delivery point is $1,549,838. It is stated that Seaboard would reimburse WGI $450,000 as part of the costs of the facilities. It is further stated that in connection with this project, the Oklahoma Highway Commission would also pay $371,000 to relocate a portion of its pipeline from a highway expansion project. WGI also states that Seaboard would be served by WGI as a firm transportation customer pursuant to Rate Schedule FT–N. WGI states that service to other customers will not be affected by the construction or operation of the new facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for WGI to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22806 Filed 9–13–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TM96–1–121–000]

WestGas InterState, Inc.; Notice of Proposed Changes in FERC Gas Tariff

September 8, 1995.

Take notice that on September 6, 1995, WestGas InterState, Inc. (WestGas) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, First Revised Sheet No. 5. The proposed effective date of the tariff sheet is October 1, 1995.

WGI states that, pursuant to section 154.38(d)(6) of the Commission's regulations and Section 21 of the General Terms and Conditions of its tariff, WGI is making its Annual Charge Adjustment (ACA) filing to reflect a decrease of $.0002 per Dth (from $.0024 to $.0022 per Dth) in its ACA surcharge.

WGI also states that the revised tariff sheet corrects a typographical error in the maximum commodity rate for Rate Schedule IT reflected in the currently-effective rate sheet.

WGI states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 15, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

[FR Doc. 95–22812 Filed 9–13–95; 8:45 am]

BILLING CODE 6717–01–M

[Docket Nos. RP90–137–024 and TM95–3–49–003 (not consolidated)]

Williston Basin Interstate Pipeline Co.; Notice of Compliance Filing

September 8, 1995.

Take notice that on September 1, 1995, Williston Basin Interstate Pipeline Company (Williston Basin), tendered for filing, under protest, revised tariff sheets to Second Revised Volume No. 1 and Original Volume No. 2 of its FERC Gas Tariff and to Original Volume No. 1–A of its supersede FERC Gas Tariff.

Williston Basin states that, in accordance with the Commission's August 2, 1995 Order, the revised tariff sheets exempt the Rate Schedule S–2 service performed for Chevron U.S.A. Inc., with Western Gas Resources, Inc. acting as its agent, from Williston Basin's take-or-pay volumetric surcharge both retroactively and prospectively. Williston Basin further states that effective September 1, 1995, this filing also incorporates revised take-or-pay volumetric surcharges which reflect the volumes contained in Williston Basin's August 24, 1995 compliance filing in Docket Nos. RP92–236–000 et al. and which also exclude all S–2 volumes on a prospective basis.

The proposed effective dates for these tariff sheets are as shown on the tariff sheets.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before September 15, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

FEDERAL COMMUNICATIONS COMMISSION

[DA 95–1871]

Finsyn Reports

AGENCY: Federal Communications Commission.

ACTION: Suspension of filing deadline.

SUMMARY: The Commission granted a request filed jointly by the National Broadcasting Company, Inc., CBS Inc. and Capital Cities/ABC, Inc. ("Petitioners") that the requirement to file Network Television Program Ownership and Syndication Reports ("Reports") be suspended. The Reports are currently due to be filed by September 1, 1995. The Commission noted that one purpose of the Reports is to facilitate preparation of comments in connection with the Commission's review of the financial interest and syndication ("finsyn") rules prior to the scheduled expiration of those rules. As the comment cycle in that review has now closed, the Commission will not now require additional Reports to be filed. The Commission also recognized that collection and preparation of the information required to be included in the Reports represent a significant burden on Petitioners, and determined that it is not necessary for the Commission to review that information at this time. The intended effect of the Commission's action is to suspend this reporting requirement, while reserving the right to require that the Reports be filed if necessary depending upon the Commission's decision in its review of the finsyn rules.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kim Matthews, Mass Media Bureau (202) 776–1563.

SUPPLEMENTARY INFORMATION:

Adopted: August 28, 1995.
Released: August 28, 1995.

By the Chief, Mass Media Bureau:

1. On August 21, 1995, the National Broadcasting Company, Inc., CBS Inc. and Capital Cities/ABC, Inc. ("Petitioners") filed a joint request that the requirement to file Network Television Program Ownership and Syndication Reports ("Reports"), pursuant to Section 73.661 of the Commission's Rules, 47 CFR 73.661, be suspended until 30 days after the Commission concludes its final review of the Financial Interest and Syndication "finsyn") rules. The Reports are currently due to be filed by September 1, 1995. 47 CFR 73.661(f).

2. The reporting requirements set forth in Section 73.661 were adopted in connection with revisions made by the Commission to the finsyn rules in May 93.[1] At that time, the Commission substantially relaxed its finsyn rules and established a timetable for their complete expiration. The reporting requirements were intended to "help the Commission monitor the efficacy of the rule changes adopted * * * and oversee the networks' conduct in the program acquisition and syndication markets."[2] The Commission also noted "the data collected pursuant to these requirements should prove useful in conducting the scheduled review of the new finsyn regime * * *."[3]

3. The finsyn rules are presently scheduled to expire on November 10, 1995. The Commission commenced its scheduled review of network activities in the financial interest and syndication areas on April 5, 1995.[4] The burden of proof was placed on those parties seeking continued restrictions. The comment cycle in that proceeding closed in June 1995.

4. Petitioners contend that compilation, preparation and filing of the Reports require a significant amount of time and effort on their part. Petitioners also argue that there is no reason to require them to undertake this effort in view of the status of the Commission's review of the finsyn rules.

5. At the present time, we believe it is not necessary for the Commission to review the information required to be submitted by Petitioners pursuant to Section 73.661. The Reports required by that provision must identify all network prime time entertainment programs and all first-run non-network programs in which the network has financial interests or syndication rights, 47 CFR 73.661(a), and provide information regarding independent syndicators who hold the active syndication rights for these programs. 47 CFR 73.661(c). The Reports must also list the sales to broadcast stations of any such programming the networks actively syndicate. 47 CFR 73.661(b). We recognize that collection and preparation of this information represents a significant burden on Petitioners, and do not believe it is necessary to require them to undertake this effort at this time. One purpose of the Reports is to facilitate preparation of comments in connection with our review of the finsyn rules. A number of Reports were filed, and the comment cycle has closed. Accordingly, we will not now require that additional Reports be filed.

6. Accordingly, *it is ordered* that the request by the National Broadcasting Company, Inc., CBS Inc. and Capital Cities/ABC, Inc. to suspend the deadline to file the Reports required by Section 73.661 of our rules is granted to the extent detailed herein.

7. *It is further ordered* That grant of this request is without prejudice to the Commission's right to require that such Reports be filed if necessary depending upon the Commission's decision in MM Docket No. 95–39.

8. This action is taken pursuant to authority found in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r), and Sections 0.204(b), 0.283, and 1.45 of the Commission's Rules, 47 CFR 0.204(b), 0.283, and 1.45.

Federal Communications Commission.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made final findings of scientific misconduct in the following case:

Catherine Kerr, St. Mary's Hospital: The Office of Research Integrity (ORI) conducted an investigation into possible scientific misconduct on the part of Ms. Catherine Kerr while she was a data coordinator at St. Mary's Hospital, Montreal, Quebec. ORI concluded that Ms. Kerr committed scientific misconduct by falsifying and fabricating the dates of tests or examinations required prior to study entry for one woman entered on the Breast Cancer Prevention Trial (BCPT). She also fabricated laboratory results and falsified dates of laboratory tests used to follow the progress of another woman entered on the trial. The BCPT is coordinated by the National Surgical Adjuvant Breast and Bowel Project (NSABP) and supported by the National Cancer Institute and the National Heart, Lung, and Blood Institute. Because the BCPT is still in progress, no conclusions or results have been published and no clinical recommendations have been based on the results of the study.

Ms. Kerr originally appealed but later withdrew her request for a hearing on the ORI findings and administrative actions, which require that, for a period of three years, any institution that proposes Ms. Kerr's participation in PHS-supported research must submit a supervisory plan designed to ensure the scientific integrity of her contribution. Ms. Kerr is also prohibited from serving in any advisory capacity to PHS for a period of three years.

FOR FURTHER INFORMATION CONTACT: Director, Division of Research Investigations, Office of Research Integrity, 5515 Security Lane, Suite 700, Rockville, MD 20852.

Lyle W. Bivens,

Director, Office of Research Integrity.

BILLING CODE 4160-17-P

Administration for Children and Families

New and Pending Demonstration Project Proposals Submitted Pursuant to Section 1115(a) of the Social Security Act: August 1995

AGENCY: Administration for Children and Families, HHS.

ACTION: Notice.

SUMMARY: This notice lists new proposals for welfare reform and combined welfare reform/Medicaid demonstration projects submitted to the Department of Health and Human Services for the month of August, 1995. It includes both those proposals being considered under the standard waiver process and those being considered under the 30 day process. Federal approval for the proposals has been requested pursuant to section 1115 of the Social Security Act. This notice also lists proposals that were previously submitted and are still pending a decision and projects that have been approved since August 1, 1995. The Health Care Financing Administration is publishing a separate notice for Medicaid only demonstration projects.

Comments: We will accept written comments on these proposals. We will, if feasible, acknowledge receipt of all comments, but we will not provide written responses to comments. We will, however, neither approve nor disapprove any new proposals under the standard application process for at least 30 days after the date of this notice to allow time to receive and consider comments. Direct comments as indicated below.

ADDRESSES: For specific information or questions on the content of a project contact the State contact listed for that project.

Comments on a proposal or requests for copies of a proposal should be addressed to: Howard Rolston, Administration for Children and Families, 370 L'Enfant Promenade SW., Aerospace Building, 7th Floor West, Washington DC 20447. FAX: (202) 205–3598 PHONE: (202) 401–9220.

SUPPLEMENTARY INFORMATION:

I. Background

Under section 1115 of the Social Security Act (the Act), the Secretary of Health and Human Services (HHS) may approve research and demonstration project proposals with a broad range of policy objectives.

In exercising her discretionary authority, the Secretary has developed a number of policies and procedures for reviewing proposals. On September 27, 1994, we published a notice in the **Federal Register** (59 FR 49249) that specified (1) the principles that we ordinarily will consider when approving or disapproving demonstration projects under the authority in section 1115(a) of the Act; (2) the procedures we expect States to use in involving the public in the development of proposed demonstration projects under section 1115; and (3) the procedures we ordinarily will follow in reviewing demonstration proposals. We are committed to a thorough and expeditious review of State requests to conduct such demonstrations.

On August 16, 1995, the Secretary published a notice in the **Federal Register** (60 FR 158) exercising her discretion to request proposals testing welfare reform strategies in five areas. Since such projects can only incorporate provisions included in that announcement, they are not subject to the Federal notice procedures. The Secretary proposed a 30 day approval process for those provisions. As previously noted, this notice lists all new or pending welfare reform demonstration proposals under section 1115. Where possible, we have identified the proposals being considered under the 30 day process. However, the Secretary reserves the right to exercise her discretion to consider any proposal under the 30 day process if it meets those criteria in the five specified areas and the State requests it or concurs.

II. Listing of New and Pending Proposals for the Month of August, 1995

As part of our procedures, we are publishing a monthly notice in the **Federal Register** of all new and pending proposals. This notice contains proposals for the month of August, 1995.

Project Title: California - Work Pays Demonstration Project (Amendment).

Description: Would amend Work Pays Demonstration Project by adding provisions to: Reduce benefit levels by 10% (but retaining the need level); reduce benefits an additional 15% after 6 months on assistance for cases with an able-bodied adult; time-limit assistance to able-bodied adults to 24 months, and not increase benefits for children conceived while receiving AFDC.

Date Received: 3/14/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Glen Brooks, (916) 657–3291.

Project Title: California—Assistance Payments Demonstration Project (Amendment).

Description: Would amend the Assistance Payments Demonstration Project by: Exempting certain categories of AFDC families from the State's benefit cuts; paying the exempt cases based on grant levels in effect in California on November 1, 1992; and renewing the waiver of the Medicaid maintenance of effort provision at section 1902(c)(1) of the Social Security Act, which was vacated by the Ninth Circuit Court of Appeals in its decision in *Beno* v. *Shalala*.

Date Received: 8/26/94.

Type: Combined AFDC/Medicaid.

Current Status: Pending.

Contact Person: Michael C. Genest, (916) 657–3546.

Project Title: California—Work Pays Demonstration Project (Amendment).

Description: Would amend the Work Pays Demonstration Project by adding provisions to not increasing AFDC benefits to families for additional children conceived while receiving AFDC.

Date Received: 11/9/94.

Type: AFDC.

Current Status: Pending.

Contact person: Eloise Anderson, (916) 657–2598.

Project Title: California—School Attendance Demonstration Project.

Description: In San Diego County, require AFDC recipients ages 16–18 to attend school or participate in JOBS.

Date Received: 12/5/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Michael C. Genest (916) 657–3546.

Project Title: California—Incentive to Self-Sufficiency Demonstration.

Description: Statewide, would require 100 hours CWEP participation per month for JOBS mandatory individuals who have received AFDC for 22 of the last 24 months and are working fewer than 15 hours per week after two years from JOBS assessment and: have failed to comply with JOBS without good cause, have completed CWEP or are in CWEP less than 100 hours per month, or have completed or had an opportunity to complete post-assessment education and training; provide Transitional Child Care and Transitional Medicaid to families who become ineligible for AFDC due to increased assets or income resulting from marriage or the reuniting of spouses; increase the duration of sanctions for certain acts of fraud.

Date Received: 12/28/94.

Type: Combined AFDC/Medicaid.

Current Status: Pending.

Contact Person: Michael C. Genest (916) 657–3546.

Project Title: Connecticut—A Fair Chance—Modification.

Description: Proposed modifications would: Establish time limits; disregard earnings for time-limited recipients up to poverty level; reduce benefit increase for additional children by one-half; require minor parents to live with adult; change redetermination, verification, and reporting requirements; provide employer tax credits for hiring AFDC recipients; require biometric identification as condition of eligibility for unit; establish two-tier payment system for new residents; simplify and conform AFDC and Food Stamp rules on resources; allow 24 weeks of job search without child care guarantee; change good cause criteria regarding participation; change JOBS sanctions; apply uniform sanction policy for JOBS, child support, and voluntary quits; extend transitional Medicaid to two years; provide transitional child care while income below 75% of state median; limit the application period for transitional child care to 6 months after leaving AFDC; establish fee for child care for AFDC recipients; serve non-custodial parents under JOBS.

Date Received: 8/10/95.

Type: Combined AFDC/Medicaid.

Current Status: New.

Contact Person: Nancy Wiggett, (203) 424–5329.

Project Title: Florida—Family Transition Program (Amendments).

Description: Would expand the Family Transition Program demonstration, currently operating in two counties, to six additional counties. The demonstration limits, with some exceptions, AFDC benefits to 24 months in any 60-month period followed by participation in transitional employment. For families subject to the time limit, it replaces current $90 and $30 and one-third disregards with a single, non-time-limited disregard of $200 plus one-half of the remainder; disregards income of a stepparent whose needs are not included in the assistance unit for the first 6-months of receipt of public assistance; excludes summer earnings of teens and interest income; lowers age of child for JOBS exemption to 6-months; raises asset limit to $5,000 plus a vehicle of reasonable worth used primarily for self-sufficiency purposes; extends transitional Medicaid and child care benefits; eliminates 100-hour and required quarters of work rules, and (on a case-by-case basis) the 6-month time limit requirements in the AFDC-UP program; requires school conferences and regular school attendance; offers incentive payments to private employers who hire hard-to-place AFDC recipients; and allows non-custodial parents of AFDC children to participate in JOBS. Statewide, the demonstration requires immunizations of pre-school-age children.

Date Received: 8/2/95.

Type: Combined AFDC/Medicaid.

Current Status: Pending—30 Day Approval Process for all areas except the school attendance component.

Contact Person: Don Winstead, (904) 921–5567.

Project Title: Georgia—Work for Welfare Project.

Description: Work for Welfare Project. In 10 pilot counties would require every non-exempt recipient and non-supporting parent to work up to 20 hours per month in a state, local government, federal agency or nonprofit organization; extends job search; and increases sanctions for JOBS noncompliance. On a statewide basis, would increase the automobile exemption to $4,500 and disregard earned income of children who are full-time students.

Date Received: 6/30/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Nancy Meszaros, (404) 657–3608.

Project Title: Hawaii—Families Are Better Together.

Description: Statewide, would eliminate 100-hour, attachment to the work force, 30 day unemployment and principal wage earner criteria for AFDC-UP families.

Date Received; 5/22/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Patricia Murakami, (808) 586–5230.

Project Title: Illinois—Six Month Paternity Establishment Demonstration.

Description: In 20 counties, would require the establishment of paternity, unless good cause exists, within 6 months of application or redetermination as a condition of AFDC and Medicaid eligibility for both mother and child; would deny Medicaid to children age 7 and under, exclude children from filing rules, and exempt Department from making protective payments to eligible children, when custodial parent has not cooperated in establishing paternity; delegate the establishment of paternity in uncontested cases to caseworkers who perform assistance payment or social service functions under title IV-A or XX.

Date Received: 7/18/95.

Title: AFDC/Medicaid.

Current Status: Pending.

Contact Person: Karan D. Maxson, (217) 785–3300.

Project Title: Illinois—School Attendance Demonstration.

Description: Statewide, would require the participation in a plan for poor elementary school attendance and, upon continuation of poor attendance, the establishment of a protective payee, progressing to the removal of the caretaker's portion of the AFDC grant.

Date Received: 7/18/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Karan D. Maxson, (217) 785–3300.

Project Title: Illinois—Work and Responsibility Demonstration.

Description: The demonstration includes six components, five of which will be implemented statewide. (1) Targeted Work Initiative—would limit receipt of AFDC benefits to a total of 24 months without earnings for households whose youngest child is at least 13 years of age; any month with budgeted income due to employment will not be counted toward the 24 month time limit. (2) Get a Job Initiative—new applicants determined to be job ready and whose children are between 5 and 12 will be required to participate in job search for up to six months. (3) Family Accountability—assistance payments will not be increased as a result of the birth of children conceived while the parent was receiving assistance. (4) Job Track—exempt volunteers for JOBS will become subject to the same requirements and sanctions as non-exempt participants; participation in basic education or GED programs will be limited to two years unless the individual is working or participating in an approved work activity. (5) Self-Sufficiency Plan—all applicants and recipients will be required to complete a self-sufficiency plan as a condition of eligibility. (6) Quarterly Budgeting—in selected sites, cases with earned income will be required to report income quarterly; the information will be used to prospectively budget income for the next quarter. Failure to report earnings will result in case closure and overpayment recovery.

Date Received: 7/18/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Karan D. Maxson, (217) 785–3300.

Project Title: Kansas—Actively Creating Tomorrow for Families Demonstration.

Description: Would, after 30 months of participation in JOBS, make adults ineligible for AFDC for 3 years; replace $30 and 1/3 income disregard with continuous 40% disregard; disregard lump sum income and income and resources of children in school; count income and resources of family members who receive SSI; exempt one vehicle without regard for equity value if used to produce income; allow only half AFDC benefit increase for births of a second child to families where the parent is not working and eliminate increase for the birth of any child if families already have at least two children; eliminate 100-hour rule and work history requirements for UP cases; expand AFDC eligibility to pregnant women in 1st and 2nd trimesters; extend Medicaid transitional benefits to 24 months; eliminate various JOBS requirements, including those related to target groups, participation rate of UP cases and the 20-hour work requirement limit for parents with children under 6; require school attendance; require minors in AFDC and NPA Food Stamps cases to live with a guardian; make work requirements and penalties in the AFDC and Food Stamp programs more uniform; and increase sanctions for not cooperating with child support enforcement activities.

Date Received: 7/26/94.

Type: Combined AFDC/Medicaid.

Current Status: Pending.

Contact Person: Faith Spencer, (913) 296–0775.

Project Title: Maine—Project Opportunity.

Description: Increase participation in Work Supplementation to 18 months; use Work Supplementation for any opening; use diverted grant funds for vouchers for education, training or support services; and extend transitional Medicaid and child care to 24 months.

Date Received: 8/5/94.

Type: Combined AFDC/Medicaid.

Current Status: Pending.

Contact Person: Susan L. Dustin, (207) 287–3106.

Project Title: Mississippi—A New Direction Demonstration Program—Amendment.

Description: Statewide, would amend previously approved New Direction Demonstration Program by adding provision that a family's benefits would not increase as a result of additional children conceived while receiving AFDC.

Date Received: 2/17/95.

Type: AFDC

Current Status: Pending.

Contact Person: Larry Temple, (601) 359–4476.

Project Title: New Hampshire—Earned Income Disregard Demonstration Project.

Description: AFDC applicants and recipients would have the first $200 plus 1/2 the remaining earned income disregarded.

Date Received: 9/20/93.

TYPE: AFDC.

Current Status: Pending.

Contact Person: Avis L. Crane, (603) 271–4255.

Project Title: New Mexico—Untitled Project.

Description: Would increase vehicle asset limit to $4500; disregard earned income of students; develop an AFDC Intentional Program Violation procedure identical to Food Stamps; and allow one individual to sign declaration of citizenship for entire case.

Date Received: 7/7/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Scott Chamberlin, (505) 827–7254.

Project Title: North Dakota—Training, Education, Employment and Management Project.

Description: Would require families to develop a social contract specifying time-limit for becoming self-sufficient; combine AFDC, Food Stamps and LIHEAP into single cash payment with simplified uniform income, expense and resource exclusions; increase income disregards and exempt stepparent's income for six months; increase resource limit to $5000 for one recipient and $8000 for families with two or more recipients; exempt value of one vehicle; eliminate 100-hour rule for AFDC–UP; impose a progressive sanction for non-cooperation in JOBS or with child support; require a minimum of 32 hours of paid employment and non-paid work; require participation in EPSDT; and eliminate child support pass-through.

Date Received: 9/9/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Kevin Iverson, (701) 224–2729.

Project Title: Ohio—Learning, Earning and Parenting (LEAP) program.

Description: Statewide, would modify and extend by 6 and 1/2 years the previously approved Learning, Earning,

and Parenting Demonstration to require enrollment and regular school attendance by pregnant and parenting teens; provide a $62 bonus or sanction based on attendance; require continued participation in JOBS by LEAP participants who turn 20 and have a child over 6 weeks of age; provide a $62 grade completion bonus for those in high school; provide a graduation or GED completion bonus of $200; implement a progressive sanction leading to removal of the needs of the teen parent and her child/children in determining amount of AFDC; and continue the LEAP progressive sanction when the participant turns 20, if she remains JOBS mandatory.

Date Received: 6/19/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Jackie Martin, (614) 466–8530.

Project Title: Oregon—Oregon Option.

Description: As a statewide project, would incorporate waivers already approved in 1992 for JOBS Welfare Program and in 1994 for the JOBS Plus Demonstration with previously pending waiver requests to increase vehicle asset limit and extend transitional child care. Requests guaranteed level of federal funding, with funds not used for benefits to be used for other community support or prevention programs. Also would, with some exceptions, limit receipt of AFDC benefits to no more than 24 out of 84 months for families with employable parents; allow case manager to determine JOBS exemptions on an individual basis; eliminate the time restrictions on job search; impose progressive sanctions, leading to full-family ineligibility, for non-compliance with JOBS; require ineligible alien parents of AFDC children to participate in JOBS; require counseling for recipients with substance abuse problems; require teen parents to live in an adult-supervised setting; discontinue the AFDC-UP program from June through September each year and eliminate the 100-hour rule and work history requirements; increase asset limit to $2,500 for non-JOBS participants and $10,000 for JOBS participants, and treat lump-sum payments as an asset; require annual AFDC eligibility redeterminations; modify the rules for potential liability under EBT.

Date Received: 7/10/95.

Type: AFDC/Medicaid.

Current Status: Pending.

Contact Person: Jim Neely, (503) 945–5607.

Project Title: Oregon—Expansion of the Transitional Child Care Program.

Description: Provide transitional child care benefits without regard to months of prior receipt of AFDC and provide benefits for 24 months.

Date Received: 8/8/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Jim Neely, (503) 945–5607.

Project Title: Oregon—Increased AFDC Motor Vehicle Limit.

Description: Would increase automobile asset limit to $9000.

Date Received: 11/12/93.

Type: AFDC.

Current Status: Pending.

Contact Person: Jim Neely, (503) 945–5607.

Project Title: Pennsylvania—School Attendance Improvement Program.

Description: In 7 sites, would require school attendance as condition of eligibility.

Date Received: 9/12/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Patricia H. O'Neal, (717) 787–4081.

Project Title: Pennsylvania—Savings for Education Program.

Description: Statewide, would exempt as resources college savings bonds and funds in savings accounts earmarked for vocational or secondary education and disregard interest income earned from such accounts.

Date Received: 12/29/94.

Type: AFDC.

Current Status: Pending.

Contact Person: Patricia H. O'Neal, (717) 787–4081.

Project Title: South Carolina—Family Independence Program

Description: Statewide, would, with exceptions, time limit AFDC benefits to families with able bodied adults to 24 months out of 120 months, not to exceed 60 months in a lifetime; eliminate increase in AFDC benefit resulting from birth of children 10 or more months after the family begins AFDC receipt, but provide benefits to such children in the form of vouchers for goods and services permitting child's mother to participate in education, training, and employment-related activities; eliminate deprivation requirements, principal earner provisions, work history requirements, and 100-hour rule for AFDC-UP; increase AFDC resource limit to $2,500 and disregard as resources one vehicle with a market value up to $10,000, the balance in an Individual Development Account (IDA) up to $10,000, and the cash value of life insurance; disregard from income up to $10,000 in lump sum payments deposited in an IDA within 30 days of receipt, earned income of children attending school, and interest and dividend income up to $400; require participation in a family skills training program; require certain AFDC recipients to submit to random drug tests and/or participate in alcohol or drug treatment; require children to attend school; increase amount of child support passed through to AFDC recipients; require more extensive information for child support enforcement purposes; modify JOBS exemptions and good cause criteria, and increase sanctions for non-compliance; make job search a condition of eligibility; allow non-custodial parents of AFDC children to participate in JOBS; pay transitional grant equaling 3 percent of the maximum family grant following employment; and provide transitional grant Medicaid and child care for 12 months from the date of employment for cases previously closed due to time limit.

Date Received: 6/12/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Linda Martin (804) 737–6010.

Project Title: Washington—Success Through Employment Program

Description: Statewide, would eliminate the 100-hour rule for AFDC-UP families; impose a 10 percent grant reduction for AFDC recipients who have received assistance for 48 out of 60 months, and impose an additional 10 percent grant reduction for every additional 12 months thereafter, and budget earnings against the original payment standard; and hold the food stamp benefit level constant for cases whose AFDC benefits are reduced due to length of stay on assistance.

Date Received: 2/1/95.

Type: AFDC.

Current Status: Pending.

Contact Person: Liz Begert Dunbar, (206) 438–8350.

III. Listing of Approved Proposals Since August 1, 1995

Project Title: Maryland—Welfare Reform Project.

Contact Person: Katherine L. Cook, (410) 767–7338.

Project Title: Massachusetts—Welfare Reform '95.

Contact Person: Valerie Foretra, (617) 348–5508.

Project Title: Wisconsin—Pay for Performance (Self Sufficiency First was included as a part of Pay For Performance).

Contact Person: Jean Sheil, (608) 266–0613.

IV. Requests for Copies of a Proposal

Requests for copies of an AFDC or combined AFDC/Medicaid proposal should be directed to the Administration for Children and Families (ACF) at the address listed above. Questions concerning the content of a proposal should be directed to the State contact listed for the proposal.

(Catalog of Federal Domestic Assistance Program, No. 93562; Assistance Payments—Research)

Dated: September 11, 1995.

Howard Rolston,

Director, Office of Policy and Evaluation.

BILLING CODE 4184-01-P

Food and Drug Administration

[Docket No. 95N–0259]

Over-the-Counter Drug Labeling; Public Meeting; Correction

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public hearing; request for comments; correction.

SUMMARY: The Food and Drug Administration (FDA) is correcting a notice that appeared in the **Federal Register** of August 16, 1995 (60 FR 42578). The document announced a public hearing to discuss over-the-counter (OTC) drug labeling issues. The document also solicited comments from interested persons on various aspects of OTC drug labeling that would improve the communication of information to consumers and solicited specific comments and/or data on the costs and benefits of an improved labeling format. The document was published with some errors. The date in which comments are due to the agency, and the date that notices of participation are due to the agency were erroneous. This document corrects those errors and adds a question for public comment which was inadvertently omitted.

FOR FURTHER INFORMATION CONTACT: Ilisa B. G. Bernstein, Office of the Commissioner, Office of Policy (HF–23), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–3380.

ADDRESSES: Submit written comments to the Dockets Management Branch (HFA–305), ATTN: OTC Drug Labeling Hearing, Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857; or FAX 301–594–3215.

In FR Doc. 95–20245, appearing on page 42578 in the **Federal Register** of August 16, 1995, the following corrections are made:

1. On page 42578, in the first column, under the DATES caption, in the last sentence "December 29, 1995" is corrected to read "October 30, 1995."

2. On page 42580, in the third column, in the first full paragraph, in line 6, the date "September 11, 1995" is corrected to read "September 15, 1995". Additionally, on the same page, in the second column, after the fifth paragraph, new section "F." is added to read as follows:

F. Process Issue

As part of FDA's ongoing effort to improve OTC labeling, the agency believes that it may have to revise many of the OTC monographs to improve and simplify communication of the information. Because revising the labeling portion of the monographs would be a major undertaking, the agency seeks public comment on the process that should be followed by FDA to ensure that the revisions are completed in an efficient and expedient manner. The agency intends on using its own experts to develop revised language that would be published in a notice of proposed rulemaking (NPRM). The agency also intends to allow a longer than usual comment period of 120, 150, or 180 days, to allow for consumer testing of the proposed language by FDA and other interested parties. Based on the results of the testing and comments received, the agency would then develop a final rule for the monograph(s). The agency would group monographs together, so as to develop a small number of NPRM's for this effort. Please comment on whether this process is appropriate, or if other steps should be taken for monograph revisions.

Dated: September 7, 1995.

William B. Schultz,

Deputy Commissioner for Policy.

BILLING CODE 4160-01-F

National Institutes of Health

National Library of Medicine; Meeting of the Board of Scientific Counselors

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Library of Medicine, on October 26–27, 1995, in the Board Room of the National Library of Medicine, Building 38, 8600 Rockville Pike, Bethesda, Maryland.

The meeting will be open to the public from 9:00 a.m. to 12:45 p.m. and from 1:45 to 4:45 p.m. on October 26 and from 9:00 a.m. to approximately 12 noon on October 27 for the review of research and development programs and preparation of reports of the Lister Hill National Center for Biomedical Communications. Attendance by the public will be limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Ms. Jackie Duley at (301) 496–4441 in advance of the meeting.

In accordance with provisions set forth in section 552b(c)(6), Title 5, U.S.C., and section 10(d) of Public Law 92–463, the meeting will be closed to the public on October 26, from approximately 12:45 p.m. to 1:45 p.m. for the consideration of personnel qualifications and performance of individual investigators and similar items, the disclosure of which would constitute an unwarranted invasion of personal privacy.

The Executive Secretary, Dr. Harold M. Schoolman, Acting Director, Lister Hill National Center for Biomedical Communications, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20894, telephone (301) 496–4441, will furnish summaries of the meeting, rosters of committee members, and substantive program information.

Dated: September 8, 1995.

BILLING CODE 4140-01-M

National Institute of Child Health and Human Development; Meeting of the National Advisory Board on Medical Rehabilitation Research

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Advisory Board on Medical Rehabilitation Research, National Institute of Child Health and Human Development, October 19–20, 1995, Bethesda Marriott Hotel, 5151 Pooks Hill Road, Bethesda, Maryland 20814.

The meeting will be open to the public from 8:30 a.m. to 5:00 p.m. on October 19 and 8:30 a.m. to adjournment on October 20. Attendance by the public will be limited to space available. Board topics will include: (1) A report on fiscal issues concerning the National Center for Medical Rehabilitation Research (Center) and the Institute; (2) reports on program activities of the Center; (3) a discussion of general priority areas of research for the Center; (4) a report on substance

abuse and people with disabilities; and (5) a discussion of support for medical rehabilitation research by government agencies.

Ms. Debbie Welty, Board Secretary, NICHD, 6100 Building, Room 2A03, National Institutes of Health, Bethesda, Maryland 20892, Area Code 301–402–2242, will provide a summary of the meeting and a roster of Advisory Board members as well as substantive program information. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Ms. Welty.

Dated: September 8, 1995.

BILLING CODE 4140-01-M

National Heart, Lung, and Blood Institute; Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following Heart, Lung, and Blood Special Emphasis Panel (SEP) meetings:

Name of SEP: Collection and Storage Centers for Clinical Research on Transplantation of Umbilical Cord Stem and Progenitor Cells.

Date: October 30, 1995.

Time: 8:00 a.m.

Place: Holiday Inn, Bethesda, Maryland.

Contact Person: Deborah P. Beebe, Ph.D., Rockledge II, Room 7206, 6701 Rockledge Drive, Bethesda, Maryland 20892–7924, (301) 435–0303.

Purpose/Agenda: To review and evaluate contract proposals.

Name of SEP: Transplant Centers for Clinical Research on Transplantation of Umbilical Cord Stem and Progenitor Cells.

Date: October 30–31, 1995.

Time: 3:00 p.m.

Place: Holiday Inn, Bethesda, Maryland.

Contact Person: Deborah P. Beebe, Ph.D., Rockledge II, Room 7206, 6701 Rockledge Drive, Bethesda, Maryland 20892–7924, (301) 435–0303.

Purpose/Agenda: To review and evaluate contract proposals.

Name of SEP: Medical Coordinating Center for Clinical Research on Transplantation of Umbilical Cord Stem and Progenitor Cells.

Date: October 31, 1995.

Time: 10:00 a.m.

Place: Holiday Inn, Bethesda, Maryland.

Contact Person: Deborah P. Beebe, Ph.D., Rockledge II, Room 7206, 6701 Rockledge Drive, Bethesda, Maryland 20892–7924, (301) 435–0303.

Purpose/Agenda: To review and evaluate contract proposals.

These meetings will be closed in accordance with the provisions set forth in secs. 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. Applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

BILLING CODE 4140-01-M

National Institute on Deafness and Other Communication Disorders; Notice of Meeting of the National Deafness and Other Communication Disorders Advisory Council and its Planning Subcommittee

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Deafness and Other Communication Disorders Advisory Council and its Planning Subcommittee on October 11–13, 1995, at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland. The meeting of the full Council will be held in Conference Room 6, Building 31C, and the meeting of the subcommittee will be in Conference Room 7, Building 31C.

The meeting of the Planning Subcommittee will be open to the public on October 11 from 2 pm until 3 pm for the discussion of policy issues. The meeting of the full Council will be open to the public on October 12 from 8:30 am until recess for a report from the Institute Director and discussion of extramural policies and procedures at the National Institutes of Health and the National Institute on Deafness and Other Communication Disorders and on October 13 from 8:30 am to approximately 9:30 am for a report on extramural programs of the Division of Human Communication. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Public Law 92–463, the meeting of the Planning Subcommittee on October 11 will be closed to the public from 3 pm to adjournment. The meeting of the full Council will be closed to the public on October 13 from approximately 9:30 am until adjournment. The closed portions of the meeting will include a report on the Division of Intramural Research and the review, discussion, and evaluation of individual grant applications. The application and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Further information concerning the Council and Subcommittee meeting may be obtained from Dr. Earleen F. Elkins, Executive Secretary, National Deafness and other Communication Disorders Advisory Council, National Institute on Deafness and Other Communication Disorders, National Institutes of Health, Executive Plaza South, Room 400C, 6120 Executive Blvd., MSC7180, Bethesda, Maryland 20892, 301–496–8693. A summary of the meeting and rosters of the members may also be obtained from her office. For individuals who plan to attend and need special assistance such as sign language interpretation or other reasonable accommodations, please contact Dr. Elkins at least two weeks prior to the meeting.

National Institute on Deafness and Other Communication Disorders; Notice of Closed Meeting

Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. appendix 2), notice is hereby given of the following meeting:

Name of Committee: National Institute on Deafness and Other Communication Disorders Special Emphasis Panel.

Date: September 28, 1995.

Time: 2 p.m. to 5 p.m.

Place: 6120 Executive Boulevard, Room 400 C, Rockville, MD 20852.

Contact Person: Mary Nekola, Ph.D., Scientific Review Administrator, NIH, NIDCD, EPS Room 400C, 6120 Executive Boulevard, MSC 7180, Bethesda, MD 20892–7180, 301/496–8683.

Purpose/Agenda: To review and evaluate a Center grant application (P50).

The meeting, which will be conducted as a telephone conference call, will be closed in accordance with the provisions set forth in section 552b(c)(4) and 552b(c)(6), title 5, U.S.C. Applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

BILLING CODE 4140–01–M

National Library of Medicine; Notice of Meeting of the Literature Selection Technical Review Committee

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Literature Selection Technical Review Committee, National Library of Medicine, on October 12–13, 1995, convening at 9 a.m. on October 12 and at 8:30 a.m. on October 13 in the Board Room of the National Library of Medicine, Building 38, 8600 Rockville Pike, Bethesda, Maryland.

The meeting on October 12 will be open to the public from 9 a.m. to approximately 10:30 a.m. for the discussion of administrative reports and program developments. Attendance by the public will be limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Mrs. Lois Ann Colaianni at 301–496–6921 two weeks before the meeting.

In accordance with provisions set forth in sec. 552b(c)(9)(B), Title 5, U.S.C., Public Law 92–463, the meeting will be closed on October 12 from 10:30 a.m. to approximately 5 p.m. and on October 13 from 8:30 a.m. to adjournment for the review and discussion of individual journals as potential titles to be indexed by the National Library of Medicine. The presence of individuals associated with these publications could hinder fair and open discussion and evaluation of individual journals by the Committee members.

Mrs. Lois Ann Colaianni, Scientific Review Administrator of the Committee, and Associate Director, Library Operations, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20894, telephone number: 301–496–6921, will provide a summary of the meeting, rosters of the committee members, and other information pertaining to the meeting.

Dated: September 5, 1995.

Office of Alternative Medicine; Meeting

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Alternative Medicine Program Advisory Council on September 18, 1995, from 8 a.m. to recess and on September 19, 1995 from 8 a.m. to 12 noon in the Plaza II Conference Room of the Doubletree Hotel, 1750 Rockville Pike, Rockville, Maryland.

The meeting will be open to the public with attendance limited to space available. The purpose of the meeting will be to discuss current issues in complementary and alternative medicine research and activities of the Office of Alternative Medicine.

Ms. Beth Clay, Committee Management Liaison, Office of Alternative Medicine, National Institutes of Health, 6120 Executive Boulevard, Suite 450, Rockville, Maryland 20892–9904, phone (301) 594–1990, fax (301) 402–4741, E-Mail: bethclay@helix.nih.gov will furnish the meeting agenda, roster of committee members and substantive program information upon request. Any individual who requires special assistance, such as sign language interpretation or other reasonable accommodations, should contact Ms. Clay at the above location no later than September 11, 1995.

This notice is being published less than 15 days prior to the meeting due to difficulties encountered in finalizing the agenda and the need to proceed with the meeting as scheduled to address important issues in a timely manner.

Dated: September 6, 1995.

Susan K. Feldman,

Committee Management Officer, National Institutes of Health.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*):

PRT–805803

Applicant: Clyde Robinson, Saratoga Springs, N.Y.

The applicant requests a permit to import 2 pair Hawaiian ducks (*Anas wyvilliana*) from Dr. Peter Player, East Sussex, England for the purpose of enhancement through captive propagation.

PRT–806362

Applicant: John Ferre, Isla Verde Carolina, PR

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from the captive herd maintained by Mr. F. Bowker, Thornkloof, Grahamstown, South Africa for the purpose of enhancement of the survival of the species.

PRT–806434

Applicant: Herman Ferre Roig, Isla Verde Carolina, PR

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from the captive herd maintained by Mr. F. Bowker, Thornkloof, Grahamstown, South Africa for the purpose of enhancement of the survival of the species.

PRT–806355

Applicant: Kathryn Clark, Princeton Univ.; Princeton, NJ

The applicant requests a permit to import tissue samples from captive-held Rodrigues fruit bats (*Pteropus rodricensis*) from the United Kingdom for the purpose of genetic research on the evolutionary origins and systematics of the species to enhance the survival of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 420(c), Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 420(c), Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: September 8, 1995.

Caroline Anderson,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310–55–P

Availability of the Technical/Agency Draft Recovery Plan for the Appalachian Elktoe for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a technical/agency draft recovery plan for the Appalachian elktoe (*Alasmidonta raveneliana*). This rare freshwater

mussel inhabits medium-sized creeks and rivers with cool, well-oxygenated, and moderate- to fast-flowing water. The Appalachian elktoe currently has a very fragmented, relict distribution but historically had a fairly wide distribution throughout the Upper Tennessee River system in western North Carolina and eastern Tennessee. Only two populations of the species are known to survive. One population occurs in the main stem of the Little Tennessee River in Swain and Macon Counties, North Carolina. The second population occurs in the Nolichucky River system. This population is restricted to scattered locations along a very short reach of the Toe River and the main stem of the Nolichucky River in Yancey and Mitchell Counties, North Carolina. The population on the Nolichucky extends downriver into Unicoi County, Tennessee. A single specimen of the Appalachian elktoe was also found in the Cane River, a major tributary to the Nolichucky River, in Yancey County, North Carolina. It has been reduced to a few short reaches of each of these streams, primarily as a result of impoundments and the general deterioration of water quality resulting from siltation and other pollutants contributed by poor land use practices. The Service solicits review and comments from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before December 13, 1995, to receive consideration by the Service.

ADDRESSES: Persons wishing to review the agency draft recovery plan may obtain a copy by contacting the Asheville Field Office, U.S. Fish and Wildlife Service, 160 Zillicoa Street, Asheville, North Carolina 28801 (Telephone 704/258–3939). Written comments and materials regarding the plan should be addressed to the Field Supervisor at the above address. Comments and materials received are available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. John Fridell at the address and telephone number shown above (Ext. 225).

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, to establish criteria for recognizing the recovery levels for downlisting or delisting them, and to estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that a public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to the approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

The primary species considered in this draft recovery plan is the Appalachian elktoe (*Alasmidonta raveneliana*). The area of emphasis for recovery actions is the upper Tennessee River system in the mountains of western North Carolina and eastern Tennessee. Habitat protection, reintroduction, and the preservation of genetic material are the major objectives of this recovery plan.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

Authority: The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: September 8, 1995.

Robert R. Currie,

Acting Field Supervisor.

[FR Doc. 95–22935 Filed 9–13–95; 8:45 am]

BILLING CODE 4310–55–M

Notice of Availability of the Technical/Agency Draft Recovery Plan for Cumberland Rosemary for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a technical/agency draft recovery plan for Cumberland rosemary (*Conradina verticillata*). This threatened species is presently known from only three populations: two of these are located in Tennessee and a third occurs in both Tennessee and Kentucky. Cumberland rosemary grows on sandy or gravelly stream banks, sandbars, and gravel/boulder bars associated with floodplains or islands. There are 91 known colonies of the species; however, most colonies are small and are threatened by stream alternations that would change normal flooding patterns; activities that degrade water quality; and habitat destruction by campers, hikers, white-water enthusiasts, and off-road vehicles. The Service solicits review and comments from the public on this draft plan.

DATES: Comments on the technical/agency draft recovery plan must be received on or before December 13, 1995, to receive consideration by the Service.

ADDRESSES: Persons wishing to review the technical/agency draft recovery plan may obtain a copy by contacting the Asheville Field Office, U.S. Fish and Wildlife Service, 160 Zillicoa Street, Asheville, North Carolina 28801 (Telephone 704/258–3939). Written comments and materials regarding the plan should be addressed to the Field Supervisor at the above address. Comments and materials received are available on requests for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Currie at the address and telephone number shown above (Ext. 224).

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, to establish criteria for recognizing the recovery levels for downlisting or delisting them, and to estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires the development of

recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that a public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to the approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

Th primary species considered in this draft recovery plan is Cumberland rosemary (*Conradina verticillata*). It is a small shrub in the mint family (Lamiaceae), known only from the banks of short reaches of three river systems in north-central Tennessee and adjacent Kentucky. The species is found within small areas of the following counties: Cumberland, Fentress, Morgan, Scott, and White Counties, Tennessee, and McCreary County, Kentucky. It is always found growing in close association with the floodplain of watercourses. Specific areas supporting the species include boulder bars, sand bars, gravel bars, terraces of sand on gradually sloping riverbanks and islands, and pockets of sand between large boulders on islands and stream banks. This species' distribution has probably been reduced by such factors as dam construction and the general deterioration of water quality resulting from silt and other pollutants contributed by coal mining, poor land use practices, and waste discharges. Many of these factors continue to impact the species and its habitat. Because the colonies inhabit only short river reaches, they are vulnerable to extirpation from accidental toxic chemical spills. Direct habitat destruction by recreational visitors to the species' habitat is a significant threat to its survival. Hikers, campers, white-water enthusiasts, and off-road-vehicle users all impact the species and its habitat. Habitat protection, searches for new populations, the implementation of appropriate management actions, the completion of biological and genetic studies, and the preservation of genetic material are the major objectives of this recovery plan.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

Authority: The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: September 8, 1995.

Robert R. Currie,

Acting Field Supervisor.

BILLING CODE 4310–55–M

Notice of Availability of the Agency Draft Recovery Plan for Cumberland Sandwort for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of an agency draft recovery plan for Cumberland sandwort (*Arenaria cumberlandensis*). This endangered species is known from five populations in Tennessee and Kentucky. It is restricted to sandstone ledges and rock houses in the Cumberland Plateau Province of south-central Kentucky and north-central Tennessee. Specialized habitat requirements, in combination with habitat alteration, are the primary limiting factors for the species. Threats to its continued existence include trampling of its habitat by recreational users and habitat alteration caused by timber harvesting on adjacent lands. The Service solicits review and comments from the public on this draft plan.

DATES: Comments on the agency draft recovery plan must be received on or before December 13, 1995, to receive consideration by the Service.

ADDRESSES: Persons wishing to review the agency draft recovery plan may obtain a copy by contacting the Asheville Field Office, U.S. Fish and Wildlife Service, 160 Zillicoa Street, Asheville, North Carolina 28801 (Telephone 704/258–3939). Written comments and materials regarding the plan should be addressed to the Field Supervisor at the above address. Comments and materials received are available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Currie at the address and telephone number shown above (Ext. 224).

The Service will consider all information presented during a public comment period prior to the approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

The primary species considered in this draft recovery plan is Cumberland sandwort (*Arenaria cumberlandensis*). The area of emphasis for recovery actions is the Cumberland Plateau Province of south-central Kentucky and north-central Tennessee. The species is currently known from four counties in Tennessee (Pickett, Scott, Fentress, and Morgan) and one county in Kentucky (McCreary). A majority of the sites are found in sandstone rock houses or on ledges or solution pockets on sandstone rock faces. All known sites are within the Big South Fork watershed of the Cumberland River. Habitat requirements include shade, moisture, relatively constant cool temperatures, and high humidity. *Arenaria cumberlandensis* is endangered directly and indirectly by human activities in and adjacent to its unique habitat. Significant threats include trampling by hikers, campers, picnickers, individuals rappelling down the sandstone cliffs, and "pot hunters" digging within rock houses for Native American artifacts. Some sites are potentially threatened by timber removal in or adjacent to the areas supporting the species. Increased sunlight on the plants and the subsequent alteration of the moisture conditions would probably lead to extirpation of *Arenaria cumberlandensis* from the timbered area. Habitat protection, searches for new populations, the implementation of appropriate management actions, and the preservation of genetic material are the major objectives of this recovery plan.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

Authority: The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: September 8, 1995.

Robert R. Currie,

Acting Field Supervisor.

Notice of Receipt of Applications for Approval

The following applicants have applied for approval to conduct certain activities with birds that are protected in accordance with the Wild Bird Conservation Act of 1992. This notice is provided pursuant to Section 112(4) of the Wild Bird Conservation Act of 1992, 50 CFR 15.26(c).

Applicant: Kevin M. Gorman, Director, AFA Red Siskin Recovery Project, Rochester, NY. The applicant wishes to establish a cooperative breeding program for the Red Siskin (*Carduelis cucullata*). Mr. Gorman wishes to be an active participant in this program with three other private individuals. The American Federation of Aviculture has assumed the responsibility for the oversight of the program.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 420C, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 420C, Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: September 8, 1995.

Margaret Tieger,

Chief, Branch of Permits Office of Management Authority.

Minerals Management Service

Information Collection Submitted to the Office of Management and Budget (OMB) for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to OMB for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed collections of information and related forms may be obtained by contacting the Bureau's Clearance Officer at the telephone number listed below. Comments and suggestions on the proposal should be made directly to the Bureau Clearance Officer and to the Office of Management and Budget; Paperwork Reduction Project (1010–0046); Washington, D.C. 20503, telephone (202) 395–7340, with copies to Chief, Engineering and Standards Branch; Mail Stop 4700; Minerals Management Service; 381 Elden Street; Herndon, Virginia 22070–4817.

Title: Well Summary Report, Form MMS–125.

OMB Approval Number: 1010–0046.

Abstract: Respondents submit Form MMS–125 to the Minerals Management Service's (MMS) District Supervisors to be evaluated and approved or disapproved for the adequacy of the equipment, materials, and/or procedures which the lessee plans to use to safely perform drilling, well-completion, well-workover, and well-abandonment operations.

This form is necessary to enable MMS to ensure safety of operations; protection of the human, marine, and coastal environments; conservation of the natural resources in the Outer Continental Shelf (OCS); prevention of waste; and protection of correlative rights with respect to oil, gas, and sulphur operations in the OCS.

Bureau Form Number: Form MMS–125.

Frequency: On occasion.

Description of Respondents: OCS oil, gas, and sulphur lessees.

Annual Burden Hours: 2,579.

Bureau Clearance Officer: Arthur Quintana, (703) 787–1239.

Dated: August 9, 1995.

Henry G. Bartholemew,

Deputy Associate Director for Operations and Safety Management.

BILLING CODE 4310–MR–M

National Park Service

NATIVE AMERICAN GRAVES PROTECTION AND REPATRIATION REVIEW COMMITTEE: MEETING

AGENCY: National Park Service, Department of the Interior

ACTION: Notice of meeting of the Native American Graves Protection and Repatriation Review Committee, Correction

---

This notice corrects the notice published in the Federal Register on May 31, 1995.

A meeting of the Native American Graves Protection and Repatriation Act Review Committee will be held on October 16, 17, and 18, 1995, in Anchorage, Alaska. The notice published May 31st stated the final day of the meeting may be held in the Eagan Center, Anchorage, AK, in conjunction with the Alaska Federation of Natives annual convention. The location for the final day of the meeting has been changed to the Chart Room in the Anchorage Hilton, 500 West 3rd Avenue, Anchorage, Alaska, 99510–9953. This does not affect the location for the first two days of the meeting which will be held in the Dillingham Room in the Anchorage Hilton, as stated in the earlier notice.

The notice published May 31st stated that comments to the Committee's draft recommendations regarding the disposition of culturally unidentifiable human remains in museums and Federal collections and public comment and discussion of the statute's application in Alaska would be on the meeting's agenda. The agenda has been expanded to include the Committee's review of written evidence on two disputes: the first dispute involves the Oneida Tribe of Indians of Wisconsin, the Oneida Indian Nation, and the Field Museum of Natural History. The second dispute involves Betty J. Washburn and Charles Junkerman, representatives of Chief Satanta (White Bear) Descendants, the University of California, Berkeley, and the Phoebe A. Hearst Museum of Anthropology.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited. Persons will be accommodated on a first-come, first-served basis. Due to the presence of Alaska Federation of Natives delegates, hotel rooms in Anchorage may be scarce. Any member of the public may file a written statement concerning the matters to be discussed with Dr. Francis P. McManamon, Departmental Consulting Archeologist.

Persons wishing further information concerning this meeting, or who wish to submit written statements may contact Dr. Francis P. McManamon, Departmental Consulting Archeologist, Archeological Assistance Division, National Park Service, P.O. Box 37127–suite 210, Washington, DC 20013–7127, Telephone (202) 343–4101. Draft summary minutes of the meeting will be available for public inspection about eight weeks after the meeting at the office of the Departmental Consulting Archeologist, room 210, 800 North Capital Street, Washington, DC.

Dated: September 7, 1995

Veletta Canouts,

Acting Departmental Consulting Archeologist and Acting Chief, Archeology and Ethnography Program.

BILLING CODE 7035–01–P

[Finance Docket No. 32490]

Gateway Eastern Railway Company; Trackage Rights Exemption; Missouri Pacific Railroad Company, The Alton & Southern Railway Company, and Consolidated Rail Corporation

Missouri Pacific Railroad Company (MP), The Alton & Southern Railway Company (A&S), and Consolidated Rail Corporation (Conrail) have agreed to grant Gateway Eastern Railway Company (GWER) trackage rights over approximately 14.03 miles of their respective rail lines between Mitchell and East St. Louis, IL, as follows: (1) Over 820 feet of MP rail line near milepost 275.60 at Lenox Tower in Mitchell; (2) over 11.07 miles of A&S rail line between milepost 21.00 at Lenox Tower in Mitchell and milepost 9.93 at "HN" Cabin in Canteen Township, IL; and (3) over 2.8 miles of Conrail rail line between milepost 234.0± at "HN" Cabin and milepost 236.8± at Willows Tower in East St. Louis, IL. The trackage rights became effective on of after September 1, 1995.

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Thomas J. Litwiler, Oppenheimer, Wolff and Donnelly, Two Prudential Plaza, 180 North Stetson Avenue, Chicago, IL 60601.

As a condition to the use of this exemption, any employees adversely affected by the trackage rights will be protected under *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Decided: September 8, 1995.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

DEPARTMENT OF JUSTICE

Information Collections Under Review

The Office of Management and Budget (OMB) has been sent the following collection(s) of information proposals for review under the provisions of the Paperwork Reduction Act (44 USC Chapter 35) and the Paperwork Reduction Reauthorization Act since the last list was published. Entries are grouped into submission categories, with each entry containing the following information:

(1) The title of the form/collection;

(2) The agency form number, if any, and the applicable component of the Department sponsoring the collection.

(3) Who will be asked or required to respond, as well as a brief abstract;

(4) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond;

(5) An estimate of the total public burden (in hours) associated with the collection; and,

(6) An indication as to whether Section 3504(h) of Public Law 96–511 applies.

Comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the OMB reviewer, Mr. Jeff Hill on (202) 395–7340 and to the Department of Justice's Clearance Officer, Mr. Robert B. Briggs, on (202) 514–4319. If you anticipate commenting on a form/collection, but find that time to prepare such comments will prevent you from prompt submission, you should notify the OMB reviewer and the Department of Justice Clearance Officer of your intent as soon as possible. Written comments regarding the burden estimate or any other aspect of the collection may be submitted to Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, and to Mr. Robert B. Briggs, Department of Justice Clearance Officer, Systems Policy Staff/Information Resources Management/Justice Management Division, Suite 850, WCTR, Washington, DC 20530.

New Collection

(1) Application for Participation in Demonstration Project concerning Electronic Options for Processing Forms I–9.

(2) N/A. Immigration and Naturalization Service. United States Department of Justice.

Primary: Business or other for-profit. Other: Individuals or households, Not-for-profit institutions, Farms, Federal Government, and State, Local or Tribal Government. The Immigration and Naturalization Service is inviting applications from businesses, consortium of businesses, or other employing entities interested in participating in a demonstration project dealing with the electronic production and/or storage of Rooms I–9, Employment Eligibility Verification Form.

(4) 100 annual respondents, 23 hours per response.

(5) 2,300 annual burden hours.

(6) Not applicable under section 3504 (h) of Public Law 96–511.

Public comment on this item is encouraged.

Dated: September 8, 1995.

Kathleen T. Albert,

Acting Department Clearance Officer, United States Department of Justice.

Office of the Attorney General

[AG Order No. 1967–95]

RIN 1105–AA36

Proposed Guidelines for the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act

AGENCY: Department of Justice.

ACTION: Proposed Guidelines; Notice of Reopening of Comment Period.

SUMMARY: On April 12, 1995, the United States Department of Justice (DOJ) published Proposed Guidelines to implement the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act. These Proposed Guidelines may be found at 60 FR 18613, April 12, 1995. The original 90 day comment period expired on July 11, 1995.

The majority of states already have some form of sex offender registration. It is likely that most states will have to make at least minor changes to their existing systems in order to comply with the statutory requirements outlined in these guidelines. To ensure that the public has ample opportunity to fully review and comment on the proposed guidelines, we are reopening the comment period and will accept comments for an additional 45 days after publication of this notice.

DATES: Comments must be received by October 30, 1995.

ADDRESSES: Comments may be mailed to Bonnie J. Campbell, Office of the

Associate Attorney General, U.S. Department of Justice, Tenth and Pennsylvania Avenue, NW, Washington, DC 20530, 202–616–8894

Dated: September 5, 1995.

Janet Reno,

Attorney General.

BILLING CODE 4410–01–M

Immigration and Naturalization Service

[INS No. 1725R–95]

Citizens Advisory Panel Meeting

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Notice of meeting.

SUMMARY: The Immigration and Naturalization Service (Service) in accordance with the Federal Advisory Committee Act (5 U.S.C. App. 2) and 41 CFR 101–6.1001–101–6.1035 (1992), has established a Citizens' Advisory Panel (CAP) to provide the Department of Justice with recommendations on ways to reduce the number of complaints of abuse made against employees of the Service, and to minimize or eliminate the causes for those complaints. This notice announces the CAP's forthcoming meeting and the agenda for the meeting.

DATES: October 25–27, 1995 at 8:00 a.m.

ADDRESSES: Wyndham Greenspoint Hotel, 12400 Greenspoint Drive, Salon A Meeting Room, Houston, TX 77060.

FOR FURTHER INFORMATION CONTACT: Susan B. Wilt, CAP Designated Federal Official (DFO), Immigration and Naturalization Service, Room 3260, Chester Arthur Building, 425 I Street NW., Washington, DC 20536, Telephone (202) 616–7072.

SUPPLEMENTARY INFORMATION: Pursuant to the charging language of the Senate Appropriations Committee Report 102–331 on the FY 1993 Budget for the Immigration and Naturalization Service, Department of Justice, the Service established a Citizens' Advisory Panel for the purpose of providing recommendations to the Attorney General on ways to reduce the number of complaints of abuse made against employees of the Service and, most importantly, to minimize or eliminate the causes for those complaints. The CAP is authorized by the Attorney General to (1) accept and review civilian complaints made against Service employees, and (2) review the systems and procedures used by the Service for responding to such complaints. (February 11, 1994 at 59 FR 6658)

Summary of Agenda

The principal purpose of the meeting will include presentations and a general discussion of training development and education, the current training curriculum, and training policies and procedures for Service employees.

Public Participation

The CAP meeting is open to the interested public, but limited to the space available. Persons wishing to attend should notify the CAP DFO at least 2 days prior to the meeting by contacting the DFO at (202) 514–2373. After October 20, 1995, contact Roberto Stanley at the Houston District INS Office at (713)–847–7950. Any hearing-challenged individuals wishing to attend please contact the DFO by October 19, 1995 so services can be arranged.

Any member of the public may file a written statement with the CAP DFO before the meeting. Materials submitted at the meeting, should be submitted in 20 copies. The CAP Chairperson will permit members of the public to present orel statements at the meeting with prior registration.

Minutes of the meeting will be available on request from the CAP DFO.

Dated: September 7, 1995.

Doris Meissner,

Commissioner, Immigration and Naturalization Service.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 95–087]

NASA Advisory Council, NASA–NIH Advisory Committee on Behavioral and Biomedical Research; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, NASA–NIH Advisory Committee on Behavioral and Biomedical Research.

DATES: September 28, 1995, 8:30 a.m. to 5:00 p.m.; and September 29, 1995, 8:00 a.m. to 12:00 p.m..

ADDRESSES: Room 9H40, NASA Headquarters, 300 E Street, SW, Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Dr. Arnauld Nicogossian, Code U, National Aeronautics and Space Administration, Washington, DC 20546, 202/358–0215.

SUPPLEMENTARY INFORMATION: The meeting will be closed to the public on Thursday, September 28, 1995, from 4:30 p.m. to 5:00 p.m. in accordance with 5 U.S.C. 522b(c)(6), to allow for discussion on qualifications of individuals being considered for membership to the Committee. The remainder of the meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

—Review of the Office of Life and Microgravity Sciences and Applications Status
—Status of NASA–NIH Activities
—Neurolab Science
—Left Ventricle Assist Device
—International Space Station
—Digital Mammography
—New Science Policy
—Committee Discussion Regarding Future Activities

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: September 7, 1995.

Danalee Green,

Chief, Management Controls Office, National Aeronautics and Space Administration.

BILLING CODE 7510–01–M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meetings of Humanities Panel

AGENCY: National Endowment for the Humanities.

ACTION: Notice of meetings.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: David C. Fisher, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506; telephone (202) 606–8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the Endowment's TDD terminal on (202) 606–8282.

SUPPLEMENTARY INFORMATION: The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by the grant applicants. Because the proposed meetings will consider information that is likely to disclose: (1) trade secrets and commercial or financial information obtained from a person and privileged or confidential; or (2) information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee meetings, dated July 19, 1993, I have determined that these meetings will be closed to the public pursuant to subsections (c) (4), and (6) of section 552b of Title 5, United States Code.

1. *Date:* October 2–3, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review applications for Elementary and Secondary Education in the Humanities, submitted to the Division of Education Programs, for projects beginning after December 1995.

2. *Date:* October 2–3, 1995.
Time: 9:00 a.m. to 5:30 p.m.
Room: 415.
Program: This meeting will review proposals submitted to the September 15 deadline in Higher Education Humanities Focus Grants Program, submitted to the Division of Education, for projects beginning after April 1996.

3. *Date:* October 5–6, 1995.
Time: 9:00 a.m. to 5:30 p.m.
Room: 415.
Program: This meeting will review proposals submitted to the September 15 deadline in Higher Education Humanities Focus Grants Program, submitted to the Division of Education, for projects beginning after April 1996.

4. *Date:* October 11–12, 1995.
Time: 9:00 a.m. to 5:30 p.m.
Room: 315.
Program: This meeting will review proposals submitted to the September 15 deadline in Higher Education Humanities Focus Grants Program, for projects beginning after April 1996.

5. *Date:* October 11–12, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 430.
Program: This meeting will review applications for Elementary and Secondary Education in the Humanities, submitted to the Division of Education Programs, for projects beginning after December 1995.

6. *Date:* October 13, 1995.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications for the National Heritage Preservation Program Projects, submitted to the Division of Preservation and Access, for projects beginning after May 1, 1996.

7. *Date:* October 20, 1995.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications for the National Heritage Preservation Program Projects, submitted to the Division of Preservation and Access, for projects beginning after May 1, 1996.

8. *Date:* October 20, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review Editions Program applications in History, submitted to the Division of Research Programs, for projects beginning after May 1, 1996.

9. *Date:* October 23, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review Editions Program applications in Literature, the Arts and Philosophy, submitted to the Division of Research for projects beginning after May, 1996.

10. *Date:* October 24, 1995.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications for Library and Archival Preservation and Access Projects, submitted to the Division of Preservation and Access, for projects beginning after May, 1996.

11. *Date:* October 25, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review Translations and Editions Program applications in Studies of Africa and the Americans, submitted to the Division of Research Programs, for projects beginning after May, 1996.

12. *Date:* October 27, 1995.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: The meeting will review applications for the Documentation of Humanities Collections Projects, submitted to the Division of Preservation and Access, for projects beginning after May 1, 1996.

13. *Date:* October 30, 1995.
Time: 9:00 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review Translations Program applications in Middle Eastern and Asian Studies, submitted to the Division of Research Programs, for projects beginning after May 1, 1996.

14. *Date:* October 30, 1995.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications for Library and Archival Preservation and Access Projects, submitted to the Division of Preservation and Access, for projects beginning after May 1, 1996.

BILLING CODE 7536-01-M

NATIONAL SCIENCE FOUNDATION

Antarctic Conservation Act of 1978; Notice of Permit Modification Request Received

AGENCY: National Science Foundation.

ACTION: Notice of permit modification requests received under the Antarctic Conservation Act of 1978, P.L. 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of a permit modifications requested.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit modification by October 12, 1995. Permits may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 306–1031.

DESCRIPTION OF PERMIT MODIFICATIONS REQUESTED:

1. The Foundation issued a permit (93–00B) to Dr. Wesley M. Weathers on November 2, 1993. The issued permit allows for the capture and release of seven hundred sixty-six Cape Petrels (*Daption capense*) and Snow Petrels (*Pagodrama nivea*) to conduct measurements over three consecutive breeding seasons. The project focuses on the feeding ecology and energetics of these two common surface-nesting petrels.

The permit holder requests to modify the permit to allow for the collection two additional species of petrels, Antarctic petrels (*Thalassoica antarctica*) and Southern Fulmars (*Fulmarus glacialoides*). The research protocol for these two additional species will be identical to that used on the Cape Petrels and Snow Petrels and samples sizes will also be identical. This modification was prompted by a request from the Australian Antarctic Division to have the permit holder to expand the scope of the research program to include the two additional species.

LOCATION: Prydz Bay, East Antarctica.

DATES: October 15, 1995-March 31, 1996.

2. The Foundation issued a permit (95–013) to Ron Naveen on September 7, 1994. The issued permit allows for the entry into Sites of Special Scientific Interest to catalogue the physical and biological characteristics of more than 60 locations visited in the Antarctic Peninsula. Cataloguing efforts include the inventory, marking, or photographing sites or to demarcate discrete groups, colonies, or plots of penguins, flying seabirds, or terrestrial plans.

The permit holder requests to modify the permit to allow for the collection of culmen measurements from penguin chicks in January/February. These measurements will help to more precisely determine the age of chicks and assist in determining productivity at the site. Culmen measurements will be taken at small creches on an opportunistic basis.

LOCATION: Various visitor sites in the Antarctic Peninsula Region, including a possible stop over at the research site at Admiralty Bay (SSSI #8).

DATES: October 15, 1995–March 1, 1996.

Nadene G. Kennedy,

Permit Office, Office of Polar Programs.

BILLING CODE 7555-01-M

Special Emphasis Panel in Design, Manufacture, and Industrial Innovation; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Design, Manufacture, and Industrial Innovation—#1194.
Date and Time: October 4, 1995, 8:00 a.m.-5:00 p.m.
Place: Room 340 and 360, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.
Type of Meeting: Closed.
Contact Person: Darryl Gorman, SBIR Office, (703) 306–1390, or Ulrich Strom, MPS, (703) 306–1832, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to the NSF for financial support.
Agenda: To review and evaluate Phase I Small business proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data such as salaries, and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C 552b(c) (4) and (6) of the Government in the Sunshine Act.

Dated: September 11, 1995.

M. Rebecca Winkler,

Committee Management Officer.

POSTAL RATE COMMISSION

[Docket No. A95–18; Order No. 1074]

Notice and Order Accepting Appeal and Establishing Procedural Schedule Under 39 U.S.C. 404(b)(5)

Issued September 8, 1995.

Before Commissioners: Edward J. Gleiman, Chairman; W.H. "Trey" LeBlanc III, Vice-Chairman; George W. Haley; H. Edward Quick, Jr.; Wayne A. Schley.

In the Matter of: Hetland, South Dakota 57244 (Fern Melstad, Petitioner).

Docket Number: A95–18
Name of Affected Post Office: Hetland, South Dakota 57244
Name(s) of Petitioner(s): Fern Melstad
Type of Determination: Consolidation
Date of Filing of Appeal Papers: August 28, 1995
Categories of Issues Apparently Raised:

1. Effect on postal services [39 U.S.C. 404(b)(2)(C)].
2. Effect on the community [39 U.S.C. 404(b)(2)(A)].

After the Postal Service files the administrative record and the Commission reviews it, the Commission may find that there are more legal issues than those set forth above. Or, the Commission may find that the Postal Service's determination disposes of one or more of those issues.

The Postal Reorganization Act requires that the Commission issue its decision within 120 days from the date this appeal was filed (39 U.S.C. 404(b)(5)). In the interest of expedition, in light of the 120-day decision schedule, the Commission may request the Postal Service to submit memoranda of law on any appropriate issue. If requested, such memoranda will be due 20 days from the issuance of the request and the Postal Service shall serve a copy of its memoranda on the petitioners. The Postal Service may incorporate by reference in its briefs or motions, any arguments presented in memoranda it previously filed in this docket. If necessary, the Commission also may ask petitioners or the Postal Service for more information.

The Commission Orders

(a) The Postal Service shall file the record in this appeal by September 12, 1995.

(b) The Secretary of the Postal Rate Commission shall publish this Notice and Order and Procedural Schedule in the **Federal Register**.

By the Commission.

Margaret P. Crenshaw,

Secretary.

Appendix

August 28, 1995
  Filing of Appeal letter
September 8, 1995
  Commission Notice and Order of Filing of Appeal
September 22, 1995
  Last day of filing of petitions to intervene [see 39 C.F.R. 3001.111(b)]
October 2, 1995
  Petitioner's Participant Statement or Initial Brief [see 39 C.F.R. 3001.115 (a) and (b)]
October 23, 1995
  Postal Service's Answering Brief [see 39 C.F.R. 3001.115(c)]
November 7, 1995
  Petitioner's Reply Brief should Petitioner choose to file one [see 39 C.F.R. 3001.115(d)]
November 14, 1995
  Deadline for motions by any party requesting oral argument. The Commission will schedule oral argument only when it is a necessary addition to the written filings [see 39 C.F.R. 3001.116]
December 26, 1995
  Expiration of the Commission's 120-day decisional schedule [see 39 U.S.C. 404(b)(5)]

BILLING CODE 7710-FW-P-M

POSTAL SERVICE

Manifest Analysis and Certification (MAC)

AGENCY: Postal Service.

ACTION: Notice of program.

SUMMARY: The U.S. Postal Service proposes to implement a voluntary annual certification program that evaluates the accuracy of certain manifest mailing system software products that calculate postage payment for specific mail class and rate categories.

To ensure the most effective design and implementation of the proposed program, the Postal Service is seeking comments from developers of manifest software products, users of such products, and other interested parties.

DATES: Comments must be received on or before October 16, 1995.

ADDRESSES: Written comments should be mailed or delivered to the Manager, Business Mail Acceptance, U.S. Postal Service, 475 L'Enfant Plaza SW, Room 8430, Washington, DC 20260–6808. Copies of all written comments will be available at the above address for inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Cheryl Beller, (202) 268–5166, or Tom Amonette, (317) 464–6599.

SUPPLEMENTARY INFORMATION: Manifest mailing systems have been used for several years to calculate and document postage for mailings of identical- and/or nonidentical-weight mailpieces paid by permit imprints. Mailers rely on the computer software of these systems to accurately list the mailpieces by unique identification and to calculate individual postage rates and the total postage owed for the mailing of those pieces.

In April 1993, the Postal Service redesigned the manifest mailing system program to make it more flexible for mailers. These manifesting standards are described in USPS Publication 401, Guide to the Manifest Mailing System. There is no standardized process to approve manifest mailing software products for quality and accuracy. To ensure such, the approval process occurs at each site where a mailer installs a system. This process is administered by the Postal Service at the district level by the manager of Customer Service Support and at the headquarters level by the manager of the rates and classification service center serving that district.

Many vendors of manifest mailing software have expressed concern that their products are quickly approved for mailers at some sites but delayed at other sites. These vendors have requested a standardized software approval process from site to site, similar to the process currently used for presort software and address matching software.

To that end, the Manifest Analysis and Certification (MAC) program is being proposed. The Postal Service does not propose that the use of MAC-certified software be mandatory for calculating postage with a manifest mailing system. Instead, this program will be voluntary and open to all eligible developers of manifest mailing software products that prepare and document manifest mailings according to the standards in the Domestic Mail Manual (DMM), the International Mail Manual (IMM), and USPS Publication 401, Guide to the Manifest Mailing System. The program will be available to test products configured for personal, midrange, or mainframe computers. Certification will assure users of MAC-certified products that the software, if used properly, will perform its intended function according to Postal Service standards in the DMM, the IMM, and USPS Publication 401, Guide to the Manifest Mailing System. Certification will also ensure that Postal Service facsimile forms and other supporting mailing documentation generated by such software have been evaluated and approved.

Mailers will significantly benefit from the MAC program through a simplified and standardized application and approval process for their manifest mailing systems. Currently, the relevant software and the documents produced must be tested and approved at each implementation site. Under the MAC program, each certified software version will be preapproved for implementation and will not require site-by-site testing and approval. If a mailer uses certified software, the approving post office will not be required to validate its effectiveness and accuracy. The post office approval of the system will be limited to a review that ensures that the mailer has installed the system properly and implemented effective quality control procedures.

Definitions

For purposes of MAC certification, "eligible manifest mailing software product developers" are those firms that develop a manifest mailing software product for commercial sale or use. Initially, MAC certification will not be available for manifest mailing software developed by companies for in-house use only; however, those products might be included during a later phase of the program.

A "manifest mailing software product" is a complete set of computer program modules that accurately list manifested mailpieces and correctly calculate postage for all pieces included on the manifest, according to the standards in the DMM or IMM for one or more classes and rates of mail. The software must produce a manifest and facsimile mailing statements and other USPS forms as required by DMM or IMM standards for the services requested.

Categories of Mail Under MAC

During the initial phase of the MAC program, only software generating itemized single-piece domestic and international mail manifests will be tested and certified. The program will be expanded later to include bulk-rate itemized and batch-processed manifests.

Application and Certification Process

Eligible manifest mailing software product developers will apply for MAC certification of their products in specific categories or package groups. (The list of certification package groups is shown in the tables that follow.) On receipt of the application, the Postal Service will send the applicant the appropriate electronic test file of information describing the pieces in the test mailing for which postage is to be calculated. The software developer will run the test file through the developer's software and print documentation that will list the mailpieces, report the postage for each mailpiece and the total postage owed for the entire mailing, and produce facsimile mailing statements and other required documentation.

The developer will return the generated documentation, along with the original test file, to the USPS National Customer Support Center (NCSC) within a specified period. For the category tested (basic or optional), the Postal Service will evaluate the accuracy of the documentation (that is, the listing of mailpieces, classes, rates, and postage). In addition, the accuracy, format, and content of facsimile mailing statements and any other USPS form (if applicable) will be evaluated.

If the Postal Service determines that the developer's manifest mailing product meets the applicable standards, the developer will be issued a MAC certificate describing the package and options (see following section and tables) for which the product has been certified. The certification will be valid for 1 year, or until the conclusion of the next MAC testing period. The initial MAC testing period will be from November 1995 through January 1996, as further detailed in this notice. Subsequent test periods will begin in August and end in December of the same year.

Certification Package Options

The Postal Service proposes to test and certify manifest mailing software in specific categories (package groups). To be MAC-certified, vendors must, at a minimum, accurately manifest the specific class and rate categories shown in the following table "Basic Package." Optional certification categories will be available for those vendors who offer a greater range of manifest capabilities, as shown in the tables under "Optional Packages." To be certified for a specific package (either basic or optional), the manifest mailing software product must accurately calculate postage and applicable fees; moreover, it must produce required documentation for each class, rate, and processing category listed in that package. The following tables describe the basic package and optional packages that will be tested and certified. All categories in each package are required for certification status for that package.

Single-Piece Rate Mail Certification Packages: Basic and Optional

Basic Package

First-Class Mail (1 to 11 ounces) [1]
Fourth-Class Bound Printed Matter
Fourth-Class Library Rate
Fourth-Class Parcel Post (Intra-BMC)
Fourth-Class Parcel Post (Inter-BMC)
Priority Mail
Priority Mail Flat Rate
Single-Piece Third-Class Mail [1]
Special Fourth-Class Mail

Note: Computerized mailing statement facsimiles are required for all classes and rates.

[1] Must calculate nonstandard surcharge when applicable.

Optional Packages

Option 1: Fourth-Class Mail

Parcel Post Destination Bulk Mail Center (DBMC) [1]

[1] Must calculate nonstandard surcharge when applicable.

Option 2: Special Services

Certified
COD (collect on delivery)
Insured
PAL (parcel air lift)

1996 Certification Test Period

All vendors desiring to have their software certified for 1996 must submit their applications on or after November 1, 1995; moreover, they must complete the test files (or any retest file) and return the answered test files by the closing date of January 31, 1996. Test files received and evaluated after that date will be assessed an out-of-cycle fee (see below).

Application Materials

To apply for MAC approval, eligible manifest mailing software product developers will request an order form and technical guide from the following address: ATTN MAC Program Department, National Customer Support Center, US Postal Service, 6060 Primacy Pky Ste 201, Memphis TN 38188–0001.

The form and guide may also be ordered by telephone at 1–800–331–5746. Only one form will be necessary, regardless of the number of manifest packages for which application is being made.

MAC Test Files

The MAC test files for each package contain a specific number of records that will describe the type and destination of a specific mailpiece. Each record will include:

- Addressee's name.
- Delivery address (error-free).
- City and state.
- ZIP Code.
- Class of mail.
- Processing category (machinable or nonmachinable for parcels).
- Weight (in pounds and ounces).
- Special service (if applicable to certification package).
- Dollar value (for special services such as COD, insured, or registered).
- Piece identification number (ID #).
- Country code (for international mail).

The test files will be configured in the media listed in the table below.

Magnetic tape	Cartridge	Diskette
6250 BPI EBCDIC 6250 BPI ASCII 1600 BPI EBCDIC 1600 BPI ASCII	IBM 3480 38K	3½", 1.44 Megabyte MS–DOS 5¼", 1.2 Megabyte MS–DOS

Processing Test Files and Providing Documentation

Once received, the developer will process the test files at their location with the manifest mailing product for each manifest package being examined. The developer will generate hard-copy documentation to support the accuracy of the manifest listing of the mailpieces by identification number and the correct postage payment for those pieces. This documentation will include:

- An itemized manifest listing (formatted as described in USPS Publication 401, Guide to the Manifest Mailing System).
- Facsimile mailing statements, summarizing the postage payment by rate and by total postage for each class of mail.
- PS Form 3877, Firm Mailing Book for Accountable Mail (if applicable for mailpieces with special services).
- Sample address labels (if printed by the system), showing the correct permit imprint for class and rate, unique identification number, and any applicable endorsement.

Evaluating MAC Tests

The Postal Service will evaluate the required hard-copy reports returned by the software product developer. This evaluation will focus on the accuracy, content, and clarity of the manifest listing format; the accuracy of postage and applicable fees for special services for each individual mailpiece and for total postage and fees; and the accuracy and format of facsimile mailing statements, PS Forms 3877 (if applicable), and address labels printed by the system.

More than one answer can be right for a particular test question. For example, a test question might indicate an insured mailpiece with a dollar value over the maximum dollar value allowed. The answer might be to assign either no insurance to that piece or insurance for the highest allowable value. Multiple correct answers will be accepted based on current DMM or IMM standards applicable to the particular test question. To be MAC-certified, the results must be in complete accord with the mail classification standards in the DMM and IMM and with the documentation standards in USPS Publication 401, Guide to the Manifest Mailing System, applicable at the time of the test.

MAC Certification

Upon successful test evaluation, developers will be contacted by the Postal Service in writing and issued a MAC certificate. It will note the specific software tested, a description of the package certified, and the dates of certification and expiration. At the conclusion of the test period, a list of MAC-certified manifest mailing software product developers will be published in February 1996, and in January of each following year, in the Postal Bulletin or other publication. The list will include the developer's name, approved product names, version numbers, certified packages, and a company contact name and telephone number. Vendor software not certified before January 31, 1996, or before December 31 of following years, will not be included.

MAC certification will be valid for 1 year or until the next MAC cycle. For those choosing to test during the normal test cycle, MAC certification will be valid from February 1 to December 31, 1996, for the initial MAC cycle and from January 1 to December 31 in following years. Out-of-cycle MAC certifications will expire at the end of the next normal test cycle (for example, a certification obtained in June 1996 will expire in December of the same year).

MAC Recertification

If a manifest mailing software product developer makes significant changes to its product within the 12 months following certification, MAC certification will not remain valid. Developers initiating such product changes must apply for recertification for this modified product. Examples of a significant change are a key alteration of the product's basic mailpiece listing and postage calculation logic; a major change in the content, layout, format, or availability of computer-generated documentation or facsimiles; or a modification that results in significant differences in software operator use.

Some software changes will not be significant enough to require recertification. However, whenever any change is made to a previously certified product, MAC-certified manifest mailing software product developers will be required to notify the Postal Service to determine whether recertification is necessary. To accommodate mailing industry needs to expedite the release of improved products, the Postal Service will provide a toll-free telephone number to inform developers whether the changes will warrant recertification.

DMM- or IMM-Initiated MAC Cycle

Significant changes in manifest mailing preparation standards might require manifest mailing software product developers to modify their products enough to trigger a recertification or a DMM- or IMM-initiated MAC cycle. To provide time for recertification, the Postal Service will attempt to delay implementation of significant changes to manifest mailing standards (those deemed significant enough to require recertification) until 120 days after the final date of notice of the change, whenever possible. (Some changes, such as those resulting from congressional action or Postal Rate Commission proceedings, may require more immediate implementation.)

If the Postal Service conducts MAC testing out of the normal cycle (October 1 through December 31) to accommodate such DMM or IMM changes, manifest mailing software products tested and certified during this period will maintain certification for 1 year beyond the next normal test period. For instance, if a DMM change takes effect May 1996, a manifest mailing product that was MAC-certified in July 1996 (out of cycle to meet the new standard) will be issued a MAC certificate valid from July 1996 to December 1997 (unless further DMM or IMM changes warranted significant software updating).

Certification Fees

Participation in the MAC program will be free of charge during the normal testing cycle and in those instances when a DMM- or IMM-initiated MAC cycle is conducted. A fee of $250.00, however, will be charged for those participating in the MAC program outside the normal test cycle.

MAC Test Failures

Participants will receive notification of errors during MAC test evaluations so that retesting can be done within the normal MAC cycle. The first two attempts for a specific category will be free of charge. All subsequent certification attempts will be charged the out-of-cycle fees.

Standardization of Formats and Test Results

The Postal Service does not propose to mandate the standardization of documentation, except to the extent required in USPS Publication 401, Guide to the Manifest Mailing System. The Postal Service believes, however, that voluntary standardization would enhance the approval and certification process and simplify the acceptance of manifest mailings.

In the future, the Postal Service will offer the option for the manifest mailing product developers to return manifest test files in an electronic file structure. This will allow the test to be analyzed and graded electronically which will speed the approval process and also make it easier to accept manifests electronically at business mail entry units. This electronic file format will be developed in the near future. Although, not a specific part of this proposal notice, the Postal Service requests comments on this issue.

Stanley F. Mires,

Chief Counsel, Legislative.

[FR Doc. 95–22889 Filed 9–13–95; 8:45 am]

BILLING CODE 7710–12–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–36200; International Series Release No. 851]

List of Foreign Issuers Which Have Submitted Information Required by the Exemption Relating to Certain Foreign Securities

September 7, 1995.

Foreign private issuers with total assets in excess of $5,000,000 and a class of equity securities held of record by 500 or more persons, of which 300 or more shareholders reside in the United States, are subject to registration under section 12(g) of the Securities Exchange Act of 1934, 15 U.S.C. 78a *et seq.* (the "Act").[1]

Rule 12g3–2(b) (17 CFR 240.12g3–2(b)) provides an exemption from registration under Section 12(g) of the Act with respect to a foreign private issuer which submits on a current basis material specified in the Rule to the Commission. Such required material includes that information about which investors ought reasonably to be informed with respect to the issuer and its subsidiaries and which the issuer (1) has made or is required to make public pursuant to the law of the country of its domicile or in which it is incorporated or organized, (2) has filed or is required to file with a stock exchange on which its securities are traded and which was made public by such exchange and/or (3) has distributed or is required to distribute to its security holders.

On October 6, 1983, the Commission revised Rule 12g3–2(b) by terminating the availability of the exemptive rule for certain foreign issuers with securities quoted on an automated inter-dealer quotation system (which includes the Nasdaq stock market).[2] The Commission grandfathered indefinitely securities of non-Canadian issuers in compliance with the information-supplying exemption as of October 6, 1983 and quoted in Nasdaq on that date.[3] The Commission extended the exemption to Canadian securities only until January, 1986.

When it adopted Rule 12g3–2 and other rules relating to foreign securities,[4] the Commission indicated that from time to time it would issue lists showing those foreign issuers that have claimed exemptions from the registration provisions of Section 12(g) of the Act.[5] The purpose of the present release is to call to the attention of brokers, dealers and investors that some form of relatively current information concerning the foreign issuers included on the following list is available in the public files of the Commission.[6] The Commission also wishes to bring to the attention of brokers, dealers, and investors the fact that current information concerning foreign issuers may not necessarily be available in the United States.[7] The Commission continues to expect that brokers and dealers will consider this fact in connection with their obligations under the federal securities laws to have a reasonable basis for recommending these securities to their customers.[8]

Any questions regarding Rule 12g3–2 or the list included herein should be directed to Frank G. Zarb, Jr., Office of International Corporate Finance, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549 ((202) 942–2990). Requests for copies of the documents in the files should be directed to the Public Reference Room, Securities and Exchange Commission, Washington, D.C. 20549 ((202) 942–8090).

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

---

[1] Foreign issuers may also be subject to such requirements of the Act by reason of having securities registered and listed on a national securities exchange in the United States, and may be subject to the reporting requirements by reason of having registered securities under the Securities Act of 1933, 15 U.S.C. 77a et seq.

[2] Exchange Act Release No. 20264 (Oct. 6, 1983).

[3] If, however, the securities are delisted from an automated inter-dealer quotation system or the issuer fails to maintain or otherwise meet the requirements of the exemption, the grandfather provision will cease to apply.

[4] Exchange Act Release No. 8066 (Apr. 28, 1967).

[5] Exchange Act Release No. 34477 (Aug. 2, 1994) contained the last such list.

[6] Inclusion of an issuer on the following list is not an affirmation by the Commission that the issuer has complied or is complying with all the conditions of the exemption provided by Rule 12g3–2(b). The list does identify those issuers that both have claimed the exemption and have submitted relatively current information to the Commission as of September 1, 1995.

[7] Paragraph (a)(4) of Rule 15c2–11 [17 CFR 240.15c2–11] requires a broker-dealer initiating a quotation for securities of a foreign private issuer to maintain in its files, and to make reasonably available upon request, the information furnished to the Commission pursuant to Rule 12g3–2(b) since the beginning of the issuer's last fiscal year.

[8] See, e.g., Hanly v. SEC, 415 F.2d 589 (2nd Cir. 1969) (broker-dealer cannot recommend a security unless an adequate and reasonable basis exists for such recommendation).

BILLING CODE 8010–01–P

[Release No. 34–36206; File No. SR–DTC–95–12]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to the Extension of the Payment of Rebates to Paying Agents During the Conversion to a Same-day Funds Payment Standard

September 8, 1995.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on August 14, 1995, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change (File No. SR–DTC–95–12) as described in Items I, II, and III below, which items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization Statement of the Terms of Substance of the Proposed Rule Change

DTC is extending until October 1, 1996, the payment of rebates to qualifying agents that pay municipal interest and corporate and municipal redemptions in same-day funds on the payable date.[2]

---

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] The Commission previously approved a proposed rule change filed by DTC in which the rebate payments were to end on July 31, 1996. Securities Exchange Act Release No. 35649 (April 26, 1995), 60 FR 21576 [File No. SR–DTC–94–19] (order approving a proposed rule change implementing new guidelines for principal and income payments in a same-day funds environment).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.[3]

(A) Self-Regulatory Organization's Statement of the Purpose, of, and Statutory Basis for, the Proposed Rule Change

In DTC's next-day funds settlement system and prior to the implementation of the Group of Thirty's principal and income payment guidelines,[4] paying agents generally made payments in same-day funds to DTC for corporate income payments (*e.g.*, dividends and interest) and reorganization actions (*e.g.*, tenders and exchanges) for a majority of issues. Although corporate and municipal redemption payments and municipal income payments could be paid in next-day funds, paying agents generally made these payments in same-day funds on payment date to ensure their timely arrival at DTC. DTC invested these funds overnight and rebated to the paying agents interest on the funds as compensation for holding the funds overnight.

DTC has paid such rebates for many years; however, once DTC converts to same-day funds settlement for all security issues, DTC will make all payments to its participants on the payable date in same-day funds. As a result, DTC will not have interest earned from overnight investing available to rebate to paying agents. Therefore, DTC determined that it would cease paying such rebates to paying agents. Recognizing that participants would benefit by receiving all their expected payments in same-day funds on the payable date and in order to give agents time in which to modify their business practices in order to compensate for the loss of the rebates, DTC initially proposed to continue to pay rebates from the date of the conversion to same-day funds settlement for all security issues through July 31, 1996. In order to accomplish this, DTC determined that it would charge to participants, in proportion to their holdings in each issue for which a rebate would apply, the funds needed to pay the rebates from the date of the conversion through July 31, 1996.

In order to give paying agents additional time in which to modify their practices and procedures, the members of the Same-Day Funds Payment Task Force of the U.S. Working Committee of The Group of Thirty Clearance and Settlement Project requested that DTC extend the payment of agent rebates from August 1, 1996, through September 30, 1996. Therefore, DTC now proposes to extend the payment of such rebates until September 30, 1996. With respect to payments made on or after October 1, 1996, charges to participants will no longer be made.

The rebates will not be applied to payments of corporate interest, dividends, and reorganizations for which the paying agents already pay DTC in same-day funds on the payable date and which currently are not subject to interest earning rebates. However, DTC will require that 100% of corporate interest, dividends, and reorganization payments be paid to DTC in same-day funds on the payable date by 2:30 p.m. Eastern Standard time.

DTC believes the proposed rule change is consistent with the requirements of Section 17A(b)(3)(F) of the Act[5] because the extension of the payment of rebates to paying agents during the modification of their business practices will foster cooperation and coordination among persons engaged in the clearance and settlement of securities transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe the proposed rule change will impact or impose a burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments from DTC participants or others have not been solicited or received.

III. Date of effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; (3) was provided to the Commission for its review at least five days prior to the filing date; and (4) does not become operative for thirty days from the date of its filing on August 14, 1995, the proposed rule change has become effective pursuant to Section 19(b)(3)(A)(iii)[6] of the Act and Rule 19b–4(e)(6)[7] thereunder. In particular, the Commission believes the proposed rule change does not significantly affect the protection of investors or the public interest and does not impose any significant burden on competition. At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such filing will also be available for inspection and copying at the principal office of DTC. All submissions should refer to the File No. SR–DTC–95–12 and should be submitted by October 5, 1995.

For the commission by the Division of Market Regulation, pursuant to delegated authority.[8]

Margaret H. McFarland,

Deputy Secretary.

[Rel. No. IC–21342; 812–9568]

Alex, Brown Cash Reserve Fund, Inc., et al.; Notice of Application

September 8, 1995.

AGENCY: Securities and Exchange Commission (the "SEC").

ACTION: Notice of application for exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: Alex, Brown Cash Reserve Fund, Inc.; Chestnut Street Exchange Fund; Municipal Fund for California Investors, Inc.; Municipal Fund for New York Investors, Inc.; Municipal Fund for Temporary Investment; The PNC Fund, Inc.; Portfolios for Diversified Investment Inc.; Provident Institutional Funds, Inc.; The RBB Fund, Inc.; Temporary Investment Fund, Inc.; Trust for Federal Securities; Warburg Pincus Cash Reserve Fund; Warburg Pincus New York Tax-Exempt Fund (the "Existing Funds"); and all future registered management investment companies (or series thereof) for which PNC Institutional Management Corporation ("PIMC"), PNC Bank, N.A. ("PNC Bank") or any entity controlling, controlled by, or under common control with PIMC or PNC Bank serves as investment adviser (the "Future Funds" and together with the Existing Funds, the "Funds").

RELEVANT ACT SECTIONS: Order requested under sections 6(c) and 17(b) of the Act to exempt applicants from the provisions of sections 17(a)(1), 17(a)(2), and 17(e)(1) of the Act.

SUMMARY OF APPLICATION: Applicants seek an order to permit the Funds to engage in transactions with banks, bank holding companies, and affiliated persons thereof that are "affiliated persons" of a Fund solely because they own, hold, or control five percent or more of the outstanding voting securities of a Fund and/or act as investment adviser to a Fund. No Fund will engage, however, in such transactions with a bank, bank holding company, or an affiliated person thereof that controls, advises, or sponsors that Fund. The purchase and sale transactions would be limited to certain types of high quality debt securities and repurchase agreements meeting specified standards. The requested order would supersede a prior order.

FILING DATES: The application was filed on April 13, 1995, and amended on July 24, 1995. Applicants have agreed to file an additional amendment, the substance of which is incorporated herein, during the notice period.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 3, 1995, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street, N.W., Washington, D.C. 20549. Applicants, c/o PNC Bank, N.A., Land Title Building, Broad & Chestnut Streets, Philadelphia, Pennsylvania 19110.

FOR FURTHER INFORMATION CONTACT: Elaine M. Boggs, Staff Attorney, at (202) 942–0572, or C. David Messman, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. The Existing Funds are, and the Future Funds will be, registered management investment companies, PIMC or PNC Bank serve as investment adviser to each Existing Fund, and will serve as investment adviser to each Future Fund.

2. In 1984 the SEC issued an order granting an exemption from sections 17(a)(1), 17(a)(2), and 17(e)(1) of the Act to permit the Funds to engage in certain transactions with Affiliated Banks (the "1984 Order").[1] "Affiliated Banks" for purposes of the 1984 Order and the order requested hereby are banks, bank holding companies, and affiliated persons thereof that are affiliated persons of a Fund solely because they directly or indirectly own, control, or hold five percent or more of the outstanding voting securities of a Fund, and/or act as investment adviser to a Fund.

3. The 1984 Order permits the applicant funds to engage in transactions with Affiliated Banks involving the following instruments: (a) Money market instruments of an Affiliated Bank that is one of the fifty largest United States banks (measured by deposits); (b) repurchase agreements with no more than twelve Affiliated Banks that are among the fifty largest United States banks (measured by deposits); and (c) tax-exempt obligations (transactions with Affiliated Banks covered by the terms of the 1984 Order are hereinafter referred to as the "Covered Transactions"). The 1984 Order also permits an Affiliated Bank to accept compensation from the applicant funds, subject to the limitations of section 17(e)(2) of the Act, if such bank acts as agent for one of the funds in a Covered Transaction.

4. Applicants now request an order that would supersede the 1984 Order and permit the Funds to engage in transactions with Affiliated Banks involving the following "Qualified Securities:" (a) Money market instruments and other taxable obligations issued by, or purchased from or sold to an Affiliated Bank; (b) tax-exempt obligations purchased from or sold to an Affiliated Bank; (c) U.S. government securities from Affiliated Banks that are primary dealers in these securities ("Affiliated Dealers") and (d) repurchase agreements.

5. In addition, all Qualified Securities will meet the following credit standards:

a. For obligations that have a remaining maturity of 397 days or less, each such security shall constitute an "Eligible Security" within the meaning of rule 2a–7; provided, that, in the case of Unrated Securities (as defined in rule 2a–7(a)(20)), in addition to the requirements of rule 2a–7 applicable to such Unrated Securities, all determinations with respect to the comparability of such securities to rated securities are also reviewed and approved at least quarterly by a majority of the Fund's directors who are not interested persons of the Fund.

b. For obligations that have a remaining maturity of more than 397 days, each such security (or another long-term security of the same issuer having comparable priority and security to such obligation) shall have been rated by a nationally-recognized statistical rating organization ("NRSRO") in one of the four highest rating categories for long-term obligations; or, if the security and issuer have not been rated by an NRSRO, are determined by the Fund's investment adviser to be comparable in credit quality to a security carrying a long-term rating in one of such four highest rating categories of a NRSRO, and such determination is reviewed and approved at least quarterly by a majority of the Fund's directors who are not interested persons of the Fund.

---

[1] The Arch Fund, Inc., Investment Company Act Release Nos. 14016 (June 27, 1984) (notice) and 14064 (July 25, 1984) (order).

c. Any repurchase agreements will be collateralized fully within the meaning of rule 2a–7.

d. For obligations subject to unconditional, irrevocable credit enhancement (including, without limitation, a guarantee, letter of credit or put), the Funds may rely upon the NRSRO ratings of the provider of such credit enhancement to determine whether the obligation satisfies the requirements of paragraphs (a) and (b) above. Such obligations shall be treated as rated securities to the extent that the credit enhancement is of comparable priority and security to the rated obligations of the provider of such credit enhancement.

6. Applicants also request relief to permit an Affiliated Bank to accept compensation within the limitations of section 17(e)(2) of the Act where it acts as agent for any Fund in connection with the purchase or sale of Qualified Securities.

Applicants' Legal Analysis

1. Sections 17(a)(1) and 17(a)(2) of the Act prohibit affiliated persons of the Funds, or affiliated persons of such affiliated persons, acting as principal, knowingly to sell or purchase any securities to or from the Funds. Sections 2(a)(3)(A), (B), and (C) of the Act define an "affiliated person" of another person as, respectively: (a) Any person directly or indirectly owning, controlling, or holding with power to vote, five percent or more of the outstanding voting securities of such other person; (b) any person five percent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other person; and (c) any person directly or indirectly controlling, controlled by or under common control with, such other person.

2. By virtue of section 2(a)(3)(A), if a bank owns, controls or holds with power to vote five percent or more of the outstanding voting shares of one of the Funds, that bank could be considered an affiliated person of that Fund. Furthermore, any person who is an affiliated person of a registered investment company also may be deemed to be affiliated with each other registered investment company which has a common investment adviser, or investment advisers which are affiliated persons of each other, or common directors of common officers, or a combination of the foregoing, because such investment companies may be deemed to be under common control. Accordingly, a bank, bank holding company, or affiliated person thereof that is deemed to be an Affiliated Bank in respect of one Fund by virtue of its ownership of such Fund's shares may be deemed to be affiliated with all the Funds. The result of the operation of these provisions is to prohibit all of the Funds from engaging in any principal transaction in securities, including repurchase agreements and U.S. government securities, with a wide range of banks, bank holding companies, and affiliates thereof.

3. If an Affiliated Bank is also a primary dealer or an affiliated person of a primary dealer, the dealer then becomes an Affiliated Dealer. In addition, sections 2(a)(3)(B) and (C) cause a primary dealer which is a subsidiary of an Affiliated Bank, or which is controlled by the same holding company as an Affiliated Bank (or otherwise under common control with the Affiliated Bank), to be an affiliated person of the Affiliated Bank. The primary dealer then is an affiliated person of an affiliated person of the Funds.

4. The Funds believe the applicability of sections 17(a)(1) and 17(a)(2) to transactions between the Funds and Affiliated Banks in Qualified Securities unreasonably reduces the range of available investment alternatives. The inability to effect transactions in Qualified Securities With Affiliated Banks unduly impairs an investment adviser's flexibility in portfolio management, and deprives the Funds of the ability to purchase and sell otherwise proper portfolio securities.

5. Applicants state that the Funds will continue to apply existing internal control procedures that are designed to monitor securities transactions with Affiliated Banks by placing primary responsibility for the reasonableness and fairness of those transactions on the Funds' board of directors or trustees, or other governing bodies ("Governing Boards"). In addition to existing controls, applicants state that they will impose stringent credit quality requirements on the securities that a Fund may purchase from an Affiliated Bank. By limiting transactions with Affiliated Banks to certain Qualified Securities, applicants believe that focus is placed on the merits of a particular investment and that the Funds and their advisers will be subjected to a disciplined determination regarding whether a particular transaction is appropriate for a Fund. Finally, applicants believe that because Qualified Securities will be liquid, high-quality securities, an Affiliated Bank will be unable to exercise any improper influence without detection by the Funds' Governing Boards.

6. Applicants state that no fund will engage in transactions with an Affiliated Bank that serves as investment adviser (including sub-adviser) or sponsor to such Fund. Moreover, no Fund will engage in transactions in Qualified Securities with any Affiliated Bank that controls such Fund within the meaning of section 2(a)(9) of the Act.

7. PIMC and PNC Bank represent that there is no express or implied understanding between PIMC and PNC Bank and any bank, bank holding company or affiliated person thereof that is (or may become) an Affiliated Bank of a Fund that applicants will cause any of the Funds to enter into purchase or sale transactions in Qualified Securities with such entity. Moreover, applicants represent that they will give no preference to any Affiliated Bank in effecting purchase or sale transactions between the Funds and an Affiliated Bank that involve Qualified Securities issued by or purchased from or sold to such Affiliated Bank or because the customers of such bank purchase shares of any of the funds.

8. Section 17(e)(1) of the Act prohibits any affiliated person of a registered investment company, or any affiliated person of such person, when acting as agent from accepting from any source any compensation (other than a regular salary or wages from such registered company) for the purchase or sale of any property to or for such registered company, except in the course of such person's business as an underwriter or broker.

9. Banks are specifically excluded from the definition of a broker in section 2(a)(6) of the Act. In addition, applicants state that it would be highly improbable for a bank to satisfy the definition of underwriter in section 2(a)(40) with respect to each securities transaction involving an investment company where the bank was asked to act as agent for the investment company. Thus, a bank that is an Affiliated Bank may be prohibited from accepting any consideration whatsoever in connection with a brokerage transaction where it acted as agent for the Fund. In addition, if an Affiliated Dealer is not a separate entity from the Affiliated Bank, and acts as agent for a Fund, section 17(e)(1) also may apply to prohibit an Affiliated Dealer from receiving compensation in U.S. government securities or municipal securities transactions.

10. Applicants state that the transactions will comply with section 17(e)(2).[2] In addition, applicants state that the use of Affiliated Banks promotes investment flexibility by expanding the range of entities available for execution of securities transactions.

11. Section 17(b) of the Act provides that the SEC may exempt a transaction from the prohibitions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of the registered investment company concerned and with the general purposes of the Act.

12. Section 6(c) of the Act provides that the SEC may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provisions of the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.[3]

13. Applicants submit that the terms and conditions set forth herein are reasonable and fair and do not involve overreaching on the part of any person, that they are consistent with the policy of each of the Funds, that they are consistent with the general purposes of the Act, and that the requested exemption is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants' Conditions

Applicants agree that any order will be subject to the following conditions:

1. The funds will engage in transactions with Affiliated Banks only in Qualified Securities.

2. No Fund will engage in a transaction in Qualified Securities with an Affiliated Bank that is an investment adviser or sponsor to that Fund or an Affiliated Bank controlling, controlled by, or under common control with such investment adviser or sponsor. No Fund will purchase obligations of any Affiliated Bank (other than repurchase agreements) if, as a result, more than 5% of that Fund's total assets would be invested in obligations of that Affiliated Bank. No Fund will engage in transactions in Qualified Securities with an Affiliated Bank that exercises a controlling influence over that Fund (and "controlling influence" shall be deemed to include, but is not limited to, directly or indirectly, owning, controlling, or holding more than 25% of the outstanding voting securities of the Fund).

3. The Funds: (a) Will maintain and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in paragraphs (1) and (2) of this section; and (b) will maintain and preserve for a period of not less than six years from the end of the fiscal year in which transactions in Qualified Securities occurred, the first two years in an easily accessible place, a written record of each such transaction setting forth a description of the security purchased or sold, the identity of the person on the other side of the transaction, the terms of the purchase or sale transaction, and the information or material upon which the determinations described below were made.

4. The Qualified Security to be purchased or sold by a Fund will be consistent with the investment objectives and policies of that Fund as recited in the Fund's registration statement, and will be consistent with the interests of that Fund and its shareholders. Further, the security to be purchased or sold by that Fund will be comparable in terms of quality, yield, and maturity to other similar securities that are appropriate for that Fund and that are being purchased or sold during a comparable period of time.

5. The terms of the transaction will be reasonable and fair to the shareholders of that Fund and will not involve overreaching on the part of any person concerned. In considering whether the price to be paid or received for the security is reasonable and fair, the price of the security will be analyzed with respect to comparable transactions involving similar securities being purchased or sold during a comparable period of time. In making this analysis, the Governing Board may rely on a matrix pricing system which it believes properly assists it in determining the value of securities pursuant to section 2(a)(41) of the Act.

6. The commission, fee, spread, or other remuneration to be received by the Affiliated Bank as dealer will be reasonable and fair compared to the commission, fee, spread or other remuneration received by other brokers or dealers in connection with comparable transactions involving similar securities being purchased or sold during a comparable period of time, but in no event will such fee, commission, spread or other remuneration exceed that which is stated in section 17(e)(2) of the Act.

7. The Governing Board of each of the Funds: (a) Will adopt procedures, pursuant to which transactions in Qualified Securities may be effected for the Funds, which are reasonably designed to provide that the conditions in the foregoing paragraphs and the requirements of Investment Company Act Release No. 13005 (Feb. 2, 1983) have been complied with; (b) will make and approve such changes as the Governing Board deems necessary; and (c) will determine no less frequently than quarterly that transactions in Qualified Securities made during the preceding quarter were effected in compliance with those procedures. Those procedures will also be approved by a majority of the disinterested Trustees or Directors of the Funds. The investment adviser of each Fund will implement those procedures and make decisions necessary to meet these conditions, subject to the direction and control of the Governing Board of each Fund.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 95–22851 Filed 9–13–95; 8:45 am]

BILLING CODE 8010-01-M

---

[2] Section 17(e)(2) permits an affiliated broker of a registered investment company to receive compensation in connection with the sale of securities to or from the investment company under certain circumstances.

[3] Applicants seek relief under section 6(c) as well as section 17(b) because section 17(b) could be interpreted as giving the SEC power to exempt only a single transaction from section 17(a), as opposed to a class of transactions. See Keystone Custodian Funds, Inc., 21 S.E.C. 295 (1945).

[Release No. IC–21340; 812–8950]

Goldman Sachs Money Market Trust, et al.; Notice of Application

September 7, 1995.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for an order of exemption under the Investment Company Act of 1940 ("1940 Act").

APPLICANTS: Goldman Sachs Money Market Trust (formerly Goldman Sachs-Institutional Liquid Assets), Trust For Credit Unions, Goldman Sachs Equity Portfolios, Inc., Goldman Sachs Trust, Financial Square Trust and Paragon Portfolio (collectively, the "Funds") and Goldman Sachs Funds Management, L.P., Goldman Sachs Asset Management International and Goldman, Sachs & Co. (collectively, "Goldman Sachs"),[1] on

---

[1] The term "Goldman Sachs" refers to all entities controlling, controlled by or under common control with Goldman Sachs & Co. and which serve as

Continued

behalf of themselves and any other investment company for which Goldman Sachs may act as investment adviser (which term includes a sub-adviser), administrator and/or distributor in the future.[2]

RELEVANT 1940 ACT SECTIONS: Exemption requested under sections 6(c) and 17(b) from the provisions of sections 17(a)(1) and 17(a)(2) of the 1940 Act.

SUMMARY OF APPLICATIONS: Applicants seek a conditional order to let the Funds engage in purchase and sale transactions limited to certain types of high quality debt securities and repurchase agreements meeting the standards set forth in Condition 1 below ("Qualified Securities") with banks, bank holding companies and affiliates thereof that are "affiliated persons" of the Funds due solely to their owning, holding, or controlling a five percent or greater share interest in a Fund and/or acting as investment adviser to a Fund, except that no Fund will engage in such transactions with a bank, bank holding company, or an affiliate thereof that controls, advises or sponsors that Fund.

FILING DATES: The application was filed on April 22, 1994 and amended and restated on December 20, 1994, and May 25 and September 5, 1995.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving Applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 2, 1995, and should be accompanied by proof of service on the Applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street NW., Washington, D.C. 20549. Applicants, 85 Broad Street, New York, NY 10004.

FOR FURTHER INFORMATION CONTACT: H.R. Hallock, Jr., Special Counsel, at (202) 942–0564, or C. David Messman, Branch Chief, at (202) 942–0564 (Office of Investment Company Regulation, Division of Investment Management).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. Each of the Funds currently is organized as a business trust under Massachusetts law or as a corporation under Maryland law. Each of the Funds also has a currently effective registration statement under the 1940 Act and the Securities Act of 1933. Goldman Sachs serves as investment adviser, distributor and/or administrator to each Fund.

2. Several Funds are designed for institutional investors, particularly banks seeking investment of funds (frequently short-term monies) on behalf of accounts for which the banks act in an agency, trustee or other fiduciary capacity. Banks acting in such capacities normally purchase shares of the Funds through an omnibus or "master" account, and register such shares in the name of the bank or its nominee. In some cases, a bank may purchase Fund shares for its own account. Most of the institutionally oriented Funds are money market funds and short-term bond funds; as such the amount of a bank's holdings of shares therein can fluctuate significantly, even on a daily basis. From time to time, the number of shares of a Fund held by a bank may exceed five percent of a Fund's outstanding voting shares.

3. Applicants seek an exemption from sections 17 (a)(1) and (a)(2) to permit the Funds to engage in transactions in Qualified Securities with "Affiliated Banks." For purposes of the application, the term "Affiliated Banks" is defined to mean banks, bank holding companies and affiliated persons thereof that are affiliated persons of any of the Funds solely because they directly or indirectly own, control or hold five percent or more of the outstanding voting securities of any of the Funds, or act as investment adviser to any of the Funds.

Applicants' Legal Analysis

1. Sections 17(a)(1) and 17(a)(2) of the 1940 Act prohibit affiliated persons of the Funds, or affiliated persons of such affiliated persons, acting as principal, knowingly to sell or purchase any securities to or from the Funds. Section 2(a)(3) of the 1940 Act defines an "affiliated person" of another person as, among other persons: (A) Any person directly or indirectly owning, controlling, or holding with power to vote, five percent or more of the outstanding voting securities of such other person; (B) any person five percent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other person; (C) any person directly or indirectly controlling, controlled by or under common control with, such other person; (D) any officer, director, partner, copartner or employee of such other person; and (E) if such other person is an investment company, any investment adviser thereof.

2. By virtue of section 2(a)(3)(A), if a bank owns, controls or holds with power to vote five percent or more of the outstanding voting shares of one of the Funds, that bank could be considered an affiliated person of that Fund. In addition, that bank's holding company and affiliated persons thereof likewise may be deemed to be affiliated persons of an affiliated person of that Fund by virtue of section 2(a)(3)(C). Furthermore, any person who is an affiliated person of a registered investment company also may be deemed to be affiliated with each other registered investment company which has a common investment adviser, or investment advisers which are affiliated persons of each other, or common directors or common officers, or a combination of the foregoing, because such investment companies may be deemed to be under common control. Accordingly, a bank, bank holding company, or affiliated person thereof that is deemed to be an Affiliated Bank in respect of one Fund by virtue of its ownership of such Fund's shares may be deemed to be an affiliated person of an affiliated person of all the Funds. The result of the operation of these provisions is to prohibit all of the Funds from engaging in any principal transaction in securities, including repurchase agreements and U.S. government securities, with a wide range of banks, bank holding companies and affiliates thereof.

3. Section 17(b) of the 1940 Act provides that the SEC may exempt a transaction from the prohibitions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of the registered investment company concerned and with the general purposes of the 1940 Act. Section 6(c) of the 1940 Act provides that the SEC may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provisions of the 1940 Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.[3]

4. The Funds believe the applicability of sections 17(a)(1) and 17(a)(2) to transactions between the Funds and Affiliated Banks in Qualified Securities unreasonably reduces the range of available investment alternatives. The inability to effect transactions in Qualified Securities with Affiliated Banks deprives the Funds of the ability to purchase and sell portfolio securities that, absent the prohibitions of section 17(a), would be appropriate investments made under circumstances which do not involve a conflict of interest or other potential for abuse. Furthermore, the increasing involvement of banks (or affiliated persons thereof) in the markets for a variety of taxable and tax-exempt securities has increased the need for the Funds to be able to engage in transactions in Qualified Securities with Affiliated Banks.

5. Applicants believe that a bank, bank holding company or affiliated person thereof that is affiliated with a Fund solely because it owns, holds or controls five percent or more of a Fund's outstanding shares and/or acts as investment adviser to a Fund is unlikely to posses the power in fact to improperly influence a Fund with respect to purchases or sales by the Fund of securities from or to an Affiliated Bank. In this regard, as a condition to the relief requested, Applicants agree that no Fund will engage in transactions with an Affiliated Bank that serves as investment adviser (including sub-adviser) or sponsor to such Fund. Moreover, no Fund will engage in transactions in Qualified Securities with any Affiliated Bank which controls such Fund within the meaning of section 2(a)(9) of the 1940 Act. Applicants believe these conditions, in conjunction with the oversight to be provided, as a further condition to the relief requested, by the Boards of Directors/Trustees of the Funds, will preclude the possibility of overreaching by an Affiliated Bank. Applicants also submit that a limitation on the credit quality of the securities that may be purchased from an Affiliated Bank adequately addresses the concerns of section 17.

6. Goldman Sachs represents that there is no express or implied understanding between Goldman Sachs and any bank, bank holding company or affiliated person thereof which is (or may become) an Affiliated Bank of a Fund that Goldman Sachs will cause any of the Funds to enter into purchase or sale transactions in Qualified Securities with such entity. Moreover, Applicants represent that they will give no preference to any Affiliated Bank in effecting purchase of sale transactions between the Funds and an Affiliated Bank which involve Qualified Securities issued by or purchased from or sold to such Affiliated Bank or because the customers of such bank purchase shares of any of the Funds.

7. Applicants propose that the requested exemptive relief extend to include investment companies (and series thereof) for which Goldman Sachs does not act as investment adviser, but for which Goldman Sachs serves as distributor and/or administrator. As administrator, Goldman Sachs performs, assists in the performance of and/or supervises substantially all of various administrative services specified in the application on behalf of such investment company (or series thereof). Such services include, among others, assistance with the design, development and operation of a Fund, and the supervision of a Fund's custodian in the maintenance of the Fund's general ledger and in the preparation of the Fund's financial statements, including oversight of expense accruals and payments and of the determination of the net asset value of the Fund's assets and of the Fund's shares. Goldman Sachs also would develop uniform procedures and reports to allow each Fund's Board of Directors or Trustees to monitor compliance with the requirements of the 1940 Act, including compliance with section 17(a).

Applicants' Condition

If the requested order is granted, Applicants agree to the following conditions:

1. The Funds will engage in transactions with Affiliated Banks only in Qualified Securities. For purposes hereof, the term Qualified Securities is defined to mean:

(a) For obligations which have a remaining maturity of 397 days or less, each such security shall constitute an "Eligible Security" within the meaning of rule 2a–7; provided, that, in the case of Unrated Securities (as defined in rule 2a–7(a)(20)), in addition to the requirements of rule 2a–7 applicable to such Unrated Securities, all determinations with respect to the comparability of such securities to treated securities are also reviewed and approved at least quarterly by a majority of the Fund's Trustee/Directors who are not interested persons of the Fund.

(b) For obligations which have a remaining maturity of more than 397 days, each such security (or another long-term security of the same issuer having comparable priority and security to such obligation) shall have been rated by a nationally-recognized statistical rating organization ("NRSRO") in one of the four highest rating categories for long-term obligations; or, if the security and issuer have not been rated by any NRSRO, are determined by the Fund's investment adviser to be comparable in credit quality to a security carrying along-term rating in one of such four highest rating categories of a NRSRO, and such determination is reviewed and approved at least quarterly by a majority of such Fund's Directors/ Trustees who are not interested persons of the Fund.

(c) Any repurchase agreements will be collateralized fully within the meaning of rule 2a–7.

(d) For obligations subject to unconditional, irrevocable credit enhancement (including, without limitation, a guarantee, letter of credit or put), the Funds may rely upon the NRSRO ratings of the provider of such credit enhancement to determine whether the obligation satisfies the requirements of paragraphs (a) and (b) above. Such obligations shall be treated as rated securities to the extent that the credit enhancement is of comparable priority and security to the rated obligations of the provider of such credit enhancement.

2. No Fund will engage in any transaction in Qualified Securities with an Affiliated Bank that is an investment adviser or sponsor to that Fund or an Affiliated Bank controlling, controlled by, or under common control with such investment adviser or sponsor. No Fund will engage in transactions in Qualified Securities with an Affiliated Bank that exercises a controlling influence over that Fund (and "controlling influence" shall be deemed to include, but is not limited to, directly or indirectly, owning, controlling or holding more than 25 percent of the outstanding voting securities of the Fund). No Fund will purchase Qualified Securities of any Affiliated Bank (other than repurchase agreements) if, as a result, more than five percent of that Fund's total assets would be invested in Qualified Securities of that Affiliated Bank.

3. The Funds (a) will maintain and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in Condition 6 below, and (b) will maintain and preserve for

---

investment adviser, administrator and/or distributor to one or more existing or future registered investment companies.

[2] The term "Funds" includes such future registered investment companies.

[3] Applicants seek relief under section 6(c) as well as section 17(b) because section 17(b) could be interpreted as giving the SEC power to exempt only a single transaction from section 17(a), as opposed to a class of transactions.

a period of not less than six years from the end of the fiscal year in which any transactions with Affiliated Banks occurred, the first two years in an easily accessible place—a written record of each transaction in Qualified Securities setting forth a description of the security purchased or sold, the identify of the person on the other side of the transaction, the terms of the purchase or sale transaction and the information or materials upon which the determinations described below were made.

4. The Qualified Securities to be purchased or sold by a Fund will be consistent with the investment objectives and policies of that Fund as recited in the Fund's registration statement, and will be consistent with the interests of that Fund and its shareholders.

5. The terms of the transactions must be reasonable and fair to the shareholders of that Fund and cannot involve overreaching of that Fund or its shareholders on the part of any person concerned. In considering whether the price to be paid or received for a Qualified Security is reasonable and fair, the price of the security will be analyzed with respect to comparable transactions involving similar securities being purchased or sold during a comparable period of time. A Qualified Security to be purchased or sold by that Fund must be comparable in terms of quality, yield and maturity to other similar securities that are appropriate for that Fund and that are being purchased or sold during a comparable period of time. In making this analysis, the Board of Trustees/Directors may rely on a matrix pricing system which they believe properly assists them in determining the value of securities pursuant to section 2(a)(41) of the 1940 Act.

6. The Board of Trustees/Directors of each of the Funds (including at least a majority of the disinterested members) will (a) adopt procedures, pursuant to which transactions in Qualified Securities may be effected for the Funds, which are reasonably designated to provide that all the requirements of Conditions 1 through 5 above and the requirements of Investment Company Act Release No. 13005 (Feb. 2, 1983) have been complied with, (b) review no less frequently than annually such procedures for their continuing appropriateness, and (c) determine no less frequently than quarterly that such transactions in Qualified Securities made during the preceding quarter were effected in compliance with such procedures. The investment adviser (or sub-adviser if Goldman Sachs is the sub-adviser) of each Fund will implement these procedures and make decisions necessary to meet these conditions, subject to the direction and control of the Board of Trustees/Directors of each Fund.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 95–22803 Filed 9–13–95; 8:45 am]

BILLING CODE 8010-01-M

Issuer Delisting; Notice of Application to Withdraw From Listing and Registration; (Handleman Company, Common Stock $(0.01 Par Value) No. 1–7923

September 8, 1995.

Handleman Company ("Company") has filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2–2(d) promulgated thereunder, to withdraw the above specified securities ("Securities") from listing and registration on the Chicago Stock Exchange, Incorporated ("CHX") and the Pacific Stock Exchange Incorporated ("PSE").

The reasons alleged in the application for withdrawing the Securities from listing and registration include the following:

According to the Company, the Executive Committee of the Board of Directors of the Company ("Committee"), pursuant to lawfully delegated authority, unanimously approved a resolution on April 26, 1995 to withdraw the Security's listing on the CHX and the PSE and to maintain its listing and registration on the New York Stock Exchange, Inc. ("NYSE"). The decision of the Committee followed a study of the matter, and was based upon the belief that the listings on the CHX and the PSE were no longer beneficial to the Company because: (1) Listing the Security on the CHX, the PSE, and the NYSE was no longer cost effective in light of the low annual trading volume of the Security on the CHX and the PSE; (2) the presence of a substantial national and liquid market for the Security on the NYSE; and (3) the continuing need for the Company to reduce the costs of doing business in the current competitive environment in which the Company operates.

Any interested person may, on or before September 29, 1995 submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the exchanges and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC–21343; No. 812–9594]

Hartford Life Insurance Company, et al.

September 8, 1995.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of application for an order under the Investment Company Act of 1940 ("1940 Act").

APPLICANTS: Hartford Life Insurance Company ("Hartford"), Hartford Life Insurance Company–ICMG Secular Trust Separate Account ("Separate Account"), and Hartford Equity Sales Company, Inc. ("HESCO").

RELEVANT 1940 ACT SECTIONS: Order requested under Section 6(c) of the 1940 Act granting exemptions from the provisions of Sections 26(a)(2)(C) and 27(c)(2) of the 1940 Act.

SUMMARY OF APPLICATION: Applicants seek an order to permit the deduction of a mortality and expense risk charge from the assets of the Separate Account or any other separate account ("Other Accounts") established by Hartford to support certain group flexible premium deferred annuity contracts and individual certificates thereunder ("Contracts") as well as other variable annuity contracts that are substantially similar in all material respects to the Contracts ("Future Contracts"). In addition, Applicants propose that the order extend the same exemptions granted to HESCO to any other broker-dealer that may in the future serve as principal underwriter for the Contracts or Future Contracts. Any such broker-dealer will be registered under the Securities Exchange Act of 1934 as a broker-dealer and will be a member of the National Association of Securities Dealers, Inc. ("NASD").

FILING DATE: The application was filed on May 11, 1995, and amended on August 10, 1995 and September 5, 1995.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving Applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on September 27, 1995, and should be accompanied by proof of service on Applicants in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the requester's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the Secretary of the SEC.

ADDRESSES: Secretary, Securities and Exchange Commission, 450 5th Street NW., Washington, DC 20549. Applicants, Scott K. Richardson, Esq., ITT Hartford Life Insurance Companies, 200 Hopmeadow Street, Simsbury, CT 06070.

FOR FURTHER INFORMATION CONTACT: Pamela K. Ellis, Senior Counsel, or Wendy Finck Friedlander, Deputy Chief, both at (202) 942–0670, Office of Insurance Products (Division of Investment Management).

SUPPLEMENTARY INFORMATION: Following is a summary of the application; the complete application is available for a fee from the SEC's Public Reference Branch.

Applicants' Representations

1. Hartford, a stock life insurance company, is organized in Connecticut and licensed to do business in all states of the United States and in the District of Columbia.

2. The Separate Account is a separate account established by Hartford to fund the Contracts. The Separate Account is registered with the Commission as a unit investment trust under the 1940 Act, and interests in the Contracts are registered as securities under the Securities Act of 1933.

3. Hartford has established for each investment option offered under the Contract a Separate Account subaccount ("Subaccount"), which will invest solely in a specific corresponding portfolio of certain designated investment companies ("Funds"). The Funds will be registered under the 1940 Act as open-end management investment companies. Each portfolio of the Funds will have separate investment objectives and policies.

4. HESCO will serve as the principal underwriter of the Contracts. HESCO, a wholly-owned subsidiary of Hartford, is registered under the 1934 Act as a broker-dealer and is a member of the NASD.

5. The Contracts are tax-deferred individually allocated group flexible premium deferred annuity contracts, and are offered to employee-participants of nonqualified deferred compensation and supplemental executive retirement plans. The Contacts may be purchased with an initial premium payment of $1,000. The minimum subsequent premium payment for the Contracts is $1000 (certain plans may permit smaller initial and subsequent periodic premium payments). Net premium payments may be allocated to one or more of the Separate Account Subaccounts that have been established to support the Contracts.

6. The Contracts provide for a series of annuity payments beginning on the annuity date. The Contract owner may select from several annuity payout options.

7. The Contracts provide for a death benefit if the annuitant dies during the accumulation period or prior to the annuitant or Contract owner attaining age 85. The death benefit is the greater of: (1) the Contract value as determined on the date of receipt of due proof of death by Hartford; or (2) 100% of all premium payments made by the Contract owner under the Contract reduced by the amount of any partial withdrawals.

8. Certain charges and fees are assessed under the Contracts. Hartford will deduct an administration charge from a Contract owner's account value to reimburse it for expenses relating to the administration and maintenance of the Contract and for administration of the Separate Account. The Contract provides for an administrative expense charge of $2.50 to be deducted from account value on the commencement date of the Contract and monthly thereafter. The deduction will be made pro rata according to the value in each Subaccount under a Contract.

9. Applicants represent that the administration charge will not increase during the life of the Contracts. In addition, Applicants represent that these charges are at cost with no anticipation of profit.

10. A maximum front-end sales charge of 4.6% of premium payments, will be imposed for expenses related to the sales and distribution of the Contracts. Applicants state that the front-end sales charge will not increase during the life of the Contracts.

11. Hartford proposes to deduct a daily mortality and expense risk charge. Hartford represents that this charge is equal to an effective annual rate of .65% of the net asset value of the Separate Account, and that it will not increase. Of this amount, approximately .45% is for mortality risks and .20% is for expense risks.

12. Hartford assumes the mortality risk that the life expectancy of the annuitant will be greater than that assumed in the guaranteed annuity purchase rates, thus requiring Hartford to pay out more in annuity income than it had planned. In addition, Hartford is contractually obligated to provide a death benefit prior to the annuity date. Thus, Hartford assumes the risk that the owner may die at a time when the amount of the death benefit payable exceeds the then net surrender value of the Contracts. The expense risk assumed by Hartford is that the contract administration charge will be insufficient to cover the cost of administering the Contracts.

13. In the event the mortality and expense risk charges are more than sufficient to cover Hartford's costs and expenses, any excess will be a profit to Hartford.

14. Should the owner live in a jurisdiction that levies a premium tax, Hartford will pay the taxes when due. Hartford represents that state premium taxes may range up to 4.0% of premium payments and are subject to change. Hartford will deduct premium taxes when they are paid.

15. In addition Hartford will deduct a current charge of .43% of each premium payment for the federal tax cost resulting from Section 848 of the Internal Revenue Code. This charge may be increased or decreased to reflect changes in federal tax laws.

Applicants' Legal Analysis

1. Section 6(c) of the 1940 Act authorizes the Commission, by order upon application, to conditionally or unconditionally grant an exemption from any provision, rule or regulation of the 1940 Act to the extent that the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

2. Sections 26(a)(2)(C) and 27(c)(2) of the 1940 Act, in relevant part, prohibit a registered unit investment trust, its depositor or principal underwriter, from selling periodic payment plan certificates unless the proceeds of all payments, other than sales loads, are deposited with a qualified bank and held under arrangements which prohibit

any payment to the depositor or principal underwriter except a reasonable fee, as the Commission may prescribe, for performing bookkeeping and other administrative duties normally performed by the bank itself.

3. Applicants request exemptions from Sections 26(a)(2)(C) and 27(c)(2) of the 1940 Act to the extent necessary to permit the deduction from the net assets of the Separate Account and the Other Accounts in connection with the Contracts and Future Contracts of the .65% charge for the assumption of mortality and expense risks. In addition, Applicants request that the order extend the same exemptions granted to HESCO to any other broker-dealer that may in the future serve as principal underwriter for the Contracts or Future Contracts.

4. Applicants assert that the terms of the relief requested with respect to any Future Contracts funded by the Separate Account or Other Accounts are consistent with the standards enumerated in Section 6(c) of the 1940 Act. Without the requested relief, Applicants would have to request and obtain exemptive relief for each new Other Account it establishes to fund any Future Contract, as well as for each Future Broker-Dealer that distributes the Contract or Future Contracts. Applicants submit that any such additional request for exemption would present no issues under the 1940 Act that have not already been addressed in this application, and that investors would not receive any benefit or additional protections thereby.

Applicants submit that the requested relief is appropriate in the public interest because it would promote competitiveness in the variable annuity contract market by eliminating the need for Applicants to file redundant exemptive applications, thereby reducing their administrative expenses and maximizing the efficient use of their resources. The delay and expense involved in having repeatedly to seek exemptive relief would reduce Applicants' ability effectively to take advantage of business opportunities as they arise.

Applicants further submit that the requested relief is consistent with the purposes of the 1940 Act and the protection of investors for the same reasons. Applicants thus assert that the requested exemptions are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

5. Applicants represent that the .65% per annum mortality and expense risk charge is within the range of industry practice for comparable annuity contracts. This representation is based upon an analysis of publicly available information about similar industry products, taking into consideration such factors as the current charge levels and benefits provided, the existence of expense charge guarantees, and guaranteed annuity rates. Hartford will maintain at its principal offices, available to the Commission, a memorandum setting forth in detail the products analyzed in the course of, and the methodology and results of, Applicants' comparative review. In addition, Applicants will keep, and make available to the Commission, a memorandum setting forth the basis for the same representations with respect to the Future Contracts offered by the Separate Account or Other Accounts.

6. Hartford has concluded that there is a reasonable likelihood that the Separate Accounts and Other Accounts' proposed distribution financing arrangements will benefit the Separate Accounts and their investors. Hartford represents that it will maintain and make available to the Commission upon request a memorandum setting forth the basis of such conclusion.

7. The Separate Accounts and Other Account will be invested only in management investment companies that undertake, in the event the company should adopt a plan for financing distribution expenses pursuant to Rule 12b–1 under the 1940 Act, to have such plan formulated and approved by the company's board members, the majority of whom are not "interested persons" of the management investment company within the meaning of Section 2(a)(19) of the 1940 Act.

Conclusion

For the reasons set forth above, Applicants represent that the exemptions requested are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 95–22849 Filed 9–12–95; 8:45 am]

BILLING CODE 8010–01–M

Issuer Delisting; Notice of Application To Withdraw From Listing and Registration; (Larson-Davis Incorporated, Common Stock, $0.001 Par Value) File No. 1–10013

September 8, 1995.

Larson-Davis Incorporated ("Company") has filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2–2(d) promulgated thereunder, to withdraw the above specified security ("Security") from listing and registration on the Boston Stock Exchange, Inc. ("BSE").

The reasons alleged in the application for withdrawing the Security from listing and registration include the following:

According to the Company, the Security is currently listed on the Small Cap Market of Nasdaq under the symbol "LDII", and the principal trading activity in the Security occurs in the over-the-counter market of Nasdaq. The Company wishes to withdraw the Security from listing on the BSE in order to consolidate the trading in the Security in a single trading market.

Any interested person may, on or before September 29, 1995, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the BSE and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 95–22847 Filed 9–13–95; 8:45 am]

BILLING CODE 8010–01–M

Issuer Delisting; Notice of Application To Withdraw From Listing and Registration; (Package Machinery Company, Common Stock, $1.00 Par Value) File No. 1–9675

September 8, 1995.

Package Machinery Company ("Company") has filed an application with the Securities and Exchange Commission ("Commission"), pursuant

to Section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2–2(d) promulgated thereunder, to withdraw the above specified security ("Security") from listing and registration on the Boston Stock Exchange, Inc. ("BSE").

The reasons alleged in the application for withdrawing the Security from listing and registration include the following:

According to the Company, the Company believes that the continued listing and registration of the Security is not consistent with its status as a company in the process of liquidation and, further, the costs associated therewith outweigh the benefits thereof to both the Company and its shareholders. On February 7, 1995, the shareholders of the Company approved a plan of dissolution and liquidation of the Company. As a result, the Company is currently in the process of selling its remaining businesses, liquidating its assets, and paying its liabilities. In addition, the Company recently completed an odd-lot tender offer to purchase all of the shares of the Security held by shareholders who owned less than 100 shares of the Security. This resulted in the reduction of the number of shareholders of record of the Company to approximately 267 shareholders as of September 1, 1995. Based upon the foregoing, the Company believes it is in the best interest of the Company and its shareholders to withdraw the Security from listing and registration under the Act.

Any interested person may, on or before September 29, 1995, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the exchanges and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010–01–M

[Release No. 35–26370]

Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

September 8, 1995.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by October 2, 1995, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Central Power and Light Company (70–7572)

Central Power and Light Company ("CPL"), 539 N. Carancahua Street, Corpus Christi, Texas 78401–2431, an electric utility subsidiary company of Central and South West Corporation, a registered holding company, has filed a post-effective amendment to its application under sections 9(a) and 10 of the Act and rule 54 thereunder.

By order dated April 13, 1989 (HCAR No. 24863), ("1989 Order"), the Commission authorized CPL to lease to nonaffiliated third parties: (1) Approximately 23,400 square feet of excess space on the first two floors of its corporate headquarters building ("Headquarters Building"); (2) approximately 17,800 square feet of excess space on the third and fourth floors, in the basement and on the roof of the Headquarters Building; and (3) space in one of its former office buildings ("Other Building") pending eventual sale of the Other Building.

CPL now requests authority to lease any existing or future excess space in the Headquarters Building to unaffiliated third parties at what CPL considers to be market rates for such space at the time of entering such leases. CPL also requests authority to lease several of its other rentable properties or portions thereof ("other Properties") to unaffiliated third parties until such properties are sold or are again put into use by CPL at what CPL considers to be market rates for the Other Properties at the time of entering such leases. The Other Properties shall include the following types of properties: (1) Area or regional offices, which typically consist of less than 10,000 square feet; (2) service centers which include office and warehouse facilities and which typically consist of less than 20,000 square feet; (3) district or regional offices, which typically consist of less than 20,000 square feet; (4) excess capacity in CPL training facilities; miscellaneous facilities which are being held for future use or sale and which typically consist of less than 10,000 square feet; and (5) other improved and unimproved land. All rental payments from nonaffiliated third parties for excess space in the Headquarters Building and the Other Properties are, and in the future will be, accounted for as rent from property devoted to electric operations.

Jersey Central Power & Light Company, et al. (70–7862)

Jersey Central Power & Light Company ("JCP&L"), 300 Madison Avenue, Morristown, New Jersey 07460, Metropolitan Edison Company ("Met-Ed") and Pennsylvania Electric Company ("Penelec"), 2800 Pottsville Pike, Reading, Pennsylvania 19605 (collectively, "GPU Companies"), electric utility subsidiaries of General Public Utilities Corporation, a registered holding company, have filed a post-effective amendment to their application under sections 9(a) and 10 of the Act and rule 54 thereunder.

By order dated August 15, 1991 (HCAR No. 25361), ("1991 Order"), the Commission, among other things, authorized JCP&L, Met-Ed and Penelec to enter into separate fuel lease agreements and to establish related financing arrangements to provide for the acquisition of nuclear fuel and certain related services for the Three Mile Island Unit 1 nuclear generating station ("TMI–1") and the Oyster Creek nuclear generating station ("Oyster Creek"). The GPU Companies jointly own TMI–1 in the following percentages: Met-Ed—50%; JCP&L—

25%; and Penelec—25%. JCP&L owns a 100% interest in Oyster Creek. TMI–1 and Oyster Creek are operated and maintained on behalf of the GPU Companies by GPU Nuclear Corporation, a subsidiary of GPU.

Pursuant to the 1991 Order, a nuclear fuel trust ("Fuel Trust") was established in accordance with a trust agreement under which United States Trust Company of New York acts as trustee. The Fuel Trust is the sole stockholder of two nonaffiliated Delaware corporations, TMI–1 Fuel Corporation and Oyster Creek Fuel Corporation (collectively, "Fuel Companies") which own certain nuclear fuel assemblies and component parts ("Nuclear Material") for use at TMI–1 and Oyster Creek, respectively. The GPU Companies have entered into separate lease agreements ("1991 Lease Agreements") by which TMI–1 Fuel Corporation leases Nuclear Material for TMI–1 to the GPU Companies in proportion to their respective undivided ownership interests in TMI–1, and Oyster Creek Fuel Corporation leases Nuclear Material for Oyster Creek to JCP&L. In connection with the 1991 Lease Agreements, The Prudential Life Insurance Company of America and certain of its affiliates entered into lending agreements to provide for borrowings by the Fuel Companies of up to a total of $250 million to finance the acquisition costs of Nuclear Material under such lease agreements.

The GPU Companies now propose to enter into an agreement ("Agreement") with Union Bank of Switzerland, New York Branch ("UBS" or "Agent") for UBS to provide a new credit facility ("Facility"), which would provide for borrowings of up to $210 million by the Fuel Companies from UBS and other lenders for which UBS would act as Agent (collectively, "Lenders"). The Fuel Companies will enter into one or more Facilities providing for aggregate borrowings of up to $210 million and under which: (1) letters of credit ("LC's") would be issued by UBS, as Agent, to provide credit enhancement for commercial paper to be issued by the Fuel Companies and (2) revolving credit loans would be made by the Lenders to the Fuel Companies. In addition, the 1991 Lease Agreements would be amended and/or restated in certain respects consistent with the establishment of the Facilities.

Under the Facility, the Fuel Companies would issue and sell their commercial paper from time-to-time to finance acquisition costs of Nuclear Material. To reduce borrowing costs, the Fuel Companies' commercial paper credit would be enhanced through the issuance by UBS of LC's in an aggregate face amount of up to $210 million outstanding at any time, subject to the following sublimits: (1) JCP&L—$127.5 million; (2) MetEd—$55 million and (3) Penelec—$27.5 million. The commercial paper would be evidenced by commercial paper notes ("CP Notes"). Under the Agreement, the Fuel Companies would enter into separate credit agreements ("New Credit Agreements") pursuant to which the Agent would issue its LC's and each Fuel Company would agree to reimburse the Lenders for related drawings.

The Fuel Companies would also be entitled to borrow directly under the Facility in lieu of issuing CP Notes. To evidence its obligations to repay direct borrowings, each Fuel Company will issue and sell to the Lenders its promissory notes ("New Notes"). The aggregate principal amount of New Notes outstanding at any time would not exceed the lesser of: (1) $210 million less the outstanding principal amount of CP Notes and (2) the Stipulated Casualty Value of all Nuclear Material, as defined in the 1991 Lease Agreements, under lease at such time, less the outstanding principal amount of CP Notes. The Facility would have an initial term of three years, renewable on the first anniversary and on each anniversary thereafter.

The New Notes would be secured on the same basis as the existing notes issued in connection with the 1991 Lease Agreements and would bear interest at either an Alternative Base Rate or a Eurodollar Rate. The Alternative Base Rate is a fluctuating annual rate equal to the higher of: (1) The Agent's publicly announced prime rate and (2) 50 basis points above the rate on overnight federal funds transactions with members of the Federal Reserve System arranged by Federal funds brokers. Eurodollar Rate Notes would bear interest at the Eurodollar Rate plus the Applicable Margin, as defined, and would be fixed at the Fuel Company's option for interest periods of 1, 2, 3 or 6 months. The Eurodollar Rate is defined as the annual interest rate for deposits in U.S. dollars as reported in the Dow Jones Telerate system or if such rate is not reported, at the LIBOR rate, in each case for the two business day period prior to the interest period. The Applicable Margin would range from 27.5 to 65 basis points depending on the GPU Company's senior secured long-term debt ratings.

Central Power & Light Co. (70–8677)

Central Power and Light Company ("CP&L"), 539 No. Carancahua St., Corpus Christi, Texas 78401, a wholly-owned electric utility subsidiary company of Central and South West Corporation, 1616 Woodall Rodgers Freeway, P.O. Box 660164, Dallas, Texas 75266–0164, a registered holding company, has filed an application-declaration under sections 6(a), 7, 9(a), 10 and 12(d) of the Act and rules 44 and 54 thereunder.

CP&L seeks authorization through December 31, 1998, to incur obligations in connection with the proposed issuance by Nueces County Navigation District No. 1 ("Nueces") and/or Guadalupe-Blanco River Authority, Texas ("Guadalupe") in one or more series of up to $95,000,000 aggregate principal amount of Pollution Control Revenue Bonds. Of this amount, up to $45,000,000 may be Pollution Control Revenue Refunding Bonds ("Refunding Bonds") and up to $50,000,000 may be new money Revenue Bonds ("New Money Bonds"). The issuance by Neuces and Guadalupe ("Issuers") of New Money Bonds and Refunding Bonds (collectively, "New Bonds") may be combined.

The purpose of the Refunding Bonds is to reacquire all or a portion of four previously issued Pollution Control Revenue Bonds ("Old Bonds"). The purpose of the New Money Bonds is to reimburse CP&L for expenditures that qualify for tax-exempt financing or to provide for current solid waste expenditures.

CP&L also seeks authority to manage interest rate risk or lower its interest rate costs on any variable rate New Bond through the issue of caps, floors, and collars during the life of the New Bonds.

The Old Bonds were issued to finance the acquisition and improvements of air and water pollution control facilities at two plants—the Barney M. Davis Power Station and the Coleto Creek generating plant—operated by CP&L. The Old Bonds were issued pursuant to Indentures of Trust ("Indentures") with two banks as trustees, NationsBank of Texas, N.A. and Texas Commerce Bank—Dallas, N.A. ("Trustees"), and had the following terms:

Series	Interest rate	Maturity date	First redemption date
1974A	7⅛%	6/1/04	6/1/84
1974B	7⅛%	6/1/04	6/1/84
1977	6%	11/1/07	11/1/87
1977A	6%	11/1/07	11/1/87

CP&L and the Issuers entered into installment sales agreements ("Sale Agreements") for the issuance of the Old Bonds. In connection with the issuance of the New Bonds, CP&L will

amend the Sale Agreements, enter into agreements with substantially the same terms, and/or enter into new installment sale agreements (collectively, "Amended Sale Agreements").

The New Bonds will bear a fixed or floating interest rate, may be secured with First Mortgage Bonds, and will mature in not more than forty years. The interest rate, redemptions provision and other terms applicable to the New Bonds will be determined in negotiations between CP&L and one or more investment banking firms that will purchase or underwrite ("Purchasers") the New Bonds.

CP&L anticipates that the New Bonds will be redeemable at its option upon the occurrence of various events specified in the Amended Sale Agreements and the Indentures, which might be amended or supplemented ("Supplemental Indentures"), or a new indenture ("New Indenture"). The New Bonds will be subject to optional redemption with premiums to be determined by negotiations between CP&L and the Purchasers, and will be subject to mandatory redemption if the interest on the New Bonds becomes subject to federal income tax.

CP&L may obtain a credit enhancement for the New Bonds, which would include bond insurance, a letter of credit or a liquidity facility. CP&L anticipates it may be required to provide credit enhancement if it issues floating rate bonds. A premium or fee would be paid for the credit enhancement, which would still result in a net benefit through a reduced interest rate on the New Bonds. CP&L will not provide credit enhancement unless it is economically beneficial.

CP&L also seeks authority to issue First Mortgage Bonds as security for the New Bonds, subject to applicable indenture restrictions under a Supplemental Indenture to its Mortgage Indenture dated November 1, 1943 to the First National Bank of Chicago and A.H. Bohm ("Mortgage Indenture"). The First Mortgage Bonds will be held by the Trustee for the New Bonds for the benefit of the New Bonds holders and will not be transferable, except to a successor trustee. The First Mortgage Bonds will be issued in the exact amount and with substantially the same terms as the New Bonds. To the extent payments in respect of the New Bonds are made in accordance with their terms, corresponding payment obligations under the First Mortgage Bonds will be deemed satisfied.

The redemption, sinking fund, and dividend provisions of the First Mortgage Bonds may deviate from the Statement of Policy Regarding First Mortgage Bonds. CP&L anticipates that the New Bonds will be sold by the Issuers pursuant to a Bond Purchase Agreement ("Purchase Agreement") between the Issuers and one or more Purchasers.

The proceeds of the New Bonds will be used to redeem the Old Bonds pursuant to the terms of the Indentures ("Redemption") and reimburse CP&L for expenditures made that qualify for tax-exempt financing or to provide for current solid waste expenditures. The proceeds of any offering also may be used to reimburse CP&L for Old Bonds previously acquired. Additional funds required to pay for the Redemption and the costs of issuance of the New Bonds will be provided by CP&L from internally generated funds and short-term borrowings.

CP&L believes that the Redemption of the Old Bonds and the issuance of floating rate Refunding Bonds could result in substantial savings and benefit ratepayers. Whether or not net present value savings are available, CP&L proposes to refund the Series 1974A and the Series 1977 Bonds to eliminate the sinking fund requirement so that the current amount of tax-exempt bonds outstanding will be maintained. CP&L also proposes to refund the Series 1974B and the Series 1977A Bonds to achieve savings from consolidating several series of bonds into one or two series.

New England Electric System, et al. (70–8679)

New England Electric System ("NEES"), a registered holding company, and its subsidiary companies, Massachusetts Electric Company ("Mass. Electric"), New England Electric Transmission Corporation ("NEET"), Narragansett Energy Resources Company ("NERC"), New England Energy Incorporated ("NEEI"), New England Hydro-Transmission Electric Company, Inc. ("Mass. Hydro"), New England Hydro-Transmission Corporation ("NH Hydro"), New England Power Company ("NEP"), and New England Power Service Company ("NEPSCO"), all of 25 Research Drive, Westborough, Massachusetts 01582, Granite State Electric Company, 33 West Lebanon Road, Lebanon, New Hampshire 03766, and The Narragansett Electric Company ("Narragansett"), 280 Melrose Street, Providence, Rhode Island 02901, (collectively, "Applicants") have filed an application-declaration under sections 6(a), 7, 9(a), 10, and 12(b) of the Act and rules 43 and 45 thereunder.

The subsidiaries noted below ("Borrowing Companies") propose, from November 1, 1995 to October 31, 1997, to borrow from the NEES intrasystem money pool ("Money Pool") and/or banks, and/or, in the case of Mass. Electric, Narragansett, and NEP, through the issuance of commercial paper up to the following amounts:

Granite	$10,000,000
Mass. Electric	150,000,000
Narragansett	100,000,000
NEET	10,000,000
Mass. Hydro	25,000,000
NH Hydro	25,000,000
NEP	375,000,000
NEPSCO	25,000,000
Total	720,000,000

The proceeds from the borrowings will be used: (i) to pay outstanding notes to banks and/or commercial paper dealers and/or borrowings from the Money Pool; (ii) to provide new money, and/or to reimburse the treasury, for capital expenditures; and (iii) for other corporate purposes relating to ordinary business operations, including working capital and the financing of construction and property acquisitions.

Applicants request authority to lend to the Money Pool from surplus funds that may be available in their treasuries. Loans by the Money Pool to the Borrowing Companies may or may not be evidenced by notes. The interest rate for such loans will be 108% of the monthly average of the rate for high grade 30-day commercial paper sold through dealers by major corporations as published in the Wall Street Journal. Although there are no stated maturities, Money Pool loans are payable on demand and may be prepaid without penalty.

Applicants state that bank loans will be evidenced by notes maturing less than one year from date of issuance, with a negotiated interest rate. Fees will be paid to the banks in lieu of compensating balance arrangements. The effective interest cost of bank loans will not exceed the greater of the bank's base or prime lending rate or the rate published in the Wall Street Journal as the high federal funds rate, plus, in either case, one percent. Some bank borrowings may be without prepayment privileges. Payment of any short-term promissory notes prior to maturity will be made on the basis most favorable to the Borrowing Companies, taking into account fixed maturities, interest rates, and any other relevant financial considerations.

Mass. Electric, Narragansett, and NEP also propose to issue and sell commercial paper to one or more nationally recognized commercial paper dealers ("CP Dealer"). Initially, the CP Dealer will be CS First Boston

Corporation and/or Merrill Lynch Money Markets Incorporated.

The effective interest cost to the issuer of commercial paper will generally not exceed the effective interest cost of the base lending rate at the First National Bank of Boston. However, the effective interest cost of such paper is based on the supply of, and demand for, that and similar paper at the time of sale, and interest costs have from time to time exceeded bank base rates. While it is not anticipated that the effective annual cost of borrowing through commercial paper will exceed the annual base rate borrowing from the First National Bank of Boston, commercial paper may be issued with a maturity of not more than 90 days with an effective cost in excess of the then-existing lending rate.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Dynamic Testing of Seats

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public meeting.

SUMMARY: This notice announces a public meeting which is being held by the Federal Aviation Administration (FAA) to present its views and hear comments from the public concerning issues relating to dynamic testing of seats in transport category airplanes.

DATES: The meeting will be held in Seattle, Washington, on October 23 and 24, 1995, beginning at 8:30 a.m.

REGISTRATION: Registration will begin at approximately 7:30 a.m. on Monday, October 23. Persons planning to attend the meeting are encouraged to pre-register by contacting the person identified later in this notice as the contact for further information.

ADDRESSES: The meeting will be held at the Red Lion Hotel Seattle Airport, 18740 Pacific Highway South, Seattle, WA 98188, telephone (206) 246–8600. A block of guest rooms has been reserved for the meeting at the Red Lion Hotel at a group rate. This block of rooms will be held until September 25. Persons planning on attending the meeting should contact the hotel directly for reservations and identify themselves as participants in the FAA public meeting on dynamic testing of seats to ensure proper credit.

FOR FURTHER INFORMATION CONTACT: Jeff Gardin, FAA, Regulations Branch, ANM–114, Transport Airplane Directorate, Aircraft Certification Service, 1601 Lind Avenue SW., Renton, WA 98055–4056; telephone (206) 227–2136; facsimile (206) 227–1320; Internet: Jeff Gardin at ANM100@mail.hq.faa.gov.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to present information to the public regarding certain aspects of the dynamic test requirements for seats, and to hear comments from the general public on the current 16g seat dynamic test regulatory and compliance issues.

The agenda for the meeting will include:

Day One:
- Background on development of the regulation.
- Implementation of the regulation into certification bases
- Summary of recent guidance issued
- Head Injury Criterion compliance
- Status of revision to the advisory circular

Day Two:
- Input from the public

Participation at the Meeting

Requests from persons who wish to present oral statements at the public meeting should be received by the FAA no later than October 2, 1995. Such requests should be submitted to Jeff Gardin, as listed under the heading **FOR FURTHER INFORMATION CONTACT**, and should include a written summary of oral remarks to be presented, as well as an estimate of time needed for the presentation. Requests received after the date specified above will be considered and may be scheduled, time permitting, during the meeting. The FAA will prepare an agenda of speakers who will be available at the meeting. Every effort will be made to accommodate as many speakers as possible in the time allotted.

Meeting Procedures

The following procedures are established to facilitate the meeting:

(1) Attendance is open to the public, but will be limited to the space available.

(2) There will be no admission fee or other charge to attend or participate in the meeting. The opportunity to speak will be available to all persons, subject to availability of time.

(3) The meeting is designed to provide information to, and hear comments from, the public concerning issues related to the dynamic test requirements for seats. The meeting will be conducted in an informal and nonadversarial manner; however, the FAA may ask questions to clarify a statement and to ensure a complete and accurate record.

(4) Representatives of the FAA will preside over the meeting. A panel of FAA personnel involved in this issue will be present.

(5) Statements made by members of the meeting panel are intended to facilitate discussion of the issues or to clarify issues and, unless stated as such, should not necessarily be construed as a position of the FAA.

(6) An individual, whether speaking in person or in a representative capacity on behalf of an organization, may be limited to as 10-minute statement. If possible, additional time may be allotted, if available.

(7) The FAA will try to accommodate all questions, time permitting. However, the FAA reserves the right to exclude some questions, if necessary, to present a balance of viewpoints and issues.

(8) The FAA will review and consider all material presented by participants at the meeting. Participants are requested to provide 10 copies of all materials to be presented, for distribution to the panel members; other copies may be provided to the audience at the discretion of the participant.

(9) The meeting will be recorded by a court reporter. A transcript of the meeting and any material accepted by the panel during the meeting will be made a part of the official record. Any person interested in purchasing a copy of the transcript should contact the court reporter directly at the meeting.

Issued in Renton, WA on September 7, 1995.

Donald L. Riggin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service, ANM–100.

BILLING CODE 4910-13-M

National Highway Traffic Safety Administration

Safety Performance Standards Meeting

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of public meeting.

SUMMARY: This notice announces a public meeting at which NHTSA will discuss its decisions concerning motor vehicle regulatory reform.

DATES: Following the Agency's regular, quarterly public meeting relating to the agency's safety performance standards, which will be held on September 22,

1995 beginning at 9:30 a.m. and ending at approximately 12:30 p.m., NHTSA will discuss its motor vehicle regulatory reform initiatives and its response to public comments on this subject. This latter discussion will be held immediately after the regular quarterly meeting, beginning after lunch at 1:30 p.m.

ADDRESSES: The meeting will be held at the Holiday Inn Capitol, 550 C Street, SW, (Columbia North Room), Washington, DC 20024.

SUPPLEMENTARY INFORMATION: The motor vehicle regulatory reform meeting is a follow-up to NHTSA's March 29, 1995 meeting on regulatory reform held in conjunction with the agency's previous quarterly technical meeting, and to the agency's April 4, 1995 meeting in Washington, D.C., at which NHTSA sought information from the public on regulatory reform actions the agency should take related to its motor vehicle regulations. These were in conjunction with President Clinton's call for a new approach to the way Government regulates the private sector, and his request that Executive Branch agencies report to him by June 1, 1995 on ways to improve the regulatory process. NHTSA will discuss how the agency has handled the public comments and the next actions to implement its motor vehicle regulatory reform decisions.

A transcript will be available for public inspection in the NHTSA Technical Reference Section in Washington, DC, within four weeks after the meeting. Copies of the transcript will then be available at ten cents a page upon request to NHTSA Technical Reference Section, Room 5108, 400 Seventh Street, SW., Washington, DC 20590. The Technical Reference Section is open to the public from 9:30 a.m. to 4 p.m.

Issued on: September 8, 1995.

Barry Felrice,

Associate Administrator for Safety Performance Standards.

[FR Doc. 95–22863 Filed 9–11–95; 12:22 pm]

BILLING CODE 4910-59-P

Research and Special Programs Administration

Appeals in Hazardous Materials Transportation Enforcement Cases

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of the availability of decisions on appeal in enforcement cases under the Federal hazardous materials transportation law.

SUMMARY: This notice alerts the public that decisions on appeal by the Administrator of the Research and Special Programs Administration (RSPA) are now available through the Hazardous Materials Information Exchange (HMIX) computer system. These appellate decisions involve hazardous materials transportation enforcement cases, issued between 1992 and April 1995, initiated under the Federal hazardous materials transportation law and the Hazardous Materials Regulations (HMR). In these decisions, the Administrator establishes RSPA's policy regarding the enforcement of the HMR and provides a rationale for these policies. This information will assist the efforts of the regulated community to comply with HMR and is being provided to the regulated community as a public service.

FOR FURTHER INFORMATION CONTACT: The public may access the HMIX and the appeal decisions by computer: Commercial Access (708) 972–3275 or Internet Access: hmix.dis.anl.gov (146.137.100.54). Members of the public who do not have access to a computer can request a copy of these decisions by contacting: Suezett Edwards, Office of Hazardous Materials Initiatives and Training (DHM–50), Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590 (Tel. (202) 366–4900) or Robert A. Monniere, Office of the Chief Counsel (DCC–10), Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590 (Tel. (202) 366–4400).

SUPPLEMENTARY INFORMATION: Federal hazardous materials transportation law (Federal hazmat law) (49 USC 5101 *et seq.*, formerly 49 app. USC 1801 *et seq.*) provides that, "The Secretary shall prescribe regulations for the safe transportation of hazardous material in intrastate, interstate, and foreign commerce. The regulations * * * shall govern safety aspects of the transportation of hazardous material the Secretary considers appropriate." (49 USC 5103(b)(1)). Under this authority, RSPA issues the Hazardous Materials Regulations (HMR), 49 CFR parts 171–180, a comprehensive set of regulations concerning the transportation of hazardous materials.

The HMR govern the shipping and transporting of hazardous materials by aircraft, rail car, vessel and motor vehicle. The HMR also prescribe requirements governing the manufacture, fabrication, marking, maintenance, reconditioning, repairing, or testing of a packaging or container which is represented, marked, certified, or sold for use in transportation of hazardous materials in commerce.

In addition to the HMR, RSPA has issued other regulations (49 CFR parts 106 and 107) implementing Federal hazmat law. All of these regulations are enforced by RSPA, the U.S. Coast Guard, the Federal Aviation Administration, the Federal Highway Administration, and the Federal Railroad Administration. Within their respective modes of transportation, these agencies enforce the requirements of the HMR.

Within RSPA, the Office of Hazardous Materials Enforcement (OHME) and the Office of the Chief Counsel enforce the HMR and parts 106 and 107. RSPA's enforcement regulations are in subpart D of part 107. When OHME finds that a person apparently has violated Federal hazmat law or the regulations, the Office of the Chief Counsel may institute an enforcement action. That office may issue a notice of probable violation (notice), in which a respondent is charged with a probable violation and a civil penalty is proposed. In addition, the notice may contain a proposed compliance order.

Generally, under 49 CFR 107.313(a), a respondent must respond to a notice within 30 days of its receipt. The respondent may respond by admitting the violation(s) and accepting the proposed penalty amount (or the proposed compliance order), or may contest the notice. A notice may be challenged through a written response, a telephonic or in-person conference, or a hearing before an administrative law judge.

If the respondent makes no response within the prescribed period, the Chief Counsel may enter an order finding that the alleged violation(s) were committed and imposing the proposed penalty or compliance order. The same result follows if the respondent admits the violation(s). When the respondent requests a conference, the Office of the Chief Counsel conducts the conference; then the Chief Counsel reviews the proceeding and considers all relevant evidence, including all submissions of the respondent. The Chief Counsel then issues an order, which may include a finding of violation, imposition of a civil penalty and a compliance order.

In assessing civil penalties, the Chief Counsel considers the nature and circumstances of the violation, its extent and gravity, the respondent's culpability, the respondent's lack of prior violations, the respondent's ability to pay, the effect of the civil penalty on the respondent's ability to continue in business and any other relevant factors (especially respondent's corrective actions) (*see* RSPA penalty guidelines, 60 12139 (March 6, 1995)).

Where a hearing is requested, the Office of the Chief Counsel submits the matter to the Department's Office of Hearings. An administrative law judge is assigned to the case and conducts pre-hearing and hearing procedures. The administrative law judge issues an appropriate order.

Following issuance of an order by either the Chief Counsel or an administrative law judge, a respondent must either comply with the order or file an appeal with the Administrator of RSPA. The appeal must be filed within 20 days of respondent's receipt of the order. The appeal must state, with particularity, the findings in the order that the respondent is challenging, and it must include all relevant information and arguments. The filing of an appeal stays enforcement of the order.

In a decision on appeal, the Administrator determines whether to affirm or dismiss violations and whether to affirm or modify civil penalty assessments and compliance orders. A respondent has 30 days from the date of issuance of the decision on appeal in which to comply with its terms. Failure to timely comply results in assessment of interest, penalty and administrative charges where a civil penalty has been affirmed in the decision on appeal. The Administrator's decision on appeal is the final step in the administrative process.

The decisions on appeal are presented in case number sequence with each decision containing the individual case number, respondent's name, the background of the case, a discussion of the facts and circumstances, and the Administrator's findings.

Issued in Washington, DC, on September 11, 1995.

Alan I. Roberts,

Associate Administrator for Hazardous Materials Safety.

[FR Doc. 95–22903 Filed 9–13–95; 8:45 am]

BILLING CODE 4910-60-P

[Docket No. P–93–2W; Notice 3]

Grant of Waiver: Repair of Gas Transmission Lines

The Research and Special Programs Administration (RSPA) waived certain maintenance regulations (49 CFR 192.713(a) and 192.485) to permit 28 pipeline operators and their subsidiaries to repair steel gas transmission lines with Clock Spring® wrap (Notice 2; 60 FR 10630; February 27, 1995). The waiver, which was based on a petition submitted by the Interstate Natural Gas Association of America (INGAA) and a notice inviting public comment (Notice 1; 59 FR 49739; September 29, 1994), applies to lines operating at 40 percent or more of specified minimum yield strength.

As stated in Notice 2, the waiver is subject to the following conditions:

(1) Clock Spring® wrap must be installed using procedures recommended by the manufacturer;

(2) Clock Spring® wrap must be installed consistent with the program, GRI WRAP;

(3) Clock Spring® wrap must be installed consistent with a Gas Research Institute plan, including, at 2-year intervals, excavating and evaluating a statistical sample of sites, recording the results, and sending the results to RSPA;

(4) To allow inspection by RSPA and state agencies serving as interstate enforcement agents, scheduled non-emergency installations of Clock Spring® wrap must be reported (by phone, fax, or mail) a reasonable time before installation to the RSPA pipeline regional office and state agent with authority over the repair; and

(5) Persons installing Clock Spring® wrap must have been trained and certified in installation procedures either by the Clock Spring Company or by persons the Clock Spring Company has trained and certified.

By letter of June 30, 1995, INGAA petitioned RSPA to add additional operators to the list of operators who are authorized to use the wrap under the waiver. These additional operators include interstate natural gas pipeline companies as well as intrastate pipeline companies. Because the safety of Clock Spring® wrap installations on high-stress gas transmission lines is governed by the terms and conditions of the waiver, expanding the list of operators to include additional interstate companies would not be inconsistent with pipeline safety. However, under the federal statutory provision that governs waivers of the pipeline safety regulations (49 U.S.C. 60118), matters involving intrastate pipeline facilities under the authority of participating state agencies are handled initially by those agencies. Therefore, we are adding to the list of operators authorized to use the wrap only those interstate natural gas pipeline companies named in INGAA's petition. These companies are Consumers Power and Michigan Gas Storage Company, Iroquois Gas Transmission System, National Fuel Gas Supply Corporation with National Fuel Gas Distribution Corporation, Sabine Pipe Line Company, Valero Energy Corporation, and Viking Gas Transmission Company.

The remaining companies named in INGAA's petition should either obtain a waiver of 49 CFR 192.713(a) and 192.485 from the applicable state agency participating in the federal/state pipeline safety regulatory program or notify RSPA that the gas transmission lines involved are intrastate pipeline facilities that are not subject to the authority of such an agency. As provided by the above statutory provision, state waiver actions are subject to review by RSPA. We will not object to any state waiver that is consistent with the terms and conditions of the waiver published in Notice 2 of this proceeding.

(Authority: 49 U.S.C. 60118(c))

Issued in Washington, DC on September 8, 1995.

Richard B. Felder,

Associate Administrator for Pipeline Safety.

[FR Doc. 95–22815 Filed 9–13–95; 8:45 am]

BILLING CODE 4910-60-P

DEPARTMENT OF THE TREASURY

Senior Executive Service Combined Performance Review Board (PRB)

AGENCY: Treasury Department.

ACTION: Notice of Members of Combined Performance Review Board (PRB).

SUMMARY: Pursuant to 5 U.S.C. 4314(c)(4), this notice announces the appointment of members of the Combined PRB for the Bureau of Engraving and Printing, the Financial Management Service, the U.S. Mint and the Bureau of the Public Debt. The Board reviews the performance appraisals of career senior executives below the level of bureau head and principal deputy in the four bureaus, except for executives below the Assistant Commissioner level in the Financial Management Service. The Board makes recommendations regarding proposed performance appraisals, ratings, bonuses and other appropriate personnel actions.

COMPOSITION OF COMBINED PRB: The Board shall consist of at least three voting members. In case of an appraisal of a career appointee, more than half of the members shall consist of career appointees. The names and titles of the Combined PRB members are as follows:

PRIMARY MEMBERS: Timothy G. Vigotsky, Assistant Director (Management), E&P; Bland T. Brockenborough, Assistant Commissioner, Regional Operations, FMS; Andrew Cosgarea, Jr., Associate

Director, Chief Operating Officer, Mint; Kenneth R. Papaj, Director, Government Securities Regulations Staff, PD.

ALTERNATE MEMBERS: L. Paul Blackmer, Jr., Associate Director (Chief Financial Officer), E&P; Diane E. Clark, Assistant Commissioner, Financial Information, FMS; Jay M. Weinstein, Associate Director for Policy and Management & CFO, Mint; Thomas W. Harrison, Assistant Commissioner (Administration), PD.

DATES: Membership is effective on September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Andrew Cosgarea, Jr., U.S. Mint, Associate Director, Chief Operating Officer, Suite 825, 633 3rd St., N.W., Washington, D.C. 20220, (202) 874–6100.

This notice does not meet the Department's criteria for significant regulations.

Dated: September 6, 1995.

Andrew Cosgarea, Jr.,

Associate Director, Chief Operating Officer.

BILLING CODE 4820-02-P

Office of Thrift Supervision

[No. 95–174]

Notification of Change in Location and Hours of Operation for Public Reference Room and Securities Filings Desk

AGENCY: Office of Thrift Supervision, Treasury.

ACTION: Notice.

SUMMARY: The Office of Thrift Supervision (OTS) is giving notice of the change in location and hours of operation for its public reference room and the location at which official securities filings are to be made. These changes are being made to enhance access to the public reference room and the securities filing desk.

EFFECTIVE DATE: September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Catherine C. M. Teti, Director, Records Management and Information Policy, (202) 906–7571, Office of Thrift Supervision, 1700 G Street, NW., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: This notice serves to inform the public of the change in location and hours of operation for OTS' Public Reference Room and of the change in location for official securities filings made pursuant to 15 U.S.C. 78*l*(i), 12 CFR 563d.1 and 12 CFR Part 563g.

Through a recent reorganization, OTS' Information Services Division, housing its Public Reference Room, has become part of the Dissemination Branch of the Records Management and Information Policy Division. In addition, the Securities Filing Desk previously operated by the Business Transactions Division has been integrated into the Dissemination Branch and now operates from the Public Reference Room.

OTS' Public Reference Room is now located on the lower level of OTS' headquarters office at 1700 G Street, NW., Washington, D.C. 20552. Visitors must check in with the guard on duty and must use the designated elevator for accessing the Public Reference Room. This procedure has eliminated the need for the scheduled escort service. The hours of operation for the Public Reference Room have been expanded to 9:00 a.m. until 4:00 p.m. on business days.

Securities filings, comment letters and other communications with the Dissemination Branch may be hand delivered to OTS' Public Reference Room from 9:00 a.m. until 4:00 p.m. on business days. In addition, delivery will be accepted by the guard's desk at 1700 G Street, NW. from 4:00 p.m. until 5:00 p.m. No other changes have been made in the procedure for making official securities filings.

Comment letters and other correspondence addressed to the Dissemination Branch may also be sent by facsimile transmission to FAX number (202) 906–7755 or, for documents exceeding 25 pages in length, to FAX number (202) 906–6956, from 9:00 a.m. until 5:00 p.m. on business days. Neither facsimile machine is operable outside of these established hours. Securities filings must still be made on paper copies and delivered by mail or messenger.

Amendments to OTS' regulations at 12 CFR Part 505 to reflect the new procedures, addresses, and hours of operation outlined in this notice will be forthcoming in the next OTS technical amendments rulemaking.

Dated: September 8, 1995.

By the Office of Thrift Supervision.

John F. Downey,

Executive Director, Supervision.

[FR Doc. 95–22841 Filed 9–13–95; 8:45 am]

BILLING CODE 6720-01-P

UNITED STATES INFORMATION AGENCY

Exchanges and Training Program With the Newly Independent States

ACTION: Notice—Request for proposals.

SUMMARY: The Office of Citizen Exchanges, Division of Russia/Eurasia of the United States Information Agency's Bureau of Education and Cultural Affairs announces a competitive grants program. Public or private non-profit organizations meeting the provisions described in 26 CFR 1.501(c)(3) may apply to develop training programs in (1) local government and public administration, (2) business administration and business development, (3) rule of law, and (4) independent media development for the following countries: Armenia, Azerbaijan, Belarus, Georgia, Kazakstan, Kyrgyzstan, Moldova, Russia, Tajikstan, Turkmenistan, Ukraine, and Uzbekistan.

Overall grant making authority for this program is contained in the Mutual

Educational and Cultural Exchange Act of 1961, Public Law 87–256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries * * *; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations * * * and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program cited above is provided through the Fulbright-Hays Act and the Freedom Support Act.

Programs and projects must conform with Agency requirements and guidelines outlined in the Solicitation Package. USIA projects and programs are subject to the availability of funds.

ANNOUNCEMENT TITLE AND NUMBER: All communications with USIA concerning this announcement should refer to the above title and reference number E/PN–96–16.

DEADLINE FOR PROPOSALS: All copies must be received at the U.S. Information Agency by 5 p.m., Washington, DC time on Wednesday, November 15, 1995. Faxed documents will not be accepted, nor will documents postmarked November 15, 1995 but received at a later date. It is the responsibility of each applicant to ensure that proposals are received by the above deadline.

FOR FURTHER INFORMATION CONTACT: Office of Citizen Exchanges, Russia/Eurasia Division, E/PN, Room 216, U.S. Information Agency, 301 4th Street, SW., Washington, DC 20547, tel.: 202–619–5326, fax: 202–619–4350, to request a Solicitation Package, which includes more detailed award criteria; all application forms; and guidelines for preparing proposals, including specific criteria for preparation of the proposal budget. Please specify USIA Program Specialist Jim Del Giudice on all inquiries and correspondence. Mr. Del Giudice may also be reached at the following e-mail address: jdelgiud@usia.gov. Interested applicants should read the complete **Federal Register** announcement before addressing inquiries to the Office of Citizen Exchanges, Russia/Burasia Division or submitting their proposals. Once the RFP deadline has passed, the Office of Citizen Exchanges, Russia/Eurasia Division may not discuss this competition in any way with applicants until after the Bureau proposal review process has been completed.

SUBMISSIONS: Applicants must follow all instructions given in the Solicitation Package and send an original and ten copies of completed applications to: U.S. Information Agency, Ref.: E/PN–96–16, Office of Grants Management, E/XE, Room 336, 301 4th Street, SW., Washington, DC 20547.

Applicants must also submit the "Executive Summary" and "Proposal Narrative" sections of the proposal on a 3.5" diskette, formatted for DOS. This material must be provided in ASCII text (DOS) format with a maximum line length of 65 characters. USIA will transmit these files electronically to USIS post overseas for their review, with the goal of reducing the time it takes to get posts' comments for the Agency's grants review process.

Diversity Guidelines

Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including but not limited to ethnicity, race, gender, religion, geographic location, socio-economic status, and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the 'Support for Diversity' section for specific suggestions on incorporation diversity into the total proposal.

SUPPLEMENTARY INFORMATION:

Overview

USIA is interested in proposals that encourage the growth of democratic institutions in the NIS. The main areas are local government and public administration; rule of law; business management; and media. Proposals should demonstrate support for host-country institutions and should discuss what impact activities are expected to have over the long run. Proposals which build upon previous efforts and/or show significant cost-sharing will receive preference.

The projects may include: internships; study tours; short-term training; consultations; and extended, intensive workshops taking place in the United States or in the countries listed in this announcement:

We encourage applicants to design creative programs aimed at non-English speakers both for in-country as well as for U.S.-based training projects. USIA is interested in proposals whose designs take into account the need for ongoing sharing of information and training. Examples include: "train the trainers" models; the creation of indigenous training centers; and/or plans to create professional networks or professional associations to share information.

Note: While this competition may fund programs in which American universities work with NIS counterparts, it is not intended to be a university linkage program. Such programs are funded by USIA's Office of Academic Programs (E/A) and proposals whose purpose is to exchange faculty or otherwise support direct academic links should be submitted under the E/A RFP for the College and University Affiliations Programs (CUAP).

Local Government and Public Administration

USIA is interested in proposals for training programs that foster effective administration of local and regional governments.

Programs in Public Administration for Kazakstan will not be accepted.

Proposals are encouraged for the following themes/topics which have been requested by USIA's posts in Ukraine and Russia:

- RUSSIA: Projects that build the capacity of local institutions and that use Russian language materials are strongly encouraged. Proposals that show support from local administrations in Russia—city or oblast—will receive preference, as will proposals that demonstrate some basis for continuity—for example, those that build on Sister City relationships or other professional associations. USIA is particularly interested in exchange programs designed for regional legislators, in particular the oblast legislatures of Irkutsk and Buryatia. Programs that emphasize the practical ramifications of a federated system of government will receive particular consideration. Programs should involve exchanges and continuing consultations between counterparts, for example, oblast duma members and U.S. state legislators. Proposals should be very specific, emphasizing concrete, tangible results that leave something behind in Russia once projects are completed.
- UKRAINE: Priority will be given to programs on themes such as: setting up a civil service and the concept of merit-based recruitment; the relationship between government and business; how to create a business-friendly environment through local laws and practices; combating corruption in law enforcement officials; governmental

---

budgeting processes; taxation; privatization of government services; models of local government, including city manager, city council, county government; regional planning at multi-city, multi-county level; and administration of civic organizations such as library school boards, community centers. Ukrainian partner institutions might include the Institute of Public Administration in Kiev, the L'viv Management Institute, the International Management Institute in Kiev, or similar institutions.

Rule of Law

For all NIS countries, USIA is interested in proposals for parliamentary exchanges that offer a substantive professional visit to the United States for groups of elected legislators and their staffs, at both national and regional levels. Programs can be designed around a specific theme (e.g., budget and finance, legislative and parliamentary procedure, oversight of law enforcement) or can serve as a vehicle to develop relationships between parliamentarians and Members of Congress and state legislators. Direct contact with U.S. Members of Congress is a major goal of the program. Proposals for groups composed of deputies or a combination of deputies and professional staff are acceptable. A compelling program rationale should be given for projects mixing local and national officials in one group. Visits to state legislatures in the United States are encouraged. Particular care must be taken to coordinate participant lists with the American Embassy in the given NIS country. In general, the American Embassies will issue the formal invitations to parliamentarians to participate in a given program.

For Russia, USIA is interested in long-term internship-based exchange programs between Russian parliamentary staff members and their American counterparts. Such programs should expose staff members to the workings of a congressional office. Internships should be substantive and involve work both in Washington and in congressional districts and last approximately eight weeks, USIS Moscow would select English speaking participants for this effort.

For Kazakstan, USIA is particularly interested in proposals involving the Parliament-to-be (elections should be held by the end of the 1995 calendar year). Programs beginning after March 1996 would be ideal for establishing contacts with the new parliament. Proposals should focus on the basics of and legislative procedures in drafting, debating, and passing legislation.

For Ukraine, USIA is interested in programs that offer training in the administration of local courts.

Business Administration and Development

USIA's definition of business development and administration is broad. It includes: small business development, resource development (housing, environment, energy), economic privatization and restructuring and agri-business development, including food distribution systems or the role of family farms. USIA is interested in projects that strengthen university business departments and provide management training for people already in the work place. In addition, the following USIS posts have expressed interest in the following specific themes:

- UKRAINE: Proposals are encouraged on the following themes: Business ethics; entrepreneurship; how to start a small business; how to promote business; and business curriculum development.
- KAZAKSTAN: Proposals should focus on management training for established professionals; particularly in those areas that are of importance to the future development of Kazakstan. These fields include energy, industry, metallurgy, agriculture, mineral development, and small business development.

Independent Media Development

USIA is interested in media training proposals that focus on journalistic training, management of media organizations and foster independent media. Journalistic training in basic skills and concepts could include: effective writing, investigative reporting, objectivity, the clear labeling of editorials and opinion pieces, intellectual property issues and ethics.

Media management training (both print and electronic) should focus on management of media as a business: management techniques, desk top publishing, advertising, marketing, distribution, personnel, public relations, and the financial benefits and pitfalls of journalistic advocacy. USIS posts in the following countries have indicated their priority themes:

- RUSSIA: USIA is particularly interested in proposals to work with nascent media associations and wire services. Collaborative efforts with organizations such as (but not limited to) the newly-founded Association for Investigative Journalists and more established organizations like the Russian Association of Editors and Publishers, the Glesnost Defense Fund, and the Globe Press Syndicate (GLOBUS) are encouraged. Proposals should build institutional capacity, increase the number of viable voices promoting the free flow of information, and enhance institutional ability to provide training and support.
- KAZAKSTAN: USIA is particularly interested in proposals that focus on the business of media and maximize the amount of practical, hands-on experience provided to program participants. There are many independent media outlets in Kazakstan that are trying to make the transition to a market-driven news business, and the Agency is interested in proposals that promote the idea of journalism as a business. Training programs in news reporting, television production and the ethics of journalism are also encouraged. Priority will be given to proposals that contain both in-country and U.S.-based programming. Programs for non-English speakers will be given priority.
- UKRAINE: The following topics have priority: Ethics in journalism; straight news reporting; marketing and advertising in print and broadcast media.

Guidelines

Programs must comply with J–1 visa regulations. Please refer to program specific guidelines in the Solicitation Package for further details.

Proposed Budget

Organizations must submit a comprehensive line item budget based on the specific guidance in the Program and Budget Guidelines sections of the Solicitation Package. Proposals for less than $150,000 will receive preference.

Grants awarded to eligible organizations with less than four years of experience in conducting international exchange programs will be limited to $60,000.

Applicants are invited to submit an all-inclusive budget as well as separate sub-budgets for each program component, phase, location, or activity in order to facilitate USIA decisions on funding.

Review Process

USIA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines stated herein and in the Solicitation Package. Eligible proposals will be forwarded to panels of USIA officers for advisory review. All eligible proposals will also be reviewed by the Agency contracts office, as well as the USIA Office of East European and NIS Affairs and the appropriate USIA post(s) overseas. Proposals may also be reviewed by the Office of the General Counsel or by other Agency elements. Funding decisions are at the discretion of the USIA Associate Director for Educational and Cultural Affairs. Final technical authority for grant awards resides with the USIA grants officer.

Review Criteria

Technically eligible applications will be competitively reviewed according to the criteria stated below. These criteria are not rank ordered:

1. *Quality of the Program Idea:* Proposals should exhibit originality, substance, precision, and relevance to Agency mission.

2. *Program Planning:* Detailed agenda and relevant work plan should demonstrate substantive undertakings and logistical capacity. Agenda and plan should adhere to the program overview and guidelines described above.

3. *Ability to Achieve Program Objectives:* Objectives should be reasonable, feasible, and flexible. Proposals should clearly demonstrate how the institution will meet the program's objectives and plan.

4. *Multiplier Effect/Impact:* Proposed programs should strengthen long-term mutual understanding, including maximum sharing of information and establishment of long-term institutional and individual linkages.

5. *Cross Cultural/Area Expertise:* Proposals should reflect the institution's expertise in the subject area and should address specific areas of concern facing countries involved in the project. Additionally, projects should show evidence of sensitivity to historical, linguistic and other cross cultural factors and should demonstrate how this sensitivity will be used in practical aspects of the program, such as pre-departure orientations or briefings of American hosts.

6. *Support of Diversity:* Proposals should demonstrate the recipient's commitment to promoting the awareness and understanding of diversity throughout the program. This can be accomplished through documentation (such as a written statement or account) summarizing past and/or on-going activities and efforts that further the principle of diversity within both the organization and the program activities.

7. *Institutional Capacity:* Proposed personnel and institutional resources should be adequate and appropriate to achieve the program or project's goals.

8. *Institution's Record/Ability:* Proposals should demonstrate an institutional record of successful exchange programs, including responsible fiscal management and full compliance with all reporting requirements for past Agency grants as determined by USIA's Office of Contracts. The Agency will consider the past performance of prior recipients and the demonstrated potential of new applicants.

9. *Follow-On Activities:* Proposals should provide a plan for continued follow-on activity (without USIA support) which insures that USIA supported programs are not isolated events.

10. *Project Evaluation:* Proposals should include a plan to evaluate the activity's success, both as the activities unfold and at the end of the program. USIA recommends that the proposals include a draft survey questionnaire or other technique plus description of a methodology to use to link outcomes to original project objectives. Award-receiving organizations/institutions will be expected to submit intermediate reports after each project component is concluded or quarterly, whichever is less frequent.

11. *Cost-Effectiveness:* The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate.

12. *Cost-Sharing:* Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.

13. *Value of U.S.-Partner Country Relations:* Proposed projects should receive positive assessments by USIA's geographic area desk and overseas officers of program need, potential impact, and significance in the partner country(ies).

Notice

The terms and conditions published in this RFP are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the Government. The Agency reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the program and the availability of funding. Final awards cannot be made until funds have been appropriated by Congress, allocated and committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review process on or about March 1, 1996. Awards made will be subject to periodic reporting and evaluation requirements.

Dated: September 8, 1995.

John P. Loiello,

Associate Director, Educational and Cultural Affairs.

Sunshine Act Meetings

Federal Register
Vol. 60, No. 178
Thursday, September 14, 1995

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL ELECTION COMMISSION

DATE AND TIME: Thursday, September 21, 1995 at 10:00 a.m.

PLACE: 999 E Street, N.W., Washington, D.C. (Ninth Floor).

STATUS: This meeting will be open to the public.

ITEMS TO BE DISCUSSED:

Correction and Approval of Minutes
Advisory Opinion 1995–31: Teresa C. Lahaderne on behalf of San Diego Host Committee
Advisory Opinion 1995–32: Leslie Fox on behalf of Chicago's Committee for '96
Advisory Opinion 1995–33: Melanie Fahey on behalf of the Coast Employee Action Fund
Advisory Opinion 1995–35: N.B. Forrest Shoaf on behalf of Alexander for President, Inc
Regulations:
  MCFL Regulations: Revised Rules on Facilitation, Candidate Appearances, Endorsement, Voter Guides and Meeting Rooms (continued from meeting of September 14, 1995)
Administrative Matters

PERSON TO CONTACT FOR INFORMATION: Mr. Ron Harris, Press Officer, Telephone: (202) 219–4155.

Delores Hardy,

Administrative Assistant.

Part II

Department of Education

34 CFR Part 700

Standards for the Conduct and Evaluation of Activities Carried Out by the Office Educational Research and Improvement (OERI)—Evaluation of Applications for Grants and Cooperative Agreements and Proposals for Contracts; Rule

DEPARTMENT OF EDUCATION

34 CFR Part 700

RIN 1850–AA51

Standards for the Conduct and Evaluation of Activities Carried Out by the Office of Educational Research and Improvement (OERI)—Evaluation of Applications for Grants and Cooperative Agreements and Proposals for Contracts

AGENCY: Department of Education.

ACTION: Final Regulations.

SUMMARY: The Assistant Secretary for Educational Research and Improvement establishes final regulations that set standards for the evaluation of applications for grants and cooperative agreements and proposals for contracts. The development of these standards is required by the Office of Educational Research and Improvement's authorizing legislation, the "Educational Research, Development, Dissemination, and Improvement Act of 1994." The standards ensure that these application and proposal evaluation activities meet the highest standards of professional excellence.

EFFECTIVE DATE: These regulations take effect October 16, 1995.

FOR FURTHER INFORMATION CONTACT: Edward J. Fuentes, U.S. Department of Education, 555 New Jersey Avenue, NW., Room 600, Washington, DC 20208–5530. Telephone (202) 219–1895. Internet electronic mail address: stan-questions@inet.ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: On March 31, 1994, President Clinton signed Pub. L. 103–227, which includes Title IX—the "Educational Research, Development, Dissemination, and Improvement Act of 1994" (the "Act"). The Act restructured the Office of Educational Research and Improvement (OERI) and endowed it with a broad mandate to conduct an array of research, development, dissemination, and improvement activities aimed at strengthening the education of all students. The Act also required the establishment of a National Educational Research Policy and Priorities Board (the "Board") to work collaboratively with the Assistant Secretary to identify priorities to guide the work of OERI.

The legislation directed the Assistant Secretary to develop, in consultation with the Board, such standards as may be necessary to govern the conduct and evaluation of all research, development, and dissemination activities carried out by the Office to ensure that such activities meet the highest standards of professional excellence. The legislation required that the standards be developed in three phases. These regulations implement the first phase of the standards. The Assistant Secretary will publish at a later date additional proposed regulations to implement the remaining standards in accordance with the timelines established in the Act. The legislation requires the Board to review and approve the final standards.

On June 7, 1995, the Assistant Secretary for Educational Research and Improvement published a notice of proposed rulemaking (NPRM) in the **Federal Register** (60 FR 30160).

Analysis of Comments and Changes

In response to the Assistant Secretary's invitation in the NPRM, five parties submitted comments on the proposed regulations. An analysis of the comments and of the changes in the regulations since publication of the NPRM follows.

Issues are grouped according to subject with appropriate sections of the regulations referenced in parentheses. Substantive issues are discussed under the section of the regulations to which they pertain. In addition to the public comment, the comments of the Board's Committee on Standards are also addressed. That Committee met in public session on August 4, 1995, to provide final input for the Board and to act on the Board's behalf in approving the standards. Technical and other minor changes—and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority—are not addressed.

Qualifications of Peer Reviewers (§ 700.11)

Comments: Two commenters believed that § 700.11 should require the majority of reviewers for a given application to meet the qualifications in § 700.11(a)(1)(i). These commenters were concerned that requiring individual reviewers to possess only one or more of the qualifications listed under § 700.11(a)(1) might result in few or no reviewers for a given application possessing demonstrated expertise in the subject of the competition (§ 700.11(a)(1)(i)). One of these commenters also felt that each group of reviewers for a given application should include at least one reviewer with "in-depth knowledge of policy and practice in the field of education" (§ 700.11(a)(1)(ii)), and at least one reviewer with "in-depth knowledge of theoretical perspectives or methodological approaches relevant to the subject of the competition" (§ 700.11(a)(1)(iii)). Another commenter felt that all reviewers for research projects should possess technical expertise regarding the theoretical and methodological aspects of the grant applications.

Discussion: The Secretary believes it is important for all reviewers to possess each of the qualifications in § 700.11(a)(1). The Board agreed that it is important for all reviewers to possess each of the qualifications in § 700.11(a)(1) but recommended that § 700.11(a)(1)(ii) be modified to allow a reviewer to be deemed qualified on the basis of in-depth knowledge of policy "or" practice in the field of education rather than both.

Changes: The Secretary has revised § 700.11(a)(1) to require each reviewer to possess each of the qualifications of (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) and replaced the word "and" in (a)(1)(ii) with the word "or".

Comments: One commenter expressed concern that the word "relevant" in § 700.11(a)(1)(i) was inadequate for specifying that reviewers have direct expertise in the topic area of grant applications they review.

Discussion: The Secretary agrees with this commenter.

Changes: The Secretary replaced the words "relevant to the subject area" with the words "in the subject area" in § 700.11(a)(1)(i) and also in § 700.11(a)(1)(iii).

Convening Reviewers to Discuss Unsolicited Applications (§ 700.21)

Comments: One commenter suggested substituting the word "may" for the word "will" in § 700.21(c) so as not to require the convening of reviewers in all instances. The commenter believed that it may not be necessary to convene reviewers to discuss the strengths and weaknesses of unsolicited applications.

Discussion: The Secretary believes that discussions of each application's strengths and weaknesses allows reviewers to share perspectives and provide a higher quality of review. Therefore, the Secretary believes that such discussions should, in general, be required. However, the Secretary agrees that in the case of unsolicited applications, it may not be necessary to convene reviewers.

Changes: The Secretary has added a new § 700.21(c)(2), which allows the Secretary to use discretion in determining whether to convene reviewers of unsolicited applications.

Comments: One commenter felt that it was important that applicants receive the written comments regarding the strengths and weaknesses of their applications at the same time as the applicants are notified of acceptance or rejection. Another commenter recommended that the OERI standards address the issue of OERI's communicating the results of the competition to the applicants and the larger community.

Discussion: The Secretary recently modified Department procedures to provide both successful and unsuccessful applicants earlier notification of funding decisions. In most cases, reviewer comments accompany these notifications. However, particularly for competitions that generate large numbers of applications, reviewer comments are sent at a later date so that this early notification of funding decisions need not be delayed. The Secretary routinely issues press releases to inform the public of the results of each competition.

Changes: None.

Evaluating Grant and Cooperative Agreement Applications and Contract Proposals (§ 700.21 and § 700:22)

Comments: One commenter stated that it was not clear that the Secretary will be constrained or informed by the results of the evaluations carried out by the peer reviewers. The commenter recommended changes to clarify that: (1) Each reviewer will provide a recommendation to fund or not to fund each application, accompanied by a numerical rating of the application; and (2) the Secretary will rely on numerical ratings given by the peer reviewers in rank ordering the applications.

Discussion: The Secretary agrees that § 700.21(e) should be revised to clarify that the Secretary prepares a rank order based solely on the peer reviewers' ratings. However, the Secretary believes that, in selecting applications for award, he must consider factors in addition to the applicants' rankings and the funding recommendations of the peer reviewers. These other factors, specified in § 700.40, include performance of the applicant under a prior award, the amount of funds available for the competition, and any other information relevant to a priority or other statutory or regulatory requirement applicable to the selection of applications for new awards.

Changes: The Secretary has revised § 700.21(e) to clarify that the rank order is based solely on the peer reviewers' ratings for each application.

Comments: One commenter pointed out that § 700.22(d), regarding the evaluation of contract proposals, enables reviewers to assign proposals to the category "capable of being made acceptable." The commenter recommended that a similar category be added to § 700.21(d), relating to the evaluation of grants and cooperative agreements. The commenter believes that such a change could allow applicants an opportunity to fix minor problems in otherwise outstanding grant applications and still be eligible for funding.

Discussion: The Federal Acquisition Regulations, which govern the Federal government's contract procurements expressly recommend the establishment of a category "capable of being made acceptable." In that grant competitions are held to determine which applicants are to receive the benefit of Federal financial assistance for the activities applicants propose, rather than to determine which applicant or applicants will be contracted to provide services according to government specifications, fairness would dictate that if one grant applicant is allowed to revise its application, all other grant competitors should be provided the same opportunity. In addition, grant competitions typically generate many more applications than do contract competitions. There are often many more highly rated applicants than there are funds available for awards, and so there is no need to allow competitors a second chance to make their applications fundable. As a practical matter, applications that are truly outstanding, but have minor problems, are likely to be rated highly, with the minor problems addressed during negotiation of the grant award. The Board discussed the issue raised by this commenter. The Board was concerned that reviewers of proposals for contracts had three categories in which they could place contract proposals while reviewers of grant and cooperative agreement applications only had two categories. The Board recommended that a third category be added under § 700.21(d) that would allow reviewers to distinguish between projects that they would recommend for funding and those that they would highly recommend.

Changes: The Secretary has added a new category of "highly recommended for funding" under § 700.21(d).

Comment: After consultation with the Board, the Secretary has determined that the evaluation criteria related to prior performance of applicants under previously funded grants or cooperative agreements (§ 700.30(e)(3)(ii)(D) and § 700.30(e)(4)(ii)(E)) would require applicants to provide that information for evaluation by the peer reviewers. This information is already available to the Secretary and will be another factor considered by the Secretary in making award decisions under § 700.40(a)(3).

Discussion: The evaluation criteria under § 700.30(e)(3)(ii)(D) and § 700.30(e)(4)(ii)(E) duplicate the factors in § 700.40(a)(3) and thus impose an unnecessary burden on applicants.

Changes: § 700.30(e)(3)(ii)(D) and § 700.30(e)(4)(ii)(E) are deleted.

Paperwork Reduction Act of 1980

Section 700.30 contains information collection requirements. As required by the Paperwork Reduction Act of 1980, the Department of Education submitted a copy of this section to the Office of Management and Budget (OMB) for its review, and it was approved by OMB. (44 U.S.C. 3504(h))

These regulations affect the following types of entities eligible to apply for grants and cooperative agreements: State or local governments, businesses or other for profit organizations, nonprofit institutions, and any combinations of these types of entities. The Department needs and uses the information to evaluate applications for funding.

Annual public reporting and recordkeeping burden for this collection of information is estimated to range from 15 hours for each of the approximately 750 applications expected for a field initiated study competition to 150 hours for ten or fewer applications expected for a national research center. Therefore, the actual burden will be determined by the type of project to be supported in the particular competition.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR Part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

Assessment of Educational Impact

Based on the response to the proposed regulations and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 700

Education, Educational research, Elementary and secondary education, Government contracts, Grant programs—education, Libraries, Reporting and recordkeeping requirements.

Dated: September 11, 1995.

Richard W. Riley,
Secretary of Education.

Sharon P. Robinson,
Assistant Secretary for Educational Research and Improvement.

(Catalog of Federal Domestic Assistance Number does not apply.)

The Secretary amends Chapter VII of Title 34 of the Code of Federal Regulations by adding a new Part 700 to read as follows:

PART 700—STANDARDS FOR THE CONDUCT AND EVALUATION OF ACTIVITIES CARRIED OUT BY THE OFFICE OF EDUCATIONAL RESEARCH AND IMPROVEMENT (OERI)—EVALUATION OF APPLICATIONS FOR GRANTS AND COOPERATIVE AGREEMENTS AND PROPOSALS FOR CONTRACTS

Subpart A—General

Sec.
700.1 What is the purpose of these standards?
700.2 What activities must be governed by these standards?
700.3 What additional activities may be governed by these standards?
700.4 What definitions apply?
700.5 What are the processes of open competition?

Subpart B—Selection of Peer Reviewers

700.10 When is the peer review process used?
700.11 Who may serve as peer reviewers?
700.12 What constitutes a conflict of interest for grants and cooperative agreements?
700.13 What constitutes a conflict of interest for contracts?

Subpart C—The Peer Review Process

700.20 How many peer reviewers will be used?
700.21 How are applications for grants and cooperative agreements evaluated?
700.22 How are proposals for contracts evaluated?

Subpart D—Evaluation Criteria

700.30 What evaluation criteria are used for grants and cooperative agreements?
700.31 What additional evaluation criteria shall be used for grants and cooperative agreements?
700.32 What evaluation criteria shall be used for contracts?

Subpart E—Selection for Award

700.40 How are grant and cooperative agreement applications selected for award?
700.41 How are contract proposals selected for award?

Authority: 20 U.S.C. 6011(i).

Subpart A—General

§ 700.1 What is the purpose of these standards?

(a) The standards in this part implement section 912(i) of the Educational Research, Development, Dissemination, and Improvement Act of 1994.

(b) These standards are intended to ensure that activities carried out by the Office of Educational Research and Improvement (the Office) meet the highest standards of professional excellence.

(Authority: 20 U.S.C. 6011(i)(1))

§ 700.2 What activities must be governed by these standards?

(a) The standards in this part are binding on all activities carried out by the Office using funds appropriated under section 912(m) of the Educational Research, Development, Dissemination, and Improvement Act of 1994.

(b) Activities carried out with funds appropriated under section 912(m) of the Act include activities carried out by the following entities or programs:

(1) The National Research Institutes.

(2) The Office of Reform Assistance and Dissemination.

(3) The Educational Resources Information Center Clearinghouses.

(4) The Regional Educational Laboratories.

(5) The Teacher Research Dissemination Demonstration Program.

(6) The Goals 2000 Community Partnerships Program.

(7) The National Educational Research Policy and Priorities Board.

(Authority: 20 U.S.C. 6011(i)(1))

§ 700.3 What additional activities may be governed by these standards?

(a) The Secretary may elect to apply the standards in this part to activities carried out by the Department using funds appropriated under an authority other than section 912(m) of the Act.

(b)(1) If the Secretary elects to apply these standards to a competition for new grant or cooperative agreement awards, the Secretary announces, in a notice published in the **Federal Register**, the extent to which these standards are applicable to the competition.

(2) If the Secretary elects to apply these standards to a solicitation for a contract award, the Secretary announces in the request for proposals the extent to which these standards are applicable to the solicitation.

(Authority: 20 U.S.C. 6011(i)

§ 700.4 What definitions apply?

(a) *Definitions in the Educational Research, Development, Dissemination, and Improvement Act of 1994.* The following terms used in this part are defined in 20 U.S.C. 6011(l):

Development
Dissemination
Educational Research
Office
National Research Institute
Technical Assistance

(b) *Definitions in Education Department General Administrative Regulations.* The following terms used in this part are defined in 34 CFR 77.1:

Applicant
Application
Award
Department
Grant
Project
Secretary

(c) *Definitions in the Federal Acquisition Regulation.* The following terms used in this part are defined in 48 CFR Chapter 1:

Contracting Officer
Employee of an Agency
Proposal
Solicitation

(d) *Other definitions.* The following definitions also apply to this part:

Act means the Educational Research, Development, Dissemination, and Improvement Act of 1994 (Title IX of Pub. L. 103–227, 108 Stat. 212).

EDAR means the Education Department Acquisition Regulation, 48 CFR Chapter 34.

EDGAR means the Education Department General Administrative Regulations, 34 CFR Parts 74, 75, 77, 79, 80, 81, 82, 85 and 86. *FAR* means the Federal Acquisition Regulation, 48 CFR Chapter 1.

(Authority: 20 U.S.C. 6011)

§ 700.5 What are the processes of open competition?

The Secretary uses a process of open competition in awarding or entering into all grants, cooperative agreements, and contracts governed by these standards. The processes of open competition are the following:

(a) For all new awards for grants and cooperative agreements, the Secretary will make awards pursuant to the provisions of EDGAR with the exception of the provisions in 34 CFR 75.100(c)(5), 75.200(b)(3), (b)(5), 75.210, and 75.217(b)(1), (b)(2), (c), and (d); and

(b) For contracts, the Department will conduct acquisitions pursuant to this part in accordance with the requirements of the Competition in Contracting Act, 41 U.S.C. 253, and the FAR.

(Authority: 20 U.S.C. 6011(i)(2); 41 U.S.C. 253)

Subpart B—Selection of Peer Reviewers

§ 700.10 When is the peer review process used?

The Secretary uses a peer review process—

(a) To review and evaluate all applications for grants and cooperative agreements and proposals for those contracts that exceed $100,000;

(b) To review and designate exemplary and promising programs in accordance with section 941(d) of the Act; and

(c) To evaluate and assess the performance of all recipients of grants from and cooperative agreements and contracts with the Office.

(Authority: 20 U.S.C. 6011(i)(2)(B))

§ 700.11 Who may serve as peer reviewers?

(a) An individual may serve as a peer reviewer for purposes of reviewing and evaluating applications for new awards for grants and cooperative agreements and contract proposals if the individual—

(1) Possesses the following qualifications:

(i) Demonstrated expertise, including training and experience, in the subject area of the competition.

(ii) In-depth knowledge of policy or practice in the field of education.

(iii) In-depth knowledge of theoretical perspectives or methodological approaches in the subject area of the competition; and

(2) Does not have a conflict of interest, as determined in accordance with § 700.12.

(b) For each competition for new awards for grants and cooperative agreements—

(i) Department staff may not serve as peer reviewers except in exceptional circumstances as determined by the Secretary; and

(ii) The majority of reviewers may be persons not employed by the Federal Government.

(2) For each review of an unsolicited grant or cooperative agreement application—

(i) Department employees may assist the Secretary in making an initial determination under 34 CFR 75.222(b); and

(ii) Department employees may not serve as peer reviewers in accordance with 34 CFR 75.222(c).

(c) To the extent feasible, the Secretary selects peer reviewers for each competition who represent a broad range of perspectives.

(Authority: 20 U.S.C. 6011(i)(2)(B))

§ 700.12 What constitutes a conflict of interest for grants and cooperative agreements?

(a) Peer reviewers for grants and cooperative agreements are considered employees of the Department for the purposes of conflicts of interest analysis.

(b) As employees of the Department, peer reviewers are subject to the provisions of 18 U.S.C. 208, 5 CFR 2635.502, and the Department's policies used to implement those provisions.

(Authority: 20 U.S.C. 6011(i)(2)(B))

§ 700.13 What constitutes a conflict of interest for contracts.

(a) Peer reviewers for contract proposals are considered employees of the Department in accordance with FAR, 48 CFR 3.104–4(h)(2).

(b) As employees of the Department, peer reviewers are subject to the provisions of the FAR, 48 CFR Part 3 Improper Business Practices and Personal Conflict of Interest.

(Authority: 41 U.S.C. 423)

Subpart C—The Peer Review Process

§ 700.20 How many peer reviewers will be used?

(a) Each application for a grant or cooperative agreement award must be reviewed and evaluated by at least three peer reviewers except—

(1) For those grant and cooperative agreement awards under $50,000, fewer than three peer reviewers may be used if the Secretary determines that adequate peer review can be obtained using fewer reviewers; and

(2) For those grant and cooperative agreement awards of more than $1,000,000, at least five reviewers must be used.

(b) Each contract proposal must be read by at least three reviewers unless the contracting officer determines that an adequate peer review can be obtained by using fewer reviewers.

(c) Before releasing contract proposals to peer reviewers outside the Federal Government, the contracting officer shall comply with FAR, 48 CFR 15.413–2(f).

(Authority: 20 U.S.C. 6011(i)(2)(B))

§ 700.21 How are applications for grants and cooperative agreements evaluated?

(a) Each peer reviewer must be given a number of applications to evaluate.

(b) Each peer reviewer shall—

(1) Independently evaluate each application;

(2) Evaluate and rate each application based on the reviewer's assessment of the quality of the application according to the evaluation criteria and the weights assigned to those criteria; and

(3) Support the rating for each application with concise written comments based on the reviewer's analysis of the strengths and weaknesses of the application with respect to each of the applicable evaluation criteria.

(c) (1) Except as provided in paragraph (c)(2) of this section, after each peer reviewer has evaluated and rated each application independently, those reviewers who evaluated a common set of applications are convened to discuss the strengths and weaknesses of those applications. Each reviewer may then independently reevaluate and re-rate an application with appropriate changes made to the written comments.

(2) Reviewers are not convened to discuss an unsolicited application unless the Secretary determines that discussion of the application's strengths and weaknesses is necessary.

(d) Following discussion and any reevaluation and re-rating, reviewers shall independently place each application in one of three categories, either "highly recommended for funding," "recommended for funding" or "not recommended for funding."

(e) After the peer reviewers have evaluated, rated, and made funding recommendations regarding the applications, the Secretary prepares a rank order of the applications based solely on the peer reviewers' ratings.

(Authority: 20 U.S.C. 6011(i)(2)(C))

§ 700.22 How are proposals for contracts evaluated?

(a) Each peer reviewer must be given a number of technical proposals to evaluate.

(b) Each peer reviewer shall—

(1) Independently evaluate each technical proposal;

(2) Evaluate and rate each proposal based on the reviewer's assessment of the quality of the proposal according to the technical evaluation criteria and the importance or weight assigned to those criteria; and

(3) Support the rating for each proposal with concise written comments based on the reviewer's analysis of the strengths and weaknesses of the proposal with respect to each of

the applicable technical evaluation criteria.

(c) After each peer reviewer has evaluated each proposal independently, those reviewers who evaluated a common set of proposals may be convened to discuss the strengths and weaknesses of those proposals. Each reviewer may then independently reevaluate and re-rate a proposal with appropriate changes made to the written comments.

(d) Following discussion and any reevaluation and re-rating, reviewers shall rank proposals and advise the contracting officer of each proposal's acceptability for contract award as "acceptable," "capable of being made acceptable without major modifications," or "unacceptable." Reviewers may also submit technical questions to be asked of the offeror regarding the proposal.

(Authority: 20 U.S.C. 6011(i)(2)(C))

Subpart D—Evaluation Criteria

§ 700.30 What evaluation criteria are used for grants and cooperative agreements?

(a) Except as provided in paragraph (d) of this section, the Secretary announces the applicable evaluation criteria for each competition and the assigned weights in a notice published in the **Federal Register** or in the application package.

(b) In determining the evaluation criteria to be used in each grant and cooperative agreement competition, the Secretary selects from among the evaluation criteria in paragraph (e) of this section and may select from among the specific factors listed under each criterion.

(c) The Secretary assigns relative weights to each selected criterion and factor.

(d) In determining the evaluation criteria to be used for unsolicited applications, the Secretary selects from among the evaluation criteria in paragraph (e) of this section, and may select from among the specific factors listed under each criterion, the criteria which are most appropriate to evaluate the activities proposed in the application.

(e) The Secretary establishes the following evaluation criteria:

(1) *National significance.*

(i) The Secretary considers the national significance of the proposed project.

(ii) In determining the national significance of the proposed project, the Secretary may consider one or more of the following factors:

(A) The importance of the problem or issue to be addressed.

(B) The potential contribution of the project to increased knowledge or understanding of educational problems, issues, or effective strategies.

(C) The scope of the project.

(D) The potential for generalizing from project findings or results.

(E) The potential contribution of the project to the development and advancement of theory and knowledge in the field of study.

(F) Whether the project involves the development or demonstration of creative or innovative strategies that build on, or are alternatives to, existing strategies.

(G) The nature of the products (such as information, materials, processes, or techniques) likely to result from the project and the potential for their effective use in a variety of other settings.

(H) The extent and quality of plans for disseminating results in ways that will allow others to use the information.

(2) *Quality of the project design.*

(i) The Secretary considers the quality of the design of the proposed project.

(ii) In determining the quality of the design of the proposed project, the Secretary may consider one or more of the following factors:

(A) Whether the goals, objectives, and outcomes to be achieved by the project are clearly specified and measurable.

(B) Whether there is a conceptual framework underlying the proposed activities and the quality of that framework.

(C) Whether the proposed activities constitute a coherent, sustained program of research and development in the field, including a substantial addition to an ongoing line of inquiry.

(D) Whether a specific research design has been proposed, and the quality and appropriateness of that design, including the scientific rigor of the studies involved.

(E) The extent to which the research design includes a thorough, high-quality review of the relevant literature, a high-quality plan for research activities, and the use of appropriate theoretical and methodological tools, including those of a variety of disciplines, where appropriate.

(F) The quality of the demonstration design and procedures for documenting project activities and results.

(G) The extent to which development efforts include iterative testing of products and adequate quality controls.

(H) The likelihood that the design of the project will successfully address the intended, demonstrated educational need or needs.

(I) How well and innovatively the project addresses statutory purposes, requirements, and any priority or priorities announced for the program.

(J) The quality of the plan for evaluating the functioning and impact of the project, including the objectivity of the evaluation and the extent to which the methods of evaluation are appropriate to the goals, objectives, and outcomes of the project.

(3) *Quality and potential contributions of personnel.*

(i) The Secretary considers the quality and potential contributions of personnel for the proposed project.

(ii) In determining the quality and potential contributions of personnel for the proposed project, the Secretary may consider one or more of the following factors:

(A) The qualifications, including training and experience, of the project director or principal investigater.

(B) The qualifications, including training and experience, of key project personnel.

(C) The qualifications, including training and experience, of proposed consultants or subcontractors.

(4) *Adequacy of resources.*

(i) The Secretary considers the adequacy of resources for the proposed project.

(ii) In determining the adequacy of resources for the proposed project, the Secretary may consider one or more of the following factors:

(A) The adequacy of support from the lead applicant organization.

(B) The relevance and commitment of each partner in the project to the implementation and success of the project.

(C) Whether the budget is adequate to support the project.

(D) Whether the costs are reasonable in relation to the objectives, design, and potential significance of the project.

(E) The potential for continued support of the project after federal funding ends.

(5) *Quality of the management plan.*

(i) The Secretary considers the quality of the management plan of the proposed project.

(ii) In determining the quality of the management plan of a proposed project, the Secretary may consider one or more of the following factors:

(A) The adequacy of the management plan to achieve the objectives of the project, including the specification of staff responsibility, timelines, and benchmarks for accomplishing project tasks.

(B) The adequacy of plans for ensuring high-quality products and services.

(C) The adequacy of plans for ensuring continuous improvement in the operation of the project.

(D) Whether time commitments of the project director or principal investigator and other key personnel are appropriate and adequate to meet project objectives.

(E) How the applicant will ensure that a diversity of perspectives are brought to bear in the operation of the project, including those of parents and teachers, where appropriate.

(F) How the applicant will ensure that persons who are otherwise eligible to participate in the project are selected without regard to race, color, national origin, gender, age, or disability.

(G) The adequacy of plans for widespread dissemination of project results and products in ways that will assist others to use the information.

(Approved by the Office of Management and Budget under control number 1850–0723)

(Authority: 20 U.S.C. 6011(i)(2)(D)(ii))

§ 700.31 What additional evaluation criteria shall be used for grants and cooperative agreements?

In addition to the evaluation criteria established in § 700.30(e), the Secretary uses criteria or factors specified in the applicable program statute to evaluate applications for grants and cooperative agreements.

(Authority: 20 U.S.C. 6011(i)(2)(D)(ii))

§ 700.32 What evaluation criteria shall be used for contracts?

(a) The evaluation criteria to be considered in the technical evaluation of contract proposals are contained in the FAR at 48 CFR 15.605. The evaluation criteria that apply to an acquisition and the relative importance of those factors are within the broad discretion of agency acquisition officials.

(b) At a minimum, the evaluation criteria to be considered must include cost or price and quality. Evaluation factors related to quality are called technical evaluation criteria.

(c) Technical evaluation criteria may include, but are not limited to, the following:

(1) Technical excellence.
(2) Management capability.
(3) Personnel qualifications.
(4) Prior experience.
(5) Past performance.
(6) Schedule compliance.

(Authority: 20 U.S.C. 6011(i)(2)(D)(ii))

Subpart E—Selection for Award

§ 700.40 How are grant and cooperative agreement applications selected for award?

(a) The Secretary determines the order in which applications will be selected for grants and cooperative agreement awards. The Secretary considers the following in making these determinations:

(1) An applicant's ranking.

(2) Recommendations of the peer reviewers with regard to funding or not funding.

(3) Information concerning an applicant's performance and use of funds under a previous Federal award.

(4) Amount of funds available for the competition.

(5) Any other information relevant to a priority or other statutory or regulatory requirement applicable to the selection of applications for new awards.

(b) In the case of unsolicited applications, the Secretary uses the procedures in EDGAR (34 CFR 75.222(d) and (e)).

(Authority: 20 U.S.C. 6022(i)(2)(D)(i))

§ 700.41 How are contract proposals selected for award?

Following evaluation of the proposals, the contracting officer shall select for award the offeror whose proposal is most advantageous to the Government considering cost or price and the other factors included in the solicitation.

(Authority: 20 U.S.C. 6011(i)(2)(D)(i))

Part III

Department of Education

Grants and Cooperative Agreements; Availability, etc.: Educational Research and Development Centers Program; Notices

DEPARTMENT OF EDUCATION

Office of Educational Research and Improvement (OERI); Educational Research and Development Centers Program

AGENCY: Department of Education.

ACTION: Notice of final priorities.

SUMMARY: The Secretary announces final priorities to support seven national research and development centers that would carry out sustained research and development to address nationally significant problems and issues in education.

EFFECTIVE DATE: These priorities take effect October 16, 1995.

FOR FURTHER INFORMATION CONTACT: Either—

1. Jacqueline Jenkins, U.S. Department of Education, 555 New Jersey Avenue NW, Room 510G, Washington, DC 20208–5573. Telephone: (202) 219–2232. Internet: Jackie—Jenkins@ed.gov or;

2. Judith Anderson, U.S. Department of Education, 555 New Jersey Avenue NW, Room 611B, Washington, DC 20208–5573. Telephone: (202) 219–2086. Internet: Judith-Anderson@ed.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Title IX of Public Law 103–227, the Educational Research, Development, Dissemination, and Improvement Act of 1994, reauthorized the Office of Educational Research and Improvement and established five new national research institutes to carry out coordinated and comprehensive programs of research, development, evaluation, demonstration, and dissemination designed to provide research-based leadership for the improvement of education. The five institutes are—

(1) The National Institute on Student Achievement, Curriculum, and Assessment;

(2) The National Institute on the Education of At-Risk Students;

(3) The National Institute on Educational Governance, Finance, Policy-Making, and Management;

(4) The National Institute on Early Childhood Development and Education; and

(5) The National Institute on Postsecondary Education, Libraries, and Lifelong Learning.

The institutes support sustained research and development focused on significant national problems and issues in education conducted by national research and development centers. The statute specifies that each institute will support one or more national research and development centers. For the purpose of this notice, Priority 1 is related to the National Institute on Early Childhood Development and Education; Priorities 2 and 3 are related to the National Institute on Student Achievement, Curriculum, and Assessment; Priority 4 is related to the National Institute on the Education of At-Risk Students; Priority 5 is related to the National Institute on Educational Governance, Finance, Policy-Making, and Management; and Priorities 6 and 7 are related to the National Institute on Postsecondary Education, Libraries, and Lifelong Learning.

The Office of Educational Research and Improvement (OERI), through a series of meetings, regional hearings, and **Federal Register** Notices, solicited advice from parents, teachers, administrators, policy-makers, business people, researchers, and others to identify the most needed research and development activities. After reviewing this advice, the Secretary published on April 10, 1995, a notice in the **Federal Register** (60 FR 18340) inviting written public comments on proposed priorities for seven national educational research and development centers that would carry out sustained research and development to address nationally significant problems and issues in education. Written public comments were to be submitted by May 25, 1995.

On June 8, 1995, at the meeting of OERI's National Educational Research Policy and Priorities Board (Board), the Board reviewed and commented on staff summaries of the written public comments. A committee of the Board held a public meeting on July 18, 1995, to review the written public comments and to make recommendations to the Assistant Secretary on the priorities. The Department has incorporated the committee's recommendations and explained the reasoning for those recommendations in the comment/discussion sections of the document.

Note: This notice of final priorities does not solicit applications. A notice inviting applications under this competition is published in a separate notice in this issue of the **Federal Register**.

Analysis of Comments and Changes

In response to the Secretary's invitation in the notice of proposed priorities, 248 parties submitted written comments. An analysis of the comments and of the changes in the priorities since publication of the notice of proposed priorities is published as an appendix to this notice of final priorities. Major issues are grouped according to subject. Technical and other minor changes and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority are not addressed.

Absolute Priorities

Under 34 CFR 75.105(c)(3), the Secretary gives an absolute preference to applications that meet both the general priority and one of the individual priorities listed below. Funding of any individual priority will depend on the availability of funds, priority, and the quality of applications received.

General Absolute Priority: Each national research and development center must—

(a) Conduct a coherent, sustained program of research and development to address problems and issues of national significance in its individual priority area, using a well-conceptualized and theoretically sound framework;

(b) Contribute to the development and advancement of theory in the area of its individual priority;

(c) Conduct scientifically rigorous studies capable of generating findings that contribute substantially to understanding in the field;

(d) Conduct work of sufficient size, scope, and duration to produce definitive guidance for improvement efforts and future research;

(e) Address issues of both equity and excellence in education for all students in its individual priority area; and

(f) Document, report, and disseminate information about its research findings and other accomplishments in ways that will facilitate effective use of that information in professional development for teachers, families, and community members, as appropriate.

Absolute Priority 1: Enhancing Young Children's Development and Learning

Under this priority, a national research and development center must—

(a) Conduct research and development on enhancing the development and learning of young children from birth to age eight, with special focus on children who are placed at risk of educational failure because of community, economic, linguistic, family, or disability factors; and

(b) Include in its work research or development related to the following topics:

(1) Effective practices and programs for maximizing the development and learning of young children from diverse

backgrounds, emphasizing the whole child and developmentally appropriate strategies;

(2) Effective professional development for educators and other early childhood personnel;

(3) Family and community support for young children's development and learning; and

(4) Effective programs and practices for supporting young children during crucial transition periods, from infant to toddler, toddler to preschooler, and preschooler to early elementary school student.

(c) Develop and field test a set of 3–5 hypothetical cases that can be used in training and other settings to help practitioners, families, and community members develop and extend their knowledge and skills to address effectively the development and learning needs of young children; and stimulate new debate, hypotheses, and research.

Absolute Priority 2: Improving Student Learning and Achievement

Under this priority, a national research and development center must—

(a) Conduct research and development on improving student achievement, which must be comprised of research and development on improving learning, teaching, and assessment within a content area; and

(b) Include in its work research or development related to the following topics:

(1) How students acquire knowledge and skills;

(2) Curriculum and effective instruction, including the use of technology, which reflects current understanding of cognitive development, the social context of learning, and student motivation;

(3) Effective professional development for teachers and other school personnel; and

(4) Assessment for improving teaching and learning, including the technical quality of such assessments.

Absolute Priority 3: Improving Student Assessment and Educational Accountability

Under this priority, a national research and development center must—

(a) Conduct research and development on improving student assessment; and

(b) Include in its work research or development related to the following topics:

(1) Development and use of assessments aligned with curriculum and instruction to promote improved teaching, learning, and educational accountability, including the use of assessment in student placement;

(2) The use of accommodations, adaptations, and alternative assessments to enable all students to participate in assessment systems;

(3) The creation of coherent systems that assess diverse student outcomes using multiple measures and multiple assessments; and

(4) The technical quality (validity, reliability, fairness, and content and skill coverage) of different types of assessments and assessment systems, including accommodations, adaptations, and alternative assessments.

Absolute Priority 4: Meeting the Educational Needs of a Diverse Student Population

Under this priority, a national research and development center must—

(a) Conduct research and development on meeting the educational needs of an increasingly diverse student population, including students who are at risk of educational failure because of limited English proficiency, poverty, race, geographical location, or economic disadvantage; and

(b) Include in its work research or development related to at least two of the following topics:

(1) Instructional strategies that recognize and build on the strengths of students from diverse backgrounds to help all students achieve to high academic standards;

(2) Training and professional development activities that enhance the ability of educators, families, and communities to help language minority students and other students at risk of educational failure achieve to high academic standards;

(3) Working with families and community-based organizations, through such means as structuring out-of-school experiences as well as providing support for school-based programs, to help students at risk of educational failure achieve to high academic standards; and

(4) Ways that federal, state, tribal government, and community reform efforts can be designed so that language minority students and other students at risk of educational failure learn to high standards.

Absolute Priority 5: Increasing the Effectiveness of State and Local Education Reform Efforts

Under this priority, a national research and development center must—

(a) Conduct research and development on increasing the effectiveness of state and local efforts to reform elementary and secondary education; and

(b) Include in its work research or development related to the following topics:

(1) Local and school level strategies for reform that create supportive and secure learning environments and lead to improved learning by all students including district and/or schoolwide reforms and partnerships and productive collaboration among families, communities, and schools;

(2) State and local policies that support improved learning by all students including aligning elements of the education system to achieve challenging student standards, enhancing licensing systems for teachers and other education professionals, and providing incentives for reform;

(3) State and local finance strategies that lead to improved learning by all students, including strategies for the equitable distribution of programs and services and strategies for the productive allocation of resources;

(4) State and local governance arrangements that support improved learning by all students including those that involve new opportunities and responsibilities for educators, families, and communities; and

(5) The factors that contribute most to the success of state, district, and school-level reforms, from initiation through implementation to "scaling up," including how variations in context affect the implementation and effects of various strategies.

Absolute Priority 6: Improving Postsecondary Education

Under this priority, a national research and development center must—

(a) Conduct research and development on improving quality, productivity and outcomes of postsecondary education; and

(b) Include in its work research or development related to three or more of the following topics:

(1) Transitions from school to work, or to further education, for secondary and postsecondary students, including, but not limited to, development of effective K–16 systems;

(2) Relationships among students' participation and progress in postsecondary education, their academic achievement, and their later employment outcomes;

(3) Approaches to professional development geared to improving

postsecondary instruction and student learning, including preparation of K–12 educators;

(4) Improvement of postsecondary student learning and assessment; and

(5) Containing costs and improving the productivity and accountability of postsecondary institutions.

Absolute Priority 7: Improving Adult Learning and Literacy

Under this priority, a national research and development center must—

(a) Conduct research and development on improving adult learning and literacy through delivery methods and systems other than postsecondary institutions, including the basic skills needed for work and responsible citizenship; and

(b) Include in its work research or development related to topic (b)(2) below and one or more of the other topics:

(1) Adult acquisition of knowledge and development of linguistic, quantitative, and reasoning skills, including adult acquisition of second-language skills and computer skills;

(2) Effective strategies and technology for providers, including libraries, community organizations, and family literacy programs, to improve adult learning and literacy for all adult populations, including adults with special needs and those needing English as second language instruction;

(3) Effective methods, including use of technology, for professional development of instructional staff for adult education and literacy programs, including English as second language programs and programs for adults with special needs; and

(4) The assessment of adult learning and literacy.

Post-Award Requirements

The Secretary establishes the following post-award requirements consistent with the Educational Research, Development, Dissemination, and Improvement Act of 1994. A grantee receiving a center award must—

(a) Provide OERI with information about center projects and products and other appropriate research information so that OERI can monitor center progress and maintain its inventory of funded research projects. This information must be provided through media that include an electronic network;

(b) Conduct and evaluate research projects in conformity with the highest professional standards of research practice;

(c) Reserve five percent of each budget period's funds to support activities that fall within the center's priority area, are designed and mutually agreed to by the center and OERI, and enhance OERI's ability to carry out its mission. Such activities may include developing research agendas, conducting research projects collaborating with other federally-supported entities, and engaging in research agenda setting and dissemination activities; and

(d) At the end of the award period, synthesize the findings and advances in knowledge that resulted from the Center's program of work and describe the potential impact on the improvement of American education, including any observable impact to date.

Authority: Pub. L. 103–227, Title IX.

Dated: August 31, 1995.

Sharon Porter Robinson,

Assistant Secretary for Educational Research and Improvement.

(Catalog of Federal Domestic Assistance Numbers 84.305, 84.306, 84.307, 84.308, and 84.309 Educational Research and Development Centers Program)

Appendix—Analysis of Comments and Changes

General Absolute Priority

Summarized below are comments which either referred specifically to the General Absolute Priority or cut across all the priorities.

Comments Related to Improving Practice

Comments: Six commenters recommended changes which they believed would increase the likelihood that the centers would conduct research likely to improve practice. The comments included: Add statement about the importance of translating research findings to improvements in practice; include stronger language to encourage utilization of the outcomes of the research program by practitioners; replace the phrase "will allow others to use that information" in (f) with "will encourage effective use of that information;" and add an additional requirement, "(g) Increasing the capacity of field-based practitioners." Another commenter stated that all work must include practitioner-researcher collaborations. The Board committee similarly recommended that stronger language be used to ensure that Center research findings are actually used in professional development activities for teachers, families, and community members.

Discussion: The Secretary agrees that the centers should conduct research which is likely to improve practice and that dissemination plays an integral role in research and development activities that promise to have a positive impact on improving education. The Secretary also agrees about the importance of translating research findings so that results of research may find their way into practice.

Changes: The Secretary has amended (f) to read "Document, report, and disseminate information about its research findings and other accomplishments in ways that will facilitate effective use of that information in professional development for teachers, families, and community members, as appropriate."

Comments on Technology

Comments: Five commenters submitted comments related to technology. One commenter recommended the establishment of a national center on educational technology or that a requirement to conduct research and development on promoting the use of educational technology be included in the general absolute priority. One commenter was concerned about the lack of any mention of research in the area of computer technology. Two commenters said that technology should be dealt with as a cross-cutting issue. Another commenter requested that all of the institutes include work on assistive technology.

Discussion: The Secretary agrees that technology should be dealt with as a cross-cutting issue. Therefore, a separate center on this topic is not appropriate. Furthermore, the Secretary believes that the particular types of research in the area of technology should be proposed by the applicants and not mandated by the Department. The Secretary encourages all applicants to identify appropriate research topics related to technology.

Changes: None.

Comments on Coordination

Comments: Seven commenters noted the importance of communication and coordination. One commenter stated that the centers must communicate with each other in areas of overlap, as well as establish working relationships with the Regional Laboratories. Several commenters made more specific recommendations concerning coordination and communication: Include funds for consultations with parent and education advocacy organizations; require collaboration with other federally-supported entities in the absolute priority, not in the post-award requirement; require that the centers and the other research components in ED, including the research component in the Office of Special Education Programs, maintain regular contact; require centers to develop interagency working agreements with agencies and other entities to promote inter-institutional cooperation and private/public partnerships in the delivery of educational and library services, as well as to emphasize research into organizational design and educational management and delivery systems; and require the new centers to work directly with professional societies, in order to link the research agenda to specific subject areas.

Discussion: The Secretary believes that research and development centers should work with federally supported institutions and other entities to maximize the impact that their activities may have on improvements in the educational system. The instructions provided to applicants will provide examples of ways in which proposed centers could collaborate with these types of entities.

The Secretary believes that inter-institutional cooperation and partnerships for

the delivery of educational and library services are important, as is research on organizational design and educational management and delivery systems, but that these are not areas of research which should be mandated for all research and development centers.

Changes: None.

Comments on Dissemination

Comments: Four commenters recommended that the requirements for dissemination should be strengthened. These commenters recommended that the requirement for documenting, reporting, and disseminating information be strengthened; that an essential component of the centers be the development and implementation of effective dissemination strategies; and that dissemination be given a higher priority.

Discussion: The Secretary believes that dissemination plays an integral role in research and development activities that promise to have a positive impact on improving education. The Secretary believes that the particular types of dissemination activities that will best accomplish this objective depend on (1) the nature of the research knowledge being generated and (2) the potential users of this knowledge. The application package will provide examples of possible dissemination strategies.

Changes: None.

Comments Related to Cost

Comments: Three commenters recommended that the centers be required to address issues of cost or cost-effectiveness. These commenters recommended that each center be challenged not only to address issues of equity and excellence, but also to address issues related to adequacy of resources in its individual priority area; that centers should provide an assessment of the resources required to implement the practices and programs they research and develop; that cost or cost-effectiveness research should be required under all of the priorities; and that each research study should address the issue of cost-effectiveness and creative models and partnerships that could improve cost-effectiveness.

Discussion: The Secretary agrees with the importance of the issues raised by the commenters but believes that grant applicants should be allowed maximum flexibility to develop research agendas within the absolute priority areas. In addition, the Secretary believes it is inappropriate to mandate specific research topics, such as cost-effectiveness, given the limited resources available for supporting the centers. However, applicants are encouraged to address these issues as appropriate in their overall research plans.

Changes: None.

Comments Related to Students With Disabilities

Comments: Eight commenters recommended that the priorities place greater emphasis on students with disabilities. Several commenters stated that all the centers should be required to include research activities on the educational problems of students with disabilities, with one commenter recommending setting aside one-third of their funds to support efforts on this issue. Another commenter recommended requiring grantees to include weighted samples of populations of students with serious emotional disturbance; requiring all institutes to set aside at least 10 percent of funds to study these populations; and inserting the word "all" before the word "students" throughout all of the priorities.

Discussion: The Secretary believes that problems and issues of national significance addressed in the individual priorities are relevant to the needs of all students. In many instances individual children and youth fall into several population categories, for example, young children with disabilities living in rural poverty. The Secretary believes that better applications will result if applicants are allowed to propose and justify what population or populations will be studied in their proposed centers' research and development activities. However, the Secretary does believe that it is important to ensure that centers consider the needs of all students as they design their research activities.

Changes: The Secretary has modified the General Absolute Priority to make clear that the needs of all students are to be included in centers' research. The revised priority states: "(e) Address issues of both equity and excellence in education for all students in its individual priority area."

Comments Related to Size, Scope, and Methodology

Comments: Nine commenters recommended various changes related to issues of size, scope, and methodology. One commenter recommended adding a requirement that each center must produce at least one definitive study, and, in addition, suggested a requirement that each center must embed internal and external evaluation in all activities. One commenter stated that the emphasis on size, scope, duration, and definitive guidance will lead to biasing proposals toward large scale empirical studies; this commenter wanted the priority to specifically mention funding for small scale projects. One commenter was concerned there would be too many centers and too many mandated tasks for some centers given the amount of funding. Another commenter supported the emphasis on scientific research of sufficient scope to answer key questions. This commenter also recommended that the Department give priority to centers that take advantage of major research efforts underway and design new research targeted to questions that cannot be answered by on-going research or existing data bases. One commenter recommended that the scope should be defined to include depth as well as breadth of topics; and one commenter stated that explicit mention should be made of the desirability of multidisciplinary perspectives. Another commenter believed that the individual topics included in the research or development to be undertaken by the centers are written at an appropriate level of specificity. One commenter did not like the idea of large centers addressing broad areas and would prefer either more, smaller grants, or requiring multi-site proposals, with offerers allowed at least nine months to assemble proposals. Another commenter recommended including in section (b) of the General Absolute Priority the expectation that the centers would contribute to methodological advances in the field.

Discussion: The Secretary agrees that each center should produce at least one definitive study and believes that section (d) of the General Absolute Priority is sufficient to ensure that centers will meet this requirement. The Secretary agrees that centers should evaluate their work, and believes that the requirement to conduct scientifically rigorous studies will ensure that centers are held accountable for conducting high quality research. The Secretary does not believe that requiring work of sufficient size, scope, and duration to produce definitive guidance will prohibit centers from conducting small studies. The Secretary encourages the use of multidisciplinary approaches, but does not believe that they should be mandated; instead, applicants should be allowed the opportunity to select approaches which they believe represent the best possible center package. The Secretary does not believe that the centers are too large, or that they are addressing areas that are too broad. The legislative mandate calls for centers that are "of sufficient size, scope, and quality * * * to support a full range of basic research, applied research and dissemination activities." The Secretary believes that it is reasonable to require sustained research across the five years of the grant.

Changes: None.

Requests for Funding Additional Centers

Comments: Several commenters recommended funding additional centers. One wanted to add an evaluation center. One commenter requested that the Department establish a center for policy research and decisionmaking. Thirty-three commenters expressed support for continued funding of a center on families. Eighty commenters voiced support for continued funding of centers in the language arts, e.g., writing and literature. Thirty-two commenters expressed support for continuing a center on research on evaluation of educational personnel and teacher professionalization. Four commenters suggested that there should be a focus on content areas; another was especially concerned about science and mathematics.

Discussion: Given the Congressional mandate to support centers "of sufficient size, scope, and quality * * *" and given limited resources, the Secretary recognizes that these priorities cannot address all of the topics recommended by the commenters.

Changes: None.

Cross-Cutting Issue of Eligibility

Comment: One commenter recommended that non-profit organizations as well as institutions of higher learning be eligible to apply for center grants.

Discussion: The statute requires that grants be awarded to centers "established by institutions of higher education, by institutions of higher education in consortium with public agencies or private non-profit organizations, or by interstate agencies established by compact which operate subsidiary bodies established to conduct postsecondary educational research and development."

Changes: None.

Other Cross-Cutting Issues

Comments: A variety of other comments were related to cross-cutting issues or the priorities as a whole. One commenter requested an emphasis on the importance of family and community contexts, as well as of schools. One commenter stated that all centers should be expected to address issues over the full range of differences among individuals. One commenter expressed concern over the role of libraries and information services in the proposed research priorities. One commenter stated that for each of the seven priorities, a great deal of information on best practice is available, that this information needs to be summarized and shared, and that the institutes should form best practice review boards. One commenter suggested that all of the proposed priorities should address the needs of diverse student populations. One commenter stated that tribal involvement and consultation should be considered throughout the description of the seven priority areas. One commenter wanted the final priorities to include an absolute requirement that centers demonstrate capacity and interest in developing student-centered research and development strategies; include plans for involving students and their families in the development of the work of the center; and include plans for the demonstration of the ultimate student-centered outcomes which result from the work. One commenter stated that cross-research activity would strengthen the centers, and recommended allowing each center to conduct a portion of its work in a related priority area. One commenter suggested that the research agenda should include programs that assist state and local educators with implementation of improvements. One commenter expressed a number of concerns including: The apparent lack of an overall guiding plan; too limited information for applicants about the priorities and about existing activities; an unclear distinction between research and development; too little integration of proposed work with other OERI activities; inadequate integration of similar research and development tasks across the centers; failure to identify key intervention points in the life course; and failure to address some of the most important ways of helping disadvantaged students. One commenter stated that it is unclear how the seven centers relate to the five Institutes; and one commenter wanted to know why field-initiated research was not mentioned.

Discussion: The Secretary recognizes that there is merit to many of these suggestions. However, the Secretary believes that the mandatory requirements imposed on applicants should be held to a minimum in order to allow applicants the flexibility to propose work that will lead to the improvement of American education. Applicants are required to conduct a coherent, sustained program of research and development to address problems and issues of national significance within an individual priority, but the Secretary believes decisions about which issues to cover should be left to the applicant. The section entitled "Supplementary Information" provides further clarification of the relationship between the seven centers and the five Institutes. The statute requires that each Institute reserve at least 20 percent of its funding each fiscal year for field-initiated studies.

Changes: None.

Absolute Priority 1: Promoting the Cognitive and Social-Emotional Development of Young Children

Overview: A total of 48 letters contained comments on Priority 1. Some commenters discussed more than one topic in their correspondence.

Comments Related to the Title

Comments: Seven commenters expressed concern that the title focused too narrowly on cognitive and social-emotional development alone and thereby failed to consider the total development of the child. Two of these commenters recommended that the title be expanded to include the physical development of young children. Two commenters wanted the title to include health outcomes for children. Three of the commenters suggested that language and/or motor development also be included. Another commenter suggested the title be changed to "Services that Promote the Cognitive and Social-Emotional Development of Young Children." Another wanted the title to focus solely on the cognitive development of young children.

Discussion: The Secretary agrees that school readiness extends beyond the dimensions of cognitive and social-emotional development and that the focus of research and development in this topical area should be holistic.

Changes: The Secretary believes that the phrase "development and learning" conveys the priority's intent to focus on the whole child. Consequently, the Secretary has modified the priority's title to read: "Enhancing Young Children's Development and Learning."

Comments Regarding Focus

Comments: Fifteen commenters believed that the priority should shift its focus from young children to their environments, which the respondents defined as family, teachers and other significant caregivers. These commenters stated that there is considerable research in the field on child development and on the factors which directly influence children's well-being. The commenters believe that what is needed is research on programs, strategies and policies which influence parents, educators, and others in the child's environment and enable them to become more effective in supporting children. The commenters maintain that it is just as important for schools to be ready for children, as it is for children to be ready for school. Several commenters recommended the priority's research and development activities should include: Interprofessional development and collaboration—research designed to inform "professional practice, professional development, and policy;" the relationship between public policies and the abilities of parents and educators to support children's development, including family leave policy, proposed reductions in social service programs, and consolidation of categorical child care and early childhood programs into block grants to the States; effective dissemination of early childhood information for use by parents and professionals; and involvement of early childhood professionals in research efforts by the international community.

Discussion: The Secretary believes that young children should remain the central focus of this center. However, the Secretary also understands that research on improving the environments which shape child development is an integral part of this center's work. The Secretary agrees that this priority should include research and development activities on interprofessional development. The Secretary further believes that research can guide and inform policy. Therefore, applicants may choose to address policy issues in their applications, but it is not a requirement.

Changes: In responding to the calls for an emphasis on young children's environments and work on interprofessional development, the Secretary has amended this priority to specifically address these concerns in sections (b) and (c).

Comments on Targeted Populations

Comments: Fourteen comments addressed the parameters of the priority's target populations. Although the proposed priority did not specify an age range, seven commenters recommended that research and development activities focus on children from birth to the age of eight. Five commenters wanted to clarify the phrase "children * * * at risk" in section (a) by adding specific risk factors, including biological, socio-cultural, environmental, and disabling conditions. One commenter wanted to modify section (a) by replacing the word "especially" with "including," to preclude the proposed center from duplicating the work of an already-established center for the education of children at-risk.

Discussion: The Secretary agrees that the concept of "young children," for the purposes of this center, should extend from birth to the age of eight. The Secretary also agrees that it is important to make clear that children who are culturally, economically and/or biologically vulnerable, as well as children with disabling conditions, are not to be excluded from research activities. However, the Secretary believes that each of these suggested factors of risk is already encompassed in section (a), and therefore, the Secretary has not changed the list of enumerated factors. Furthermore, the Secretary recognizes that the proposed center and the existing center for students placed at risk of educational failure do share a focus on the early elementary grades. The Secretary believes, however, that the work of each center will be unique and not duplicative. Therefore, the Secretary sees no need to modify the language of this priority by replacing the word "especially" with the word "including."

Changes: The Secretary has amended section (a) of the final priority to clarify the target population as children from birth through the age of eight.

Comments on Families: Three commenters recommended that the role of families needs to be strengthened throughout the priority. One commenter stated that the proposed priority "ignores the central role families play in the educational development of children." One commenter stated that "family processes have profound effects on early development and should be considered both in studies of development and in studies of policy and services." One commenter recommended that the priority should address family-centered approaches that can be adapted to diverse community contexts. Similarly, the Board committee recommended that families and communities be further emphasized in this priority.

Discussion: The Secretary understands the critical impact of families on young children's development and success in school and consequently the need for research and development activities that can strengthen supports and services for families.

Changes: The Secretary has amended the final priority to include revised sections (b) and (c) in order to give greater emphasis to the role of the family and community throughout the entire final priority.

Comments on Services and Supports

Comments: Twelve commenters addressed the topic of services and supports within communities, schools, and families and offered recommendations on the kinds of research and development activities that should be included in the priority: Service integration strategies for meeting the needs of children, families, and practitioners; community barriers to the distribution of needed services; impact of cultural factors on the delivery of early childhood services; collaboration among service providers, including coordination among child care providers and early childhood educators; coordination of research conducted under this priority with results of last year's OERI conference on school-linked services; the role of libraries and museums in early childhood development and education; and the role of technology in the classroom.

Discussion: The Secretary believes that quality comprehensive services provided by families, preschools, child care facilities, schools, libraries, museums, and other community resources, increase the opportunity for all children to come to school ready to learn, and that research and development activities on this topic should be a part of this center's work.

Changes: The Secretary believes that comprehensive supports and services are encompassed within revised section (b).

Absolute Priority 2: Improving Student Learning and Achievement Overview: A total of 114 letters provided comments on Priority 2. Some commenters discussed more than one topic in their correspondence.

Comments on the Integration of Priorities 2 and 3

Comments: Five commenters stated that successful education reform requires the integration of issues of curriculum, assessment and student learning. In order to ensure continuous coordinated research efforts across these topics, these commenters recommended that the Department support coordinated studies of student learning, curriculum, and assessment. Two commenters recommended that this priority be modified to address the integration of assessment practices into the curriculum.

Discussion: The Secretary believes that assessment tied to curriculum and instructional strategies can improve student learning. To ensure that assessments are aligned to instruction, the Secretary has added a new topic to the priority. In addition, the Secretary has maintained Priority 3 and modified the wording of that priority to align the development and use of assessments with curriculum and instruction.

Changes: The Secretary has added a new topic (b)(4) which reads: "Assessment for improving teaching and learning, including the technical quality of such assessments."

Comments on Separate Content Areas

Comments: One hundred and six commenters recommended changes in the six topics of the proposed priority. Many of the commenters recommended reorganizing the entire priority to emphasize the core academic content areas. Eighty-seven commenters recommended support for separate content centers in the areas of English/ English language arts, writing, literacy, reading, and literature. Frequently these commenters stated that English language arts are fundamental to subsequent student achievement. In addition, many of the commenters supported continuing the existing centers on writing and literature. Nineteen commenters stated that content-oriented centers would have a more direct impact on instruction and learning than the proposed achievement and assessment centers. These commenters reasoned that effective teaching and instructional strategies are content-specific and that most teachers' questions relate to problems of instruction in specific content areas. The commenters suggested that the priority be altered to include content-oriented centers such as science, math, and English.

Discussion: The Secretary agrees that instructional strategies, professional development, and assessment should all be tied to content areas. The Secretary has restructured this priority so that applicants will identify content areas and propose research and development activities in areas of student learning, instructional strategies, professional development, and assessment related to those content areas. The Secretary believes, however, that applicants should identify the content areas for which research and development will be most productive. In the application package instructions, applicants will be reminded of the requirement to specify the content areas, e.g., English, mathematics, writing, or science, on which they propose to focus their investigations.

Changes: The Secretary has revised Priority 2 (a) to read: "Conduct research and development on improving student achievement, which must be comprised of research and development on improving learning, teaching, and assessment within a content area."

Comments on Topic Areas

Comments: Thirteen commenters recommended that technology, the evaluation of school personnel, and family and community be included in the priority. Some of these commenters recommended requiring the center to look into how technology should be used to improve student learning and achievement. The commenters also recommended including investigation of family involvement as a means to improve student learning and achievement, and investigation of the relationship between personnel evaluation of teachers and student achievement. The Board committee recommended that work related to curriculum and instruction reflect current knowledge about cognitive development, the social context of learning, and student motivation.

Discussion: The Secretary recognizes that these and many other factors can lead to improved student achievement. Family, community, and other out-of-school factors have important impact on the improvement of student learning and achievement. In fact, the Secretary believes that many of these recommendations fall within the scope of the priority's topics and could be the subject of the center's research projects. Applicants are encouraged to consider the most effective ways to investigate both in- and out-of-school factors which influence student achievement. To emphasize the important role of technology in improving student achievement, the Secretary has explicitly included technology as one method of instruction to be investigated. To emphasize the important roles of cognitive development, the social context of learning, and student motivation, the Secretary has also explicitly included the requirement that center research on curriculum and effective instruction reflect current understanding of these factors.

Changes: The Secretary has modified topic (b)(2) to read: "Curriculum and effective instruction, including the use of technology, which reflect current understanding of cognitive development, the social context of learning, and student motivation."

Comments on the Scope of the Priority

Comments: Four commenters stated that the priority was too broad in its scope, making it impossible for one center to pursue high quality work in all six areas. These commenters recommended that applicants be given the option of identifying which of the topics to investigate.

Discussion: The Secretary agrees that research and development centers should concentrate their efforts on the most important teaching and learning issues. By changing the priority to focus on content areas and by reducing the number of topics, the Secretary has made it possible for applicants addressing this priority to develop a coherent, focused set of research studies. The Secretary has deleted topics that addressed school organization and school environment. Applicants are encouraged to propose work that will be sensitive to these and other issues as appropriate to their overall research plan.

Changes: The Secretary has reduced the number of topics listed in the priority from

/OL
60
SS
1
7
8
SE
14
995
MI

six to four, and has limited the work to a content area or content areas. The Secretary has revised Priority 2 (a) to read: "Conduct research and development on improving student achievement, which must be comprised of research and development on improving learning, teaching, and assessment within a content area."

Absolute Priority 3: Improving Student Assessment and Educational Accountability

Overview: A total of 17 commenters provided comments on Priority 3.

Comments on Topic Areas

Comments: Four commenters recommended specific topics for inclusion in assessment. These commenters stated that "core content areas" should include geography, arts, humanities, physical education, English, mathematics, social studies, science and foreign languages. These commenters also indicated that the measurement of students' interdisciplinary knowledge and students' cognitive, social, emotional and physical development should be included in assessments.

Discussion: The Secretary believes that the identification of topics to be included in assessments should be up to the applicant. Applicants are encouraged to identify content areas which will be the focus of their research on assessment. The Secretary believes that all these topics can be addressed using the current wording.

Changes: None

Comments on Ways to Improve Assessments

Comments: Four commenters recommended various ways to improve assessments. These commenters stated that assessments should be accurate and devoid of cultural or gender bias. Commenters also stated that the center should explore the creation and use of alternative assessments. The Board committee recommended that this priority be modified to include research on the use of assessments to improve teaching and learning, as well as educational accountability. The Board further recommended that the center's work include research on the use of assessments for student placement.

Discussion: The Secretary agrees that assessments should be of high technical quality and free of bias so that assessments can be used to measure the performance of all students. The Secretary believes that the existing language in topic (b)(4) of "validity, reliability, fairness, and content and skill coverage" adequately covers issues of technical quality and bias. Therefore, no additional language is necessary. In addition, the Secretary believes that different types of assessments, including alternative assessments, present fruitful areas for investigation. The Secretary has added language on alternative assessments to the priority. The Secretary further believes that assessments should promote improved teaching and learning and that particular emphasis on the use of assessments for student placements is appropriate. The Secretary has added language on this area to topic (b)(1).

Changes: The Secretary has amended topic (b)(4) to read: "The technical quality (validity, reliability, fairness, and content and skill coverage) of different types of assessments and assessment systems, including accommodations, adaptations, and alternative assessments." Further, the Secretary has amended topic (b)(1) to read: "Development and use of assessments aligned with curriculum and instruction to promote improved teaching, learning, and educational accountability, including the use of assessment in student placement."

Comments on Special Populations

Comments: Four commenters recommended that the priority explicitly include special education and bilingual populations of students in the priority's scope. These commenters also stated that school systems often exclude language minority students from educational assessment programs. The commenters said that research on assessment should consider issues related to the inclusion of students with disabilities, especially regarding test modifications and testing accommodations.

Discussion: Assessments and assessment systems should be able to reliably and validly measure the performance of all students. Therefore, the Secretary has added a new topic to the priority for research on the accommodations, adaptations, and alternative assessments which will enable all students to participate in assessment systems.

Changes: The Secretary has modified the General Absolute Priority to reinforce that all students are to be included. The revised General Absolute Priority reads: "(e) Address issues of both equity and excellence in education for all students in its individual priority area." Furthermore, the Secretary has added a new topic (b)(2) to Priority 3 which reads: "The use of accommodations, adaptations, and alternative assessments to enable all students to participate in assessment systems." The Secretary has also modified (b)(4) of Priority 3 to include "including accommodations, adaptations, and alternative assessments."

Comments on Combining Priorities 2 and 3

Comments: Five commenters recommended combining student learning and assessment into a single priority. These are the same comments discussed under Priority 2.

Discussion: As stated previously, the Secretary has modified Priority 2 to include assessment issues. Although the Secretary agrees that some assessment research and development and the improvement of teaching and learning in content areas should be closely linked, the Secretary believes that a number of issues related to assessments, assessment systems, and accountability warrant attention by a center which focuses first on assessment and secondly on content areas.

Changes: In addition to the changes in Priority 2, the Secretary amended (b)(1) of Priority 3 to read: "The development and use of assessments aligned with curriculum and instruction to promote improved teaching, learning, and educational accountability, including the use of assessment in student placement."

Absolute Priority 4: Meeting the Educational Needs of a Diverse Student Population

Overview: A total of 30 letters contained comments on Priority 4. The comments are grouped by topical area.

Comments on the Entire Priority

Comments: Eight commenters provided comments about Priority 4 as a whole. Four commenters voiced total support for the priority. Four commenters expressed reservations. One of the latter four stated that ample information is available on the topical area, and that the Institute should begin by collecting and analyzing existing information. Other commenters recommended that limited research dollars be allocated elsewhere and used to support broader research on improving student learning and achievement; that the work proposed for this center should be integrated with similar activities in other priorities and the funds allocated for this center be given to other centers; that funds should not be used to support a center based on a diverse student population; and that the topics covered should be more limited given the center's likely funding.

Discussion: The Secretary believes this topical area is essential, and that a separate center devoted to this topic is warranted even given the reduction in the total number of centers to be funded. However, the Secretary agrees with the comment that it may be difficult for applicants to adequately address all of the topics in their proposals.

Changes: The Secretary has modified (b) to read "Include in its work research or development related to at least two of the following topics:".

Comments on Student Populations

Comments: Nine commenters recommended that the priority identify more specifically the population or populations of students included. Seven of these comments were related to students with disabilities. One expressed concern that the "diverse student" designation in this priority would serve as a catch-all for "other" students, including students with disabilities, rather than an assurance of the inclusion of all students in each center's efforts. The comments included: Add "disability" to the categories of risk; broaden the definition of risk to include students with behavioral and psychological problems; and modify the priority to add a focus on students with disabilities or to set aside a portion of funding to support research and development dealing specifically with the needs of special education students. Two commenters called for inclusion of additional groups or aiming efforts at specific categories of at-risk students, namely Pacific Island students and at-risk students with limited vocational job options. One commenter supported the inclusion of limited-English proficient students. One commenter stated that the priority should address the broad range of dimensions of student diversity.

Discussion: The statute authorizing the National Institute on the Education of At-Risk Students defines an at-risk student as "a student who, because of limited English proficiency, poverty, race, geographic

location, or economic disadvantage, faces a greater risk of low educational achievement or reduced academic expectations." The Institute is limited to funding research which meets the purposes of the statute.

Changes: The Secretary has modified the priority to include the exact wording of the statute.

Comments on Agencies

Comments: One commenter recommended that (b)(5) (now (b)(4)) be amended to add "tribal" to the list of agencies.

Discussion: The Secretary will modified the priority to add the words "tribal government."

Changes: The Secretary has modified the language of Priority 4 by adding "tribal government" to the list in (b)(4).

Comments on Topic Areas

Comments: Sixteen commenters provided comments on the proposed priority's five topics for research and development activities. One commenter stated that student diversity is so basic to our nation's schools that the topic should be incorporated into the other proposed priorities. Another stated that the most pressing need of diverse students is effective literacy lessons. Four commenters made recommendations concerning (b)(2), as follows: Professional development should also include the preparation of teachers and other school personnel, and professional development is so vital that an additional priority on this topic should be added; support for highlighting professional development in Priority 4 and a recommendation that it be similarly highlighted in the other priorities; a statement that professional development research should ensure that appropriately certified school personnel are prepared to work effectively with American Indian students; a statement that methods of assessing teachers of at-risk students should be examined; and a statement that issues related to potential shortages of minority teachers should be investigated. Similarly, the Board committee recommended that topic (b)(2) be modified to include training activities for families and communities, as well as professional development for educators. Seven commenters expressed concerns regarding the scope of and language contained in (b)(3), including recommendations for amending the language to include libraries and museums as examples of out-of-school experiences, adding "* * * and become responsible citizens" to the language, and clarifying the phrases "structuring out of school experiences" and "learning to high standards," subsuming (b)(3) under (b)(4), or deleting (b)(3) altogether because it is not as crucial as the other topics. Three commenters supported (b)(4). Two letters recommended stressing the topic of (b)(4) among all centers and another recommended a number of studies to enhance knowledge of risk and resiliency factors in children and to generate policy recommendations. Two commenters specifically addressed the needs of language minority students under (b)(5). One stressed the importance to this population of English/language arts skills; the second commenter suggested requiring basic research on the process of second language acquisition and in-school learning experiences that enhance English proficiency and academic excellence.

Discussion: The Secretary recognizes the merit of the recommendations regarding in-school learning experiences and has modified (b)(1) to emphasize instructional strategies. The Secretary believes that the language in (b)(2) is sufficiently inclusive to provide for the population of teachers and other school personnel. However, the Secretary has revised (b)(2) to clarify that training activities for families and communities are included within the scope of the topic. The Secretary recognizes that there is merit to including libraries and museums as examples of out-of-school experiences. However, the Secretary does not wish to imply partiality toward particular types of learning experiences, preferring instead to encourage applicants to identify and justify the promising experiences that reflect the particular design of their proposed research and development activities. The Secretary has considered rewording the phrase "structuring out-of-school experiences". The Secretary believes that existing knowledge of effective practices in this area is significantly limited as to warrant a broader, more inclusive approach rather than a more narrow focus. The Secretary expects that applicants' concepts of out-of-school experiences will contribute to the merits of their proposals. The Secretary further believes that there is significant potential for identifying promising out-of-school practices which are not mutually exclusive of family and community-based experiences. Thus, the Secretary concurs with the suggestion that (b)(3) be subsumed under (b)(4).

Changes: Section (b)(1) has been modified to read "Instructional strategies that recognize and build on the strengths of students from diverse backgrounds to help all students to achieve to high academic standards." Section (b)(2) has been modified to include families and communities. Sections (b)(3) and (b)(4) of the priority have been modified to read: "(b)(3) Working with families and community-based organizations, through such means as structuring out-of-school experiences as well as providing support for school-based programs, to help students at risk of educational failure achieve to high standards."

Absolute Priority 5: Increasing the Effectiveness of State and Local Education Reform Efforts

Overview: In response to the Secretary's invitation in the notice of proposed priorities, 76 respondents submitted written comments regarding Absolute Priority 5: Increasing the Effectiveness of State and Local Education Reform Efforts. Some commenters discussed more than one topic in their correspondence.

General Comments: Sixteen commenters supported the focus of the proposed priority. Commenters noted the importance and usefulness of such research in the past and the ongoing need for research in the topic areas listed in the proposed priority. Several commenters provided specific references to useful research in this field. Five commenters expressed disapproval of the proposed priority. One warned against excessive federal intervention in education affairs. Another argued that all the priorities should be directly related to the Goals 2000 legislation. The third characterized the current list of topics under Priority 5 as an unfocused laundry list. The fourth argued that the priority focused on research that had already been done and that academics would continue to do this type of research even in the absence of a center on this topic. The fifth suggested that the proposed research should be conducted in other centers.

Discussion: The Secretary does not believe that the National Research and Development Centers Program represents excessive federal intervention into education affairs. The purpose of these centers is to provide information that will be helpful to educators as they carry out their programs. Because these centers are not intended to promote any particular predetermined reform strategy, the Secretary does not believe the priorities should be directly related to the Goals 2000 legislation. The Secretary has restructured the topics under this priority so they are more coherent rather than giving the appearance of a laundry list. The nonbinding mission guidance will also explain how the topics fit into an integrated whole. The Secretary believes that current reforms are more coherent than they have been in the past and the focus of this priority—the relationship between increased learning by all students and local and school level strategies for reform, state and local policies, finance strategies and governance arrangements—is an important advancement in both research and practice. Also, the Secretary believes that while some research on this topic will be conducted by independent academicians, the important work to be conducted by a center on this topic will not be carried out elsewhere. The Secretary believes that the proposed work is sufficiently distinct to be conducted at a separate center, but that the work of this center should be closely coordinated with work in other centers related to K–12 student achievement. Therefore, the substantive focus of the proposed priority has not be changed.

Changes: The language of the priority has been revised so the topics are more coherent.

Comments on Local and School Level Factors

Comments: Ten respondents commented about the importance of local and school level factors. Some of these emphasized the importance of the impact of these factors on student learning. Generally the comments noted the importance of understanding how local and school factors interact to support desired changes and how these factors interact with state and local policies. In addition, the Board committee recommended that topic (b)(1) be modified to emphasize the importance of supportive and secure learning environments as a target of local or school level reforms.

Discussion: The Secretary agrees that local and school level factors that influence student learning are important and should be studied by this center. The Secretary further agrees that supportive and secure learning environments are particularly important concerns at the local and school levels.

Changes: The priority has been revised to emphasize the importance of research on local and school level factors that influence student learning with particular emphasis on supportive and secure learning environments.

Comments Regarding Student Standards

Comments: Seven respondents commented on the topic of student standards. Most emphasized the importance of the topic. One recommended that work on this topic be coordinated with Title 1 evaluations and with the work the National Science Foundation is sponsoring on standards-based reform. Two argued that such work must be content-based.

Discussion: The Secretary agrees that student standards are an important topic for investigation. The Secretary will coordinate work on this topic with the evaluation of Title 1 and with the work being supported by the National Science Foundation. Applicants will be free to propose content-based approaches to this topic. The center is encouraged to coordinate its work, including the work on student standards, with other related activities in the field.

Changes: The priority has been amended to add as a new topic (b)(2), "State and local finance strategies that support improved learning by all students including aligning elements of the education system to achieve challenging student standards and providing incentives for reform."

Comments Regarding Finance Issues

Comments: Six commenters noted the importance of finance issues. One recommended a center on this topic alone. Another called explicitly for studies of the cost-effectiveness of alternative strategies. Several commenters recommended research on finance strategies that are integrated with other elements of reform.

Discussion: The Secretary agrees that finance issues are important and that the discussion of them in the priority should be expanded.

Changes: The priority has been amended to elaborate upon the finance topic. The equitable distribution of programs and services and the productive allocation of resources are included as areas that must be covered by the center's work.

Comments Regarding Family, Community, School Relationships

Comments: Six commenters noted the importance of family, community and school relationships. One recommended supporting a Center on Families, Communities, Schools and Children's Learning as a second center in the Governance Institute, or, as an alternative, research on strengthening the connections between schools, families, and communities. Two commenters recommended adding parents and families to the topic in the proposed priority focused on examining community-school relationships. In addition, the Board committee recommended adding the word "partnerships" before "collaboration" in (b)(1) to emphasize that families, communities and schools should work together as closely as possible.

Discussion: The Secretary believes that budget restrictions paired with the legislative mandate that no center be funded at less than $1.5 million per year preclude the possibility of funding a second center under the Governance Institute. However, the Secretary agrees that the relationship between schools and families and the community is an important factor related to student learning. The Secretary believes that both productive partnerships and productive collaborations among communities, families and schools merit investigation as local strategies to improve elementary and secondary education.

Changes: The priority has been revised to include enhancing productive partnerships and collaborations among communities, families and schools as a topic area that must be addressed by the center.

Comments Regarding the Format of Topics

Comments: Five commenters were concerned about the format of the topics under the priority. Two suggested that the priority appeared to be promoting a particular view of reform. Another suggested that the topics were too process-oriented. Another commenter suggested that all topics should focus on increasing student achievement. The fifth called for a more integrated and synthesized statement.

Discussion: The Secretary does not believe that this priority should promote any particular reform strategy. Rather, alternative reform strategies should be the focus of the research supported under this priority. The Secretary agrees that the focus of the work sponsored under this priority should be on the relationship between alternative approaches and student learning, not on processes *per se*. The Secretary also agrees that the statement of the individual topics within the priority should be as integrated and synthesized as possible.

Changes: The priority has been revised to clarify that the topics are not promoting a particular approach to education reform, are not focusing on processes *per se*, and are aimed at investigating the relationship between alternative approaches and student learning. The priority has been reformatted to be more coherent.

Comments About Adding Topics

Comments: Fifty-two commenters recommended adding topics to the proposed priority. Examples of research areas proposed for inclusion were the general areas of education governance and teacher professionalization, and the topic areas of building organizational capacity, alternative models of schooling, family-community-school relationships, collaboration between schools and postsecondary institutions, and the integration of services for children and youth. Specific research topics recommended included the federal role in education, policies supporting the use of technology, especially for students with special needs, the role of libraries and museums in students' learning, and addressing cultural differences when setting education policies.

Discussion: The Secretary agrees that education governance is an important general area that should be included in the priority. Also, in recognition of the number of comments on professionalization of education personnel, the Secretary has decided to modify the priority to include a focus on licensing of teachers and other education professionals. The Secretary also believes that the general topics recommended are important and should be considered by applicants as candidates for study. The Secretary recognizes that there is merit to many of the specific topics recommended for inclusion. In fact, the Secretary believes that many of these recommendations fall within the scope of the priority's topics and could be the subject of the center's research projects.

Changes: The priority has been revised to include the general topic area of education governance. In addition, section (b)(2) has been amended to read: "State and local policies that support improved learning by all students including aligning elements of the education system to achieve challenging student standards, enhancing licensing systems for teachers and other education professionals, and providing incentives for reform."

Absolute Priority 6: Improving Postsecondary Education

Overview: A total of 22 letters provided comments on Priority 6. Some commenters addressed more than one topic.

Comments on Scope and Relationship of Priority 6 to Priority 7

Comments: Seven commenters were concerned with relationships and distinctions between priorities 6 and 7. Two recommended combining the two priorities, while others recommended various ways of ensuring that the work is coordinated or that the scope of each priority be clarified to prevent overlap. Several commented on the broad range of issues included in Priority 6, while others added issues that should be emphasized.

Discussion: The Secretary agrees that distinctions between priorities 6 and 7 need to be clarified, but does not agree that a single center can address the complex issues in both postsecondary education and adult literacy and learning. The Secretary agrees that it is important for the centers to coordinate work on issues of mutual interest.

Changes: The title of Priority 6 has been changed to: "Improving Postsecondary Education" to distinguish its focus from priority 7. Section (a) is changed to: "Conduct research and development on improving quality, productivity and outcomes of postsecondary education." Applicants will be permitted to select three or more topics for research from among those listed. Non-binding mission guidance will suggest ways of coordinating the work of the two centers.

Comments on Emphasizing a Continuous View of Education

Comments: Three commenters argued for a broader view of postsecondary students and a more continuous view of education, consistent with the theme of lifelong learning. Three advocated inclusion of community colleges in the work on

postsecondary education. Eight commenters recommended linking research on postsecondary education with various other reform issues including: Teacher education; links to communities; promotion of private/public partnerships in service delivery; and employment opportunities for high-risk students and for the non-college bound. Two commenters advocated a K–16 approach to education reform.

Discussion: The Secretary agrees that this priority should reflect a continuous view of education, including an emphasis on K–16 approaches to education improvement and teacher education. The Secretary encourages the inclusion of various groups of participants and institutions, including community colleges.

Changes: The Secretary has omitted (b)(5): "Articulation between secondary and postsecondary education," and has amended (b)(1) to read: "Transitions from school to work, or to further education, for secondary and postsecondary students, including, but not limited to, development of effective K–16 systems."

Comments on Faculty Development

Comments: Three commenters recommended inclusion of research on faculty development, especially for improving student achievement. Others recommended a focus on professional development, including interprofessional development for educators at various academic levels. The Board committee recommended adding teacher education as an express part of this priority in order to emphasize the need for research and development related to the professional development of K–12 teachers.

Discussion: The Secretary agrees that faculty development is an important aspect of improving the quality of postsecondary education. The Secretary also agrees that postsecondary institutions are critical in improving the preparation of K–12 educators.

Changes: Section (b)(3) will include a new topic: "Approaches to professional development geared to improving postsecondary instruction and student learning, including the preparation of K–12 educators."

Comments on Institutional Productivity, Faculty Rewards, and Finance

Comments: Three commenters advocated various aspects of improving the management and productivity of postsecondary institutions, including a focus on faculty productivity and reward structures.

Discussion: The Secretary agrees that these are important issues and believes that they are already included in the statement on "Containing costs and improving the productivity and accountability of postsecondary institutions."

Changes: None.

Comments on Emphasizing Library Services

Comments: Three commenters recommended an emphasis on research on library services.

Discussion: While the Secretary agrees that libraries are important aspects of postsecondary education, he does not believe that this topic is appropriate as a separate research topic for this priority. However, the Secretary has included the use of libraries in (b)(2) of Priority 7.

Changes: None.

Absolute Priority 7: Improving Adult Learning and Literacy Overview: A total of 21 letters provided comments on Priority 7. Some commenters discussed more than one topic in their correspondence.

Comments on Organizational Strategies, Methods and Delivery Systems

Comments: Four commenters recommended that greater attention be paid to developing effective delivery systems through better organizational strategies, and four others asked that libraries be specified within the research activities.

Discussion: The Secretary agrees that greater attention be paid to developing effective delivery systems through better organizational strategies, including the use of libraries.

Changes: Section (b)(2) has been amended to read: "Effective strategies and technology for providers, including libraries, community organizations, and family literacy programs, * * *"

Comments on Workplace Skills

Comments: Two commenters asked that more work be done in developing skills for use in the workplace and two asked that the research on workplace skills be coordinated with that of the Institute on Postsecondary Education so as to differentiate the basic skills from the levels and kinds of skills generally considered the province of postsecondary institutions' preparation of students for work. The Board committee recommended deleting the word "cognitive" from (b)(1) and replacing it with the phrase "linguistic, quantitative and reasoning" to clarify the myriad of skills to which this Center's research and development might pertain. The Board also recommended that an explicit reference to computer skills be added.

Discussion: The Secretary agrees that adult learning and literacy programs can provide a variety of skills useful in the workforce, including computer literacy, that postsecondary institutions can generally provide skills that are useful for higher level workforce preparedness, and that research on all these skills will profit from collaborative work.

Changes: Section (a) has been amended to read: "Conduct research and development on improving adult learning and literacy through delivery methods and systems other than postsecondary institutions, including the skills needed for work and responsible citizenship." In addition, section (b)(1) has been amended to read: "Adult acquisition of knowledge and development of linguistic, quantitative, and reasoning skills, including adult acquisition of second language skills and computer skills."

Comments on Instructional Considerations

Comments: Two commenters wanted specific mention of family literacy, and two emphasized the importance of instructional strategies and materials. The Board committee recommended adding a specific reference to the use of technology for professional development in order to encourage further use of technology toward the goals of this priority.

Discussion: The Secretary agrees that family literacy is a vital part of the provision of literacy and related instruction and services. The Secretary believes that the importance of instructional strategies and materials is already apparent in the priority in sections (b) (2), (3) and (4).

Changes: Section (b)(2)has been amended to read: "Effective strategies and technology for providers, including libraries, community organizations, and family literacy programs,* * *". Section (b)(3) has been revised to include a specific reference to the use of technology for professional development.

Comments on Special Populations

Comments: Two commenters recommended the specific mention of target populations, including those with learning disabilities, learning disorders and other special needs, and one recommended much greater attention to diversity in general and English as a second language programs and instruction in particular.

Discussion: The Secretary agrees that much more sophisticated identification methods have shown us that an increasingly large number of adults have special learning needs. The Secretary further agrees that burgeoning numbers of adults needing English as second language instruction are asking for programs.

Changes: Section (b)(2) has been amended to read: "Effective strategies and technology for providers, including libraries, community organizations, and family literacy programs, to improve adult learning and literacy for all adult populations, including adults with special needs and those needing English as second language instruction." In addition, section (b)(3) has been amended to read: "Effective methods, including use of technology, for professional development of instructional staff for adult education and literacy programs, including English as second language programs and programs for adults with special needs."

Comments on Research Methodology

Comments: Two commenters called for greater practitioner involvement in the design and conduct of research.

Discussion: The Secretary agrees that such participation would be a valuable ingredient in carrying out the research under this Priority. The Secretary encourages practitioner involvement, but does not believe this should be mandated.

Changes: None.

Post-Award Requirements Comments

Comments: One comment was received on the post-award requirements. This commenter recommended dropping the five percent set-aside for supporting activities that fall within the center's priority area and are designed and mutually agreed to by the center and OERI. The commenter stated a belief that the set-aside modifies the intention of the appropriators by reducing the center awards by five percent to provide additional discretionary funds for the agency not acknowledged in the formal appropriation process. The commenter also suggested that the word "synthesizes" in paragraph (d) has a technical meaning that may not be appropriate in the context of post-award requirements, and suggests using "document" instead, as well as adding "actual impact" instead of "potential impact."

Discussion: The Secretary does not believe that a 5 percent set-aside for the described activities is unreasonable or an attempt to circumvent the appropriations process. The five percent set-aside will be used by the centers for activities which enable them to work more closely with each other. The Secretary agrees that synthesis has a technical meaning and believes that it is an appropriate activity for the centers. The Secretary also believes that it is appropriate for centers to describe potential impact as well as observable impact to date.

Changes: None.

[FR Doc. 95–22873 Filed 9–13–95; 8:45 am]

BILLING CODE 4000-01-P

[CFDA Nos.: 84.305 A and B, 84.306A, 84.307A, 84.308A, and 84.309 A and B]

Office of Educational Research and Improvement (OERI)—Education Research and Development Centers Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1996

Purpose of Program: To support seven national research and development centers that would carry out sustained research and development to address nationally significant problems and issues in education.

Eligible Applicants: The following are eligible for a new award under this program: institutions of higher education, institutions of higher education in consort with public agencies or private nonprofit organizations, and interstate agencies established by compact that operate subsidiary bodies established to conduct postsecondary educational research and development.

Deadline for Transmittal of Applications: December 15, 1995.

Applications Available: September 29, 1995.

Estimated Available Funds: The seven centers will be awarded as cooperative agreements. In fiscal year 1996, $21,350,000 is expected to be available for the first year of funding for the seven national research and development centers. The following table indicates the estimated funding levels over the five-year project period. The funding levels for years 1 through 5 are estimates. Actual funding will depend upon the availability of funds and needs as reflected in the approved application.

Priority area	Fiscal year				
	1996	1997	1998	1999	2000
Enhancing young children's development and learning	2,750,000	2,750,000	2,750,000	2,750,000	2,750,000
Improving student learning and achievement[1]	5,000,000	5,000,000	5,000,000	5,000,000	5,000,000
Improving student assessment and educational accountability	2,800,000	2,800,000	2,800,000	2,800,000	2,800,000
Meeting the educational needs of a diverse student population	4,000,000	4,000,000	4,000,000	4,000,000	4,000,000
Increasing the effectiveness of state and local education reform efforts	2,800,000	2,800,000	2,800,000	2,800,000	2,800,000
Improving postsecondary education	2,500,000	2,500,000	2,500,000	2,500,000	2,500,000
Improving adult learning and literacy	1,500,000	1,500,000	1,500,000	1,500,000	1,500,000

[1] Multiple awards may be made.

Estimated Number of Awards: 7.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 60 months.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR Parts 74, 75, 77, 80, 81, 82, 85, and 86; and (b) The regulations for this program in 34 CFR Part 700, as published elsewhere in this issue of the **Federal Register**.

Priority

The absolute priorities in the notice of final priorities and post-award requirements for this program, as published elsewhere in this issue of the **Federal Register** apply to this competition.

Selection Criteria

In evaluating applications for grants under this program, the Secretary uses the selection criteria in 20 U.S.C. 6031(c)(3)(E) and 34 CFR 700.30.

In accordance with 34 CFR 700.30 (b) and (c), the Secretary has selected evaluation criteria from among those established in 34 CFR 700.30(e) and has assigned weights to each selected criterion.

In addition, the legislation authorizing the Research and Development Centers program requires all applications for grants to be evaluated according to criteria specified in 20 U.S.C. 6031(c)(3)(E) (i)–(vi). The Secretary has incorporated the statutory selection criteria into the criteria established under 34 CFR 700.30. The statutory criteria are: (3)(B)(iii), (4)(B)(iv), (4)(B)(v), (5)(B)(iv), (5)(B)(v), and (5)(B)(vi).

The Secretary announces the following evaluation criteria and assigned weights for this competition:

(1) *National Significance* (30 points)

(A) The Secretary considers the national significance of the proposed project.

(B) In determining the national significance of the proposed project, the Secretary considers the following factors:

(i) The importance of the problem or issue to be addressed.

(ii) The potential contribution of the project to increased knowledge or understanding of educational problems, issues, or effective practice.

(iii) The potential contribution of the project to the development and advancement of theory and knowledge in the field of study.

(iv) The nature of the products (such as information, materials, processes, or techniques) likely to result from the project and the potential for their effective use in a variety of other settings.

(2) *Quality of the Project Design* (30 points)

(A) The Secretary considers the quality of the design of the proposed project.

(B) In determining the quality of the design of the proposed project, the Secretary considers the following factors:

(i) Whether there is a conceptual framework underlying the proposed activities and the quality of that framework.

(ii) Whether the proposed activities constitute a coherent, sustained program of research and development in the field, including a substantial addition to an ongoing line of inquiry.

(iii) The extent to which the research design includes a thorough, high-quality review of the relevant literature, a high-quality plan for research activities, and use of appropriate theoretical and methodological tools, including those of a variety of disciplines, where appropriate.

(iv) The quality of the plan for evaluating the functioning and impact of the project, including the objectivity of the evaluation and the extent to which the methods of evaluation are appropriate to the goals, objectives, and outcomes of the project.

(3) *Quality and Potential Contributions of Personnel* (20 points)

(A) The Secretary considers the quality and potential contributions of personnel for the proposed project.

(B) In determining the quality and potential contributions of personnel for the proposed project, the Secretary considers the following factors:

(i) The qualifications, including training and experience, of the project director or principal investigator.

(ii) The qualifications, including training and experience, of key project personnel.

(iii) Whether the applicant has assembled a group of high quality researchers sufficient to achieve the mission of the center.

(4) *Adequacy of Resources* (10 points)

(A) The Secretary considers the adequacy of resources for the proposed project.

(B) In determining the adequacy of resources for the proposed project, the Secretary considers the following factors:

(i) The adequacy of support from the lead applicant organization.

(ii) The relevance and commitment of each partner in the project to the implementation and success of the project.

(iii) Whether the costs are reasonable in relation to the objectives, design, and potential significance of the project.

(iv) Whether the proposed organizational structure and arrangements will facilitate achievement of the mission of the center.

(v) Whether the directors and support staff will devote a majority of their time to the activities of the center.

(5) *Quality of the Management Plan* (10 points)

(A) The Secretary considers the quality of the management plan of the proposed project.

(B) In determining the quality of the management plan of a proposed project, the Secretary considers the following factors:

(i) The adequacy of the management plan to achieve the objectives of the project, including the specifications of staff responsibility, timelines, and benchmarks for accomplishing project tasks.

(ii) The adequacy of plans for ensuring high-quality products and services.

(iii) How the applicant will ensure that a diversity of perspectives are brought to bear in the operation of the project, including those of parents and teachers, where appropriate.

(iv) Whether there is a substantial staff commitment to the work of the center.

(v) The contributions of primary researchers (other than researchers at the proposed center) and the appropriateness of such researcher's experiences and expertise in the context of the proposed center activities, and the adequacy of such primary researcher's time and commitment to achievement of the mission of the center.

(vi) The manner in which the results of education research will be disseminated for further use, including how the center will work with the Office of Reform Assistance and Dissemination.

For Applications or Information Contact: Either—

1. Jacqueline Jenkins, U.S. Department of Education, 555 New Jersey Avenue, NW, Room 510G, Washington, DC 20208–5573. Telephone: (202) 219–2232. Internet: Jackie__Jenkins @ed.gov or;

2. Judith Anderson, U.S. Department of Education, 555 New Jersey Avenue, NW, Room 611B, Washington, DC 20208–5573. Telephone: (202) 219–2086. Internet: Judith__Anderson @ed.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

Information about the Department's funding opportunities, including copies of application notices or discretionary grant competitions, can be viewed on the Department's electronic bulletin board (ED Board), telephone (202) 260–9950; or on the Internet Gopher Servers at GOPHER.ED.GOV (under Announcements, Bulletins, and Press Releases). However, the official application notice for a discretionary grant competition is the notice published in the **Federal Register**.

Program Authority: Pub. L. 103–227, Title IX.

Dated: August 31, 1995.

Sharon Porter Robinson,

Assistant Secretary for Educational Research and Improvement.

Part IV

Department of Education

Office of Educational Research and Improvement; National Institutes' Field-Initiated Studies Grant Program; Notice

DEPARTMENT OF EDUCATION

Office of Educational Research and Improvement; National Institutes' Field-Initiated Studies Grant Program

AGENCY: Department of Education.

ACTION: Notice inviting applications for new awards for fiscal year 1996.

SUMMARY: The Secretary invites applications for new awards for fiscal year 1996 and announces closing dates for the transmittal of applications under the Field-Initiated Studies Grant Program supported by five new National Institutes: Student Achievement, Curriculum, and Assessment; Education of At-Risk Students; Educational Governance, Finance, Policymaking, and Management; Early Childhood Development and Education; and Postsecondary Education, Libraries, and Lifelong Learning. The Field-Initiated Studies Grant Program will support educational research projects related to the missions of the Institutes.

DATES: The closing dates for transmitting applications under this notice are listed in Section I of this notice.

ADDRESSES: *For Applications or Further Information:* The address and telephone number for obtaining applications for, or further information about, individual Institutes are in Section II of this notice.

For Users of TDD or FIRS: Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

For Electronic Access to Information: Information about the Department's funding opportunities, including copies of application notices for discretionary grant competitions, can be viewed on the Department's electronic bulletin board (ED Board), telephone (202) 260–9950; or on the Internet Gopher Server at GOPHER.ED.GOV (under Announcements, Bulletins and Press Releases). However, the official application notice for a discretionary grant competition is the notice published in the **Federal Register**.

SUPPLEMENTARY INFORMATION: The Educational Research, Development, Dissemination, and Improvement Act of 1994 ("Act") (20 U.S.C. 6002 *et seq.*) established five National research institutes within the Department. Each of the Institutes will support a Field-Initiated Studies (FIS) Grant program to fund field-initiated research projects on topics related to the mission of the relevant Institute. The application announcement for each FIS Grant program, in Section II of this notice, contains a summary of the mission of each of the five Institutes. Section 931 of the Act (20 U.S.C. 6031) contains a complete description of the mission of each Institute.

The Secretary has established invitational priorities for each of the FIS Grant program competitions. The invitational priorities provide examples of research projects that the Secretary believes would enhance the work of each Institute. The invitational priorities are examples only and applicants may propose education research projects on any topic within the mission of the relevant Institute.

The Field-Initiated Studies Grant program provides assistance to institutions of higher education, public and private organizations, institutions, agencies, and individuals for educational research and demonstration to improve American education. The Act defines "educational research" to include basic and applied research, inquiry with the purpose of applying tested knowledge gained to specific educational settings and problems, development, planning, surveys, assessments, evaluations, investigations, experiments, and demonstrations in the field of education and other fields relating to education (20 U.S.C. 6011(l)(6)). The Act also defines the term "field-initiated research" to mean education research in which topics and methods of study are generated by investigators, including teachers and other practitioners (20 U.S.C. 6011(l)(7)).

Program Information Shared by All National Institutes

Eligible Applicants: Eligible applicants are institutions of higher education, public and private organizations, institutions, agencies, and individuals, or a consortium thereof.

Length of Application: The application narrative may not exceed 25 double-spaced, 8½ x 11" pages (on one side only). The applicant must use a non-proportional 12-point or larger font (i.e., no more than 10 characters to the inch). The entire application package, including all forms, appendices, and attachments may not exceed 45 pages. All pages must have at least 1-inch margins on all sides. Pursuant to this Department's authority to establish instructions governing the form of application, applications which do not follow these specifications will not be considered for funding.

Project Periods: Research projects may extend from one to three years.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 85 and 86 (part 86 applies to IHEs only); and (b) The regulations in 34 CFR part 700 (Standards for the Conduct and Evaluation of Activities Carried Out by OERI), as published elsewhere in this issue of the **Federal Register**.

Applicable Evaluation Criteria: In accordance with 34 CFR 700.30, the Secretary applies the following evaluation criteria to the Field-Initiated Studies Grant program competitions.

(1) *National Significance* (30 points). (i) The Secretary considers the national significance of the proposed project.

(ii) In determining the national significance of the proposed project, the Secretary considers the following factors—

(A) The importance of the problem or issue to be addressed.

(B) The potential contribution of the project to increased knowledge or understanding of educational problems, issues, or effective strategies.

(C) The potential contribution of the project to the development and advancement of theory and knowledge in the field of study.

(2) *Quality of the Project Design* (30 points). (i) The Secretary considers the quality of the design of the proposed project.

(ii) In determining the quality of the design of the proposed project, the Secretary considers the following factors—

(A) Whether the goals, objectives, and outcomes to be achieved by the project are clearly specified and measurable.

(B) Whether a specific research design has been proposed, and the quality and appropriateness of that design, including the scientific rigor of the studies involved.

(3) *Quality and potential contributions of personnel* (15 points). (i) The Secretary considers the quality and potential contributions of personnel for the proposed project.

(ii) In determining the quality and potential contributions of personnel for the proposed project, the Secretary considers the following factors—

(A) The qualifications, including training and experience, of the project director or principal investigator.

(B) The qualifications, including training and experience, of key project personnel.

(4) *Adequacy of Resources* (15 points). (i) The Secretary considers the adequacy of resources for the proposed project.

(ii) In determining the adequacy of resources for the proposed project, the Secretary considers the following factors—

(A) Whether the budget is adequate to support the project; and

(B) Whether the costs are reasonable in relation to the objectives, design, and potential significance of the project.

(5) *Quality of the Management Plan* (10 points). (i) The Secretary considers the quality of the management plan of the proposed project.

(ii) In determining the quality of the management plan of a proposed project, the Secretary considers the following factors—

(A) The adequacy of the management plan to achieve the objectives of the project, including the specification of staff responsibility, timelines, and benchmarks for accomplishing project tasks.

(B) Whether time commitments of the project director or principal investigator and other key personnel are appropriate and adequate to meet project objectives.

(C) How the applicant will ensure that persons who are otherwise eligible to participate in the project are selected without regard to race, color, national origin, gender, age, or disability.

Organization of Notice

This notice contains two sections. *Section I* includes a chart listing the common closing date, and other pertinent information about each competition covered by this notice. *Section II* consists of the individual application announcement for each competition under the Field-Initiated Studies Grant program.

SECTION I.—INSTITUTES AND FIS GRANT CLOSING DATES

Title of program and CFDA number	Applications available	Application deadline date	Tentative award date	Estimated available funds	Estimated range of awards	Estimated average size of annual awards	Estimated number of awards
National Institute on Student Achievement, Curriculum, and Assessment FIS Grant Program (84.305F)	10/13/95	01/05/96	06/28/96	$2,580,000	$100,000–300,000	$250,000	10

Section II—Application Notices

CFDA No. 84.305F—The National Institute on Student Achievement, Curriculum, and Assessment, Field-Initiated Studies Program

Purpose of Program: The purpose of the National Institute on Student Achievement, Curriculum, and Assessment is to provide leadership to improve student achievement in core content areas. The institute is to support research and development to identify and develop innovative and exemplary methods to improve student knowledge at all levels in the core content areas.

Priorities: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications:

Invitational Priority 1. Methods and activities to reduce and prevent violence in schools.

Invitational Priority 2. Effective use of technology to improve learning, teaching, and testing.

Invitational Priority 3. Methods of delivering teacher education and inservice professional training that lead to improved student achievement.

For Applications or Information Contact: Clara Lawson-Holmes, National Institute on Student Achievement, Curriculum, and Assessment, U.S. Department of Education, 555 New Jersey Avenue, NW, Room 510, Washington, DC 20208–5573. Telephone (202) 219–2079, or clawson@INET.ED.GOV.

CFDA No. 84.306F—The National Institute on the Education of At-Risk Students, Field-Initiated Studies Program

Purpose of Program: The purpose of the National Institute for the Education of At-Risk Students is to expand research-based knowledge and strategies that will promote excellence and equity in the education of children and youth placed at risk of educational failure because of limited-English proficiency, poverty, race or ethnicity, or geographic location. The Institute will carry out a program of research and development to identify and assist others to replicate and adapt programs and models which promote greater achievement and educational success by at-risk students, including innovative methods of instruction, student assessments, professional development, and curricula.

Priorities: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications:

VOL
60
SS
178
SE
14
995
MI

Invitational Priority 1. Increasing academic achievement and reducing the dropout rates of American Indian and Alaska Native students.

Invitational Priority 2. Improving the success of students at-risk through coordinated school, community, and family programs, including programs designed to increase learning time.

Invitational Priority 3. Improving student outcomes in schools where a majority of students live in poverty.

For Applications or Information Contact: Beth Fine, National Institute on the Education of At-Risk Students, U.S. Department of Education, 555 New Jersey Avenue, NW, Room 610, Washington, DC 20208–5521. Telephone (202) 219–2239, or bfine@INET.ED.GOV.

CFDA 84.307F—The National Institute on Early Childhood Development and Education, Field Initiated Studies Program

Purpose of Program: The purpose of the National Institute on Early Childhood Development and Education is to identify, develop, evaluate and assist others to replicate methods and approaches that improve early childhood development and education. The Institute is to carry out a program of research and development in areas such as the social and educational development of young children; factors relating to readiness, including prenatal care, health services, and nutrition; family literacy; the role of parental involvement in their children's learning; effective learning methods and curriculum for young children; methods for integrating learning in settings other than the classroom; the impact of outside influences, such as television, violence, and drug abuse; and instruction that considers the cultural environment of children.

Priorities: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications:

Invitational Priority 1. The development of pre-reading, reading, and family literacy skills.

Invitational Priority 2. Improving long-term outcomes for teenage parents and young children.

Invitational Priority 3. Developing programs that use technology to involve low-income families in the teaching of basic skills to young children.

Invitational Priority 4. Developing methods that enable early childhood caregivers to identify behavior problems early in young children and effectively use interdisciplinary intervention strategies that will replace those problem behaviors with positive behaviors.

Invitational Priority 5. Determining the effectiveness of programs or curricula that address the development of motor, language, speech and other skills needed for young children to be successful in a variety of settings.

For Applications or Information Contact: Joe Caliguro, National Institute on Early Childhood Development and Education, U.S. Department of Education, 555 New Jersey Avenue, NW, Washington, DC 20208–5520 Telephone (202) 219–1935.

CFDA 84.308F—The National Institute on Educational Governance, Finance, Policy-Making, and Management, Field Initiated Studies Program

Purpose of Program: The purpose of the National Institute on Educational Governance, Finance, Policy-Making, and Management is to improve student achievement through restructuring and reform of the education system. The Institute is to carry out a program of research and development to provide a sound basis from which to identify, develop, and evaluate approaches in elementary and secondary education governance, finance, policy-making, and management at the State, local, tribal, school building, and classroom level which promise to improve educational equity and excellence.

Priorities: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications:

Invitational Priority 1. The development and coordination, integration, and coherence of governance, finance, policymaking and management strategies that promote and sustain education innovations and raise levels of learning for all students.

Invitational Priority 2. The costs and effects of particularly promising approaches for improving the learning of different groups of students in different settings.

Invitational Priority 3. The impact on student learning of open enrollment programs, public school choice, magnet schools and other systems through which parents may select the public schools and educational programs in which their children enroll.

Invitational Priority 4. The impact on student learning of improving the context in which learning occurs through professional development; participatory governance structures; caring, concerned, and disciplined learning environments; and other innovative or improved ways to enhance learning.

For Applications or Information Contact: Elizabeth DeBra or Edward Fuentes, National Institute on Educational Governance, Finance, Policy-Making, and Management, U.S. Department of Education, 555 New Jersey Avenue, NW, Washington, DC 20208–5510. Telephone (202) 219–2021 or-2032.

CFDA 84.309F—The National Institute on Postsecondary Education, Libraries and Lifelong Learning, Field Initiated Studies Program

Purpose of Program: The purpose of the National Institute on Postsecondary Education, Libraries and Lifelong Learning is to improve postsecondary education and adult learning so that adults will be better prepared to compete in a global economy and exercise the rights and responsibilities of citizenship. The institute will carry out a program of research and development that will include subjects such as the development of human capital through postsecondary and adult education; the role of special mission educational institutions such as women's colleges and historically black colleges and universities; new models of service delivery through library systems; effective methods of adult literacy education; and the uses and application of new technology to improve teaching and lifelong learning.

Priorities: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications:

Invitational Priority 1. To examine how public library systems and other community-based educational institutions can take full advantage of the potential of new information technologies to expand opportunities for adult lifelong learners.

Invitational Priority 2. To examine innovative and experimental approaches used by community-based education providers with respect to: instruction, the provision of information on self-directed learning, assessment of learner needs, and collaborative activities with other community-based education providers. Community-based education providers include libraries, museums, and local continuing education programs.

Invitational Priority 3. To examine the capacities of special mission institutions to provide access and excellence in higher education. Special mission institutions include Historically Black Colleges and Universities, Tribally-Controlled Indian Community Colleges, women's colleges, Hispanic-serving institutions and institutions serving students with disabilities.

Invitational Priority 4. To examine the effectiveness of various model approaches to the provision of family literacy programs.

Invitational Priority 5. To increase our understanding of workplace education and training approaches to improve workforce productivity and meet the challenges of the international economy.

For Applications or Information Contact: Delores Monroe, National Institute on Postsecondary Education, Libraries, and Lifelong Learning, U.S. Department of Education, 555 New Jersey Avenue, NW, Room 620, Washington, DC 20208–5531. Telephone (202) 219–2229, or FIS@INET.ED.GOV.

Program Authority: 20 U.S.C. 6031 (c)(2)(B).

Dated: September 11, 1995.

Sharon P. Robinson,

Assistant Secretary for Educational Research and Improvement.

Part V

Federal Retirement Thrift Investment Board

5 CFR Part 1601

Participant Choices of Investment Funds; Final Rule

FEDERAL RETIREMENT THRIFT INVESTMENT BOARD

5 CFR Part 1601

Participant Choices of Investment Funds

AGENCY: Federal Retirement Thrift Investment Board.

ACTION: Final rules; amendment.

SUMMARY: The Executive Director of the Federal Retirement Thrift Investment Board (Board) is publishing an amendment to final rules on participants' choices of Thrift Savings Plan (TSP) investment funds. The amendment has the effect of eliminating the automatic transfer to the Government Securities Investment (G) Fund of the accounts of participants who begin to withdraw their accounts as a series of equal payments. The amendment also makes participants who are receiving their accounts as a series of equal payments eligible to make interfund transfers pursuant to the same rules applicable to all other TSP participants.

EFFECTIVE DATE: This amendment is effective September 16, 1995.

FOR FURTHER INFORMATION CONTACT: Questions concerning this amendment may be addressed to David L. Hutner, Federal Retirement Thrift Investment Board, 1250 H Street NW., Washington, D.C. 20005, (202) 942–1661.

SUPPLEMENTARY INFORMATION: Interim rules governing participants' choices of investment funds were originally published in the **Federal Register** on March 29, 1990, (55 FR 11880) as an amendment to title 5 of the Code of Federal Regulations, adding Part 1601, Participants' Choice of Investment Funds. Revised interim rules were published in the **Federal Register** at 56 FR 592 on January 7, 1991, primarily to implement section 3 of the Thrift Savings Plan Technical Amendments Act of 1990 (TSPTAA), which removed investment restrictions that had been in place prior to the effective date of the TSPTAA. On December 28, 1994, the Board published proposed amendments to the interim rules in the **Federal Register** (59 FR 66796) setting forth changes in the procedures by which TSP participants may make, change, or cancel interfund transfer requests. The Board did not receive any comments on the proposed amendments. On May 26, 1995, the December 28, 1994, proposed amendments to the interim rules were withdrawn and replaced by new proposed amendments (60 FR 27908). No comments on the new proposed amendments were received, and final rules were published on July 17, 1995 (60 FR 36630). However, a proposal to remove investment restrictions from the accounts of participants who are receiving equal payments (which was included in the May 26 proposal) was deleted from the final rules because the technical changes necessary to accomplish that procedure had not been completed. It was stated in the preamble to the final rules that when those technical changes were completed, the Board intended to amend the regulations to eliminate the investment restrictions. The required technical changes will be completed by October 1995. Accordingly, these amendments are designed to eliminate the investment restrictions that have previously applied to participants receiving equal payments.

There are two aspects to the investment restrictions applicable to participants receiving equal payments, both of which are incorporated in 5 CFR 1601.4(c). First, upon commencement of withdrawal of a participant's account through a series of equal payments, the participant's entire account balance is automatically transferred to the G Fund. Second, participants receiving withdrawals by a series of equal payments are not permitted to make interfund transfers out of the G Fund. The present amendment eliminates both restrictions. Thus, as of the effective date of the amendment, participants who are already in equal payment status will be eligible to make interfund transfer requests to be effective October 31, 1995.

The final automatic transfer to the G Fund will be effective September 30, 1995. Participants whose first equal payment is effective October 31, 1995, or later, will not have their accounts automatically transferred to the G Fund. Participants whose first equal payment is issued (in November) effective October 31, 1995, will also be eligible to request an interfund transfer effective as of that date.

Participants whose first equal payment is issued (in November) effective October 31, 1995, will receive a notice advising them of their ability to make interfund transfer requests. Participants who request equal payment withdrawals commencing in subsequent months with similarly be notified that they may make interfund transfers while they are receiving equal payments.

There will also be a one-time notice issued in mid-September 1995 to participants who are already receiving equal payments. The participants will be advised that beginning September 16, 1995, they will be eligible to make interfund transfer requests. Their first interfund transfer opportunity will be for interfund transfers effective October 31, 1995.

In order to make an interfund transfer effective October 31, 1995, the interfund transfer request must be received by October 16, 1995. On September 16, 1995, the TSP recordkeeper will begin accepting interfund transfer requests for transfers effective October 31, 1995, in accordance with the ordinary rules for processing interfund transfer requests that are set forth in this part.

Regulatory Flexibility Act

I will certify that these regulations will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

I certify that these regulations do not require additional reporting under the criteria of the Paperwork Reduction Act of 1980.

Waiver of Notice of Proposed Rulemaking and 30-day Delay of Effective Date

Pursuant to 5 U.S.C. 553(b)(3)(B), (d)(1) and (d)(3), I find that good cause exists for waiving the general notice of proposed rulemaking and for making these amendments effective in less than 30 days. These amendments remove restrictions on TSP participants' ability to choose the investment funds in which their accounts will be invested. Moreover, the substantive provision of this amendment was originally included in proposed amendments published in the **Federal Register** (60 FR 27908) on May 26, 1995. Although the final rules published on July 17, 1995, deleted the substantive provision of the present amendment for the reasons stated in the preamble to the final rules (60 FR 36630), no comments were received during the 52 days the proposal was outstanding. Accordingly, I find that publication of these amendments in proposed form is unnecessary.

List of Subjects in 5 CFR Part 1601

Employee benefit plans, Government employees, Retirement, Pensions.

Dated: September 11, 1995.

Roger W. Mehle,

Executive Director, Federal Retirement Thrift Investment Board.

Accordingly, 5 CFR Part 1601 is amended as follows:

PART 1601—PARTICIPANTS' CHOICES OF INVESTMENT FUNDS

1. The authority citation for Part 1601 continues to read as follows:

Authority: 5 U.S.C 8351, 8438, 8474 (b)(5) and (c)(1).

§ 1601.4 [Amended]

2. Section 1601.4 is amended by removing paragraph (c).

Department of Housing and Urban Development

24 CFR Part 200

Use of Materials Bulletin [illegible] Used in the HUD Building Product Standards and Certification Program for Exterior Finish and Insulation Systems (EFIS); Final Rule

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 200

[Docket FR–3386–F–02]

RIN 2502–AF94

Use of Materials Bulletin 101 Used in the HUD Building Product Standards and Certification Program for Exterior Finish and Insulation Systems (EFIS)

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: This final rule adopts Use of Materials Bulletin (UM) No. 101 Exterior Finish and Insulation Systems (EFIS). The UM references related national voluntary consensus standards, provides a labeling and third party certification program to meet the appropriate national voluntary standards, requires that a third-party inspection at the job site be conducted, provides that additional information be included on the label, tag, or mark that each manufacturer would affix to a certified product, specifies the frequency with which products must be tested in order to be acceptable to HUD, and requires an inspection report regarding installation.

DATES: *Effective date:* Octoer 16, 1995. The incorporation by reference of certain publications listed in the regulations is approved by the Director of Federal Register as of August 16, 1995.

FOR FURTHER INFORMATION CONTACT: Leslie Breden, Office of Manufactured Housing and Regulatory Functions, Standards and Products Branch, Department of Housing and Urban Development, room 3214, L'Enfant Plaza, 490E, 451 Seventh Street SW., Mail Room B–133, Washington, DC 20410–8000; telephone, voice: (202) 755–7440; (TDD) (202) 708–4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: Pursuant to HUD's Building Product Standards and Certification Program, which is authorized by Section 521 of the National Housing Act, 12 U.S.C. 1735e, the Department issues Use of Materials Bulletins (UM's). The UM's are issued to provide HUD standards that establish minimum acceptable qualities for certain materials and products to be used in properties subject to mortgages insured by the Department. A UM is also used as a means of promulgating a labeling and a certification program to assure that the products used meet the appropriate standard.

On June 25, 1993 HUD published in the Federal Register (58 FR 34502) an interim rule which adopted Use of Materials Bulletin (UM) No. 101 Exterior Finish and Insulation systems (EFIS). The rule solicited public comments. Eleven commenters sent comments.

One trade association objected to the elimination of gypsum wallboard. It claimed other parts of the EFIS system fail and then this, in turn, causes the wallboard to fail. The Department agrees that when the gypsum wallboard fails, it is usually the result of a break in the exterior envelope allowing moisture to enter the EIFS system. However, once water gets inside the EFIS system, the paper over the gypsum core debonds resulting in a catastrophic failure of the gypsum wallboard and a loss of the cladding's securement to the building structure. Therefore, the Department has referenced a standard for fiber cement board which remains secure even when wet.

Similarly, two manufacturers desire to use a sheathing material that does not comply with American Society for Testing and Materials C–1186. The Department contends that the sheathing should last as long as the mortgage and since the manufacturer will only guarantee this product for 5 years, it was determined that 5 years is not a long enough time for one to have confidence in the integrity of the whole EFIS system.

One inspection agency suggested that other variables, such as temperature and the esthetic design, should be included in the UM. The Department feels there is a wide range of possible variables in EFIS systems and it was not possible at this time to examine all of these items, but the Department will continue to examine these and other parameters to determine if they have a significant effect on the failure of the EFIS system.

Another trade association suggested that nationally recognized standards such as, Exterior Insulation Manufacturers Association (EIMA) and American Society for Testing and Materials (ASTM) Standards, be referenced in lieu of Military and Federal standards. The Department agrees and has referenced EIMA and ASTM standards wherever possible.

One testing laboratory suggested a new water absorption test for polystyrene foam. The Department will add this test to a future revision of UM 101 when it is adopted by ASTM.

One manufacturer wants a wider definition of fiber cement board than that defined by ASTM C 1186–91. The Department feels that this would require a revision to the ASTM standard. Therefore, the Department has recommended that the appropriate ASTM committee be contacted for revising the existing standard.

Finally, a third party inspection agency suggested that ASTM C 578–92 be referenced instead of ASTM C 578–91. UM 101 has been changed to incorporate UM 71 which contains ASTM C 578–92. It also wants a better definition of hail damage. To date, the Department has not been able to exactly quantify what is meant by hail damage. It is investigating establishing a knowledgeable review by peer inspectors for determining the definition of hail damage.

The Department has evaluated the technical standards for exterior finish and insulation systems and plans to adopt these standards by incorporating them into the UM by reference. The UM's adoption would also augment the labeling requirements of 24 CFR 200.935(d)(6).

The text of the UM is not being produced in the final rule because the substance is embodied in a new section of 24 CFR 200.946 set forth below. However, copies of the UM are available for public inspection during regular business hours in the Office of Manufactured Housing and Regulatory Functions, Standards and Products Branch, Department of Housing and Urban Development, room 3214 L'Enfant Plaza, 490E, Mail Room B–133, Washington, DC, 20410–8000, and in the Office of the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410–0500.

National Environmental Policy Act

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR Part 50, which implement Section 102 (2)(c), of the National Environment Policy Act of 1969, 42 U.S.C. 4321 *et. seq.* The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk at the above address.

Regulatory Flexibility Act

In accordance with 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule would not have a significant economic impact on a substantial number of small entities. This UM would adopt standards that are nationally recognized throughout the affected industry and will not create a burden on manufacturers.

Family Impact

The General Counsel, as the Designated Official under Executive Order 12606, The Family, has determined that this final rule does not have potential for significant impact on family formation, maintenance, and general well-being; therefore, it is not subject to review under the order.

Federalism

The General Counsel, as the Designated Official under Section 6(a) of Executive Order 12612, Federalism, has determined that the policies contained in this final rule would not have substantial direct effect on states or their political subdivisions, or the relationship between the Federal government and the states, or on the distribution of power and responsibilities among the various levels of government. As a result, the final rule is not subject to review under the order.

Incorporation by Reference

These standards have been approved by the Director of the Federal Register for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR 51. Copies of the standards may be obtained from the American Society for Testing and Materials (ASTM), 1916 Race Street, Philadelphia, Pennsylvania 19103; the Council of American Building Officials, 5203 Leesburg Pike, Falls Church, Virginia 22041; & the Exterior Insulation Manufacturers Association, 2759 State Road 580, Suite 112, Clearwater, Florida 34621.

Copies of the standards are also available for inspection at the Office of Manufactured Housing and Regulatory Functions, Standards and Products Branch, Department of Housing and Urban Development, Room 3214, L'Enfant Plaza, 490E, Mail Room B–133, Washington, DC 20410–8000, and at the Office of the Federal Register, 800 North Capital Street, NW, Suite 700, Washington, DC.

List of Subjects in 24 CFR Part 200

Administrative Practice and Procedures, Claims, Equal Employment Opportunity, Fair Housing, Housing Standards, Incorporation by Reference, Lead Poisoning, Loan Programs—Housing and Community Development, Minimum Property Standards, Mortgage Insurance, Organization and Functions (Government agencies), Penalties, Reporting and Recordkeeping Requirements, Social Security, Unemployment Compensation, Wages.

Accordingly, 24 CFR Part 200 is amended as follows:

PART 200—INTRODUCTION

1. The authority citation for 24 CFR 200 continues to read as follows:

Authority: 12 U.S.C. 1701–1715z–(18); 42 U.S.C. 1436a and 3535(d).

2. Section 200.946 is revised to read as follows:

§ 200.946 Building product standards and certification program for exterior finish and insulation systems, use of Materials Bulletin UM 101.

(a) *Applicable standards:* (1) All Exterior Finish and Insulation Systems shall be designed, manufactured, and tested in compliance with the following standards:

(i) ASCE 7–93, American Society of Civil Engineers—Minimum Design Loads for Buildings and Other Structures.

(ii) ASTM C 150–94 Standard Specification for Portland Cement.

(iii) ASTM C 920–87 Standard Specification for Elastomeric Joint Sealants.

(iv) ASTM C–1186–91 Standard Specification for Flat Non-Asbestos Fiber-Cement Sheets.

(v) ASTM D 579–90 Standard Specification for Greige Woven Glass Fabrics.

(vi) ASTM–D 3273–86—(Reapproved 1991) Standard Test Method for Resistance to Growth of Mold on the Surface of Interior Coatings in an Environmental Chamber.

(vii) ASTM E 330–90 Standard Test Method for Structural Performance of Exterior Windows, Curtain Walls, and Doors by Uniform Static Air Pressure Difference.

(viii) ASTM E 695–79 (Reapproved 1991), Standard Method of Measuring Relative Resistance of Wall, Floor, and Roof Construction to Impact Loading.

(ix) ASTM G 26–93 Standard Practice for Operating Light-Exposure Apparatus (Xenon-Arc Type) With and Without Water for Exposure of Nonmetallic Materials.

(x) Council of American Building Officials, Model Energy Code, 1993 Edition.

(xi) EIMA Test Method 101.01–95 (modified ASTM C67–91) Standard Test Method for Freeze/Thaw Resistance of Exterior Insulation and Finish Systems (EIFS), Class PB.

(xii) EIMA Test Method 101.02–95 (modified ASTM E331–91)—Standard Test Method for Resistance to Water Penetration of Exterior Insulation and Finish Systems (EIFS), Class PB.

(xiii) EIMA Test Method 101.03–95 (modified ASTM C297–91)—Standard Test Method for Determining the Tensile Adhesion Strength of an Exterior Insulation and Finish System (EIFS), Class PB.

(xiv) EIMA Test Method 105.01–95—Standard Test Method for Alkali Resistance of Glass Fiber Reinforcing Mesh for Use in Exterior Insulation and Finish Systems (EIFS), Class PB.

(xv) European Agreement Union Technical Committee—June 88—UEAtc Directives for the Assessment of External Insulation System for Walls (Expanded Polystyrene Insulation Faced with a Thin Rendering) Section 3.3.3.3.

(2) These standards have been approved by the Director of the Federal Register for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. They are available from:

(i) American Society Civil Engineers (ASCE) 345 East 47th Street, New York, NY 10017.

(ii) American Society for Testing and Materials (ASTM), 1916 Race Street, Philadelphia, Pennsylvania 19103;

(iii) Council of American Building Officials, 5203 Leesburg Pike, Falls Church, Virginia 22041;

(iv) EAUTC Centre Scientifique ET Technique Du Batiment (CSTB), 84 Avenue Jesu Jaures, B.P. 02–77421 Marne-LA-Valee Cedex 2, Paris, France.

(v) Exterior Insulation Manufacturers Association (EIMA), 2759 State Road 580, Suite 112, Clearwater, Florida 34621–3350.

(3) The standards are available also for inspection at the Office of Manufactured Housing and Regulatory Functions, Standards and Products Branch, Department of Housing and Urban Development, room 3214, L'Enfant Plaza, 490E, Mail Room B–133, Washington, DC 20410–8000, and at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

(b) *Labeling.* Under the procedures as set forth in § 200.935(d)(6), concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applied standard is required to be on the certification label issued by the administrator to the manufacturers. In the case of exterior wall insulation and finish systems, the certification label containing the administrator's mark shall be permanently affixed on the package or container of base and finish coating materials. Further, additional information shall be included on the certification label or mark:

(1) Manufacturer's name.

(2) Manufacturer's statement of conformance with UM 101.

(c) The Administrator shall visit the manufacturer's or sponsor's facility every 6 months, to assure that the initially accepted quality assurance procedures are being followed. At least every four years, the Administrator also shall have the exterior wall insulation and finish systems tested in an approved laboratory to assure that the original performance is maintained.

(d) The administrator's (or administration-accepted inspection agency) inspection of EFIS system installation of 5000 sq. ft. or more, shall be made during and upon completion of the construction. Reports of the inspection shall be made to the owner. These reports shall state:

(1) The coverage of the finish coat per square foot for a given volume of finish.

(2) The minimum thickness of the base and finish coatings.

(3) The fiberglass mesh is installed properly around joints and insulation. All penetrations, including windows, flashing, etc., are sealed; and there is a caulk and sealant continuity evaluation; and

(4) There is a caulk and sealant continuity evaluation with special concerns on maintenance.

(d) The manufacturer shall warrant their exterior wall insulation and finish system, including any caulks and sealants, for twenty years against faulty performance. The warranty shall include correction of delamination, chipping, denting, peeling, blistering, flaking, bulging, unsightly discoloration, or other serious deterioration of the system such as the intrusion of water through the wall or structural failure of the system's surface materials. Should any of these defects occur, the manufacturer shall make a pro-rata allowance for replacement or pay the owner the amount of the allowance. The manufacturer shall not be liable for damages or defects resulting from misuse, natural catastrophes, or other causes beyond the control of the manufacturer. The contractor shall provide a statement to the owner that the product has been installed in compliance with HUD requirements and that the manufacturer's warranty does not relieve the builder, in any way, of responsibility under the terms of the Builder's Warranty required by the National Housing Act, or under any other housing program.

Dated: May 11, 1995.

Nicolas P. Retsinas,

Assistant Secretary for Housing-Federal Housing Commissioner.

Securities and Exchange Commission

17 CFR Part 239 et al.

Personal Investment Activities of Investment Company Personnel and Codes of Ethics of Investment Companies and Their Investment Advisers and Principal Underwriters; Proposed Rule

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 239, 270, 274 and 275

[Release No. 33–7212, IC–21341, IA–1518, File No. S7–25–95]

RIN 3235–AG27

Personal Investment Activities of Investment Company Personnel and Codes of Ethics of Investment Companies and Their Investment Advisers and Principal Underwriters

AGENCY: Securities and Exchange Commission.

ACTION: Proposed amendments to rules and forms.

SUMMARY: The Commission is proposing amendments to the rule under the Investment Company Act of 1940 that prohibits investment company personnel from engaging in fraudulent acts in connection with their personal transactions in securities held or to be acquired by the investment company, and requires an investment company and its investment adviser and principal underwriter to adopt codes of ethics reasonably designed to prevent such acts. The amendments would increase the oversight role of an investment company's board of directors with respect to the codes of ethics applicable to the investment company, improve the manner in which investment company personnel report their personal securities transactions to their employers, and clarify certain provisions of the rule (including the scope of its anti-fraud provision). Related proposed amendments would require an investment company to provide information about its policies concerning personal investment activities in its prospectus. The Commission also is proposing conforming changes to the rule under the Investment Advisers Act of 1940 that requires an investment adviser to maintain records of its advisory representatives' personal transactions in securities. The proposed amendments are intended to enhance board of director oversight of the policies governing personal transactions in securities by investment company personnel and to make available to the public additional information about these policies.

DATES: Comments must be received on or before November 13, 1995.

ADDRESSES: Comments should be submitted in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Stop 6–9, Washington, DC 20549. All comment letters should refer to File No. S7–25–95. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549.

FOR FURTHER INFORMATION CONTACT: David M. Goldenberg, Senior Counsel, or Kenneth J. Berman, Assistant Director, at (202) 942–0690, Office of Regulatory Policy, Division of Investment Management, 450 Fifth Street, NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Commission today is requesting public comment on proposed amendments to rule 17j-1 (17 CFR 270.17j-1) under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et. seq.*) (the "Investment Company Act"), rule 204–2 (17 CFR 275.204–2) under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 *et. seq.*) (the "Advisers Act"), Forms N–1A (17 CFR 239.15A, 274.11A), N–2 (17 CFR 239.14, 274.11a-1), N–3 (17 CFR 239.17a, 274.11b) and N–5 (17 CFR 239.24, 274.5) under the Investment Company Act and the Securities Act of 1933 (15 U.S.C. 77a-77aaa) (the "Securities Act") and Form N–8B–2 (17 CFR 274.12) under the Investment Company Act.

Text of Proposed Rule and Form Amendments

Executive Summary

Conflicts of interest between investment company ("fund") personnel (such as portfolio managers) and their funds can arise when these persons buy or sell securities for their own accounts ("personal investment activities"). These conflicts arise because fund personnel have the opportunity to profit from information about fund transactions, often to the detriment of fund investors. Rule 17j–1 under the Investment Company Act addresses these conflicts of interest by: (i) Prohibiting fraudulent, deceptive or manipulative acts by fund affiliates and certain other persons in connection with their personal transactions in securities held or to be acquired by the fund; (ii) requiring funds and their investment advisers and principal underwriters (collectively, "rule 17j–1 organizations") to adopt codes of ethics containing provisions reasonably necessary to prevent their "access persons" (generally, those fund personnel involved in the portfolio management process) from engaging in conduct prohibited by the rule; and (iii) requiring access persons to report their personal securities transactions to the appropriate rule 17j–1 organization. The rule also imposes certain recordkeeping requirements.

The Commission's Division of Investment Management ("Division") recently completed its first detailed study of fund policies concerning personal investment activities since rule 17j–1 was adopted in 1980.[1] In the report on its study, the Division recommended several of the amendments to rule 17j–1 that the Commission is proposing today.

The proposed amendments are designed to improve the regulation of personal investment activities in three respects. First, the proposals would enhance the oversight of personal investment activities by (i) requiring management of a fund and of its investment adviser and principal underwriter, at least annually, to provide the fund's board of directors with a report describing issues arising during the previous year under the codes of ethics applicable to the fund and (ii) requiring access persons to provide the appropriate rule 17j–1 organization with information about securities owned by them at the time they become access persons.

Second, the proposed amendments are designed to provide the public with additional information about fund policies concerning personal investment activities. The Commission is proposing to require that a fund's prospectus disclose whether or not the fund permits its personnel to invest in securities, including securities that may be purchased or held by the fund. In addition, a fund would have to file with the Commission copies of all codes of ethics applicable to the fund as exhibits to its registration statement.

Third, the proposed amendments would tailor rule 17j–1 to make its scope more consistent with its purpose. The proposed amendments would (i) clarify that transactions involving certain securities related to securities in which a fund invests (such as debt securities convertible into stock in which the fund invests) are subject to the rule's anti-fraud provision, (ii) specify that money market funds and money market instruments are not subject to the rule's requirements concerning codes of ethics and transaction reporting, and (iii) clarify the meaning of the term "beneficial ownership" for purposes of the rule's reporting requirements for access persons. The Commission also is proposing certain conforming changes to the recordkeeping provisions applicable to investment advisers in rule 204–2 under the Advisers Act.

I. Background

When fund personnel buy or sell securities for their personal accounts, conflicts of interest with fund investors may arise. For example, in performing their day-to-day responsibilities, fund personnel may have access to information about impending fund transactions that they could use for their own benefit. A fund manager also could profit if the manager causes a fund to purchase or hold portfolio securities in order to protect or strengthen the manager's personal investments in these securities.

Beginning in the early 1960s, Congress and the Commission sought to devise a regulatory scheme to effectively address these potential conflicts.[2] These efforts culminated in the enactment of section 17(j) of the Investment Company Act in 1970 and the adoption by the Commission of rule 17j–1 under the Investment Company Act in 1980.[3]

A. Section 17(j) and Rule 17j–1

Section 17(j) of the Investment Company Act makes it unlawful for persons affiliated with a rule 17j–1 organization (*i.e.*, a fund or its investment adviser or principal underwriter), in connection with the purchase or sale of securities held or to be acquired by the fund, to engage in any fraudulent, deceptive or manipulative act or practice in contravention of rules and regulations adopted by the Commission. Section 17(j) authorizes the Commission to adopt rules to address the conflicts of interest presented by personal securities trading by these persons, including rules requiring the adoption of codes of ethics by funds and their investment advisers and principal underwriters.

In 1980, the Commission adopted rule 17j–1.[4] The rule, which has not been amended since its adoption, prohibits fraudulent, deceptive or manipulative acts by persons affiliated with a fund or its investment adviser or principal underwriter in connection with their personal transactions in securities held or to be acquired by the fund.[5] The rule also (i) requires rule 17j–1 organizations to adopt codes of ethics containing provisions reasonably necessary to prevent "access persons"[6] from engaging in such fraudulent, deceptive or manipulative acts, (ii) requires access persons to report their personal securities transactions to the rule 17j–1 organizations of which they are access persons at least quarterly, and (iii) requires rule 17j–1 organizations to maintain certain records and to make those records available for inspection by the Commission.

Congress gave the Commission the authority to mandate that codes of ethics restrict or prohibit certain activities of access persons and other employees. The Commission recognized when adopting rule 17j–1, however, that no single set of guidelines would be appropriate for all funds. The Commission stated in the release adopting the rule that "as a matter of policy the Commission believes the introduction and tailoring of ethical restraints on the behavior of persons associated with an investment company can best be left in the first instance to the directors of the investment company."[7] The rule therefore does not require that codes of ethics contain any specific restrictions or prohibitions. Additionally, while the rule does require access persons to report their personal securities transactions, it does not place restrictions on the timing or nature of those transactions, other than the general restrictions of the rule's anti-fraud provision.

B. Recent Developments Concerning Personal Investment Activities

The personal investment activities of fund personnel received renewed attention early in 1994 after an investment adviser to several funds dismissed a well-known portfolio manager, alleging that he had failed to report a number of his personal securities transactions as required under both the Investment Company Act and the Advisers Act.[8] At about the same time, the media reported that the country's largest fund complex had amended its rules on personal investment activities in response to certain trading practices.[9] These developments drew further media and congressional attention to the ethical

[2] *See, e.g.*, Report of the Securities and Exchange Commission on the Public Policy Implications of Investment Company Growth, H.R. Rep. No. 2337, 89th Cong., 2d Sess. 200 (1966) ("PPI Report"). In the PPI Report, the Commission expressed its concern about the "ever present danger" of conflicts of interest that arises when fund personnel engage in personal trading. *Id.* at 195. The Commission noted a 1963 report that had found "widespread" insider trading of fund portfolio securities by fund personnel. *Id.* at 196.

[3] Abusive personal investment activities by fund access persons are prohibited not only by section 17(j) and rule 17j–1, but also by other provisions of the federal securities laws. For example, a fund manager who buys or sells securities for his or her own account ahead of the fund ("front running") or makes investment decisions for the fund with the intent to benefit personally may violate the anti-fraud provisions of section 17(a) of the Securities Act and section 10(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78a *et. seq.*) ("Exchange Act") and rule 10b–5 thereunder. The manager also may violate section 17(d) of the Investment Company Act and rule 17d–1 thereunder if the manager purchases or sells the same securities as the fund he or she manages in a joint transaction or arrangement. The manager also could violate section 206 of the Advisers Act if the manager's personal trading defrauds or operates as a fraud on the fund.

standards in the fund industry.[10] In response to the concerns raised, the Division initiated a study of rule 17j–1 and the personal investment activities of portfolio managers and other fund employees. The Division released a report on its study (the "PIA Report") in September 1994.[11]

The Division studied the personal investment activities of 622 fund managers employed by thirty companies that, in the aggregate, managed 1,053 mutual funds with total assets of $521 billion. The Division concluded that the existing regulatory framework governing the personal investment activities of fund personnel generally has worked well, but can be improved in certain respects. The Division recommended that the Commission amend rule 17j–1 to further protect fund shareholders by (i) enhancing the oversight of personal investment policies by fund boards, (ii) making it easier for funds to monitor the personal securities transactions of fund personnel, and (iii) making available to the public additional information about fund policies on personal investment. The Commission agrees with the conclusions contained in the PIA Report and is proposing amendments that will effect these recommendations.[12]

II. Discussion

A. Role of Fund Boards

1. Initial Reviews and Annual Reports

The board of directors or trustees of a fund has a significant oversight role with respect to the personal investment activities of fund personnel.[13] The board is responsible for ensuring that the fund establishes a code of ethics that satisfies the requirements of rule 17j–1.[14] The Commission is proposing two amendments to rule 17j–1 that would facilitate ongoing board oversight of codes of ethics. First, the proposed amendments would require a fund's board to affirmatively approve the fund's code and review the codes of any investment adviser or principal underwriter whose services it seeks to retain for the fund.[15] Second, the proposed amendments would require management of a fund and of its investment adviser and its principal underwriter to provide the board, at least annually, with reports describing issues arising during the previous year under the codes of ethics applicable to the fund.[16]

Although rule 17j–1 currently requires every fund to have a code of ethics, the rule does not explicitly require a fund's *board* to take any actions regarding the fund's code or other codes of ethics applicable to the fund. The Commission believes that the rule should be more explicit concerning the role of fund boards. The Commission has refrained from requiring by rule that codes of ethics contain specific restrictions, prohibitions or other provisions, preferring instead that each board establish an appropriate code for its fund. Additionally, a code of ethics that is tailored to the specific characteristics of a fund is fundamental to assuring that access persons do not engage in fraudulent or unethical conduct. It therefore is appropriate that the rule explicitly require a fund's board to have a continuing role in overseeing the application of these policies.

The standard for the board to apply when approving the fund's code or reviewing the code of an investment adviser or principal underwriter would be whether the code contains such provisions as are reasonably necessary to prevent access persons from violating rule 17j–1's anti-fraud provision.[17] The factors that the board should consider when making this determination will necessarily vary depending upon the investment objectives and policies of the fund, as well as the organization and activities of the fund's investment adviser and principal underwriter. Thus, the Commission is not proposing to include in the rule a list of the factors a board should consider in assessing a code of ethics. The Commission believes, however, that the consideration of certain basic issues may be particularly important for all funds.

As an initial matter, the board should consider whether personal investing by fund personnel is consistent with the interests of fund shareholders and should be permitted. Additionally, the board should determine whether the code establishes clear criteria for determining whether a security is "being considered for purchase" by the fund.[18] Such criteria may better enable access persons and compliance personnel to determine whether certain personal securities transactions may violate the fund's code or rule 17j–1.[19] These criteria also may serve to remind fund managers of their duty to avoid taking advantage of investment opportunities that should be brought to the attention of the fund.[20] Finally, a board should consider the extent to which the code addresses the potential violations of rule 17j–1 that may occur when a fund access person purchases or sells securities held by another fund in the same complex.[21]

Under the proposed amendments, the board also likely will wish to determine whether the rule 17j–1 organizations have instituted such procedures as are reasonably necessary to prevent violations of their codes. The rule would not mandate any particular compliance procedures (other than the rule's existing transaction reporting requirements).[22] A fund board, however, should consider the necessity of procedures based on the circumstances of the fund and the other rule 17j–1 organizations. A board may want to consider, for example, whether the code and procedures should include a requirement that all access persons receive prior approval of their personal securities transactions ("pre-clearance"). The board may decide that pre-clearance is a necessary part of the code in order to prevent persons from violating the code and rule 17j–1's anti-fraud provision.[23] The board also may want to consider whether other types of reporting requirements, in addition to those required by rule 17j–1, are appropriate for the fund.

The determinations required by the proposed amendments would need to be made by a majority of the fund's directors, including a majority of the independent directors (*i.e.*, directors who are not "interested persons" of the fund).[24] The role of independent fund directors in policing conflicts of interest is central to the Investment Company Act.[25] The codes of ethics applicable to a fund, and the manner in which these codes are implemented, should be designed to address the fundamental conflict of interest that results when fund access persons are in a position to take personal advantage of the knowledge and opportunities presented because of their positions. Thus, it is appropriate for independent directors to have a primary role in establishing and overseeing the implementation of the policies that address this conflict.

The board's involvement in the personal investment policies applicable to the fund should not cease after the board's initial approval or review of a code of ethics. Continued oversight of the personal investment policies applicable to the fund is in the interest of shareholders because it subjects these policies to independent, objective analysis by the "watchdog" for fund shareholders.[26] The proposed amendments would require the management of each rule 17j–1 organization to provide the board with a report, no less frequently than annually, describing issues arising during the previous year under the codes of ethics applicable to the fund. The report would include, but need not be limited to, details about code violations, sanctions imposed in response to those violations, procedures initiated or changed since the last report, and, in the case of the codes of the investment adviser or principal underwriter, changes to the code itself.[27] The proposed amendments also would require the management of each rule 17j–1 organization to certify to the fund board, no less frequently than annually, that the organization has adopted such procedures as are reasonably necessary to prevent access persons from violating the organization's code of ethics.[28] The report and certification requirements are designed to give the board an opportunity to evaluate and ask questions about the codes applicable to the fund, the manner in which they have been implemented, and their continued effectiveness.[29]

The Commission requests comment on the proposed board review, annual report and certification requirements. Are there other effective means of ensuring that boards are giving enough attention to the personal investment activities of fund personnel? Should the rule explicitly require board review when there have been material changes to a code or procedures, or when there have been significant or frequent violations of a code?

2. Unit Investment Trusts

Like other funds, unit investment trusts ("UITs") and their principal underwriters currently are required by rule 17j–1 to adapt codes of ethics.[30] Because UITs do not have boards of directors, however, it would be difficult for them to comply with the proposed amendments in the same manner as other funds. The principal underwriter or depositor of a UIT typically employs most of the persons having access to information concerning the UIT's securities. Under the proposed amendments, the initial approval and review requirement for a UIT would be fulfilled by either the principal underwriter or depositor for the UIT. The principal underwriter or the depositor would review all of the codes of ethics applicable to the UIT (i.e., the codes of the principal underwriter and the UIT) and determine whether the codes meet the standards described above.[31] Because they do not have boards of directors, UITs would be exempt from the proposed annual report and certification requirements. The principal underwriter or depositor would still be responsible, however, for ensuring that the codes of ethics applicable to the UIT and the related procedures contain provisions reasonably necessary to prevent access persons from violating rule 17j–1 and the codes.

---

[10] *See, e.g.*, Tom Petruno, *When It Comes to Fund Industry, Public Trust Must Be A Mutual Issue*, L.A. Times, Jan. 12, 1994, at D1; Steve Bailey and Aaron Zitner, *Mutual Fund Managers Come Under Scrutiny*, Bost. Globe, Jan. 16, 1994, at A1; Susan Antilla, *Fund Managers Testing the Rules*, N.Y. Times, Jan. 23, 1994, § 3, at 15; Geoffrey Smith, *Mutual Funds: The Rules on Insider Trading, Please*, Bus. Wk., Jan. 31, 1994, at 60. *See also* Letter from Edward J. Markey, Chairman, Subcommittee on Telecommunications and Finance of the House Committee on Energy and Commerce, to Arthur Levitt, Jr., Chairman, U.S. Securities and Exchange Commission (Jan. 11, 1994).

[11] *See supra* note 1. The fund industry also responded to the concerns. The Investment Company Institute ("ICI"), an association of funds representing 95% of total fund assets under management in the United States, organized an Advisory Group on Personal Investing ("ICI Advisory Group"). The ICI Advisory Group, which consisted of six industry representatives, conducted a review of practices and standards governing personal investing by fund personnel. *See* ICI, Report of the Advisory Group on Personal Investing (1994) ("ICI Report"). The ICI Report stated that most codes of ethics reviewed by the Advisory Group exceeded the requirements of rule 17j–1, but recommended that funds adopt additional measures regarding conflicts of interest and personal securities transactions in order to preserve the confidence of investors. *Id.* at iii, v. The ICI's board of governors recommended that all rule 17j–1 organizations adopt the recommendations contained in the ICI Report.

The ICI subsequently conducted a survey of its members to determine whether the fund industry had adopted the recommendations made in the ICI Report. Eighty-five percent of the ICI's member funds responded to the survey. ICI, Report to the Division of Investment Management, U.S. Securities and Exchange Commission: Implementation of the Institute's Recommendations on Personal Investing (1995) ("ICI Survey"). The ICI Survey indicated that more than a majority of the funds responding to the survey had adopted most of the ICI Advisory Group's recommendations, either in full or as adapted to meet each fund's unique business activities, structure and operations. As discussed below in Part II.A.3, the Commission is seeking comment whether to incorporate any of the ICI Advisory Group's recommendations into rule 17j–1.

[12] The Division made three additional recommendations in the PIA Report. First, the Division recommended that the National Association of Securities Dealers, Inc. ("NASD") consider adopting a rule requiring its members (i) to notify a fund or investment adviser whenever an employee opens an account with the member, and (ii) upon request, to provide duplicate copies of the employee's trade confirmations and account statements to the fund or adviser. Second, the Division recommended that the NASD review the applicability of its "free-riding" rules (which prohibit NASD members from selling "hot issue" securities to their employees) to fund personnel. Finally, the Division recommended in the PIA Report that Congress amend section 17(j) to expand the Commission's rulemaking authority to define and proscribe fraud to include transactions that involve financial instruments that are not securities.

The NASD has advised the Division that its Investment Companies Committee has considered and decided not to act on the Division's recommendations to the NASD. The Committee concluded that the NASD does not have a mechanism to ensure compliance with a new rule requiring a member to notify a fund or investment adviser when an employee opens an account with the member. The Committee also concluded that, in the absence of a pattern of abuses involving personal investment activities, amendments to its "free-riding" rules would not be appropriate.

[13] All references in this Release to boards of directors include boards of trustees for funds organized as business trusts.

[14] As part of its oversight role, the board also is responsible for monitoring the operation of the code, including making amendments as may be necessary or appropriate in light of any violations of the code and changing circumstances generally. *See* PIA Report, *supra* note 1, at 34.

[15] Proposed amendment to rule 17j–1(b). The codes of ethics of a fund's investment adviser and principal underwriter may be of greater importance than those of the fund because the investment adviser and principal underwriter typically employ most of the personnel involved in fund management.

[16] Proposed rule 17j–1(b)(2).

[17] Proposed rule 17j–1(b)(1)(ii).

[18] Paragraph (e)(6) of rule 17j–1 defines "security held or to be acquired" by a fund to mean any security which, within the most recent 15 days, (i) is or has been held by the fund, or (ii) is being or has been considered by the fund or its investment adviser for purchase. When adopting rule 17j–1, the Commission indicated that "the mechanics of setting parameters for determining when a transaction is 'being considered' by a particular investment company can best be resolved by the investment company, investment adviser or principal underwriter in the codes of ethics required to be adopted under the Rule." Adopting Release, *supra* note 4, at 73919.

[19] The board may conclude, for example, that it is appropriate to notify a fund's access persons that all securities that could be purchased by the fund are deemed "being considered" by the fund. Alternatively, the board may determine that a security is "being considered" by the fund once a research report relating to that security is prepared by, or received by, the fund's investment adviser.

[20] *See, e.g.*, In the Matter of Kemper Financial Services, Inc., *et. al.*, Investment Advisers Act Release No. 1494 (June 6, 1995) (investment adviser and portfolio manager found to have violated rule 17j–1(a)(3) under the Investment Company Act and the anti-fraud provision of the Advisers Act by diverting investment opportunities belonging to mutual fund clients to a profit-sharing plan established for the benefit of the adviser's employees); In the Matter of Joan Conan, Investment Advisers Act Release No. 1446 (Sept. 30, 1994) (portfolio manager found to have violated the anti-fraud provision of the Advisers Act by misappropriating an investment opportunity of clients that were unregistered investment funds).

[21] *See infra* note and accompanying text.

[22] *See* Part II. B for a description of, and proposed amendments to, these reporting requirements.

[23] Although the rule does not require that funds adopt pre-clearance procedures, the Commission notes that the ICI Advisory Group recommended that funds adopt these measures. ICI Report, *supra* note 11, at 42. The ICI Survey indicated that 69% of the funds responding to the survey had adopted the ICI Advisory Group's recommendation, and an additional 14% had modified the recommendation to reflect their own circumstances. ICI Survey, *supra* note 11, at 26.

[24] *See* 15 U.S.C. 80a–2(a)(19) (definition of "interested person" for purposes of the Investment Company Act).

[25] *See, e.g.*, Division of Investment Management, SEC, Protecting Investors: A Half Century of Investment Company Regulation 266 (1992).

[26] *See id.* at 255–56; PIA Report *supra* note 1, at 34.

[27] Upon receipt and consideration of a report, a fund board may in some cases determine that it is necessary to amend the fund's code, or to suggest to an investment adviser or principal underwriter that it consider amending its code. Reports prepared for, and submitted to, fund boards would be required to be maintained with the other records required by rule 17j–1.

[28] Although the proposed amendments would require a report and certification to be delivered to the board only annually, more frequent reports may be warranted in certain instances, such as when there have been particularly significant violations of a code or when there have been material changes to a code. In some instances, it may be determined that a particular violation or change should be reported to the board at its next meeting.

[29] In the ICI Report, the ICI Advisory Group made a recommendation similar to that proposed by the Commission today. ICI Report, *supra* note 11, at 47.

[30] A UIT is a type of fund that issues redeemable securities representing an undivided interest in a portfolio of specified securities. 15 U.S.C. 80a–4(2). Typically, UITs are created by a sponsor or "depositor" that accumulates a portfolio of securities and deposits them with a trustee under the terms of a trust indenture. The UIT portfolio is generally unmanaged; thus, UITs do not have investment advisers. The UIT's operations are subject to the terms of the trust indenture, which specifies the ongoing responsibilities of the trustee, the depositor and other third-party service providers. Thus, a UIT does not have a corporate-type management structure. *See generally* Form N–7 for Registration of Unit Investment Trusts Under the Securities Act of 1933 and Investment Company Act of 1940, Securities Act Release No. 6580 (May 14, 1985), 50 FR 21282.

The Commission recognizes that the absence of board review places the oversight of the operation of codes applicable to the UIT in the hands of the very people who may face the conflicts of interest that the rule is designed to address. The Commission requests comment whether an independent person or committee within the organization of the principal underwriter or depositor should review these codes. Should, for example, the underwriter be required to appoint a committee of persons who are not access persons to approve or review the codes? In addition, the Commission requests comment whether there are other investment companies that, like UITs, should be exempt from the annual report and certification provisions.

3. Alternative Approaches

As noted above, rule 17j–1 is based on the premise that rule 17j–1 organizations should be primarily responsible for tailoring specific restrictions and prohibitions on the personal investment activities of their access persons. The Division's PIA Report concluded that this premise continues to be correct.[32] Nevertheless, comment is requested whether rule 17j–1 should set more detailed standards for codes of ethics.

In its report on personal investment activities, the Investment Company Institute's Advisory Group on Personal Investing ("ICI Advisory Group") suggested that codes of ethics should contain certain minimum substantive restrictions on the activities of access persons and other investment personnel. The ICI Advisory Group recommended, among other things, that codes of ethics prohibit investment personnel from participating in initial public offerings, receiving short-term trading profits, receiving gifts from persons with whom the fund has a business relationship, and purchasing securities during certain "black-out periods.[33] The ICI Advisory Group did not recommend that the Commission amend rule 17j–1 to incorporate these recommendations. Should the Commission impose any specific restrictions on the personal investment policies of rule 17j–1 organizations and their access persons? [34]

B. Reports by Access Persons

1. Initial Reports

The Commission is proposing that rule 17j–1 require that every access person [35] provide a listing (an "initial report") of all securities directly or indirectly beneficially owned by the access person at the time that he or she becomes an access person.[36] Paragraph (c) of the rule currently requires every access person to report to the appropriate rule 17j–1 organization, at least quarterly, all transactions in which the access person has, or by reason of the transaction acquires, any direct or indirect beneficial ownership in any security ("quarterly reports").[37] A fund, however, may not be able to monitor effectively the potential conflicts of interest that arise when an access person invests for his or her own account unless fund management knows the identity of *all* securities held by the access person, including securities acquired before the person became an access person.[38] For example, without knowledge of securities owned by an access person, the fund cannot adequately monitor if, and the extent to which, the access person may be making trading decisions on behalf of the fund regarding securities that the access person holds in his or her own portfolio.[39]

It appears to be common practice in the fund industry to require personnel to disclose personal securities holdings upon the commencement of employment.[40] Therefore, the initial report requirement should not create an additional burden for most rule 17j–1 organizations. To prevent duplicative reporting, the amended rule would provide that if an access person has previously provided information equivalent to that which would be in an initial report (whether in a single report or over time in transactional reports), the access person would not be required to submit an initial report.[41]

---

[31] Last sentence of proposed rule 17j–1(b)(1)(ii).

[32] PIA Report, *supra* note 1, at 31.

[33] *See* ICI Report, *supra* note 11.

[34] Some commentators have advocated more comprehensive restrictions, such as banning all personal trading by fund personnel. *See, e.g.*, Stan Hinden, *Avoiding Conflicts—Real and Perceived*, Wash. Post, May 22, 1994, at H3; *Mutual Funds Need Tighter Rules*, Bus. Wk., Feb. 14, 1994, at 134; Susan Antilla, *Fund Managers Testing the Rules*, N.Y. Times, Jan. 23, 1994, § 3, at 15. In the PIA Report, the Division concluded that a total prohibition on personal investment activities by fund personnel is not warranted. PIA Report, *supra* note 1, at 29.

[35] *See supra* note 6.

[36] Proposed amendments to rule 17j–1(c)(1). The report would be required to be filed within 10 days of the event that causes the employee to become an access person (*e.g.*, hiring, promotion, change of position). The initial report would list the title of the security, its CUSIP number (if any), the number of shares held and the principal amount of the security. The Commission also is proposing to amend paragraph (c)(2) of the rule to require quarterly reports to include the CUSIP number (if any) for each security for which a transaction occurs and the date that the report is submitted by the access person. These amendments would assist fund compliance personnel and the Commission's inspections staff in evaluating compliance with the rule's reporting requirements. *See infra* note 38.

[37] *See supra* note 5. In many cases, an employee of an investment adviser or principal underwriter may technically be an access person of both his or her employer and the fund. The staff of the Division has taken the position that if in such a case the employer is required by rule 17j–1 to have a code of ethics, the employee need only be considered an access person of the employer and not of the fund. *See* Investment Company Institute (pub. avail. Mar. 31, 1981).

[38] *See* PIA Report, supra note 1, at 34. Not only are the reports required by rule 17j–1 important to fund management, but they also are important to the Commission's inspections staff, which reviews these reports and codes of ethics during inspections of rule 17j–1 organizations.

[39] Although rule 17j–1 does not explicitly prohibit an access person from making decisions on behalf of a fund regarding securities personally owned by the access person, the Commission would expect that codes of ethics would address this potential conflict of interest, and that boards of directors would wish to have the ability to track such decisions by access persons in order to determine whether these decisions are being inappropriately made. *See* PIA Report, *supra* note 1, at 24 n.74, 35 n.118. *See also* In re ML-Lee Acquisition Fund II, L.P., 848 F. Supp. 527 (D. Del. 1994) (rule 17j–1 may be violated if an access person causes a fund to purchase or sell securities owned by that person, particularly when the access person expects to personally benefit by the transaction).

[40] The ICI found that 77% of the fund complexes responding to its survey require some form of reporting similar to that proposed today. *See* ICI Survey, *supra* note 11, at 31.

[41] Proposed paragraph (c)(3)(v) of rule 17j–1. The proposed exception is intended to give rule 17j–1 organizations flexibility with respect to the initial report requirement. To comply with the exception, the applicable rule 17j–1 organization would have to retain all of the previously submitted information so that the organization could reconstruct the access person's securities holdings on the day that he or she became an access person. Additionally, all of the information used to reconstruct the access person's holdings would have to be maintained for five years from the date that the person becomes an access person, in accordance with the recordkeeping requirements of paragraph (d) of the rule. Because the proposed exception could require an organization relying on the exception to maintain some records for a longer period of time than it otherwise would, rule 17j–1 organiations may choose to require new access persons to submit new initial reports rather than rely on the exception.

The ICI Advisory Group recommended that access persons file reports listing all of their securities holdings upon commencement of employment and thereafter annually.[42] The Commission requests comment whether an annual reporting requirement by access persons would be helpful to funds. To what extent would such a requirement be an undue burden on the persons required to file the reports? The Commission also requests comment whether ten days is the appropriate amount of time for a new access person to provide an initial report. Should new access persons be given additional time (*e.g.*, 15 or 20 days) to file these reports?

2. Scope of Reporting Requirements

The proposed amendments would require an access person to list in an initial report *every* security (as defined in rule 17j–1) beneficially owned by the access person, regardless of whether the security is connected to a security that the fund owns or intends or proposes to acquire at the time that the access person files the initial report. This approach departs from an earlier Division position.[43]

In response to inquiries made shortly after the adoption of rule 17j–1, the staff of the Division took the position that reports required to be made pursuant to paragraph (c) of the rule need be made only with respect to transactions in securities that may be connected to securities that the fund holds or intends or proposes to acquire.[44] These requests involved specific funds with investment objectives that permitted them to invest only in limited types of securities, such as municipal bonds.

The Commission believes that limiting the scope of the rule's reporting requirement may result in gaps in a rule 17j–1 organization's oversight of personal investment activities. For example, an employee of an investment adviser may violate the anti-fraud provision of rule 17j–1 by purchasing a security intended to be acquired by another fund in the same fund complex, even if the employee was not involved in the decision to purchase the security on behalf of the fund. If the employee did not have to report the transaction because the fund of which the employee was an access person did not own, and was not intending or proposing to acquire, the security, the transaction would escape the attention of fund compliance personnel. Comprehensive reporting requirements for both initial and quarterly reports would enable fund directors to determine whether access persons are inappropriately benefitting from their relationship with a fund, investment adviser or principal underwriter.[45] Thus, if the proposed amendments are adopted, the rule will be interpreted as requiring quarterly reports to be filed with respect to transactions in *all* securities. The Commission seeks comment on the effect that these reporting requirements would have on access persons and funds.[46]

3. Review of Reports

Rule 17j–1 currently requires that rule 17j–1 organizations inform access persons of their duty to make quarterly reports and to retain these reports in their records. The Commission is proposing to amend rule 17j–1 to specify that the procedures instituted by rule 17j–1 organizations to prevent violations of the code must include procedures for the review by appropriate managerial or compliance personnel of reports submitted by access persons.[47]

The transaction reporting requirements of rule 17j–1 are intended to keep rule 17j–1 organizations informed of the personal investment activities of access persons in order for these organizations to detect potential conflicts of interest and abusive practices. This purpose will be served only if the reports are reviewed. Procedures that specify not only that reports will be reviewed but that also assign the responsibility for review to specified personnel will increase the likelihood that the purposes of the reporting requirement will be met.

4. Duplicate Broker Reports

It appears to be increasingly common in the fund industry to require access persons of funds to direct their brokers to provide their employers with copies of confirmations of their personal securities transactions and periodic account statements (collectively, "duplicate broker reports").[48] The Commission believes that duplicate broker reports can be an appropriate substitute for quarterly reporting. The proposed amendments would provide that, at the option of the appropriate rule 17j–1 organization, access persons may provide duplicate broker reports in lieu of the quarterly reports.[49]

C. Disclosure of Personal Investing Policies

The Commission is proposing that each fund disclose in its prospectus that the fund and its investment adviser and principal underwriter have adopted codes of ethics relating to personal investment activities and whether or not these codes permit fund personnel to invest in securities (including securities that may be purchased or held by the fund) for their own accounts.[50] The fund also would disclose that these codes are on public file with, and are available from, the Commission.[51]

---

[42] *See* ICI Report, *supra* note , at 46.

[43] *See* Alterman Investment Fund, Inc. (pub. avail. Sept. 17, 1981); Minbanc Capital Corp. (pub. avail. Sept. 17, 1981); MI Fund, Inc. (pub. avail. Sept. 17, 1981).

[44] *Id.*

[45] *See* PIA Report, *supra* note 1, at 34 n.116. A list of all securities owned, purchased and sold by an access person also may be a necessary element of the written policies that a registered investment adviser must establish, maintain and enforce, in accordance with section 204A of the Advisers Act, to prevent the misuse of material, non-public information by the adviser and its personnel.

[46] The facts of some recent enforcement actions brought by the Commission have demonstrated that the opportunity for abusive practices may exist where a portfolio manager or other fund insider receives personal investing opportunities in connection with his or her recommendation that the fund purchase a specific security. *See, e.g., United States* v. *Ostrander*, 999 F.2d 27 (2nd Cir. 1993) *aff'g* 792 F. Supp. 241 (S.D.N.Y. 1992); *SEC* v. *Talton R. Embry*, Litigation Release No. 13777 (Sept. 9, 1993); *SEC* v. *Benalder Bayse, Jr.*, Litigation Release No. 13145 (Jan. 24, 1992). The Division staff expressed a similar concern in response to no-action requests regarding rule 204–2(a)(12) under the Advisers Act of 1940, which requires records to be kept of the securities transactions of investment adviser personnel similar to the reports required under paragraph (c) of rule 17j–1. *See* American Syndicate Advisors (pub. avail. Oct. 29, 1986); Financial Independence Advisers, Inc. (pub. avail. Oct. 28, 1985). The change in the Division's interpretation would make it easier for fund compliance personnel and the Commission's inspections staff to identify cases in which fund insiders receive special opportunities in connection with their investing on behalf of a fund.

[47] Proposed rule 17j–1(b)(1)(i). The name of the person or persons responsible for reviewing these reports would be required to be maintained in an easily accessible place for five years under proposed amendments to paragraph (d)(4) of the rule.

[48] The ICI Advisory Group recommended that funds adopt these measures. ICI Report, *supra* note 11, at 44. The ICI Survey indicated that 70% of fund complexes responding to the survey had adopted the ICI Advisory Group's recommendations, and that an additional 14% of fund complexes responding to the survey had adapted these recommendations to their particular circumstances. ICI Survey, *supra* note , at 27.

[49] Proposed rule 17j–1(c)(3)(vi). The duplicate broker report would be required to contain the same information that would appear on a quarterly report, and must be received by the rule 17j–1 organization within 10 days after the end of the quarter in which the transaction takes place. A duplicate broker report that does not contain all of the information required by paragraph (c)(2) would satisfy the rule if the missing information were contained in the records of the appropriate rule 17j–1 organization.

As noted in the PIA Report, recent press accounts have suggested that fund shareholders may not fully understand the potential conflicts of interest faced by fund managers.[52] The ICI Advisory Group, in recommending prospectus disclosure concerning fund codes of ethics, stated that the most recent controversy over personal investing is "in some significant part a product of insufficient information regarding current practices and standards."[53] There currently is no requirement that funds publicly disclose any information about their codes of ethics, and recent media accounts have suggested that it often is difficult to obtain this information.[54] The Commission believes that disclosure concerning the existence of fund personal investing policies to investors not only would provide investors with information they may want when making investment decisions, but also may encourage fund boards to exercise greater care in considering the contents of codes of ethics applicable to their funds.

The Commission believes that the proposed prospectus disclosure can be brief and clear, and thus it is consistent with the Commission's efforts to make prospectuses easier to read for investors.[55] The Commission requests comment whether a more detailed description should be provided in the Statement of Additional Information ("SAI") or in the prospectus. If a fund's code of ethics conforms to a generally accepted industry norm, should a statement to that effect be sufficient to satisfy this requirement?[56] Commenters should indicate how an industry norm can be identified, and whether divergences from the norm that reflect the particular situations of the fund should be disclosed.

The Commission believes that the codes of ethics applicable to a fund should be available to the public. The Commission therefore is proposing that each fund file all codes of ethics applicable to it as an exhibit to its registration statement.[57] Making codes of ethics publicly available will permit the financial press and market professionals to obtain information about personal investment policies and to disseminate this information to the public.[58] The Commission requests comment whether funds should be required to send copies of their codes of ethics to investors upon request.

D. Applicability of Rule 17j–1 to Options and Convertible Securities

Paragraph (a) of rule 17j–1 prohibits fraudulent, deceptive or manipulative acts by fund affiliates and certain other fund insiders in connection with their personal transactions in securities held or to be acquired by the fund. The Commission is proposing to amend rule 17j–1 to clarify that this anti-fraud provision applies to any purchase or sale of an option for, or a security that is exchangeable for or convertible into, a security that is held or to be acquired by a fund (collectively, "related securities").[59]

Congress contemplated that the Commission's rules "could apply to insider trading in the convertible securities, options and warrants of issuers whose underlying securities are owned by an investment company with which the insider is affiliated."[60] The value of a related security often is directly affected by the value of the underlying security. A fund insider who purchases or sells such a related security could improperly benefit from that transaction to the same extent as an insider who conducts a similar transaction in the underlying security.[61] The fact that the transaction involves a related security rather than the underlying security does not diminish its potential for providing an improper benefit to the insider at the expense of the fund and its shareholders.

The Commission requests comment whether this amendment would appropriately clarify the scope of the rule. Should paragraph (a) of rule 17j–1 incorporate other standards to define the types of related securities that fall within the scope of the rule, such as the standard used to determine whether an arrangement creates a "pecuniary interest" in an equity security for purposes of section 16 under the Securities Exchange Act of 1934 ("Exchange Act")[62]

---

[50] If a fund is not required to have a code of ethics, the proposed amendment would not require any prospectus disclosure of that fact. A fund that invests only in the securities of another fund (as is the case with "master/feeder" funds or variable annuities structured as unit investment trusts that invest in an underlying fund) would be required to disclose the requested information for the fund in which it invests and for such fund's investment adviser and principal underwriter. *See* Letter from Richard C. Breeden, Chairman, SEC, to John D. Dingell, Chairman, Committee House Committee on Energy and Commerce (Apr. 15, 1992), at Part III; Letter from Carolyn B. Lewis, Assistant Director, Division of Investment Management, SEC, to Registrants (Feb. 22, 1993), at Comment II.H. The new disclosure would be required under proposed amendments to Item 5 of Form N–1A, Item 9 of Form N–2, Item 6 of Form N–3, Item 3 of Form N–5 and Item 41 of Form N–8B–2.

[51] The Commission also is proposing that a fund be required to file with the Commission all codes of ethics applicable to the fund as exhibits to the fund's registration statement. *See infra* text accompanying note 57.

Laderman, *The Prospectus Tries Plain Speaking*, Bus. Wk., Aug. 14, 1995, at 72; Stan Hinden, *Investor Protection, Plain and Simple; The SEC Unveils a New Fund Prospectus Written in Basic, Understandable Language*, Wash. Post, July 30, 1995, at H3; Albert B. Crenshaw, *SEC Ponders How to Make Prospectuses Speak Plainly*, Wash. Post, Oct. 16, 1994, at H1, H12.

[56] The ICI Advisory Group recommended certain minimum standards for all codes of ethics, such as prohibiting fund personnel from investing in initial public offerings, receiving short-term trading profits, and receiving gifts. *See* ICI Report, *supra* note 11. The ICI Survey indicated that a majority of fund complexes that responded to the survey are in some manner adopting these standards. *See* ICI Survey, *supra* note 11.

[57] If a fund is not required to have a code of ethics because it is a money market fund or because its investment policies permit it to invest only in securities that are exempt from the definition of "security" in rule 17j–1(e)(5), the fund would not be required to file any code, but would indicate on its exhibit list the reason that no code of ethics is being filed. If the fund invests only in the securities of another fund (as is the case with "master/feeder" funds), the fund would be required to file the codes of ethics applicable to the fund in which it invests. The exhibits would be required under proposed amendments to Item 24 of Forms N–1A and N–2, Item 28 of Form N–3, the Instructions As To Exhibits of Form N–5 and Part IX of Form N–8B–2.

[58] Prior to the adoption of Form N–SAR (17 CFR 249.330, 274.101) in 1985, funds made periodic reports on Form N–1R. Funds were required to file a copy of any codes of ethics or other written conflicts policies as exhibits to the form. *See, e.g.* Prevention of Unlawful Activities with Respect to Registered Investment Companies, Investment Company Act Release No. 10162 (Mar. 20, 1978), 43 FR 12721. Form N–SAR does not include a similar requirement.

[59] Proposed amendment to rule 17j–1(e)(6).

[60] House Report, *supra* note 7, at 28; Senate Report, *supra* note 7, at 29.

[61] Similarly, a fund insider who purchases or sells an underlying security when the fund holds or intends to purchase the related security could, in some instances, improperly benefit from that transaction. A security that underlies an option, warrant or convertible security held by a fund generally would be a security that is being considered for purchase by the fund.

[62] *See* rule 16a–1(a)(2) (17 CFR 240.16a–1(a)(2)) under the Exchange Act, which provides that certain persons are deemed to beneficially own specified equity securities if they have a "direct or indirect pecuniary interest" in the securities. The rule defines a pecuniary interest in an equity security as "the opportunity, directly or indirectly, to profit or share in any profit derived from a transaction in the subject securit(y)." The rule includes examples of "indirect pecuniary interests," such as a general partner's proportionate interest in a portfolio of securities held by the partnership, certain performance-based fee arrangements, and a person's interest in securities held in a trust. As noted below, this definition is being incorporated into the rule's reporting provisions. *See infra* note 69 and accompanying text.

E. Other Amendments

1. Money Market Instruments

Money market instruments and shares of open-end funds would appear to present little opportunity for the type of improper trading that rule 17j–1 is intended to cover.[63] The Commission therefore excepted bankers' acceptances, bank certificates of deposit, commercial paper and shares of open-end funds from the definition of "security" for purposes of rule 17j–1.[64] Since the adoption of the rule, the Division has issued several no-action and interpretive letters generally restating the Commission's position that all money market instruments (and not only those specified by the rule) are excepted from the rule's definition of "security."[65] The Commission proposes to amend the definition of "security" in the rule to specifically provide that, in addition to the money market instruments currently listed, repurchase agreements and other high quality short-term debt instruments also are excepted from the definition.[66] The proposed amendments also provide that money market funds are not required to adopt codes of ethics.[67] The Commission requests comment whether there are other types of securities that, like money market instruments, would appear to present little opportunity for the type of improper trading that rule 17j–1 is intended to cover, and thus should be excepted from the definition of "security" for purposes of the rule.

2. Beneficial Ownership

Rule 17j–1 currently provides that, for purposes of the reporting requirement of paragraph (c) of the rule, beneficial ownership should be interpreted in a manner that is consistent with the way that term is interpreted for purposes of section 16 of the Exchange Act. In 1991, the Commission adopted revised rule 16a–1 under the Exchange Act in part to clarify the meaning of beneficial ownership for purposes of section 16.[68] Shortly thereafter, the Division issued a letter stating that the definition of beneficial ownership provided in newly adopted rule 16a–1(a)(2) under the Exchange Act should be used when determining beneficial ownership for purposes of paragraph (c) of rule 17j–1.[69] The Commission proposes to amend rule 17j–1(c) to incorporate this interpretation.

3. Conforming Amendments to Advisers Act Rules

Under paragraphs (a)(12) and (a)(13) of rule 204–2 under the Advisers Act, every investment adviser is required to keep records of the personal securities transactions of the adviser and its "advisory representatives" (as defined in the rule). Although the purposes of these paragraphs are substantially the same as the purposes of paragraph (c) of rule 17j–1, the two rules except transactions in different securities from their respective reporting/recordkeeping requirements. Currently, the rule under the Advisers Act excepts from its recordkeeping requirements only transactions in government securities.[70] The Commission believes the reporting requirements for the two rules should cover the same securities. Therefore, the Commission is proposing to amend rules 204–2(a)(12) and 204–2(a)(13) to except from the recordkeeping requirement transactions in securities that are (i) direct obligations of the U.S. Government, (ii) high quality short-term instruments,[71] including but not limited to bankers' acceptances, bank certificates of deposit, commercial paper and repurchase agreements, and (iii) shares of registered open-end investment companies. The Commission also proposes to incorporate the definition of beneficial ownership in rule 16a–1(a)(2) under the Exchange Act into rule 204–2.[72]

III. General Request for Comments

Any interested persons wishing to submit written comments on the rule and form changes that are the subject of this Release, to suggest additional changes, or to submit comments on other matters that might have an effect on the proposals contained in this Release, are requested to do so.

IV. Cost/Benefit Analysis

Funds and the public would benefit from the proposed amendments because the amendments would help prevent fraudulent activity, the costs to the public and shareholders of which could far exceed the cost of compliance with the proposed amendments.

The proposed amendments would impose certain additional costs on rule 17j–1 organizations and their access persons to the extent that these organizations do not currently require their access persons to file initial reports listing all securities held by the access persons, and to the extent the currently required quarterly reports do not include all securities transactions by access persons. Because access persons already are required by rule 17j–1 to file quarterly reports, however, the cost to these entities of accommodating initial reports is estimated to be minimal. The costs to access persons of compiling such reports also is estimated to be minimal.

Funds would incur additional costs for the proposed initial review of the codes applicable to the funds, the annual report and certification from fund management, the additional prospectus disclosure and the filing of applicable exhibits under the proposed amendments. However, in certain cases, fund costs would decrease because the proposed amendments would expand the list of securities exempt from the recordkeeping requirements.

---

[63] *See* Adopting Release, *supra* note 4, at 73919.

[64] Rule 17j–1(e)(5). The rule also excepts "securities issued by the Government of the United States" from the definition. The proposed amendments would change this exception to read "direct obligations of the Government of the United States" in order to conform the exception to the exception for these securities listed in rules 204–2(a)(12) and 204–2(a)(13) under the Advisers Act. *See infra* part II.E.3. *See also*, ACM Government Income Fund, Inc. (pub. avail. Dec. 15, 1988) (Division staff interprets the reference to government securities in rule 17j–1(e)(5) to refer only to direct obligations of the United States, and not to obligations of instrumentalities).

[65] *See, e.g.*, The Mexico Fund, Inc. (pub. avail. Aug. 23, 1982); The Securities Groups Money Fund, Inc. (pub. avail. May 6, 1982); Institutional Liquid Assets (pub. avail. July 6, 1981).

[66] Proposed amendment to rule 17j–1(e)(5). The Commission interprets "high quality short-term debt instrument" to mean any instrument having a maturity at issuance of less than 366 days and which is rated in one of the highest two rating categories by a Nationally Recognized Statistical Rating Organization, or which is unrated but is of comparable quality.

[67] Proposed amendment to rule 17j–1(b). This is consistent with an interpretive position taken by the Division staff that funds that invest only in securities that are excepted from the definition of "security" in rule 17j–1, and their investment advisers and principal underwriters, are not required to adopt codes of ethics. Investment Company Institute (pub. avail. Mar. 31, 1981).

[68] *See* Ownership Reports and Trading by Officers, Directors and Principal Security Holders, Securities Exchange Act Release No. 28869 (Feb. 8, 1991), 56 FR 7242. *See also supra* note 62.

[69] *See* Investment Company Institute (pub. avail. July 31, 1991).

[70] The Division staff has issued several no-action letters stating that transactions in shares of funds unaffiliated with the investment adviser are exempt from the recordkeeping requirements of paragraphs (a)(12) and (a)(13) of rule 204–2. *See, e.g.*, Massachusetts Financial Services Co. (pub. avail. Oct. 6, 1992). The Division staff also currently takes the position that transactions in shares of affiliated open-end funds are exempt from the recordkeeping requirements.

[71] *See supra* note 66.

[72] *See supra* note 69 and accompanying text.

V. Summary of Regulatory Flexibility Analysis

The Commission has prepared an Initial Regulatory Flexibility Analysis in accordance with 5 U.S.C. 603 regarding amendments to rule 17j–1 under the Investment Company Act and rule 204–2 under the Advisers Act, and amendments to fund registration forms under the Investment Company Act and the Securities Act. The analysis notes that the amendments are designed to improve the regulation of personal investment activities by enhancing the oversight of these activities by rule 17j–1 organizations, providing the public with additional information about fund personal investment policies and making the scope of rule 17j–1 more consistent with its purpose. Cost-benefit information reflected in the "Cost/Benefit Analysis" section of this Release also is reflected in the analysis. A copy of the Initial Regulatory Flexibility Analysis may be obtained by contacting David M. Goldenberg, Securities and Exchange Commission, 450 Fifth Street, NW., Mail Stop 10–2, Washington, DC 20549.

VI. Statutory Authority

The Commission is proposing to amend rule 17j–1 pursuant to the authority set forth in sections 17(j) and 38(a) of the Investment Company Act (15 U.S.C. 80a–17(j) and 80a–37(a)). The amendments to registration forms are proposed pursuant to the authority set forth in sections 6, 7(a), 10 and 19(a) of the Securities Act (15 U.S.C. 77f, 77g(a), 77j, 77s(a)), and sections 8(b), 24(a) and 38(a) of the Investment Company Act (15 U.S.C. 80a–8(b), 80a–24(a) and 80a–37(a)). The amendments to rule 204–2 under the Advisers Act are proposed pursuant to the authority set forth in sections 204, 206(4) and 211(a) of the Advisers Act (15 U.S.C. 80b–4, 80b–6(4) and 80b–11(a).)

Text of Proposed Rule and Form Amendments

List of Subjects in 17 CFR Parts 239, 270, 274 and 275

Investment companies, Reporting and recordkeeping requirements, Securities.

For the reasons set out in the preamble, Title 17, Chapter II of the Code of Federal Regulations is proposed to be amended as follows:

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

1. The authority citation for Part 270 continues to read, in part, as follows:

Authority: 15 U.S.C. 80a–1 *et seq.*, 80a–37, 80a–39 unless otherwise noted;

* * * * *

2. Section 270.17j–1 is revised to read as follows:

§ 270.17j–1 Certain unlawful acts, practices, or courses of business and requirements relating to codes of ethics with respect to registered investment companies.

(a) It shall be unlawful for any affiliated person of or principal underwriter for a registered investment company, or any affiliated person of an investment adviser of or principal underwriter for a registered investment company in connection with the purchase or sale, directly or indirectly, by such person of a security held or to be acquired, as defined in this section, by such registered investment company:

(1) To employ any device, scheme or artifice to defraud such registered investment company;

(2) To make to such registered investment company any untrue statement of a material fact or omit to state to such registered investment company a material fact necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading;

(3) To engage in any act, practice, or course of business which operates or would operate as a fraud or deceit upon any such registered investment company; or

(4) To engage in any manipulative practice with respect to such registered investment company.

(b)(1)(i) Every registered investment company, other than a money market fund, and each investment adviser of and principal underwriter for such investment company, shall have a written code of ethics containing provisions reasonably necessary to prevent its access persons from engaging in any act, practice, or course of business prohibited by paragraph (a) of this section and shall use reasonable diligence, and institute procedures reasonably necessary, including procedures by which the reports required by paragraph (c) of this section are reviewed by appropriate management or compliance personnel, to prevent violations of such code.

(ii) The board of directors of the investment company shall approve the code of the investment company. Prior to retaining the services of an investment adviser or principal underwriter, the board of directors shall review the codes of ethics adopted pursuant to paragraph (b)(1)(i) of this section by such investment adviser or principal underwriter, and shall receive a certification from such investment adviser or principal underwriter that it has adopted such procedures as are reasonably necessary to prevent access persons from violating such code. When approving or reviewing a code of ethics pursuant to this paragraph (b)(1)(ii), a majority of the directors of the investment company, including a majority of the directors who are not interested persons thereof, shall determine whether the code contains such provisions as are reasonably necessary to prevent access persons from engaging in any act, practice, or course of business prohibited by paragraph (a) of this section. In the case of a unit investment trust, the approval and review required by this paragraph (b)(1)(ii) shall be conducted by the principal underwriter or depositor of such unit investment trust.

(2) No less frequently than annually, the management of every investment company (other than a unit investment trust) and of its investment adviser and principal underwriter shall furnish to the directors of the investment company a report:

(i) Describing issues arising under the applicable code of ethics since the last report to the board, including, but not limited to, information about violations of the code, sanctions imposed in response to such violations, changes made to the code or procedures, and any proposed or recommended changes to the code or procedures; and

(ii) Certifying that the investment company, investment adviser or principal underwriter, as applicable, has adopted such procedures as are reasonably necessary to prevent access persons from violating the code.

(3) The requirements of paragraphs (b)(1) and (b)(2) of this section shall not apply to any underwriter:

(i) Which is not an affiliated person of the registered investment company or its investment adviser; and

(ii) None of whose officers, directors or general partners serves as an officer, director or general partner of such registered investment company or investment adviser.

(c)(1) Every access person of a registered investment company, other than a money market fund, or of an investment adviser of or principal underwriter for such investment company shall report to that investment company, investment adviser or principal underwriter:

(i) No later than 10 days after the date that such person becomes an access person, the title, CUSIP number (if any), number of shares and principal amount with respect to each security in which the access person had any direct or

indirect beneficial ownership at the time such person became an access person; and

(ii) No later than 10 days after the end of a calendar quarter, the information described in paragraph (c)(2) of this section with respect to any transactions during that quarter in any security in which the access person had, or by reason of such transaction acquired, any direct or indirect beneficial ownership in the security.

(2) Reports required to be made pursuant to paragraph (c)(1)(ii) of this section shall contain the following information:

(i) The date of the transaction, the title, CUSIP number (if any) and number of shares, and the principal amount of each security involved;

(ii) The nature of the transaction (*i.e.*, purchase, sale or any other type of acquisition or disposition);

(iii) The price at which the transaction was effected;

(iv) The name of the broker, dealer or bank with or through which the transaction was effected; and

(v) The date that the report is being submitted by the access person.

(3) Notwithstanding paragraph (c)(1) of this section, no person shall be required to make a report:

(i) With respect to transactions effected for any account over which such person does not have any direct or indirect influence or control;

(ii) If such person is not an "interested person" of a registered investment company within the meaning of section 2(a)(19) of the Act (15 U.S.C. 80a–2(a)(19)), and would be required to make such a report solely by reason of being a director of such investment company, except where such director knew or, in the ordinary course of fulfilling his official duties as a director of the registered investment company, should have known that during the 15-day period immediately preceding or after the date of the transaction in a security by the director such security is or was purchased or sold by such investment company or such purchase or sale by such investment company is or was considered by the investment company or its investment adviser;

(iii) Where the principal underwriter, as to which such person is an access person:

(A) Is not an affiliated person of the registered investment company or any investment adviser of such investment company; and

(B) Has no officers, directors or general partners who serve as officers, directors or general partners of such investment company or any such investment adviser;

(iv) Where a report made to an investment adviser would duplicate information recorded pursuant to §§ 275.204–2(a)(12) or 275.204–2(a)(13) of this chapter;

(v) Where a report to be made under paragraph (c)(1)(i) of this section would duplicate information that:

(A) Already has been provided to the investment company, investment adviser or principal underwriter;

(B) Would enable the investment company, investment adviser or principal underwriter to reconstruct the person's securities holdings at the time that the person became an access person; and

(C) Will be maintained in accordance with the requirements of paragraph (d)(3) of this section from the date that such person becomes an access person; or

(vi) Where a report to be made under paragraph (c)(1)(ii) of this section would duplicate information contained in a broker trade confirmation or account statement received by the investment company, investment adviser or principal underwriter with respect to such person in the time period required by that paragraph, *provided* that all of the information required by paragraph (c)(2) of this section is contained in such broker trade confirmation or account statement or is noted in the records of such investment company, investment adviser or principal underwriter.

(4) Each registered investment company, investment adviser and principal underwriter to which reports are required to be made pursuant to this section shall identify all access persons who are under a duty to make such reports to it and shall inform such persons of such duty.

(5) Any report required by paragraph (c)(1) of this section may contain a statement that the report shall not be construed as an admission by the person making such report that he or she has any direct or indirect beneficial ownership in the security to which the report relates. For purposes of this section, beneficial ownership shall be interpreted in the same manner as it would be under § 240.16a–1(a)(2) of this chapter in determining whether a person has beneficial ownership of a security for purposes of section 16 of the Securities Exchange Act of 1934 (15 U.S.C. 78p) and the rules and regulations thereunder.

(d) Each registered investment company, investment adviser and principal underwriter which is required to adopt a code of ethics or to which reports are required to be made by access persons shall, at its principal place of business, maintain records in the manner and to the extent set forth in this paragraph (d), and make such records available to the Commission or any representative thereof at any time and from time to time for reasonable periodic, special or other examination:

(1) A copy of each such code of ethics which is, or at any time within the past five years has been, in effect shall be preserved in an easily accessible place.

(2) A record of any violation of such code of ethics, and of any action taken as a result of such violation, shall be preserved in an easily accessible place for a period of not less than five years following the end of the fiscal year in which the violation occurs.

(3) A copy of each report made by an access person pursuant to this section, including any information provided in lieu of such reports pursuant to paragraphs (c)(3)(v) and (c)(3)(vi) of this section, shall be preserved for a period of not less than five years from the end of the fiscal year in which it is made, the first two years in an easily accessible place.

(4) A list of all persons who are, or within the past five years have been, required to make reports pursuant to this section, and a list of all persons responsible for reviewing such reports, shall be maintained in an easily accessible place.

(5) A copy of each report required by paragraph (b)(2) of this section shall be maintained for a period of not less than five years from the date such report is made, the first two years in an easily accessible place.

(e) As used in this section:

(1) *Access person* means:

(i) With respect to a registered investment company or an investment adviser thereof, any director, officer, general partner, or advisory person, as defined in this section, of such investment company or investment adviser.

(ii) With respect to a principal underwriter, any director, officer, or general partner of such principal underwriter who in the ordinary course of his business makes, participates in or obtains information regarding the purchase or sale of securities for the registered investment company for which the principal underwriter so acts or whose functions or duties as part of the ordinary course of his business relate to the making of any recommendation to such investment company regarding the purchase or sale of securities.

(iii) Notwithstanding the provisions of paragraph (e)(1)(i) of this section, where the investment adviser is primarily engaged in a business or businesses other than advising registered investment companies or other advisory clients, the term *access person* shall mean any director, officer, general partner, or advisory person of the investment adviser who, with respect to any registered investment company, makes any recommendation, participates in the determination of which recommendation shall be made, or whose principal function or duties relate to the determination of which recommendation shall be made to any registered investment company; or who, in connection with his duties, obtains any information concerning securities recommendations being made by such investment adviser to any registered investment company.

(iv) An investment adviser is "primarily engaged in a business or businesses other than advising registered investment companies or other advisory clients" when, for each of its most recent three fiscal years or for the period of time since its organization, whichever is lesser, the investment adviser derived, on an unconsolidated basis, more than 50 percent of its total sales and revenues and more than 50 percent of its income (or loss) before income taxes and extraordinary items from such other business or businesses.

(2) *Advisory person* of a registered investment company or an investment adviser thereof means:

(i) Any employee of such company or investment adviser (or of any company in a control relationship to such investment company or investment adviser) who, in connection with his regular functions or duties, makes, participates in, or obtains information regarding the purchase or sale of a security by a registered investment company, or whose functions relate to the making of any recommendations with respect to such purchases or sales; and

(ii) Any natural person in a control relationship to such company or investment adviser who obtains information concerning recommendations made to such company with regard to the purchase or sale of a security.

(3) *Control* shall have the same meaning as that set forth in section 2(a)(9) of the Act (15 U.S.C. 80a–2(a)(9)).

(4) *Purchase or sale of a security* includes, *inter alia*, the writing of an option to purchase or sell a security.

(5) *Security* shall have the meaning set forth in section 2(a)(36) of the Act (15 U.S.C. 80a–2(a)(36)), except that it shall not include:

(i) Direct obligations of the Government of the United States;

(ii) High quality short-term debt instruments, including but not limited to bankers' acceptances, bank certificates of deposit, commercial paper and repurchase agreements; and

(iii) Shares of registered open-end investment companies.

(6) *Security held or to be acquired* by a registered investment company means:

(i) Any security as defined in this section which, within the most recent 15 days:

(A) Is or has been held by such company; or

(B) Is being or has been considered by such company or its investment adviser for purchase by such company; and

(ii) Any option to purchase or sell, and any security convertible into or exchangeable for, a security described in paragraph (e)(6)(i) of this section.

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

PART 274—FORMS PRESCRIBED UNDER THE INVESTMENT COMPANY ACT OF 1940

3. The authority citation for Part 239 continues to read, in part, as follows:

Authority: 15 U.S.C. 77f, 77g, 77h, 77j, 77s, 77sss, 78c, 78*l*, 78m, 78n, 78o(d), 78w(a), 78*ll*(d), 79e, 79f, 79g, 79j, 79*l*, 79m, 79n, 79q, 79t, 80a–8, 80a–29, 80a–30 and 80a–37, unless otherwise noted.

* * * * *

4. The authority citation for Part 274 continues to read as follows:

Authority: 15 U.S.C. 77f, 77g, 77h, 77j, 77s, 78c(b), 78*l*, 78m, 78n, 78o(d), 80a–8, 80a–24, and 80a–29, unless otherwise noted.

5. Item 5 of Form N–1A (referenced in §§ 239.15A and 274.11A) is amended by adding paragraph (h) and an instruction to read as follows:

Note: The text of Form N–1A does not, and the amendments to the form will not appear in the Code of Federal Regulations.

Form N–1A

* * * * *

Item 5. Management of the Fund

* * * * *

(h) A brief statement explaining (i) that the Registrant and its investment adviser and principal underwriter have adopted codes of ethics that have been filed with the Commission, (ii) whether or not these codes of ethics permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the Registrant, and (iii) that information about how the codes can be inspected or copied at the Commission's public reference rooms or obtained from the Commission's headquarters is available through the Commission's toll-free telephone number, 1–800–SEC–0330.

Instruction: A Registrant that is a money market fund or that otherwise is not required to adopt a code of ethics under Rule 17j–1 under the 1940 Act [17 CFR 270.17j–1] is not required to respond to this item.

* * * * *

6. Item 24 of Form N–1A [referenced in §§ 239.15A and 274.11A] is amended by redesig..ating paragraph (b)(17) as paragraph (b)(18) and adding paragraph (b)(17) and an instruction to read as follows:

Form N–1A

* * * * *

Item 24. Financial Statements and Exhibits

* * * * *

(b) * * *

(17) a copy of all codes of ethics adopted pursuant to Rule 17j–1 under the 1940 Act [17 CFR 270.17j–1] and currently applicable to the Registrant (*i.e.*, the codes of the Registrant and its investment advisers and principal underwriters). If there are no codes of ethics applicable to the Registrant, state why (*e.g.*, that the Registrant is a money market fund).

Instruction: A Registrant that is a feeder fund must also file a copy of all codes of ethics applicable to the master fund.

* * * * *

7. Item 9 of Form N–2 (referenced in §§ 239.14 and 274.11a–1) is amended by removing the word "and" after the semicolon in paragraph 1.f., removing the period in the last line of paragraph 1.g. and replacing it with "; and" and adding paragraph 1.h. and an instruction to read as follows:

Note: The text of Form N–2 does not, and the amendments to the form will not, appear in the Code of Federal Regulations.

Form N–2

* * * * *

Item 9. Management

1. *General:* * * *

h. *Codes of Ethics:* a brief statement explaining (i) that the Registrant and its investment adviser and principal underwriter have adopted codes of ethics that have been filed with the Commission, (ii) whether or not these codes of ethics permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the Registrant, and (iii) that information about how the codes can be inspected or copied at the Commission's public reference rooms or obtained from the Commission's headquarters is available through the Commission's toll-free telephone number, 1–800–SEC–0330.

Instruction

A Registrant that is not required to adopt a code of ethics under Rule 17j–1 under the 1940 Act (17 CFR 270.17j–1) is not required to respond to this item.

* * * * *

8. Item 24 of Form N–2 (referenced in §§ 239.14 and 274.11a–1) is amended by redesignating paragraph 2.r. as

paragraph 2.s. and adding paragraph 2.r. to read as follows:

Form N–2

* * * * *

Item 24. Financial Statements and Exhibits

* * * * *

2. * * *

r. a copy of all codes of ethics adopted pursuant to Rule 17j–1 under the 1940 Act (17 CFR 270.17j–1) and currently applicable to the Registrant (*i.e.*, the codes of the Registrant and its investment advisers and principal underwriters). If there are no codes of ethics applicable to the Registrant, state why (*e.g.*, the Registrant invests only in direct obligations of the United States Government).

* * * * *

9. Item 6 of Form N–3 (referenced in §§ 239.17a and 274.11b) is amended by adding paragraph (e) and an instruction to read as follows:

Note: The text of Form N–3 does not, and the amendments to the form will not, appear in the Code of Federal Regulations.

Form N–3

* * * * *

Item 6. Management

* * * * *

(e) A brief statement explaining (i) that the Registrant and its investment adviser and principal underwriter have adopted codes of ethics that have been filed with the Commission, (ii) whether or not these codes of ethics permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the Registrant, and (iii) that information about how the codes can be inspected or copied at the Commission's public reference rooms or obtained from the Commission's headquarters is available through the Commission's toll-free telephone number, 1–800–SEC–0330.

Instruction: A Registrant that is a money market fund or that otherwise is not required to adopt a code of ethics under Rule 17j–1 under the 1940 Act (17 CFR 270.17j–1) is not required to respond to this item.

* * * * *

10. Item 28 of Form N–3 (referenced in §§ 239.17a and 274.11b) is amended by redesignating paragraph (b)(17) as paragraph (b)(18) and adding paragraph (b)(17) to read as follows:

Form N–3

* * * * *

Item 28. Financial Statements and Exhibits

* * * * *

(b) * * *

(17) a copy of all codes of ethics adopted pursuant to Rule 17j–1 (17 CFR 270.17j–1) and currently applicable to the Registrant (*i.e.*, the codes of the Registrant and its investment advisers and principal underwriters). If there are no codes of ethics applicable to the Registrant, state why (*e.g.*, the Registrant is a money market fund).

* * * * *

11. Item 3 of Form N–5 (referenced in §§ 239.24 and 274.5) is amended by removing the word "investment" both times that it appears in the introductory text and adding paragraph (i) after the instruction to read as follows:

Note: The text of Form N–5 does not, and the amendments to the form will not, appear in the Code of Federal Regulations.

Form N–5

* * * * *

Item 3. Policies With Respect to Security Investments

* * * * *

(i) Whether or not the codes of ethics of the registrant and its investment adviser and principal underwriter permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the registrant. Also state that the codes of ethics adopted by the registrant and its investment adviser and principal underwriter have been filed with the Commission and that information about how the codes can be inspected or copied at the Commission's public reference rooms or obtained from the Commission's headquarters is available through the Commission's toll-free telephone number, 1–800–SEC–0330.

* * * * *

12. The Instructions As To Exhibits of Form N–5 (referenced in §§ 239.24 and 274.5) are amended by redesignating paragraph 13 as paragraph 14 and adding paragraph 13 to read as follows:

Form N–5

* * * * *

Instructions as to Exhibits

* * * * *

13. A copy of all codes of ethics adopted pursuant to Rule 17j–1 under the 1940 Act (17 CFR 270.17j–1) and currently applicable to the registrant (*i.e.*, the codes of the registrant and its investment advisers and principal underwriters).

* * * * *

13. Item 41 of Form N–8B–2 (referenced in § 274.12) is amended by adding paragraph (d) to read as follows:

Note: The text of Form N–8B–2 does not, and the amendments to the form will not, appear in the Code of Federal Regulations.

Form N–8B–2

* * * * *

41. * * *

(d) Provide a brief statement explaining (i) that the trust and its principal underwriter have adopted codes of ethics that have been filed with the Commission, (ii) whether or not these codes of ethics permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the trust, and (iii) that information about how the codes can be inspected or copied at the Commission's public reference rooms or obtained from the Commission's headquarters is available through the Commission's toll-free telephone number, 1–800–SEC–0330.

* * * * *

14. Part IX of Form N–8B–2 (referenced in § 274.12) is amended by adding paragraph A.(11) to read as follows:

Form N–8B–2

* * * * *

IX

Exhibits

A. * * *

(11) a copy of all codes of ethics adopted pursuant to Rule 17j–1 under the 1940 Act (17 CFR 270.17j–1) and currently applicable to the trust (*i.e.*, the codes of the trust and its principal underwriters). If there are no codes of ethics applicable to the trust, state why (*e.g.*, the trust invests only in direct obligations of the United States Government).

* * * * *

PART 275—RULES AND REGULATIONS, INVESTMENT ADVISERS ACT OF 1940

15. The authority citation for part 275 continues to read, in part, as follows:

Authority: 15 U.S.C. 80b–3, 80b–4, 80b–6A, 80b–11, unless otherwise noted.

16. Section 275.204–2 is amended by revising the first sentence of paragraph (a)(12)(i), redesignating paragraphs (a)(12)(ii) and (a)(12)(iii) as (a)(12)(iii) and (a)(12)(iv), adding paragraph (a)(12)(ii), redesignating newly designated paragraph (a)(12)(iii)(B) as (a)(12)(iii)(C), adding paragraph (a)(12)(iii)(B), revising the first sentence of paragraph (a)(13)(i), redesignating paragraphs (a)(13)(ii) and (a)(13)(iii) as paragraphs (a)(13)(iii) and (a)(13)(iv), adding paragraph (a)(13)(ii), redesignating newly designated paragraphs (a)(13)(iii)(B) and (a)(13)(iii)(C) as (a)(13)(iii)(C) and (a)(13)(iii)(D) and adding new paragraph (a)(13)(iii)(B), to read as follows:

§ 275.204–2 Books and records to be maintained by investment advisers.

(a) * * *

(12)(i) A record of every transaction (other than transactions described in paragraph (a)(12)(ii) of this section) in a security in which the investment adviser or any advisory representative (as hereinafter defined) of such investment adviser has, or by reason of such transaction acquires, any direct or indirect beneficial ownership.* * *

(ii) Notwithstanding paragraph (a)(12)(i) of this section, no record need be kept of any transactions:

OL
60
SS
1
7
8
SE
14
995
MI

(A) Effected in any account over which neither the investment adviser nor any advisory representative of the investment adviser has any direct or indirect influence or control; or

(B) In securities which are:

(*1*) Direct obligations of the Government of the United States;

(*2*) High quality short-term debt instruments, including but not limited to bankers' acceptances, bank certificates of deposit, commercial paper and repurchase agreements; or

(*3*) Shares of registered open-end investment companies.

(iii) * * *

(B) The term *beneficial ownership* shall be interpreted in the same manner as it would be under § 240.16a–1(a)(2) of this chapter in determining whether a person has beneficial ownership of a security for purposes of section 16 of the Securities Exchange Act of 1934 [15 U.S.C. 78p] and the rules and regulations thereunder.

* * * * *

(13)(i) Notwithstanding the provisions of paragraph (a)(12) of this section, where the investment adviser is primarily engaged in a business or businesses other than advising registered investment companies or other advisory clients, a record must be maintained of every transaction (other than transactions described in paragraph (a)(13)(ii) of this section) in a security in which the investment adviser or any advisory representative (as hereinafter defined) of such investment adviser has, or by reason of such transaction acquires, any direct or indirect beneficial ownership.* * *

(ii) Notwithstanding paragraph (a)(13)(i) of this section, no record need be kept of any transactions:

(A) Effected in any account over which neither the investment adviser nor any advisory representative of the investment adviser has any direct or indirect influence or control; or

(B) In securities which are:

(*1*) Direct obligations of the Government of the United States;

(*2*) High quality short-term debt instruments, including but not limited to bankers' acceptances, bank certificates of deposit, commercial paper and repurchase agreements; or

(*3*) Shares of registered open-end investment companies.

(iii) * * *

(B) The term *beneficial ownership* shall be interpreted in the same manner as it would be under § 240.16a–1(a)(2) of this chapter in determining whether a person has beneficial ownership of a security for purposes of section 16 of the Securities Exchange Act of 1934 (15 U.S.C. 78p) and the rules and regulations thereunder.

* * * * *

Dated: September 8, 1995.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

Briefings on How To Use the Federal Register
For information on briefings in Washington, DC and Atlanta, GA, see announcement on the inside cover of this issue.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche and as an online database through *GPO Access*, a service of the U.S. Government Printing Office. The online database is updated by 6 a.m. each day the **Federal Register** is published. The database includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward. It is available on a Wide Area Information Server (WAIS) through the Internet and via asynchronous dial-in. The annual subscription fee for a single workstation is $375. Six-month subscriptions are available for $200 and one month of access can be purchased for $35. Discounts are available for multiple-workstation subscriptions. To subscribe, Internet users should telnet to swais.access.gpo.gov and login as newuser (all lower case); no password is required. Dial-in users should use communications software and modem to call (202) 512–1661 and login as swais (all lower case); no password is required; at the second login prompt, login as newuser (all lower case); no password is required. Follow the instructions on the screen to register for a subscription for the **Federal Register** Online via *GPO Access*. For assistance, contact the *GPO Access* User Support Team by sending Internet e-mail to help@eids05.eids.gpo.gov, or a fax to (202) 512–1262, or by calling (202) 512–1530 between 7 a.m. and 5 p.m. Eastern time, Monday through Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $494, or $544 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $433. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $8.00 for each issue, or $8.00 for each group of pages as actually bound; or $1.50 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 60 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: Sponsored by the Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC
[Two Sessions]

WHEN: October 17 at 9:00 am and 1:30 pm
WHERE: Office of the Federal Register Conference Room, 800 North Capitol Street NW., Washington, DC (3 blocks north of Union Station Metro)
RESERVATIONS: 202–523–4538

ATLANTA, GA

WHEN: September 20 at 9:00 am
WHERE: Centers for Disease Control and Prevention
1600 Clifton Rd., NE.
Auditorium A
Atlanta, GA
RESERVATIONS: 404–639–3528 (Atlanta area)
1–800–688–9889 (Outside Atlanta area)

Rules and Regulations

Federal Register
Vol. 60, No. 179
Friday, September 15, 1995

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 922

[Docket No. FV95–922–1FIR]

Apricots Grown in Designated Counties in Washington; Temporary Suspension of Grade Requirements for Apricots of the Patterson Variety

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department of Agriculture (Department) is adopting as a final rule, without change, the provisions of an interim final rule which temporarily suspended for the 1995 season only, the minimum grade requirements (Washington No. 1) for fresh shipments of the Patterson variety of apricots grown in Washington. The suspension will enable handlers of Patterson variety apricots to ship more fruit to the fresh market, taking into consideration the significant hail damage experienced by this variety during the growing season. This action will improve returns to producers of the Patterson variety of apricots. This rule was recommended by the Washington Apricot Marketing Committee (Committee), the agency responsible for the local administration of the marketing order for Washington apricots.

EFFECTIVE DATE: October 16, 1995.

FOR FURTHER INFORMATION CONTACT: Britthany Beadle, Marketing Specialist, Marketing Order Administration Branch, F&V, AMS, USDA, room 2522–S, P.O. Box 96456, Washington, DC 20090–6456: telephone: (202) 720–5127; or Teresa L. Hutchinson, Marketing Specialist, Northwest Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, 1220 SW Third Avenue, room 369, Portland, Oregon 97204–2807; telephone: (503) 326–2724.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Order No. 922 (7 CFR part 922), regulating the handling of apricots grown in designated counties in Washington, hereinafter referred to as the "order." This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C 601–674), hereinafter referred to as the "Act."

The Department is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 8c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after date of the entry of the ruling.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 30 handlers of Washington apricots subject to regulation under the order and approximately 400 producers of Washington apricots in the regulated production area. Small agricultural service firms, which includes handlers, have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than $5,000,000, and small agricultural producers are defined as those whose annual receipts are less than $500,000. The majority of handlers and producers of Washington apricots may be classified as small entities.

This rule finalizes the temporary suspension of the minimum grade requirements (Washington No. 1) for fresh shipments of the Patterson variety apricot for the 1995 season only. This temporary suspension allowed handlers of the Patterson variety apricot to ship more fresh apricots to the market due to the significant hail damage the crop has received.

Section 922.52 (7 CFR 922.52) authorizes the issuance of regulations for grade, size, quality, maturity, pack, markings, and container for any variety or varieties of apricots grown in any district or districts of the production area. Section 922.53 (7 CFR 922.53) authorizes the modification, suspension, or termination of the regulations issued under § 922.52.

Minimum grade, color, and size requirements for Washington apricots regulated under the order are specified in § 922.321 *Apricot Regulation* 21 (7 CFR 922.321). Section 922.321 provides that no handler shall handle any container of apricots unless such apricots grade not less than Washington No. 1, except for shipments that are exempt from regulation. In addition, this section provides that, with the exception of exempt shipments, apricots shipped must be reasonably uniform in color, and be at least 1⅝ inches in diameter, except for the Blenheim, Blenril, and Tilton varieties which must be at least 1¼ inches in diameter.

This rule suspends the minimum grade requirements for fresh shipments of the Patterson variety of apricots for the 1995 season. The grade requirements for the Patterson variety will resume April 1, 1996, for the 1996 and future seasons. Color and size requirements for the Patterson variety will remain unchanged.

The Committee met on May 11, 1995, and unanimously recommended the suspension of grade requirements for the Patterson variety. The Committee requested that this suspension be made effective by July 1, 1995, since the harvest of the Patterson variety was expected to begin shortly thereafter.

The Committee meets prior to each season to consider recommendations for modification, suspension, or termination of the regulatory requirements for Washington apricots which have been issued on a continuing basis. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department reviews Committee recommendations and information submitted by the Committee and other available information, and determines whether modification, suspension, or termination of the regulatory requirements would tend to effectuate the declared policy of the Act.

Information available to the Committee indicates that the Patterson variety of apricots experienced severe hail damage this season. The excessive damage was a result of location and stage of fruit development. The Patterson variety is the latest variety of apricots produced within the production area. Earlier varieties of apricots did not experience significant hail damage.

This suspension will enable handlers to ship a larger portion of the Patterson variety to the fresh market this season, than if the minimum grade requirements were not suspended. Without suspension of the grade requirements for the Patterson variety, most of the fruit could not be shipped to fresh markets. Last year, 151 tons of the Patterson variety were shipped into the fresh market. Information available to the Committee indicates that with suspension of the grade requirements for the Patterson variety, approximately 125 tons might be shipped to the fresh market. Since the Patterson variety is the latest variety of apricots shipped within the production area, the suspension of the grade requirements for this variety should not adversely affect the marketing of other varieties.

Suspension of the grade requirements for the Patterson variety is intended to increase fresh shipments to meet consumer needs and improve returns to producers.

The interim final rule concerning this action was published in the June 22, 1995, **Federal Register** (60 FR 32429), providing a 30-day comment period ending July 24, 1995. Two comments were received concerning the interim final rule.

Comments were submitted by Gene Stokes, general manager of the California Apricot Advisory Board (Board) and Steve Hash, Vice President of the Agricultural Division of A. Levy and J. Zentner Co., and member of the Board as well. Both contend that the Board is opposed to the temporary suspension of grade requirements because it would adversely affect the California fresh apricot market. Since the California apricot season ends (May through August) just when the Washington apricot season begins (July through September), Messrs. Stokes and Hash believe that any reduction in quality standards in Washington apricots would have a negative effect on purchases of California apricots during the 1996 season. They also contend that this temporary suspension would set a dangerous precedent for the future because hail damage is a common occurrence in Washington and California.

The Department has reviewed the comments of the Board and does not agree that the temporary suspension of grade requirements for one variety of Washington apricots will adversely affect the California market. There is a seven month period of time (from September to May) between the end of Washington apricot shipments for 1995 and the beginning of California apricot shipments for 1996. This period of time between the Washington and California shipping seasons is more than adequate not to have impact on the California apricot market.

After thoroughly analyzing the comments received and other available information, the Department agrees with and upholds the request of the Committee to temporarily suspend grade requirements for the Patterson variety apricot for the 1995 season, only. The Department does not believe that the comments of the Board have merit and concludes that this final rule is appropriate.

Based on these considerations, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant material presented, the information and recommendations submitted by the Committee, and other information, it is found that finalizing the interim final rule, without change, as published in the **Federal Register** (60 FR 32429, June 22, 1995) will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553). Further, handlers are aware of this rule, which was recommended at a public meeting. Also, a 30-day comment period was provided for in the interim final rule.

List of Subjects in 7 CFR Part 922

Apricots, Marketing agreements, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 922 is amended as follows:

PART 922—APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Accordingly, the interim final rule amending 7 CFR part 922 which was published at 60 FR 32429 on June 22, 1995, is adopted as a final rule without change.

Dated: September 11, 1995.

7 CFR Part 927

[FV95–927–2IFR]

Winter Pears Grown in Oregon, Washington, and California; Revision of Reporting Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This interim final rule reduces the reporting requirements for handlers who have shipped less than 2,500 standard western pear boxes during any two-week reporting period of the shipping season. This action decreases the reporting burden on such handlers while maintaining the information collection necessary for the efficient operation of the program. This rule was recommended by the Winter Pear Control Committee (Committee), the agency responsible for the local administration of the marketing order for winter pears.

EFFECTIVE DATE: September 15, 1995. Comments received by October 16, 1995 will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments

concerning this rule. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, room 2525–S, P.O. Box 96456, Washington, DC 20090–6456; Fax: (202) 720–5698. All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Teresa L. Hutchinson, Marketing Specialist, Northwest Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, 1220 SW Third Avenue, room 369, Portland, Oregon 97204–2807; telephone: (503) 326–2724; or Britthany Beadle, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, room 2522–S, P.O. Box 96456, Washington, DC 20090–6456; telephone: (202) 720–5331.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Order No. 927 (7 CFR part 927), regulating the handling of winter pears grown in Oregon, Washington, and California, hereinafter referred to as the "order." This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "Act."

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after date of the entry of the ruling.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 90 handlers of winter pears subject to regulation under the order and approximately 1,800 producers of winter pears in the regulated production area. Small agricultural service firms have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than $5,000,000, and small agricultural producers are defined as those whose annual receipts are less than $500,000. The majority of winter pear handlers and producers may be classified as small entities.

The Committee meets prior to each season to consider recommendations for modification, suspension, or termination of the regulatory requirements for winter pears which have been issued on a continuing basis. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department reviews Committee recommendations and information submitted by the Committee and other available information, and determines whether modification, suspension, or termination of the regulatory requirements would tend to effectuate the declared policy of the Act.

The Committee met on June 2, 1995, and unanimously recommended revising § 927.125 of the winter pear marketing order. This section governs the reporting requirements for handlers of winter pears.

Section 927.70 authorizes the Committee, subject to the approval of the Secretary, to request information from handlers necessary to perform its duties under the order. Section 927.125 provides that each handler shall furnish to the Committee, as of every other Friday, a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report" containing information used by the Committee for the collection of assessments and the development of statistical data.

This rule revises the reporting requirements to allow handlers who have shipped less than 2,500 standard western pear boxes during any two-week period of the shipping season to report less frequently while maintaining the information collection necessary for the efficient operation of the program.

Handlers are currently required to submit the "Handler's Statement of Pear Shipments" and the "Handler's Packout Report" every other Friday regardless of the quantity of pears shipped in the preceding two-week reporting period. Industry members have acknowledged that this can be burdensome for small handlers, who have shipments of less than 2,500 standard western pear boxes, to report every two weeks.

The Committee also determined that submission of such winter pear shipment data of less than 2,500 standard western pear boxes is not necessary on a biweekly basis for the efficient administration of the program. As an alternative, handlers may, at their option, not report until their accumulated shipments reach 2,500 standard western pear boxes, provided that they submit the following: a "Handler's Packout Report" at the end of harvest which includes a preliminary packout estimate; a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report" after completion of shipments from regular storage (i.e. non-Controlled Atmosphere storage), at mid-season for Controlled Atmosphere storage, and at the completion of shipments. If the preliminary packout estimate varies from the actual shipments, an explanation of the difference will be required with the final shipment report. The two final reports shall be marked "final report" and include an explanation of the actual shipments versus the original estimate, if different.

Information collection requirements will continue to be periodically reviewed by the Committee to ensure that they place a minimal burden on handlers required to file the information. Committee procedures will also continue to be reviewed and streamlined to assure efficiency in administering information collections. The information collection requirements contained in these regulations have been previously approved by the Office of Management and Budget (OMB) and have been assigned OMB Control Number 0581–0089.

Based on the above information, the Administrator of the AMS has

OL

SS
179
SE
15
995
MI

determined that this interim final rule will not have a significant impact on a substantial number of small entities and that the action set forth herein will benefit producers and handlers of winter pears.

After consideration of all available information, it is found that this interim final rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) This action reduces reporting requirements for winter pear handlers who ship less than 2,500 standard western pear boxes in a two-week reporting period; (2) the Committee unanimously recommended this rule at a public meeting and all interested persons had an opportunity to provide input; (3) winter pear shipments are expected to begin in early August, and this rule should apply to most of the season's shipments; (4) handlers of winter pears are aware of this rule and they need no additional time to comply with the relaxed requirements; and (5) this rule provides a 30-day comment period and any comments received will be considered prior to finalization of this rule.

List of Subjects in 7 CFR Part 927

Marketing agreements, Pears, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 927 is amended as follows:

PART 927—WINTER PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

1. The authority citation for 7 CFR part 927 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 927.125 is amended by redesignating paragraphs (d) and (e) as paragraphs (e) and (f), respectively, and adding a new paragraph (d) to read as follows:

§ 927.125 Reports.

* * * * *

(d) Each handler who has shipped less than 2,500 standard western pear boxes during any two-week reporting period of the shipping season may, in lieu of reporting biweekly, report as follows:

(1) At completion of harvest, on the next biweekly reporting date, furnish to the Control Committee a "Handler's Packout Report";

(2) After unreported shipments total 2,500 standard western pear boxes, furnish to the Control Committee a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report" on the next biweekly reporting date;

(3) After completion of all shipments from regular storage (i.e. non-Controlled Atmosphere storage) at the end of the shipping season, furnish to the Control Committee a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report" on the next biweekly reporting date;

(4) At mid-season for Controlled Atmosphere storage, at a date established by the Control Committee, furnish to the Control Committee a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report"; and

(5) At the completion of all seasonal pear shipments, furnish to the Control Committee a "Handler's Statement of Pear Shipments" and a "Handler's Packout Report" on the next biweekly reporting date. Each of these reports shall be marked "final report" and include an explanation of the actual shipments versus the original estimate, if different.

7 CFR Part 989

[Docket No. FV95–989–4IFR]

Raisins Produced From Grapes Grown in California; Expenses and Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This interim final rule authorizes expenditures and establishes an assessment rate under Marketing Order No. 989 for the 1995–96 crop year. Authorization of this budget enables the Raisin Administrative Committee (Committee) to incur expenses that are reasonable and necessary to administer the program. Funds to administer this program are derived from assessments on handlers.

DATES: Effective August 1, 1995, through July 31, 1996. Comments received by October 16, 1995, will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this action. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523–S, Washington, DC 20090–6456, FAX 202–720–5698. Comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Martha Sue Clark, Marketing Order Administration Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523–S, Washington, DC 20090–6456, telephone 202–720–9918, or Richard P. Van Diest, California Marketing Field Office, Fruit and Vegetable Division, AMS, USDA, suite 102B, 2202 Monterey Street, Fresno, CA 93721, telephone 209–487–5901.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), regulating the handling of raisins produced from grapes grown in California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This interim final rule has been reviewed under Executive Order 12778, Civil Justice Reform. Under the provisions of the marketing order now in effect, California raisins are subject to assessments. It is intended that the assessment rate as issued herein will be applicable to all assessable raisins handled during the 1995–96 crop year, which began August 1, 1995, and ends July 31, 1996. This interim final rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the

district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 20 handlers of California raisins who are subject to regulation under the raisin marketing order, and approximately 4,500 producers in the regulated area. Small agricultural service firms have been defined by the Small Business Administration (13 CFR 121.601) as those whose annual receipts (from all sources) are less than $5,000,000, and small agricultural producers are defined as those having annual receipts of less than $500,000. No more than eight handlers, and a majority of producers, of California raisins may be classified as small entities. Twelve of the 20 handlers subject to regulation have annual sales estimated to be at least $5,000,000, and the remaining eight handlers have sales less than $5,000,000, excluding receipts from any other sources.

The budget of expenses for the 1995–96 crop year was prepared by the Committee, the agency responsible for local administration of the marketing order, and submitted to the Department for approval. The members of the Committee are producers and handlers of California raisins. They are familiar with the Committee's needs and with the costs of goods and services in their local area and are thus in a position to formulate an appropriate budget. The budget was formulated and discussed in a public meeting. Thus, all directly affected persons have had an opportunity to participate and provide input.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected acquisitions of California raisins. Because that rate will be applied to actual acquisitions, it must be established at a rate that will provide sufficient income to pay the Committee's expenses.

The Committee met August 15, 1995, and unanimously recommended a 1995–96 budget of $1,500,000, which is $176,000 more than the previous year. Budget items for 1995–96 which have increased compared to those budgeted for 1994–95 (in parentheses) are: Office salaries, $226,000 ($123,000), field and compliance salaries, $75,000 ($44,000), Payroll taxes, $32,000 ($30,000), group retirement, $23,000 ($20,000), employee benefit expense, $6,000 ($2,500), general insurance, $16,000 ($8,000), group medical insurance, $48,000 ($40,000), Committee members insurance, $385 ($350), equipment expense, $20,000 ($10,000), office travel, $20,000 ($14,000), objective measurement survey, $15,500 ($14,750), and export program foreign administration, $385,000 ($357,000). The Committee also recommended $35,000 for export program trade activities and $23,000 for research and communications, for which no funding was recommended last year. Items which have decreased compared to those budgeted for 1994–95 (in parentheses) are: Executive salaries, $170,000 ($230,000), Committee travel, $50,000 ($75,000), and reserve for contingencies, $142,115 ($142,400).

The Committee unanimously recommended an assessment rate of $5.00 per ton, which is $1.00 more than last year. This rate, when applied to anticipated acquisitions of 300,000 tons, will yield $1,500,000 in assessment income, which will be adequate to cover anticipated administrative expenses. Any unexpended assessment funds from the crop year are required to be credited or refunded to the handlers from whom collected.

While this rule will impose some additional costs on handlers, the costs are in the form of uniform assessments on handlers. Some of the additional costs may be passed on to producers. However, these costs will be offset by the benefits derived by the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented, including the information and recommendations submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) The Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis, (2) the crop year began on August 1, 1995, and the marketing order requires that the rate of assessment for the crop year apply to all assessable raisins handled during the crop year; (3) handlers are aware of this action which was unanimously recommended by the Committee at a public meeting and it is similar to other budget actions issued in past years; and (4) this interim final rule provides a 30-day comment period, and all comments timely received will be considered prior to finalization of this action.

List of Subjects in 7 CFR Part 989

Grapes, Marketing agreements, Raisins, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 989 is amended as follows:

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 989 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. A new § 989.346 is added to read as follows:

Note: This section will not appear in the Code of Federal Regulations.

§ 989.346 Expenses and assessment rate.

Expenses of $1,500,000 by the Raisin Administrative Committee are authorized, and an assessment rate of $5.00 per ton of assessable California raisins is established for the crop year ending July 31, 1996. Any unexpended funds from that crop-year shall be credited or refunded to the handler from whom collected.

Dated: September 11, 1995.

Sharon Bomer Lauritsen,

Deputy Director, Fruit and Vegetable Division.

[FV-94-701]

Pecan Promotion and Research Plan; Termination Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule; termination order.

SUMMARY: This document terminates the Pecan Promotion and Research Plan (Plan) in its entirety. This action is necessary because the promotion and research program for pecans is no longer in operation, the assets of the Pecan Marketing Board have been liquidated, and a final audit of the Board's books has been conducted.

EFFECTIVE DATE: October 16, 1995.

FOR FURTHER INFORMATION: Richard H. Mathews, Research and Promotion Branch, Fruit and Vegetable Division, AMS, USDA, AG Code 0244, PO Box 96456, Room 2535–S, Washington, DC 20090–6456, telephone (202) 720–9915.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding: Referendum Order issued on July 28, 1993, and published on August 3, 1993 (58 FR 41203); Termination Order issued on March 10, 1994, and published on March 15, 1994 (59 FR 11897).

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This termination order has been reviewed under Executive Order 12778, Civil Justice Reform. It is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this termination order.

This action is governed by section 1917(b) of the Pecan Promotion and Research Act of 1990 (7 U.S.C. 6001–6013). The Act authorizes a national pecan promotion, research, and information program. In accordance with the Act, the Department utilized notice and comment rulemaking in developing and implementing the Plan (7 CFR 1211.1–1211.78), which provides the framework for the program. The Plan became effective on May 1, 1992.

Section 1916(a) of the Act required that the Secretary conduct a continuance referendum within 24 months of the effective date of the Plan for the purpose of ascertaining whether growers, grower-shellers, and importers favor continuation, termination, or suspension of the Plan. The order directing that a referendum be conducted was issued on July 28, 1993, and published August 3, 1993 (58 FR 41203). A referendum was conducted with registration of voters from September 27 through October 1, 1993, and mail balloting during October 4–6, 1993.

Termination of the Plan was favored by 62.3 percent of the growers, grower-shellers, and importers casting valid ballots in the referendum. Therefore, pursuant to section 1917(b) of the Act and section 1211.73 of the Plan, it was found and determined that termination of the Plan was favored by a majority of the growers, grower-shellers, and importers voting in the referendum and that the Plan should therefore be terminated. A termination order was issued on March 10, 1994, and published on March 15, 1994 (59 FR 11897) which terminated provisions dealing with establishment and membership of the Pecan Marketing Board (Board), nomination procedures, powers, duties, policies, programs and projects, contracts, budgets, and assessments.

Certain administrative provisions of subpart A of the Plan, such as those relating to refunds, books and records, and the termination of the Plan, remained in effect to facilitate the orderly termination of activities under the Plan. Now, however, all refunds have been paid, all projects have been completed, the Board's assets have been liquidated, and there has been a final audit of the Board's books.

Therefore, it is hereby found and determined that the remaining terms and provisions of 7 CFR part 1211, i.e., Subpart A—Pecan Promotion and Research Plan and Subpart D—Procedure for the Conduct of Referenda in Connection With the Pecan Promotion and Research Plan, do not tend to effectuate the declared policy of the Act. For that reason, this order will terminate 7 CFR part 1211 in its entirety.

Order

It is, therefore, ordered, That 7 CFR part 1211 is hereby terminated effective on October 16, 1995.

List of Subjects in 7 CFR Part 1211

Administrative practice and procedure, Advertising, Agricultural research, Imports, Marketing agreements, Pecans, Promotion, Reporting and recordkeeping requirements.

PART 1211—PECAN PROMOTION AND RESEARCH PLAN [REMOVED]

For the reasons set forth in the preamble, and under the authority of 7 U.S.C. 6001 *et seq.*, 7 CFR Part 1211 is removed.

Dated: September 11, 1995.

Patricia Jensen,

Acting Assistant Secretary, Marketing and Regulatory Programs.

[FR Doc. 95–22948 Filed 9–14–95; 8:45 am]

BILLING CODE 3410-02-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 95–CE–52–AD; Amendment 39–9353; AD 95–19–05]

Airworthiness Directives; Fairchild Aircraft Models SA226–AT and SA226–TC Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to certain Fairchild Aircraft Models SA226–AT and SA226–TC airplanes. This action requires replacing the two lower aluminum cargo door receptacles with steel receptacles. A report of cargo door failure on one of the affected airplanes prompted this action. Fatigue of the two bottom cargo door receptacles caused the bottom third of the cargo door to bend outward and upward, causing damage to the fuselage door frame. The actions specified by this AD are intended to prevent decompression injuries and the cargo door from breaking off and striking the empennage or the elevator, which could cause substantial structural failure and loss of control of the airplane.

DATES: Effective September 26, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 26, 1995.

Comments for inclusion in the Rules Docket must be received on or before October 26, 1995.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–52–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Service information that applies to this AD may be obtained from Fairchild Aircraft, P.O. Box 790490, San Antonio, Texas 78279–0490. This information may also be examined at the Federal

Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–52–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Hung Viet Nguyen, Aerospace Engineer, FAA, Aircraft Certification Office, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150; telephone (817) 222–5155; facsimile (817) 222–5960.

SUPPLEMENTARY INFORMATION: The FAA has received a report of failure of a cargo door on a Fairchild Aircraft SA226 series airplane while it was in flight. Fatigue of the two bottom cargo door receptacles caused the bottom third of the cargo door to bend outward and upward, causing damage to the fuselage door frame. This condition, if not detected and corrected, could result in the following:

- Decompression injuries as a result of the door being opened,
- The door separating from the airplane, striking the empennage, and causing substantial structural failure, and
- The door separating from the airplane, striking the elevator, and causing loss of control of the airplane.

Fairchild Service Bulletin (SB) 226–52–008; Issued: April 3, 1979; Revised: April 6, 1984, specifies procedures for replacing the two lower aluminum cargo door receptacles with steel receptacles.

After examining the circumstances and reviewing all available information related to the incidents described above, including the referenced service bulletin, the FAA has determined that AD action should be taken in order to prevent decompression injuries and the cargo door from breaking off and striking the empennage or the elevator, which could cause substantial structural failure and loss of control of the airplane.

Since an unsafe condition has been identified that is likely to exist or develop in other Fairchild Aircraft SA226 series airplanes of the same type design, this AD requires replacing the two lower aluminum cargo door receptacles with steel receptacles. The actions shall be accomplished in accordance with Fairchild SB 226–52–008; Issued: April 3, 1979, Revised: April 6, 1984. In future rulemaking actions, the FAA may impose life limits on the cargo door and require additional cargo door modifications.

Since a situation exists (possible decompression and empennage or elevator failure) that requires the immediate adoption of this regulation, it is found that notice and opportunity for public prior comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting immediate flight safety and, thus, was not preceded by notice and opportunity to comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 95–CE–52–AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that must be issued immediately to correct an unsafe condition in aircraft, and is not a "significant regulatory action" under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket (otherwise, an evaluation is not required). A copy of it, if filed, may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

95–19–05 Fairchild Aircraft Corporation: Amendment 39–9353; Docket No. 95–CE–52–AD.

Applicability: Models SA226–AT (serial numbers AT001 through AT074) and SA226–TC (serial numbers TC201 through TC419) airplanes, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must use the authority provided in paragraph (c) of this AD to request approval from the FAA. This approval may address either no action, if the current configuration eliminates the unsafe condition, or different actions necessary to address the unsafe condition described in this AD. Such a request should include an assessment of the effect of the changed configuration on the unsafe condition addressed by this AD. In no case does the presence of any modification, alteration, or repair remove any airplane from the applicability of this AD.

Compliance: Required within the next 50 hours time-in-service after the effective date of this AD, unless already accomplished.

To prevent decompression injuries and the cargo door from breaking off and striking the empennage or the elevator, which could cause substantial structural failure and loss of control of the airplane, accomplish the following:

(a) Replace the lower two aluminum cargo door receptacles with steel receptacles in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of Fairchild Aircraft Service Bulletin (SB) 226–52–008; Issued: April 3, 1979; Revised: April 6, 1984.

(b) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(c) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, FAA, Aircraft Certification Office, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0150. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Fort Worth Aircraft Certification Office.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Fort Worth Aircraft Certification Office.

(d) The replacements required by this AD shall be done in accordance with Fairchild Aircraft Service Bulletin 226–52–008; Issued April 3, 1979; Revised April 6, 1984. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Fairchild Aircraft, P.O. Box 790490, San Antonio, Texas 78279–0490. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW., 7th Floor, suite 700, Washington, DC.

(e) This amendment (39–9353) becomes effective on September 26, 1995.

Issued in Kansas City, Missouri, on August 25, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–21673 Filed 9–14–95; 8:45 am]

BILLING CODE 4910–13–U

---

14 CFR Part 39

[Docket No. 95–CE–57–AD; Amendment 39–9337; AD 95–17–06]

Airworthiness Directives; Mooney Aircraft Corporation Model M20K Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to Mooney Aircraft Corporation (Mooney) Model M20K airplanes with a Continental TSIO–520–NB engine installed in accordance with Supplemental Type Certificate (STC) SA5691NM. This action requires repetitively inspecting the exhaust transition tube and turbo mount assembly for cracks, and replacing any part found cracked. A report of a cracked exhaust transition tube that connects the exhaust manifolds to the turbocharger inlet on one of the affected airplanes prompted this action. The actions specified by this AD are intended to prevent exhaust gases from entering the cabin heating system because of a cracked exhaust transition tube, which, if not detected and corrected, could result in hazardous levels of carbon monoxide in the airplane cabin.

DATES: Effective September 25, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 25, 1995.

Comments for inclusion in the Rules Docket must be received on or before November 27, 1995.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–57–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Service information that applies to this AD may be obtained from the Rocket Engineering Corporation, East 6247 Rutter Road, Felts Field, Spokane, Washington 99212. This information may also be examined at the Federal Aviation Administration (FAA), Central Region, Office of the Assistant Chief Counsel, Attention: Rules Docket 95–CE–57–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin Masterson, Aerospace Engineer, FAA, Northwest Mountain Region, 1601 Lind Avenue S.W., Renton, Washington 98055–4056; telephone (206) 227–2596; facsimile (206) 227–1181.

SUPPLEMENTARY INFORMATION: The FAA has received a report of a cracked exhaust transition tube that connects the exhaust manifolds to the turbocharger inlet on a Mooney Model M20K airplane. This airplane has a Continental TSIO–520–NB engine installed in accordance with Supplemental Type Certificate (STC) SA5691NM, which is owned by the Rocket Engineering Corporation. Included with this STC SA5691NM installation is an AiResearch THO8A67 turbocharger and intercooler.

In the above-referenced incident, a 4 to 5-inch crack had developed in the exhaust transition tube. In addition, the turbo mount brace was found cracked. These cracks were discovered following an incident where the pilot reported loss of engine power while in flight. A cracked exhaust transition tube that connects the engine manifolds and the turbocharger inlet could allow exhaust gases to enter the cabin heating system. In this instance, a hazardous level of carbon monoxide could enter the airplane cabin, resulting in pilot injury and subsequent loss of control of the airplane.

The Rocket Engineering Corporation has issued Mandatory Service Bulletin MSB95–305–1, dated August 9, 1995, which specifies procedures for inspecting the exhaust transition tube and turbo mount assembly on Mooney Model M20K airplanes with a Continental TSIO–520–NB engine installed in accordance with STC SA5691NM.

The FAA examined all available information related to the incident described above including the referenced service information and has determined that AD action should be taken to prevent exhaust gases from entering the cabin heating system because of a cracked exhaust transition tube, which, if not detected and corrected, could result in hazardous levels of carbon monoxide in the airplane cabin.

Since an unsafe condition has been identified that is likely to exist or develop on other Mooney Model M20K airplanes of the same type design that have a Continental TSIO–520–NB engine installed in accordance with STC SA5691NM, this AD requires repetitively inspecting the exhaust transition tube and turbo mount assembly for cracks, and replacing any part found cracked. Accomplishment of these actions will be in accordance with Rocket Engineering Corporation Mandatory Service Bulletin MSB95–305–1, dated August 9, 1995.

Since a situation exists (possible hazardous carbon monoxide levels in the airplane cabin) that requires the immediate adoption of this regulation, it is found that notice and opportunity for public prior comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting immediate flight safety and, thus, was not preceded by notice and opportunity to comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this request must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 95–CE–57–AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that must be issued immediately to correct an unsafe condition in aircraft, and is not a significant regulatory action under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket (otherwise, an evaluation is not required). A copy of it, if filed, may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 USC 106(g), 40101, 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

95–17–06 Mooney Aircraft Corporation: Amendment 39–9337; Docket No. 95–CE–57–AD.

Applicability: Model M20K airplanes (all serial numbers), certificated in any category, that have a Continental TSIO–520–NB engine installed in accordance with Supplemental Type Certificate (STC) SA5691NM, which is owned by the Rocket Engineering Corporation.

Note 1: This AD applies to each airplane identified in the preceding applicability revision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required initially within the next 10 hours time-in-service (TIS) after the effective date of this AD, and thereafter as indicated in the body of this AD.

To prevent exhaust gases from entering the cabin heating system because of a cracked exhaust transition tube, which, if not detected and corrected, could result in hazardous levels of carbon monoxide in the airplane cabin, accomplish the following:

(a) Inspect the following parts of the exhaust system for cracks in accordance with Rocket Engineering Corporation Mandatory Service Bulletin MSB95–305–1, dated August 9, 1995:

(1) Exhaust Transition Tube, part number 305–01–507HS, 305–01–507HS–Rev A, or 305–01–507HS–Rev B.

(2) Left Hand Forward Mount Tube, part number 305–03–501, 305–03–501–Rev A, or 305–03–501–Rev B.

(3) Right Hand Forward Mount Tube, part number 305–03–502 or 305–03–502–Rev A.

(b) If cracks are found in either the exhaust transition tube or the turbo mount tubes during any of the required inspections, prior to further flight, accomplish the following in accordance with Rocket Engineering Corporation Mandatory Service Bulletin MSB95–305–1, dated August 9, 1995.

(1) Replace any cracked exhaust transition tube with Exhaust Transition Tube, part number 305–01–507HS–Rev C, and reinspect this new exhaust transition tube at intervals not to exceed 50 hours TIS.

(2) Replace any cracked left hand forward mount tube with Left Hand Forward Mount Tube, part number 305–03–501–Rev C. The repetitive inspections of this part required by this AD may be terminated after this replacement.

(3) Replace any cracked right hand forward mount tube with Right Hand Forward Mount Tube, part number 305–03–502–Rev B. The repetitive inspections of this part required by this AD may be terminated after this replacement.

(c) If no cracks are found in either the exhaust transition tube or the turbo mount tubes during any of the inspections required by this AD, reinspect at intervals not to exceed 25 hours TIS provided the parts are crack-free.

(d) The replacements required by paragraphs (b)(1), (b)(2), and (b)(3) of this AD may be accomplished regardless of whether a part is found cracked in order to extend the repetitive inspection time of the exhaust transition tube or eliminate the repetitive inspection requirement of the left and right hand forward mount tube as is specified in the applicable paragraph of this AD.

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) An alternative method of compliance or adjustment of the initial or repetitive compliance times that provides an equivalent level of safety may be approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Northwest Mountain Region, 1601 Lind Avenue SW., Renton, Washington 98055–4056. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(g) The inspections and replacements required by this AD shall be done in accordance with Rocket Engineering Corporation Mandatory Service Bulletin MSB95–305–1, dated August 9, 1995. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the Rocket Engineering Corporation, East 6247 Rutter Road, Felts Field, Spokane, Washington 99212. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW., 7th Floor, suite 700, Washington, DC.

(h) This amendment (39-9337) becomes effective on September 25, 1995.

Issued in Kansas City, Missouri, on August 30, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 95–22048 Filed 9–14–95; 8:45 am]

BILLING CODE 4910–13–U

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 47

[T.D. ATF–367]

RIN 1512–AB37

Importation of Arms, Ammunition and Implements of War (93F–301P)

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Department of the Treasury.

ACTION: Final rule, Treasury decision.

SUMMARY: This final rule amends the list of countries from which the import of defense articles into the United States is proscribed to add Iran, Iraq, Libya, Mongolia, Sudan, and Syria and to remove Albania, Bulgaria, Kampuchea, Outer Mongolia, and Romania. The final rule also removes the proscription on import of defense articles, and technical data relating to defense articles, from South Africa and provides examples of countries with respect to which the United States maintains an arms embargo.

EFFECTIVE DATE: September 15, 1995.

FOR FURTHER INFORMATION CONTACT: Larry White, Coordinator, Firearms and Explosives Imports Branch, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue NW., Washington, DC 20226, (202) 927–8230.

SUPPLEMENTARY INFORMATION: The Arms Export Control Act of 1976, 22 U.S.C. 2278, gives the President of the United States the authority to control the import and export of defense articles and defense services.

Executive Order 11958 of January 18, 1977, as amended (42 FR 4311), delegated authority to control exports of defense articles and defense services to the Secretary of State. The Executive Order also delegated to the Secretary of the Treasury the authority to control the import of such articles and services. However, as stated in 27 CFR 47.55, ATF is guided by the views of the Departments of State and Defense on matters affecting world peace and the external security and foreign policy of the United States. After consulting these Departments, the Bureau of Alcohol, Tobacco and Firearms (ATF) is revising the provisions of 27 CFR part 47 to conform to the recommendation of the Department of State.

On August 23, 1994, the Department of State recommended that ATF formally add Iran, Iraq, Libya, Mongolia, Sudan and Syria to the list in 27 CFR 47.52(a) of countries from which the import of defense articles into the United States is proscribed. The Department of State also recommended that ATF remove Albania, Bulgaria, Kampuchea, Outer Mongolia, and Romania from the list of proscribed countries in § 47.52(a).

In addition, the Department of State advised ATF of the publication of a final rule on August 17, 1994 (59 FR 42158) amending the International Traffic in Arms Regulations to state that it is no longer the policy of the United States to deny licenses, other approvals, exports and imports of defense articles and defense services destined for or originating in South Africa. This final rule amends the regulations in part 47 to reflect this change.

Finally, pursuant to the Department of State's request, ATF is amending the regulations to provide examples of countries with which the United States maintains an arms embargo.

Executive Order 12866

Because the amendments to 27 CFR part 47 involve a foreign affairs function of the United States, Executive Order 12866 does not apply.

Administrative Procedure Act

Under 27 CFR 47.54, amendments made to 27 CFR part 47 are excluded from the rulemaking provisions of 5 U.S.C. 553 because this Part involves a foreign affairs function of the United States. Accordingly, it is not necessary to issue this Treasury Decision with notice and public procedure thereon under 5 U.S.C. 553(b) or subject to the effective date limitations in 5 U.S.C. 553(d).

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory flexibility analysis are not applicable to this final rule because the agency was not required to publish a general notice of proposed rulemaking under 5 U.S.C. 553 or any other law.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1980, Public Law 96–511, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR part 1320, do not apply to this final rule because there are no reporting or recordkeeping requirements.

Drafting Information

The principal author of this document is Angela Shanks, Technical Aide, Regulations Branch, Bureau of Alcohol, Tobacco and Firearms.

List of Subjects in 27 CFR Part 47

Administrative practice and procedure, Arms control, Arms and munitions, Authority delegation, Chemicals, Customs duties and inspection, Imports, Penalties, Reporting and recordkeeping requirements, Scientific equipment, Seizures and forfeitures.

Authority and Issuance

Title 27, Code of Federal Regulations, part 47, Importation of Arms, Ammunition and Implements of War, is amended as follows:

Paragraph 1. The authority citation for part 47 continues to read as follows:

Authority: 22 U.S.C. 2778.

Par. 2. Section 47.52 is amended by revising paragraph (a), by removing paragraph (c), by redesignating paragraphs (d) and (e) as paragraphs (c) and (d), and by revising the first sentence in the redesignated paragraph (d) to read as follows:

§ 47.52 Import restrictions applicable to certain countries.

(a) It is the policy of the United States to deny licenses and other approvals with respect to defense articles and defense services originating in certain countries or areas. This policy applies to Cuba, Iran, Iraq, Libya, Mongolia, North Korea, Sudan, Syria, Vietnam and the States that comprise the former Soviet Union (Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan). This policy applies to countries or areas with respect to which the United States maintains an arms embargo (e.g., Burma, China, Haiti, Liberia, Rwanda, Somalia, Sudan, UNITA (Angola), the former Yugoslavia, Zaire). It also applies when an import would not be in furtherance of world peace and the security and foreign policy of the United States.

* * * * *

(d) Applicants desiring to import articles claimed to meet the criteria specified in paragraph (c) of this section shall explain, and certify to, how the firearms meet the criteria. * * *

Signed: August 4, 1995.

Daniel R. Black,

Acting Director.

Approved: August 14, 1995.

John P. Simpson,

Deputy Assistant Secretary (Regulatory, Tariff and Trade Enforcement).

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This final rule amends the Pension Benefit Guaranty Corporation's regulations on Valuation of Plan Benefits in Single-Employer Plans and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal. The former regulation contains the interest assumptions that the PBGC uses to value benefits under terminating single-employer plans. The latter regulation contains the interest assumptions for valuations of multiemployer plans that have undergone mass withdrawal. The amendments set out in this final rule adopt the interest assumptions applicable to single-employer plans with termination dates in October 1995, and to multiemployer plans with valuation dates in October 1995. The effect of these amendments is to advise the public of the adoption of these assumptions.

EFFECTIVE DATE: October 1, 1995.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024 (202–326–4179 for TTY and TDD).

SUPPLEMENTARY INFORMATION: This rule adopts the October 1995 interest assumptions to be used under the Pension Benefit Guaranty Corporation's regulations on Valuation of Plan Benefits in Single-Employer Plans (29 CFR part 2619, the "single-employer regulation") and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal (29 CFR part 2676, the "multiemployer regulation").

Part 2619 sets forth the methods for valuing plan benefits of terminating single-employer plans covered under title IV of the Employee Retirement Income Security Act of 1974, as amended. Under ERISA section 4041(c), all single-employer plans wishing to terminate in a distress termination must value guaranteed benefits and "benefit liabilities," *i.e.*, all benefits provided under the plan as of the plan termination date, using the formulas set forth in part 2619, subpart C. (Plans terminating in a standard termination may, for purposes of the Standard Termination Notice filed with PBGC, use these formulas to value benefit liabilities, although this is not required.) In addition, when the PBGC terminates an underfunded plan involuntarily pursuant to ERISA section 4042(a), it uses the subpart C formulas to determine the amount of the plan's underfunding. Part 2676 prescribes rules for valuing benefits and certain assets of multiemployer plans under sections 4219(c)(1)(D) and 4281(b) of ERISA.

Appendix B to part 2619 sets forth the interest rates and factors under the single-employer regulation. Appendix B to part 2676 sets forth the interest rates and factors under the multiemployer regulation. Because these rates and factors are intended to reflect current conditions in the financial and annuity markets, it is necessary to update the rates and factors periodically.

The PBGC issues two sets of interest rates and factors, one set to be used for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. The same assumptions apply to terminating single-employer plans and to multiemployer plans that have undergone a mass withdrawal. This amendment adds to appendix B to parts 2619 and 2676 sets of interest rates and factors for valuing benefits in single-employer plans that have termination dates during October 1995 and multiemployer plans that have undergone mass withdrawal and have valuation dates during October 1995.

For annuity benefits, the interest rates will be 6.30% for the first 20 years following the valuation date and 5.75% thereafter. For benefits to be paid as lump sums, the interest assumptions to be used by the PBGC will be 4.785% for the period during which benefits are in pay status, and 4.0% during all years preceding the benefit's placement in pay status. The above annuity interest assumptions represent a decrease (from those in effect for September 1995) of .10 percent for the first 20 years following the valuation date and are otherwise unchanged. The lump sum interest assumptions represent a decrease (from those in effect for September 1995) of .25 percent for the period during which benefits are in pay status and the seven years directly preceding that period. They are otherwise unchanged.

Generally, the interest rates and factors under these regulations are in effect for at least one month. However, the PBGC publishes its interest assumptions each month regardless of whether they represent a change from the previous month's assumptions. The assumptions normally will be published in the **Federal Register** by the 15th of the preceding month or as close to that date as circumstances permit.

The PBGC has determined that notice and public comment on these amendments are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest rates and factors promptly so that the rates and factors can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in single-employer plans whose termination dates fall during October 1995, and in multiemployer plans that have undergone mass withdrawal and have valuation dates during October 1995, the PBGC finds that good cause exists for making the rates and factors set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866, because it will not have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or raise novel legal or policy issues arising out of legal mandates, the

President's priorities, or the principles set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

List of Subjects

29 CFR Part 2619

Employee benefit plans, Pension insurance, and Pensions.

29 CFR Part 2676

Employee benefit plans and pensions.

In consideration of the foregoing, parts 2619 and 2676 of chapter XXVI, title 29, Code of Federal Regulations, are hereby amended as follows:

PART 2619—[AMENDED]

1. The authority citation for part 2619 continues to read as follows:

Authority: 29 U.S.C. 1301(a), 1302(b)(3), 1341, 1344, 1362.

2. In appendix B, Rate Set 24 is added to Table I, and a new entry is added to Table II, as set forth below. The introductory text of both tables is republished for the convenience of the reader and remains unchanged.

Appendix B to Part 2619—Interest Rates Used To Value Lump Sums and Annuities

Lump Sum Valuations

In determining the value of interest factors of the form $v^{0:n}$ (as defined in § 2619.49(b)(1)) for purposes of applying the formulas set forth in § 2619.49 (b) through (i) and in determining the value of any interest factor used in valuing benefits under this subpart to be paid as lump sums (including the return of accumulated employee contributions upon death), the PBGC shall employ the values of i_t set out in Table I hereof as follows:

(1) For benefits for which the participant or beneficiary is entitled to be in pay status on the valuation date, the immediate annuity rate shall apply.

(2) For benefits for which the deferral period is *y* years (*y* is an integer and $0 < y \leq n_1$), interest rate i_1 shall apply from the valuation date for a period of *y* years; thereafter the immediate annuity rate shall apply.

(3) For benefits for which the deferral period is *y* years (*y* is an integer and $n_1 < y \leq n + n_2$), interest rate i_2 shall apply from the valuation date for a period of $y - n_1$ years, interest rate i_1 shall apply for the following n_1 years; thereafter the immediate annuity rate shall apply.

(4) For benefits for which the deferral period is *y* years (*y* is an integer and $y > n_1 + n_2$), interest rate i_3 shall apply from the valuation date for a period of $y - n_1 - n_2$ years, interest rate i_2 shall apply for the following n_2 years, interest rate i_1 shall apply for the following n_1 years; thereafter the immediate annuity rate shall apply.

TABLE I

[Lump sum valuations]

Rate set	For plans with a valuation date		Immediate annuity rate (percent)	Deferred annuities (percent)				
	On or after	Before		i_1	i_2	i_3	n_1	n_2
*	*	*	*	*	*	*		
24	10–1–95	11–1–95	4.75	4.00	4.00	4.00	7	8

Annuity Valuations

In determining the value of interest factors of the form $v^{0:n}$ (as defined in § 2619.49(b)(1)) for purposes of applying the formulas set forth in § 2619.49 (b) through (i) and in determining the value of any interest factor used in valuing annuity benefits under this subpart, the plan administrator shall use the values of i_t prescribed in Table II hereof.
